**MANY EXPRESS THEMSELVES  
AS ASTONISHED BY MAG-  
NIFICENCE OF DISPLAY**

**An Exhibit Picked From Winning  
Displays Will Be Sent to Dallas  
By Merchants and Business Men  
of Tahoka**

### Editor News:

The First Annual Fair of Lynn county has now passed into history: It was a grand success; and the farmers of Lynn county should be complimented for the interest manifested and the fine display of farm, garden and orchard products contributed by them.

Owing to the inclemency of the weather the attendance was not as large as it otherwise would have been; but quite a number of our citizens availed themselves of the privilege and pleasure of attending, and almost the universal expression of everyone was that the Fair far exceed their expectations in the magnificent display and quality of the products shown. It has been the writers pleasure to attend fairs in other and more densely populated counties, but for the first effort of this kind, we believe Lynn county has surpassed anything ever witnessed by us.

We feel proud of Lynn county farmers and believe they should be proud of each other for the success that has crowned their efforts. Our fertile soils have responded most liberally to the cultural methods of the wide-awake farmers of our county, and the abundance of forage and well filled barns testify to the progressive spirit of our citizens.

Having started in the good work, we believe the Fair ought and will become a permanent institution in our county; No more auspicious occasion could have been selected for the inauguration of a movement of this kind than the present season, and with the success which has attended our initial efforts it should be an easy matter to do greater things next year.

In looking over the above we find that most of the credit has been given the farmers for the success of the Fair. We would not have it understood that our business and professional men of Tahoka stood idly by and did nothing for the success of the Fair. While the farmers were selecting the best of their products and contributing to the Fair, our business men contributed to a fund sufficiently large to have the farm exhibit taken to the Dallas Fair and placed on display where the thousands of visitors who attend can see for themselves what Lynn county is capable of producing in the way of farm products, garden vegetables and fruits. This display will be shipped from Tahoka about the 15th of October and every farmer, gardener and horticulturist in Lynn county is earnestly requested to select and contribute some of their choice products to this exhibit. Pride in our section and the good name of our county demand that we take the most creditable display which can be gotten together for this occasion. It will be the best advertisement our county can receive, and a revelation to

## Pride Dots

Good morning

Mr. Editor,

How are you this rainy morning? I am well and doing well.

Mr. T. G. Marks' father and sister returned back home in Oklahoma last week.

Miss Edna Styles married last week, we did not learn the mans name that she married. They returned to their new home. Miss Edna was the charming daughter of Grandpa and Grandma Styles of Pride.

A big boy was born to Mr. and Mrs. J. W. Russell last Tuesday night. Mother and babe doing fine, but the father is recovering slowly.

We are proud to see Mrs. J. C. Preston able to be out driving again.

Mr. Hez Red has got his gin started. You could see from two to six bales piled up in the fields waiting for him to start.

Mr. J. H. Cathey and his brother Mat went to Tahoka last Thursday and from there to Gail on business.

Mr. W. M. Wright went to Lamesa to attend court.

Mrs. J. P. Simmons is staying with her daughter Mrs. J. W. Russell this week, nursing her new grandson.

I was in J. K. Epperson's farm the other day, it sure looks good to me. I learned that Mrs. Epperson made the crop, and she was picking on her third bale of cotton, has one barn full of maize heads and 35 acres more to head. She has made some corn that looks like East Texas corn. The fruit she has put up is over 200 jars. Now Mr. W. F. You will have to come across with that crop.

Mr. J. P. Simmons and his daughter Mrs. Webber went to Lamesa last week on business.

The rain was fine last week, but it sure asked us what we had done with our summer's wages.

### HEEL FLY.

The people from other parts of the State. Let each one respond to this call of our citizenship and come up nobly with their part in this laudable undertaking, and we have no fears as to the result. Our county will be placed on the map and the balance of the State will sit up and take notice.

Very respectfully,

W. J. CROUCH.

**WANTED—Good, Fresh Butter,  
any quantity, at the Cash Meat  
Market.—Lyllal McGonagill. 2-tf**

O. G. Kershner of miles north of Tahoka, was in town Monday taking out some material for building a silo which he intends to build partly in and partly above the ground just as soon as he has time.

With every 5 cent purchase of school supplies at Parkhurst Broken \$ Store you will get a coupon. Keep your coupons and ask about the Elgin Watch that will be given away on Feb. 22nd, 1914. 4-6-2

W. J. Crouch has purchased the A. B. Ellis residence in East Tahoka, and moved part of the family in Monday. Mr. Crouch said he would be at home both in town and at the farm three miles west of town. It is getting to be very popular in Tahoka to have a town residence and country place.

McAdams Co. sell the old reliable McCormick Harvesters and Extras. 45-tf

## James Henry Page

After a lingering sickness James Henry Page passed away at ten o'clock Tuesday night at the residence of his son George Page, who is living in what is known as the Virgil Coughran place.

Mr. Page was over seventy years old, an Ex-Confederate, and had been a Deacon in the Baptist church for more than thirty years.

The funeral was to have been preached at the Baptist church by Rev. I. P. Metcalf Wednesday afternoon, but the excessively heavy rain prevented and services were held at the grave Thursday noon.

The entire town extend sympathy to the sorrowing wife and children of the departed loved one. May they live as he lived, who has only "gone before."

### Notice to Hunters.

Anyone hunting or wood cutting in the Tahoka Lake pasture without my consent will be prosecuted. 3-11

J. T. Lofton.

### Gentle, but Pointed.

A young practitioner had one troublesome patient—an old woman who was practically on the free list, but who registered more kicks than all the other patients put together. One day she called to roam him for not showing up when she called him the night before. "You can go to see your other patients at night," she complained. "so why can't you come when I send for you? Ain't my money as good as the money that them rich people pay you?" "I don't know, na'am," answered the doctor gently. "I have never seen any of yours."

## SILO DEMONSTRATION PLANT.

**These Modern Agencies in Agriculture Will Compete at the Dallas Fair.**

There will be assembled at the State Fair of Texas at Dallas, Oct. 18th to Nov. 2nd, some of the most powerful agencies and most able advocates of agriculture in modern times, but none will exceed the silo in importance to the farm. It will present some of the most convincing arguments and most forceful reasons in favor of diversification, livestock, cereals, milo maize, etc., that the farmers of Texas have ever heard.

The silo is the greatest economist of the age and it has made many valuable contributions to the prosperity of the farmer. It teaches thrift, enterprise and economy and is a most competent exponent of progressive agriculture. It has proved an educator of unusual ability and a most competent workman.

Its influence is uplifting and glides like an angel of mercy through fields where drouths and pestilence prevail, delivering products from blight and destruction, and its habit is the rescue home of the delinquent crops. It is nature's most able assistant in maturing vegetation and is man's best friend. It will multiply the value of the crop after harvest, preserve and unite the food value of the plant and will turn waste into profit.

It will require the assistance of a silo or some kindred agency to make our cereal and forage crops equally as profitable as cotton raising. The soil and climate of Texas are naturally adapted to cotton, and the State as a whole can never hope to lead in cereals unless their value can be increased by artificial means on their journey from the harvest field to the market. The silo is a manufacturing plant built on the farm and enables the farmer to get the profits of both producer and manufacturer.

There will be on exhibition at the Dallas Fair Grounds every make of silo now in use and silo demonstration work will be one of the leading educational features of the Fair. The process is entertaining and the various types of silos will be on competitive trial where their good points can be readily determined by the farmers present. Twelve acres of sorghum raised on the Fair Grounds will be used in the demonstration work.

## School Opend

The Tahoka Public School oppened Monday with a good attendance, and one of the strongest faculties we have ever had. Taking into consideration how very prosperous our citizens are this year, we should make a new record both for attendance and quality of work done.

I will buy all your fat Jersey and off colored calves and yearlings.—Lyllal McGonagill. 2-tf

A full line of school supplies at Parkhurst Broken \$ Store. 4-6-1

Bob Chambers renewed his and his uncle's subscriptions to The News Tuesday. We will soon have our home list in good shape, but you might look at the table on your paper and if you are in good standing.

### ATTENTION FARMERS

I have a new, all steel, perfect working, hay press and want to do your baling of all kinds. 4-5

HERMAN O. CROUCH.

### PREACHING ANNOUNCEMENT.

At the Methodist church Sunday October 5th. Preaching at 11:00 o'clock a. m. Subject: Devoted Attachment to the Church. At night, a lecture—Subject: The preacher. 1st, What is he. 2nd, Who is he. 3rd, Why is he. Special music at this hour.

Jos. P. CALLAWAY, P. C.

### TEXAS MINERALS.

**Exhibits at the Dallas Fair to Be Instructive.**

The Texas coal fields have long attracted the attention of Uncle Sam and he has given the world many glowing accounts of their possibilities in his geological reports, but the best evidence of value is the product taken from the mine.

There will be on display at the State Fair of Texas at Dallas, Oct. 18th to Nov. 2nd, exhibits of the more important products.

Practically every mineral known to the geological world is found in Texas, and we produce thirteen minerals in commercial quantities. According to the United States Geological Survey, the mine value of our available coal supply exceeds the Census Bureau valuation of all the farms of the United States, including their equipment, by ten billion dollars and is worth fifty times the value of the world's cotton crop of 1912.

The first mineral production of record in Texas was in 1882 and since that time products valued at \$227,000,000 have been taken from our mines and wells. The mine value of the output for 1912 was \$20,827,712.

The important mineral products in the order of their mine value are as follows: Petroleum, \$8,901,000; coal and lignite, \$3,273,288; clay products, \$2,660,000; natural gas, \$1,404,000; asphalt, \$786,785; stone, \$588,777; gypsum, \$191,685, and salt, \$300,000.

According to the report of the Bureau of Economic Geology and Technology of the University of Texas, we have 10,000 square miles of Texas land containing workable coal and it will take 15,000 years to exhaust our present supply at the current rate of mining. We rank 20th with other states in production. Our coal mines furnish employment to 5,350 men for 226 days in the year. We have 45 coal and lignite mines and the annual average production per mine is 44,000 tons.

We have one of the largest petroleum areas in the United States. Our oil fields cover 400,000 square miles of territory. Texas petroleum and its products enter every market in the world. We export 136,224,625 gallons of crude and refined oil annually and their export value is \$6,500,000 dollars.

The mineral exhibits will portray many opportunities for investment and will be one of the most instructive departments of the Fair.

## More Fine Cattle

J. K. Millwee, who owns a ranch in the north-west part of Lynn county, but who spends much of his time in Lubbock and Plainview, called at The News office Tuesday and renewed his paper for a couple of years, as he was behind nearly a year; his date now is in '15. Mr. Millwee gave us a clipping from the Daily Herald, of Columbia, Tennessee, which we reproduce below. These Jersey heifers arrived at the ranch Sunday evening making the trip in good shape. We are certainly pleased to learn of these fine cattle being shipped into our country.

"J. K. Millwee, of Plainview, Texas, one of the prominent farmers of that section, has just purchased from Sowell & Thomas a car load of Maury county grade Jersey heifers to go to Western Texas. But the value of the Tennessee product is being appreciated more and more as is attested by the increasing demand. More than \$100,000 worth of these heifers are being annually shipped from the county."

**FOR SALE—Wagon and team at a genuine bargain. See C. P. Gentry, at Thomas Bros. Drug Co.'s store. 5-tf**

It is estimated that recent high winds have destroyed from \$10,000 to \$25,000 worth of pecans, in San Saba county alone, by thrashing the green pecans off the trees.

A full line of school supplies at Parkhurst Broken \$ Store. 4-6-2

Mrs. Jack Alley returned Saturday of last week from a ten days visit with her sister, Mrs. Ella Murphy, of Hereford. Mrs. Alley said all the Lynn county girls who are going to school in Canyon City are badly afflicted with homesickness.

**FOR SALE—Tennessee raised Jersey heifers, now at my ranch 18 miles north-west of Tahoka. I will sell at reasonable prices, on good terms to responsible parties. Address: J. K. Millwee, Lubbock, Texas. 5-6**

Mike Redwine and crew were in town Saturday of last week and hauled out three loads of 2x6 cyprus 32 feet long, being a part of the two silos for the Lazenby ranch about 12 miles north of Tahoka, which will be the first silos to be erected in Lynn county.

**LOST—One brown mare, about 14½ hands high, five years old, unbranded, collar marks on shoulder. Strayed or stolen from J. S. Wells' pasture about a month ago. Reward for information leading to her recovery.—W. D. Nevels, Tahoka. 4-tf**

Ben King, of the Tahoka Livestock Stable, plowed 11 miles of fire guards for the T-Bar Ranch Monday; he used two gang disk plows and began at the west edge of town on the north side of the road, going west for 11 miles and returning making a trip of 22 miles and a fire guard eight furrows wide. This is undoubtedly a wise thing for the T-Bar people to do, and it is just as needful for every farmer and small ranch man to do as it is for them. Get busy and when we have our fall fires you will escape with but little damage.

With every 5 cent purchase of school supplies at Parkhurst Broken \$ Store you will get a coupon. Keep your coupons and ask about the Elgin Watch that will be given away on February 22, 1914. 4-6-1

## 8 INCH RAIN IN 3 HOURS

**TWENTY-EIGHT INCHES RAIN-  
FALL SINCE MARCH RE-  
PORTS OBSERVER**

**Monthly Report for September  
51 Degree Greatest Range in  
24 Hours Prevailing Winds from  
the North**

The Plains have had the reputation for many years of being a dry country, yet, we know of many farmers who have had plenty of moisture nearly every year to make good crops and this year we have not only had plenty of rain, but it has come just about right as the following report from the local observer will show.

Precipitation in inches and hundredths of an inch: March, 1.12; April, 1.86; May, 1.23; June 10.93; July, .53; August, .23; September, 4.10; October, 8.36; making a total of 28.27 for the seven months beginning March 1st and ending October 3rd.

During the month of September 11 periods of 24 hours each during which from .02 to 1.85 inches of rain fell, mostly during the night, as follows: 1st, .61, 3rd, .14, 8th, .02, 9th, .03, 10th, .43, 11th, .05, 12th, .05, 25th, .72, 26th, 1.85, 27th, .05, 28th, .06, or 1.01 inches of rainfall. There were 2 cloudy, 23 partly cloudy and 5 clear days. The prevailing winds were N. 11, S. E. 8, S. 5, E. 2, N. E. 2, N. W. 1, W. 1. The temperature ranged from 99 on the 1<sup>st</sup> to 38 on the 28th and there were three days, the 18th, 19th and 22nd, when the temperature had a range of 41 degrees in 24 hours.

October the first dawned misty and by eight o'clock in the morning the rain was a steady down-pour, which kept up for about eight hours during which eight inches had fallen and by seven o'clock .32 and during the night .04 more, making 8.36 inches.

This was one of the heaviest rains ever seen in Tahoka, and Sweet street on the west side of the square, which drains something like 320 acres, was waist deep in the deepest place in front of Wells' store. The heavy rain only extended east about five miles, north eight, west and south 15 to 20 miles. They had an inch or so at Slaton, about the same at Brownfield, while at Plains they had a very heavy rain and Lamesa got about half what we did, the best we can learn at this time.

Now the only thing we need is for our farmers to sow rye, wheat and winter oats.

Born to Mr. and Mrs. Henry Minor, of 13 miles north-west of Tahoka, Sunday morning a girl.

On February 22nd, 1914, Parkhurst Broken \$ Store will give away absolutely free an Elgin gold filled Watch and Fob for the greatest number of 5 cent coupons; your 25 cent coupons will equal five 5 cent coupons etc. These coupons will be given with school supplies only. 4-6-1

G. W. Hickerson sold two bales of cotton in Tahoka Tuesday for \$169.50 besides which he still had \$24 worth of seed. Mr. Hickerson said that was more money than he ever received for two bales of cotton before. When you remember that he made these two bales on four acres of \$15 land with the minimum of labor it is not so bad.

## EVERY COMFORT BEING PROVIDED FOR VISITORS

Tulsa Committee Working Out All Details For Entertainment of 100,000 People

Tulsa, Oklahoma, will entertain the largest crowd in its history next October. With an experience of eight years behind them, the officers of the International Dry-Farming Congress and Exposition are making most complete arrangements for the reception and accommodation of visitors and delegates to the big meeting which begins October 22.

A special canvass is being made of every house in the city and every available room will be listed in such a way that information concerning it will be instantly at hand at the time of the Congress. More than a score of special trains from the states of the far north and west, as well as from Canada, will arrive in Tulsa about October 22. These trains will be parked on the exposition grounds and the delegates will live in them during the ten days' meeting. Special wigwams will be built to accommodate any possible overflow of unattached men. Twenty acres have been set aside as camp sites for families who wish to bring their own camp equipment and live in tents during the time of the great international meeting.

Added to these special accommodations will be the scores of good hotels and rooming houses now doing business in Tulsa. Two new hotels, with a combined capacity of 160 rooms, will be finished in time for the Congress. Altogether, it is certain that more than 20,000 visitors can be accommodated nightly in convenience and comfort.

## LITERAL IN HIS THEOLOGY

Darky Preacher's Humorous Comment on Biblical Text As He Understood Its Meaning.

Of old the right of individual private interpretation of the scriptures was not accorded to the laity. Only the priests or preachers were authorized to say what was meant by the sacred text. That has all been changed, and no man will now be expelled from the most orthodox church for believing that Balaam's palace mule did not really address his fellow citizens of Judea on the political issues of the day, or considering that the statement of the sun's standing still at the order of Captain Joshua was an illustrative allegory and not the record of a frozen fact.

This advance in theology is illustrated by the story of the darky preacher who delivered a sermon from the text, "These eight did Milcah bear."

"Muffrinds," said he, "you is singularly blessed by de Lawd in dis generation. If you wants some milk you lone goes to youah cow, and at one milk you gets enough of de laciferous fluid for eight people. In de olden times of which de Bible speaks it took eight folks to milk a bear, en I specs dey gets mighty little milk at lat."—Los Angeles Times.

## MORE TROUBLE IN A GARDEN

An elderly gentleman walking through his garden one day stopped before a fig tree on which were two figs just ripening. His favorites were figs, and summer often came and went without the fruit coming to maturity.

Shortly after, he met his gardener, who, assuring him the figs were quite ripe, was requested to send them to the summer house, where his master was about to rest.

Picking the figs, the gardener sent his little boy of seven with the basket. On the way the little fellow stopped and, removing the leaves, gazed upon the tempting fruit.

The attraction was too great; he ate one. Covering the other with his errand. On being asked if the gardener had not sent two figs, the boy, after a moment's silence, answered: "I ate one."

"You ate one? How?" exclaimed the old gentleman, angrily. "How did you come to do that?"

Dropping his eyes to the basket. "I took it like this," said the child, taking the remaining fig, "and I ate it like this."

And, suiting the action to the word, he consumed the second fig before the astonished eyes of the old gentleman.

## PRIZE LIST FOR DRY-FARMING CONGRESS HUNDREDS OF VALUABLE AWARDS, WHICH ARE HEADED BY A \$1,200 THRESHING MACHINE AND OUTFIT

Never before in the history of the southwest have farmers been able to compete at any one fair or exposition for such valuable prizes for farm crops as will be offered at Tulsa, Oklahoma, in October. The prize list for the International Soil Products Exposition, to be held in connection with the International Dry-Farming Congress from October 22nd to November 1st, has just been completed. Nearly 1,500 individual prizes will be given for farm crops at this exposition, in addition to the following specials in sweepstakes classes:

**The List of Prizes.**  
 Best collective exhibit by one farmer of his products; One Hundred Dollars in Gold given by the Holt Manufacturing company, Peoria, Ill.  
 Individual exhibit of grasses and forage crops; Lightning, Jr. hay press, value \$225.00; Kansas City Hay Press company, Kansas City, Mo.  
 Individual exhibit of vegetables and roots; Miller bean harvester, value \$60.00; LeRoy Plow company, LeRoy, N. Y.  
 Individual exhibit of fruit; I. H. C. six-shovel, two-horse cultivator, value \$32.00; International Harvester company of America, Chicago, Ill.  
 Individual exhibit of sheaf grain, riding surface cultivator, value \$30.00; J. D. Towar company, Mendota, Ill.  
 Individual exhibit of threshed grain; O'Neill haystacker, value \$36.00; O'Neill Manufacturing company, La Salle, Ill.  
 Individual exhibit of cotton; Cannon two-row hill-drop cotton and corn

Exhibit by state, nation or province, Oklahoma barred; silver trophy cup, value \$300.00; Chicago Association of Commerce.

Students' grain judging contest; silver cup, value \$100.00; Twice-a-Week Spokesman-Review, Spokane, Wash.

Best bushel hard wheat; threshing machine, any size desired by winner, complete with feeder, windstacker and weigher, value \$1250.00; given by the M. Rumely Company, La Porte, Ind. To be delivered f. o. b. nearest distributing point in North America to winner's residence.

Best bushel Turkey Red wheat; Chatham grain grader, cleaner and separator, power drive, with bagging and elevator attachments, value \$75.00; Manson Campbell company, Detroit, Mich.

Best bushel soft wheat; fourth, p. hand portable gasoline engine, with truck, value \$225.00; Independent Harvester company, Plano, Ill.

Best peck barley; five-h. p. Ward gasoline engine with magneto, value \$150.00; Montgomery, Ward & Company, Chicago.

Best bushel oats; eight-foot McCormick harvester and binder, complete with tongue truck and transport truck, value \$165.00; International Harvester Company of America, Chicago.

Best ten ears corn; Deere low-down manure spreader, value \$125.00; John Deere Plow company, Kansas City, Mo.

This \$1,250 Rumely Threshing Machine Will Be Given for the Best Bushel of Wheat Shown at Tulsa.

planter, value \$67.00; Parlin & Orendorff Plow company, Canton, Ills.

Best collection by farmer of grass and forage seeds, professional seedsmen barred; Ann Arbor combination hay baler and 6 h. p. gasoline engine complete, value \$750.00; given by the Ann Arbor Machine company, Ann Arbor, Mich.

Best yield of silage from one acre of kafir or milo; yield to be weighed, field measured and results attested by affidavits by three reputable neighbors of contestant. Samples of field to be shown at Tulsa. Indiana silo, value \$250.00; Indiana Silo company, Kansas City, Mo.

Best individual display of standard and dwarf broomcorn; silver trophy cup, value \$75.00; Brooms, Brushes & Handles, Milwaukee, Wis.

Best individual display of 30-day corn; silver trophy cup, value \$25.00; Gem State Rural & Livestock Journal, Caldwell, Idaho.

District or county exhibit—best display of products of one locality; silver trophy, Tulsa Commercial Club, Tulsa, Oklahoma.

District exhibit of grasses and forage crops; Tulsa Board of Control bronze trophy, mounted on mahogany.

District exhibit of vegetables and roots; Tulsa Board of Control bronze trophy on mahogany.

District exhibit of fruit; Tulsa Board of Control bronze trophy on mahogany.

District exhibit of sheaf grain; Tulsa Board of Control bronze trophy on mahogany.

District exhibit of threshed grain; Tulsa Board of Control bronze trophy on mahogany.

District exhibit of cotton; Tulsa Board of Control bronze trophy on mahogany.

Exhibit of agricultural college or experiment station; Tulsa, Board of Control bronze trophy on mahogany.

## FEED AND FORAGE PRIZES.

### Silo Men to Compete at Tulsa Dry Farming Contest.

The growth of the livestock and dairy industries in the southwest is today of so much importance in profitable farming that special attention is being paid to feed and forage exhibits at the International Soil Products Exposition at Tulsa. The largest prize ever offered in forage classes in any exposition will be given at Tulsa next October for the best collection, by individual farmer, of grass and forage seeds. The prize will be an Ann Arbor hay-baler and a 6-h. p. gasoline engine, given by the Ann Arbor Machine company of Ann Arbor, Michigan. The baler is adapted for use with any gas power and the winner may select any 6 h. p. gas engine made in the United States or Canada. The value of the engine and baler combined is \$750.

Another big prize is that for the best yield of silage from results announced by affidavits of three reputable neighbors of contestant. Samples of

## HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during his time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side. The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair. At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without stopping, and am doing all my work. If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

# OKLAHOMA'S INTERNATIONAL SOIL PRODUCTS EXPOSITION

EVERY CONTINENT OF THE GLOBE TO BE ADEQUATELY REPRESENTED AT TULSA, OKLAHOMA, WHEN THE GATES OPEN OCTOBER 22, 1913

The International Soil Products Exposition to be held at Tulsa, Oklahoma, in October in connection with the International Dry-Farming Congress, will be a veritable world's fair for farmers.

When the gates are opened on October 22 there will be on show good crops from practically every continent of the globe, as well as from sixteen western states and four western provinces of Canada. Never before in the history of this country have so many states and nations taken part in an exclusively agricultural fair and exposition.

Chinese farmers will bring an exhibit nearly 15,000 miles to Tulsa to compete with the farmers of Oklahoma, Kansas and Texas on the same crops as are grown in the states named. The exhibit from China will consist largely of cotton, corn, kafir corn, milo maize, millet, kaoliang, wheat, rice and barley.

Wheat from a number of foreign countries will compete with the wheat of the United States and Canada for world supremacy and for the \$1,250,000 prize offered by the Kumbley company for the best bushel shown. Cotton from California will fight for prizes with the cotton of Oklahoma and Texas. Corn from Mexico, where the stalks grow 16 feet high and two crops are raised in a season, will be shown in competition with other corn from the

best farms in the south and southwest. Oats from Russia, Australia, Saskatchewan, Oregon, and Utah will contest for world's prizes with the oats of Kansas and Oklahoma. Every conceivable farm product grown in western America will be exhibited.

The United States government is spending \$20,000 on an enormous exhibit of the work which is being done by the department of agriculture. The people of Saskatchewan, Canada, are spending as much, and the province itself has asked the exposition management to furnish a building 60 by 240 feet in size for the Saskatchewan exhibit alone. The Canadian show will be the finest and most elaborate ever given on the south side of the international line. Kansas, Texas, New Mexico, Arizona, Utah, Nevada, Idaho and California are expected to have official state exhibits.

The Exposition buildings and grounds will occupy 120 acres, seventy acres of which will be given over to a complete farm machine show and tillage and power demonstration. Every farm implement used in the west and southwest will not only be shown, but will be operated by skilled men. Up-to-date methods and machines for cultivating, planting and harvesting will be shown daily in actual operation just as on the farm and in the hands of the farmer himself.

## PREPARE MEAT FOR SHIPMENT

South American Frigorificos Will Soon Be Turning Out an Immense Supply of Food.

A frigorifico is a freezing plant in South America. It is a plant that freezes fat cattle or sheep or lambs and sends them in refrigerated ships northward to Europe. Perhaps later they will send them to the United States.

On the Island of Tierra del Fuego, far south to the jumping off place, sheep get very fat on the good grass. Incredible as it may seem, a short time ago fine fat sheep were boiled down for their tallow. Now a modern frigorifico is prepared to kill them and send them north of the equator. There is another of these newly erected frigorificos at Rio Gallegos, another a little way up the coast at San Julian and other new ones are at Bahía Blanca.

These frigorificos make possible the directing of a great stream of good lamb and mature mutton northward, and we here may expect to see it come, sooner or later. Cattle are not killed at these southern frigorificos, but farther north, near Buenos Aires and in Uruguay are great establishments that kill chiefly cattle. To facilitate the getting of sheep to the frigorificos the government is building the Patagonia state railways, leading to the interior.—Breder's Gazette.

## REGARD ALL AS BROTHERS

Altruism Seen in Its Highest Form Among Amateurs Who Go in for Chicken Raising.

"If you want to give me real pleasure," said the genial man, "just set me down among a group of amateur chicken raisers. Their conversation is a study in brotherly love. More than any other set of people they are willing, even anxious, to help each other. Professional men and men engaged in the trades do not, when talking together, sound the note of mutual helpfulness. Each keeps his secrets of success to himself. Now and then one may drop a hint that may by chance prove valuable to his hearers, but he does not mean to do even that, because the rule is for each to work out his own salvation."

"Amateur chicken raisers, on the other hand, are an inspiring example of altruism. When one discovers a new cure for the pip he hastens to spread the information among his friends and neighbors, who are also wrestling with the pip evil. If another man hits upon a new idea in feeding or hatching, he never rests till he gives his brother chicken raisers a chance to profit by his discovery.

"Commuters who live in a chicken-raising community exhibit a friendliness of spirit that is foreign to commuters from chickenless neighborhoods. They have their incubators, the relative value of different breeds of fowls and the possibility of premiums at the next county fair to talk about, and so cultivate a spirit of kindly courtesy unknown to persons engaged in other pursuits."

## WILL GET MONEY NEXT TIME

Little Likelihood That Mrs. Crabbe Will Have Opportunity to Cash Hubby's Check Again.

"Henry," said Mrs. Crabbe, "don't you never give me another check to cash. Always give me the money after this, please."

"Why, what was the matter with the check?"

"Nothing was wrong with the check, but the cashier didn't want to take it, and said I had to be identified. I told him my name was Mrs. Crabbe, and asked him if he didn't see it on the long line, but he just shook his head, and said I had to find some one who knew me."

"And who did you find?"

"No one. I asked him if he didn't know you."

"What did he say?" asked Mr. Crabbe, eagerly, but with modesty.

"He said, 'Of course I know him.'"

"And then he cashed it," said Mr. Crabbe, his chest expanding visibly.

"Not right then. He asked me to describe you."

"Of course that was sufficient?"

"Yes. I told him you were a sawed-off, hammered-down, bald-headed, pigeon-toed man, with a red mustache and a mole on your nose. That you wore a fifteen-dollar and a ten-year-old blue suit, and that you held on to a dime tighter than a letter holds a five-cent postage stamp. I was going into further details, but he stopped me and said, 'All right, Mrs. Crabbe, just endorse the check on this line, please.'"

Man, Unharmful, Frustrates Hungry Pack of Animals With Lighted Weeds Until Rescued.

Duluth, Minn.—John Bergman of Palmer, Minn., today told of an attack by wolves the other night. With only four cigars as weapons, he successfully held a wolf pack at bay until assistance came from the camp where he is employed.

He went to Palmer on the afternoon train and was walking to the camp when the pack began to close in.

Lighting all four cigars, he jabbed the lighted ends at the wolves, only stopping long enough to puff them to keep them glowing. When he finally came within hailing distance of the camp he was exhausted. Men run out with guns and the wolves fled.

# WORLD'S GREATEST FARM EXPOSITION

INTERNATIONAL DRY-FARMING CONGRESS TO BE HELD AT TULSA OCT. 22-NOV. 1.

## DELEGATES FROM ALL THE WORLD

Every Continent and Every Race to Meet and Discuss and Compare Best Methods for Cultivating Semi-Arid Regions

The world's most important farm convention for 1913 will be held in Tulsa, Oklahoma, October 22 to November 1. Men from thirty nations will attend the eighth annual meeting of the International Dry-Farming Congress there and will tell about methods of farming in all regions of slight rainfall or occasional drouth.

Official delegates are expected at Tulsa from every continent on the globe. China, whose farmers have tilled the same lands for forty centuries, will be officially represented by its minister of agriculture, Chun Sen Chan. Tunis, in north Africa, which has been a dry-farming region since the time of Hannibal, will have representatives in Tulsa to learn even more of the science which its farmers have practiced for 2,500 years. Persia, whose agriculture is as old as history, will have at least two delegates, including the Mirza Ali Kuli Khan. Palestine will send its greatest agriculturist, Dr. Aaron Aaronsohn, who today conducts a huge farm on land which the shepherds used in the time of Christ.

Fourteen governors of states and scores of congressmen have accepted invitations to be present. On top of all these will be tens of thousands of actual farmers who will come from every state in the Union and from every province in Canada to study methods whereby they may increase the yields per acre on their own farms.

The great farm meeting at Tulsa will be held in nine sections, beginning October 27 and lasting five days. The Exposition held in connection with it will begin five days earlier, on October 22, and will last until November 1. One section meeting will be devoted entirely to talks about soil, tillage methods and farm machinery.

In other sectional meetings will be studied the home breeding and selection of seeds, live stock and dairying, feed and forage crops, farm forestry, the right kind of education for country boys and girls, farm management and farm engineering.

The real purpose of the International Dry-Farming Congress and of its meetings is to teach methods for the conquest of drouth. It has nothing to do with politics, colonization or religion. It is not an agricultural college, neither does it conduct experiment or demonstration farms. It merely collects from all possible sources the available information about methods whereby farmers may increase their yields per acre, the quality of their crops and their bank accounts in all regions of light or irregular rainfall. It then passes this information on, through its annual conventions and its publications, to the farmers in many nations.

The International Congress now has officers in nineteen nations and members in sixty and its influence for the development of farming methods is world-wide. Its work is of especial importance through the southwestern states, all of which are subject to occasional drouth which in many seasons cuts the profits out of farming. In even the driest years, however, thousands of farmers are making good through the practice of the new methods which are revolutionizing agriculture. These farmers will be at Tulsa and will help in making the Eighth Congress and Exposition the most important meeting of its kind ever held on the American continent.

With every 5 cent purchase of school supplies at Parkhurst Broken \$ Store you will get a coupon. Keep your coupons and ask about the Elgin Watch that will be given away on Feb. 22nd, 1914. 4-6-2

## \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists.

On February 22nd, 1914, Parkhurst Broken \$ Store will give away absolutely free an Elgin gold filled Watch and Fob for the greatest number of 5 cent coupons; your 25 cent coupons will equal five 5 cent coupons etc. These coupons will be given with school supplies only. 4-6-2

A full line of school supplies at Parkhurst Broken \$ Store. 4-6-2

# THE INTERNATIONAL CONGRESS OF FARM WOMEN

WIVES OF DRY-FARMERS WILL ALSO HAVE MEETING AT TULSA NEXT OCTOBER

Every farmer in the United States is invited to come to Tulsa for the International Dry-Farming Congress and Exposition from October 22 to November 1. Every farmer's wife is invited to come along.

The only organization in the world devoted exclusively to farmers' wives will hold a five-day session in Tulsa from October 27 to 31. It is known as the International Congress of Farm Women. It was organized as a branch of the Dry-Farming Congress three years ago. Thousands of women eagerly joined it because of their need for an organization of their own which would help them in their home, social and religious life.

Farm women from twenty-two states met at Colorado Springs in 1911 at the first meeting of the Women's Congress. The movement spread like lightning. South African women took it up and organized a branch Congress. European women from twelve nations to the number of

5,000 met in Ghent, Belgium, last June to attend the meeting of the European branch. The third annual meeting of the International Women's Congress will be held in Tulsa.

## BOYS' AND GIRLS' COMPETITIONS

One Thousand Dollars Offered in Premiums at Tulsa.

More than six thousand boys and girls in Oklahoma alone have their eyes turned on Tulsa. All members of the Oklahoma Agricultural College boys' and girls' clubs, all members of the U. S. Department of Agriculture boys' and girls' demonstration clubs, as well as children generally throughout the United States and Canada, are privileged to compete in the great thousand dollar contest at the International Soil Products Exposition in October.

Twenty-two classes of entries have been prepared for the boys and girls of the world, covering all of the common varieties of crops. Special attention is being paid to the work of the juvenile corn, cotton, kafir and canning clubs, as well as to collective exhibits of every crop. The prizes in the aggregate will total \$1,000.

## COLORS NOT BORNE IN WAR CALLED LOW CLASS OF ART

British Troops Go Into Action Without the Inspiration of the Regimental Colors.

The colors of the British army are made of silk, with gold-fringed edges and cords and tassels of crimson and gold, mounted on a staff eight feet seven inches long.

To insure their absolute correctness in matters of detail and pattern, an official of the Herald's College acts as "inspector of colors." He has to furnish drawings and designs, and is responsible that an unauthorized departure is made from them.

Every infantry battalion has two colors—"the wing's" and "the regimental." The former is always of the same pattern, and shows the union jack on a blue ground, while the latter has a wreath of roses, shamrocks and thistles, with the regiment's motto, and crest, surrounded by a list of the various battles in which it has taken part.

Regimental colors are no longer carried into action, but are now left behind at headquarters when a battalion proceeds on service. This has been the rule since the Boer war in 1881. A couple of years earlier two young officers of the South Wales Borders were killed while endeavoring to prevent the colors, of which they had charge, from falling into the hands of the enemy at the battle of Llandilo.

Sweeping Indictment of Music to Which Song "Home, Sweet Home" Has Been Set.

Though the oldest piece of English music in existence, "Summer is Ictumen In" is quite modern in comparison with a score of the "Orestes" of Euripides, dating from the fourth century B. C., which was exhibited at the international exhibition of music at Vienna some years ago. Even more ancient is the chant "The Blessing of the Priest," which was sung in the temple of Jerusalem before the captivity, and is still in use in the Jewish synagogues in Spain and Portugal.

"Home, Sweet Home"—the song of a homeless American—once moved Robert Louis Stevenson to an outburst of passionate protest. But it was the music rather than the words that roused his indignation. You will find the passage in "Across the Plains": "I have no idea whether musically this air is to be considered good or bad; but it belongs to that class of art which may best be described as a brutal assault upon the feelings. Pathos must be relieved by dignity of treatment, declares an English writer. If you yallow naked in the pathetic, like the author of 'Home, Sweet Home,' you make your hearers weep in an unmanly fashion, and even yet while they are moved they despise themselves and hate the occasion of their weakness."

## PILLAR OF FIRE 600 FEET HIGH

MOSES' AND AARON'S NIGHTLY GUIDE POST TO BE IMITATED AT TULSA DRY-FARMING CONGRESS

"And there went before them by night a pillar of fire to give them light."—Ex. XIII, 21.

For the first time in history, since that marvelous light brought the people of Israel out of bondage, another pillar of fire will be used to call the people of the world from labor to refreshment at Tulsa.

The largest gas well in the world is located within a few miles of Tulsa. It is being piped into the middle of the exposition grounds used by the International Dry-Farming Congress. It flows thirty million cubic feet of natural gas daily and when it is turned on and lighted at the night of October 22 the vision and delegates to the Congress will witness a sight that for awe and grandeur has never been equaled.

Six hundred feet straight into the air the flame is shot by nature's force below. Its noise is like that of an avalanche. Its power that of a cyclone. It will be controlled and ignited by electricity from a distance of two hundred yards or more on account of the heat it creates.

No flame can be seen until the gas reaches the height of a ten-story building. Above that a solid pillar of fire five hundred feet in height and a hundred feet thick will illumine the exposition grounds and the city of Tulsa as no city was ever lighted in the history of the world. Shadows will be cast of people and things five miles away. The flame itself may be seen for a hundred miles.

Gas is cheap in Oklahoma. The average gas light in the average home uses but few cubic feet of gas in an hour. The great gas light at Tulsa will burn fifteen million feet a night. Nothing like it has ever been seen since Moses led his people out of Egypt and into the promised land.

The Tulsa light will serve a similar purpose, for it will give to the world a message of agricultural hope and will point the way to farm prosperity in all states and nations through the teachings of the International Dry-Farming Congress, for whose meeting it is burned.

**NOTICE OF SHERIFF'S SALE OF REAL ESTATE.**

The State of Texas }  
County of Lynn } No. 422

The Lubbock State Bank vs J. J. Rushing et al.

In Justice Court Precinct No. 1 Lubbock County, Texas.

Whereas by virtue of an Alias Execution issued out of the Justice Court of Precinct No. 1, Lubbock County, Texas, in a judgement rendered in said court on the 6th day of April, A. D. 1912, in favor of the Lubbock State Bank and against J. J. Rushing, B. E. Rushing, W. B. Rushing and J. E. Rushing, being cause No. 422 on the docket of said Justice Court of Precinct No. 1, Lubbock County, Texas, I did on the 29th day of September, A. D. 1913 at 4 o'clock p. m. levy upon the following described tract or parcel of land to-wit:

Situated in Lynn County, Texas, and being the East 1/2 of Section 38 Block "E" Certificate No. 833 issued to the E. L. & R. R. Co., containing 320 acres of land, being 18 miles North West from the town of Tahoka, in Lynn County, Texas.

Said real estate was levied on as the property of J. J. Rushing, B. E. Rushing, W. B. Rushing and J. E. Rushing and was levied on to satisfy the balance due upon the above mentioned judgement which was for the sum of \$105.00 with interest from date at the rate of 6 per cent per annum, which judgement was credited with \$36.85 on August 20th, 1912, together with cost of suit, against each of said defendants and that on the 4th day of November, A. D. 1913, being the first Tuesday in said month between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day at the court house door of said Lynn County in the town of Tahoka I will offer for sale and sell at public auction for cash, all the right, title and interest of the said J. J. Rushing, B. E. Rushing, W. B. Rushing and J. E. Rushing each and either had on the 29th day of September, A. D. 1913 or any time since in and to said real estate.

Given under my hand this 29th day of September A. D. 1913.

J. H. EDWARDS, Sheriff Lynn County, Texas. 5-7

On February 22nd, 1914, Parkhurst Broken \$ Store will give away absolutely free an Elgin gold filled Watch and Fob for the greatest number of 5 cent coupons; your 25 cent coupons will equal five 5 cent coupons etc. These coupons will be given with school supplies only. 4-6-2

WANTED—Your eggs. Will pay 15 cents a dozen in trade. J. B. Keever. 2-1f

**LOW RATES ON ALL RAILROADS**

**VERY LIBERAL FARES GRANTED FOR DRY-FARMING CONGRESS AT TULSA, OCTOBER 22**

People from practically every state in the Union will travel to Tulsa, Oklahoma, next month on special railroad rates which have been given on account of the International Dry-Farming Congress. Never before have rates been granted from so large a territory for any Oklahoma meeting. Special fares have already been given by the Southwestern, South-eastern and Montana passenger associations and others are falling into line as rapidly as their meetings are held. More than 100 railroads in the south and west are now advertising the Tulsa meeting and offering low fares because of it. A flat rate of two cents per mile in each direction has been given on all railroads in the District of Columbia, Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Ohio, Illinois, Indiana, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas, Missouri, Oklahoma, Texas, Kansas, New Mexico and Arizona.

Special tourist rates will also be in effect from all points northwest and east of Chicago and St. Louis, the selling date in most instances being October 21.

**CONTROL OF BIG CORPORATIONS.**

**Ex-President Roosevelt Outlines Policy of a Square Deal.**

Theodore Roosevelt in a recent article appearing in the "Outlook," on "The Living Wage and the Living Rate," presents in a very forcible manner, both sides of the railroad question. We have long heard many of our public officials discuss only one side—that of the people—and it will be news to many who have been following the public discussions, to learn that there are really two sides to the question.

The views of Mr. Roosevelt, who has been considered a radical in railroad legislation, are especially interesting and instructive to Texas at this time when our transportation affairs are in an inflammatory condition. The ex-president said in part:

"It must be a cardinal principle in dealing with honestly-built and wisely-managed railways that the investor, the shareholder, is just as much entitled to protection as is the wage worker, the shipper or the representative of the general public. Unless the investor finds that he is to get a fair return on his money, he will not invest, and in such case not only will no new railways be built, but existing railways will not be able to repair the waste, the wear and tear to which they are subject, and will not be able to make needed improvements. All governmental action, whether by the legislature or the executive, should be conditioned upon keeping in view this fact.

"Unless the corporation makes money—that is unless business men are prosperous—there will be no money to give in proper wages for the wage worker, there will be no money with which to provide for his protection and to insure him against loss and damage and no money wherewith to render proper service to the customers and to the public as a whole.

"It is just as much the duty of the Commission to permit rates to be raised when the raise is justifiable as to require them to be lowered if the lowering is justifiable.

"The control should not be hostile to the corporation; it should merely be hostile to any misconduct on the part of the corporation, and it should protect the corporation against misconduct aimed at it exactly as it protects others from misconduct committed by it."

**TAN-NO-MORE,**  
THE SKIN BEAUTIFIER,  
IT HAS NO EQUAL.  
IT STANDS IN A CLASS BY ITSELF,  
IT IS UNIVERSALLY COMMENDED  
BY THOSE WHO USE IT.

It is distinctly two preparations made into one: First, it serves as a Massage Cream, thoroughly cleansing the pores of the skin of all impurities, and directly upbuilds the tissues and aids circulation. Second, it serves as an invisible powder, that can not be detected if properly applied, and does not run or rub off as does ordinary powder. You can use Tan-No-More during the day, as it beautifies the skin when applied, and serves as a protection against the sun in summer and winds in winter. Tan-No-More is guaranteed to please you, or your money back. Price 50 and 35c. All Dealers.

We also manufacture Freckle-ster preparations.

Will be pleased to mail our little booklet explaining more fully our entire line. BAKER-WHEELER MFG. CO. Dallas, Texas

Let us sell you coal for your cook stove. We have the **GENUINE NIGERHEAD NUT COAL**. The best coal for cooking purposes on the market today. Ask those who have tried it. We have the Rockvale and Rugby Lump coal for general purposes. Can fill any size order. Also Plenty of Rock and Crushed Salt. Plenty of Oats and Bran always on hand at the Lowest Market Prices. Will have cottonseed cake on hand soon. **G. W. SNIDER, North of Square, Tahoka**

**ACRES OF BIG BUILDINGS AT DRY - FARMING CONGRESS**

EXPOSITION GRANTS FOR THE INTERNATIONAL DRY FARMING CONGRESS AT TULSA, OKLA. U.S.A.

R. R. Station	U. S., Canada and Foreign	Oklahoma	Other American States	Midway, Athletic and Agricultural Fields.
---------------	---------------------------	----------	-----------------------	---

The greatest Exposition of its kind ever held in North America is being built from the ground up in Tulsa, Oklahoma, in ten months of this year. The occasion is the Eighth Annual meeting of the International Dry-Farming Congress, a world-wide organization for better farming, with branch offices in nineteen nations and members in sixty.

Today 40 acres of land are ready as an exposition ground. Eighty acres more have been set aside for farm machine exhibits and demonstrations. Seven great buildings, with a total floor capacity of more than 100,000 square feet, are under way and will be completed by October 1.

The Exposition buildings are being erected in the form of a parallelogram, in the center of which will be a park. At one end is the Oklahoma Kafir Corn Palace, 84 by 225 feet in size, built by the State of Oklahoma to house crop exhibits from fifty counties. Two buildings, each 60 by 200 feet, will be used for crop exhibits from various western states. Another will be given up to Canada; a fifth to the United States Government and a sixth to foreign nations. A seventh great building will be occupied by the manufactured products of Oklahoma, while still another has been assigned to a wonderful collection of samples of women's work which will be brought to Tulsa from farms in all sections of the United States and Canada. Three acres in the exposition grounds have been set aside to hold an exhibit of the crops of negro farmers from Kansas, Texas and Oklahoma.

**FAST TRIP THROUGH BRITAIN**  
Itinerary Enables Tourist, if He Wishes, to "Do" the Islands in the Course of Seven Days.

How to "do" the British Isles in a week is the latest scheme for hustlers. A dash around London, a flying descent on one or two cathedral cities, a race through Scotland and a glance at Killarney—this what is open to those who want to see the country in a hurry. Tourist agents say that the idea is catching on with Americans. Indeed it was an American who first suggested it.

Assuming that the tourist begins his trip on Monday, he devotes that day to the show places of London, winding up with a theater in the evening. On Thursday he goes to Windsor and Hampton Court and on his return to London has time to go to a music hall. On Wednesday he leaves London for Peterborough, sees the cathedral and gets to York at three o'clock.

At York the tourist has plenty of time to visit the Minster and other historic buildings before catching the 6:15 train to Hamburg. He coaches through the Trossachs and takes the steamer through Loch Katrine and Loch Lomond. Then, the train, to Glasgow.

After dinner the hustler takes the night train out of Glasgow by way of Androssan to Belfast, reaches Dublin in the afternoon and takes the night train to Killarney.

**Now's The Time**  
to set out your fruit trees, they will be sure to grow and do well. This is a good fruit country, as this year proved. I will have all standard varieties of apples, pears, peaches, plums, cherries, apricots, grapes and small fruit.
