Dallas Boosters

Here April 24th

Dallas, Texas, April 7—Tahoka and Lynn county will be visited by a large delegation of Dallas business men on the occasion of the thirteenth annual excursion of the Dallas Chamber of Commerce which will leave this city on its own special train Thursday, April 17, and will arrive at Tahoka at 9:30 a. m. Thursday April 24. More than one hundred of the largest mercantile, banking and manufacturing concerns of this city will be represented in the party and they will be accompanied by a big brass band to furnish music for the occasion. The itinerary of the Chamber of Commerce trip embraces two thousand miles of the Panhandle and Pecos Valley country and a visit to more than eighty cities. The purpose of the trip is to acquaint the members of the party with the marvelous progress of the country traversed and the importance of closer trade relations between the cities visited and Dallas. The Panhandle with its varied resources, its great agricultural and stock raising industries, is a big factor in the industrial life of the state and the members of the party desire to meet personally the merchants and business men of Tahoka and the farmers and stock raisers of Lynn county. T. E. Jackson, vice president of the Dallas Chamber of Commerce and chairman of the trade extension committee, is in charge of the details of the trip.

NEW HOME COMMUNITY TO HAVE POST OFFICE

A post office will soon be established at New Home 14 miles northwest of Tahoka, with F. P. Thomas a postmaster. We understand that there will be a store put in there also. The mail will likely go out from Wilson, which was made a money-order office the first of April. All of which speaks well for the prosperity of Lynn County, for the government never opens a new post office unless conditions will justify. This will make the fourth post office in Lynn county and the only one off of the railroad.

The New Home neighborhood is a thickly settled part of the county and is also one of the best farming communities we have.

Miss Bess Madison, Millinery. 31-1t

C. G. Alford and daughter, Miss Sybil, made a trip to Lubbock Tuesday on the train.

W. F. O'Neal, of Illinois, came in on a prospecting trip last Thursday and left on the Friday north bound train.

Messrs. Bigham & Snider have sold 400 tons of cottonseed cake during the winter and will handle several cars more before the cake season is over which will be a very short time now.

L. G. Phillips, one of O'Donnell's prominent merchants, spent the day Monday in Tahoka meeting friend and transacting business.

Mr. and Mrs. N. D. Goree, of the Carter Bros. mercantile firm, of this city, spent Saturday night and Sunday with M. M. Anthony and family, of six and a half miles south of town. Mrs. Goree said they had a splendid time and it made her wish that she lived on a farm all the time.

This court, approximately 750x500 feet, will divide the main rectangle of exposition buildings from north to south. Upon the east of the court figures—elephants, camels, Arab warriors—symbolical of the Orient will surmount a huge arch, the Arch of the Rising Sun, larger than the Arc de Triomphe; upon the west of the court the story of the setting sun will be depicted; surmounting the arch upon the west prairie schooners and figures of pioneers who pushed across the western plains will be shown.

THE LAW AS TO UNPAID SUBSCRIPTIONS

The Caldwell (O.) Press recently commented in an instructive and interesting manner on the phrase of newspaper law herein involved.

In an editorial the Press said in part:

"Implied contracts are often made without the parties meeting or speaking a word or touching a pen to paper. They grow out of the relations of the parties. They arise when two persons act towards one another in the transaction of business in such a way that their actions constitute and are held in law to amount to a contract.

"Now get this. An implied contract is just as binding and just as enforceable in a court of law as an express contract.

"Now let us apply the above principle to newspaper subscriptions, keeping in mind the customs of country newspaperdom, which have been so long in vogue and are of such long standing that they have become the law of the craft, and bearing in mind that in the absence of statutes bearing on the point custom makes law.

"A man goes to the newspaper office and pays \$1. The editor credits him with one year's subscription. He sends the paper for fifty-two weeks in succession. The customer and the editor made an express contract when the subscription was given. When the fifty-two papers have been sent that express contract has been fulfilled and is no more. Now (and here comes in the CUSTOM before mentioned), without any thing being said by either party the paper comes again. The subscriber takes it out of the office and reads and enjoys it. The paper comes again next week and the subscriber again takes it out of the office as before. The same thing happens fifty-two times. The editor, acting on the CUSTOM in good faith, has sent the paper another year, and the subscriber has read and enjoyed another year's paper. Now, to say that he should not have to pay for the second year is going squarely counter to that great proposition of law 'that no man can accept the work, the time or the expense of another without compensating him' unless the service was a gift and intended as such. By that act of taking the paper out of the office the subscriber makes an implied contract with

THE W. O. W. SUPPER

Last Saturday night the members, families and friends of the W. O. W. Tahoka Camp No. 1603 and Tahoka Circle met in the W. O. W. Hall on the east side of the square and enjoyed a feast of good things to eat.

The committee built a nice 32 foot table and fixed the lights so they though there would be no trouble with them, but alas, like the foolish virgins, they had put no oil in the tank which made a delay of half an hour in setting the table. After the lights were fixed the table was set with dishes borrowed from Parkhursts Broken \$ Store for the occasion. The Camp furnished the fruit and the Circle the cake, all of which was the very best of its kind. If there is one thing for which Lynn county should be noted it is the cakes made by the good housewives, most of whom are excellent cake bakers.

Nearly every part of the county was represented by attendants of both sexes. A conservative estimate of the number that ate supper would be 200 persons, nearly half of whom were women and girls. Every one seemed to enjoy themselves to the utmost, every one made themselves at home and was glad to meet with brother Woodmen. Some excellent music was furnished by Messrs. Brown Bishop and Temp Sikkner on the violin and guitar. After supper was over the table was taken down and the dishes washed up, and conversation was indulged in until about ten o'clock when Consul Commander Ben King called to order and those who did not have the pass word had to leave so that the Camp could take in a new member which they did getting through about one o'clock.

The main advantage of the fraternal spirit that they encourage among the members, every one who attended went home with the feeling that they had at least 200 friends, many of whom were only a few hours before only total strangers. Never did we see any better order than was had at this supper. Every one did just as they liked and every one liked to do right.

New Stock of Roberts, Johnson & Rand Shoes just arrived at J. B. Keever's—All the latest styles in Mens' Ladies' and Childrens' low quarters. 31-32

W. A. Yates, of Three Lakes, called at this office Tuesday and had us send The News to his son John, at Abilene for a year. John will read the paper just as though it were a letter straight from home each week.

Summer Normal For Tahoka

The question has been for some time, "Has Tahoka a chance to get the Summer Normal?" But this is no longer the question. The State Superintendent, Hon. F. M. Brally, has given his approval for a normal to be had here and now it is up to the teachers and citizens to advertise the proposition and make it a success.

It means something to a town to have a good Normal. Every person who attends during the time will spend something like \$50 and since this is the case, why not make the Tahoka Normal the LARGEST and the BEST ever held on the South Plains.

We suggest an advertising committee and most especially do we solicit the teachers of Lynn County to attend and bring somebody.

Respectfully, PROF. A. E. WHITE.

W. H. Godlove, traveling for the Iron Clad Hosiery Co., of St. Joe, Michigan, paid Tahoka his first visit the latter part of last week. Mr. Godlove expressed himself as well pleased with Tahoka and Lynn County. He said: "The only thing you need is more farmers."

Dr. L. E. Turrentine came home last Friday from Post City where he went to be operated on for appendicitis. Dr. Ponton brought him over in his auto accompanied by Mrs. Ponton and Mrs. McGill. Dr. and Mrs. Ponton returned to Post City Friday night. Dr. Turrentine is entirely recovered from the operation.

Mrs. A. B. Ellis and daughter, Miss Ida Lou, went up to Slaton Tuesday morning returning that evening accompanied by Miss Bonnie Wade, of Tiban, New Mexico, who with her mother has been visiting various places in Central Texas for the last month. Miss Annie Doyle of Borden county, who taught the 1912-13 session of school at T-Bar, closed her school Friday, April 4th, with a basket picnic at the beautiful country home of Mrs. C. E. Donaldson. Miss Doyle received the guests and those were stangers she introduced to all present. Most of the guests arrived by eleven o'clock and the hour before noon was spent in playing games on the grassy stretch of prairie in front of the house and listening to some excellent music rendered by Misses Annie Doyle, Fay Gooch and Nena Belle Donaldson. At twelve o'clock dinner was served, and suffice it to say that the ladies and girls of T-Bar did themselves proud. The afternoon was spent in more frolic and music. As the evening began to wane the merry-makers left for their homes thanking their hostesses for such a delightful time and tendering their sympathy to Miss Doyle, who had the misfortune to fall and sprain her ankle.

TEXAS' LARGEST COTTON CROP

Washington, D. C., April 7—The largest cotton crop in the history of the State was produced in 1912 according to the final report of the Department of agriculture. The output was 5,120,252 bales compared with 4,447,648 in 1911 and exceeded the estimate made by the Department of Agriculture on the 1912 crop by 270,252 bales.

The total production of the United States for 1912 was 14,295,500 bales which was the second largest crop ever grown. Texas Produced 35 per cent, or more than one third of the total production.

Peanuts—Planting And Culture

THE CROP—Under favorable conditions, Spanish peanuts will mature in from 100 to 20 days. The Spanish variety is best adapted to the entire Panhandle and Plains conditions. They will resist as much dry weather as milo maize, after getting started. They are easy to cultivate on account of their erect growth and they are easy to harvest from the fact that the nuts adhere well to the vines. As a pasture crop for hogs, they are excellent. It is hoped that every peanut co-operation working with our department this year will try out his crop as a hog feed, both from pasture and a hay crop standpoint.

THE SEED BED—Peanuts, like other crops, respond to good tillage methods. Early deep plowing is to be recommended, fall plowing preferred. Spring plowing must necessarily be shallower than the fall. Peanut land should be worked enough in the spring to keep down all weeds and to save the moisture until planting time. It is advantageous to kill two or three crops of weeds on the ground before planting time.

Plowing cannot be done at proper time, listing is practiced with good results. The ground should be single listed early and the ridges should be arrowed down somewhat, two or three times before planting. At planting time these remaining ridges should be split with lister

and the peanuts planted immediately after.

PLANTING—One bushell of good unshelled nuts is enough for an acre, especially if the ground is prepared well and the seed is evenly distributed. The plants should be from 12 to 15 inches apart in the row, with the rows 3 1-2 feet apart.

All planting should be done in sweep or lister furrows. For planting on the large scale use a peanut planter, but on the small scale it is necessary to do the dropping by hand. Sometimes two seats are arranged on a riding lister, one for the driver and another behind, for the man who drops the nuts from a box, through a tube, to the furrow. It is almost impossible to make an even distribution, however, with this last method.

To insure an extra good stand on a small patch, the nuts should be shelled. In shelling, great care should be exercised to prevent breaking the thin papery covering surrounding the nut. If the nuts are planted in the unshelled condition, they should be soaked in water from 24 to 48 hours, after which they should be planted at once. The nuts should be covered to a depth of from 1 1-2 to 2 inches and the ground should be packed over and around the seed very much the same as for kafir or cotton.

H. L. McKnight of the Texas Experiment Station recommends soaking the nuts in the following solution, to prevent mice and gophers taking out the seed. We know that this is good: "Soak

ARCADIAN
AMERICA'S BEST RANGE

The Arcadian is a perfect baking range, and stays a perfect baker for a lifetime because it is built like a locomotive boiler. Built of malleable iron and charcoal iron riveted together instead of being bolted together. Made airtight without the use of stove putty to crumble and fall out, as happens in cast iron and so-called steel ranges, allowing false drafts to fan the fire or deaden it.

The Arcadian Range will never have false drafts—it will always do perfect baking, using a third less fuel than common ranges.

Never need to use blackening—rub with an old cloth moist with water. It pays to treat over and over in the best way, to say nothing of the way it makes a woman's work easier and allows her to do perfect baking.

the whole nut for 24 to 48 hours in water to which has been added a kerosene emulsion made as follows: Shave fine a one pound bar of ordinary laundry soap, and add one gallon of boiling water. Stir vigorously for ten minutes, then add one-half pint of coal oil and stir another ten minutes. Pour this liquid into water enough to cover one bushel of peanuts. Let them stand in this water for 24 to 48 hours, when the water may be drained off, and the peas planted.

TIME TO PLANT—Do not plant until all danger of frosts are past. May 10th is about an average date for this crop, however, the date will depend on moisture conditions.

CULTIVATION—Cultivate frequently with sweeps or small shovels, keeping the ground as nearly level as possible, until about the last cultivation, at which time it is usually advisable to ridge slightly with a wide ridge. Care should be exercised not to injure the plants during the last one or two cultivations. Do not cultivate shallower than 2 1-2 to 3 inches at any time.

Watch the rabbits. It is often necessary to fence the peanuts against them.

Yours truly,
H. M. BAINER.

Born to Mr. and Mrs. J. B. Walker Thursday, April 10, 1907.

Friday of last week quite a crowd of Tahoka young people spent the day picnicking at Tahoka Lake.

Mr. and Mrs. J. M. McGill took the north bound train this morning for Okalona, Arkansas, where they will spend the summer.

Mr. and Mrs. Albert Hardin came in Wednesday of last week to visit his mother, Mrs. J. P. Calaway. Albert left for Amarillo Monday.

Miss Mabel Harris, of T-Bar community, entertains her friends at a play party last Friday night. Several couples from Tahoka and O'Donnell were present. Miss Eunice Smith, of Tahoka, who is visiting her, was the guest of honor.

O. B. Shook, the popular North Side Barber sold his shop and goodwill the latter part of last week to Sumner Clayton. Mr. Clayton is well known to the general public, having been in the barber business here for several years and enjoys the reputation of being one of the best barbers on the South Plains. Mr. Shook has purchased an interest in a barber shop at Lockney. We regret the departure of Mr. Shook and his family from Tahoka, they leave a gap in our business, social and religious circles that will be difficult to fill. However, they have almost formed the habit of coming back to Tahoka.

School Trustee Election Report

Our report of the School Trustee Election of last Saturday will have to be incomplete as only a few returns had been sent in when we were over to the county judge's office after them, and we could not wait for the five days allowed by law before the officers of the election must make their returns, as it would be too late for this issue.

Precinct No. 2.—Tahoka High School, elected H. M. Larkin and J. E. Ketter, and J. V. Dyer holds over, so these three make our board for this year, J. N. Lemon received 12 votes for county trustee of Commissioner's Precinct No. 2, and M. M. Herring 18 votes for county trustee at large.

Precinct No. 3, elected J. P. Simmons and J. C. Preston trustees with Box Cathey hold over. P. M. Williams received 6 votes as trustee for Commissioners Precinct No. 3.

Precinct No. 4, elected W. L. Kuykendall, D. M. Estes and W. N. Gore trustees.

Precinct No. 7, elected T. C. Campbell, J. J. Nettles and J. R. Evans trustees, and Sam Smith received 5 votes for county trustee of Commissioner's Precinct No. 4.

Precinct No. 10, elected no one but recommended C. A. Coleman, W. D. Knighton and W. H. Robinson for trustees.

Precinct No. 13, elected A. R. McGonigal, G. R. King and C. J. Campbell, trustees.

Next week we will give a complete list of the county and precinct trustees.

Invitations were received in Tahoka Saturday of last week to the marriage ceremony of Mr. C. A. Thomas, of Tahoka, and Miss Launa Harris, of Blooming Grove. The invitations bore at home cards after May 1st.

Gave Up Hope
"I suffered five years, with awful pains, due to womanly troubles," writes Mrs. M. D. McPherson, from Chad-bourn, N. C. "They grew worse, till I would often faint. I could not walk at all, and I had an awful hurting in my side; also a headache and a backache.
I gave up and thought I would die, but my husband urged me to try Cardui, so, I began, and the first bottle helped me. By the time the third bottle was used, I could do all my work. All the people around here said I would die, but Cardui relieved me."

FORCEFUL "AD" TALK MADE BY MRS. VEIHL

Chief Speaker at Weekly Luncheon of the Ad Men's Club Gives Viewpoint of the Women Readers

There is something peculiarly attractive about newspaper advertising that "just gets you," and makes it the most efficient means of publicity according to a statement by Mrs. Robert C. Veihl in address before the Fort Worth Advertising Men's club at its woman's day luncheon and meeting at the Westbrook hotel at noon Wednesday. The attendance was probably the largest of any Wednesday meeting in the history of the club. "Advertising from a Women's Viewpoint, and What We Think of the Way You Conduct Your Business," was the subject given Mrs. Veihl, who explained in the beginning that she was going to forget that she was talking to men, and make her talk as if she was addressing "just us women among ourselves."

MAKER FORCEFUL TALK

She spoke with a forceful eloquence that made one feel as if the talk was addressed "right at him," and when it was finished she was presented with an armful of carnations, compliments of the Ad club. "There is something so entirely different about some stores that sell the same things," said Mrs. Veihl, "that although easily apparent are hard to explain. "Occasionally we will enter a store and immediately notice a chilliness in the atmosphere, and the very attitude of the clerks says, 'Here are the goods if you want 'em all right, if not get out.' The lack of courtesy in some stores is surprising and inexplicable, and the attitude of courtesy and hospitality in others leads one to wonder how other stores exist at all. ARE FULL OF WHIMS
"Women—and men, too—are full of whims and very few ever enter a store exactly sure of what they really want—the don't go into a store with their minds definitely made up, and if the clerk meets them with courtesy and shows he is willing to assist, the customer will be glad they went there. "Of all the means of advertising I consider newspapers the most efficient, but it is only intended to get prospective customers into the store, when the clerk must make the sale. So it goes back to the pleased customer, which, is in reality the best advertisement."
When I first came here, I began trading at a place where every clerk made you believe he was glad to see you—honestly, they made me feel like they were glad to see me and were not specially after the dollar.

STORE NEARLY KEPT

"The store was neatly kept, the goods well displayed and the clerks like one big family. Often I wondered how this was managed and finally I learned that every employee was called together in a family conference once a month, and the meeting was presided over by the manager himself. Matters of general interest were discussed and suggestions from any employee were welcomed, and in that co-operation such as I have never seen before was had. "I consider newspapers the most effective medium because every class of people is reached by every one is able to get a

WINDOWS VALUABLE

"Then comes window displays. "There is no doubt that a neat window display is a good advertisement and I had one woman tell me that show windows are the best advertisement. Certainly, they are valuable in directing one into the store when the advertisement in the newspaper has gotten them to the door. "Then there's the handbills. They are great! Great nuisances, I mean, for about all that I ever have found them good for was to litter up one's yard. "Street car and billboard advertisements are good if well ordered and brief, for you will find yourself unconsciously reading them over and over. Mystery advertisements are among the very best if they are well done, and as an example of clever advertising, I regard that of Bob Smart right up to par. WAS GENERALLY READ
"Sometime before he opened his store here he began his mystery campaign, then when he disclosed the secret, I dare say that 99 out of every 100 who read the papers read his ad. "And now, you advertisers, the best thought that I can leave you is that 'it is not really how much you spend for advertising, but how you spend it."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure, sent for circular, free. F. J. CHENEY, & CO., Toledo, Ohio.
