VOLUME 8, NO. 34 THE HANSFORD PLAINSMAN, SPEARMAN, TEXAS 79081 SUNDAY, JUNE 19, 1977

These lovely bathing beauties are three of the life guards you may observe at the municipal swimming pool. They are: (from left to right) Kathy Garner, Glenda Cook, and Debbie Cook.

A Piece Of Glitter And Gold

Thursday night a young man received a small piece of metal with a bit of cloth attached to it. When queried about this token, the young man smiled, shrugged his shoulders, and said, "I've been waiting for this for a long time".

The young man was Joe McBride and the piece of metal was an Eagle Scout Medal. This is indeed a high honor for a scout. Hazel Stumpf, who presented it to Joe, mentioned that only one out of every one hundred scouts, receives this honor. Joe stood proud and tall as the Eagle Scout Medal was pinned to his shirt, joining his tremendous collections of merit badges. There was one nervous moment when Joe was asked to pin a corsage to his mother's dress, but all turned out well. The Adobe Walls Field representative, A. D. Cox, from Pampa was there to say a few words to Joe, and acknowledge some of the people who contribute to a youngster's becoming an Eagle Scout.

Joe's parents are Bill and Bernice McBride. As they stood on either side of their son during the presentation, they looked as proud of Joe, as Joe was of the metal.

Joe McBride was honored Thursday night by becoming Eagle Scout. Shown here with Joe are his proud parents on either side, Bill and Bernice McBride, and Hazel Stumpf who presented the Eagle Scout Medal to Joe.

The Rev. Russell Pogue, pastor of the First Baptist Church and the Rev. Frank Oglesby, pastor, officiated. Additional services were held at 3 p.m. Saturday at Graceland Cemetery in Meade, Kansas by Boswell Brothers Funeral Directors. Mr. Scott, born in Meade, had lived in Spearman 19 years. He was a utility man for Northern Gas Co, retiring in 1971. He was a Mason, and a member of Eastern Star and the First United Methodist Church. He married Thelma Pemberton in 1932 in Meade.

Survivors include his widow, two sons, Charles of Perryton and Donald of Lawton, Oklahoma; two daughters, Mrs. Margaret Gist of Frankfort, Germany, and Mrs. Marilyn Zimmerman of Balke, Oklahoma; two sisters, Mrs. Hazel Worman and Mrs. Ada Hallock, both of Meade; a brother, Clyde of Sun City, Arizona; 12 grandchildren and three great-grandchildren.

It's Cool At The Pool

A summer full of activities has begun at the City Swimming Pool. The Pool is open to the public from 2 to 6 each afternoon.

The first session of swimming lessons are underway. These classes are already full. A second session will begin July 11 and students may register for these classes anytime at the pool.

Family night will be held each Tuesday night from 7 to 9 p.m. Children must be accompanied by at least one parent. Thursday night from 10:10 to 12 will be Teen night. Friday morning from 10 to 11:30 is being reserved as Ladies Day. The pool will be available to those females college age or older. The pool is available for private parties. The phone number at the Swimming Pool is 2711.

Dr. Im Is Practicing

Dr. Im has received her Texas Certification and has opened her medical practice at the Hansford Clinic. Dr. Im is a specialist in the field of obstetrics and gynecology aside from being a very good general practitioner.

This reporter has heard several comments witnessing to Dr. Im's thorough examinations and fine treatment.

It has been rumored that Dr. Im will only be in Spearman for three months. The Hansford Hospital Administrator, Jerry Taylor, informed us that there is no truth in this, whatsoever. Dr. Im will be here for at least two years, and hopefully she will stay at the end of that period.

When interviewed, Dr. Im said that she liked the people of Spearman. She has received a warm reception, and added that the convenience often found in a larger city, is outweighed by the friendliness, found in our community.

Reunion

The graduating Class of 1967 is planning a 10-year reunion Saturday, July 2, 1977. Letters have been sent to all members whose addresses could be obtained.

It would really be something if everyone could attend.

If for some reason you did not receive a letter or you did but haven't returned it yet please contact Anthony Wilkerson, 809 Adobe, Amarillo, Texas 79111 or phone 806-335-1707.

Dad's Day

by Bob Fight

Sunday will be Dad's special day, Father's Day. As it is fitting for Mom to have her special day, it is also fitting for Dad to have the same, for some of the same reasons, and maybe for some different reasons.

Things are changing in this day and time. Families are probably not as closely knit as they used to be. Children are seeking their own individual personality a little sooner than they used to and are becoming more independent earlier. For this reason, Dad's job is more important than it ever has been. Young people are maturing faster, making Dad's guidance a little more difficult. But Dad is still there to offer his kind counsel and firm control, with his experienced judgement. Dad's roll is changing with these progressive times, but he's doing a pretty good job in keeping up with upshooting youngsters.

In many cases Dad's roll with Mom has changed, too. Often are the times, now, when the financial situation calls for Mom to work. This adds some to Dad's responsibilities, because a working Mom doesn't have the time she used to have to devote to her home and house. Dad is called upon to alleviate the pressure by pitching in a little with the domestic duties. He may also find himself helping Mom to cope with the working worries, which are often like the ones he encounters at his

own place of employment. A Dad with a working wife usually finds himself to possess a little more patience, kindness, and understanding. And generally he's doing a pretty good job of that, too.

Today's Dads are waking up each morning to find that their lives differ in many ways from the one their father coped with. Employment technology has advanced placing more responsibility upon the employee-Dad. Inflation has changed things some, also. Dad has a few more worries than he used to, when it comes to trying to spread the money around the way it should be. The pressures upon Dad have increased and have become more varied.

Taking all into account, Dad is "hanging in there" very well. So, it's only fitting that we salute Dad on this his day. Our hats off to you Dad!!

Blackout Caused By Wind

According to Robert Elliott, Community Public Service manager at Spearman the blackout in Spearman from 10:28 p.m. to 11:07 Thursday night was due to a cottonwood tree being blown onto a transmission line 3 miles west of Perryton.

The Perryton area had high winds late Thursday night, with at least one plate glass window in the downtown section being blown out.

MEMO to DAD on father's day...

YOU are the dad God has given him!
 He is the child God has given you!
 For a while **you** will be moulding his character...
 building his faith...
 enriching his soul...

After that, these spiritual responsibilities will be
 up to **him**.

But while the trust is yours to fulfill,
 remember he's a trusting **soul**.
 So you and he need what **the Church** exists
 to provide.

Vows Repeated In Dumas Service

Vows were exchanged by Susan Marie Barber and Charles Randal Lynn in a mid-afternoon ceremony performed at the First Street Church of Christ in Dumas Saturday, May 27, 1977 with Roy Hannah, minister of the Church, officiating at the double-ring service.

Parents of the couple are Mr. and Mrs. Clyde O. Barber, former Gruver residents, now of Dumas; and Mr. and Mrs. P. J. Lynn, also of Dumas.

The beautifully presented musical background for the 3:00 P.M. rites was by the First Street Church of Christ Wedding Chorus under the direction of LeRoy Blecker who sang "Beyond the Azure Blue", with John Waggoner offering two vocal solos during the service. "I Believe" and the prayer song, "The Lord Bless You and Keep You". For the processional, the Chorus offered "Faithful and True" and for the Recessional, "Oh Perfect Love".

The radiant bride, who was escorted to the altar by her father and given in

marriage by her father and mother, chose a gown of white nylon organza designed with an Empire waistline and bishop sleeves, enhanced with bands of delicate lace. Her veil of bridal illusion edged with a wide band of lace fell from a caplet to a full chapel train. She carried a wedding bouquet of a dozen and one white daisies strewn with white satin ribbons.

Bridal attendants included Sharron Whitmore of Lamar, Colorado, who served as maid of honor; and serving as bridesmaids were Ordiana and Judy Lynn, both sisters of the groom; Cindy Thompson, a cousin of the bride from Lubbock; and her sister, Freda Barber. Mrs. Steve (Sheri) Barber, sister-in-law of the bride from Searcy, Arkansas, presided at the guest registry.

Attending the groom as best man was Terry Preuninger of Sherman, Texas, and serving as groomsmen were David Bragg; and brothers of the bride, Steve Barber from Searcy, Arkansas and Scott

Barber from Dumas; and Phil Bonal. Steve and Scott also served as ushers.

Following the ceremony, a reception was held at the Fellowship Hall of the Church of Christ which was catered by Billie Brazell of Dumas. Presiding at the bridal table were Mrs. Louie (Debbie York) Bretz of Amarillo; Mrs. Gordon (Becky York) Fraze of Rogers, New Mexico; and Mrs. Jerry (Glenda Bell) Steed of Skellytown.

The couple are at home at 410 West 6th in Borger where Mr. Lynn is employed by Phillips Petroleum for the summer before returning to Lubbock for work toward his Master's Degree at Texas Tech this Fall. He also received his B.S. in Electrical Engineering from Tech. SSI Payments Will Be Increased

Basic Federal supplemental security income (SSI) payments will be increased starting in July to keep up with the cost of living, according to Howard L. Weatherly, social security branch manager in Pampa, Texas.

The SSI program pays monthly checks to people with little or no income and limited resources who are 65 and over or blind or disabled. The amount people get depends primarily on other income they might have and their living arrangements.

"The maximum Federal payment people could receive under the SSI program has been \$167.80 a month for one person and \$251.80 for a couple," Weatherly said.

"Starting in July, these amounts will go to \$177.80 and \$266.70.

"People who get SSI payments don't have to do anything to get the raise. Any increases due will be added to checks automatically."

Peggy's Pointers

You'll be amazed at the bonanza of fresh vegetables even a small garden can produce. But to keep a garden producing at its best, you need "succession planting," advises Jim Kuykendall, county agent with the Texas Agricultural Extension Service. This means keeping every inch of space "busy" growing good vegetables all the time. As soon as one crop as finished, plant another to take its place.

For instance, early spring crops—lettuce, peas, radishes and spinach, to mention a few—are usually harvested by the time warm weather sets in. When you clean up that area, don't let it sit idle. Empty space invites "robber" weeds and wastes ground that could be growing delicious vegetables for later harvest, explains Kuykendall.

Snap beans planted about every two weeks until early summer are a good followup to early spring crops and provide a good supply for the table and freezer. Swiss chard is a natural to succeed spring spinach. Swiss chard takes both summer heat and light fall frost as it continually produces succulent greens for cooking. Okra does best when planted late and fits in well after spring lettuce, spinach and even green beans. Squash does well following many early spring crops.

Many areas can produce a second crop of tomatoes, beans, potatoes, squash and other cold sensitive crops. These plantings are made in late summer or early fall, depending upon where you live in Texas.

Think ahead to early fall and the vegetables you'd like to perk up autumn menus—gourmet Brussels sprouts, crisp cabbage, tasty cauliflower, flavorful broccoli, succulent kale! All these mature best in cool weather. You can have plentiful

amounts of these vegetables ever so much fresher and cheaper than from the market. July and August is the right time to sow seeds for these crops in most areas in Texas. All these cool-weather lovers can occupy space vacated by spring-planted crops, says Kuykendall.

When fall does roll around, it's time to plant onions, greens, lettuce, carrots, beets, radishes and spinach. All these stand when frost in the garden where they're mature.

Homegrown peas are always a mouthwatering treat; you often can double the treat with a fall crop. Pods develop well in cool fall weather but should be mature before frost.

Kuykendall lists three important points to remember for success with "succession planting."

First, check the number of days from planting to harvest for each variety. You need to allow enough time to grow and harvest tender vegetables before the first expected fall frost and to let hardy varieties develop before a hard freeze. And remember, as days get shorter it may take plants a little longer to mature than during the long days of late spring and early summer.

Second, keep the ground moist after sowing seeds, especially those planted during hot, dry and windy weather. Water is frequently as necessary to keep the soil damp until the seedlings are up and growing well. This often makes the difference between good results and disappointments. Sprouting seeds can't stand drying out, even for a short time.

Third, check with the county Extension office and request information on home gardening.

With "succession planting," you can get the most out of this year's garden—all year long, adds Kuykendall.

Letter To The Editor

Open Letter to the Citizens of Spearman, Texas:

I have appreciated the opportunity to serve the people of Spearman as Municipal Court Judge. I have tried to fulfill my duties within the guidelines of the Constitution of the United States, the Constitution of the State of Texas, and the Statutes of the State of Texas. I have also tried to adhere to the motto, "Equal Justice For All". I hope that I have been successful in this regard. The following is my letter of resignation which was presented to the City Council on June 14, 1977:

TO THE MAYOR AND CITY COUNCIL

TO THE MAYOR AND CITY COUNCIL OF THE CITY OF SPEARMAN, HANSFORD COUNTY, TEXAS:

I have served as Municipal Judge of the City of Spearman since January, 1975. My agreement with the City of Spearman which was entered into in January of 1975 was that I would agree to serve as Municipal Judge, that I would hold Court one or two days a week, that my employer and I would not take any cases in the jurisdiction of the Municipal Court or on appeal from the Municipal Court, but that as to cases in other courts, my private practice of law was not to be affected. Recently, I have been informed by the Mayor that this agreement is no longer in effect.

During the course of my term of office, I have been approached by various members of the City Council and

City Staff to the effect that I was not dealing out harsh enough punishments in my Court and examples were cited of specific citizens of Spearman, Texas who had not been sufficiently punished. In my opinion this conduct, which has ranged over the entire period of my term, violates Sections 36.01 and 36.04 of the Texas Penal Code, "Improper Influence" in some instances in fact, in others at least in "spirit". I have been advised to adopt a schedule of fines in my Court which was promulgated, I believe, by the City Manager after consultation with some Justice of the Peace personnel and other City Managers in the Texas Panhandle area; I have refused to implement this schedule in its verbatim form absent a City Ordinance establishing this schedule is the approved fine schedule for the Spearman Municipal Court.

My former employer, now partner, in the practice of law, recently accepted a case in the Hansford County Court involving the misdemeanor possession of marijuana. The acceptance of this case has triggered the demand for my resignation or firing by the City Council based upon the premise that by my partner accepting the case, the confidence of other City Employees, to-wit: our policemen, would be undermined and that there would be something "tainted" about this action by my partner. In this regard, under our Code of Professional Responsibility, as adopted by the State Bar of Texas, there is no violation of the code upon complete disclosure to a client (that disclosure has been made). Also, to check the validity of this matter I have consulted with the Assistant General Counsel for the State Bar of Texas, fellow lawyers in the Texas Panhandle, and with friends, all of whom have concluded that absent an agreement/disclosure to the client/employer concerned that there might or might not be a breach of professional responsibility; in short, no one knew what the situation would be absent an agreement/disclosure. However, upon one point all did agree—Your City Council/Mayor want you to resign.

Therefore, because of the pressure to increase punishments (without considering the individual facts and circumstances of each case as shown by the evidence) and because of the bitterness and acrimony shown to me since my partner accepted the County Court case, I feel that my original agreement with the City of Spearman has been breached at a time when I stood ready, willing and able to perform under that agreement. In summation, I cannot act as an impartial judicial officer if I must justify in private the actions I have taken in public.

THEFORE, PREMISES CONSIDERED, I, CECIL R. BIGGERS do hereby tender my resignation as Municipal Judge of the City of Spearman, Hansford County, Texas effective immediately. Respectfully submitted, Cecil R. Biggers

I want to thank the Citizens of the City of Spearman for the support I have received during my term of office, and to those who have expressed appreciation and encouragement, thank-you. Sincerely yours, Cecil Biggers

Company of Pampa has been retained to repair the fire wall inside the incinerator and install a blower to insure the proper burning of pathological waste. They also agreed to check with Jenkins Brick and Supply about refinishing some of the patient room closet doors.

The Hospital seems to be getting a new face-lifting job, but that's not all. All the doctors and some of the hospital personnel have received new papers. These devices allow the doctors to be contacted up to twenty miles away. They not only receive a beeper call signal, the hospital can send them a one-way voice message with this new system.

And the hospital improvements don't stop there. The new color televisions have arrived. More than half have already been installed and the rest should be in within the next few days. When installation is completed there will be a new color television in every patient room. They are equipped with remote controls and pillow speakers which enable the patient to enjoy the TV from the convenience of his or her bed. The remote control also has a nurse paging system built into them. With this the patient can converse with a nurse at the nurses station. Also when a patient pushes the button to beckon a nurse, a small light visible from either end of the hallway lights up over the door of the patient's room. If the nurse happens to be away from the desk, she'll notice the light in the hall.

The hospital is taking on a new look. Jerry Taylor extends an invitation to you to come around and see the improvements.

Prevent Child Burns

Parents can prevent many tragic childhood burns by exercising caution and educating their youngsters to the danger of fire. Parents should make certain that matches and lighters are kept out of reach of the tot. Any forgetfulness in this regard could easily lead to tragedy.

Similarly, young children should be kept away from kitchen stoves, heaters and fireplaces. Never leave a toddler alone in the kitchen where he might be tempted to turn on the stove or in the living room when there is a fire in the fireplace.

Always turn pot handles in to prevent children from pulling scalding liquid over on themselves. Education can begin by the time the child is two years old. At this age the child must be still given 100 per cent protection against major fire hazards, but he can be taught the meaning of "hot" and learn respect for fire through educational experiences.

Person planning to attend the workshop must pre-register by writing to Carl D. Patrick, Texas Agricultural Extension Service, 6500 Amarillo Blvd. West, Amarillo, Texas 79106, indicating their interest to participate in the workshop. Details will be provided by return mail along with study materials. For members of their organization, the Texas Plant Food Institute will sponsor a similar workshop, June 22-24 at the Best Western Villa Inn, Amarillo. A Warm Weather Tip For Pet Safety

As warm weather approaches remember that many pets die from heat prostration if they are left in a closed car too long. Temperatures can reach 175 degrees in a closed car and an open window is an invitation for escape of theft. Be a considerate pet owner. Leave your pet alone, he'll live to love you for it. This item was taken from the Amarillo-Panhandle Humane Society, Inc. Amarillo, Texas newsletter, and was brought to us by Mrs. Jack (Peggy Carroll). She mentioned that Mr. and Mrs. Max Banks of Amarillo, president of Baker & Taylor are members of the society.
