McLEAN, GRAY COUNTY, TEXAS

THURSDAY, AUGUST 11, 1977

NUMBER 32

C. C. Fall Semester To Register Aug. 29

The fall semester of Clarendon College will begin with registration at the college on August 29.

Registration will be held at the Academic Center between the hours of 9 a.m. and 4 p.m. Students that have completed pre-registration and paid their invoices will not have to go through the registration but instead should report to the College Library to have annual pictures taken and receive activity tickets.

Students living in the college dormitories may move into their rooms anytime after 2 p.m. on Sunday August 28.

Classes will begin on Tuesday, August 30.

A. A. To Have Covered Dish Dinner Tonight

The Alcoholics Anonymous are having a covered dish dinner tonight, Thursday, August 11 at the V. F. W. Hall in honor of an area member who will be celebrating 30 years sobriety.

The meal will begin at 7:30 p.m.

Anyone who is interested in Alcoholics Anonymous is invited to come and learn more about it.

Reading Course To Be Taught In Pampa

Diagnostic Teaching of Reading, a West Texas State University graduate elementary education course, will be taught this fall in Pampa.

Instructed by Claud Zevely, the course will look at reading problems, their causes and their remediation techniques.

The student will construct tests and select, administer and interpret appropriate diagnostic materials and techniques.

The course is designed for all elementary and secondary teachers and others who are interested in the problems of teaching reading.

It will be taught Mondays at 4:15 beginning August 29 in the Pampa High School library. Students taking only this WTSU course may register the first class day.

TODD ALTON DARSEY

Todd Alton Darsey Accident Victim Is Buried Monday

Graveside services for Todd Alton Darsey, 19, were held at 10 a.m. Monday at the Darsey Ranch, 6 miles north of Alanreed.

Darsey died Friday at the Medical Center Hospital in Conroe from injuries suffered in a truck collision near Conroe.

Officiating were Rev. Brown, minister of the Clarendon United Methodist Church, Rev. James Merrell, minister of the McLean Methodist Church and Rev. Joe Sherrod, youth director of the McLean Church.

Burial was under the direction of Lamb Funeral Home.

Todd was born in Pampa and had lived in Alanreed all his life. He was a 1976 graduate of McLean High School and had completed a diesel mechanic course at Texas State Technical Institute in Waco. He was employed with Omega Truck Co. in Wheeler.

He is survived by his parents, Mr. and Mrs. Les Darsey of Alanreed; one brother, Mike his grandparents, Mr. and Mrs. R. R. Smith of Pampa, Mrs. Edna Darsey of Wichita Falls and R. E. Darsey of Pampa and one niece.

Mrs. Bob Clifford and Cathy and Mr. and Mrs. Randy Clifford and Amy of Quinlan are visiting in the home of Mr. and Mrs. Ott Moore this week.

Individuals taking both the Pampa class and other WTSU classes must enroll during regular registration Aug. 26-27 in the WTSU Activities Center.

For more information, telephone the registrar at (806) 656-3331.

Sailor Killed Another Injured In I-40 Crash

A sailor from the U.S. Naval Station at San Diego, Calif., was killed Saturday morning when the sports car in which he was riding overturned on Interstate 40 between here and Groom.

The Texas Highway Department of Public Safety identified the accident victim as 19 year old Rodney T. Hill of Edon, Ohio.

Troopers said Hill was a passenger in an MG convertible driven by another sailor, 20 year old Brian K. Schleifer of Allentown, Pa. Schleifer suffered fractures and abrasions and was reported to be in serious condition at Groom Memorial Hospital.

The accident occurred at 11:30 a.m. in Gray County.

Investigators said the car was traveling east when the driver lost control. The vehicle overturned and both men were thrown out.

The car rolled over Hill's body, then rolled twice more before coming to rest.

Library Reading Club To Have End Of Summer Party

"End of Summer" party to present the reading certificates for Jungle Journey Summer Reading Club will be held August 19 in the Library from 2:00 to 4:00 p.m. All the boys and girls who participated in the summer program are invited to attend the party. Seventeen have completed their required reading for a certificate.

Young At Heart To Have Covered Dish Luncheon

The Young at Heart will have a covered dish luncheon next Thursday, August 18 at 11 a.m.

Those coming are asked to bring a covered dish and any kind of craft or art suitable for Christmas gifts.

Elaine Houston, the county agent will be present.

The public is invited.

Treva Johnson was a patient in Groom Memorial Hospital last week.

McLean School Board Sets School Calendar

The McLean Independent School District has approved a 1977-78 calendar incorporating the Texas legislature's reduction in the number of days from 180 to 175.

The following is the school calendar for the 1977-78 year:

- Aug. 24 Teacher In-service
- Aug. 25 Teacher In-service
- Aug. 26 Teacher In-service
- Aug. 29 Teacher In-service
- Aug. 30 Teacher In-service
- Aug. 31 First day of school
- Sept. 5 Labor Day Holiday
- Sept. 19 Small School In-service
- Oct. 14 End 1st 6 wks
- Oct. 17 1st day 2nd 6 wks
- Nov. 23 End 2nd 6 wks and 1st quarter
- Nov. 24-25 Thanksgiving Holidays
- Nov. 28 Small School In-service
- Nov. 29 1st day 3rd 6 wks and 2nd quarter
- Dec. 22-Jan. 1 Christmas Holidays
- Jan. 2 1st day school after Christmas holidays
- Jan. 13 Teacher Work-day
- Jan. 20 End of 3rd 6 wks
- Jan. 23 1st day of 4th 6 wks
- Feb. 28 End of 4th 6 wks and 2nd quarter
- Mar. 1 Teacher Work-day
- Mar. 2 1st day of 5th 6 wks and 3rd quarter
- Mar. 24-28 Easter Holidays and Snow Vacation
- Apr. 14 End of 5th 6 wks
- Apr. 17 1st day of 6th 6 wks
- May 24 Jr. High Graduation
- May 25 High School Graduation, end of 6th 6 wks an 3rd quarter
- May 26 Teacher Work-day

Lifesaving Course To Be Offered

Anyone interested in taking a senior lifesaving qualifying course.

It will begin on Monday, August 15 at 9:00 a.m. If you are at least 15 years of age and would like to become a senior lifesaver. Please contact Joe Holt. It will be at the McLean pool.

There will be a charge for the course which will cover instruction, pool use and book.

Noma Corbitt was a patient in Groom Memorial Hospital the past week.

Pampa Man To Retire From State Highway Dept.

The July 31st retirement of W. D. "Dub" McKendree of Pampa from the State Department of Highways and Public Transportation has been announced by A. L. McKee, Amarillo District Engineer.

McKendree, of 612 Lefors, joined the Department in 1946 at Vega as a senior inspector. In 1949 he became an engineering technician at Pampa, a position at which he worked until his retirement.

Born in Vega, he attended public schools there and graduated from Vega High School in 1941. He attended West Texas State University in 1948 and Amarillo College in 1949.

He is a member of the First Methodist Church of Pampa. He is a former vice president of the Tri-State Chapter of the American Society of Certified Engineering Technicians. He has been a member of Pampa Lodge AF&AM No. 966 for 21 years and the American Legion for 30 yrs.

In 1948 he married Mardell Mask in Amarillo. The McKendrees have two daughters, Mrs. Deborah Moore of Canadian and Mrs. Karen Geyer of Drumright, Oklahoma and two grandchildren.

HOSPITAL NOTES

McLean Hospital visiting hours are as follows:
2:00 to 4:00 P.M.
7:00 to 8:30 P.M.

- ADMITTED:
- Callie Bailey
 - Billy Byee
 - Earl Carpenter
 - Nora Clawson
 - Myrtle McCoy
 - David Lee Hauck
 - Emily Lee Rippy
 - Cindy Sherrod
- DISMISSED:
- Callie Bailey
 - Maude Nall
 - Billy Bybee
 - Nora Clawson

Shooting Sports For 4-H'ers

Shooting Sports has been added as a new 4-H project area in Texas, says a 4-H and youth specialist with the Texas Agricultural Extension Service. Those enrolled in this project area will have an opportunity to participate in an all-around program, including BB and air rifle

Psychology Class To Be Offered At Pampa

A class in Business Psychology is being offered in Pampa this fall by the West Texas State University Department of Business Administration.

Covering the integration of social sciences as they affect people at work, the course is scheduled for 7 p.m. Mondays beginning Aug. 29 in the Pampa Area Vocational School.

Business Psychology also referred to as a course in human relations, organization behavior or human behavior at work, is designed for management level programs, supervisory training and adult education.

It will be instructed by Dr. Zeke Marchant, head of the WTSU Department of Business Administration.

Topics to be covered include interaction of people in all types of endeavors, cause and effects of behavior, human needs and employee wants, effective leadership, managing change, discipline and disciplinary action and theories of organizational behavior.

Students taking only this WTSU class may register on the first class day, or during regular WTSU registration on Aug. 26-27 in the WTSU Activities Center.

For more information, telephone the WTSU registrar at (806) 656-3331.

Summer Band Rehearsals To Begin

Summer band rehearsals will begin Monday, August 15 at 8 a.m. until noon and 7 p.m. until dark, except on Wednesday, according to Mike Lee, McLean's new band instructor.

The rehearsals will include 8th through 12th grades.

The name Isaac means laughter.

marksanship, 22 rifle marksanship and shotgun target shooting. The program is designed to help young people earn about and enjoy the sport of shooting.

"Measles has increased this year more than tenfold above last year," said Dr. Greenberg. This said Dr. Greenberg. "This means there is a fairly large number of children who have not been immunized for measles, even though the vaccine has been available for years."

Dr. Greenberg said measles can be an extremely dangerous disease. Serious complications sometimes follow. Pneumonia, hearing disorders and brain damage can all result from measles. Deaths from the complications of measles were common before the vaccine was developed, and they still can occur in the unimmunized. We have already had three known deaths this year as a consequence of measles illness. "Before there were vaccines for measles and polio, for many years measles killed a lot more children than polio did," Dr. Greenberg said.

A second short term goal for IAM is to increase tetanus immunization levels in the state, especially among senior citizens where the most deaths occur. Boosters for tetanus and diphtheria which are usually combined into one shot, should be received every years.

The third short term goal of IAM is to protect rubella (German measles) blood tests for immunized females of child-bearing age so that rubella immunizations can be received through physicians prior to pregnancy.

Worm Growers Mkt. Assn. NEEDS GROWERS Be an important part of a 12 State Assn. Call-write: WALKER WORM RANCH Rt. 1 Box 66 405-679-3401 Duke, Oklahoma 73532

gnancy. "The disease is of very little consequence to adult men and women, but it can cause severe birth defects if a pregnant woman gets rubella," said Dr. Greenberg. "If a woman isn't sure if she has had German measles or not, then she should have the simple blood test."

Special efforts will be made during IAM, as well as in September and October 1977 to test young females for rubella. Tests can be obtained from physicians or participating health department clinics.

All children entering school for the first time this year, some 200,000 youngsters, as well as those previously attending (about 2.6 million) must be immunized. Those entering day care centers are also required to have certain immunizations and new births should be started as early as age two months.

During August, special efforts will be made in child care facilities and institutions across Texas to bring immunization levels up among children attending these centers. Department of Public Welfare personnel will be instrumental in getting information to child care centers and in notifying welfare recipients of the need for immunization.

Local health departments a public health regional clinics will be cooperating with IAM activities to give immunizations. Most health departments give all immunizations free, or they can be received from a private physician at the usual fee.

"If you have an immunization record, it should show which shots you and your children have received and the dates," said Dr. Greenberg. "Your local health

department may have a record if shots were received there. Check with your own physician also. In areas with no health department, public health regional clinics should be available." (Immunization records are required when your child enters Texas child care facilities and institutions).

DR. Greenberg said that although most immunizable disease levels are down, measles and rubella are on the increase this year. "Immunization is relatively simple, inexpensive, can be free and prevents tremendous sickness, disability and even death. I think more people should take advantage of the IAM program."

Immunization Action Month had its beginning in Tampa, Florida in 1972 when officials of the American Medical Association and other health groups met to consolidate their efforts in raising the slumping immunization levels. In 1975 the Texas Department of Health joined the campaign with the assistance of Mrs. Dolph Briscoe. A statewide steering committee sponsored by the Texas Department of Health and the First Lady's Volunteer Program is composed of 28 major organizations which work towards increasing immunization levels.

Fishing Report

This is the fishing report for July 18 through August 1 compiled by the Canyon Fisheries Lab of the Texas Parks and Wildlife Department.

Greenbelt Reservoir-Channel catfishing is very good with several large fish being caught. Fish in the 8 to 11 pound class have been caught. Bass fishing is slow with a few being caught, one 6 pound bass was caught last week. Panfish are biting well but fishing for walleye and crappie is slow. One 12 1/4 pound northern pike was caught over the period. The water temperature is 78 degrees and the lake depth is 73.3 feet. water temperature is 78 degrees and the lake depth is 73.3 feet.

Lake Meredith-Fishing for walleye has remained pretty good in water 45-55 feet deep. Several limit catches were reported over the period, mostly fish in the 2-4 pound size. One 8 pound walleye was caught. Channel catfishing is very good for fish from 3 to 10 pounds. Some nice flathead catfish to 18 pounds have also been caught. Crappie fishing has been slow though Mr. and Mrs. Akins of Amarillo caught 12 nice fish on minnows in North Canyon. Most other fishing is slow. The water temperature at 5 feet is 76 degrees and the lake depth is 82.9 feet.

Lake McClellan-The water temperature is now 84 degrees and the lake is 16 inches below spillway level. Channel catfishing is good for fish up to 10 pounds. Bass fishing has been fair though mostly small

Phil Cates Not To Seek Re-election

State Representative Phil Cates of Shamrock today officially announced his intention not to seek reelection. Cates is completing his fourth term as State Representative from the 66th Legislative District composed of Armstrong, Briscoe, Childress, Collingsworth, Donley, Floyd, Gray, Hall, Motley, and Wheeler Counties.

"Landslide Cates," as he is referred to because of having won his first primary election by only two votes, expressed his heartfelt appreciation to those who enthusiastically supported him throughout the eight years that he will have served as state representative.

"The one person who deserves more credit than anyone else for these years of service, Cates explained, "is my gifted wife Nancy, who is the mother of our three-year-old son Andy and our nine-month-old son John David. Even now," Cates continued, "Nancy encourages me to run for reelection for the House seat or for another higher office. Many have expressed disappointment that I would choose to leave the position of service that I have held for four legislative terms, and for their trust and this high compliment that they have given me, I am very grateful."

"There are major important goals, issues, and needs for good services which I have left unfinished."

Aged Bedroom Arrangement Needs Special Attention

In bedroom arrangements for the elderly, convenience and comfort are the rule, says Pat Seaman, housing and home furnishings specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

It is essential that large, easy-to-open windows offer pleasant views from chair and bed and that good, no-glare lighting is available.

Light switches within reach of the bedside and outlets at least two feet off the floor, save exertion and stooping.

For privacy, separate the bed from the living and cooking quarter--and a partitioned-off bed could go unmade at the convenience of the resident.

In addition to bed and chair, a nightstand is essential. The stand, or table, on lockable casters, would provide additional space for personal belongings such as medicines.

fish have been caught. Fishing is slow for crappie.

Lake Mackenzie-A late season run on crappie appears to be developing. Several parties caught 5 or 6 crappie each which were 8-10 inches long. Bass in the 1-2 pound class are showing up pretty regularly, one individual caught 9 nice fish. Channel catfishing is still good particularly on water dogs. The lake temperature is 78 degrees at 6 feet and the depth is 85.2 feet. The lake has cleared considerably since the heavy rains of early summer.

ble for the farmer and his chickens. Reports have been received concerning the rabbits and their destruction of gardens in some areas. A barking dog and a tight fence could be the only answer as fall approaches and vegetables ripen.

P&WD predictions using the conventional methods of survey lines and aerial counts will be forthcoming soon but if nature's predictions carry any weight, 1977 should be a good year for Texas sportsmen and wildlife.

Save Our Sportsman

The every day pace of modern life has caused many a harried city dweller to seek relaxation on Texas lakes and streams and it is unfortunate that many overlook the rules of water safety.

A total of 640 persons died in water-related accidents in Texas last year. More than half of these were under 30 years of age and most of them were either poor swimmers or could not swim at all.

Reports are coming into the Austin office of the Texas Parks and Wildlife Department and the month of May recorded a total of 106 water-related fatalities. June and July are the big months for water sports and P&WD personnel are hoping the fatality figures drop.

People now days are buying more boats, building more lake dwellings and swimming pools than ever before. The key to fewer water fatalities on these bodies of water is education especially among the young. Parents are asked to insure the use of a life vest or restrict water sports if the youngster cannot swim.

The issuance of a citation does not seem to be enough of a reminder for most boaters on public waters even though thousands of citations have been issued since the P&WD became the state agency responsible for water safety. Each week

Adult Need Immunization

Adults need immunization, too, says Carl Shearer, health education specialist with the Texas Agricultural Extension Service, The Texas A&M University System. Adult Texans who will get special emphasis during August--Immunization Action Month--are:

1) Prospective mothers who need rubella "screening" to determine if they are susceptible to rubella. If they are susceptible, an immunization will safeguard their unborn children against possible birth defects.

2) Young adults who were vaccinated against measles on or before their first birthday.

3) Older persons who need protection against certain diseases, particularly tetanus.

These defenses against disease should be promoted year-round, says the specialist.

Check with your doctor or health department to see if you and your family are protected against diphtheria, pertussis (whooping cough), tetanus (lock-jaw), polio, measles, mumps and rubella (German measles).

"Make sure... today," urges Ms. Shearer.

Tungsten has the highest melting point of all metals.

The Bank of England is privately owned.

P&WD game wardens issue citations for insufficient life vests improper equipment, handling a boat in a reckless manner, or alcohol-related incidents. Still people are becoming fatalities and Texas game wardens are donning their SCUBA gear and searching for bodies.

The P&WD is asking everyone to use common sense and obey the Texas water safety rules this summer--the life you save might be your own.

SIN'S BLINDING TOUCH

PRIDE touched Naaman, the Syrian general, and made him revolt at Elisha's command to dip 7 times in the River Jordan. Pride can blind us today. (2 Kings 5:1-13)

SELF RIGHTEOUSNESS touched the Pharisees and blinded one to his own corruption. (Luke 18:11ff)

POSSESSION OF RICHES touched the eyes of the rich young ruler that talked with Jesus, and robbed him of a crown of life in eternity. (Luke 18:18ff)

COVETOUSNESS touched Balaam and blinded him to the tragedy of a bribe. (Jude 11)

SELFISHNESS touched the vision of a great king, Saul, and caused him to be blind and practice the price of presumption. We must beware today.

PREJUDICE touched the eyes of the rulers and they could not see the truth found in the Lord's mission to this earth. Prejudice crucified Jesus Christ. (John 7:47)

We must very cautiously beware that we do not allow our sight to be darkened by that BLINDING TOUCH OF SIN which manifest itself in the above mentioned ways . . . plus many other ways!

X's and O's

by Bill Coward

If you have been around the practice field at 6:30 a.m. or 4:30 p.m. this week you have noticed 23 young men putting their bodies through some grueling drills, flexibility exercises and punishing conditioning drills in preparation for the coming football season. Ten Seniors, six Juniors, four Sophomores and three Freshmen have signed up to represent McLean on the Gridiron this year. I believe that the enthusiasm and willingness to work hard is as good as any I have seen since I have been coaching. We are really expecting some great leadership from our Seniors this year. The ten members of that class who are on the squad are: Butch Cline, Mike Harkins, Sammy Don Haynes, Randy Kennedy, Jeff Marheny, Scott Raines, Curtis Simpson, Ricky Steele, Brian Stokes and Carter Crew. These fine athletes have a strong will to win and a desire to turn the athletic program around at McLean this year.

I would like to thank all those who attended the Dallas Cowboy Highlight film Tuesday night in the High School Auditorium. I would also like to thank the Tiger Booster Club for the new neck machine they provided for all athletes at McLean. The machines are up and being used by the football team at the present. Come by sometime and look them over. I believe that they will definitely be an asset to our program. Incidentally, season tickets are now on sale at the drug store. You should get by and get yours as there are six home games this year. Also, reserved field parking spaces will go on sale soon. Our first scrimmage is August 19 at Happy; time is 7:00 p.m. Then on August 26, we will scrimmage White Deer here. Our first game is at Clarendon on September 2, with the

first home game on September 8, against Pam-pa's Junior Varsity. Even though the legis-lature prolonged it five days, school is just a-round the corner. The first day for students is August 31 but, teachers will report August 24 for five days of in-service training. The school buildings and grounds look great thanks to our custodial staff super-vised by Mr. Earl Filey. By the way, Mr. Riley has really got our game field in tip-top shape. I think the turf will be as good as it has ever been and probably better.

An old hillbilly woman gave a testimonial at a camp meeting that fits our football team this year; "I aint what I orta be and I aint what I'm gonna be, but leasways I aint what I was."

Boy Ranch Rodeo To Be Held Labor Day

At Cal Farley's Boys Ranch, thirty-six miles northwest of Amarillo, 370 pint-sized cowboys are getting ready for their thirty-third annual Boys Ranch Rodeo.

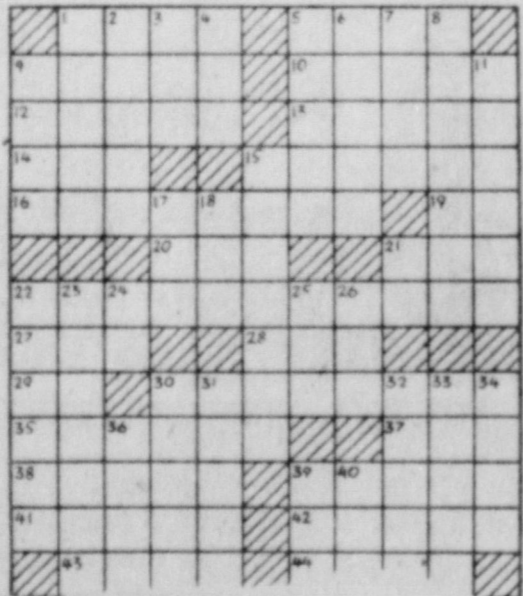

Practice rides on the broncs and bulls have been going on since June with only about 150 riders expected to appear in the Ranch's rodeo arena over the Labor Day weekend. They will be competing in bareback bronc riding, Brahma bulls, steers, calves and even stick horses for the three-to-six-year-olds. It is the only rodeo of its kind in the nation in which boys riding professional rodeo stock under RCA rules are the only contestants.

An added attraction will be Texas-sized bar-beque beef plates that will be prepared and sold by the boys. Reserve box seat tickets will be on sale at the Boys Ranch Office, 600 West 11th Street in Amarillo. Per-formances are scheduled for 2:30 p.m. each after-noon, September 4 and 5.

A Tribute

by a teacher

Had Todd Darsey lived a hundred years ago legends would have grown around his name.

Quiet, courageous, intelligent . . . he was the kind of young man who would have fought the Indians or tamed a wilderness or built a railroad.

But he lived in our time and he showed his character in the only way a man has today. On the football field he was so tenacious that his buddies jokingly called him "Bulldog". He received the singular honor of being voted all district offense and defense on a team that won only a few games. His determination to ride bulls despite broken bones or lost teeth, was simply, awe-inspiring.

Most adults who knew him thought he was quiet, but his classmates voted him wittiest. Although never aggressive, he was elected president of his class three years in high school. His was the kind of quiet, unassuming leadership that all people respect.

He had the honesty and integrity of the frontier spirit coursing through his veins. And so it seemed particularly appropriate that when Todd was laid to rest Monday, it was on a lonely, windy hill on the land he loved so much. Six boys stood at his side as they had stood countless times on the football field or in the rodeo arena. A lonely fiddle played the simple hymns he loved, the notes snatched away in the wind. His grieving family and friends left him there, but each of us carried away something special he had given us.

A remembered moment of courage, an example of his honesty or an inspiration left by his perseverance.

He will be remembered.

Visitors in the E.M. Bailey home over the weekend were Kathy Southerland and Bradley of Wellington, Mr. and Mrs. Matthew Bailey, Allen, Kristi and Misti of Plainview, Denise Hill, Valerie and Jennifer of Amarillo, Patsy Finch and Sara of Amarillo and June Finch of Santa Maria, California.

James Henley, a nephew of Mr. and Mrs. Ed Jones was injured in a motorcycle wreck and is in High Plains Baptist Hospital.

X's and O's

by Bill Coward

If you have been around the practice field at 6:30 a.m. or 4:30 p.m. this week you have noticed 23 young men putting their bodies through some grueling drills, flexibility exercises and punishing conditioning drills in preparation for the coming football season. Ten Seniors, six Juniors, four Sophomores and three Freshmen have signed up to represent McLean on the Gridiron this year. I believe that the enthusiasm and willingness to work hard is as good as any I have seen since I have been coaching. We are really expecting some great leadership from our Seniors this year. The ten members of that class who are on the squad are: Butch Cline, Mike Harkins, Sammy Don Haynes, Randy Kennedy, Jeff Matheny, Scott Raines, Curtis Simpson, Ricky Steele, Brian Stokes and Carter Crew. These fine athletes have a strong will to win and a desire to turn the athletic program around at McLean this year.

I would like to thank all those who attended the Dallas Cowboy Highlight film Tuesday night in the High School Auditorium. I would also like to thank the Tiger Booster Club for the new neck machine they provided for all athletes at McLean. The machines are up and being used by the football team at the present. Come by sometime and look them over. I believe that they will definitely be an asset to our program. Incidentally, season tickets are now on sale at the drug store. You should get by and get yours as there are six home games this year. Also, reserved field parking spaces will go on sale soon. Our first scrimmage is August 19 at Happy; time is 7:00 p.m. Then on August 26, we will scrimmage White Deer here. Our first game is at Clarendon on September 2, with the

first home game on September 8, against Pampana's Junior Varsity.

Even though the legislature prolonged it five days, school is just around the corner. The first day for students is August 31 but, teachers will report August 24 for five days of in-service training. The school buildings and grounds look great thanks to our custodial staff supervised by Mr. Earl Filey. By the way, Mr. Riley has really got our game field in tip-top shape. I think the turf will be as good as it has ever been and probably better.

An old hillbilly woman gave a testimonial at a camp meeting that fits our football team this year; "I aint what I orta be and I aint what I'm gonna be, but leasways I aint what I was."

Boy Ranch Rodeo To Be Held Labor Day

At Cal Farley's Boys Ranch, thirty-six miles northwest of Amarillo, 370 pint-sized cowboys are getting ready for their thirty-third annual Boys Ranch Rodeo.

Practice rides on the broncs and bulls have been going on since June with only about 150 riders expected to appear in the Ranch's rodeo arena over the Labor Day weekend. They will be competing in bareback bronc riding, Brahma bulls, steers, calves and even stick horses for the three-to-six-year-olds. It is the only rodeo of its kind in the nation in which boys riding professional rodeo stock under RCA rules are the only contestants.

An added attraction will be Texas-sized barbecue beef plates that will be prepared and sold by the boys. Reserve box seat tickets will be on sale at the Boys Ranch Office, 600 West 11th Street in Amarillo. Performances are scheduled for 2:30 p.m. each afternoon, September 4 and 5.

DOWN MEMORY LANE

10 YEARS AGO

Cadet Edgar L. Bailey, 20, son of Edgar Bailey, McLean, gets the feel of a .50 caliber machine gun while attending Army Reserve Officer's Training Corps summer camp at Ft. Sill, Okla.

Frank and Wilma Going of the Dixie Motel announced this week that they are planning to build a new restaurant on their motel ground in McLean.

A Lions Tennis tournament is planned for McLean.

20 YEARS AGO

Mr. and Mrs. G. F. Baker celebrated the observance of their 56th wedding anniversary with a family gathering and dinner at the City Park in McLean Sunday.

Mr. and Mrs. Ray Gossett of Kellerville entertained in their home Sunday with a turkey dinner, in honor of their daughter Leona, who has been visiting relatives in California for the last three months.

Mr. and Mrs. Creed Bogan were in McLean Sunday for their parent's Golden Wedding Anniversary.

Mr. and Mrs. Kenneth Carter of Midland, are the parents of a daughter, Donna Kay, born Sunday July 28. The new arrival weighed 7 pounds 13 ounces. Grandparents are Mr. and Mrs. Wheeler Carter of McLean and Mr. and Mrs. T. O. Russell of Hobart, Okla.

30 YEARS AGO

Miss Jan Black, president of the Sub District M. Y. S. left Sunday for Lubbock as a delegate for the district Methodist Youth Fellowship.

Three local Boy Scouts, Dave Johnston Wesley Langham and John D. Coleman are among those attending the annual camping trip of the McLean and Kellerville Scout trips.

Mrs. Dorothy Collie was honored Tuesday with a pink and blue shower in the home of Mrs. Raymond Smith.

40 YEARS AGO

Honoring the birthday of Miss Julia McCarty, a number of young ladies enjoyed a slumber party at the McCarty home last Friday night.

Born August 8, 1937 to Mr. and Mrs. Jim Tedder, a 7 1/4 pound girl.

F. E. Stewart, former owner of the Service Shop is now back in the business as manager of the Skelly Service Station across the street from Cicero Smith Lumber Co.

Mrs. R. L. Appling is the new manager of the

Agricultural Agents

The general insect situation seems to be increasing during the last couple of weeks. Farmers need to be keeping

a watch on their crops as sometimes damaging insect populations can get out of hand in a few days.

Spider mite populations are increasing in some corn fields while greenbugs are beginning to increase in some sorghum fields. Also Southwestern corn borers are infesting many corn fields across the Panhandle.

Also around gardens and ornamentals insects seem to be on the increase. I've noticed quite a few aphids, spider mites, squash bugs, harlequin bugs and bagworms. Homeowners also need to check your plants frequently for presence of damaging insects.

VACCINATE HORSES

Twenty-six cases of western equine encephalitis have been reported from horses by the Texas A&M Veterinary Medical Diagnostic Laboratory in Amarillo. This number of cases is higher and earlier than normal for this area. Affected horses lose awareness of their surroundings and wander about aimlessly. They may walk continuously in circles and be unrespon-

sive to commands. Persons with suspect horses should contact their veterinarian to attain positive diagnosis and recommended treatment. This disease is transmitted by mosquitoes.

TAX-FREE EARNINGS FOR SUMMER JOBS

A student or other summer employee may earn up to \$2,350 before paying income taxes, according to Internal Revenue Service regulations. Also, an employee does not have to file an income tax return unless he earns more than this amount, has more than \$750 unearned income such as dividends, or is being claimed as a dependent by a parent.

If a teenager expects to earn less than this figure, he certifies to his employer when hired that he expects to avoid a federal income tax liability for the current year and had none for the preceding year. He then must file a W-4E Form that certifies that there is to be no tax deduction by the employer.

If any time after this form is filed the employee does earn more than \$2,350, then a regular tax withholding form may be filed and standard deductions will begin.

PROTECT YOUNGSTERS FROM PESTICIDES

The peak season for using pesticides is at hand, so farmers and home gardeners should give careful consideration to safe storage of these materials.

Pesticides are often

Texas Pheasants Are in Good Shape

Pheasants along the Texas Coast and in the Texas Panhandle are in good shape as of mid-summer.

Wildlife biologists at the Texas Parks and Wildlife Department have made preliminary checks on the popular upland game birds in the two parts of the state which support ring-necked pheasant populations. Range conditions in the Panhandle still are good though dry. The northern part of the state received ample spring rains.

Some 24,000 birds were taken during the 1976 pheasant season in Panhandle counties open to hunting. Although most pheasant hunting centers in the Panhandle, the biggest success story on the birds this year is in coastal counties such as Matagorda.

In the lush vegetation of the coastal plain pheasants released there rapidly have expanded in their new range and biologists report bumper crops this year.

Matagorda County has been the scene of experimental work by department personnel using helicopters to locate and trap pheasant broodstock. Flying no more than 50 feet off the ground biologists and field technicians spotted numerous pheasants along the edge of grain fields.

A brief hunting season was held in two coastal counties this January. Pheasants were established in the area by Parks and Wildlife Department releases of both wild-trapped and pen-reared birds.

Plans this year call for release of wild-trapped birds from California in Matagorda, Wharton and

Texas Ranked 3rd and 4th in Hunting and Fish Licenses

Texans and visitors to the state bought a total of some 2.7 million hunting and fishing licenses last year.

The sales accounted for more than \$11 million in revenue to the Texas Parks and Wildlife Department for fish, wildlife and law enforcement programs.

A total of 1,564,405 fishing licenses was sold, plus another 1,126,509 hunting licenses.

Texas trails a number of states in sales of both

Victoria Counties. The P&WD will trade one Texas Rio Grande turkey for every five pheasants from California.

Approximately 1,500 pen-reared ringnecks will go in Carson and Gray Counties and one additional county to be determined.

Hybrids from a cross of Iranian pheasants and Chinese ringnecks are being produced at the department's Management and Research Station near Tyler. Shipments of the birds have just started. Some 4,000 hybrid pheasants are to be released on 11 sites in eight counties this year.

Counties in the Gulf prairie will receive the birds, plus experimental stockings in the blacklands of Central Texas and the Post Oak Savannah.

hunting and fishing licenses, according to recently released figures from the U.S. Fish and Wildlife Service.

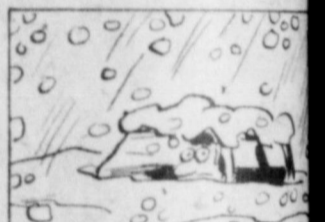

California far away led the nation with 5.8 million fishing licenses sold. Texas ranked third behind Michigan.

Texas placed fourth the sale of resident and nonresident hunting licenses, behind Pennsylvania, New York and Michigan.

Through June of the 1977 state fiscal year (September 1976-August 1977), license sale officials at the Parks and Wildlife Department report 1,052,929 hunting licenses of various kinds sold, including 428,777 resident combination hunting and fishing licenses.

Another 871,667 sports fishing licenses have been sold for the same period.

Sales of the Combination Resident Hunting and Fishing License are down by some 12,000 from the same period last year, nearly \$100,000 less in come to the P&WD. Nearly 17,000 fewer fish licenses have been sold this year compared to last, which represents a decline of some \$67,000.

SCHOOLS PREPARE FOR SUCCESS

Quite often parents say they feel compelled to send their children to secular schools so the children will be able to "succeed in life." However, the facts suggest otherwise.

Noted and experienced educators are quoted as saying, "we realize that today the public schools teach over 80% of our American youth. That means that less than 20% come from private schools. And yet, 'Who's Who'... stipulates the fact that students in private schools have six times more of a chance of success than those in public schools. In fact, Arthur Traxler, who was the Executive Director of the Educational Records Bureau, states that private schools of the United States educate as many leaders as all the public schools combined."

In one of his lectures, Dr. Donald R. Howard, A. C. E. Founder and President, reminds us, "Bank tellers become experts in detecting counterfeit money by handling the real thing." A.C.E. provides real quality education. Your children will come to detect the false by living with the truth.

Give your children the opportunity to succeed.

The Bible tells us that in Christ are hid all the treasures of wisdom and knowledge (Colossians 2:3). Education is a mockery when the name and word of God cannot be mentioned. In school, we are supposed to train youth for life. How can it be possible if Jesus is left out of the process, for He said, "I am the life". School is supposed to define truth. How can it be if Jesus isn't welcome in the classroom, for He said, "I am the truth". School should show children the way to live. How can it be if Jesus is scorned, for He said, "I am the way".

At one time it was assumed that students in the environment of a church school would be "overprotected" and emerge unprepared for the realities of life. However, we have learned that it is the secular education without God that "overprotects" a child—for he is protected from the very basic facts of life relating to rightness and wrongness.

Wheeler Christian Academy is committed to the belief that learning rather than teaching is the vital issue in education, and that learning must be based on Scriptural rather than secular principles. Secular institutions increasingly experience declines in academic achievement, while Christian schools experience not only increased enrollment but advanced educational achievement. W.C.A. believes a Christian school in our community can train a new generation of leaders who will help turn America back to God, and the Scripture bears out the fact that "righteousness exalthe a nation."

All-Day Mourning Dove Hunts

All-day shooting for
 mourning doves and half-
 day hunting for white-
 wings has been set by
 the Texas Parks and
 Wildlife Department.

Jim Dunks at the
 P&WD said mourning
 doves during both the
 North and South Zone
 seasons may be hunted
 from 30 minutes before
 sunrise to sunset. The
 North Zone dove season
 is set for September 1-
 October 30; South Zone,
 September 24-November
 6 and Dec. 31, 1977-Jan.
 15, 1978.

Exception to the all-
 day hunting hours is in
 those counties with a
 concurrent whitewing
 and mourning dove sea-
 son September 3, 4, 10
 and 11, when the two
 species may be hunted
 from noon to sunset.

Shooting hours during
 the September 10-18
 teal-only season are
 from sunrise to sunset.
 Rails and gallinules may
 be hunted from 30 min-
 utes before sunrise to
 sunset, September 1-
 November 9.

The later starting
 time for teal hunting is
 to give hunters ample
 light to distinguish teal
 from other species of
 waterfowl which might
 be moving through Texas
 in early September.

Officials at the U. S.
 Fish and Wildlife Ser-
 vice notified Dunks late
 August 4 of the frame-
 work for shooting hours
 of migratory game birds.

Litigation involving
 shooting hours prevent-
 ed the U.S.F. & W.S.
 from providing Parks
 and Wildlife Commis-
 sioners with such frame-
 works at their July 22
 meeting when dove
 seasons were set.

Accident Control

Compare the accident
 risk of two alternative
 methods by determining
 the possible severity of
 accident outcomes, the
 probability that the
 equipment design or a
 human error can cause
 accidents and the length
 of exposure time to ac-
 cident hazards. The
 higher these compon-
 ents, the higher the risk,
 says the Texas Agricul-
 tural Extension Service.

ect flowers in the early
 morning when they are
 fresh. Cut the stems with
 a sharp knife or scis-
 sors. For variety, use
 buds or newly opened
 flowers. Remove the
 lower third of foliage
 from the stem. Keep bou-
 quets away from direct
 sun or drafts and change
 the water daily.

There are more states
 east than west of the
 Mississippi River.

AC Orientation Sessions Schedules For August 15

College life will be
 previewed by all first-
 year Amarillo College
 students during orienta-
 tion sessions, which
 begin Aug. 15 on the
 Washington Street cam-
 pus.

Orientation will con-
 tinue through Aug. 19,
 with a final session
 scheduled for Aug. 26.

Each weekday session
 will open at 8:30 a.m. in
 the Concert Hall/Thea-
 ter, said Fred Dodson
 director of the AC Test-
 ing and Counseling Cen-
 ter.

Students will view a
 slide presentation which
 shows college facilities,
 student activities, and
 academic and vocational
 programs.

A tour of the campus,
 rap session and coke
 break, led by Counsel-
 ing Center and Student
 Services staff members
 and sophomore students
 at AC, will be a part of
 each orientation pro-
 gram.

Lunch will be provid-
 ed at no charge to stu-
 dents attending the ses-
 sions.

"The afternoon will
 be open for individual
 counseling appoint-
 ments," said Dodson.
 "Any student wishing to
 participate in orienta-
 tion who did not receive
 an appointment card
 should call the Testing
 and Counseling Center."

Market Report

Most fresh fruits re-
 main at their best for
 only a few days--but
 some if stored properly,
 may keep for months.
 All fruits, however, re-
 quire careful handling
 and storage to conserve
 quality, says Mrs. Gwen-
 dolyne Clyatt, consumer
 marketing information
 specialist with the Texas
 Agricultural Extension
 Service, The Texas A&M
 University System.

How you handle your
 fresh fruit makes the dif-
 ference. Before storing
 fruits sort them and
 either use or discard
 damaged fruits immedi-
 ately, she says.

Unripe fruits should
 be left to ripen in open
 air at room temperature
 and out of direct sunlight.
 Some fruits, such as
 grapes, pineapple and
 watermelon, will not rip-
 en further after picking.

The length of time that
 a fresh fruit will retain
 high quality (under home
 storage conditions) var-
 ies with the condition of
 the fruit when purchased
 (or harvested, if the fruit
 is home grown).

The Mason - Dixon
 Line is now the bound-
 ary line between Mary-
 land and Pennsylvania.

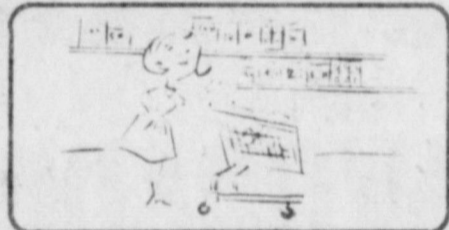

Rhode Island, small-
 est state in the union,
 has the longest name.

Be your own Meter Maid

You can add up your groceries
 while you're buying...

You can add up your gasoline
 while you're buying...

But

can you add up your electricity
 while you're buying?

Yes you can... Here's How!

Learn to read your electric meter. It will let you determine how many kilowatt hours
 you use in a given period of time... an hour, a day, a month or a year. That's how elec-
 tricity is measured — by kilowatt hours used.

Your residential electric meter will have either 5 or 4 dials

Electric meters are easily read from right to left as you look at the meter. If the pointer on a dial is between two
 numbers, write down the smaller number. When the pointer is directly on a number such as one (1) see center
 dial above then read it as 1 if the pointer on the next dial immediately to the right has passed zero (0). However,
 read it as zero (0) if the pointer on that dial to the right has not reached zero.

Now let's read the same meter 24 hours later

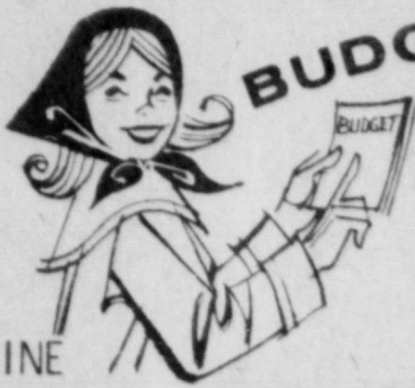

The later reading is 9 3 1 3 8. Subtracting the first reading, 9 3 1 1 5, from the new reading of 9 3 1 3 8 — the
 meter is 23. Thus you would have used 23 kilowatt hours in the 24 hour period.

You can become a METER MAID and watch your meter like a miser if you choose. WE HAVE A
 BOOKLET CALLED "MANAGING YOUR ELECTRIC BILL" plus other WISE USE TIPS booklets that help
 you from wasting electricity and so help lower your cost. Any of these booklets are free for the asking at
 the Public Service office... come by and see us.
