

## CROWD ESTIMATED AT 40,000 IN LUBBOCK TUES

Presenting a program the magnitude and character of which stands unparalleled in Texas, 30,000 people gathered in Lubbock Tuesday to celebrate the founding of an educational institution. From four corners of the state they came, by auto and by train. From surrounding counties they came in numbers equivalent to the entire population of many communities. History was made on the site of the location of the Texas Technological College, for Lubbock was host to the citizenship, an empire assembled as warriors in the fight for education celebrating a signal victory. The gathering of this vast multitude so large that its proportions are beyond conception, bespeaks Texas and particularly West Texas' interest in education is indicative of that spirit of co-operation, unselfishness and good sportsmanship so characteristic of the Plains.

### Lubbock Congratulated.

Thirty-seven cities west of the 98th meridian waged a fight for the location of Texas' new educational institution. Lubbock won. Thirty-six cities congratulated the "Hub City of the Plains" by word and by action. They sent their representative citizens to join in the celebration, a celebration which stands out above any similar undertaking known to any man of the Lone Star State. Its attendance and success were great enough to surprise even the most optimistic of the local arrangements committee.

Lubbock, chosen as the home of a college which West Texans are determined to make equal to any hall of learning in the Southwest, was a gracious host for it must be said that they entertained the guests in a manner befitting the recipient of such honors as have been bestowed upon the locating of Texas Tech at this threshold.

Lubbock made plans to receive and entertain 30,000 visitors and that number was present. This statement is one out in the fact that 33,000 meals were served at the big outdoor table at noon. An idea of the amount of food served at this table is gained when it becomes known that 155,000 pounds of barbecue of 150 beeves, 10,000 chickens, 7,000 loaves of bread, 4,000 roasting ears and 2,000 gallons of coffee made up the menu.

### State Officials There

Mingling with the vast crowds made up of men, women and children from West Texas, and the Panhandle, were the highest state officials, members of the locating board of the Tech college and the board of regents, or men who are to be held responsible for the establishment and successful operation of the new institution. They came to join in the celebration and to transact business matters in connection with the founding of the college.

The institution now is placed on a definite business basis. Legislation making its location possible has been completed. A site for its establishment has been chosen now, as Amon G. Carter, chairman of the board of regents declared in his address. "The work begins." The erection and operation of an institution where learning in the highest degrees of art and science will be imparted to the ambitious boys and girls of Texas.

### Locating Board Finishes Work

The locating board, of which Senator B. B. Cowell is chairman, concluded its duties with its reports to the board of regents and the transfer of the site and the funds appropriated by the Legislature to the board of regents.

Members of the locating board thanked the citizenship of West Texas for its hospitality, in receiving them and co-operating with them during their recent tour of the 37 preferred sites. Picking up where they left off, the board of regents appealed to the people of West Texas to continue that spirit of co-operation and unselfishness in aiding them to build a great institution worthy of the ideals of the Plains. The meetings held in the afternoon by the locating board and the regents were for the chief purpose of hearing formal reports and the transfer of authority.

## CHURCH OF CHRIST CLOSSES REVIVAL MEETING HERE

Elder Chas. Watkins, of Petersburg closed a very successful revival for the Church of Christ in Tahoka last Sunday evening. Elder Watkins held meetings at O'Donnell, Magnolia and closed his work in this immediate section of Lynn county. Several conversions were reported during the meeting.

## B. J. LEEDY ERECTS NEW ELECTRIC SIGN AT PALM CAFE

B. J. Leedy, the proprietor of the Palm Cafe in Tahoka, has erected a large electrical sign on the corner of the building occupied by the cafe. It is a thing of beauty and can be seen from three different angles on the streets. Mr. Leedy believes in having the best signs, as he is himself an artistic sign painter, and one of the best in this section of the state. The newly erected sign adds considerably to the attractiveness of the Palm Cafe building.

Mr. Fritz, proprietor of the drug store in O'Donnell, was a Tahoka business visitor Wednesday.

which had assembled in the city, thousands of whom arrived during Monday night and thousands of whom remained in the city over Tuesday night.

Speaking programs, band concerts, parades, athletic exhibitions, rodeo performances and an open air dance in the evening, covering four blocks were the outstanding features. The feeding of the thirty thousand overshadowed any event of the day, but this could not be classed as an entertainment feature. It was an accomplishment, crowning the efforts of one thousand citizens, for that many actually had a part in the huge undertaking. Col. Clark M. Mullican, World War veteran and now serving as district judge, was at the head of this division of workers. Days were spent in assembling the supplies to feed the city's guests and during the 50 minutes required to feed the 33,000 people 600 men were actually engaged as waiters. High officials of the state and men who have played an important part in the establishment of the new college were on the speaking program, divided into morning and afternoon parts.

S. T. Kimbro, chairman of Lubbock's Tech committee, presided at the programs. Mayor Percy Spencer at 10 o'clock made the address of welcome, and was followed in addresses by Lewis T. Carpenter of Dallas; R. M. Chitwood of Sweetwater; M. E. Rosser, of Snyder; Senator W. H. Bledsoe, author of the bill creating the college, and Dean T. U. Taylor of the University of Texas.

Gov. Pat M. Neff made the principal address of the afternoon program. From the speakers stand on the west side of the courthouse, and facing a veritable sea of faces which stretched for blocks. The chief executive declared the celebration marked a great day in the history of Texas.

Lieutenant Governor T. W. Davidson followed Mr. Neff, being introduced by representative Lee Satterwhite of Amarillo. Mr. Davidson told of the benefits the people of Texas would derive from the new institution, and lauded the citizenship of West Texas in its participation of such a program as the day brought to them.

S. B. Cowell, chairman of the locating board said the fight for the location of the college had been a fair one. He declared that education was important, saying that in his opinion college students of today would have charge of the reins of government of tomorrow. The closing speech was made by Amon G. Carter, of Fort Worth, chairman of the board of regents. Mr. Carter said that the board's work was just beginning and that the members would do all in their power to make the college a success. Various estimates as to the crowd present were made by Lubbock citizens.

Curtis Keen, secretary of the Chamber of Commerce, declared that 35,000 persons were in the city. Others placed the number as high as 40,000. Automobiles, covering acres of ground, were parked over all sections of the city. Sixteen blocks in the business district were roped off and this section was literally jammed at all hours with the great mass of humanity taking part in the celebration. Many arrived Monday night and by 4 o'clock Tuesday morning all roads leading into Lubbock were lined with incoming automobiles resembling parades.

## New Detector of Criminals

The "soul searcher" is the latest scientific machine for wring the truth from criminals, only Dr. Albert Scheider, here shown with the apparatus at the Criminology department of the University of California at Berkeley, calls it a capillary electrometer, being an improvement on laboratory equipment used for years. The suspect is asked to give the first word that comes into his mind after a word is furnished him by the questioner. His mental vibrations, transmitted through his fingers, are recorded and if they jump very high it's a sure sign he is guilty.

## STANTON CONCERT BAND STOPPED OVER MONDAY

The Stanton Concert Band stopped over in Tahoka Monday afternoon, enroute to the Tech celebration in Lubbock, and rendered several selections on the court house lawn. Stanton is the county site of Martin county and was well represented at Lubbock Tuesday.

## FAREWELL PARTY

Mrs. Maudie Lowe, assisted by her daughters Misses Beulah and Thelma gave a farewell party Wednesday evening to Miss Enola Weed who is moving to Post.

Various games and amusements were enjoyed by those present and the close of the evening delicious refreshments of watermelon was served to Misses Alice Small, Bertha Kelo, Margaret Larkin, Pearl Moore, Enola Weed Janet Marr, Ruth Nevels, Johnnie Walker, Evelyn Hatchett, and Messrs. Le Roy Knight, Obie Atkinson, Herman Anglin, R. E. Doak, Harold Edwards, Thomas Lowe, Sherman Davis.

W. Brown Bishop of Wilson was in town Saturday. Prof. Bishop had just closed a singing school at Gomez.

Prof. C. E. Peoples arrived in the city the later part of the past week and will have charge of the High School football team, in addition to his work in the High School.

Misses Jessie and Alma Hunter, who have been attending the North Texas State Teachers College, at Denton, for the past year, are spending their vacation with their sister Mrs. H. E. Stokes.

## BAPTIST PASTOR RETURNS

Rev. J. M. Doshier and wife, returned Tuesday from Roosevelt, Oklahoma where he conducted a revival. He reports a successful meeting and much good accomplished but is glad to be home again. There will be regular services Sunday at the Baptist Church both morning and evening. Miss Glenn Miles, one of the music teachers in our school will render some special music at the morning hour.

I. T. Weed and family are moving to Post this week.

Miss Lera Welch of Brownfield was a guest in the Curry home a few days this week, returning to her home yesterday.

Miss Lula Johnson of Borden county, is spending the week with Miss Leo Mae Welch.

Prof. and Mrs. J. A. Stark spent the week in Spearman visiting and attending to business.

Uncle Ike Metcalf, Justice of Peace was aroused from his slumber Tuesday night about eleven o'clock by four young people from Ropesville, seeking an official to speak the words "unto death do we part." They were Mr. Roy Cate and Miss Alpha Mackey; and Mr. S. K. Ardis and Miss Flora Copeland.

## GET READY FOR THE LYNN COUNTY FAIR SEPT. 28 AND 29.

Everything is moving along nicely in the way of making preparation for the Lynn County Fair, to be held in Tahoka September 28th and 29th. Every citizen in the county should begin boosting for the fair at once and never let up for one moment. Reports from different portions of the county indicate that the farmers and their families will be here.

It is planned to make a community fair, in as much as the various communities in Lynn county will be asked to bring in exhibits and suitable prizes will be given to the community winning the premium.

More will be said about the prizes and fuller details given in the News in the near future. Remember the dates SEPTEMBER, 28th and 29th.

## COLORADO BAND RENDERED SPLENDID CONCERT HERE

The Colorado concert band stopped over in Tahoka Wednesday morning on their return home from the Tech celebration at Lubbock and rendered several selections on the court house lawn, which was very much appreciated by our citizenship. The Colorado band was among the best that appeared in Lubbock Tuesday.

## METHODIST PASTOR OUT OF TOWN

Rev. J. T. Howell pastor of the Methodist Church is engaged in a revival at Seminole this week. He will return home Monday. Rev. C. E. Peoples, one of the teachers in the Tahoka school will fill the pulpit Sunday in the absence of the pastor.

"Red" Upton of San Angelo, was a visitor in Tahoka the fore part of the week.

Miss Aileen Wilkerson of Amarillo, is visiting her aunt Mrs. W. O. Thomas.

Mrs. C. D. Lovelace and son Lynn, of San Antonio were the guests of Mr. and Mrs. L. F. Craft the first of the week.

Judge L. C. Heare, prominent citizen of Miami, Texas is the guest of his son, J. L. Heare in Tahoka this week. Mr. Heare has visited with the family in Tahoka on several occasions. He attended the Technological celebration in Lubbock Tuesday. Mr. Heare has resided in the Miami section for many years.

## AUTO WRECK SOUTH OF TAHOKA TUESDAY MORNING

Last Tuesday morning as Judge Garland and family, of Lamesa, were enroute to Lubbock to attend the Tech celebration, they had the misfortune to turn their Ford Sedan over one mile south of Tahoka. Mrs. Garland was driving the car, and failed to slow down for the turn north on the main highway coming into Tahoka. Fortunately none of the occupants of the car were injured seriously. The car was not damaged except breaking out the glass doors and windows.

Mr. and Mrs. Chas. A. Johnson, and children returned to their home in Brady, Wednesday after a visit with Mrs. Johnson's parents Mr. and Mrs. G. W. Knoy.

## TAHOKA GETS FIRST BALE OF COTTON

The cotton ginning season is on! The first bale of the 1923 season was brought in by J. K. Brown Saturday morning. The bale was bought by the First National Bank and West Texas Real Estate Company and brought 26 cents per pound. The bale weighed 330 pounds. A premium was made up for Mr. Brown amounting to \$50.00 The West Texas Gin Company had the honor of ginning the bale.

The first bale was brought in last season on the 28th of August. Our first bale this year came in on the 25th making it the earliest bale ever received here.

The bale was later taken to Lubbock where it was donated by Lynn County citizens to the Lubbock Technological celebration, bringing the handsome sum of \$1.50 per pound at public auction on the streets of Lubbock, and was bought by W. O. Stevens, banker of that city.

Miss Beulah Lowe is at home from a months vacation in Dallas, Ft. Worth, Abilene and other points.

Subscribe for the home paper.

## PUBLIC SCHOOLS WILL OPEN MONDAY

Some have become confused about the opening of school on account of the change in the Teacher's Institute. Lynn county teachers will meet at Lamesa this year on December 17th. This will answer many inquiries regarding the institute. School will open next Monday, Sept. 3rd. Below will be found a program that may or may not be carried out just as given. I hope that some of the patrons will be present with some words that will help start the children on their year's work, and will be appreciated if those whose names appear will have something to say. School children, please get your books out and learn the words to the two songs called for, so that you can make them ring. We will not have books then, but I hope to get some a little later.

The high school teachers will meet their classes Monday, discuss their work with the pupils, and assign lessons for the following day. The grade teachers will enroll their students, hand out books, and assign lessons. I think we can get this done by 12 o'clock so the children may return home for lunch. The children will not be required to return in the afternoon. I wish to call the attention of patrons to a matter that must be corrected this year; that is the growing practice of pupils going to town for lunch. If the pupil brings his lunch from home, he must bring it on to school and eat it there. We must discourage the practice of going to town to lunch stands and other places for dinner, and it may be necessary to forbid it entirely if we do not have the support of all patrons in regulating the practice. If you have your child to come home for lunch, see that he returns to school promptly. Remember that on days that the weather is too bad for children to play out of doors long at a time, the noon recess will be shortened and it would be best for the child to bring his lunch on those days. We will have a meeting of the teachers at 3 o'clock Monday afternoon.

## H. P. CAVENESS, Supt.

### PROGRAM

1. Assemble in auditorium at 9:00 o'clock.
2. Song, "America"—By School.
3. Prayer.
4. Song, "Battle Hymn of The Republic"—By School.
5. Talks—By patrons and friends.
6. The Parent-Teacher Association—Mrs. J. B. Walker.
7. Greetings from an ex-student—Conrad Lam.
8. Announcement of courses—Various teachers.
9. Announcements.

Miss Marie Lowe, leaves today for Pampa, Texas, where she will attend the teachers' institute. Miss Lowe has been employed as one of the teachers in the Pampa school this year.

Following is a list of teachers for the ensuing year:

- Primary Mrs. L. F. Craft,
- Second grade Dovie Colleenback,
- Third grade Leta Carmack,
- Low fourth Ann McAtee
- Fifth fourth Mrs. H. P. Caveness,
- Sixth grade Helen Stevenson,
- Seventh grade Mrs. Hensley,
- High School M. B. Hood, Mrs. H. Tunnell, Cecil Peoples, Ruby Windsor, J. A. Stark agriculture, Lena B. Price, home economics, Mrs. O. E. Stevenson Jr. expression, Misses Wright and Glenn Miles music.

Mrs. R. E. Ketter and daughter Faynia returned Saturday from Dallas where they purchased the fall and winter stock for The Limit drug sundry store. They spent three weeks in the city.

James Mobley Mullins arrived at the home of Mr. and Mrs. W. B. Mullins Thursday, August 23rd for an indefinite stay.

E. G. George and family left Saturday for San Antonio in response to a message stating the serious illness of Mrs. George's mother Mrs. J. C. Nevill.

## ANOTHER RAIN SUNDAY

Tahoka and parts of Lynn county were visited by another rain Sunday amounting to 34 hundredths of an inch. A young flood is reported south of here around O'Donnell.

jail; he's out of tune with all the world and shudders at a smile, and wants to give to all the folks a taste of smarting bile. His favorite drink is vinegar and he'd pour salt in a cut, and instead of helping someone up would keep him in a rut; we love him like a neck boil and we'd like to send him off, to an isolated island were at sand crabs he could scoff.—Dallas News.

**TODAY AND TOMORROW**  
We will give a Free Matinee ticket to THE MARTIN SISTERS CO; SHOW with each new or renewal subscription to the LYNN COUNTY NEWS.

The Fort Worth Star Telegram correspondent at Lubbock that reported in the columns of that paper Tahoka had 850 automobiles in Lubbock during the Tech celebration Tuesday, stretched the blanket considerably. By taking off the 800 he would have come nearer hitting the bull's eye when it comes to being authentic.

Take notice of the next child you pass on the street. Observe the manner in which it gazes up in to your face, and a look of expectancy on its own. It is waiting and hoping that you will speak. Did you ever experience that lonesome feeling of being overlooked or ignored when you were a child? And do you remember how chagrined you felt? They have the same feeling today.—Paducah Post.

One of the better-off farmers of Hale county says the secret of his owning his farm and its good improvements free of all debt and having a tidy bank account, is that "We always lived at home. We never buy meat, lard, milk, butter, poultry, vegetables or feedstuffs. We always make these little things pay for our clothing, sugar, coffee, farming tools and many other things. We rarely go to town without something to sell for cash, and as we have no indebtedness nor interest to pay we put it in the bank or gilt-edge notes for the old age that is coming upon wife and myself." If every farmer on the plains pursued this plan this would be a section of happy and prosperous farmers. There are few farmers but who could do like this man has done.—Plainview News.

**Kept Worshipers Awake.**  
To the titling man in New England fell the task of keeping worshipers awake during church services. He had a long staff with a knob on one end to tap the sleeping men, while on the other end was a fox tail to dangle in the face of sleeping women.

One Allen Bridges is spoken of in one of the early journals. He was very proud of having been appointed to wake the sleepers, and was determined to show his authority. He fastened a thorn to one end of his waking weapon.

"On ye last Lord's Day he did spy Mr. Tomlins sleeping," the journal reads. "He gave him a grievous prick in the hand. Whereupon Mr. Tomlins did spring up much above ye floor and with terrific force strike hys hand against ye wall.

**New Variety of Sugar Cane.**  
The variety of sugar cane known as S. C. 12-4, produced by the federal agricultural experiment station in the Virgin Islands, is considered very promising. Recent reports to the United States Department of Agriculture from a plantation in Porto Rico to which cuttings were sent for testing say that the original two and one-half acres planted to this variety have been extended to 200 for the present year. Several of the fields are estimated to yield 80 tons of cane an acre, which, with the average sucrose and purity of the juice, should give nearly 11 tons of 98 degree sugar an acre. The original field is now giving a fourth ratoon crop that averages 20 tons of cane an acre. A profitable fourth ratoon crop has never before been produced on this plantation with any other variety.

If some of the politicians who feel "called" only knew what they were being called, what a happy country we should be!—Judge.

**VENTURE.**

Lamesa Reporter: We notice that the Lynn County News has gone to an all home print. This is just another move upward in the product of a home paper. The Reporter is glad to see the News take this forward step. It means a great deal of extra work, but we are about decided to take the forward step and give our people an all home print paper. We are figuring on trying the matter out.

Try it out. S. P. hasn't anything against the business concerns that print patent insides and sell boiler plate matter to newspapers. As long as they find customers they have a justification for their business. But S. P. has had experience enough with plate matter to know that home print is better. In the first place, there is home news enough to fill any home newspaper, provided there's somebody to go out and get it, and home news is what makes a home paper worth the home man's money. Given the support of the home advertiser, such as the Lamesa Reporter gets the home reader ought to have all the news about the neighbors that may be legitimately supplied him through the columns of his home paper. It is true that an ideal set on that order leaves the newspaper man little leisure for politics and checkers. His shoe leather will suffer and his adroitpous will decline. But they will read his paper and they will pay him for it. Nowhere has a newspaper man so large a chance to show what is in him as on a small town paper. The Reporter is a good paper now. Its aim at improvement can only make it better.—Dallas News

**THE PICKLE EATER**

You can find a Pickle Eater in most every kind of place, and if he doesn't say a word you'll know him by his face; the guy who's always out of tune with every soul and thing, and who'd rather grouch and grumble than to even try to sing. He's just about as happy as a walrus on a plain, and if perchance someone should laugh he has an awful pain; it seems that nothing pleases or looks correct to him, and he'd criticise the style in which the little fishes swim.

He even hates to go to sleep for then he can't see all, and then when he awakens he has a taste like gall; he would change the day to night and change it back again, and tears his hair when there's a drouth and fusses over rain. He thinks that every compliment is just another fib, and he'd like to put an anchor weight on every floating rib; he says a little foolishness is just a lot of rot, and would throw away all skillets and fry eggs in a pot.

The writers do not please him and he says he'll wield his pen, and solve the mighty problems and the world will be right then; his coffee tastes like licorice and his beans aren't cooked enough, and even if he has whipped cream declares that it is tough. Folks do not dress to suit him and he says the styles are wrong, and he even says the boulevards are where they don't belong; he says the stickum on a stamp should not be quite so sweet, and thinks we should have twelve instead of ten toes on our feet.

Oh, yes, a Pickle Eater is as happy as a snail, and thinks that everyone who's glad should be locked up in

**Facts About Dogs.**  
A number of the staff of the Park Department of Natural History has pointed out that the dog, whose respirations number only twenty-five or thirty a minute, may, in running, acquire a rate of respirations as high as 300 a minute. The effect of this acceleration favors the dissipation of animal heat by convection from the pulmonary vessels.

The dog panting very little or not at all by the skin, pulmonary taking the place of cutaneous transpiration. It is this fact that enables the dog to pursue its game so long and persistently. Animals of the cat family, on the other hand, do not possess this peculiarity, and for that reason tigers, panthers and lions lie in wait for their prey. Let us not pursue it over long distances. The bird possesses pulmonary transpiration in a very high degree.

**East Indian Irrigation Project.**  
Three and a half million acres of excellent farm lands, in 14,300 square miles of India's Sutlej valley, will be thrown open to settlers at the completion of the most pretentious irrigation project attempted in India. Assistant Trade Commissioner Spofford, Calcutta, informs the Department of Commerce. During the last 30 years large tracts of waste land in the Punjab have been rendered productive as a result of successful irrigation works, and for the first time in Indian history the Indian government is seeing the mistake in neglecting the construction of roads along with that of canals. The government is acquiring necessary road rights to insure adequate provision for the transportation of crops to market and rail ways. The whole Sutlej project will probably take nine years for completion.

NEWS LETTER ON EUROPEAN TRIP

Stockholm, Sweden, July 29.—It is Sunday night and the Baptist World Alliance is now a matter of history. Thirty-six nations were represented from every side of the globe and the various delegations, donned in their native costumes and conversing in their native tongues, made an interesting sight and formed a peculiar impression. All of them believed the same things, and loved, worshipped and served the same God, even though they did not speak the same language. I heard them pray in their native tongues and though I could not understand them I was glad God could, and I was glad, also that when God speaks to me He speaks in English, just as He speaks to these peoples of other lands in their own tongues.

I have an idea that this gathering of peoples from nearly all lands, all of them imbued with the same purposes and ideals, was a kind of foretaste of heaven when the people of every kindred and tribe will be assembled there for the purpose of worshipping God throughout all eternity.

The Alliance was a distinct success in every way. There were some great speeches, some great stories of experience by the missionaries and native Christians, some great sermons, and a fine spirit of unity and purpose for the most part throughout the sessions. I considered it a great privilege to report the proceedings for the Associated Press and thus interpret in a way the meeting for the readers of the American newspapers. The exhibit of Baptist work and institutions which I helped arrange and set up was a great success and the Congress adopted a vote of thanks to us who helped in that undertaking, calling us by name. The Swedish papers carried pictures of us and interviews with us, and while I recognized my picture I could not read all they said about me. One paper carried an article of mine which was translated into Swedish before being printed.

The negroes from America were given a great reception by the Swedish people, receiving them into their homes and treating them as guests of honor. I saw the Negro delegates leave tonight and they were given a regular ovation. The white people ran along the platform as the train moved out, waving handkerchiefs and bidding them goodbye. The negroes gave a concert while waiting for the train to pass out and everybody listened with keen enthusiasm. The Congress will meet in Toronto in 1928.

I had to work very hard during the Congress, so am short on sleep again. It is a little difficult to sleep here anyhow, as it is so light during the larger part of the night. It gets slightly dark around 11 o'clock and remains so until about 1:30, when it gets light again. The sun sets at 9 and rises around 4. The people draw their window shades and sleep on. They take business very lightly, coming to work at 9 and 10, taking two or three hours for lunch and then quitting for the afternoon around 4 or 5. In some stores they work longer than that but in offices their hours are very short. The people are so courteous, however, I can overlook their being a little slow in some matters. One man closed his shop Friday to show me a place I wanted to find.

Friday afternoon a member of the party with which I crossed the Atlantic, Dr. Clear of Texarkana, dropped dead in the street and as I had to remain over until tomorrow night anyhow attending to my work, and other members of the party had everything arranged to leave that night, they entrusted the preparation of the body for shipping home to me and I have had my hands full, as getting a body ready to ship abroad is a great deal more trouble than getting it ready to ship at home. We will have to rent a special car to carry the corpse from here to the port where it will take the ship. I have had to proceed in my preparation without any word from the family or friends, as they have not answered my cable, advising of the death. This is probably due to the fact that Mrs. Cloan was visiting in another state. It all entails a lot of extra work for which I haven't hardly got the time, but on the other hand I am glad to be of some service, for I know I would appreciate someone helping me out in the event one of my own family had died abroad without anyone to look after him.

From here I go to Berlin, Germany Monday night and after a few days there I will go to Dresden and then to Interlaken, Switzerland, and thence to Paris, France, arriving at Cherbourg, France, in time to catch a boat home August 15. I plan to reach New York August 22 and Nashville about August 24.

I may have opportunity to write again from Berlin, but am not sure that I will. In the event I do not, you may count upon hearing from me shortly after my return to Nashville. With all best wishes,  
FRANK E. BURKHALTER.

### SERVICES AT CHURCH OF CHRIST NEXT SUNDAY

Elder S. A. Ripple, of Lubbock, will preach at the Church of Christ in Tahoka next Sunday morning and night. Elder Ripple is an interesting preacher of the gospel and the public is invited to hear him at both hours Sunday.

COMMITTEE.

### LUBBOCK WON CHAMPIONSHIP IN PECOS VALLEY LEAGUE

In the deciding game for the championship in baseball of the Panhandle and Pecos Valley League, played between Amarillo and Lubbock last Tuesday at Lubbock, the latter city was successful in winning out by the score of 2 to 0. The game was hotly contested from beginning to end and was witnessed by thousands of fans. Governor Pat M. Neff threw the first ball that started the championship game.

WANTED—Some school boys to board. First house south of school building.

### ITEMS FROM TERRY COUNTY HERALD

The Baptist people closed one of the most successful meetings of that denomination here in its history last Sunday night, and Rev. Shepherd returned to his home in Crosbyton on Monday morning.

Rev. Shepherd stayed off all kinds of isms, during the entire meeting and just preached as he believes the Bible teaches, all of which is given as the reason for its success.

A large crowd drove out to the Murray tank Sunday afternoon to watch the baptismal service of about twenty five candidates.

Miss Lena Maude King informed us this week that she would teach a class in instrumental music at the high school auditorium this year.

We understand that three of the South Plains counties have withdrawn from the South Plains Teachers Institute, being Dawson, Lynn and Gaines, and will hold their institute at Lamesa this year. It will be known as the Tri-County Institute. Rumor has it that they disagreed with the Lubbock school superintendent and merchant's association as to the time of holding it.

T. E. Crites, representing the Clover Leaf Creamery, at Lubbock, spent yesterday in Tahoka.

### SIMMONS COLLEGE OPENS SEPTEMBER, 13th.

Abilene, Texas, Aug. 27—All indications are that Simmons will have a capacity opening, September 13, and that this session will be the best in the history of the college. E. T. Miller, Alumni Field Secretary, has just returned to headquarters from a trip through the West and reports scores of boys and girls planning to enter Simmons in the fall from all over the territory; several communities which have never been represented at the college before will have students to register when the doors open.

Mr. Miller made his report when the alumni at a special meeting recently. The president of the Association, Mr. C. C. Rister offered his resignation because he will be absent from the state this year. Mrs. Roy Bradley, as first vice president of the organization of Simmons alumni and ex-students.

Plans were also made at this meeting for a big homecoming of former students, graduates and friends of the

school at Thanksgiving. At this time the annual turkey-day clash on the girdiron between Simmons and Howard-Payne will be a big drawing card. Other elaborate features are being planned for the entertainment of the home-comers.

## Old Information Is Misinformation

The World changes. Old governments are passing; new governments, territories and parties are in the forming. The discoveries and inventions of to-day are superseded by the achievements of to-morrow. The old-fashioned, bound, stitched and glued encyclopaedia served its purpose in a past generation. A new age demands a new Encyclopaedia—a reference work that can keep pace, step by step, with the New World.

Nelson's Loose-Leaf Encyclopaedia, with its patented loose-leaf binding device, is the only Encyclopaedia that can discard the old and out-of-date and substitute the new and living in its place. IT IS THE ONLY PRACTICAL PLAN FOR RELIABLE INFORMATION.

# NELSON'S

Perpetual Loose-Leaf

# Encyclopaedia

& Research Bureau for Special Information

A Few of the Reasons Why You Should Own Nelson's

It covers the whole field of knowledge—over a million topics—from the dawn of civilization to September, 1922. It is accurate, concise, authoritative—with over 1,000 contributors, each a specialist in the subject assigned to him. It is fully and beautifully illustrated—over 7,000 illustrations, colored plates and maps, photographs, reproductions of the famous paintings and linedrawings.

Its editorial and Advisory Boards include the finest minds of the world—men at the very head of the various fields which they represent.

It is ALWAYS new—kept constantly down-to-date by the issue every six months, of 250 or more new pages, old out-of-date facts and figures being eliminated and new ones supplied to take their place.

It is supplemented, by a Research Service Bureau which will supply free of cost, any additional material which you may desire.

It is an authority, used by government departments, libraries, schools, and educational institutions, throughout the country.

It is, like history itself, by means of the patented loose-leaf binding device, continually in the making—always complete, but never completed.

It saves you the expense of buying a new Encyclopaedia every five or six years. It is a complete Reference Library and equal to a College Education.

It is AMERICAN, made in America, for Americans. Librarians everywhere, when asked where to find the latest and most accurate information, answer

It's Always New—Look it Up in NELSON'S—Cannot Grow Old

Nelson's Reading and Study Courses in UNITED STATES HISTORY, BUSINESS ECONOMICS, NATURE STUDY, AGRICULTURE AND HOME ECONOMICS are declared by educational authorities to be equal to a college course and training in each of these departments.

FOR SCIENTIFIC REPORTS AND SPECIAL INFORMATION AND CORRESPONDENCE. Every purchaser of Nelson's is entitled to free membership in this Bureau. If at any time you are in doubt on any subject, old or new, write to this Bureau with the positive assurance that you will receive the latest obtainable and most dependable information.

## "Slimy Taste"

"When I feel stupid, get constipated, or bilious, I take a good dose of two of Black-Draught and it sets me straight," writes Mr. George B. Halsep, of R. F. D. 2, Columbia, S. C. "It cleanses the liver and I feel all right, and have not used any other medicine as I do not see the need of it. I am a guard at the State Reformatory, and have been for three or more years. When I first heard of

## BLACK-DRAUGHT

Liver Medicine

and the good medicine it was, I had been having a tired feeling when I'd get up in the morning. I would be stiff and sore, and had a slimy, bad taste in my mouth, but didn't think so much of it till I began to feel stupid and didn't feel like eating—then I knew I needed medicine. It was then I began Black-Draught, and I felt all made over, ready for any kind of work, ready to eat and sleep. So, for any return of this trouble, I take Black-Draught, and for 25 years it has been my medicine, and I wouldn't be without it at all. My work is constant. I am on my feet a lot. I am out of doors, and fresh air and Black-Draught are all the medicines I need. I recommend it to others for I know it is good."

Sold Everywhere.

## THE SCHOOL SITUATION

By Phebe K. Warner

\$15,000,000 for public free schools in one year seems like a big pile of money. And it is. And anybody or any State spending that amount of everybody's money for anything, no matter what the cause or consequences might be should do a lot of careful thinking before they turn the money loose.

But when you simmer \$15,000,000 for a whole State down to \$12.00 for the entire education of one child for a whole year the amount sinks almost into insignificance. \$12.00 a year for each child is the amount the State of Texas says she can afford to spend on her big family of more than a million and a quarter school children. As fine a family of youngsters as there is anywhere in the nation, but worth only \$12.00 a head per annum. That is the price set on their heads by the State, but their whole bodies are worth a lot more than that to the State and that is one thing that ails the schools of Texas.

The Texas children are worth too much out of school. They are worth too much in the cotton field and the corn field. We can't spare them to go to school. How much do you suppose the average child in Texas is worth to the State in dollars and cents? What is the earning capacity of the school children of Texas? Do you suppose the work they do amounts to \$12.00 per capita annually? We know some little boys in our county who have barely entered their "teens" who are working side by side with their fathers and their neighbors in the harvest fields doing a genuine man's work to save the crops earning or saving which is the same, three dollars a day, which would mean \$12.00 in four days instead of a year. Think of a State that is planning to send a boy to school four months this year for four days work. What will become of the other seven months and twenty-two days of that boy's earnings? Who gets the benefit of the rest of his youthful energies?

Why is Texas first in agricultural products, third in agricultural wealth and 35th in education? Is it because our children are not so bright as others and can not learn or is it because they are such good workers we can not afford to send them to school?

Does Texas think of herself or her children first? \$12.00 per capita for education. How much for chewing gum, ice cream, candy, face powder, cigarettes, cigars, tobacco, snuff, rings and earrings to keep our fingers and ears warm furs for summer, and silk hose and point lace for winter, picture shows and gasoline? How many of us remember that last year Texas spent \$15,000,000 for our public schools and shipped into Texas from other States \$15,000,000 worth of poultry products, while 100,000 Texas farms had no poultry, not enough to produce their own eggs and fried chicken? How many of you remember that last year Texas spent with our neighboring States six times as much for pork, poultry and dairy products as we spent for the education of all our chil-

dren? Still we are the biggest State in the Union, and can produce the best poultry and hog feed in the nation and lead the nation in the production of cattle.

And the very thing that seems the hardest and the most undemocratic about our school situation is the fact that the little boys and girls who work the hardest and the longest in the hot sun to make and save the crops and whose parents will pay most of the taxes, will be the children who will have only a four months' school directed by the left-over teachers who will have to do the best they can with all the grades the few months school is in session. And should some of these parents want to send their children to a junior college or any kind of a college to finish their FREE (?) education it will cost those parents close to \$500 a year instead of \$12 a year to finish the high school grades that are not provided for them in the country school. It surely is some system.

But be patient a little longer, boys and girls of Texas. It will not always be thus. The people of Texas are thinking of you. The eyes of Texas are on you. And this very week there is a meeting going on in Waco for your special benefit. And some day Texas is going to be as big educationally as she is geographically. The real leaders in all of Texas' interests are to attend the Waco meeting, because the education of the children of Texas affects every business in the State. The State Superintendent of Education is to be there. The presidents of our State colleges are to be there. The presidents of the Rotary and Kiwanis and Lions clubs are to be there. The presidents of the women's organizations will be there. The regents of our great schools, the bankers, the Masons, the industrial leaders, the secretary of our Texas prison, the highway association, the onion growers, the stockmen and the farmers, the pecan growers, the public health authorities, the State Library association, the labor union and the motor transportation associations are all to be represented at the Waco meeting. And most of all it is to be hoped that the owners of the school and the parents of the school children will be there to help plan a better school system for all Texas from the least little rural school to the great State University, for it should be one unbroken, continuous climb from the bottom to the top and every child of Texas should be given an equal chance to make the ascent. And some day it is going to be that way. We believe it. But we will have to work together before that dream can come true.

The prime purpose of the Waco meeting is to perfect the plans for an educational survey of the entire State, for which the Legislature of Texas in its last session passed a bill appropriating \$50,000 to cover the cost of such survey. Let's all watch this work and do all we can and learn all we can to help the schools of Texas.

## This Does for the Grasshoppers

Here is an outfit being used to exterminate grasshoppers, which has proved very popular with nurserymen and farmers throughout the country. The device, thought out by an ingenious Missourian, is simple to construct and costs little. A mule supplies the motive power and is hitched to a two-wheeled rig. Two wings, six to eight feet square, are attached on the sides and covered with pitch. On driving through the field with this outfit, the insects are startled and strike the shields and stay there.
