POSTOFFICE AT WILLSON.

A postoffice has been established at Willson, the new town on the Pecos and North Texas Railroad about 12 miles north of Tahoka. There has been a lumber yard established there and a general store, and D. T. Rogers has the contract to build an 11 room, two story residence, that it is said will be the best residence in Lynn county. Watch Lynn county grow.

J. L. Russell, the Tahoka agent for the Texas Oil Company, moved about 40 barrels of oil of various kinds to his new shop on Alley street south of the square.

H. C. Burk, who is farming on the Nevels ranch, on the north line of Lynn county, had 200 acres of land plowed good and deep and in good shape before the spring rains set in, and he says he is sure going to make a crop that will make folks stand up and take notice.

S. N. M. Daniel has moved his office fixtures to his new office and grain house this week. His new quarters are located one block north of the depot and are arranged for comfort and convenience in handling his constantly increasing grain and coal business.

He had been a member of the Methodist Church for 45 years, and was buried in the Loraine cemetery by the beautiful ceremony of the Masons.

HOOSIER.

The News man happened to be in a barber shop one day this week when Pat Northcross was telling a friend about the crops on his farm 6 miles south east of Tahoka. This is what we heard: "10 acres of oats up and doing fine, 7 acres of millet coming up to a good stand, 22 acres of Indian corn planted and coming up."

Thomas J. Allen, state manager for the the Alliance Life, came in on the Friday evening train and is working here this week.

THREE LAKES NEWS.

Last Friday, the 5th, the patrons of the Three Lakes school met at the school house to see how work was progressing. The ladies brought dinner enough for all. The regular lessons were recited in the morning, but at noon the fun began. First on the program being a big ball game, free for all, which was very closely contested, after playing two hours the score stood two to three in favor of the whites. But as there was a scarcity of players we did not have an umpire, so there might have been mistakes made. Next the women and children had a spelling match while the men made preparations for an Easter egg hunt which was enjoyed by all. Leslie Darrow took the prize for bringing the most eggs to light again, while Madison Yates took first prairie for putting the greatest number out of sight.

Otis Kaigler was in town Thursday on business.

R L. Darrow was in Tahoka Friday.

G. W. Hickerson, R. L. Darrow and Hershall Hines made a to the north part of the county after feed this week.

T. C. Marshall has commenced planting early feed stuff.

Mrs. Yates will soon have vegetables to go with the rabbit, as she has two radishes and one turnip up and doing nicely.

Miss Cordilia Babston has been on the sick list this week but is better at present.

Mrs. Yates and Mrs. Marshall were shopping in Tahoka Saturday.

Just a word to those who did not attend the school meeting. You missed half your lives when you failed to hear G. W. Hickerson's speech, and the way him and Mr. Yates handled the ball was worth the money. Mr. says ball playing calls for more money than he is in the habit of using.

Well as news is scarce and time is short I will close for this time.

BEAVER.

Dr. J. H. McCoy returned Friday from a professional trip to Afton, Dickens and Floydada, where he goes once or twice a month. The Doctor has 22 chronic cases that he is treating in Floyd and Dickens counties.

Anniversary Celebration a Go

The matter of giving an appropriate celebration on the first recurrence of the opening day of the town of Slaton was taken up by the commercial club at its meeting Thursday night last week, and it was unanimously decided to pull off a proper anniversary celebration and to invite the people of Texas and especially those of the South Plains to help us celebrate the perhaps greatest achievement in town building in this country.

Plans are being made to take care of 5,000 people, and entertainment provided for them from the minute they arrive until they leave.

Advertising matter will be gotten out as soon as the committee can furnish the necessary details, and the program announced. Watch for it and resolve right now that you will be in Slaton June 15th to help make the welkin ring.--Slatonite.

Sunbeam Easter Egg Hunt.

The Easter hunt given for the benefit of the Sunbeams by Miss Carter, at her home in the east part of Tahoka on April 7th was an occasion not to be forgotten by many happy children who began to gather promptly at 2 o'clock p. m.

The eager little ones were entertained in the parlor while the dexterously painted eggs were hidden. When all was ready Miss Carter lined the youngsters up, counted ten, then bid them go. The little plot of earth that secreted the eggs rang with shouts and laughter until all were satisfied that the hidden treasures were recovered; after which they returned to the house to find another pleasure awaiting them. A large bowl full of eggs with the inside taken out and refilled with peanuts and chewing gum, were to be drawn. The children were told that one of those eggs contained a nickel and they were blindfolded and led to the bowl to draw; Master Gordon Williams being the lucky one.

The children were allowed to play games for awhile, after which Miss Carter passed the candy and invited them to the parlor for some music. God has richly endowed Miss Carter with a great love for children, which prompts her to make many sacrifices for their pleasure, and I am sure that each child that was present will feel a great thrill of pleasure and have a very thankful heart to Miss Carter and other members of her family for their consideration of them on last Sunday's occasion.

THE VALUE OF COTTON SEED IS FIVE TIMES GREATER THAN THE WHEAT AND OAT CROP COMBINED.

From the manner in which lint cotton has conquered its rivals in the field of production and consumption, one would think the victory complete, but the half has not been told. Cotton seed, a quarter of a century ago considered a poisonous product has demonstrated its merit as a food for man and beast. The Federal Agricultural Department recognizes sixty commercial uses for cottonseed and its by-products. Twenty-four per cent of the cottonseed crushed in the United States is harvested in Texas.

The Texas Welfare Commission will investigate the production and marketing of cottonseed and its by-products. R. E. Huff of Wichita Falls is chairman of the sub-committee having the subject in charge.

Ohio Land Owners' Taxes Lowered \$7,000,000 Annually.

Columbus, O.—(Special.)—"It is not right that the farmer and home owner should be assessed at 60 per cent of the valuation of his property and the corporation at 15 per cent," said Governor Harmon, of Ohio, recently in the course of a speech he delivered at a farmers' picnic in Pennsylvania. "I set out some years ago to fix the taxation in Ohio. Taxes were not fair and equal to the small home owner and farmer. They were taxed too much while the corporations were not taxed enough. I wanted property values equalized. I wanted the farmer and home owner to get down in his weasel skin, when the tax collector came around, for more than an equal share with those which the corporations were paying."

Ohio public records bear indisputable testimony to the fact that Governor Harmon accomplished what he says he set out to do. Accurate tax data collected in every taxing district in the state, show that under the Harmon tax reforms in 1911 the Ohio farmer and home owner will pay \$7,000,000 less taxes than they paid in 1910. There has been a corresponding increase to corporate property.

Public tax records of the present administration show that Governor Harmon has done more for the people of moderate means—the small home owner and farmer—than any of the governors that preceded him; and it is also asserted that no other governor in the United States ever obtained a reform that carried so much benefit to so large a number of people as have the Harmon tax reforms. This explains why Governor Harmon is so popular in Ohio.

When Judson Harmon became governor, real estate was appraised at from 25 to 75 per cent of true value, while corporate property was placed on the duplicate at from 5 to 40 per cent of true value, and real estate owners staggered under unjust burdens. This was because local assessors worked independently, and because corporate property values were too frequently fixed by officers of corporations.

The Ohio governor's first step to correct this condition was the establishment of a state tax commission, which was given general supervision over all local assessors and was given authority to force a strict ad-

A MEDICINE AS GOOD AS YOUR MONEY

Money Promptly Refunded if Dodson's Liver-Tone Fails to Take Place of Calomel

McGill's Drug Store sells Dodson's Liver-Tone as a perfect substitute for calomel. If you try one bottle and find that it is not just as sure in its action as calomel and at the same time gentler and without the bad after effects of calomel, please call and get your money back. It will be given you promptly. Dodson's Liver-Tone is a vegetable liquid with a pleasant taste, that livens up the liver, mildly but surely, instead of whipping it into action as the strong chemical calomel does. It is used by both children and grown-ups for constipation and inactive liver.

That is why the McGill Drug Store is willing to guarantee it absolutely, not with another bottle, but with your money back. Isn't a medicine with a guarantee like this worth a trial?

Ohio Land Owners' Taxes Lowered \$7,000,000 Annually.

all property at true value, could not be used to provide money for extravagant purposes. Expenditures by public officers were limited to a certain amount—in 1911 no more tax money can be raised that was produced by the levies of 1910.

Before these limitations, expenditures by the state, county, municipal and township government officers mounted at the rate of \$4,000,000 a year. During the past decade the population in Ohio increased 14.5 per cent, the tax duplicate only 35 per cent, while the amount of money raised for taxation mounted at the rate of 68 per cent.

The people realized that the failure of corporations to pay their just share of taxes was the cause for the extra burden borne by the man of moderate means, but, until the present administration, no executive of the state ever undertook to equalize the taxes. To do this it was necessary to increase the property valuation of the corporations. Figures announced by the state tax commission show that in 1911 the appraisal of Ohio railroads for taxation had been increased from \$166,469,599 in 1910, before the Harmon tax reforms, to \$580,000,000. The additions to all public utilities aggregate \$1,000,000,000, while an additional \$1,000,000,000 has been added to private corporation property. In 1911 the railroads alone will pay \$1,633,260 more taxes than they did in 1910.

The big tax duplicates have brought about the following reduction in the tax rates per \$100 of property in the following cities:

Name of City.	1910	1911
Cleveland	\$3.48	\$1.29
Columbus	3.12	1.25
Hamilton	3.13	1.00
Coshocton	3.50	1.16

The actual reduction obtained by real estate owners under these reforms is shown in the following table of figures, giving tax payments in 1910 and 1911:

1910 Realty duplicate ..\$1,661,669,958

1910 Tax rate

1911 Realty duplicate ..\$4,246,428,569

1911 Tax Rate

Taxes paid 1910 .. \$49,850,098.74

Growth of Wilson Very Rapid

The new town of Wilson, 12 miles northeast of Tahoka, on the P. & N. T. Railway, offers another good opportunity to the investor and homeseeker. It now has a lumber yard, and post office and a general store, depot and a 11 room two story residence under construction. Wilson is surrounded by some of the best farming land on the Plains, and that means as good as there is to be found anywhere. It is surrounded by a thrifty set of well-to-do farmers and some time during the year 30 or 40 German families will move there and build homes. This fact alone would assure a bright future ahead of the town, as Germans are thrifty law abiding people and where a colony is started the first one there will induce their friends and relatives to follow.

Wilson is scheduled to be a town of no small size in side-of to years and the man that invests his money there now is the one that will reap the largest dividend.

TEXAS NEEDS GREAT MEN

XXXIII. PATRIOTISM.

DURING a famine the Roman government commissioned Pompey to procure food from foreign countries and when the expedition was confronted by an angry sea and he was urged to delay in order to avoid danger, he replied, "It is not necessary that I live, but it is necessary that I go," and he went. The human race moves forward only when it has great men to meet the emergencies of civilization and a citizenship that applauds self-sacrifice in leadership.

THE PATRIOTISM OF POMPEY.

Let those who would make their names ring across continents and reverberate through the corridors of time, brave the perils of civilization and sacrifice their lives to succor humanity and preserve the resources of their country.

It is better to wear a diadem of good deeds than to don the purple of authority, and more noble to contribute a life toward the prosperity of one's country than to spill blood on the field of battle. Texas Needs Great Men.
