VOLUME VI., NUMBER 75

SPEARMAN, HANSFORD COUNTY, TEXAS 79081

SUNDAY, JULY 11, 1965

In the Kingfisher, Okla., "Free Press" there is a column headed "Indian News" by Mollie Shepherd. She recently wrote about seeing the Mule Train at Clinton.

She wrote:

"When Mollie Shepherd was at Clinton pow-wow, the wagon mule team train were there to see the pow-wow the last night. The M. C. told them they could dance with the Indians for remembrance of their trip. The women were wearing long ruffle skirts, old time fashion, and the men dressed in cowboy and in '89 fashion. They all danced in different way, spreading their legs too far apart, bumping each other. Everybody sure did ha! ha! The next morning on 66 highway, Mollie Shepherd drove by east hill of Clinton, there were 15 mule teams with extra riders on horseback. The line look so natural, and pretty as a picture. The mules were in excellent shape. They were heading toward Oklahoma City (to the Cowboy Hall of Fame.)"

National columnists have been writing recently about the fear building up in national Republican circles and other political camps that Goldwater may take his 27 millions conservative votes with him out of the Republican Party.

It is doubtful that the Arizonian can take that many votes with him wherever he goes, but his big, loyal conservative block could become a force in politics that could be a counterbalance against the other minority groups.

Jeanne Dixon, the woman who foresees the future with amazing accuracy, predicts an end to this country's two party system of government. Should Goldwater and the conservatives establish another power group, it could be the beginning of many different parties.

With 200 million people in this country, it is becoming increasingly difficult for everyone to find a political home in two parties.

Multi-party systems in many countries have caused many political headaches. They have made government slow and cumbersome, but with more party offices and more places for prospective candidates, it might make more people take part in politics.

If you had any ideas about the Panhandle not being in the political doghouse, you can forget them. Apparently, we are.

H. M. Baggerly in the Tulla Herald wrote recently about how office holders can give you the voting record of an area for the past ten years and they remember very well the friendly areas.

We consider Editor Baggerly's information pipeline to President Johnson and Senator Yarbrough to be as good as any in the state. He had fought long and hard for liberal ideas.

Grissiam Trial Set Here September 20

John Lincoln Grissiam, 34, will go on trial here Sept. 20 in 84th District Court on the charge of murder with malice. Grissiam is charged with murder in the shooting death of P. H. (Mickey) Westerfield, a Gruver merchant, who was killed in his store on Feb. 26.

Grissiam, a farm laborer was arrested the next afternoon after Westerfield was found in his store. He was arraigned

on the murder charge after officers found a small caliber pistol, alleged to be the murder weapon.

Westerfield was found in his store about 9 p.m., after he managed to dial the telephone operator and tell her only that he had been shot. He was not able to give his name.

By the time the call could be traced, Westerfield was dead.

It is alleged that Grissiam was burglarizing the Westerfield Dry Goods Store when Westerfield came in the back door and surprised Grissiam.

Sheriff J. B. Cooke, his deputies and Texas Ranger Bill Baten of Pampa worked on the case for 24 hours tracking down a couple of small leads.

Their investigation led to the arrest of two men. Grissiam and his brother, Ernest Grissiam. Ernest Grissiam has been charged with burglary.

It is alleged that the brother helped plan the burglary. Both men are being held in jail. Grissiam is held without bond in the Hansford County Jail. Ernest Grissiam is being held in lieu of bond.

The trial for John Grissiam was originally scheduled for May 17, but District Judge Max Boyer granted the defense attorney a delay when they asked for more time to prepare their case.

Delightful Dessert
For a delightful dessert, fill the cavities of cantaloupe halves with small sugared strawberries and top with small scoops of ice cream; or, if you like, you may reverse the process and top the ice cream with the berries.

Use a Spatula First
The top edge of molded gelatin salad, dessert or other dish may stick when you try to unmold it. As insurance against this, run a small spatula around the edge of the mold to release the gelatin mixture before dipping the outside of the mold in hot water.

Beat It Harder
As good cooks will tell you, egg whites can hardly be over-beaten when they are going to be used in a meringue.

Stacked Compotes Nice
You can create a pretty epergne to use as a table centerpiece by placing compotes of different sizes on top of one another. For summer use, fill with fresh fruit using clusters of seedless grapes and cherries as the "garnish." Tuck fresh green leaves from the garden among the fruit.

Research Foundation Announces Awards

Texas' prestige awards for total accomplishment in the field of commercial agriculture--the 1966 Hoblitzelle Awards for the Advancement of Texas Rural Life--are announced today by Texas Research Foundation.

The two farmers or ranchers chosen for the awards will receive the state's highest recognition given to individual land operators during Texas Research Foundation's Awards Dinner at Renner on Wed., May 18, 1966.

"Search for the two men is underway through a team of statewide committees," said Dr. C. L. Lundell, Director of the Foundation. "One recipient will be a junior farmer and ranchman who is 35 years of age or younger. The other will be a senior who has passed his thirty-sixth birthday."

Next May each will be presented an award of \$5,000 in cash, a gold medal and a scroll in recognition for his outstanding contribution to the improvement of rural life in the state. The four year period of service covered by the awards is July 1, 1961, through July 1, 1965.

"Any farmer or rancher operating in Texas is eligible for the 1966 Hoblitzelle Awards," Dr. Lundell continued. Any organization, business, institution or person may make nominations to the proper committee. The candidate's actual plan of land improvement will receive utmost consideration in the selection, the Director added.

The statewide search is carried out by five state regional committees--one in each of the five areas of the State Association of Soil Conservation Districts. Nominations may be made to any member of the state regional committee in the area in which the candidate lives.

All nominations for the honors must be submitted to the proper committee by December 1, 1965.

Members of each regional committee are the vice president of the State Association of the Soil Conservation Districts, the Area vice president of the State Association of Young Farmers of Texas, an area supervisors of Vocational Agriculture Education, a district agent of the Texas Agricultural Extension Service and an area conservationist of the Soil Conservation Service, and an outstanding banker.

The biennial awards--the most lucrative and all encompassing given in Texas agriculture--are donated by the Hoblitzelle Foundation of

Dallas and presented by the Karl Hoblitzelle Agricultural Laboratory of Texas Research Foundation, administrator of the awards.

The Hoblitzelle Foundation was established in 1944 by Karl St. John Hoblitzelle, Dallas philanthropist, who has been active for half a century in civic, educational, cultural, patriotic and charitable movements.

Winners of the 1964 awards were Albert Roach, Lamar County farmer-stockman of Deport, and Bill Sherman of Lockney, diversified Floyd County farmer, senior and junior respectively.

Hallmark Appointed To Water Conference

Speaker Ben Barnes today announced the appointment of State Representative A. C. "Shorty" Hallmark of Dalhart to attend the eleventh Southern Water Resources Conference to be sponsored by The Council of State Governments. The Conference will be held at the Hotel Monteleone in New Orleans from July 11-14.

Discussion topics include functions of the Water Resources Research Institute, problems involved in forming water compacts, model legislation for water program participation, state enabling legislation for participating in federal projects, and legal fiscal problems involved in financing water projects.

Marshall W. Qualls, Deputy Commissioner of the Kentucky Department of Natural Resources will open the four-day conference. Other presiding dignitaries include Joe D. Carter, Chairman of the Texas Water Commission, Calvin T. Watts, Assistant Director of the Louisiana Department of Public Works, Sam A. Thompson of the Mississippi Board of Water Commissioners, and Raleigh W. Robinson, Director of the Tennessee Division of Water Resources.

Invitees to this important conference include a number of federal officials and officials from the Southern states

who have an interest in the growing problem of conservation and development of water resources.

Sports Cure Couples

BAD GASTEIN, Austria — Sports courses that are called "cure classes" will be held here all summer to help working women and married couples regain the calm and composure they have lost in the tenseness of big-city life. Favorite sports for this purpose are swimming, walking and riding. Six "well-broken-in" hacks are especially recommended for "healing excursions."

CLEAN LUGGAGE

After a trip use the upholstery attachment to your vacuum to remove sand, dust and lint from each suitcase. Put a bar of scented toilet soap in each piece so that bags will be sweet and clean for your next trip.

Adding thin strips of green pepper or pimiento to creamed celery makes the dish attractive. Or easier yet, just sprinkle with paprika.

Kirk, Womble on FB Tour

Mr. Delon Kirk of Spearman and Mr. R. C. Womble of Morse will leave July 11 on a week-long Farm Bureau-sponsored bus tour of five mid-western states to observe operations of county Farm Bureaus in those states.

Mr. Kirk and Mr. Womble will join approximately 175 other county Farm Bureau leaders from all over Texas in the seven-day tour through Oklahoma, Kansas, Missouri, Iowa, and Illinois. This "Institute on Wheels" is designed to give a first-hand look at programs carried on by effective county Farm Bureaus in some of the most important farming areas of the U.S. It replaces the annual Texas Farm Bureau Institute which has been held each summer since 1949.

Four, and possibly five chartered buses will be used departing from Houston, San Antonio, Abilene and Lubbock. The buses will rendezvous in Oklahoma City. They will be joined there by other buses carrying county FB leaders from Oklahoma.

After leaving Okla., the caravan of buses will be divided into tour groups, each one taking a slightly different route to visit not only county FB offices, but also farms, feedlots and other outstanding agricultural facilities in the five states on the itinerary.

The county Farm Bureau leaders will hold a big rally Wed. evening, July 14, at the headquarters of the state Farm

Bureau in Bloomington, Ill. There they will be joined by another bus group from Ark., to hear an address by Charles B. Shuman, president of the American Farm Bureau Federation. Presidents of the three southwestern states, in-

cluding C. H. DeVaney of the Texas Farm Bureau, will be in attendance.

On the way home, the group will stop in St. Louis Thursday, July 15, to see a baseball game between the St. Louis Cardinals and the New York

Mets. The Texans will arrive back home on Sat., July 17.

The mobile training school is the second phase of the TFB's leadership training program for 1965, and is a major activity in the organization's "accelerated program" this year. It complements area leadership training schools held over the state in Feb. and March.

RICHEST MAN

TURIN, Italy — The richest man in town, on the basis of assessed taxable income, is Giovanni Agnelli, vice president of Italy's Fiat Automobile Co. The city tax commission said his taxable 1964 income was one billion lire (\$1.6 million) but, as is customary, neither he nor other members of the high-bracket Agnelli family is accepting the commission figures, and compromises are expected to follow.

Reds Say Russian Gowns Inspire Paris

MOSCOW —Mrs. Levachova and Mrs. Efremova, who are in charge of women's fashion in the Soviet Union, have predicted after a visit to Paris that the fall and winter collections in France will be inspired by Russian gowns.

Writing in "Nedelia," the Sunday supplement of Izvestia, they noted that although Frenchwomen respect their "haute couture," they also treat it with total distrust, and dress exactly as they please.

Patterson Leaves Wednesday For Girls' All-Star Contest

The third Spearman Lynxette ever picked for the Texas All-Star Girls' basketball game will play in the contest Saturday in Waco.

Phyllis Patterson, the Lynxettes' big scoring punch for three years, will leave Wednesday with Mr. and Mrs. Dean Weese to attend the all-star basketball clinic and play in the game.

Patterson was selected at the

state tournament by the coaches and became the third Spearman girl selected for the squad and the fourth recognized by the all-star selectors.

Guard Ann Harbour was picked in 1961 after the team finished second at the state tournament. Guard Polly McLain was selected the next year. Guard Sharon Close was named as an alternate last year, but did not get to join the squad.

Spearman's first forward to make the team carries a fantastic scoring and endurance record to the contest. The little 5'5" forward has played in every game for four years, 138; and started every game for the last three years, 107 games.

In these four years of competition she scored 809 field goals and 679 free shots for a total of 2,297 points. She committed only 290 fouls and fouled out of only six games.

Patterson compiled this record

while playing with Vicki Wilde, a tall post girl who for three years scored over 1900 points in 106 games.

Her high scoring record for one game was 38 points and this was done in about three quarters of play. She twice scored 36 points in a game.

Her average scoring per game in three years as a regular was 20.75 points.

The other forward from the Panhandle selected for the game is Betty Courtney of Wellington.

Three area guards were selected. They are Glenda McClellan of Friona, Ruth Elaine Cummings of Stratford and Jane Cleavinger of Dimmitt.

Miss Kay Buzzard, the new seventh and eighth grade girls' coach for next year will take the probable starters for the Lynxettes to Waco to see the game.

Notice To Disgusted

The paper boys and girls who are ringing your doorbell too much are not working for The Plainsman. They are self-employed.

These children buy the papers at wholesale and sell them if they can. We let them return what they cannot sell.

The amount of money they make is directly related to how hard they work. Some sell once and others sell everytime the paper is printed.

If you have noticed, some of the children are enterprising enough that they carry both local papers, so they can have the customer's choice.

Since the children are working for themselves we cannot tell them where to sell. However, we will ask them not to sell on streets where they know someone else has been, unless they have special customers.

If you will give us your name and address we will ask the ones buying papers from us not to call at your house.

However, I would not be too hard on them. There are very few people learning to work these days and we are going to need the few who do, to help pay taxes in a few years.
