## MCKAY IS HIS PRINCIPAL

### Spearman Receives Year's Biggest Rain

The long, hot, dry summer lost one adjective early Saturday morning as a rain and thunderstorm hit Spearman.

Mrs. Pat Cates, the official weather observer, measured 2.48 inches of rain in the storm.

The rain which started about midnight was accompanied by a brilliant electrical and thunderstorm that lighted and shook the town. No damage had been reported early

Saturday morning.

The rain was the first big moisture measurement of the year. Less than one half inch had been measured during the month before the big rain.

It has been raining around Spearman most of the week and some light showers had teased the town earlier. Measurements of more than an inch had been reported in areas south, east and west of Spearman earlier in the week.

Over an inch was reported in rural areas Saturday morning.

### Rites Held For Pioneer

Funeral services for Mrs. Mary Belle Fletcher, 88, of Gruver were conducted at 2:30 p.m. Friday in the First Baptist Church of Gruver.

Services were conducted by the Rev. Bill Butts, pastor, and the Rev. Herbert Hughes, retired pastor. Boxwell's were in charge of interment in the Elmwood Cemetery in Guymon.

Mrs. Fletcher died at 3:15 p.m. Wednesday in Hansford Hospital.

She lived at 612 Womble in Gruver.

Mary Belle Childers was born, Feb. 22, 1878, in Montgomery, Ala., the daughter of App Childers and the former Jennie Burt.

She married William N. Fletcher on Dec. 24, 1893, in Slidell, Tex. They moved to Texas County Okla., in 1907 and to Hansford County (Continued on back page.)

### Hutchison Wins Revue

Hansford County has done it again, they have a county winner in the Texas 4-H Dress Revue at the State Fair in Dallas, come October.

Rebecca Hutchison, the county winner was one of the four district winners selected at the District One Dress Revue in Amarillo Tuesday.

She was wearing a coordinating pimento red wool dress and coat she had made.

Her sister, Cindy, the junior county winner modeled her winning garment. Juniors do not compete for district titles.

Connie Trindle, Hansford and district winner last year, was one of the two narrators for the district show. Her sister, Janice, helped with the tea which followed the revue.

KENNETH L. MCKAY

A new Spearman High School Principal was hired Thursday night by the Spearman School Board on the recommendation of Dr. Bill Reeves, Superintendent.

Kenneth L. McKay was given a one year contract by the board after he was recommended by Dr. Reeves and he met with the board.

McKay is a graduate of Berger High School, after moving around over much of Texas as a youth. He has a Bachelor and Master's degree from West Texas University and a second Master's degree from Brown University, and Ivy League school.

The new principal became a teacher in the Stinnett School after being discharged

from the Navy. He was a history teacher for five years, the Elementary Principal for one year and has been High School Principal there for five years.

After receiving his bachelor's degree from West Texas, McKay entered the Naval Air Cadets, but was forced out of the program for medical reasons.

He served on the aircraft carrier USS Bennington and an Air Controlman.

He married a New England girl and they have three children. She is a private music teacher. They are both active workers in the Stinnett Baptist Church.

The board also approved the employment of two teachers. Mrs. Jackie Graham was employed as an elementary teacher. She taught in the system last Spring.

Mrs. Jerry Rails was employed as the part-time music teacher. She will teach the third through sixth grade music and assist with the seventh and eighth grade choirs.

The board also approved the addition of about 300 more stadium seats at Lynx Field. This will almost double the number of reserve seats and general admission seats available at the stadium.

The board also approved the study of the curriculum and physical facilities of the Spearman schools. This year-long project will give the school a plan for future needs in both courses and facilities.

Dr. Morris Wallace, head of the Education Department at Texas Tech will coordinate the study. It will involve the entire faculty, administration, school board and laymen in the community.

### Brother Dies In Combat In Viet Nam

The Viet Nam war touched closer to Spearman this week with the death of the brother of a Spearman woman reported from the war zone.

Platoon Sgt. James Robert Croley, 33, brother of Mrs. John Brown of Spearman, was killed in action in Viet Nam, his family was notified this week.

Sgt. Croley grew up in Amarillo and was a career Army man. He served in the Marines in the Korean War, then enlisted in the Army.

The Defense department telegram said Sgt. Croley was killed by a metal fragment while in combat.

Besides his sister in Spearman, he is survived by his wife and four children, another sister, and his mother.

His body will be returned to Amarillo for final rites and burial.

### BLAZER FUND GROWS

Three more contributors have increased the Lynx Blazer fund to \$125, according to Head Coach George Wright.

### 300 Donors Needed

Approximately 300 prospective blood donors will be needed here Thursday to secure the 200 pints of blood set as the quota for Hansford County.

The blood bank will open at the Home Demonstration Clubroom at 9 a.m. A staff of doctors and nurses will be there to draw blood until 2 p.m.

Drive Chairman E.J. Copeland is asking for 150 donors from Spearman, 100 from

Gruver and 50 from the Morse area.

The blood will be used at the local hospital and part of it will be sent to Viet Nam.

This program will cut the cost of blood needed by the patients in the local hospital.

Anyone wishing to donate blood should contact Hansford Hospital, Dr. Damon Gregg's clinic, or Billy Miller at the Spearman Reporter.

### LIVED IN MADRID

## Americans Adjust to Spain

Put an American family in the middle of a strange country, with strange laws, customs and languages and they will make the necessary adjustments.

Mrs. Howard Long and her children, Andy, Sarabeth and Howard Dean are visiting here with Mrs. Long's mother, Mrs. Sada Hoskins and other relatives, after being in Madrid, Spain, for two years.

Howard Long, an engineer with Phillips Petroleum Co., was sent to Spain to build a refinery and train Spanish workers to operate it. He will be in Spain three more months, but Mrs. Long and the children returned early, so the children could enroll in school at Bartlesville, Okla., their home.

Learning to live in a country for a year or more is much different than just visiting as a tourist, according to the family.

Just buying food for the family was a problem until Mrs. Long learned to shop in the

Spanish markets. "Everything you buy comes from a different shop," she said. "You do not get bread and pastries at a bakery shop. You get bread at the bread shop and pastries at the pastry shop."

Americans have to be careful where they buy food and make sure everything is washed, there are no restrictions about handling and selling foods, Mrs. Long said.

The bread is not wrapped. Mrs. Long said there was a standing rule about buying bread. "If you could not brush the dust off the bottom of a loaf with your sleeve, do not buy it."

"We ate it all and it did not seem to hurt us," Sarabeth commented.

The pretty 14-year old daughter said it took awhile to get used to doing without many things taken for granted in this country.

"It took awhile to get use to not having candy, dairy creams and other foods,"

she said. When the family first went to Spain there was no American style supermarkets, but in the last year three or four have been built in Madrid.

Mrs. Long said the American brands and other foods from outside Spain were very expensive. Also merchandise the store had today might be gone tomorrow and not be replaced for weeks or months. Therefore, most of their foods came from the Spanish shops.

The language barrier was a problem. The children picked up Spanish quickly from their association with children, but Mrs. Long said she never did learn more than just a smattering of the language.

She and her housemaid developed a working language of Spanish-English that enabled them to talk to each other.

"The children do not consider themselves fluent in Spanish, but I think they are," she commented.

(Continued on back page.)

RETURNED -- Andy, left, Howard Dean, Mrs. Howard Long and Sarabeth this month after living two years in Madrid, Spain. The father and husband coming home in three months. Plainsman Photo

### Ray Brown Is Improving

Friends will be glad to hear that Ray Brown of Allison, father of Mrs. J. D. Helms is improving and is now in a wheel chair. He is at Wheeler Hospital, Mr. Brown is able to talk a limited amount and it is hoped before long he will be able to be moved to a hospital and be given physical therapy. Mrs. Helms is now home after staying with her father several weeks.

### CWF Meets At Church

The C.W.F. of the First Christian Church met in the Fellowship Hall on Wednesday afternoon at 2 p.m. Rose Kunselman president, presided over the business session with Virus Wilbanks from Circle 1 giving the devotional. This was followed with a talk from the new minister Bro. Schnelle titled, "Aims and Ambitions for the New Fiscal Year."

Ice Tea and Mississippi Lemon pie were served to 23 members by hostesses Dorothy Buzzard and Margaret Evans of the Pheleo Circle.

The next meeting will be held on August 17 at the Fellowship Hall.

### Morris Circle Meeting Held

The Betty Morris Circle of W.M.U. whose president is Mrs. Herb Howe met at the First Baptist Church. In place of the regular circle meeting, the group worked on plans for the coming Bible School to be held in August. Present were Howe, M.W. Walker, Alma Kizzlar and Eva Adkison. Coffee and cookies were served.

The Alma Reed Circle met in the home of Patsy Gates for the mission study titled, "Meet the American Jew" which was brought by Mrs. A.F. Loftin. Prayer calendar was ready by Patsy Gates.

Attending were Gates, Loftin, Ernestine Gray and Joy Ralls.

### Homemaking Notes

Congratulations to Rebecca Hutchison who was one of the four winners of the District 4-H Dress Revue in Amarillo July 19. Becky's costume is a coordinating pimento red wool dress and coat, and very outstanding.

The other 4-H girls named district winners are Becky Martin, Carson County; Doris Wink, Potter County; and Judy Finsterwald, Wheeler County.

These four girls will represent District 1 in the State 4-H Dress Revue October 14-15 in Dallas during the State Fair.

Cindy Hutchison, Becky's sister, also modeled her dress revue garment in the Junior division of the district revue. The Junior 4-H members don't compete on a district basis, but the chance to model their garments gives the junior contestants a taste of what is to come for them in the future.

Connie Trindle, Spearman 4-H member was one of the two marrotors for the District Dress Revue, and she is to be congratulated, too, for the

fine job she did with her narration.

Janice Trindle, a delegate to the District 4-H Council also helped with the tea which followed the Revue.

So, Hansford County was outstandingly represented in all phases of the District 4-H Dress Revue this year by these fine 4-H members.

I also had the opportunity to attend the performance of "Texas" at the Palo Duro Canyon Amphitheater. I will second the high praise given by those who have seen it before me.

It is well worth the trip to see. I know this play must have been fun for the cast even during the rehearsals before it opened, for it is indeed fun for the audience, as well as touching in places, and thoroughly entertaining.

Several 4-H members, from Hansford County this week are attending District 4-H Electric Camp. Sponsored by Southwestern Public Service, the camp is held at Camp Scott Able, near Cloudcroft, New Mexico.

Attending this year are Janice Trindle, Delegate to District 4-H Council, Cindy Hutchison, Vicki Rosenbaum, Lynna Mackie, all of Spearman, Marie Gruver and Tommy Boone of Gruver, From Morse will be Mark McCloy, and Delbert McCloy.

Already thinking about back-to-school clothes? This falls fashions make it difficult to separate the men from the boys--stylishly speaking--because the same fashion themes are influencing student dress from first grades to post grads.

The fashion looks making impressions on boys are the Western, Mod, Military and Traditional styles. In addition to style, color and fabric are making hits with the students.

Bright, bold, "alive" colors are apparent in sportswear and dress clothes as well. Mustard tones, burgundy and lighter blues are big news, as are multi-colored plaids, tattersalls, single and double stripes on chambray shirts and checkered or dotted patterns for casual slacks and shirts.

Teens in grade school and high school seem to take mostly to the Mod look, while older lads ready for college like updated traditional and Western influences.

Wherever the male student is concerned, this will be a bright year on campus and in the classroom.

THE LAST NOTE: There's a new suntan lotion coming out. It's called "My Singe".

Guests this week of Mr. and Mrs. Harold Howerter, Rickie and Ronald were his sister, Mrs. Adelia Thompson, Connie and Gary of Big Springs, Nebraska, Sp/4 Corp. Gary Thompson left Wednesday morning for Ft. Bragg, N. Carolina where he will be re-located after spending the past 10 months in Viet Nam with the 107 Airborne Screaming Eagles. Gary is a paratrooper and will be discharged from the Air Force in February.

### Mrs. Larson Hosts Club

Mrs. Jo Larson was hostess for the Gladiola Flower Club meeting held Thursday morning at 9:30 a.m. in her home.

Coffee cake and coffee were served as the members arrived, after which Margaret Adamson president, presided at the business.

Several flower arrangements were displayed. Winners were a home grown arrangement of Day Lillies by Dorothy Buzzard; borrowed arrangement of yellow zinnias by Carolyn Wood and a specimen of an orange throated pastel yellow gladiola.

The lesson, "Keeping in Touch with Roses" was given by Patty Spoonemore. She told of the planting, care and feeding of roses and showed pictures of the All-American rose selection from 1950 to 1966.

Present were Margaret Adamson, Jackie Banks, Dorothy Buzzard, Betty Davis, Dorothy Laner, Estelle Jackson, Jo Haner, Sherry Partridge, Patty Spoonemore, Lil Turner, Carolyn Wood, Pat Reeves, and Sylvia Cranford.

The next meeting will be at 9:30 a.m. Aug. 4 with Sherry Partridge.

### Lori McAdams Is Honoree

Mrs. Sid McAdams of 210 Lonita Drive honored her daughter Lori with a party to help her celebrate her sixth birthday on Wednesday from 4 to 6 at her home.

Lynn Anne Robinson and Jeanette McAdams led the group in the recreation with outdoor games.

After the gifts were opened the group enjoyed refreshments of cherry punch, ice cream, and a birthday cake using ballerina napkins carrying out the color scheme of cherry and white.

Attending the party were Pam Grayson, Annette Sheets, Billie and Marie Snider, Carla Tucker, Jana McCoy, Karen and Jimmie Toppe, the honoree Lori McAdams, Lynn Anne Robinson and Jeanette McAdams.

Mr. and Mrs. Bill Devers of Canyon came Sunday and brought his grandmother, Mrs. Cora Allen to the home of his parents, Mr. and Mrs. Ray Devers. Added guests were Mr. and Mrs. Don Devers and baby and Peggy Devers who has spent some time with the Don Devers in Panhandle.

Villain is derived from a Latin word meaning farm hand.

### New Emblem Warns Motorists To Drive Safely

The Texas Safety Association warns motorists to be on the alert for slow-moving vehicles on rural highways. Many of these vehicles, such as the farm tractor, are displaying the new SMV emblem to make it easier for motorists to recognize.

The emblem, a fluorescent yellow-orange colored triangle with a dark red reflective border about 14 inches high and 16 inches wide, is placed on the rear of a slow-moving vehicle so it can be easily seen by other drivers, day or night, from a distance of 500 feet or more.

## Interplanting System Being Demonstrated

The High Plains Foundation Farming System of interplanting row crops is being demonstrated by seven farmers on the High and South Plains in cooperation with the High Plains Research Foundation.

Loyd Langford, Associate Agronomist on the Foundation staff, is working with these farmers in displaying the effectiveness of this farming system of two rows of cotton, a blank row and two rows of grain sorghum, forage sorghum or castorbeans. Each of the seven farms demonstrating the High Plains Foundation Farming System has a 4' X 8' sign identifying the farmer and the High Plains Research Foundation.

These demonstration areas of the High Plains Foundation Farming System are being observed by neighboring farmers. Data from these demonstrations will be reported on each farm operation in the 1966 Annual Research Report of the High Plains Research Foundation. The reports will include agronomic, quality and irrigation results achieved by each farmer.

The farmers cooperating with the Foundation in these tests are as follows: Ed Wuerflein, who farms northeast of Muleshoe in the Pleasant Valley Community, has cotton interplanted with grain sorghum; Carl Sanderson, north of Earth, has 75 acres of cotton interplanted with castorbeans; Eldon Ghlke, southeast of Littlefield has two different varieties of cotton interplanted with grain sorghum and cotton interplanted with forage sorghum. In this last system, the forage sorghum and blank rows can be used as diverted acres without penalty.

Neil Landrum has a 126 acre dryland interplanted field one half mile south of Witham. This is a demonstration of Paymaster 111 cotton and waxed Kaffir grain sorghum. Owen Benn, on high way 84 just north of Abertaty, has an interplanted field of cotton and grain sorghum. Ewald Quebe, at Cereal north of Abertaty in Floyd County, has a 95 acre field of cotton interplanted with castorbeans. Delton Stone, Two miles north of Heckville in Crosby County, has cotton and grain sorghum interplanted.

The High Plains Foundation Farming System of interplanting cotton with grain sorghum and / or castorbeans can be

seen at the Tenth Annual Field Day of the High Plains Research Foundation at Halfway, Texas, on Thursday, September 8, 1966. Field scale planting of this system is a part of the J. Frank Triplett Research and Demonstration Farm program. The farm is eight miles west of Hale Center and five miles north of Cotton Center. Don Staggs is the Farm Manager.

## Frank Moore Receives Award

Frank Moore, President of the High Plains Research Foundation, received the Senior Hoblitzelle Foundation Award of \$5,000.00 in cash, a gold medal and a scroll for the Advancement of Texas Rural Life for 1966.

The Grain Sorghum Producers Association of Amarillo, headed by Executive Vice-President Bill Nelson, and the Region Young Farmers of Texas, headed by Delton Stone of Heckville, were the Farm Organizations originally backing Moore's nomination.

Dr. Earl Collister, Executive Vice-President of the High Plains Research Foundation said that Frank Moore's outstanding service in several fields were major factors influencing his election by a committee of outstanding agriculture leaders. He was one of the outstanding leaders in the organization of the High Plains Research Foundation which began as a station of the Texas Research Foundation in 1957, and he was instrumental in the chartering of the station as the independent High Plains Research Foundation in 1959 with the cooperation of the parent organization. Moore served as president and is now legislative Vice-President of Grain Sorghum Producers Association. He is a member of the Texas Agriculture Stabilization and Conservation Committee.

Moore, who has farmed in Hale County since 1946, is a strong exponent of commercial fertilizer, production of high quality crops for the commercial market, use of new crops in a farming program, crop residue management, flame weed control, and the conservation of irrigation water. He was successfully applied farming practices developed by the High Plains Research Foundation and the Texas Research Foundation on his farm. He pioneered the farm application of the High Plains Foundation Farming System, and the production of Foundation Seed of both the new HINN and PATTERSON soybean varieties on his 2,020 acres in Hale County.

### Rural Fire

### Damage Heavy

When fire occurs on farm or rural property, damage is three to six times greater than in the average city fire, the Texas Safety Association reports. Two-fifths of all damage is to dwellings and their contents, another third to barns and their contents. The remainder of losses is to out buildings, machinery and equipment, livestock and produce.

The economic loss to the nation's farm residents from fire is approximately \$193 million a year.

Mr. and Mrs. J.E. Womble were Amarillo visitors on Tuesday, also stopping in Borger enroute home.

## Safety Week July 24-30

The Texas Safety Association today urged Texas farm families to join in observing National Farm Safety Week, July 24-30.

J.O. Musick, TSA General Manager, also urged all persons and organizations allied with agriculture to unite in the nationwide effort to reduce the number of accidents among farm families.

Accidents kill some 8,300 farm residents each year, and an additional 760,000 or more are victims of disabling injuries.

"This is an alarming situation, not only because of the grief to loved ones, the expense and unnecessary suffering, but also because of the monetary loss to the nation," Musick said. "Farm families and rural leaders must make a joint effort to eliminate hazards--at work, in the home, at play and on-the-road."

The 1966 farm safety campaign will place special emphasis on the prevention of highway accidents involving slow-moving farm vehicles.

Farm residents are being urged to use the new SMV emblem on all slow-moving vehicles, such as farm tractors. The emblem, a fluorescent yellow-orange colored triangle with a dark red reflective border about 14 inches high and 16 inches wide, is placed on the rear of a slow-moving vehicle so it can be easily seen by other drivers, day or night, from a distance of 500 feet or more.

The motoring public is being urged to stay on the alert for the emblem.

"The average motorist does not realize how slowly the vehicle ahead of him is moving, until it is too late to avoid a collision," Musick explained.

"Under normal conditions, recognition of the emblem would provide ample time for the motorist to safely reduce his speed."

Mr. and Mrs. Fred Holt and Susan left this week for a vacation trip up the west coast into British Columbia. They plan to be gone a month or 5 weeks.

## Farm Ponds Are Hazards

Farm ponds are potentially hazardous, especially to small children. The Texas Safety Association advises parents to make sure children are supervised by an adult when swimming or playing near ponds.

Farm owners who allow swimming in their ponds should post safety instructions, mark safe swimming areas, provide life-saving devices, such as buoys, ropes or long poles, and, if possible, enclose the pond with a fence children can't climb.

## Tractor Misuse Cause Accidents

The farm tractor is involved in the majority of fatal farm machinery accidents, the Texas Safety Association reports. And, most tractor accidents are the result of the operator's mistake.

Operators of this versatile farm machine should know and use safe operating procedures.

Ever since I've been reading The Plainsman things have been happening! I've had a date every single Saturday night. I'm not sure if it's reading The Plainsman that has made me so popular, but I'm not about to stop reading it until it fits out!

## USED CAR

You know, since the day I became a Plainsman subscriber, a phenomenal thing has happened. My grass is a beautiful healthy green, but it doesn't grow a bit taller. I could quit reading The Plainsman and take a chance on having to mow my lawn every week like before, but I'd be crazy if I did!

Sakes alive! you'll never believe this, but I subscribed to The Hansford Plainsman about a month ago and since that time there's not a dog in the neighborhood that my car can't whip. Of course reading The Plainsman may not have a thing to do with it, but my Tom Cat thinks it does.

### Shieldknight Area Director

Appointment of Jim Shieldknight, Excell Chevrolet-Olds, Inc., Spearman, as Area Director of Texas Automobile Dealers Association was announced today by W.J. Helm of Amarillo who represents this area on the TADA Board of Directors.

Shieldknight has been advised that his major responsibility as an Area Director will be to work at the grass roots with other officials of the statewide franchised new car dealers association.

### Rites . . .

(Continued from page 1.)

in 1927.

Mrs. Fletcher was a member of the Baptist Church of Gruver.

Survivors include her daughters, Mrs. C.B. Voiles of Hooker, Okla., Mrs. C.E. Winder of El Paso, Mrs. J.D. McClure of Norman, Okla., a son, Guy Fletcher of Gruver, brothers, Phil Childers and Dave Childers of Dalhart, App Childers of Dallas, sisters, Miss Sally Childers of Dalhart and Mrs. Rebekah Ward of Denver, Colo., 10 grandchildren, 23 great-grandchildren and three great-great-grandchildren.

Grandsons were the pallbearers. They were Devon Voiles, Ted Voiles, Jimmy Lankston, Gene Fletcher, Don Fletcher, Bob Fletcher, Richie Fletcher and Bob Gillespie.

Mr. and Mrs. E.E. Clement of Spearman and Mr. and Mrs. L.B. Pullem of Amarillo recently spent several days at Lake Tahoe, Nevada. While there they enjoyed seeing the Lawrence Welk show at the Harrah.

Absolute certainty is a privilege of the uneducated mind.

### Americans . . .

(Continued from page 1.)

All three attended a private English speaking school, but they learned Spanish from talking with students outside of class. Many of the students there were from South America. Although they spoke English in school, they spoke Spanish outside of class.

The school was in an apartment building and some houses. Andy and Sarabeth said the classes were rather crowded.

They were anticipating no trouble in school in Bartlesville after being gone two years. All three thought the school in Spain was harder and stricter.

Andy, who is 16, is behind on his driving. No one under 18 can drive in Spain, so he has missed learning to drive and is anxious to get his driver's license.

Sarabeth prefers American living to foreign countries. There is a possibility that Howard could be sent somewhere else by Phillips, but Sarabeth prefers the assignment come after she has finished high school. She will be a ninth grader this fall.

The family lived in a large apartment house when they arrived in Spain, but later moved to a house, with a swimming pool. Howard Dean liked the house because the swimming pool took the entire yard and there was no grass to mow or water. He said you could water everything by splashing in the swimming pool.

Water was a short commodity in Madrid. The supply depended upon the snow in the mountains. There were always water shortages.

Their apartment was flooded one time because the people living above them turned a tap on when the water was shut off. When the water was turned on in the town, the sink filled up and came through the ceiling of the Long's apartment.

The family found people in Europe to be much like people here. There were friendly people and there were people who were unfriendly.

They said that when the atomic bomb was lost in the ocean near Spain, there was much anti-American feelings shown in Madrid.

Also, some of the American servicemen and their families stationed in Spain did not hide their dislike for the country, so many Spanish people judged all Americans by them.

The family spent their vacations traveling in Europe and visited most of the countries in northern Europe. They found the French to be the least friendly and the Danish and other northern European countries to be very friendly and helpful.

While in Madrid, the family was active in the Emanuel Baptist Church, the English speaking Baptist Church. While they were there the Church was allowed to buy some land and remodel, or practically rebuild the building.

Howard drew the plans for the remodeling and these were sent to this country to be approved by the Southern Baptist Sunday School Board.

The English speaking Baptist were even allowed to put a sign on their church.

"There are less restrictions on the Emanuel Church, than the Spanish Baptist," Mrs. Long said. "The Spanish Baptist are not allowed to put a name sign of their churches."

Mrs. Long says the family is glad to be back in the United States. Also, there were hardships and other discomforts to learn to live with, but she would not mind another foreign assignment.

"I suppose I must have some gypsy blood," she commented.

The U.S. Army Corps of Engineers will bore two peepholes 250 feet back of the precipice on each side of the American Niagara Falls. The problem is rockslides.

### Stars Defeated In First Game

Spearman's Little League All Stars lost in the first round of the district play-offs in Fritch Thursday night.

Spearman lost to Fritch 4-0. Ricky Driscoll was the losing pitcher for Spearman.

The local all-stars played a good defensive game, according to officials, but were unable to hit the little slow ball pitcher from the host town.

Mr. and Mrs. C.W. Ainsworth have just come back from a two weeks vacation to various points in Texas.

They were accompanied for one week by their daughter and her husband, Mr. and Mrs. Dan Collins, until they had to return to their jobs in Amarillo.

Mrs. Jesse Womble, local kindergarten teacher for many years went to Berger on Thursday of last week to observe and visit the "Head Start" program which is being sponsored by the school and is held at the school building. Of the four groups being taught this summer, Mrs. Leo Steinkoenig, daughter of Mr. and Mrs. Jesse Womble, is the teacher of one group.

### HOSPITAL News

In the hospital are Bennie Black, George Tope, Roscoe Parks, Lila Carpenter, Osie Mabley, Sue Mason, Pearl Cayton, Dick Hendergardt, Janice Ward, Madelon Burlison, Lynn Pierce, Stephen Westerfield, Stanely Gruver, Lucy Pittman.

Dismissed were Alice Bailey, Kevin Holt, Christy Holt, Elizabeth Beck, Cleo Nichols transferred to Northwest, Joan Stewart, Lilly Mae Chase, Roger Brown, Leora Mitchell, Alene Lieb.

The sea supplies only three minerals in large quantities — common salt, magnesium and bromine.

Carl Zeiss of Oberkochen, Germany, is celebrating a 75th anniversary of its inauguration of photographic lens production.

The wastebasket is still the greatest invention of the office efficiency expert.
