

The Spearman SOCCER CLUB will meet the AIAMO SOCCER club of Amarillo, tomorrow, Sunday 26th of August, 1:00 p. m., at Aubie Sparks field, which is located on North Snider in Spearman. The game, to be played in Spearman will give local sports fans a chance to see the Spearman team in action. Members of the team are; Sergio Vargas, David Hernandez, Manuel Ortiz, Juan Vargas, Jose Gomez, Mark Avila, Junior Avila, Joe Vargas, Chavelo Vargas, Arturo Vargas, Felipe Lomeli, Jose Luis Moreno, Angel Rodriguez, Munoz, Agullar, Chenchu Rosales, Pedro Vargas, "Polo", Oscar Dennis is mascot, Coach, is Juan Avila, and the assistant, is Manuel Gomez. Captain of the Spearman Soccer team is Andres Vargas. The Sunday game is dedicated to Mr. Miller, Spearman Reporter.

★ TEXAS PRESS
MEMBER 1979 ASSOCIATION

EDITORS NOTE: Last Saturday morning, CO2 in Action hosted some 150 persons from Spearman, at Mosquero, New Mexico, where CO2 in Action celebrated its 2nd Anniversary. We are writing this story for our readers, exactly as prepared by the fine staff at Baker and Taylor. We hope that you enjoy reading it. It is 165 miles West of Spearman, to Mosquero.

HANSFORD PLAINSMAN

VOL. 10, NO. 44

THE HANSFORD PLAINSMAN, SPEARMAN, TEXAS 79081

SUNDAY, AUGUST 26, 1979

Our trip today will take you to the heart of CO2 country. Two years ago, on August 18, 1977, CO2-In-Action, Inc. began its activities in northeastern New Mexico which has included a drilling program, developing support facilities for our rigs and the acquisition of over 600,000 acres of leases.

The first drilling activity in this area began around 1916 using cable tool rigs for oil and gas prospects. No oil or gas of commercial value was found, but shows of carbon dioxide were encouraging. Casing was set on several CO2 wells in different formations: Santa Rosa (900'); Glorietta (1400'); ABO Granite Wash (2200'). Any well records, if kept, were sketchy or have been lost. The only records easily found (usually drillers logs) are at the Oil Conservation Commission in Santa Fe, New Mexico. No electric logs were run. Volumes of CO2 were estimated; no bottom hole pressures were taken, only well head pressures.

Some gas samples were taken and analyzed high in CO2 content. Thereafter all gas blows that would not burn were called CO2.

The best wells drilled in Harding, Mora, Colfax and Union Counties reported volumes of 1 to 25 million cubic feet per day. The American Producers well in Harding County blew in for 25 million cubic feet per day and blew wild for over a year until it bridged off. This well is still producing at the Schwartz CO2 plant near the small town of Bueyeros, New Mexico.

Better operations by cable tool and rotary drilling rigs in 1937 started a boom in Harding County. Three different fields were developed in the county. The Mitchell field, presently 15 wells; each well capable of delivering 1/2 to 3 million cubic feet per day from the ABO Granite Wash formation. The Mitchell wells bottom hole pressures range from 600 to 900 pounds. Several wells were drilled near the American Producers well expanding the Libby field (presently 4 wells). Five producing Santa Rosa wells were drilled around the

Adams plant. At Des Moines, New Mexico, four producing wells were drilled near an old CO2 show.

A total of 6 plants were built to manufacture dry ice and liquid carbon dioxide. Four of these plants are active today. SEC Corporation Solano plant and Valley plant (Mitchell wells) with a 480 ton capacity and SEC Corporation Schwartz plant (Libby wells) a 100 ton facility. The Adams plant, recently reactivated by CO2-In-Action, has a capacity of 50 tons per day. The Timmons plant and Des Moines plant, which always experienced problems, are inactive today. In 1970, Amoco bought State and Fee acreage of approximately 1 million acres. They began a 32 hole drilling program to delineate the Bueyeros area from 1971 to 1974. Twenty three potential CO2 wells were completed and tested in this three year program and are now shut-in awaiting pipeline.

BUT WHY ALL THIS INTEREST IN CARBON DIOXIDE?

It has been estimated that about 442 billion barrels (bbls) of oil have been found in the U. S. since the first oil well was drilled in Pennsylvania more than 100 years ago. However, less than 25% of that total, about 109 billion bbls, has actually been drawn out. Of the remaining 333 billion bbls it is estimated that 33 billion bbls will continue to be produced through current conventional production methods.

But what about the balance of 300 billion bbls? It is estimated that by the year 1990, our nation's total requirements will be slightly less than 60 million bbls of oil per day, or 20 billion bbls annually. This oil is vital to our independence from the standpoint of both the fuel shortage and foreign oil supply influence.

The problem is that the 300 billion bbls are considered so difficult to get out of the ground that it is officially classified as "Unrecoverable Oil" in government and industry statistics.

"Fruitcake Review" Will Feature Local Talent

Mary Lou Wysong, co-chairperson and Joy McCormack, general chairperson of the Chamber of Commerce and YMCA "Fruitcake Review" which will be presented Nov. 30, and Dec. 1 at the high school auditorium, invite the citizens of Spearman to get involved with this community project.

Joy McCormack is the general chair person for the Chamber of Commerce and YMCA "Fruitcake Review" featuring assorted local nuts providing fun and frolic for the whole family. Her co-chair person is Mary Lou Wysong. The Fruitcake Review will be presented on Friday, November 30 and Saturday, December 1 at 8:00 p.m. in Spearman High School auditorium. Cargill Corporation of New York is sending a professional director to organize and direct a cast of local people. Proceeds from the review will be split between the Chamber of Commerce and the Y.M.C.A.

Mrs. McCormack said that it will be a lot of fun for everyone and something that the community needs. We have a tendency in Spearman to be too serious.

Spearman, he will plan out the show and then meet with Mary Brock and Joy McCormack and go over his plans. They will be free to eliminate anything that they might think would be objectionable to a Spearman audience, and to suggest other numbers that might be incorporated.

There will be printed programs that will contain ads from local businesses as a means of revenue. There will also be walking ads on T shirts, costumes and sandwich boards. These same people will act as ushers and will mingle with the people during intermission. There will also be stage ads, commercials thrown between acts of the show.

There will be three types of tickets: general admission, reserve seats and patron tickets. People wanting reserve seats will buy exchange tickets which will be exchanged for their own choice of a reserve seat on a first come, first served basis at the Chamber of Commerce office. Patron will have their names on the program and will have a reception preceding the opening night and all be driven to the performance and come in on a red carpet. Their tickets will be hand delivered.

Cargill Corporation will supply costumes, some props, and the lighting. Locally we will have to supply most of the scenery, some props, and some costumes.

Mrs. McCormack said that she needs a cabaret chair person. This is for a cast party after Saturday night's performance. Many, many persons will be needed as stage crew and to help with costumes and makeup.

Chairpersons will select their own committee members. If any committee person any problems

Swimming Pool Open Thru Labor Day

SWIMMING POOL
The Spearman Municipal pool will be open for the Labor Day weekend, Saturday, September 1, Sunday, September 2 and Monday, September 3 from 2:00 p.m.-7:00 p.m.

ORGANIZATIONAL MEETINGS FOR VOLLEYBALL AND BASKETBALL
Organizational meetings for the volleyball leagues will be on Tuesday, August 28 at 7:30 p.m. at the YMCA building. Representatives from teams and individuals who wish to participate are encouraged to attend. Costs, rules and specific league nights will be discussed. Similarly, a meeting of team representatives and individuals wanting to participate in the basketball leagues are to meet at the YMCA on Thursday, August 30 at 7:30 p.m. Costs, league rules and nights of the week for play will be discussed.

Participants for the programs of Volleyball, Basketball and Flag Football are asked to call in teams or as individuals to the YMCA-659-2591.

YOUTH BASEBALL, SOFTBALL, T-BALL PARTICIPANTS
If boys and girls who participated in the summer baseball-softball programs were not at the recent picnic-swim and have not picked up their participation trophy, please come by the YMCA office and get it.

Representatives of the Northern Natural Gas Men's Slow Pitch Softball team which won First Place in the YMCA Post Season Tournament and Third Place in the YMCA League are pictured above. They are: Eldon Allen, Terrel Evans, Terry Davis, Darrel West, Kevin House, Butch Reed, Toby Kuehl, Jeff Hohertz. Not pictured, but playing for Norther are: Mark Fox, Mark Fairbanks, Randy Jansen, Perry Arnold, Billy Giles, Jeff Beady, Freddie Shieldknight, Joe Bynum, Bill Bynum.

Gasohol Meeting Aug. 30

There will be a gasohol meeting Thursday Aug. 30 at 9 p.m. in the YMCA building in Spearman. Representatives of Grain Products International will be presented for the local meeting.

Anyone interested is invited to attend.

CONT. ON PAGE 7

Faye's Daze

I am having a hard time staying awake today (Thursday) which is cloudy and cool. The boss has hay fever and is in really bad shape (so he says). He certainly isn't losing any weight though with his allergies. Must not be allergic to food.

Publicity is getting underway for the "Fruitcake Review" which will be presented Friday, Nov. 30 and Saturday, Dec. 1 in the Spearman High School auditorium.

A professional director from New York will be organizing and directing a cast of local people.

There is an article in this paper, describing the plans for the show. If you are talented in anyway and would like to be in the production I am sure that the committee would be glad to have you.

Since I am not talented, I guess I'll just be a "Fruitcake" in attendance. Sounds like it will be a lot of fun. Years ago we had plays etc. like this and everyone enjoyed them.

I remember one performance, three of us, I think we were 11 or 12 were frogs, and had green costumes, feet, head and all, complete with a pillow for front padding. We did some sort of dance, anyway it must have been funny, because Mr. Higgins, who was principal of grade school, sat on the front row, and I thought he was going to die from laughing so hard at our act.

I observed another birthday this past week, and would like to thank those of you who called to wish me a happy birthday, and those who sent cards. I appreciate your thoughtfulness.

Have decided that I am really a pansy. Over the weekend, I decided that since I couldn't find anyone to weed my flower beds, that I would do it. Well, I wasn't working but about 10 minutes when I had a blister, this with gloves on, mind you. Before the job was finished, or maybe I should say before I gave up, I had some more blisters, and a few aching muscles besides.

I nearly gave up on the Dallas Cowboys the other night until the second half, when they seemed to get it together and finally looked like they might be a football team. Now if they can keep lamps from falling on their toes, and some of the other accidents they have been having from happening, maybe they'll look like the Cowboys.

Class of '69 Plans Reunion

The Spearman High School Class of '69 will hold their ten-year reunion over the coming Labor Day Week-end. Activities will start with a catered dinner for class members and their spouses on Saturday night. Members will then progress to the home of Marilyn Cline where films of high school events will be shown. Activities will continue on Sunday Sept. 2--A picnic will be held at 1:30 p.m. at the swimming pool park, and class members will bring their families. Any friends or former classmates of the Class of '69 are invited to attend the picnic-bring your lunch and join us. For any further information call Marilyn (Blodgett) Cline at 2580.

"He that knows nothing doubts nothing."
 George Herbert

Golden Spread Center News

Forty-nine Golden Spread Club members gathered for a covered dish supper at the Golden Spread Center on Tuesday, August 21 at 6:30 p.m. As usual there were several tables of Early Birds playing before supper began. Hostesses were Addie Novak, Edna Hays, and Anna McGary.

Ada Ruth Diggs took the blood pressures of most of the people there.

Ten tables of dominoes, forty-two, eighty-eight, pitch and conversation completed the evening's entertainment.

Also eight people agreed to go the Panhandle Regional Planning Commission's Workshop "Nobody's Perfect" on Wednesday, August 22 from 9:00 a.m. to 4:00 p.m. at the Opportunity House in Borger. Pearl Pierce, Mildred Chamberlain, and Ed Freeman ended up going. They found it interesting; instructive, and helpful. Ed won the door prize.

Vickie Bullard drove the bus van Wednesday morning from 9:00 a.m. to 12:00 noon picking up the sixty plus bunch for shopping, errands, doctor, dentist, beauty parlor, and whatever.

Arts and Crafts on Friday had a goodly number of people working from 10:00 a.m. until the waning hours of the afternoon, except for a covered dish lunch break.

Fifteen people took a van-bus trip to the Palo Duro Canyon to see "Texas" on Friday, August 24. The van left the Golden Spread Center at 3:45 p.m. and stopped at Furr's cafeteria in Amarillo on the way down.

There were about five tables of people playing table games on Friday afternoon from 2:00 until 5:00 p.m.

There will be an ice cream social on Tuesday, August 28 at 6:30 p.m. to be followed by an evening of tables games.

Pearl Pierce will drive the van-bus on Wednesday morning, August 29 from 9:00 a.m. to 12:00 noon to take older people needing transportation shopping, on errands, and to the doctor, dentist, and beauty parlor. Be sure to call 659-3521

on Tuesday if you want a ride on Wednesday.

There will be another day of arts and crafts on Thursday, August 30 from 10:00 a.m. to the middle in the afternoon with a covered-dish luncheon break at noon.

More table games on Friday, August 31 from 2:00 to 5:00 p.m.

Golden Spread Center is a great place to come at any time. It is always open from 9:00 a.m. to 5:00 p.m. Monday through Friday and at other times as scheduled.

Local Golf Tournament

Hansford Golf Club will hold a partnership tournament August 25 and 26 at the local golf course.

Teams will be flighted by their lowest handicap.

A barbecue dinner will be served to all participants and their wives August 25 at 7 p.m. at the golf course.

The course is in super condition due to the rains we have had this summer and all golfers are encouraged to come out and participate in this tournament.

Rho Rho

"Kidnap Party"

On the damp-cold-midnight of Tuesday, Aug. 14, Rho Rho sorority began it's fall activities with a "Surprise Kidnap" party. Needless to say there were quite a few surprises!

The social committee kidnapped the girls-took them down to the local theater where Karen Schnell met them at the door with her camera to take their pictures. They were then treated to popcorn-coke and saw the movie "Love At First Bite". This was a comedy about Dracula, which seemed very appropriate for such a cold rainy night.

After the movie they were then taken back home at which time it was close to 2 A.M.

All had a very fun filled time and it started the season off to a good start!

I, Helen Dry, Tax Assessor-Collector for the Hansford Hospital District, in accordance with the provisions of Article 7244c, V.T.C.S., have calculated the tax rate which may not be exceeded by more than three (3) percent by the Board of Directors of the Hansford Hospital District without holding a public hearing as required by Article 7244c, V.T.C.S. That rate is as follows:

Maudine Patterson

LeRoy Murrah Services Held

Funeral services were held Thursday, August 23 at 11 a.m. in the First Baptist Church of Gruver for George LeRoy Murrah, 70, who died Tuesday in Amarillo. The Rev. John Denton, pastor, officiated. Burial was in Levelland under the direction of Boxwell Brothers Funeral Directors of Amarillo. Mr. Murrah, born in Greer County, Okla. had lived in Amarillo seven weeks before his death, having moved there from Gruver.

He was a retired farmer and implement dealer and a deacon of the First Baptist Church of Gruver. Survivors include his wife, Mary Lelia; two sons, David Murrah of Lubbock and Donald Murrah of Pearsall; a daughter, Mrs. Ginger Bernier of Amarillo; a sister, Mrs. Lena Belle Pirtle of Rusk, and 10 grandchildren.

School's Beginning- Drive Carefully

School will be opening soon. Children will be in and around schools, crossing streets, and waiting for school buses.

Drivers are reminded that the 20-mile per hour Speed Zone will be in effect. Motor vehicle operators need to approach school zones as they did when they were children-slowly. There will be traffic congestion around the school areas-particularly during rainy weather.

School buses on the roadway often are a source of confusion to the motorists and operators are not sure when to stop for school buses. Red flashing lights warn motorists to stop when approaching from the front or rear. When in doubt-Stop.

Parents need to take their children to school or to the bus pick-up point to show them the safest route for walking or riding bicycles.

COMMISSIONERS COURT AGENDA

Notice is hereby given that the Commissioners Court of Hansford County will meet on the 27th day of August, 1979 at 10:00 a.m. at the regular meeting place in the Courthouse in the City of Spearman, Texas for the purpose of:

1. Reading of minutes of last meeting.
2. Receive Treasurer's report for the month.
3. Payment of claims.
4. Re-convene Board of Equalization.
5. Discussion of tax rate with Tax Assessor-Collector.
6. Discuss Courthouse masonry repair with Ted Sivadon.

For County included Shannon Vernon, Hadley Reed, Andrea Archer, Halce Reed of Spearman and Suzanne Hart of Gruver.
Shannon Vernon placed first in Girls 9-11 Goat Tying. Hadley Reed was 3rd in 14-15

Boys Breakaway Roping.. Anrea Archer was first in Girls 12-14 Pole Bending. Suzanne Hart was 2nd in Girls 12-14 Goat Tying. Halce Reed was first in Goat Tying and 3rd in Breakaway Roping in the 15-18 girls.

This two-year-old boy looks at a large anniversary cake of dry ice pressed out as visitors watched during the tour of the CO2 plant.

Pictured above is the editor's wife, Sybil Miller, whose favorite food is ice cold watermelon. The CO2 cooled watermelons were the finest she had ever tasted. All of us at the newspaper wish to thank the vice president of Baker & Taylor, Roy Bulls who was the host for the tour. Roy kept the entire group on Bus 1 informed on the tour.

This may be the picture of the year as hundreds of large watermelons cooled in a CO2 tank at Mosquero, New Mexico. Besides plenty of watermelon the Main St. was lined with popcorn and popsicle stands plus real gunfighters who put on a real gunfight every two hours for 700 spectators on hand in Mosquero, New Mexico.

Hospital News

Approximately 150 Spearman people attended the 2nd birthday celebration of CO2 In Action in Mosquero, N.M. Saturday, as guests of Baker & Taylor Drilling Co. Buses left Baker & Taylor Spearman location at 8:30 a.m. and passengers were served lunch at Rosebud, N.M. before arriving at Mosquero at 12 noon mountain time. There was plenty of entertainment for everyone. There were all kinds of rides, helicopter, covered wagon, fire truck, coot, golf cart, and airplane that continued all through the day. There were games of horse-shoes, volleyball, tug-a-war, frisbee, washer pitching, ping pong, nail driving, children's games, watermelon seed spitting contest, tug-a-war contest as well as a clown giving away balloons, and a Dixieland band. A barbecue was served beginning at 3:30 and this was followed by real live gunfighters, a volleyball challenge, nail driving contest, frisbee contest, husband/wife race, and ping pong contest. There were prize drawings all through the day and it was a fun day for all.

Plans Underway For MDA Telethon

The 14th Annual Jerry Lewis Labor Day Telethon begins Sunday, Sept. 2 and 6 p.m. and continues until 6:30 p.m. Monday, Sept. 3 and can be viewed on Cable Channel 6 and heard over KRDF radio.

The Old Beedy Furniture Building, donated by Robert Skinner, located in the Plains Shopping Center will serve as the base for all the excitement that will be taking place during the breakaways this Labor Day Weekend.

The original crew of Cable Channel 6, Ron & Bev Antalek and Ronnie & Vicky Bullard, along with many of their friends are working to bring you the best and most exciting telethon yet.

Among the plans this year is

a dance-a-thon, which is open to all ages. To participate in the telethon, contact any member of the Spearman High School Cheerleaders and get a special events card from them so that you can get as many sponsors as you can to pledge a certain amount for each hour that you dance. The music for the dance-a-thon will be donated by Rick Kirk and his Music Machine.

Another special event for the 24 hour weekend will be a carnival of booths, which will be set up by different clubs in the Spearman area and will be located in the old Beedy Building. Peggy Carroll is in charge of the carnival and she will be getting in touch with the different clubs. If your club is

interested in setting up a booth contact Peggy Carroll at 2185 or Vicky Bullard at 3319.

All proceeds from the special events will go to the Muscular Dystrophy Association.

Betty Bridgman and Carla Kizzar will be going to the different businesses for donations of food and drink for the workers for the 24 hour period. Last year many individuals donated pop, coffee and food and we're hoping for a good response this year due to the many events that we'll be having which will mean a lot more workers.

The Telethon raises funds to support MDA's fight against 38 neuromuscular diseases that kill and cripple thousands of children and adults. The National

Voluntary Health Agency sponsors a nationwide network of 214 free diagnostic and treatment clinics.

Last year Spearman pledged \$7336, which was the most money per capita for the entire United States. This year our goal is \$7500 and we know with everyone's help we'll reach that goal and pass it.

Won't you please join us on Cable Channel 6 and stay up and watch the stars come out? And remember...on the breakaways you'll be joining us in the Beedy building. Even if you miss a little...you'll miss a lot. The phones will be manned by the Spearman Rotary Club on Monday. The phone numbers that you can call throughout the Telethon are 2593, 2594 or 2595.

SPORTS BULLETIN:
The Lusby Cats held a 3-1 lead in their play-off game against the First State Bank Red Hots, here Friday nite, but a driving rain storm cancelled the playoff games until Monday night. Bottoms Up.

coached by Sheriff McFarlin hold a big lead in the tourney play, but fans might see the upset of the year Monday night, when 4 of the ladies teams vie for the tournament 1st place!

It's the kids that count

THE TEACHER... MOM AND DAD FROM 9-3

Your child spends up to six hours a day at school. During that time, the teacher takes your place as parent.

The other 18 hours, you—the parent—are the teacher. In the time you spend with your child, there are many things you can do to give your child the right "feeling" about school... and to encourage good behavior, a vital key to learning.

To help your child in school, make the point that school is serious business. Teach your child respect for the rights of others... and respect for private and public property.

See to it that children go to school every day they should... and on time.

Know the rules of behavior the school calls for, and cooperate with teachers in taking action when necessary.

If you have any questions about discipline, talk to the teacher, guidance counselor or principal.

Teachers care about kids. Help them. Get involved in your school.

School Starts August 27

Classes for Spearman School Students will begin Monday, August 27. High School students will have orientation and registration on August 24 at 9 a.m., according to Eddy Clemmons, principal of Spearman High School. New students to the district should register before Aug. 24.

Junior high students will enroll at the junior high auditorium, August 27 at 8:20 a.m. New students to Spearman schools will register, Aug. 20, 21, 23 or 24 in the junior high building from 9 to 2 p.m., stated principal G.W. Robinson.

Elementary students enrollment will be Friday, August 24 from 8:30 to 10:30 a.m.

Pre-enrollment for new students will be Aug. 20, 21 and 22 from 9 to 2. These new students to the school system must have immunization records before they can enroll, according to Allen Alford, principal.

The high school faculty includes Travis Angel, Choir; Marshal Benton, English; Herman Boone, Voc Ag; James Collinsworth, Biology-Coach; Jimmy Duncan, Athletic Director; Stanley Freriks, Chemistry, Physics, Phy Sc; Kenneth Friemel, Health-P.E., Coach; Frances Hudson, Home Ec; E.C. Jenkins, P.E.-Health, Coach; Evelyn Jenkins, Speech-Drama; Wanda Jones, Business; Lee A. Josephson, Home

Ec; Glenna McMullan, Spanish, English I; Donnie Mitchell, English; Dwayne Mitchell, English, Speech Com.; Larry Morris, W. History, Coach; Susan Morris, American History, Government; Claude Newell, Counselor; Fern Newton, Library assistant; Ralph Newton, Math-Coach; Dorothy Roden, Librarian; Terry Schneider, Math; Worley Smith, D.E.; Minnie Weaver, Math; Burt Williams, Voc Ag; Craig Zinck, Band; Robert Hardy, VAC.

Eddy Clemmons is principal of Spearman High School and his secretary is Wanda Archer. The junior high faculty includes Margie Alford, 7-8 Read-

ing & Speech; Charlotte Angel, Elem-Jr. Hi Music, choir; Terry Crocker, P.E. Coach, 6th Social Studies; Earlyne Gee, Social Studies; Mary Alice Gibner, Title I Reading; Ellen Graham, 5th Language Arts; Herb Hager, 6th & 7th Social Studies, Voc Ed.; Mollie Holton, Elem-Jr. Hi Girls P.E.; Georgianne Hutchison, 5th & 6th Art-6th Spelling Voc Ed.; Frank Lewis, LLD Resource teacher; Thomas May, Elem-Jr. Hi, P.E., H.S. Coach; Blant McGee, 7th & 8th Math; Pauline McGee, 6th & 7th Language; Miriam Mercer, 5th Language Arts, Science, Social Studies; Jerry Orr, 7th & 8th Math; Edwin Percy, 7th & 8th Science; Carolyn Savage, 5th Math & Science; Velma Shoemaker, 8th Language, H.S. Art; Athalie Trayler, Library Aide; Juanita Tucker, Teacher Aide; Sheila Watley, 5th Language Arts, 6th Reading, Tennis.

G.W. Robinson is junior high principal and his secretary is Norma Holland.

Elementary faculty includes Dickie Allen, Nurse; Nell Benton, 1st grade; Zetha Blackburn, 4th grade; Hollis Brock, 2nd grade aide; Lynette Campbell, 3rd grade; Wilma Clark, Music; Joan Collinsworth, 4th grade; Waurayne Cope, Kindergarten; Mary Kay Crocker, LLD aide; Donna Depee, 1st grade; Judy Friemel, 1st grade; Jackie Graham, 2nd grade; Wynell Hager, Title I teacher; Carolyn May, Kindergarten; Deborah Mayhew, 2nd grade; Cynthia McClellan, Migrant; Lucile McClellan, Speech therapist; Terri Orr, 3rd grade; Barbara Patterson, 4th grade aide; Jeanie Percy, Title I Reading aide; Fern Robinson, 2nd grade; Ramona Sims, LLD; Lillian Turner, 3rd grade; Betty Uptergrove, 1st grade aide; Verlan Winegarner, 4th grade.

Allen Alford is the principal of elementary school and Anita Clemmons is his secretary. James Cunningham is Superintendent of Schools, and Juanita Kemper is his secretary.

Orville Latham is business manager, and his secretaries are Virginia Cates, Dorothy

Woolley and Jessie Faries.

The 1979-80 school year begins August 27 for an estimated 525 Gruver school students. Registration for all students will be August 23 from 9:00 a.m. till 12 noon.

The registration schedule is as follows:

Thursday, August 23
Kindergarten-9:00-12:00--south entrance of Jr. High building --only students who were not pre-enrolled last spring will need to come. Parents should bring an immunization record and birth certificate for each child.

Grades 1-5-9:00-12:00-foyer of Gruver Elementary--a parent should be present to sign AGR forms and check on homeroom activities for the year. First time students will need their immunization record and birth certificate.

Grades 6-8-9:00-12:00-Jr. High building--first time students will need their immunization record.

Grades 9-12-9:00-12:00--High School building.

Classes will begin Monday, August 27. The school day will start at 8:20 for high school students, and 8:30 for K-8. Dismissal times will be 3:30 p.m. for K-8 and 3:35 p.m. for high school.

Buses will make their regular routes August 27 and the school cafeteria will serve lunch at noon. Lunch prices for 1979-80 have been established as follows:

Grades K-5 .65
Grades 6-12 .75
School employees 1.10
All other adults 2.00
Milk .08

New school staff members this year include: Doug Frick, assistant coach and Jr. High social studies; Peggy Frick, 2nd grade; Craig Woolley, assistant coach and high school math; Becky Haggard, Title I reading specialist; and Janice Bratcher, teacher aide.

Returning elementary teachers include: Debbie Edwards and Kay Hobbs, kindergarten; Steet Ellison, Kelly Shapley, and Linda Haight, 1st grade; Dot Ammons and Betty Roberts, 2nd grade; Frankie Leatherman, Charlotte Bergin, and Dixie Karlin, 3rd grade; Bonnie Crofford and Jim Roberts, 4th elementary music; and Mozelle

McClellan, school nurse.

In the Jr. High, those returning include, Merle Arthur, Carol Ladd, Pat Dawson, Donnie Prater, Marjorie Jackson, Charles Haight, Glenda Renner, and Mike Viles.

Returning to the high school will be Oran Burton, Rick Nix, Pat Burnam, Georgia Davidson, Ray Etter, Bob Haggard, Dave Brewer, Andrea Bayless, Rick Arrington, F.G. Crofford, Damon Ladd, Tommy Waldrop, Lloyd Looper, Gerald Tebeest, Cathy Potts, James Dorman and Ann Dorman.

Sheila Nix will serve as a teacher aide in the Kindergarten this year on a full time basis.

Bill Duncan is the Elementary-Jr. High Principal and Kenneth Baker is the High School Principal.

Camille Williamson Receives Degree

SAN MARCOS--Camille Kay Williamson of Spearman was among the 936 students who were candidates for degrees awarded Aug. 18 at Southwest Texas State University.

Keynote speaker for the summer commencement ceremonies was Rep. J.J. "Jake" Pickle of the 10th Congressional District of Texas.

The August graduates were the last of three classes to receive diplomas printed with a special insignia commemorating the university's 75th anniversary. SWT celebrated its anniversary Sept. 1, 1978 through August 31, 1979.

Degrees were conferred by SWT President Lee H. Smith. Ms. Williamson, daughter of Mr. and Mrs. Max Baggarly of 704 Gibner, received a master's of education degree with a major in elementary education.

Wash the outside of a refrigerator with sudsy water, let it dry and go over it with a piece of wax paper. This can give the surface a brilliant shine.

Insurance Corner

COINSURANCE

The concept of coinsurance can be summed up very simply. It means that the property owner will carry insurance up to a certain percentage of the value of his property, usually eighty percent. He gets a reduced rate for this.

The purpose of coinsurance involves the reason for insurance itself, which is to distribute the burden of risk from one individual to a large group. With this clause, each policyholder pays his fair share of premiums. Otherwise, people might insure in varying percentages of property values... one person might insure to 30% of value, another to 40%, and another to 65%, thus paying less than their share of average premiums.

Furthermore, coinsurance makes sure property owners have adequate coverage. The coinsurance clause (also called the reduced rate contribution or average clause) is usually offered on commercial and business properties, rather than on private dwellings.

In other words, if \$100,000 of inventory is insured for only \$40,000 instead of \$80,000 (considered full insurance at 80%), a complete loss, or even a partial loss, would result in one half of the value of the loss in claim payment.

This information has been brought to you as a public service by John R. Collard, Jr., your one stop answer to complete business and personal insurance protection. Life, home, auto, group insurance, and profit-sharing plans. See John R. Collard, Jr., 405 Davis St., Telephone 659-2501.

Spearman, Texas

Jr. Lusby, Mom Banks and Jerri Lambert renew old acquaintances at Mosquero.

CONT. FROM PAGE 1

That does not mean oil men have stopped trying. Rather, that is where part of the controversy on government price regulations comes in. It will take huge sums of money to recover this oil.

A technique for recovering this oil, Carbon Dioxide Flooding, will use the property of CO₂, which, when forced into the oil reservoir under pressure, reduces the oil and reduces the viscosity of the oil, causing the oil to flow.

Several major companies have shown interest in the vast amounts of carbon dioxide found in this area. The leader, Amoco, along with Amerada Hess, Texas Pacific Oil Company and Conoco have outlined the area known as the Bravo Dome which is estimated to contain approximately 10 trillion cubic feet of carbon dioxide gas.

A pipeline has been proposed from this area to West Texas oil fields with completion estimated in 1984.

We want to extend a cordial welcome to all our friends joining us in our Second Anniversary Celebration and take this opportunity to point out some of our activities during the past two years.

THE COOTS WELL

Just prior to entering the state of New Mexico on Texas Farm-to-Market Road 767, the Coots well is located approximately 8 miles to the south. CO₂-In-Action drilled this well to a total depth of 2825 feet during the summer of 1978. Texas Pacific Oil Company, who has acquired a portion of CO₂-In-Action's lease hold interests, has recently completed the well and potentialized it to deliver 1 million cubic feet of carbon dioxide gas per day at 125 pounds bottom hole pressure.

At the Texas-New Mexico state line, notice the ribbon barbed wire fence. This fence, 100 years old this year, defines the western boundary of the famous XIT Ranch.

ROSEBUD

Proceeding west on Highway 65, we come to Rosebud school, located in the center of the CO₂ Bravo Dome Unit. The school is

surrounded by several large ranches which have been in the same families for generations and in spite of the lack of rain fall in this area, the ranches are excellent for cattle grazing. The underground water formations in this vicinity is not controlled as in most other parts of the state, making it ideal as a water facility to support our activities.

The old school house, built prior to 1918, has recently acquired a facelift by CO₂-In-Action. During the 1930's the school had an enrollment of over 100 students, but due to the declining population in the area the school was closed. CO₂-In-Action bought the building in the spring of this year and it is now used as our water supply and treating facility. A water well was drilled to a depth of 170 feet, producing 100 gallons per minute and there is storage capacity of 3500 barrels.

Tony and Camilo Chavez mix the KCL water. Potassium Chloride (KCL) is mixed with the water to prevent damage to the formation during drilling. Approximately 2000 barrels of treated water is transported daily to the rig by Jim Queen and his crew; Ward Garrison, Buddy Chanauser, Paul Cooper, Bill Hayoz and Joe Salgado.

We will take a short rest and sandwich break at Rosebud, please feel free to look around.

VALUABLE LESSONS LEARNED

One thing we've seen is that some of the New Mexico roads leave something to be desired. You will note along the road from Rosebud to Bueyeros a water tanker split in two on the right side of the road. Our equipment has had to withstand extreme road conditions and this one had more than it could take and gave up.

We've also tried the impossible. A prime example is the 40 ton water tanker attempting to cross a 10 ton bridge. I think the drivers theory was "if you go real fast, you could be on the other side before the bridge knew you were there."

VOLCANO GAP

As you leave the bridge there is a gap in the river on the Libby Ranch covered with lava.

Millions of years ago the now inactive volcano "Capulin," near Clayton, New Mexico, erupted and lava flowed down the stream to this point where it cooled and has remained all these years.

SCHWARTZ PLANT

When you turn off Highway 65 onto Highway 102 traveling to Bueyeros the Schwartz Plant is located to the right of the road and a few miles north. SEC Corporation built this plant about 1941 and it has three CO₂ wells supporting it.

BUEYEROS

The name Bueyeros means "Oxen Driver," named for the men who drove oxen and cattle into the area for grazing from their ranches near Santa Fe and Albuquerque.

The town of Bueyeros consists mainly of a post office, Catholic church and a school house which CO₂-In-Action purchased along with the Rosebud school. Like most of this area, after World War II the population of Bueyeros dwindled.

Founded in the late 1800's, Bueyeros has been the religious center of northeastern New Mexico for many years. The church at Bueyeros, built in the early 1900's, was the seat of the Sacred Heart Parish for over 40 years and still contains many of the fine furnishings and religious artifacts which are in use today.

The small cemetery in the church yard contains graves of many of the early settlers of the Bueyeros community. One of the earliest graves in the cemetery is of Father De Kuer who was fatally injured in a fall from his horse and died within a few hours of the accident. The cemetery has not been used in several years with the exception of an occasional "old timer" who has requested to be buried there.

A short distance from Bueyeros is De Baca Mesa named for Guadalupe C. De Baca, an early day rancher who requested that he be buried overlooking the land he loved and helped to settle. His grave, dated 1900, rests on top of the mesa. (How would you like to have been one of his pull bearers?)

CO₂-IN-ACTION'S BUEYEROS PLANT

Situated at the base of De Baca Mesa is the CO₂-In-Action's Bueyeros plant. Built in the early 1940's the plant was used primarily to produce dry ice. In those days the dry ice was delivered by pickup truck to such far away places as Clayton, New Mexico, Spearman, Canadian and Amarillo, Texas and sometimes as far as Keyes, Oklahoma. Since the demand for dry ice was seasonal the plant did not run continuously throughout the year. The plant also experienced problems primarily in transporting its product as no railroad service was readily available.

The Bueyeros plant was built by Romey Adams a successful drilling contractor and friend of Max Banks. CO₂-In-Action purchased the plant from his son, John, in 1977. The plant had not been in operation for many years, work was begun to restore operations and refurbish housing located nearby. Three runways were built at the base of De Baca Mesa to accommodate company aircraft.

The plant is supported by 5 producing CO₂ wells drilled to depths of approximately 850 feet (Santa Rosa formation) and deliver between 500,000 to 1 million cubic feet per day per well.

Having been in operation about 1 year the plant is producing approximately 50 tons of liquid CO₂ per day. Oilfield service companies, The Western Company, Halliburton and others are purchasing the liquid carbon dioxide for use in fracturing oil and gas wells.

A fleet of company tank trucks are kept busy delivering the liquid CO₂ to parts of New Mexico, Texas, Oklahoma, Colorado and Kansas.

Rudy YBarra is the Bueyeros plant manager supported by his wife, Adelina, Mario Acosta, Joe Marquez and Adolfo Sandoval.

AMOCO, STATE-EN #1

Amoco elected to drill 20 wells in the Bravo Dome Unit this summer. Baker & Taylor Drilling Company was awarded the contract to drill 10 of these wells along with another drilling

contractor to drill the balance. The other contractor has experienced some problems and Baker & Taylor's Rig #16 is now drilling on its eleventh location. Rig 16 has the capability of drilling to a depth of approximately 5000 feet. Charlie Laxton, Rig Manager on this rig has been with Baker & Taylor for over 20 years. His crews are headed up by drillers Buddy Larue, Floyd Laxton and Johnny Yara.

MOSQUERO - HOME OF CO₂-IN-ACTION'S FIELD OPERATIONS

In 1908, Benjamin F. Brown, a land promoter, settled along the route of the Dawson-Tucumcari railroad in what is now Mosquero. The name Mosquero literally translated means "Fly Trap" and is said to have gotten its name from the swarms of flies following the herds of buffalo that roamed the area. Brown's first home, also serving as a hotel, grocery store and post office, was built on the site now occupied by the CO₂-In-Action trailer park.

The early settlers, many of them coming from Iowa, Nebraska and Kansas, homesteaded small ranches and farms in the canyons surrounding Mosquero. In 1921 Mosquero became the county seat of Harding County and the courthouse was constructed, on its present location from rocks recovered from a three room school house that had previously been built on the site.

In its peak years several business establishments and homes sprung up in the down-

town area. The office now occupied by CO₂-In-Action was built by A. A. Wynne in 1921 as a grocery store later becoming a sundry store. The walls are constructed of rock and mud and are some 18" thick.

During the depression many of the small farmers and ranchers moved into town in order to work for the W.P.A. and for several years the town flourished reaching a peak population of approximately 750 people by the early 1940's.

With the onset of World War II many of the men having left to serve their country, chose not to return to the area and the drought of the 1950's further reduced the population. Most of the small farms and ranches were acquired by the larger more prosperous landowners.

Although the population declined and other setbacks slowed the growth of Mosquero, the spirit of the townspeople and surrounding ranchers was not dampened. Possibly the areas biggest asset is the Mosquero Independent School District, headed by Manny Maciel. A promising basketball team, a school and church activities continue to be a major part of the community life.

The town has many supporters, to numerous to mention, but probably no stronger supporter than Sally Trigg, the first woman mayor of Mosquero.

The CO₂-In-Action field office is an important part of our operation in the area, ramrodded by Beth Wynn, Sue Weisdorfer and Cindy Montoya. Coordinating men, equipment

and supplies by telephone, radio, car and often on foot.

A prime example of CO₂-In-Action's efforts to revitalize the town can be seen in the refurbishing of buildings and homes along with the addition of a 1-1/2 mile runway.
