

WOMEN IS SWEEPED BY ARTILLERY

Brother Officers of Lieut. Murrell Come to Rescue

SAY NO ASSAULT OCCURRED; FLYER DENIES CHARGE

W. R. Smith, Once of Midland, Conducts Case for U. S.

SAN ANTONIO, Feb. 13. (UP)—Fellow soldiers of Lieut. John Murrell, charged with assaulting Blanche Ralls, 32, Birmingham divorcee, came to his aid today and said they saw the defendant's car on the side of the road and that if the assault had occurred, they could have seen it.

Murrell testified that he had intended to take Miss Ralls to his home for her mother but the girl became ill. When she recovered sufficiently, she mumbled her address and he drove her home.

Upon direct examination, Murrell said the girl became profane on arrival at home and said, "You'll be sorry you let Phil Wright knock me down," quoting the Ralls woman. Soldiers doing guard duty denied that they heard any of the woman's screams.

U. S. District Attorney W. R. "Bob" Smith, formerly of this judicial district, is conducting the case for the government.

HIGHWAY SURVEY REPORT IS MADE

Outline of road surveys recently made by committees of the Midland county commissioners court and the chamber of commerce were exhibited Tuesday to chamber of commerce directors by County Judge Elliott H. Barron and Clarence Schaubauer.

Judge Barron gave estimates of costs and a definition of a possible route. He strongly urged the making of a road trip by Clarence Schaubauer and Marvin C. Ulmer, which they have planned and it is expected this trip will be made within the next few days.

Directors present were: Dr. W. E. Horst, president; J. C. Miles, E. A. Horst, Earl W. Ticknor, W. B. Simpson, Clinton Myrick, J. E. Hill, Joe D. Chambers, T. P. Barron, George Phillips and Schaubauer.

Reports on membership were made, showing a numerical increase of 48 per cent and a financial increase of nearly 10 per cent, while some directors voted to report on prospects whose names they took.

The next regular meeting is set for March 12.

Couple Suspicious, So Three Arrested

Because a Midland man and his wife didn't like the looks of three men standing beside an automobile at the First Baptist church Sunday evening, the sheriff's office was called and the three were arrested for theft of gasoline.

John Phelps, Raymond Flournoy and Brinsell Powell, of Midland, had been removed from a Brady hearing a broken leg in an automobile accident last week while driving from Big Spring to Temple on a business trip, his car overturning twice after striking a culvert.

Mrs. Ballanfont's Father Improves

The father, Ray Wilcox, of Mrs. Joe Ballanfont, of Midland, has been removed from a Brady hearing a broken leg in an automobile accident last week while driving from Big Spring to Temple on a business trip, his car overturning twice after striking a culvert.

Hogan, Anderson Thanked by C. C.

Chamber of commerce directors Tuesday morning in regular monthly session unanimously approved the printing of new field maps, as prepared by Fred Hogan. The directors expressed their appreciation to Hogan, who is making the maps without charge.

68 ATTEND ODESSA CHAMBER BANQUET

Sixty-eight Odessa and Midland men attended a novel banquet affair at the Odessa high school Monday night—a "sting" supper and program which was designed as the first of a series of monthly programs arranged to bring together business leaders and chamber supporters of the Ector county seat.

Following a banquet of typical ranch food—thick, hot steaks and tender roasts, candied sweet potatoes, pinto beans, homemade apple pies and cream—an informal production of guests and a more informal program of brief speeches resulted. Toastmaster A. H. Dennison called on the following: Paul Moss, Jesse B. Orth, who Monday was elected county attorney of Ector, the Rev. S. M. Mims, pastor of the Odessa Methodist church, Dr. W. E. Ryan of Midland, Supt. M. J. H. Fly of the Odessa schools, Paul T. Vickers of Midland, Taylor M. White, vocational agriculture teacher in the Odessa schools, John M. Gist, president of the Odessa chamber.

50 of 67 Girls in Odessa High School Studying Home Art

Impetus supplied through winning first in its class for three consecutive years at the state homemaking rally has caused 50 of the 67 girls in the Odessa high school to enter the vocational homemaking department.

Broadwayite Finds Midland Illogical In Some Respects

What a Broadway columnist thinks of Midland's hotel lobby cowboys, what we eat and why, is found in the writings of Terry Ramsaye in his column, "America, From New York to Hollywood," mailed to Mr. and Mrs. J. Howard Hodges. The Hodges explained Ramsaye had dinner in Midland recently.

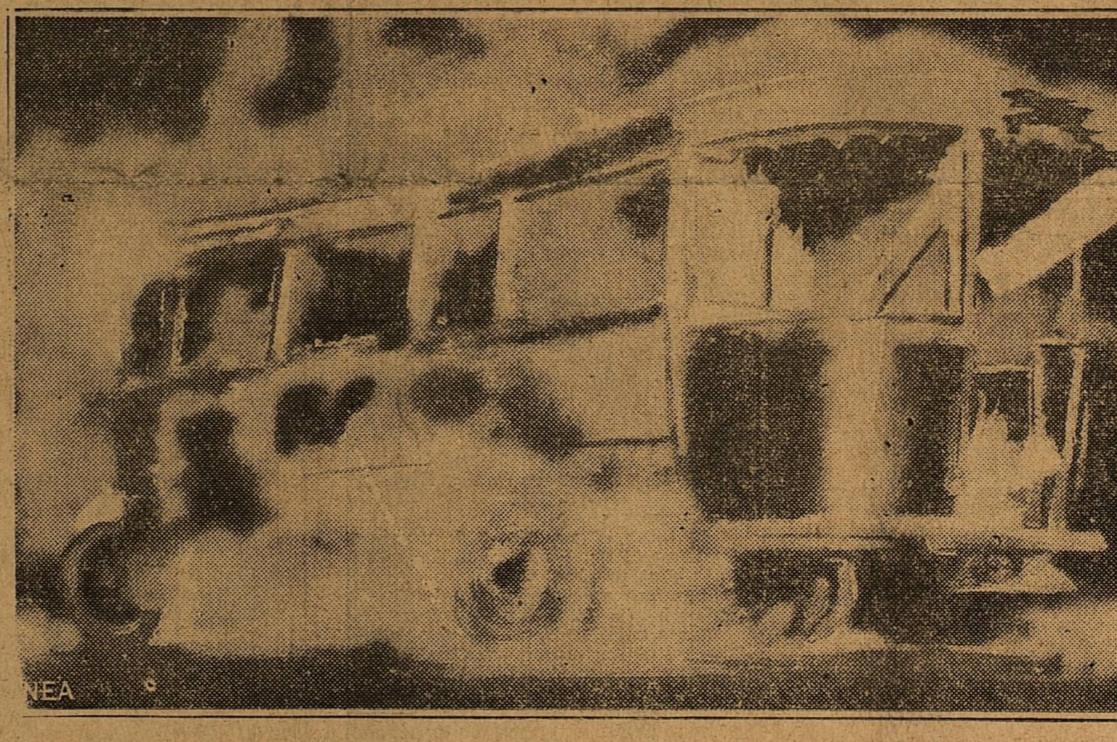

Dance Publicity Has Been Mailed

News about the Washington birthday party to be held in Midland by the Lions club Feb. 22 was sent to eight neighboring newspapers Monday by the Midland chamber of commerce.

Reporter May Be Only Modern Who Ate Pterodactyl

Astounding likeness of freak growths to animals, birds or mammals as shown occasionally in the cartooning of the noted Ripley is gone one better in a sweet potato discovered by O. W. Roberts Jr., who works in a Midland cafe.

Scenes Such as These Occur in Paris and Vienna

Frenzied mobs, above, incited to new outbreaks by the deaths of more than a score of their fellow-rioters, attack the mobile guards in the Place de la Concorde and, below, ignite a motor bus. Riots in Vienna have also thrown European unrest into relief.

Broadwayite Finds Midland Illogical In Some Respects

What a Broadway columnist thinks of Midland's hotel lobby cowboys, what we eat and why, is found in the writings of Terry Ramsaye in his column, "America, From New York to Hollywood," mailed to Mr. and Mrs. J. Howard Hodges. The Hodges explained Ramsaye had dinner in Midland recently.

AUGUST BUSCH IS A SUICIDE

ST. LOUIS, Feb. 13. (UP)—August A. Busch Sr., 68, head of the Anheuser-Busch Brewing company and one of the wealthiest men in the state, shot himself to death today at his home here.

MASS WEDNESDAY

\$750 IN PREMIUMS TO BE AWARDED AT ECTOR COUNTY FAT STOCK SHOW

The Ector County Annual Livestock and Poultry show, to be conducted at Odessa Feb. 22-23-24, will be novel in several respects, announced John M. Gist, well known Hereford breeder and show herd manager, here today.

Mize Finds Relics Of Great Age As He Tramps over Desert

Back from a vacation which variously carried him to old Fort Eagle, to the old overnight stage stop on the San Antonio to California trail and to an old line camp and bat cave in the Diablo mountains, T. D. Mize brought several hats-full of 100-year-old relics and grim reminder of a pitched battle last year between members of the immigration service and Mexican smugglers.

RIGID DISCIPLINE IS CLAIMED ON

Mowery to Judge Brady Stock Show

BRADY (P)—Ray C. Mowery, livestock coach at Texas Technological college, will judge the Brady and Mason livestock shows this month.

WEATHER FORECAST

WEST TEXAS: Generally fair tonight and Wednesday.

GOVERNMENT SAYS REVOLT EXPECTED TO BURN SELF OUT

VIENNA, Feb. 13. (UP)—The government today created a court martial to try and hang offenders convicted of fighting authorities under the existing martial law. Summary execution for those found with guns has been ordered as one grim move in extreme martial law. Marked decrease in infractions has been noted by civil and government authorities.

VIENNA, Feb. 13. (UP)—Artillery fire crashed at a dozen different points today as socialists stubbornly fought combined forces of the state.

The government issued an ultimatum that fighting must cease by 5 o'clock this afternoon or "sharper" measures would be adopted.

Modern Prisoner Of Chillon Says Cell His Refuge

The modern "Prisoner of Chillon" has officers of Stanton guessing. He is in jail, unbooked, yet wishes to stay there.

PRISON BREAKS AVERTED TODAY

JEFFERSON, Feb. 13. (UP)—An attempt to escape by four life-term convicts from the Missouri penitentiary, after the throwing of a crude bomb into a guard tower, failed today following an unsuccessful attempt of inmates to escape.

WALLA WALLA, FEB. 13. (UP)—Eight were killed and ten others were wounded.

Mowery to Judge Brady Stock Show

BRADY (P)—Ray C. Mowery, livestock coach at Texas Technological college, will judge the Brady and Mason livestock shows this month.

Contract Let for Concrete Bridge

EAGLE PASS. (P)—The state highway commission has notified County Judge W. O. Fitch a contract was let February 12 for construction of a new concrete bridge over Elm Creek on Highway 85, three miles north of Eagle Pass at a cost of between \$25,000 and \$40,000.

MARSHALL FLIES TO TYLER MEET

TYLER, Feb. 13. (UP)—J. Howard Marshall, attorney for the petroleum administrative board, arrived here today from Washington, by airplane, going immediately into conference on the plan of the government's next move for regulation of oil production.

Laredo Asks for A Port Building

LAREDO (P)—Sponsoring a movement to provide Laredo with a port building to house the United States customs, immigration, public health and other departments, the chamber of commerce is planning a survey to be made by C. A. asking for \$250,000 with which to carry out the project.

ASK TEN YEAR SENTENCE

GEORGETOWN, Feb. 13. (UP)—A maximum of ten years imprisonment was asked for C. E. Heidingsfelder, attorney charged with embezzlement, by the state as the case opened.

WATCH YOUR DRIVING ON FAIR DAYS, TOO

One of the queerest things about automobile traffic is the fact that whenever there is a spell of nasty winter weather...

One good-sized city gave a graphic illustration of this last month.

Its police traffic department is undermanned, and it does not ordinarily keep its traffic situation very well under control.

Then came a violent cold spell. The streets were icy, treacherous; snow flurries filled the air...

And immediately the city's accident rate dropped to an astoundingly low point.

In this startling reversal of logic, there is a neat little moral for motorists all over the country.

It is pretty clear proof that auto accidents do not come from dangers inherent in the flow of traffic.

When the streets are dry, and every car can be kept under perfect control, and drivers and pedestrians alike can see without difficulty in every direction...

Motorists drive too fast, they cut in and out of traffic lanes, they try to beat the other fellow across intersections.

Pedestrians trust to their nimbleness of foot to dart through lines of heavy traffic.

SOCIETY

Sweetwater Plans For Sixth District Club's Convention

SWEETWATER.—With only six weeks until the dates of the annual spring convention of the sixth district Texas Federation of Women's clubs, which convenes in Sweetwater on April 3-5, the minds of the club women are centered upon the arrangements and plans for entertaining guests from the 47 West Texas counties, the very large district in the entire state.

Between 150 and 200 officers, delegates and visitors are expected to visit this city and while the members of the City Federation of Women's clubs realize there is a big task ahead of them, they are already planning to put forth their best effort to show genuine West Texas hospitality to the guests within our gates and to make this convention one of the most successful within the history of the district.

Sweetwater clubs were host to the sixth district in 1917, the second year of the organization.

Tentative plans are being worked out between the district president, Mrs. Joseph M. Perkins, Eastland and the district program chairman, Mrs. John Perry, and will be announced soon.

The convention will open on Tuesday afternoon with a board meeting and close on Thursday afternoon. Fine Arts evening will be on Tuesday evening and President's evening on Wednesday at the Municipal auditorium. The City Federation will entertain with a candlelight tea on Wednesday afternoon, and there will be a luncheon on Wednesday and on Thursday. Since the visitors are to be at the hotels, in place of being entertained in the homes as heretofore, the committees are arranging for courtesy luncheons.

World Prayer Day To Be Observed Friday Afternoon

Observing world day of prayer, Midland churchwomen will meet at 3:30 Friday at the First Christian church, using a program which has been issued the world in over 50 languages for this occasion.

The theme is "A Prayer for Peace in Jerusalem." The program, prepared by Mrs. J. W. L. Hofmeyer, of Capetown, South Africa, will be given first in New Zealand when day begins, and as the day progresses the program will follow the sun around the world. The observance will end in the Hawaiian islands with a service for young people.

Methodist Circles Begin Study Course

The mission study book chosen by the Methodist auxiliary for this season, "Christianity and Industry," was begun at meetings of the three circles Monday afternoon.

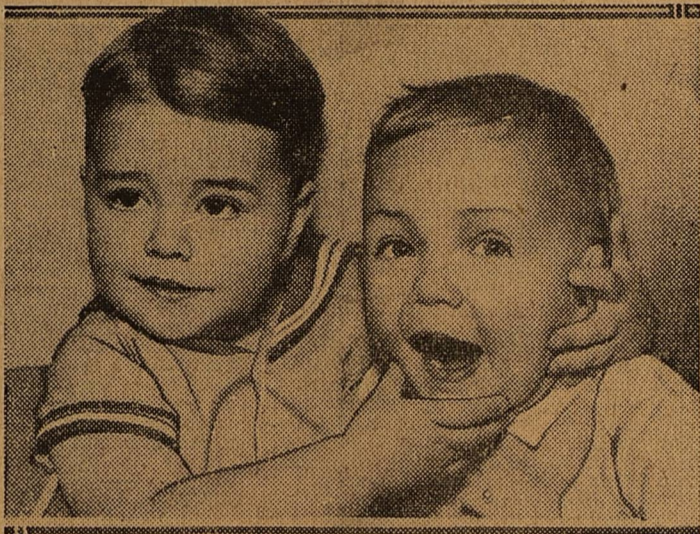

The Mary Scharbauer circle met with Mrs. J. H. Rhoden, circle chairman. After a brief discussion of projects for the year Mrs. Kenneth C. Minter taught the first of the mission study. Refreshments were served by the hostesses to Meses, Mary S. Ray, Otis Ligon, J. D. Young, Minter, Joe Capriola, Ellis Conner, Kirby Sims, W. A. Black, Harvey Fryar, Frank Adams and J. W. Day and Miss Martin.

The newly organized Laura Haygood circle met at the home of Mrs. D. E. Holster, 901 North Whitaker. Sixteen members including one new member and one visitor attended. The mission study course was begun with Mrs. Luther Tidwell as leader. She was assisted by Meses, Frank Prothro, Noel G. Oates, L. B. Hankins, and C. E. Smith. Mrs. Jess Prothro, president of auxiliary, met with the circle and gave a brief talk.

The Belle Bennett circle met with Mrs. John Davis to begin the study course. Good attendance marked the session.

The word "Kismet," used by Mohammed in preaching the Koran, means fate.

Five Minutes—And They're Pals

Baby LeRoy and Spanky McFarland, the two youngsters who grab themselves laurel wreaths in Paramount's "Miss Fane's Baby is Stolen," showing today through Thursday, at the Ritz theatre, starring Dorothea Wieck, and Alice Brady. The picture is based upon a story by Rupert Hughes. Also in the cast are Jack LaRue, and William Frawley.

Threshold Thinkers Class Entertained

The Threshold Thinkers class of the First Methodist church was entertained with a Valentine party Monday evening at the John Davis home, 602 N. Marienfield.

As guests entered they were given small paper bags filled with candy hearts. If in a series of questions that followed, guests used the words "yes" and "no," hearts were taken from the bags and given the person who asked the question.

To choose partners for the remainder of the evening hearts were passed out with names of famous lovers in history and comic strips written on them. Guests matched the hearts, forming couples.

A series of Valentine games were played, including a heart hunt. Miss Ruth Long and Mr. M. D. Johnson received a prize of a Valentine box of candy for finishing first.

Refreshments of strawberry ice cream and cake were served to Meses, Mrs. Lloyd Long, Euel Feeler and Clyde Gwyn. Meses, Margie Reising of Rochester, Margie Smithers of Odessa and Ruth Long, Meses, Frank Davis and M. D. Johnson.

Ash Wednesday to Be Observed Here

Ash Wednesday, the beginning of the Lenten season, will be observed here with a 10 o'clock service at Trinity Episcopal chapel. The Rev. W. H. Martin of Big Spring will be here.

DISTRIBUTE DICTIONARIES
MOSCOW, (U.P.)—Millions of dictionaries are going into Soviet homes as a part of the communist regime's drive to spread knowledge among the proletariat. The state publishing trust in 1933 printed more than 2,000,000 dictionaries, many of them English-Russian.

Personals

J. V. Hollingsworth, former Midland cattleman and at one time postmaster here, was here today from Greenfield, Calif., where he owns irrigated farm land. He moved from Midland in 1916, residing for a short time at El Paso before locating in California.

Joe Pyron is at Rankin today on a business trip.

Alex D. Haynes of San Angelo is in Midland transacting business today.

D. D. Christner and F. D. Ballestine, Fort Worth oil men, are here on a business trip.

J. L. Ryan has returned to his home at Lubbock after transacting business with officials of the gas company here.

Roy Spears, district manager of Perry Bros. stores, is here from Brady, conferring with George H. Halton, Midland manager.

Fletcher Curry made a business trip to Andrews this morning.

Miss Marjie Smithers returned to her home at Odessa this morning after spending the week end with Miss Ruth Long.

Supt. and Mrs. J. A. Summerhill were here Sunday from Andrews.

Announcements

Wednesday
Meeting of the Fine Arts club Wednesday at 3:30 with Mrs. B. C. Adison at Hotel Scharbauer.

The Mid-Week club will not meet this week, announcement has been made.

Thursday
Mrs. Joe Haygood will be hostess to the Ben Amigos club Thursday afternoon at 2:30.

Observance of Founder's day by Midland Parent-Teachers organization at the high school auditorium Thursday evening at 7:30.

Learns of Private Life of Mosquito

HOUSTON, (U.P.)—The private life of Mr. and Mrs. Anopheles Quadrifidius isn't a secret any more.

Homer C. Matthes, Rice Institute entomologist, has traced them to their various retreats and what he knows about that family is plenty!

Their affection cools with the weather and rain has its tell-tale effect, the scientist has observed.

Each Friday afternoon for more than a year Matthes hit the mosquito trails just to see what was what. Into the marshes of Brax's Bayou, under bridges, into old barns and over fields he followed the spoor of the Anopheles.

Armed with mosquito lotion, pencil, pad, recording thermometer and a white ball atometer, Matthes braved the buzzing of the malaria fever carriers.

Previous observations that Anopheles did bite were substantiated early in his sojourn—that is, the woman of the family bite.

He found that at temperatures below 68 degrees Fahrenheit the mosquitoes are less active and their production diminishes accordingly. The white ball atometer disclosed insufficient change in the drying power of the air to affect the mosquitoes.

When rains raise the water in the bayou the Anopheles family is sad, for fish come in from the bay and feed on the mosquito eggs laid on reeds near the water line.

SCHARBAUER BEAUTY SHOP

NO Luckies don't use the top leaves . . . because top leaves are under-developed . . . they are not ripe . . . They would give a harsh smoke.

YES Luckies use only the center leaves of the finest tobacco . . . because the center leaves are the mildest, tenderest, smoothest.

NO Luckies don't use the bottom leaves, because bottom leaves are inferior in quality. They grow close to the ground, and are tough, coarse and always sandy.

Lucky Strike presents the Metropolitan Opera Company
Saturday at 1:55 P. M., Eastern Standard Time, over Red and Blue Networks of NBC. Lucky Strike will broadcast the Metropolitan Opera Company of New York in the World PREMIERE of the new American Opera, "MERRY MOUNT."

In making Lucky Strike, we actually discard most of the tobacco plant—because we select only the center leaves—and for these center leaves farmers are paid a higher price. We do not use the top leaves—because those are under-developed. Nor the bottom leaves—because those are inferior in quality—tough, coarse and always sandy. But these center leaves are the mildest leaves, silky, smooth, tender. And so only these center leaves are used in making Luckies the fully packed cigarette—so round, so firm—free from loose ends. The tobacco doesn't spill out. That's why Luckies draw easily, burn evenly—and are always mild and smooth . . . And then, too—"It's toasted"—for throat protection—for finer taste.

NOT the top leaves—they're under-developed—they are harsh!

The Cream of the Crop
"The tenderest, mildest, smoothest tobacco"

NOT the bottom leaves—they're inferior in quality—coarse and always sandy!

Always the Finest Tobacco and only the Center Leaves

WHAT'S BEHIND YOUR TELEPHONE

The men and women who furnish telephone service here could not do their job so well, if it were not for this unseen army of workers behind them

Manufacturing . . .

Research . . .

Economical Methods . . .

Skilled workmen at the lathes and furnaces of Western Electric Company, turn raw materials from the far corners of the world into the 100,000 delicate parts and appliances needed for the telephone service . . . and sell them to the 24 operating companies of the Bell System at a cost below what they would have to pay in the competitive market.

Four thousand workers in Bell Telephone Laboratories, the research organization of the telephone service, search constantly for scientific short-cuts and inventions that will give better service at a low cost. They are the reason you now may talk across continents and seas, that most telephone wires are underground, that a single long distance line may carry four simultaneous conversations.

Staff experts of American Telephone and Telegraph Company, the parent organization of the Bell group, develop economical operating methods for the system, furnish advice on accounting and other matters, and through the financing facilities of the parent company obtain the funds needed for extensions of telephone plant at substantial savings to the operating companies.

THIS specialized group of organizations exists for one purpose only . . . to give you good telephone service at a fair cost.

Back of this fundamental policy is our belief, based on business judgment, that in an organization planned, like the telephone service, for the long pull, what is best for the telephone user becomes in the end the policy that will bring us the sounder, more certain success.

GOOD TELEPHONE SERVICE . . . FOR YOU at fair cost.

SOUTHWESTERN BELL TELEPHONE COMPANY

On the Farm and Range

S. A. DEBNAM
County Agent

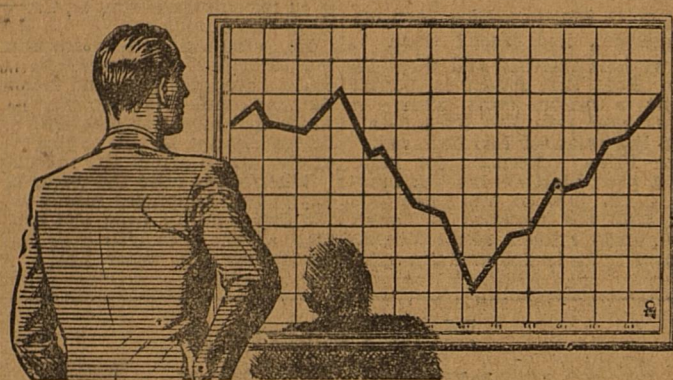

MISS MYRTLE MILLER
Home Agent

"Safe Agriculture—Two years reserve of food and feed on every homestead in Midland County."

To the cotton farmer who has already reduced his cotton acreage and diversified with other crops and livestock in previous years, and who feel the government cotton program is unfair to him, the corn-hog contract may offer interesting possibilities, says S. A. Debnam, county agent.

Suppose a farmer changed from an all-cotton farm system to raise

cotton and half feed a few years ago. He milks cows and feeds hogs and raises chickens for a steady year round living, and takes his cotton money in the fall for paying the bigger bills. He makes the same percentage reduction in his 1934 cotton crop as the neighbor who still plants nearly the whole farm to cotton, but he will receive only half as much in the way of a gov-

THE CURVES OF BUSINESS ARE CONSTANTLY CHANGING

The constant fluctuation of world affairs has a direct bearing on your holdings. Take advantage of your bank's contacts and connections to keep step with the trend of business.

Midland National Bank

ernment cotton benefit check. In many such instances it works out that the diversified farmer may sign a corn-hog contract to reduce corn acreage of hog production or both, and receive government benefit checks that will total just as much or even more than these received by the all-cotton farmer. In addition, the diversified farmer is in a much better position than the all-cotton farmer to use the extra feed which the farm can grow under the terms of the cotton and corn-hog contracts.

The corn-hog contract is open to every farmer in the county who produces a surplus of either corn or hogs and who can otherwise qualify, the county agent points out. The rush of the cotton campaign, a farm-to-farm canvass of farmers in the interest of the corn-hog program an impossibility, but men who may be eligible to sign these contracts should investigate the plan, he suggests.

COTTON CHECKS HERE

Twelve option cotton checks were received in county agent's office, amounting to \$2551.66.

Checks may be had by calling at the agent's office, as soon as possible.

CORN-HOG PLAN

Can a contract be signed by a producer for corn or hogs alone?

No, except as follows: a. If his 1932-33 litters were less than four, he does not have to reduce hog production and does not receive hog payment. If such litters were less than three, he is not eligible to receive a payment even if he desires to reduce hog production. b. If his 1932-33 average corn acreage is less than 10 acres, he does not have to reduce corn production, and he is not eligible for corn payment.

In any case where the average corn acreage is 10 or more acres and the average number of litters is more than three, a producer must reduce both corn and hogs.

Can a contract be signed if the producer does not intend to plant corn or raise hogs in 1934?

He may reduce his corn acreage in 1934 as much beyond 20 per cent of the 1932-33 average corn acreage as he wishes, but he cannot receive payments for any reduction in excess of 30 per cent unless otherwise authorized by the Secretary of Agriculture.

b. He may reduce his litters farrowed and hogs produced for mark-

et by any amount in excess of 25 per cent of his 1932-33 average but he cannot receive reduction payments for such excess reduction.

The contract signer agrees that the farm under contract will be operated throughout 1934. A person owns sows which are placed with producers under an agreement whereby such person retains ownership and receives back the sows and a specified number of pigs at some future time. Can such person include the litters of such sows in his 1932-33 litters under a corn-hog reduction contract?

No, because he does not own the litters when farrowed and because the litters are farrowed on land not owned or operated by him. Can hogs produced under an agreement such as indicated in the previous question be included under any contract?

Yes, they may be included in the 1932-33 litters of the producer if he owns such litters when farrowed.

WOODWORK, FLOORS, FLOOR COVERINGS

Painted woodwork gives a room a light, cheerful, dainty appearance and can be cleaned with ease. Woodwork painted the same color as the floor, or a darker or lighter, helps to tie the room together.

The floor is the foundation of the room and should be two or three times as hard as the walls, with a mellow, inconspicuous finish. A good quality of hard clear varnish applied to the floor will give a satisfactory, satisfactory floor finish for new floors or floors in fairly good condition. For old worn floors two coats of deck paint with a final coat of varnish will be taken outside for cleaning is probably the best management of a best room floor. Many lovely rugs can

SHERIFF'S SALE

THE STATE OF TEXAS, County of Midland, NOTICE IS HEREBY GIVEN That by virtue of a certain Execution issued out of the Honorable Justice Court of Dallas County, on the 15th day of December, 1933, by Allen Wesley, Justice of the Peace, Prec. 7 of said Dallas County, Texas, for the sum of Thirty Five and No/100 Dollars and costs of suit, under a judgment, in favor of Aronson-Rose Mfg. Company in a certain cause in said Court, No. 15556 and styled Aronson-Rose Mfg. Company vs. Mrs. S. Weinstein, placed in my hands for service, I, A. C. FRANCIS as Sheriff of Midland County, Texas, did, on the 27th day of January 1934, levy on certain Real Estate, situated in Midland County, Texas, described as follows, to-wit:

The West 40 feet of Lots 1 and 2 in Block 58, Original town of Midland, Midland County, Texas.

and levied upon as the property of Mrs. S. Weinstein and that on the first Tuesday in March 1934, the same being the 6th day of said month, at the Court House door, of Midland County in the City of Midland, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said execution I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said Mrs. S. Weinstein.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Midland Reporter-Telegram, a newspaper published in Midland County.

Witness my hand, this 27th day of January 1934.

A. C. FRANCIS Sheriff Midland County, Texas.

OLD PLAN—NEW APPLICATION

FORT WORTH, (U.P.)—The famous method employed by the renowned Mexican General Santa Anna in drawing lots for execution—the use of black and white beans—has found a modern usage to determine whether civil works administration employees here will or will not work.

In 1842, Santa Anna allowed a group of Texas prisoners to draw white and black beans to decide which should die and which should live. Seventeen drew black beans; seventeen were executed.

When orders were sent to D. O. Marshall, foreman of a CWA high school project here, to cut down his force he had but 45 minutes to carry out the order, and no time to investigate as to whether one man needed work more than another.

"I had to cut off 17 men from the 120 I have," Marshall said. "So I just placed 17 black beans in a hat along with a handful of white ones and had the men draw. Those who drew black ones were dismissed. I got the idea from Santa Anna." Marshall put the proposition to the men, he said, before he employed

CHICKEN CANNING

Women of Midland county interested in canning chicken for market met in the assembly room of the court house to work on standardizing canned chicken for the market.

Standardization is the first step in marketing a 4-H product. After the product is prepared, samples are sent to the state standardization committee at A. & M. college. If the quality is up to standard it is proved and may be sold under the 4-H label. If the quality can be improved the woman wishing to market improves her product as suggested by the committee and it is resubmitted for approval, thus insuring the public of a high quality or of a quality product.

A NICE RECORD

Mr. and Mrs. M. C. Brawner of Tarzan have the record of \$30 worth of vegetables sold out of their garden, the seed of which cost less than \$2. Eight hundred and forty containers were filled, a part of which was paid as toll for the cans. Following is a list of food which was canned and is stored in the pantry besides enough meat for their use during the year:

Snap beans, shell beans, peas, okra, corn, pumpkin, greens, turnips, turnips with pork, tomatoes, tomato juice, kraut, beet pickles, cucumber pickles, sweet peach pickles, sweet citron pickles, green tomato relish, ripe tomato relish, corn relish, catsup, salad dressing, jelly, 4 kinds, blackberry, cherry jam, 60 pounds lard, 3 bushels turnips (tinned out), fried chicken, fried fish, sausage, chicken gumbo, chicken broth, chicken tamales, chicken tomale loaf, pepper hash, pickle peppers, 25 pounds dried beans, and 50 pounds sacked sausage.

ed the method. "As fair a way as any," they said. "We'll take our chances."

FINDS SAFETY IN AMERICA

CORPUS CHRISTI, (U.P.)—Cherry blossoms of Alsace cannot buy the freedom Miss Mimi Moser has learned to enjoy since coming to America six years ago.

She knew only four words of English when she landed in New York in her native Alsatian clothes, but now it is one of the five languages she speaks fluently. She is a graduate nurse and typically American.

Miss Moser's memories of home, old castles, vineyards and cherry blossoms are shadowed by the frightful months she spent dodging when she heard shells of siege guns whining overhead during the World war.

STONES FOR BREAKWATER SAN FRANCISCO, Calif. (U.P.)—A breakwater, believed to be the only one in the world constructed of granite and marble epitaphs, is nearing completion off the Marin district of San Francisco bay. The wall is being constructed chiefly of headstones, taken from an abandoned cemetery.

Aladdin Magic

THE OLD ADAGE, "Man toils from sun to sun, but woman's work is never done," is only partially true today. Science has taken an interest in the home of late years, and has done much to lighten the burdens of household tasks.

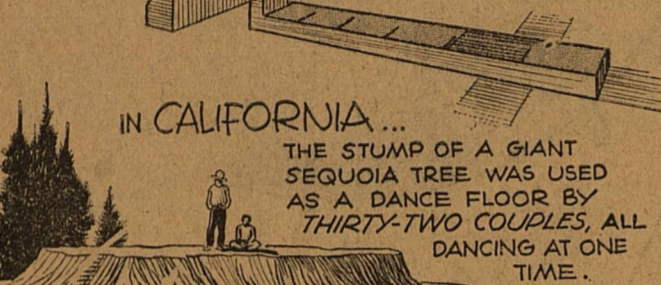

Science has harnessed electricity to make it perform a sort of "Aladdin magic." It works for us, twenty-four hours a day—and its pay is low considering the labors it accomplishes. It furnishes light and heat. It sweeps the carpets and polishes the floors. It runs the sewing machine and washes the dishes. It toasts the bread and percolates the morning cup of coffee. It beats the eggs; it stirs the dough and bakes the bread; and last, but not least, it furnishes the power for the radio to entertain day and night.

You learn of these, and many other time and labor saving devices through the advertisements. They keep you informed of new things and give you dependable facts on which to base a purchase. These are good reasons for believing a product is "better because it's advertised."

Stock Show (Continued from page 1) a \$5 prize each for the grand champion male, the grand champion female and the grand champion pen. In the swine and domestic rabbit divisions there are several valuable prizes. Most of the first prizes of the contest are worth \$10 to the winner, and there are as many as four to seven prizes given in each division. More than \$750 has been subscribed for premiums, making the list probably the most imposing ever given for a fat stock show in this immediate area. Gist is president of the show; L. E. Lassiter, vice president; Taylor White, manager; Grandy Bell, secretary, and Miss Stubby Newnam, cashier. Murry H. Fly is superintendent of the parade; Marcus Gist, superintendent of the livestock division and H. L. Adkins, superintendent of the poultry division. Judges will be W. L. Stengel, beef cattle; Dr. Shiles, dairy cattle, and W. C. Homyer, poultry. An auction sale will follow, at which a bull donated by the Odessa cattleman to the Midland chamber of commerce will be sold.

Broadwayite He Should Have Introduced Self

happ not entirely conscious admission that it takes the good yellow dent of the Midwest's corn belt to make real meat. The cactus clad ranges of the big Southwest produce only the chassis of the steer. The feed lots of Kansas, Iowa and Illinois put on the finish that makes him beef. "A favorite of the region appears to be what is designated as a 'chicken-fried steak.' Careful knife-and-fork research seems to indicate that it is a bit of round that has been hammered to a pulp on the block, soured in flour and simmered done clear through. The result is good, but it is not steak, nor yet chicken."

Banquet

Woodham, Anita Shields, Mildred Thacker and Bernice Lee. Miss Smith, a senior, made an announcement relating to plans for college attendance next school year.

Will Use Ball Jars In Demonstrations

Elma Carlton of the educational department of Ball Bros. will give meat preserving demonstrations at the Midland Hardware and Furniture company store Wednesday and Thursday afternoons at 2:30. Various types of Ball jars will be used. Individual instruction will be given by Miss Carlton before and after demonstrations, to which the public is invited.

Chief Puts Dampener On After Midnight Revelry in Clubs

FORT WORTH (AP)—The dampener has been put on after midnight Saturday revelry in Fort Worth dance halls and nightclubs. Exercising official prerogative, Chief of Police Henry B. Lewis cited a city ordinance against operation of nightclubs or dance halls after 1 a. m. on Sunday mornings, and with the citation sent an effective reminder to slam the doors. A lusty howl went up from many revelers and imbibers when police entered several clubs amid dancing and joviality to enforce the chief's orders. Owners, however, quickly acquiesced and early Sunday morning nightclub festivities have passed into oblivion. At least one nightclub had its best hours after 1 a. m. on Sundays, putting on its floor show and attracting "night owls" who had left other dances and clubs which were obeying the city ordinance without the chief's precautions.

Road Project Is Plan of Chambers

PAMPA (AP)—The Pampa board of city development and the Junior chamber of commerce have raised funds to have a highway route surveyed from a point between Pampa and Miami north across the Canadian river. L. A. White, state resident engineer, will have charge of the survey; the expense being borne by the local civic groups. He has been instructed to find a route which would be acceptable to the state highway department although state designation will not be sought now. Plans were made to take soundings along the Canadian in the vicinity of the point where the route likely would cross the river, then run the survey to such a point, if found feasible. If the most suitable location for a bridge can not be reached by the best route approaching the river some other site for a crossing will be selected. There is a likelihood that the civic groups will raise sufficient funds to have a grade thrown up in the hope that the time will come shortly when the route will be designated by the state and a bridge constructed. Such a route has been sought for a number of years. It would provide an outlet to the south for farmers in the valley north of the river. It, in time, would be extended to Perryton, thereby shortening the distance between Pampa and Amarillo and the northeastern part of the Panhandle.

TURKEY BANS STRIKES

ISTANBUL (AP)—Strikes and lock-outs will be barred by a new Turkish labor bill. The bill is intended to assist in the foundation of extensive state industries under a five-year plan, and will also apply to private industry.
