Dr. Steger speaks to Lions

Dr. Steger

Governor visits

The Spearman Lions Club met Thursday January 22, 1987. The guest speaker was Dr. Douglas Steger and Dr. Steger presented a program on the Lions Hi-Plains Eye Bank.

Dr. Steger explained that An Eye Bank is an organization formed to collect human eyes and distribute them to an ocular surgeon when a cornea is needed for grafting or transplantation.

Eyes are removed within 6 hours after death from persons who have generously authorized this use while living.

Eyes from any age person can be used. The color of the eye, sex or race of the donor is also irrelevant.

All religions have approved the procedure.

Enucleation (removal) of eyes is carefully done and modern morticians close the eyes skillfully so that they appear normal.

The need for wearing glasses, or previous eye surgery, does not affect the donation of eyes.

Eyes cannot be designated for a specific person. They are used for the next patient on an eye surgeon's list. If a donated eye is diseased or cannot be used for grafting, it is carefully studied in research to help find causes and cures for blindness.

In addition to carrying a donor card, the Texas drivers license provides a space for the licensee to donate organs, tissue, or other body parts in the event of death.

In the event that donors move from the district where registered, they may transfer their registration to the nearest eye bank. In the event of the death of a transient donor the registered eye bank should be notified and then in turn arrange for the nearest eye bank to carry out procurement.

Anyone 18 years or over and of sound mind may be a donor. An individual under 18 years may become a donor if both parents or a legal guardian gives consent.

How can you help?
By signing a donor card for the Eye Bank and by encouraging others to do so. Spread the word to your friends.

Be sure that prior to your death your immediate family knows that you wish to have your eyes donated to the Eye Bank. Your next-of-kin must sign an "Authority For Removal" form before the eyes can be removed in the State of Texas.

By participating in the fund raising activities of the Lions Club to aid their sight conservation program. Authorities estimate that over 60 percent of the blind people might not be blind if a

If you are interested in doing something about preventing people from becoming blind, then join forces with the Lions in your community who are sponsoring and directing this program.

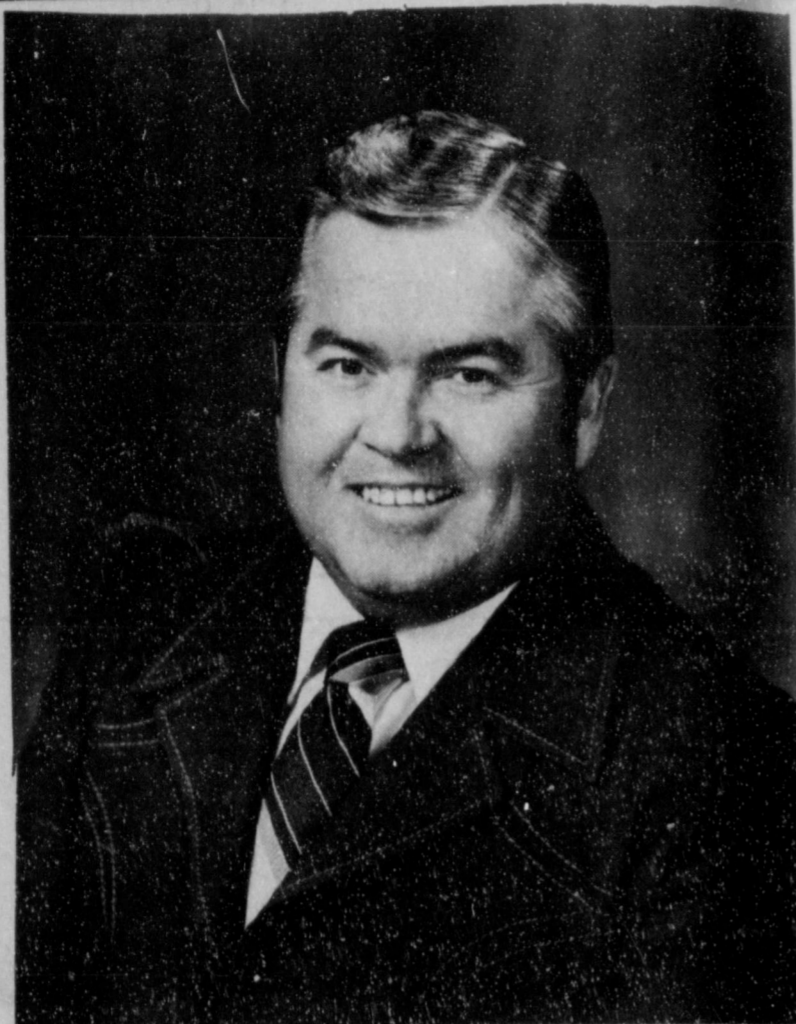

The Lions Hi-Plains Eye Bank of District 2-T1 Inc., is a non-profit organization serving 32 Texas counties.

If you do become a donor - Fill in the card completely. Have signature witnessed by two persons over 18. Your legal next-of-kin may be one of the witnesses. Carry this card in your wallet at all times. Please advise your family, advise your clergy, advise your doctor, advise your legal counsel or advise the hospital (upon entering one), and advise your funeral home (if pre-arrangements made).

Modern surgical science makes it possible for you to bequeath the most precious gift of all...the Gift of Sight. You can help turn darkness into light...blindness into sight...by donating your eyes so that after you have died another person can enjoy the miracle of your gift.

The surgical procedure that can restore sight to one who is blind is called a corneal transplant, the operation for replacing a cloudy cornea. This means that the window of the eye, the cornea, can be transplanted from one person to another. It is the result of a century and a half of research by scientists. It translates into reality a dream as old as man...the result is a miracle.

So don't think twice act now and help someone else see through your eyes. Give the Gift of Sight.

Questa Oil

Questa Oil and Gas Co. of Denver today announced that it closed a \$434,000 private drilling program in December and is proceeding with the drilling of eight oil and gas wells in Texas. The wells are expected to be completed by March 30, 1987.

The 1986 Program is targeting five gas wells, four in Crockett County and one in Hansford County; and three oil wells, one each in Irion, Borden and Garza counties. Each of the oil prospects, located on 640-acre tracts, has three potential offset locations.

The gas wells will be drilled to depths of between 6,000 and 7,500

feet and the oil wells will be drilled to depths of between 7,250 and 8,500 feet. The 1986 Program will retain working interests of between 6.25 and 33.25 percent in the eight wells.

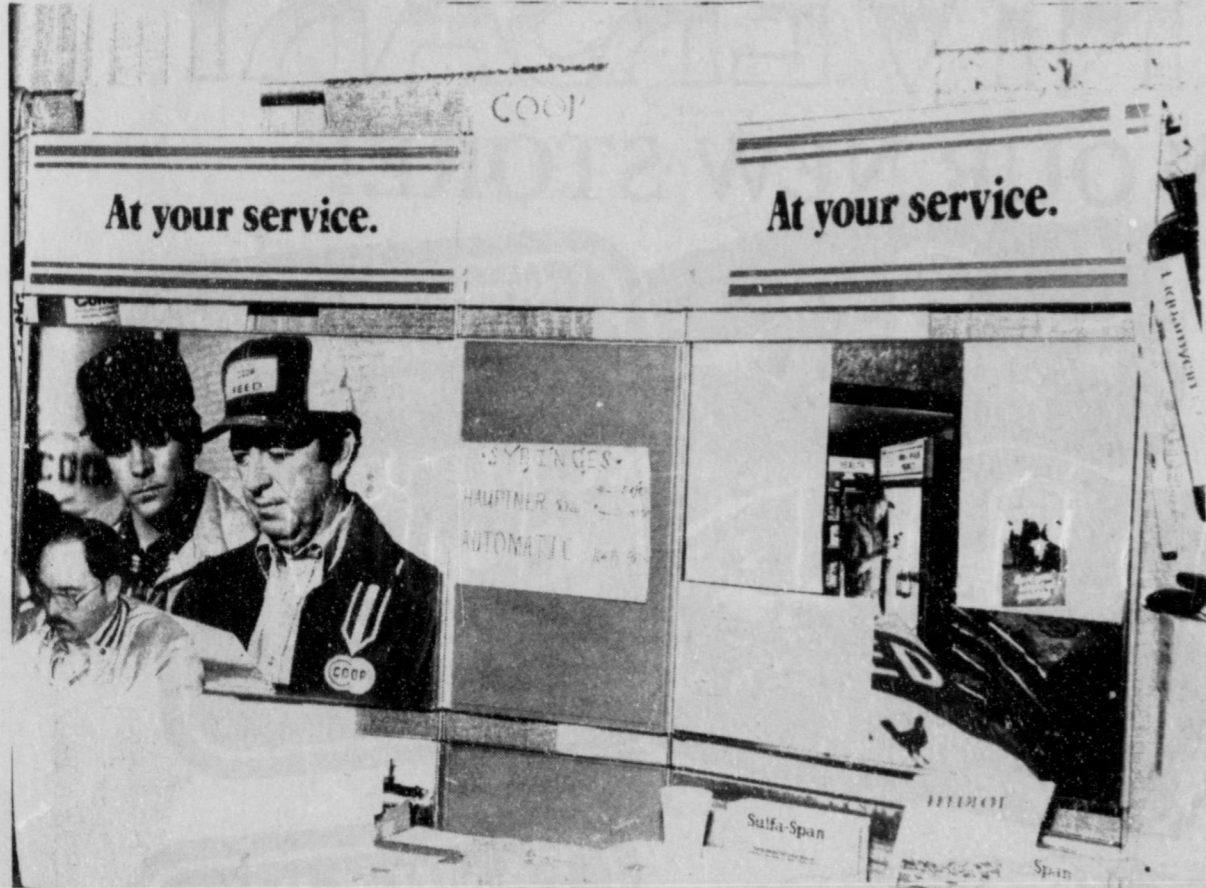

"We are very encouraged to be able to raise these funds in what is a depressed environment for most oil investments," said Questa President Warren Meeks. "We see current conditions as offering an excellent opportunity for companies like ours, with low debt and sufficient capital, to acquire both exploratory and producing properties."

Since it was organized in 1981, the Company has completed six private drilling programs, which have raised a total of more than \$4.6 million. The

majority of the Company's exploration has been conducted through funds raised by its limited partnerships. Questa now has interests in 70 producing wells and is the operator on 35 of them.

Questa Oil & Gas Co. is based in Denver and has an exploration office in Tulsa, Oklahoma. Its producing properties are located in Texas, Oklahoma, Kansas and North Dakota. The Company is publicly-held and its stock is traded in the over-the-counter market.

One Act Play

Spearman High School students signed up for One Act Play Contest last week. Those who signed up will travel to Panhandle High School in March for the contest. Practice Day for the contest will be March 23 and the students will perform their play at 2:00 p.m. on March 24.

"We will be performing on children's play about a good/bad witch, "Pegora the Witch," said Ms. Gerri Maize, drama teacher at SHS.

Students have not been cast into roles yet but should be by next week. They hope to put on a public performance of their play in the near future.
