The Lynn County Singing Convention met at the Central Baptist Church, Sunday, November 26th and was called to order by M. C. Richey. Opening Song by M. C. Richey and J. D. Tipton.

Quite a number of singers were present from Tahoka.

Messrs. Pyrtle, Maxey, D. E. Patterson and Mrs. Alice Shelton rendered a fine quartet.

Several good songs, led by different leaders was rendered during the afternoon.

D. C. Wilcox and two little girls rendered a duet that was unusually fine, and received the hearty applause of the audience.

Convention was called in business session. It was moved and seconded that convention meet twice a year—on the fourth Sunday in May and November. Motion carried.

Convention meets at Draw the 4th Sunday in May, 1923.

Everybody present seemed to enjoy the singing, but owing to the muddy roads the attendance was not up to the usual standard.

## OUR SLOGAN

BY PHEBE K. WARNER

Have you a slogan for your business? Have you a slogan for your life? Not a motto, but a SLOGAN. A motto as a rule is some sweet saying that is not always true. Example: "Be Good and you will be Happy." A slogan is a goal. It expresses an objective in your business of your life or your ambitions. And every time you repeat it you see that goal, and it inspires you to try once more to reach it.

Webster says, "Slogan means a war cry of the Scottish Highland clan." If this is true and Webster seldom misrepresents things, then our slogan should be the war cry of our business; the war cry of our life. Our slogan should be the war cry of our soul as it urges us on toward the goal of our life and business. If everybody had a slogan for their business there would be fewer business failures. If everybody had a slogan for their life which they were day by day trying to reach, well, who could tell the effect it would have of this old world of disappointment.

We believe in slogans. Unless you have one you hardly know what you are trying ultimately to do. So the first thing we did when we began this work for your Home Paper was to manufacture us a slogan for this work. And here it is. "The Home Paper in Every Home" Why? Because what is the use to say things and write things and print things if the people for whom they are said, written and printed do not ever see them. And it is our hope through the Home paper of the different counties to encourage a uniform, constructive program of service by the people for the people of every community in your county. First there is strength in union. By the way that is one of our national mottoes. And there is inspiration and cheerful rivalry in all doing the same thing at the same time. But we must all get in the notion of doing the same thing at the same time before we can do it and how we can all get the same notion unless we all read the same paper.

The Colleg of Industrial Arts, Texas colleg for girls, where fifteen hundred Texas girls are being trained in thirty-two courses of studies has for its motto, "We Learn to DO by DOING." But the goal of our C. I. A. is a more efficient and happier womanhood, and better homes for Texas. We believe every county should have a goal toward which it is striving. Don't you? What is the GOAL of your county? Have you a county slogan? That's why men and women were endowed with mind as well as matter so they would not wander through life as aimlessly as a worm.

But bac kto our slogan. How many homes in your county take and read the Home Paper? So far as we know the Vernon Record comes the nearest having a 100 percent of the homes of its home county on its subscription list of any Home Paper in Texas. This is not meant as a boost to the Vernon Record but rather as a challenge and an inspiration to every other Home paper in the State. Think what it would mean to a county if every family in it read the same things every week. How much easier to inspire civic and educational and social activities if every community and every school trying to accomplish the same things. How much more in-

teresting would be the news from this community and that and the other if all were watching the progress of the other and every one trying to reach the desired goal first. Do you realize that most of us have never half tried to half live? Why? Because we did not know enough about what others were doing to know how far behind we were getting. And after while when we find out then we are so discouraged that we do not try. "What's the use?" That is the end of our effort. What we need in most of our communities is to put a little bit of football pep and rivalry into the game of life in every community in the whole county. It looks like, maybe, it is coming anyway as the very best result of the football craze.

We have recently noticed that the business men of Bryan, Texas, and also Ballinger, Texas, have arranged with the weekly Bran Eagle and the weekly Ballinger Ledger of Ballinger to have a thousand extra copies of these papers circulated among the farmers. Wonder what that means? Do you suppose that it means that there are a thousand homes in each of those counties that does not take the Home Paper? Why do you suppose the business men of these towns are so interested in the country folks having the home paper in their homes? Do you think it is because they want the children to have the joy of the funny page once a month? Or is it because they want the trade of those farmers? Right there is where the farmer should advertise something he has for sale that the business man and his family needs. And make business for himself as well as for the town man to make business by giving him the home paper for awhile. But it is a god plan alright for surely the people will subscribe for their paper after reading it awhile. And this will make more business for the editor, the business man and the farmer if HE uses the paper to advertise what he has the same as the merchant has.

But we believe there is even a better way to put the Hom papper in every home than to send it wholesale o the people and that is to plan ways to get it himself for every town may not be as liberal as Bryan and Ballinger. The following are a few recipes by which many more of us might be enabled to have the home paper in our homes every week of the year:

Save one plug of tobacco each year, 50c; smoke one less cigar each month, \$1.20; buy one less cigarette each week, 40c; total—\$2.10.

Buy one common sense, pair of shoes, \$5.98; instead of one pair of high-heeled, corn producing, pain-creating pair at \$8.00; saved \$2.02. Sell ne hen for \$1.00.

And two pounds of butter for \$1.00 Total \$2.00. Or spend 30c to advertise a registered rooster and sell the rooster for \$5.00.

Price of paper ----- \$2.00  
Difference ----- \$3.00  
minus the ad, leaves enough to send the paper to a friend for a Christmas present.

There are hundreds of ways to save or make the price of the home paper if we would have a county campaign and get everybody to thinking about it. And what would rejoice the heart of the county editor more than to find a thousand new subscriptions on his desk on Christmas morning.

## OFFICER SHOTS YOUNG MAN AT LUBBOCK TUES.

From Morning Avalanche:

One young man was taken to a local sanitarium and had his left leg dressed after the bullet had gone through the flesh of it here Tuesday morning as a result of taking too little time to get around the square here Tuesday morning at one o'clock in a Cole 8.

Officers Ford and Smith were making their regular rounds through the business section of Lubbock at one o'clock when the speeding automobile attracted Mr. Ford's attention and noticing that it was making its way toward him he attempted to halt the driver, but in spite of the fact that he parked himself in the very center of the street the driver drove the big car around him and kept going at an unaltered speed, three shots were taken at the wheels of the car but were of no use in checking the speeders. Officer Smith was two blocks east of where Ford had attempted to stop the car and on hearing the three shots thought they were fired from the car and also attempted to check the driver, who would have passed him up but for the fact that one of the shots he took at the wheels of the car took effect in the left leg of one of the party.

Owing to the fact that the bullet did not touch any bones the leg was soon easy after the doctors had dressed the wound and the young man was able to hobble about the streets on crutches late Tuesday afternoon.

Two of the young men who were in the car, one of whom was driving, have been arrested two times each in Lubbock within the past month, but as their cases were only finable ones officers are unable to check them in their efforts to be reckless concerning the laws.

Mr. and Mrs. Ray Allen spent yesterday with their parents in Lubbock celebrating Thanksgiving.

Miss Beusie Houston, of Abernathy came in Monday and will attend the Tahoka public schools the remainder of the term. Miss Houston accompanied Rev. Howell, pastor of the local Methodist church, on his return home from a business trip to Abernathy.

Messrs. Jesse Key and Maurice Small, students of Tahoka High School and members of the football squad, left Wednesday for Austin to spend Thanksgiving and witness the big football game at the State University.

R. J. Lowry, the insurance man, attended to business matters in Roscoe Wednesday.

Mr. and Mrs. Ray Allen and R. B. Haynes attended the Radio concert at O'Donnell Wednesday evening.

Wilson Edwards of Waco, transacted business matters here this week.

## METHODIST PURCHASE LOTS TO BUILD IN NORTH TAHOKA

The News has been informed by Rev. J. T. Howell, pastor of the M. E. Church, that his denomination closed a deal Monday for six lots in North Tahoka, upon which they plan to erect a modern church edifice and parsonage at a future date.

The News is glad to chronicle this piece of information to the public. Tahoka is badly in need of new church buildings. The present structures are inadequate for the present needs of the town and community. The town has outgrown the houses now used for public worship. It is hoped that every denomination in Tahoka will take steps toward the erection of modern buildings that will stand as a monument to the One on High and to the town and surrounding neighborhoods.

Lets build better churches.

## Thanksgiving Day Observed

A majority of the business firms in Tahoka observed Thanksgiving Day yesterday by closing their doors for the day. Services were held at the Methodist church at 10:00 A. M. at which a large crowd was in attendance. Many of our people attended the Tahoka-Post High School football game at Post in the afternoon. Also several of the local nimrods hied to the country in search of game.

After this issue of the paper we will not run legal notices such as Citations by Publication, Notices of Administrator, Probate of Will, etc., unless we have the cash in advance. For some reason or other after we run such notices we never get our money and we cannot run without money. Since we have been running this paper which we took charge of in April, 1921, we have run \$487.95 worth of legal notices and so far we have begged, cussed and been cussed and only collected \$114.75 of this business. So in fairness to ourselves mostly we must have the money in advance for such notices.—Stewart Printing Co., Ociltree.

Same here. They are usually in a hurry to have the legal notices published and most particular as to the proper dates, etc., but are slow and indifferent about paying for them.—Pampa News.

Most every county seat newspaper has experienced some trouble in collecting for legal notices. The News is among that number and we have charged on our books at the present time legal matter run years ago, with little or no prospect of any pay. It would be nothing but fair to collect for these notices in advance so as not to leave the printer holding the bag, as is usually the case.

### A TRAVELING MAN'S PRAYER

Oh, Lord, look with a forgiving eye we beseech Thee, on the buyers who lie to us about the low prices our competitors make.

Lord, soften the hearts of buyers, who, as soon as they see a drummer, get as busy as a hen with one chicken and keep us standing around until our feet warp, and then buy two dollars and sixty cents worth, and want that billed on the first of the month.

Good Lord, curb our tendency to flirt with the married women, single ones don't count as they expect it.

Teach us not to complain at the roller towels that the multitude has used before we got there.

Lord, give us digestion like alligators that we may well digest the lion stinks cut from the neck where the yoke worked.

Teach us to be thankful for the stump water served us and called coffee. Toughen our hides that we may sleep soundly in hotel beds already occupied \* ? and cause to look with a charitable eye upon our competitors who are a sorry lot anyway.—Amen.

The person who stands on the street corners looking around for something to gossip about or to find fault with can always find what he is looking for. But what a life he lives. His soul shrivels and withers until it is shown in his manners and looks. For such a person life has lost its savor. It becomes sour, misanthropic, whiney. He passes from bad to worse and sees no good in anybody or anything. His taxes are too high, no matter how low they may be, and he curses his neighbor because his neighbor is prosperous and enjoys life. In fact he hates himself, is a menace to the town's prosperity, a foe to God and no good to the devil. These persons seem to be a necessary evil in every town and the great question is what to do with them, or how to cure their baffling disease that is such an impediment to the march of progress.

Take a trip over Lynn county if you would like to see evidence of real prosperity among the farmers, and the flattering prospects for a splendid crop another year.

Tahoka needs rent houses. Many families are being turned away every day for the reason that no place is at hand in which to reside. Let's build more houses. We can not hope to grow until we do.

It will be to your interest to do your Christmas shopping early. You will then have ample time to make selections.

Editors Smith of the Lamesa Reporter and Stricklin, of the Terry County Herald, are having an argument over which is the first day of the week. Smith wants to know how Stricklin can tell how Sunday is the first day, whereas Stricklin points him to the calendar and the Holy Bible for the truth of the matter. We'll say Stricklin is right in the argument, and also in his recent political argument with Smith over the State Senators race. The News is a dyed-in-the-wool Democrat and cannot agree with our republican friend, Smith of the Reporter in his arguments over politics.

Work on the new school auditorium continues slowly. The completion of the building has been unavoidably delayed owing to failure in receiving material.

"Our baby girl is now twenty-one years old, and looks sixteen. How do I remember exactly how she looked five years ago? Why by looking at that snap shot picture of her the day she graduated at high school. Then we have others showing her at all sizes from a baby up, and no amount of money would buy them from me for they can never be replaced. She can never be a toddling baby again, but I can always see her as such in the kodak pictures we made years ago. You can't afford to be without an Eastman Kodak. **STOP THE WASTE**  
25,000,000 pieces of mail annually are delayed or not delivered at all, because they are incorrectly addressed or improperly packed, according to information given out by the First Assistant Post Master General, Jno. H. Bartlett, of Washington, D. C.  
"The postal authorities call our attention to the fact that there are 25,000,000 pieces of mail that they must handle from three to seven times oftener than they would have to handle them if they had been properly prepared.  
And even after they have exhausted every means of identification and salvage they succeed in delivering only slightly more than one-fifth of that amount.  
And this does not include vast quantities of circulars and newspapers which are not properly addressed and which are destroyed because they cannot be delivered.  
In Chicago there is one building that is used as a storage place for mail of obvious value and for mail of first class which cannot be delivered. Twice a year the contents are auctioned off, because there is no way of finding the owners. In this building are bins of shoes, quantities of clothing, dress goods, automobile parts and tires, sporting goods, suit cases—everything from a bird cage to a mouse trap. These are lost both to the one that sent them and the one who should receive them because somebody was careless in tying a knot, or put on a defective address.  
Nearly 300 employees are engaged in correcting the common preventable errors of the people. The only reason the post office can stand this drain of carelessness upon its resources is that the people pay the bill.  
There ought to be a general campaign of education with the object of impressing the people the importance of properly preparing and addressing anything they put into the mail box.  
Another waste caused by sheer thoughtfulness, arises from the custom of many business houses holding their mail until the close of the day, when they release it to the post office in a perfect deluge. All day canceling machines, distributing cases and the other facilities for handling mail lie practically idle, and just after 5 p. m., they are taxed to their capacity. If people would simply change their mailing habits to the extent of depositing their mail even two hours earlier than they do at present, it would revolutionize the Postal Service.  
This article is written in the hope that many people will adopt the idea of paying better attention to their mailing matter.  
Much of the criticism leveled at the post office is due to the carelessness of the general public.

The Oliver Nos. 16 and 17 are two wheel listers equipped to plant corn, cotton, peanuts and other row crops. True running bottoms characterize these Oliver listers insuring smooth and even furrows. The frame is sufficiently strong to withstand all stresses to which a lister is subjected.  
Accuracy of planting is obtained by use of a seeding attachment that will not skip or bunch the seed. The seeding mechanism is driven by a chain operating from the main axle.  
Dependable, accurate listing is assured with Oliver equipment.

A Word to the Borrower

IF you are a borrow of this paper, don't you think it is an injustice to the man who is paying for it? He may be looking for it at this very moment. Make it a regular visitor to your home. The subscription price is an investment that will pay you well.

Mr. Merchant You Need the Newspaper

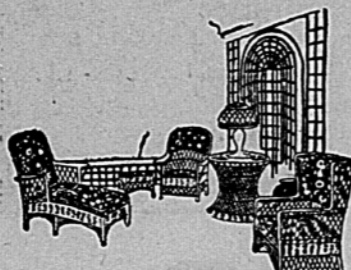

The newspaper of today is the most powerful medium of advertising on earth. In the old days the merchant may have thought he was a benefactor and that he was contributing his bit "as a public-spirited citizen" when he carried a two-inch space in the village paper every week in the year and generally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People read advertisements. Many find their greatest interest in looking over the advertising pages to get news that will save the money, and take it from John D. Rockefeller, the way to save your dollars is first to save your pennies. Advertisements today are right up to the minute. They are as fresh as the news of the world or the latest baseball score. Live merchants cater to live people and they know they must not alone be up to the minute, but they must be some distance ahead. They must anticipate the wants of their customers.

And they do. Turn to the advertisements in this paper right now. Just read what each one is offering. Notice the invitations for you to do business with them.

Business men—that is the successful ones—know advertising pays big returns. Unsuccessful men don't advertise because they are unsuccessful. That's the answer. Look over the town right now and pick out the big firms. Advertising is the tonic that puts dividends in the banks.

Everybody reads advertisements today. Mr. Merchant's is your advertisement in this paper?

**Why Freight Rates Cannot Be Reduced Railroads Under Public Control**

Transportation Charges Must Stay Up Until Costs Come Down, President Storey of the Santa Fe Explains

United States Senator Capper, through his various publications, has been demanding a reduction of freight rates; but his attitude on the general subject of railroads has not blinded him to the main facts about government control, which have been clearly presented in the following editorial from one of his papers, the Topeka Daily Capital:

"The railroad cannot fix its own rates and charges.  
 "It cannot name the wages it will pay.  
 "It cannot enter into combinations and deals.  
 "It cannot shut down when business goes to the bad.  
 "It cannot buy or sell a railroad system.  
 "It cannot make capitalistic profits and dividends.  
 "It cannot even determine how much capital it shall issue on its property, or issue any without previous approval of the public.  
 "It is, in fact, an agency of the public, controlled completely by the government."

The fact is, rates cannot be reduced unless costs are reduced. Costs cannot be reduced so long as the present scale of wages and the prices of fuel, materials and other supplies are maintained, and in these matters the hands of the Santa Fe are tied.

What is particularly needed at this time is better transportation service, more cars, locomotives, and other facilities necessary for moving the business, and the Santa Fe is doing everything in its power to provide these.

W. B. STOREY, President,  
 The Atchison, Topeka and Santa Fe Railway System.

### LADY WAS IN A BAD FIX FROM NERVOUS INDIGESTION

Biloxi, Miss.—"I had, for a year or more, nervous indigestion, or some form of stomach trouble," says Mrs. Alonzo Ford, 1117 Clay Street, this city. "The water I drank at that time seemed to constipate me. I would suffer until I got so nervous I wanted to get down on the floor and roll. I felt like I could tear my clothes.

"Every night, and night after night, I had to take something for a laxative, and it had to be kept up nightly. My side would pain. I looked awful. My skin was sallow and seemed spotted. I would look at my hands and arms, and the flesh looked lifeless.

"I happened to get a Birthday Almanac, so I told my husband I would try the Black-Draught, which I did. I took a few big doses. I felt much better. My liver acted well. I made a good, warm tea and drank it that way. Soon I found

that nervous, tight feeling was going, as was the pain in my side. I found I did not have to take it every night. Soon, after a few weeks, I could leave it off for a week or so, and I did not suffer with constipation. . . I gained flesh. I have a good color, and believe it was a stubborn liver, and that Black-Draught did the work.

"I went to my mother's (Mrs. Deeters) one day, and she wasn't well at all. . . I told her we'd try Black-Draught. We did, and now she keeps it to take after eating. It certainly helped her, and we neither will be without it in our homes. It is so simple, and the dose can be regulated as the case may be. We use small doses after meals for indigestion, and larger doses for headache or bad liver."

Theford's Black-Draught liver medicine is for sale everywhere.

### A Farm Without a Culti-Packer is Losing Money

RED BABY—SERVICE

THE LOWER THE PRICES OF FARM PRODUCTS—THE GREATER THE NEED FOR REDUCING THE COST OF PRODUCING THEM. THIS IS A SELF-EVIDENT FACT. AND IT IS FOR THIS REASON YOU NEED THE CULTI-PACKER NOW MORE THAN EVER BEFORE. THE DUNHAM CULTI-PACKER MAKES PROFITS MORE CERTAIN IN TWO DISTINCT WAYS. FIRST, IT GREATLY REDUCES THE COST OF PREPARING THE SEED BED WHICH HAS ALWAYS BEEN A BIG FACTOR IN THE TOTAL COST OF GROWING CROPS. AND SECOND, IT HAS BEEN PROVED BEYOND DOUBT BY CULTI-PACKER USERS IN THIS LOCALITY THAT CULTI-PACKING GROWING CROPS ALWAYS SHOW A MARKED INCREASE IN THE YIELD PER ACRE. NO FARMER IS PROPERLY EQUIPPED FOR LOW-COST PRODUCTION OR FOR MAXIMUM YIELD IF HE DOES NOT USE A CULTI-PACKER. THERE ARE TIMES WHEN A DUNHAM CULTI-PACKER MAY EASILY MEAN THE DIFFERENCE BETWEEN A FAIR PROFIT OR NO PROFIT AT ALL.

COME IN AND LET US SHOW YOU WHY THE DUNHAM CULTI-PACKER IS SO ESSENTIAL NOT ONLY ON SEED BED WORK, BUT FOR CULTIVATING SUCH CROPS AS WHEAT, OATS, ETC. WHICH CANNOT BE SUCCESSFULLY CULTIVATED WITH ANY OTHER MACHINE.
