VOLUME 73

McLEAN, GRAY COUNTY, TEXAS -

THURSDAY, JULY 8, 1976

NUMBER 28

## Easter Seal Has New Service

A new service for disabled Texas children and adults, called "Easter Seal Action Line", has been initiated by the Easter Seal Society for Crippled Children and Adults of Texas. Easter Seal Action Line's 24 hour, toll-free number, 1-800-492-5555, can be used by disabled persons and their families to obtain information regarding help they need.

William E. Russell, Executive Director for the Texas Easter Seal Society, reports, "Many people, especially in the rural areas, don't realize how many services are available for the handicapped today." The Easter Seal Action Line is designed to serve as a link between the handicapped and those services. With just a phone call, persons can receive that assistance in helping them to locate service they need, where it can be obtained, and who can provide it for them.

Among the services available through the Texas Easter Seal Society, physical, and occupation therapies, evaluations, purchase of needed orthopedic equipment, all of which requires a medical doctor's authorization. The Texas Easter Seal Society pledges to make every effort to locate the needed service if that service is offered in the State of Texas. The Texas Easter Seal Society makes these services available to the handicapped of all ages.

Any handicapped person or anyone who knows a handicapped person who needs help in locating a needed service is urged to call the toll-free Easter Seal Action Line. Day or night 7 days a week.

## Diane Tarbet Goes To England

Diane Tarbet of Lefors left Monday with the Choral Group from West Texas State University for England and other parts of Europe, where they will have contest singing. The group included approximately 50 people. Diane is the daughter of former residents, Mr. and Mrs. Earl Tarbet and the granddaughter of Mrs. Brent Chapman of McLean.

Mr. and Mrs. E. M. Bailey and Mark were in Colorado and New Mexico over the holidays.

## Panfork Baptist Camp Begins

Baptist Churches of the eastern half of the Panhandle have completed plans for the 1976 Pan Fork Baptist Encampment through the month of July. This marks 30 years of service through camping to the children and youths of the Amarillo and North Fork Associations.

Approximately 600 boys and girls will take part in the three camps, the girls Monday through Thursday, July 5 to 8; boys Monday through Thursday, July 12 to 15; and youth which opens Monday, July 19, and will end Friday, July 23.

Each camp has a planned schedule which includes swimming, many other forms of recreation, evangelistic services, cabin devotionals, Bible study, missionary services and an awards assembly.

Stanley Hughes, will be in charge of missionary activities for all camps. He recently completed the two-year missionary journeyman program in Hong Kong, China. He is from Perico. Kathy McCurley will be camp pianist for the three camps.

Boys camp director will be Jim Scott, while the Rev. Charles Wyatt will be camp pastor. Other directors are Jim Wortham, music; Rick Wadley, assembly time; Kim Broadstreet, Jeff Holt and Rex Hughes, athletics; Mr. Scott, morning colors, and teachers will be Paul Watson, Charles Uzzle, Finis Marchman, Aaron Laverty, Roy Moody, Dan Beltz and Mike Sullivan.

John Gillespie will direct the youth camp, while Jim Theweatt will be camp pastor and Dan Ooher music director. Others will be Rick Wadley, assembly time, Kim Broadstreet, Terri Turner, Randy McCurley and Tom Colwell, athletics; Mr. Gillespie, morning colors and vespers. Teachers will be Benny Kilgo, Rev. Darrell Feemster, James Conner, Rev. Lewis Ellis, Preston Harrison, and Ron Harpster. Sponsor teacher will be Paul Burleson.

## New Specifications For CCC Loans

The Department of Agriculture adopted specifications for bagging and bale ties as a condition to eligibility for CCC loans at the request of the cotton industry.

This was done in an effort to improve the American bale package to afford better protection to the cotton in the bale and to minimize costs. The unsightly appearance of the U. S. Cotton bale has been the target of extreme criticism in world markets for many years.

The following packaging materials are approved for use on cotton pledged to CCC for loans.

(1) Specification bagging and ties.

(2) Bagging and/or ties which are properly identified with the National Cotton Council's Experimental Bale Packaging Program.

(3) Bagging carried over from 1975 which was eligible for packaging 1975-crop cotton may also be used to package 1976 crop cotton.

McLean gin has certified to CCC that they will use only approved materials listed above on cotton which may be pledged to CCC for loans.

It is your responsibility to insure that any cotton pledged to CCC is packaged in approved materials. If any of your cotton pledged for loan is packaged in materials which are not approved for use on 1976-crop cotton, such cotton will have to be redeemed and you will be assessed a \$5 per bale liquidated damages penalty.

## Social Security Information Available

You can obtain social security help by going by the Social Security office at 1541 North Hobart Street, in Pampa or by telephoning 669-3381 between the hours of 9 am and 4:45 pm, Monday through Friday, except national holidays.

A field representative will be in Shamrock on Mondays from 9:45 to 12 pm at 113 W. 2nd st.

A representative is available to explain the provisions of the social security act and answer questions at meetings of farm groups, unions, and other interested organizations. There are no charges for any of these services.

William Howard Taft was the first U. S. president to receive a salary of \$75,000 a year.

## Financial Aid Available For A. C. Students

As a means of reducing a student's educational costs, financial aid is offered at Amarillo College in various forms of loans, scholarships, grants, employment, or a combination of these.

"The objective of the financial aid program at AC is to provide assistance to students who, without such assistance, would not be able to pursue higher education," said Larry Patterson, director of financial aid and job placement at AC.

The financial need of a student is the difference between their reasonable expenses of an academic year and the amount which a student and his family can reasonably be expected to contribute toward these expenses, said Patterson.

Aid is available to students entering college through state, federal, and local government; through many private sources, such as industrial, service, civic, and fraternal groups; as well as directly through colleges and universities.

Sixty-eight various scholarships and funds are offered under the Amarillo College Foundation, Inc.

Other scholarships and loans will be awarded by the foundation to students needing financial aid or showing academic achievement.

Although there is no deadline for submitting applications, they should reach the Office of Financial Aid not later than six weeks prior to enrollment.

Other sources of financial aid may be received through the College Work Study Program or Veterans Assistance.

Students or prospective students interested in applying for financial aid at AC, should call or come by the Office of Financial Aid on the second floor of the College Union Building on the Washington Street campus.

## No Tolerance

"Bureaucracy does not tolerate the spirit of independence, it spreads the spirit of submission."

—Herbert Hoover

"A fellow with a stable mind can show a lot of horse sense."

## Bill of Rights brings responsibilities

We've all seen or heard a zillion stories and commercial products so far this Bicentennial year concerning the founding of this nation because of traditional dogmas of European empires.

Historians are kept jumping to uncover little known idiosyncrasies about regional leaders as they shuttle to and fro during their agonized labors of creating a new form of government which was to later make them into national heroes. Their achievement has become unique in world history.

We'll continue to be fed tidbits of inspiring revelations about the times and politics which incited the American Revolution. Our diet will be seasoned with sprinklings of patriotism.

And, if we're lucky, a tingle in our hearts has already generated a portion of the intense desire for freedom it took for a group of amateur politicians to get together and originate a system of self-government which could be successfully operated by diverse sects of people who were scattered not only by distance and communications, but religions and languages.

In basic terms, we have been given the option to attend any number of conflicting religious services on Sunday, lounge in front of the television with

## Tax Representative To Be In Pampa

In an effort to better serve the taxpayers of Gray, Hemphill, Roberts, and Wheeler counties, Bob Bullock, State Comptroller, will have tax enforcement officer John Hodges, present at the Gray County Courthouse in the County Court Room, Wednesday, July 14, from 8:00 to 5:00. Mr. Hodges will provide taxpayer services and answer any question businessmen and taxpayers may have.

The Field Office of the Comptroller's Office for the 26 Panhandle counties is located in Amarillo making it difficult for some taxpayers to obtain taxpayer services easily.

It is hoped that taxpayers will take advantage of the opportunity to ask questions, obtain forms and rulings they may need, and better inform themselves regarding state tax laws.

Bill Teague is Field Manager of the Amarillo, Field Office.

a cool beer or scatter favorite newspapers around the living room. Why, we can even force the government to listen to grievances! Imagine that in Roman Catholic Spain of Protestant Holland!

If we want, we can load our privately owned guns which the government cannot take from us and leisurely shoot at anything except our neighbors. Speaking of guns, have you ever heard of this government forcing a man to house and feed a soldier or sailor in his home? Some countries still have this right plus the power to crash through a family's door and search a home for just about anything.

Our founding fathers rejected imprisonment of a man who couldn't pay his debts which gave birth to the credit system in a free enterprise and laid a base for history's mightiest industrial complex. It also spawned a method for feeding not only the sick and poor but the lazy.

We've been given the privilege of seeing face to face all who accuse us of crimes and, once cleared, never again to be hounded by the accusations.

Do we really appreciate the responsibility of living in a country which cannot force us to testify against ourselves nor seize private possessions for public use without our receiving payment?

We still have the option-- whether to defend Americanism any time any place against any invader. But we'd better not pass up these responsibilities. (Clipped from the Yale News, Yale, Okla.)

## 44% Saving Bonds Goal Achieved

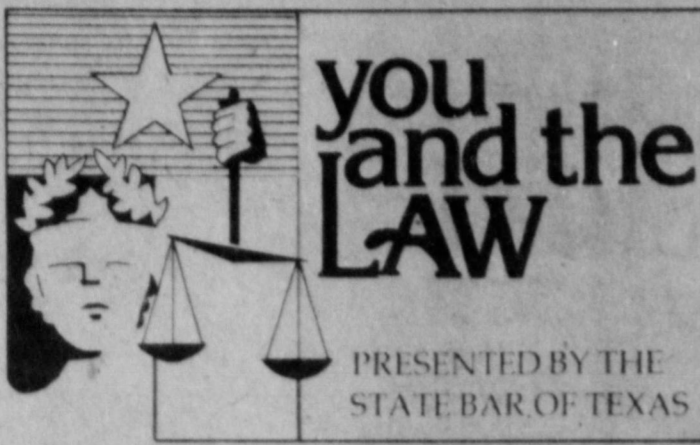

May sales of Series E and H United States Savings Bonds amounting to \$44,668 in Gray county were reported today by County Bond Chairman Floyd F. Watson. Sales for the five-month period totaled \$212,824 for 43% of the 1976 sales goal of \$490,000.

Sales in Texas during the month were \$23,323,639--while the year-to-date sales totaled \$118,488,815 with 44% of the \$272.4 million 1976 sales goal achieved.

Paul Revere made George Washington's first set of false teeth.

The Carey Don Smiths will leave this week for a three week vacation in California.

# You and the LAW

PRESENTED BY THE STATE BAR OF TEXAS

**Q: I'm planning to buy an accident and health insurance policy. Can I ask the insurance company to return my money if I decide not to keep the coverage after I have read the provisions of the policy?**

**A:** You are entitled to a 10-day examination period from the date the policy is delivered. If you decide you don't want to keep the policy, you may return it before the end of those 10 days and receive a rebate of all premiums and policy fees.

**Q: I lived in Texas from December 1974 until May 1975; then I moved to Europe. Does this qualify me for my six month's residency requirements for filing a divorce? If I return in June, how long will I have to wait until I receive final judgment?**

**A:** Living in Texas is only a part of meeting the residency requirement in the Family Code. If a person who moves to Europe from Texas planned to return to Texas after the trip and the residence abroad was merely temporary, that person could file for a divorce upon returning to Texas. The law provides for a 60-day waiting period, which starts with the filing of the divorce petition, before a judgment of divorce can be entered.

**Q: My divorce case is set for final hearing soon. Due to my heavy workload and differences between us, my lawyer wishes to withdraw from the case. I'm not sure that I'll be able to find another lawyer on such short notice. Can my lawyer with-**

**draw from the case?**

**A:** Most courts require an attorney who is representing someone in a matter pending before them to file a motion to withdraw from representation before the attorney can be excused from a case. The judge, in his discretion, may grant or deny the motion. The judge would take into account the various factors involved, including the difficulty you might have in obtaining another lawyer to enter the case with such a short period of time available to prepare for your hearing.

**Q: My husband and I have had wills prepared leaving our property to each other. Would this type of will have to be probated when one of us dies?**

**A:** If there is a need to appoint an executor to administer the estate, or if it is necessary to provide evidence of the beneficiary's title to property, the will must be probated. Administration is needed, for example, in cases where the deceased owed two or more debts, or where someone in possession of the decedent's property refuses to turn it over to the beneficiaries without some evidence of the beneficiary's right to receive the property. In cases where administration is not required, the will could be probated to provide evidence of the beneficiary's title to the decedent's property.

Send your questions to "You and the Law," State Bar of Texas, P.O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

## Senior Citizens Have Meetings

The Young at Heart Club met on Friday and Saturday nights at the senior citizens hall on Main Street, with 21 members present and two visitors.

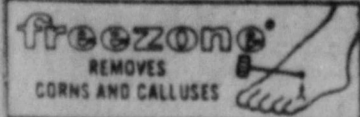

The visitors were Nancy Swanson of Spokane, Washington and Cressie Hood of Pampa. There were 35 served lunch on Tuesday. The Young at Heart Club serves lunch each Tuesday.

TO REPORT YOUR VISITORS CALL 799-2447.

## AGONIZING PAIN FROM INGROWN TOENAIL?

Get Outgro<sup>®</sup> for fast relief

Why suffer the agony of ingrown toenail pain when Outgro can give you fast, temporary relief? Outgro loosens irritated skin, eases inflammation, reduces swelling without affecting the shape, growth or position of the nail. Outgro gives you fast pain relief and makes it easier to cut out the nail - cut out the pain caused by ingrown toenail. Stop ingrown nail pain fast with Outgro.

## Tests For Credit Scheduled At Ac July 14

Students may receive college credit through successful completion of college level tests to be given at 1 p.m. July 14 at Amarillo College. Applications and checks for the College Level Examination Program (CLEP) must be made by July 13, said Fred Dodson, director of AC testing and counseling. Forms may be obtained from Dodson. Anyone may register for the tests, he said. Credit may not be acquired for any course in which the student has previously enrolled for credit or noncredit, he added.

Examination by credit classes administered by AC are American government, American history, college algebra, English composition, general chemistry, geology, calculus with analytical geometry, trigonometry, general psychology, business law, statistics, introductory economics, business management, accounting, introductory Sociology, Spanish, French, and German.

Students enrolled for the tests will meet in Room 107 of Ordway Hall on the Washington Street campus.

AC students must complete 15 hours in-residence at the college before exam credit will be entered on their transcript, commented Dodson.

"This will be the last set of CLEP tests given by AC until October," said Dodson.

Noah Webster began writing the dictionary in 1807 and finished in 1828.

# Future Independence Requires Energy Independence!

social gains of the past several years will be meaningless. To properly develop our own energy sources is a complex job that will take time and money...but it's a job that must be done. It can be done by private enterprise working with the blessing and the cooperation of our government. You can help by just simply understanding the need because that's the first step in solving the problem...the more people who understand and appreciate the need, obviously, the easier will be the massive job.

This nation, now celebrating its 200th birthday of independence, must, if it is to enjoy future independence, develop its own sources of energy. Militarily, economically, and socially, this nation's people must not be humbled by dependence on foreign oil cartels, friendly or unfriendly. Without our own basic energy sources, we face the loss of jobs because it takes energy to move the factory wheels. Without our own basic energy sources, we are but putty in the hands of foreign militarists who would not hesitate to destroy us. Without our own energy sources, the

### Spider Mites-- Bad News For Gardens

Spider mites, or red spiders as they are sometimes called, spell bad news for a garden. "There's no way to keep spider mites out of your garden, but it's a good idea to be able to recognize the pests and what type of damage they do," says Joe VanZandt, county agent for the Texas Agricultural Extension Service.

Spider mites are quite small, about 1/60 of an inch long, and can be white, red or green in color. They lay eggs on the undersides of leaves and the eggs hatch in about five days. The life cycle of a spider mite lasts three weeks. Hot dry weather is particularly favorable for their development.

Spider mites prefer beans, tomatoes, and

peas but will attack almost any plant. The bugs feed by sticking their mouthparts into leaf tissue and sucking out the juice while injecting a toxic substance into the leaf at the same time.

When a plant is infected with mites, it shows up as tiny spots on the undersides of leaves. Heavy infestations of mites cause bleaching and yellowing along the main leaf veins at first and later the whole leaf is affected.

After a while, the leaf's edges curl up, turn brown and eventually drop off the plant. If not controlled, spider mites can completely defoliate a plant.

VanZandt recommends using only pesticide compounds specifically intended to control mites. These may have to be applied from two to four times and used once every five days.

Use pesticides only as directed and inspect your plants frequently to check for signs of spider mites. Some good insecticides to use include diazinon, kelthane, malathion, ethion and sulfur.

Henry Wadsworth Longfellow is the only American whose bust is in Westminster Abbey in England.

### AC To Register For Summer Term

Amarillo College will conduct registration for the second summer term July 12 in the College Union Building.

Late registrants may report between 11:30 a.m. and noon, while evening college students may enroll between 7 and 8 p.m.

Various courses in biology, chemistry, economics, England, government, history, home economics, mathematics, men's and women's physical education, microbiology, psychology, reading, sociology, and zoology will be offered by the College of Arts and Sciences.

The School of Biomedical Arts and Sciences will offer programs in mental health.

The School of Technology will offer courses in accounting, data processing, electronics, and law enforcement.

Late registration and schedule changes may be accomplished until July 15 at the registrar's office in the Washington Street Administration Building. Complete and detailed schedules of course offerings may be picked up there.

Wong, used by at least 150,000,000 Chinese, is the world's most common family name.

### Market Report

Turkey prices are attractive in Texas grocery stores currently --with drumsticks providing "a lot of meat for the money, Mrs. Gwendolyn Clyatt reports.

She recommends turkey for summer meals, starting with rotisserie-roasted turkey, for example, then using left over turkey for sandwiches, salads and casseroles.

Mrs. Clyatt is a consumer marketing in-

formation specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Other poultry economy focuses on eggs-- a very reasonably priced protein food, even though prices have advanced slightly.

At dairy counters, consumers can expect some features on milk, yogurt, sour cream and a variety of cheeses.

In produce sections, economical items are those that are seasonal and in good supply--including watermelons, peaches, grapes, plums, nectarines and strawberries.

Also cabbage, carrots, snap beans, dry yellow onions, green peppers, corn, soft-shell squash and tomatoes.

Honeydew melons are not so plentiful, but supplies of cantaloupes are adequate and prices reasonable.

Along grocery store aisles, look for specials on tuna fish, peanut butter, shortening, catsup and canned tomatoes.

At beef counters, economy buys are the less tender cuts, such as chuck cuts, round steaks, short ribs and rump roasts.

These cuts require longer cooking time, but using a meat tenderizer--or a marinade--assures greater tenderness, and the flavor will match or surpass that of the more tender cuts.

CONSUMER WATCH-WORDS: Good quality watermelons are firm, symmetrical and fresh looking with a velvety bloom on the surface. The lower side is usually yellowish in color--compared to a white or pale green color on an immature melon.

### Birthday Party Is Held July 4

A birthday party was given July 4 at the city park honoring Wayne Haire on his seventy birthday. Those present were his wife Lona, one sister-in-law, Ora Holloway of McLean three sons and family, Mr. and Mrs. Freddie Haire Tommy and Cody of Stratford, Mr. and Mrs. Winford Haire of Perryton, Mr. and Mrs. Don Haire Donna, Lewis, Delena, Devon, Derenda of Clarendon, one daughter, Mr. and Mrs. Calvin Graves, Larry, Brett of Ardmore, Okla; and friends, Mr. and Mrs. Mitch Fremmon and baby Chelly, Mr. and Mrs. Chester Graves all of Sunray.

### Are You a Part of the 'LIGHT' Or the 'DARKNESS' of the World?

Some very familiar words of our Lord are, "Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven" (Matt. 5:16). The Lord in the sermon on the mount presents a foretaste of the kingdom or the church He would build on Pentecost, A.D. 33. It would be the light of truth shining through His followers (Faithful Christians) that would last until the end of time. He shows the glory that would be given God through that institution (Eph. 3:21) and the manner in which it would be rendered.

Light is attractive. It is also healing, warming, discerning, and exposing. Jesus came into the world as the light that would remove the darkness of ignorance and sin (Jn. 1:4-5). No matter how great the darkness may boast itself to be, it has never been able to overcome the light of truth! "...ye shall know the truth, and the truth shall make you free" (Jn. 8:32). For those who come out of darkness into light by repenting and mourning over their sins (Matt. 5:4), this light brings warming, healing, comforting help. This light leads us to discern between right and wrong (2 Tim. 2:15, Heb. 5:14)! We are instructed to "prove all things; hold fast that which is good" (1 Thess. 5:21). The spot light of truth will cause error to flee in the same manner that bugs will run when their dark hiding place is exposed by turning over the rock under which they are hiding. "The wicked flee when no man pursueth" (Prov. 28:1).

There is no greater joy than being a Christian and a light-bearer for the Lord! To walk in the light "as He is in the light" is to have fellowship with Him, as well as having fellowship with all who likewise walk. A preacher said on one occasion: "Matt. 5:16 doesn't say 'shine you light'...it rather says 'let your light so shine'! He certainly had a point. We shouldn't "Study to show ourselves" but rather "Study to show ourselves approved unto God" (2 Tim. 2:15). Those who teach, preach, and live the "word of life" are the light of the world and the salt of the earth. God works in those who obey Him, who do all "things without murmuring and disputing"...They are the blameless and harmless sons of God...who hold forth the world of life! (Phil. 2:12-16).

### Safety Tips For Texans

Kids do the darndest--and often the most dangerous--things.

This is especially true during the summer.

Last summer the most frequent causes of injury to children were riding bicycles, first; playing baseball, second; using nails and screws, third; playing football, fourth; and using slides, swings, seesaws and climbing apparatus, fifth.

To help reduce the number of such accidents there are three general guidelines for parents:

--Make sure all recreational equipment is safe and in good repair.

--Help young people learn the techniques, rules and etiquette of games they play to cut down misuse of equipment and unnecessarily wreckless activity.

--Be certain children understand the hazards involved in play activities and what safety rules to observe.

The number one cause of injury to young people in the summer is bicycling. The government survey shows that last summer more than 4,000 children between the ages of five and 14 were taken to hospital emergency rooms following bicycling accidents. During the months of July and August alone, there were 7,000 people of all ages injured seriously enough in bicycling ac-

idents to require emergency room treatment.

In Texas, the Department of Public Safety reports that 57 persons were killed in accidents in which a bicycle and automobile collided. There were 2,674 injuries in such accidents.

Safety authorities recommend these basic safety tips for bicycle riders in Texas:

--Be sure the bicycle is sturdy and in good working order before starting out. Be especially careful to see that the braking system is in good shape.

--Every bicycle should be equipped with lights and reflectors for safe driving at night or in low light. It is a good idea for the rider to wear reflector tapes and bright clothing to help motorists spot him.

--Always ride going in the same direction as the traffic. Riding with the traffic reduces the relative speed between the cyclist and moving vehicles, reducing the force of impact if an accident should occur.

--Choose your route carefully. Try to avoid thoroughfares heavily travelled by automobiles. Never ride on freeways, toll roads or major highways.

--Be alert for the same danger signs as if driving a car: rocks, ruts, potholes, bumps and other obstructions. Also watch out for children playing and cars or people suddenly darting out from the curb.

--Learn and observe the rules of the road; they apply to cyclists just as they do to motorists.

### News From ALAN REED

Irene Williams and Lena Carter were in Pampa on Monday and visited F. B. Carter at Leisure Lodge.

Visiting the J. A. hills during the holidays were Mr. and Mrs. Jack Hill and family of Lubbock and Rhonda and David Crow of Amarillo.

Granville Simmons and Jackie Steele had Sunday dinner with the Bill Crisps.

George Warner of Amarillo visited Mrs. Jewel Warner over the 4th. Visiting Mrs. Warner on Monday were Mr. and Mrs. Enloe Crisp of McLean.

Visiting the W. H. Davis over the holiday was daughter Willie and family of Panhandle.

Bert McKee is reported improving in the Groom Hospital.

On March 21 and September 23, day and night are of equal duration in every part of the world.

### My Neighbors

"True, we don't want to appear to over-react, but then, neither do we care to appear to under-react. So let's just give the facts."

### Helps Shrink Swelling Of Hemorrhoidal Tissues

caused by inflammation  
Doctors have found a medication that in many cases gives prompt, temporary relief from pain and burning itch in hemorrhoidal tissues. Then it actually helps shrink swelling of these tissues caused by inflammation.

The answer is Preparation H®. No prescription is needed for Preparation H Ointment or suppositories.

U.S.D.A. INSPECTED

Specials Good Friday and Saturday, July 9, 10, 1976

When America's Bicentennial celebration is over . . . when all the fireworks have been fired, all the flags have finished waving, and all the parades have faded away over the horizon . . . the nation's public health workers will continue to carry on the traditions of service to the community that are as old as the Republic itself.

Chances are, not many people will be thinking about public health matters during the Fourth of July festivities, and that's okay. In fact, it's a kind of testament to the effectiveness of our public health programs that people today take for granted clean water, sanitary food service, and freedom from disease. That hasn't always been true.

It certainly wasn't true during the early years of American independence. Throughout the Revolutionary War, epidemic diseases were rampant in most of the colonies--and, in fact, played an important role in the outcome of the War for Independence. British soldiers, after the long voyage across the Atlantic, frequently arrived in the colonies weakened by disease and fatigue. They were easy prey for yellow fever, smallpox, typhoid fever, and dysentery--all of which were common, especially in the Southern colonies.

Not that the American patriots were free of health problems. Time after time, General Washington pleaded with Congress for medical supplies, better food, and engineering help to protect his rag-tag army from defeat before they even had a chance to engage the Redcoats. Proper sanitation in the field and protection of food supplies were constant concerns.

During the War, health problems were equally severe among the civilian population. Sessions of Congress were interrupted time and again because of epidemic outbreaks of disease in Boston, New York, and Philadelphia. Major issues went unresolved for weeks because key delegates to the Continental Congress were quarantined at home, or were unable to reach the Congressional session because of their own illness and illness among their families. One reason Thomas Jefferson took little part in the drafting of the Constitution was the death of his wife during one of the periodic outbreaks of disease

in Virginia. It's no wonder, then, that public health was one of the first priorities of the newly-established state and federal governments. Laws were passed quickly to authorize local doctors to establish quarantines whenever an epidemic threatened. Other laws were passed to promote public health through regulations dealing with sanitation. These efforts were limited only by the limited medical knowledge of the time--a fact which the American states hoped to correct by establishing medical schools and providing for the proper training of medical practitioners.

Department of Health.

Over the years, new roles and responsibilities have continually been added to the duties of the state's public health agency. Most recently, in 1975, the agency was renamed yet again, as the Texas Department of Health Resources, and given a major new responsibility: the overall planning of all health facilities and services in the state, to insure that adequate medical care is available to every citizen.

And yet, even as we review the progress and development of public health in America over the past two hundred years, health officials across the nation are preparing to deal with that ancient enemy, the epidemic. The disease is a new one: a mutant strain of influenza virus. This time around, America's public health workers are better prepared than ever before to deal with the threat. For the first time, there's a good chance that the epidemic can be stopped entirely before it really has a chance to get started.

Truck Driving Course To Begin at TSTI

A evening course in professional truck operations will begin July 13, on the campus of TSTI. The course will be held on Tuesday and Thursday evening from 7:00-10:00 p.m.

The course topics to be covered will include laws, rules, regulations, preventive maintenance, and preliminary practice driving. Registration will be held in the Adult Continuing Education office, Technology Building beginning at 6:30 p.m. on July 13. Further information may be obtained by contacting the Adult Education Department, 335-2316, ext. 251.

**WHEELER CHRISTIAN ACADEMY**

TESTIMONY BY STUDENT

I can say that this past school year has been the happiest and most fulfilling school year of my life. Being a part of the first year of W. C. A. was very exciting and it will always hold many good memories. I am looking forward to being a senior in the second year with much enthusiasm. I believe that giving your child an education at Wheeler Christian Academy would be the best gift that you could ever give them.

**NOW ENROLLING FOR FALL SEMESTER**

AN A.C.E. SCHOOL - ACCREDITED BY T.O.C.S.

GRADES K - 12

TESTIMONY BY PARENT

We as parents feel very proud and thankful that our two children were able to attend a Christian School last year. The School program is one of the greatest Educational programs we have ever seen. We were told by Specialist and Counselors that our son never would pass an education level of a seventh grader, because he had a very slow learning ability and was very hyperactive. But with this personal, individual help which each student receives, and the instructor telling each student that "I CAN DO ALL THINGS THROUGH CHRIST WHICH STRENGTHENETH ME," it gave our son so much confidence in himself, that he advanced 2.3 grade levels in one year at WHEELER CHRISTIAN ACADEMY. Our children have not only grown educationally, but have more respect for others, and more spiritual education also.

Mr. and Mrs. Charles Wagner  
 Wheeler, Texas

**CARD OF THANKS**

"Just why God calls a  
 loved one home

We cannot fully know,  
 But even in our deepest  
 grief,

As bitter teardrops  
 flow,  
 Our faith beholds a  
 brighter day

In that eternal land  
 Where we shall meet  
 those dear to us,

And there we'll un-  
 derstand."

Our hearts are filled  
 with grateful apprecia-  
 tion, as we say "Thank  
 You" to every friend  
 and relative who have  
 shown by their kind deeds  
 words of sympathy,  
 prayers, visits, phone  
 calls, beautiful floral of-  
 ferings, notes, letters,  
 the many beautiful cards,  
 and food brought to our  
 home.

For our good friends  
 who came to us in the  
 middle of the night, for  
 the kindness of Dr. Wood;  
 and for the many  
 memorials for Kevin to  
 Boys Ranch, The United  
 Methodist Church mem-  
 orial fund of McLean, the  
 books placed in the  
 Lovett Memorial Li-  
 brary, the donations to  
 the Alanreed-McLean  
 Historical Society mem-  
 orial fund; also the don-  
 ations made to the  
 United Methodist Church  
 Memorial fund in Tur-  
 key and to the United  
 Methodist Children's  
 Home in Waco.

Only after being in a  
 strange place, do we  
 really appreciate the  
 kindness and sympathy  
 shown a bereaved fam-  
 ily by Creed and Wanda  
 Lamb.

May God bless each of  
 you.

**NEWS**  
 \*\*\* County \*\*\*  
 Agricultural Agent  
 Texas A. & M. College  
 Extension Service

by Joe VanZandt  
 According to a recent  
 USDA release, sorghum  
 plantings of 18.4 million  
 acres for the U. S. are  
 up 1 percent from 1975  
 and 4 percent above 1974.  
 Producers expect to har-  
 vest 14.8 million acres  
 for grain, a decrease of  
 5 percent from 1975.

Corn planted for all  
 purposes totaled 84.1  
 million acres, up 8 per-  
 cent from both 1975 and  
 1974. Acreage for grain,  
 at 72.4 million acres, is  
 up 8 percent from last  
 year and 11 percent from  
 1974.

In Texas, corn planted  
 for all purposes is ex-  
 pected to increase 29  
 percent over last year.  
 Sorghum acreage seeded  
 for all purposes in Texas  
 in 1976 is down 10 per-  
 cent from last year. Part  
 of the sorghum acreage  
 was lost to cotton, with  
 which sorghum must  
 compete in many areas  
 of the state. On the High  
 Plains, however, sub-  
 stantial losses resulted  
 from inadequate planting  
 moisture in dryland  
 areas.

Sorghum harvest is in  
 full swing in the Lower  
 Rio Grande Valley and is  
 expected to get underway  
 in the Coastal Bend and  
 Upper Gulf Coast in early  
 July.

**CATTLE OUTLOOK**

I recently received an  
 up-date on the cattle out-  
 look from Ed Uvacek,  
 Jr., Extension Livestock  
 Marketing Specialist.

The U. S. Department  
 of Agriculture made the  
 following comments.  
 Summer weather will  
 have a bearing on the  
 cattle market for the  
 balance of 1976. Fed beef  
 production may run 20 to  
 25 percent over year-  
 earlier levels through  
 1987

1976. But with favorable  
 range and pasture condi-  
 tions, declining nonfed  
 cattle slaughter during  
 the last half of this year  
 could be more than off-  
 setting, reducing total  
 cattle slaughter 5 per-  
 cent or more from the  
 second half of 1975. How-  
 ever, a higher proportion

**GARAGE SALE**

RUMMAGE SALE going  
 on at Blaylock Fina Ser-  
 vice Station. 28-4c

of fed cattle in the mix  
 would substantially in-  
 crease average slaught-  
 er weights and hold total  
 beef production near last  
 year's July-December  
 level.

After sharp gains in  
 April, fed cattle prices  
 slipped lower again in  
 May. Choice steers at  
 Omaha fell below \$40  
 per 100 pounds late in the  
 month, producing sub-  
 stantial losses for most  
 cattle feeders; but price  
 strength still appears to  
 be in prospect through  
 the summer. Judging  
 from April and May cat-  
 tle-on-feed inventories,  
 fed cattle marketings  
 through the summer and  
 fall may not significant-  
 ly exceed second quarter  
 levels and will continue  
 well below 1972 peaks.  
 If nonfed slaughter rates  
 continue lower as ex-  
 pected, seasonally re-  
 duced beef output through  
 the summer could boost  
 fed cattle prices back  
 into the mid-to-upper  
 \$40's before slipping  
 seasonally lower in the  
 fall.

Ed Uvacek made these  
 comments and price  
 forecasts.

The pressure on Choice  
 steers will no longer  
 come from larger fed  
 cattle marketings, but  
 rather from increased  
 competition from non-  
 fed, cows and calf  
 slaughter. By the same  
 token, this "other" beef  
 will disappear as we  
 move into the winter  
 months, so price  
 strength should follow.

For price forecasts  
 the basis are choice  
 steers 9 to 1100 pounds.  
 USDA uses Omaha and  
 their forecasts for the  
 quarter of July-Septem-  
 ber that prices will be  
 in the range of \$46 to \$48.  
 For the last quarter of  
 October - December  
 USDA predicts fed prices  
 in the \$44 to \$46 range.

Ed Uvacek makes the  
 following predictions  
 based on fed steers in  
 Amarillo. For the third  
 quarter, July-Septem-  
 ber in the range of \$40  
 to \$43 and in the last  
 quarter, October-Decem-  
 ber \$40 to \$42.
