front came our way and left two-tenths of an inch of rain here in town. The town a good face of the cool weather was after the uncomfortable days we had been enjoying a couple of days at the state fair. I braved the eleventh hour on the second day and Jim's foursome around the entire 18 holes. I was so a crisp and Tom's swing didn't help my boys didn't win the title. The other teams were to be more familiar with the fast greens, grassy plus lots of water by trees.

will go to the polls today to vote for or four more proposed amendments to the State Constitution. I say four more, there have already been 11 amendments proposed over the years. It becomes an annual job and surely the Constitution has been amended so often that it's apart at the seams. Amendment Number 1 is nothing more nor is strictly a political cover up the current scandal. The Legislature already has the authority responsibility to establish and standards of under existing statutes. I only hope to stall investigation by pass-back of policing itself Texas to approve Commission ethics commission, if I can only recommend to the legislature veto or approval. I have no power of enactment. And this state need a powerful force to watch over our government. Responsible can manage that quite the polls, never, that is by no all that is wrong with particular amendment. Hypocrisy in this amendment is that it is to the phony commission, its primary purpose to give the legislature raise. The voters refused to allow the five body control over own salaries several in the past, the last in 1969. The pay raise was neatly tucked into the proposal, so you would hardly notice. So this is sheer trickery an insult to the intelligence of Texas voters. For proposal Number 2, all the legislature propose amendments to taxes at any session, or called, if they are permission to propose amendments at will, all Texans will be doing is for or against amendment and the Legislators will buy proposing to ever splash anything concrete. Then there is proposed amendment No. 3, lifting the tax on welfare payments. The proposal passes, we are able to increase the amount of Texas consideration of the influx of proposed welfare recipients. For proposal number 4, this amendment permit cities and towns to go on to the state a bur- which is rightfully theirs, increase the revenue of state when it is already financing financial diffi- taxation problems it doesn't seem to be solve.

remember when I voted "for" a proposed amendment to the State Constitution, and it looks like it won't be changing my way for this election.

Tips For Gardeners

From The Ozona Garden Club By Mrs. Bailey Post

It seems only a few days ago that our area was a drab winter brown and now the whole countryside is a beautiful refreshing green.

Gladioli that are about to bloom should be supported with a strong stake. Be sure to give plenty of water to plants that have recently been set out.

Continue to spray roses at weekly intervals to prevent blackspot and mildew and to control insects. Pyracantha and loquat also have aphids present I have noticed.

There have been several inquiries on how to control thrip (small insects that have mouths equipped to scrape and rasp). They scar and streak foliage and can deform buds so that flowers never open.

Now they are attacking the roses and iris especially. Some authorities say nothing but a hammer will kill them, while other companies list thrip in insects their products will kill.

Quoting from a U. S. Department of Agriculture Bulletin No. 25, given to me by Mr. Pete Jacoby, "No fully satisfactory control is available because of the daily influx of thrips to the rapidly expanding flowers, which cannot be kept adequately covered with an insecticide. The combination spray or the demithoate spray applied to flowers and buds every 2 or 3 days will destroy many thrips as they alight on flowers. Cheese-cloth cages or bags around prized blooms may protect them from damage."

will destroy many thrips as they alight on flowers. Cheese-cloth cages or bags around prized blooms may protect them from damage.

Some of the shrubs, trees and vines are just now showing where the extent of the severe freezes and hail were damaged. These plants form their flower buds during June and July for the following year. To prune after this time would destroy all possibility for flowers next year.

THEY SHALL BEAT THEIR SWORDS INTO PLOWSHARES. AND THEIR SPEARS INTO PRUNING HOOKS. NATION SHALL NOT LIFT UP SWORD AGAINST NATION. NEITHER SHALL THEY LEARN WAR ANY MORE.
Of all the pictures of our senior class trip to New York City, this is everybody's favorite. Not just because of the kids like Tom and Donna, but because of the message.
Clearer than a thousand words, it shouts our interest in anything that speaks of peace among nations.
And not just nations - we pray that within our country men of every color, age and interest can learn to build and work together to make a brighter future.
Sure, we're young and idealistic and have a lot to learn. That's why it's important for our parents, teachers and leaders to have good, strong values to live by them.
My parents do. To them the Church is the backbone of our country and Christianity the key to the future. That's why they go to church each week and talk with them.
