## SUPERINTENDENT CAVENESS RE-ELECTED AT BOARD MEET

The school board of the Tahoka independent School District met last Thursday night and unanimously elected Superintendent H. P. Caveness as Superintendent of the Tahoka Public school for the next school year. The matter of selecting other members of the faculty was not gone into.

Mr. Caveness is now serving as superintendent for the fourth term, and the school has been most successful and proficient under his supervision. When he came to Tahoka four years ago this was a high school of the second class. It has been raised to a high school of the first class with full affiliation with the University of Texas. The present faculty is composed of seventeen teachers and there have been nearly 600 students enrolled this year.

The school board consists of the following: R. C. Wood, President; W. S. Anglin, Secretary; G. E. Lockhart, W. M. Lee, J. T. Bovell, H. E. Baldrige, and N. M. Bray.

## IRA DOAK SELLS BUSINESS

Ira Doak, doing business under the name of the Doak Motor Company, has sold his business here to Tom LeMond and S. J. Smith. This includes the agency for the Star and Durant cars. These gentlemen will continue the business in the same building which Mr. Doak occupied. They are most excellent gentlemen and their many friends here will be glad to see their business continually grow. Mr. Doak has not fully matured his plans at this writing. It is hoped that he and his good family will remain in Tahoka.

## CITY ELECTION NOTICE

By virtue of authority vested in me as mayor of the city of Tahoka, Texas, I hereby call an election to be held on April 1st, 1924, being the first Tuesday in April, for the purpose of electing two aldermen for said city.

G. W. Knoy is appointed judge of said election, who will appoint clerks and make due return to the city secretary.

Given under my hand and seal of office this the 3rd day of March A. D. 1924.

J. R. Singleton, Mayor City of Tahoka.

Attest: J. S. Weatherford, Secretary

## COTTON SEASON CLOSING TODAY WITH 7,637 BALES GINNED.

The last bale of cotton produced in the O'Donnell territory for the past season will be ginned today, the ginner announcing that they will not fire up again until the new crop comes in.

The total number of bales ginned to date, not including the final run today is 7,637. This is the greatest amount ever ginned here in one season.

The 1923 crop amounted to approximately 3,600 bales.

In 1921-22, 1900 bales were ginned. Thus it is shown that the crop has doubled each year. It is safe to estimate that the coming season will produce 25,000 bales for the O'Donnell territory.

Come to O'Donnell, the cotton town of the prairie. O'Donnell Index

## COMMITTEE MAKING AN EDUCATIONAL SURVEY OF LUBBOCK CO.

The committee of the educational survey of Texas has spent this week in Lubbock county's rural schools. The teachers sent to us were B. F. Fronabarger and Miss Adeline Lamb of the Department of Education of the Canyon Normal College.

Mr. Fronabarger spent only Monday and Tuesday here, then going to Crosby county. Miss Lamb spent the entire week here.

County Agent Eaton, Miss Mabel Marsh and Supt. Pevehouse, attended the inspectors over the county to the schools. The schools visited were Carlisle, Shallowater, Liberty, Lindsey, Wolfarth, Woodrow, Hardy, Acaff, New Hope, Posey and Grovesville.

We received many compliments on our teachers and pupils. We hope to make our schools better, by reason of the survey, Lubbock county people are always ready to do the things possible that make for improvement.

Lubbock Avalanche

## MRS BOYCE HATCHETT BUILDING ROOMING HOUSE

The old Methodist Church was razed to the ground last week, and upon its site Mrs. Boyce Hatchett is erecting a two story rooming house, 30 by 60 feet in dimensions, and containing 23 rooms.

A number of carpenters are busy on the new building and work will be rushed to completion. It will be remembered that Mrs. Hatchett purchased this building from the Methodist Church a few weeks ago. Most of the material in the old building is being used in the construction of the new. The building when completed will be a handsome structure and will materially relieve the situation here as to rooming and lodging places.

## EPIDEMIC RAGING AMONG LIVE STOCK

The News has received a communication from Dr. L. W. Kitchen, veterinarian, of Post, in which he states that there is a serious epidemic raging among live stock and he strongly advises vaccination. Dr. Kitchen's letter follows:

"Thought I had better advise you that there is a very serious epidemic raging throughout the country, and horses and mules are dying in bunches. This seems to be a complicated trouble, such as influenza, pneumonia (infectious), hemorrhagic septicemia. My advice to all is to have all the horses and mules in the community vaccinated and stop this loss, as there are new outbreaks every day. Have over two hundred dead ones in the past fifteen days and have vaccinated more than 1100 in the past thirty days, and that is the only known way to stop the loss. All dead animals should be burned or buried and covered with lime. Will appreciate you telling the people what they should do regarding this disease, through your paper. I am

Yours Very Truly,

L. W. Kitchen

## B. Y. P. U. PROGRAM

The following program will be rendered Sunday March 9:

Subject: Bible Study Meeting. Great Psalms: Ps. 195 and 85. He is Able to Deliver Thee. Leader: Alline Sullivan.

Introduction: Leader. z

1. Let us sing the songs of Zion, A. J. Minor.
2. A great experience set in song—Josie Walker.
3. Psalm 85, Gratitude for God's Deliverance—Evelyn Curry.
4. Praise for the past. Psalm 85: 1-3—Mrs. Hughes.
5. Prayer for the present. Psalm 85: 4-7—Gale Rhodes.
6. Hope for the future. Psalm 95: 8-13—Borden Davis.

## BOX SUPPER AT EDITH

There will be a box supper at Edith School House on Friday night, March 7. All candidates will be given an opportunity to make their announcements. The supper is given for the purpose of raising funds with which to purchase a piano for the Sunday School. A good time is promised and everybody invited.

## CARD OF THANKS

We wish to thank the business men of Tahoka and our neighbors and friends for the assistance rendered us on account of the loss of our residence by fire. We shall ever remember and appreciate their great kindness. Mr. and Mrs. C. T. Tankersly

## FARMER SUBSCRIBES FOR HIS PAPER 72 YEARS IN ADVANCE

Alto, Feb. 27—Joe Barnes of Magnet when he recently visited the city, paid a visit to the Alto Herald owned by F. L. Weimar. Barnes ordered his subscription extended from 1924 to 1996 at the rate of \$1.50 a year. The total amount paid was \$108 for 72 years. Barnes says he likes the "home paper" and asks Weimar to "keep 'er comin'." Weimar says he will if he lives that long.

Barnes says: "I want to read every copy I have coming to me."

The Herald has another subscription paid up to 1935. The 1996 subscription is believed to be a state or national record.

Mr. Mahon, a senior law student in the University of Texas, was here this week visiting his wife, who is a teacher in the city school.

## CORNER STONE OF NEW METHODIST CHURCH TO BE LAID NEXT SUNDAY

The laying of the corner stone of the new Methodist Church, with appropriate ceremonies, will take place next Sunday afternoon at 3 o'clock. Dr. J. W. Hunt, President of McMurray College of Abilene, will make the address of the occasion. Dr. Hunt is an orator and humorist of wonderful ability, and the News feels safe in predicting that his address on this occasion will be most interesting and entertaining. He is well known over the plains and has many acquaintances in Tahoka, who will be delighted to learn that he has been selected as the orator of this occasion.

This will be a happy hour in the life of Rev. J. T. Howell, the pastor, and in the lives of the members of the church. It will also mark an epoch in the history of our little city, it is hoped, in that it may mean the beginning of a religious awakening and religious activity such as the town has not experienced in many years.

Everybody should witness the ceremonies and hear the address of Dr. Hunt next Sunday afternoon.

## SCHOOL CENSUS BEING TAKEN

J. S. Weatherford has been selected as census enumerator for the Tahoka Independent School District and is already at work on the job.

The enumeration must be completed by the last of the month. Every person in the district who is interested in good school should render him every assistance possible, so that no child within the school age residing in the district may be overlooked. There are many new comers and it is possible that some may be missed. It is thought that the scholastic census will show a wonderful increase over last year.

## TAHOKA SCHOOL CLASS VISITS LUBBOCK

Prof. J. A. Stark, teacher of vocational agriculture in the Tahoka high school, was in Lubbock Wednesday with twenty four boys, all of whom are members of the animal husbandry class which is instructed by Mr. Stark.

The class was taken to the stock pens near Lubbock where they spent most of the morning judging livestock, then went to the state agricultural farm east of Lubbock where they were given a great deal of first hand information concerning farming on the plains.

That the management of the farm was delighted to have these young men visit the place was shown when each of them received two shade trees, having been given choice of black locust, American elm and hackberry. All of these trees will be planted on the grounds of the Tahoka high school, and each boy receiving them accepts the responsibility of planting and caring for them. That this thoughtful gift from the management of the farm will be appreciated by all of Tahoka as well as the members of the animal husbandry class is assured.

The vocational agriculture department was not created in the Tahoka school until this year, and Prof. Stark and his boys are bending every effort to prove it a success, which they will do if energy and hard work mean anything in making a success of this department.

The members of the class who visited the agricultural station and received trees are: Loyd Nowlin, P. A. Nowlin, Temple Brashear, Clinton Sikes, Goddard Edwards, Barney Davis, Sherman Davis, Leo Floyd, Sam Floyd, Roy Cowan, Lee Roy Knight, Jess Key, Frank Larkin, Charles Nelms, Robert Noble, J. B. Walker Jr., Fred Smith, Tom Short, W. T. Bovell, Ovid Donaldson, Wayne Burckhart.

## Lubbock Avalanche

Bennie Page of Clyde is here this week visiting relatives. He also visited his brother C. E. Page at O'Donnell and other relatives at Brownfield. Mr. Page expressed himself as being delighted with this country. Clyde is in the heart of a great fruit section and he reports the fruit prospects there as very fine thus far.

F. G. Powell of Lamesa, now employed in the maintenance department of the state highway commission, was here Tuesday conferring with Judge Elliot about road matter.

## BOOST FOR YOUR HOME TOWN!

## RANCHMAN SENTENCED TO PEN FOR FIVE YEARS FOR PRO-LAW VIOLATION AT LUBBOCK

Herman Bachman of near Posey, was convicted on a charge of violating the prohibition laws in the 72nd Judicial District Court here Friday and was given a sentence of five years in the state penitentiary.

Fred C. Pearce, attorney for the defendant, has prepared a motion for new trial was filed with the District Clerk Saturday afternoon, and will be acted upon at the next regular term of District Court here.

Deputy Sheriffs Tom Abel and Kelly were the principal State's witnesses, they having arrested Bachman at his farm near Posey on the morning of July 17th last year. Ten quarts of whiskey which tested 44.75 per cent alcohol and a still which the defendant admitted having made with his own hands, were exhibited by State's attorneys during the trial. Bachman has a wife and three children, all of whom attended the trial. The youngest child is a baby about six or eight months old.

The defendant, through his attorney, attempted to prove that he manufactured the liquor for medical purposes for his wife.

This case closed the regular January term of district court, which had been in session six weeks.

All day Saturday was spent by the court hearing motions for new trials, and completing other unfinished business of the term.

District Judge Clark M. Mullican will leave for Tahoka today where he will conduct district court there for a two weeks term, and will hold court continuously in some of the several counties in his district until April 28th., when another term will commence here.

## Lubbock Avalanche

## C. M. T. C. CAMPS THIS YEAR IN AUGUST

Plans and Preparations made to Care for 3100 Young Men

The necessary preparations to insure the success of the four Citizens' Military Training Camps to be held this summer in the 8th Corps Area have been completed. It is believed from the careful attention given to every detail that the Camps this year will be the best ever held in this Corps Area.

From August 1st to 31st four Citizens Military Training Camps are to be held in this Corps Area, one at Fort Sam Houston, Texas, one at Fort Sill, Oklahoma, one at Fort Logan, Colorado and one at Fort Huachuca, Arizona.

Provisions has been made for 3100 students to receive the splendid training to be given at these Camps, this large number to be drawn from applicants from the States of Texas, Oklahoma, Colorado, Arizona and New Mexico, and each State having a certain quota based upon population. This will give every live wide-awake young man between the ages of 17 and 24 an opportunity to gain admittance to the camps.

The Government will as usual, pay all transportation expenses and all other necessary expenses from the time the student starts to camp until he returns home, including the issuing of a complete uniform and first class standard equipment.

It is the intention this year as in the past, to show the public by actual demonstration that camp instruction of the kind contemplated will be the liking of the young men, will develop them, physically, mentally and morally and will teach Americanism in the true sense.

Much attention will be given to athletes and the Army's best coaches will be detailed to the Camps. The general all around system of physical trainings has been indorsed by the leading athletes of the country in all branches of sport and every young man should avail himself of this wonderful opportunity to take this training.

Applications should be sent in early to 1st Lt. J. A. Gilruth, C. M. T. C. Officer, Fort Sam Houston, Texas to insure gaining a place in the camps. These Camps are the Citizens, own and any information desired will be promptly given upon request.

Very truly yours, J. A. Gilruth, C. M. T. C. Officer

Dick Harbin of Lamesa, traveling salesman for McCord Bros., was in Tahoka Monday greeting friends.

## PLANT A TREE!

## TAHOKA PRODUCE COMPANY BUILDS NEW STRUCTURE BUSINESS GROWING

Business of the Tahoka Produce Co., organized only a year ago and from the beginning under the efficient management of Mr. B. M. Robinson, has increased to such extent that the old quarters have been outgrown and the company is erecting a new building immediately west of the Hi-way Garage. The new structure will be a 24 by 60 frame, facing south, and costing about \$600.

The growth of this concern attests the growth of the produce production of Lynn county. Mr. Robinson states that before Christmas there had been shipped approximately 90,000 pounds of turkeys and 65,000 pounds of chickens. Since the first of the year shipments of chickens have averaged five to six thousand pounds per month.

## EFREM ZIMBALIST TO VISIT LUBBOCK

Miss Dunn of Lubbock, voice and piano teacher, was here Saturday in the interest of the Spring Music Festival to be held in the High School Auditorium at Lubbock, under the auspices of the South Plains Music Teachers' Association, on March 19-20.

The big feature of the program will be the appearance of Efrem Zimbalist, perhaps the world's great violinist, on the evening of the 19th. The entire program, however, will be of the highest type. No doubt many lovers of high class music in Tahoka will hear this program.

Miss Inez Wright, teacher of music in the Tahoka High School, will have tickets to supply the local demand.

## MRS. HARRIS RECOVERING FROM OPERATION

Mr. and Mrs. Harris returned Saturday morning from Temple, to which place they went several weeks ago in order that Mrs. Harris might undergo an operation in the Scott & White Sanitarium. The operation was performed on February 9, since which time Mrs. Harris has been steadily improving. Her condition was so improved that they were able to return home Saturday and it is thought that she will be entirely well within a short time. The many friends here are rejoiced at her recovery.

## WHEAT GROWERS PLAN 1924 CROP CONTROL

AMARILLO, Texas, March—(Special.)—Control of the wheat acreage in Texas by the time the 1924 crop is harvested is the aim of the Texas Wheat Growers' association according to L. Gough, president, who announced the beginning of the "Control Campaign" of the organization.

The organization in 1923 handled 1,250,000 bushels of wheat and expects to handle 5,000,000 this season, if the plans of the present campaign work out.

wheat in Texas are now members of the pooling organization, it was announced. This is an increase of nearly three thousand during the past year.

Speakers of national prominence will be brought to the wheat belt during the membership campaign. These will be secured through the national wheat growers' advisory committee at Chicago.

## R. C. WOOD ANNOUNCES FOR RE-ELECTION

R. C. Wood has authorized the News to place his name in its announcement column this week as a candidate for re-election to the office of public weigher for precinct No. 1.

Mr. Wood needs no introduction nor words of commendation from us. He is well known to practically every voter in the precinct. He is the only man who has ever held this office in Tahoka. He was appointed to the position by the commissioners' court back in 1916. Except for two years when Tahoka had no public weigher, he has filled the office by election ever since. That he has filled it well is generally conceded. Thoroughly capable and attentive to his duties, he has given little or no cause for complaint, and we have heard none. He promises, if re-elected, to give the same faithful and efficient service in the future that he has given in the past. "I am running on my record of service", he stated to the News man, "I have no other platform."

Mr. Wood has numerous friends in the precinct who will rally to his support.

**T. H. S. WEEKLY ROUNDUP**  
MARY LINK, Editor

**Chapel Exercises**

On Monday morning we met for chapel in the auditorium, and were very much pleased to have with us Mr. Johnson, the pastor of the Presbyterian church.

We all sang "America, the Beautiful", and this was followed by prayer by Mr. Johnson.

Mr. Johnson read several verses from the fifth chapter of Matthew, or more familiarly known as "The Sermon on the Mount". Men, women, and children were compared to "the salt of the earth" and "light". We learned from this lesson that we must always do our work, or we would lose our strength and our savor.

Mr. Johnson admonished the school girls and boys to see their rows clean now so that we would not be compelled to go back in the later life and try to clean them, for then it would be impossible to do so.

Toward the end of the lecture Mr. Johnson told us what kind of a boy he would be if he could live his life over. First, he would be a good-looking boy, handsome, a giant physically, morally, and intellectually, and last, a Christian boy. Second, he would be industrious and study hard. Third, he would be ambitious and not sit down and say, "I ain't nobody, never was nobody, and I ain't going to be anybody," but press ever onward toward a goal. Mr. Johnson used the example of Cyrus and the boy he found on the battlefield as an example of this. Cyrus promised the boy his scepter, his chariot, his crown, and his throne, if the boy would work hard while Cyrus was away. But when Cyrus died the boy had done nothing, thereby losing the promised gifts. We were admonished not to be like this boy, but to strive always for the best.

This lecture was highly appreciated by all, and we sincerely hope to have Mr. Johnson with us again soon.

Exercises closed by singing "Onward Christian Soldiers".

**Annual Announcement**

The last order for the High School Annual, "The Sky-Line", is now ready to be sent to the printer, and all those wishing an annual phone or see Chas. N. Nelms, business manager.

**Seniors**

The seniors are the busiest ever. Why? They're beginning on the play, the leading parts have been selected and we're going to make it a success!

We are proud of our agriculture boys. Ten of the boys are working toward making a fine stock-judging team. Last Saturday they visited the Boles ranch at Lubbock and report a successful trip and an enjoyable one. We hope the trees they so industriously planted will thrive, we intend helping them to do so by tending them this summer and completely leaving them alone at present.

Our school is excited over the new project on hand. We are divided into two opposing sides for the purpose of selling "Country Gentleman" papers. We sincerely pity the side that sells the less subscriptions -- probably they

Home economics is progressing nicely. House plans and rompers are well have to entertain, and wash dishes afterward, as well.

flourishing amazingly well.

Arithmetic grows more engrossing, and hard! But, may be we will master it after while.

The agriculture play, superintended by Mr. Stark, is under way. It is rumored for presentation in a few weeks. We hope that it will come up to our wildest expectations, as its promises are fair of doing so.

**Juniors**

Although March has arrived, and with it the inevitable sandstorm, it has not kept the Juniors from attending school, for each student may be seen at the accustomed desk, as usual.

We Juniors had quite an interesting History lesson during the first part of the week, for we were studying the Reconstruction, and with, of course the original Ku Klux Klan. The students were asked to prepare reports upon "The Original Ku Klux Klan" and "The Modern Ku Klux Klan". Some very interesting papers were prepared upon each of these subjects.

Last Friday, by way of a change, we had an "old-fashioned spelling match", after we had finished our Geometry lesson. Jack Link and Sam Floyd were captains of the two divisions. The division of which Sam was the captain was the winner.

During the past week the Domestic Science class has been engaged in making dainty gingham dresses and rompers for the "wee tot".

The Spanish class are now preparing a Spanish newspaper. Jack Link, the editor, is writing the editorials, Leola Shelton is the Society editor, and the Sophomore class are preparing the comic page and the Lost and Found column.

**Sophomores**

The Sophomores wish to thank the whole school for the appreciation that was manifested when we presented our small gift to the Auditorium, Thursday morning.

The cooking class is getting down to business now. The girls have planned to prepare and serve a dainty breakfast, every morning, for several days. Think of eating breakfast at eleven-thirty!

Since our treasurer, Roy Davis, has resigned, Sybil Tarrance has been elected to fill his place. We are quite sure that she will make a splendid treasurer, although, judging from Roy's reports on the subject, it is a rather difficult job.

Temple looked up quite innocently Friday and said, "There sure was an awful fight at our house the other day". Of course every one became interested at once. "The cat licked his paw", he concluded.

**WINDMILL WORK**  
OF ALL KINDS

Slushing of wells and plumbing a specialty. All work guaranteed

**MIKE REDWINE LINDSEY & MASSINGALE**  
Phone No. 136

Mrs. Tunnell: Paul, what is "velocity"?  
Paul: Velocity is what a fellow lets go of a bee with.

**The Freshman Class**  
Mr. Carmack was absent from his classes last Friday afternoon on account of illness.

Mr. Peebles suffered a terrible disappointment Monday when the class failed to know their History lesson. This has happened several times in the past, however, and we hope it will not hurt very much. The boys of the room fail to show an interest in the work, for they are absent most of the time.

We are very proud of our "little Lee Roy", for he has learned to say one poem perfectly. Come on, Lee Roy.

**GRASSLAND GLIMPSES**

(Received too late for publication last week)

Several Grassland people attended the funeral of Reverend Oden held Sunday in Post.

Those on the "visitor list" to the Grassland school recently included the following: W. D. Smith, Violet Williamson, Charley Bullock, Mr. and Mrs. Warrick, Mr. and Mrs. Chapman, Mrs. Burkhalter, Mr. and Mrs. McCord

Mrs. Greer, Mrs. J. C. Waller. Visitors in the G. C. Terry home Sunday were the J. A. Hollon family of Graham Chapel.

The measles is a very popular thing to possess. We have been told that "A fool and his money is easy to part." Such is not the case with the said measles.

Rev. Hipps is leading a stirring revival in the local church. Every one is invited to attend.

Several Lynn community people attended church services Sunday in Grassland.

Mr. and Mrs. J. J. Lowrie were business visitors last week-end in Lubbock

**CASTLES IN SPAIN**

Oh, the myriad castles that glisten in Spain  
Constructed of purest of gold;  
Bestudded with diamonds from entrance to main;

With insets of jewels untold;  
Yes, sapphires and rubies, topazes, pearls,  
Adorneth each glittering domain!

Oh, stately magnificence, wonder of worlds;  
Grand castles are these--but in Spain!

But what mean little hovels where dwelleth our souls,

Crude workmanship, so incomplete! Though long we have builded, what narrowness holds  
The All that we are in defeat!

From the land of the commonplace things that we do,  
Impatient, Oh, fain would we flee  
To those wonderful mansions we build so true,

In the realm of our dreams, burden-free.

Had each good intention in the ages ago,  
Blessed the world with maturity;  
Had each deed of valor in the hearts of men born,

Graced the annals of Time's history;  
Had each pulsating heart-throb e'er found a response,

Oh, then what a joyous refrain  
Might the world then be singing, and Oh, then, perchance

We had dwelt in our castles in Spain.

And indeed we have only to flee our confines,  
For out yonder in God's broad expanse

We can break every shackle and fetter that binds  
And barrier that bars our advance;

And the highways lead on to those castles of gold,

# Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

QUICK SNAKES

"The keeper says we're very quick," said Bobby Blacksnake.  
"The keeper says we're very quick, too," said Roland Rattlesnake.  
"The keeper says that all snakes are quick," said Clement Copperhead. "He says that, hiss, hiss, he says that."  
"Well, if we were free and not in the zoo I suppose we would be thinking about going to sleep soon," said Bobby.  
"Yes," said Roland, "I've heard the visitors here at the zoo telling of the sharp, cold weather that is coming on apace."  
"What do you mean when you say that the sharp, cold weather is coming on apace?" asked Bobby.  
"You know what sharp, cold weather is, don't you?" asked Roland.  
"Yes, hiss, hiss," said Bobby, "of course I know what it is."  
"Then it is the word apace that bothers you, is it?" asked Roland.  
"That is the bothersome word," said Bobby.  
"When I said that the sharp, cold weather was coming on apace, or rather when I said that the people who have been coming to the zoo lately, have said so, I meant and they meant or they meant and I meant (whichever way you want to put it) that it was coming on quickly."  
"When the sharp, cold weather comes on apace it comes on with a goody rush and big cold strides and enormous cold steps!"  
"Ah, I see, hiss, hiss," said Bobby.  
"They never find snakes wandering away from their dens when it is au-

turn time. When the spring has come and we're just awaking we're thinking about leaving—but we're still about the dens," said Roland.  
"True, true," said Clement, "every word you hiss is quite, quite true."  
"I am as quick as a snake could be," said Roland.  
"Well, not quite as quick as a snake could be," said Bobby, "for, after all, you were caught and brought to the zoo."  
"So were you," said Roland.  
"So were all of us, for that matter," said Clement.  
"It is really funny, it is really a joke, hiss, hiss," laughed Roland as he squirmed about, "how we have all talked about our quickness."  
"Why?" asked Bobby.  
"Well, it is quite true that none of us were so quick that we weren't caught and brought here to the zoo," Roland hissed, and wriggled with amusement.  
"Of course," said Bobby, "that is true, but then we are naturally very quick, only the keeper and his friends who caught us for the zoo were even quicker. We led them a good song and dance, though."  
"We don't sing and we don't dance," said Roland.  
"But we hiss and we wriggle, and it's about the same," said Bobby.  
"Yes, we're quick but the keeper of this zoo was quicker than any of us," Bobby laughed. "Some of our relatives were not caught."  
"They went wandering off in the parts where they did not think they would see many people. They're none too fond of people."  
"People are none too fond of them," said Clement. "I've heard our keeper say that he has gone and taken all the snakes away from a certain den in the neighborhood because the people have written frightened letters to him."  
"People are none too fond of any of us. But every spring the keepers of the zoo come for members of our family."  
"Yes, and I'm glad we're here, we've been very happy here. If we had been free we might have been killed. The keepers catch us and keep us with care and kindness and feed us well and give us warmth."  
"Oh, snakes are not very popular. It is nice to be in a zoo where the keepers think you're nice."  
"And," said Roland, "it is wonderful to hear the beauty of the Rattlesnakes praised by our special owner and keeper. Ah, there is a man who appreciates Rattlesnake beauty and the gorgeous colors we wear!"

"It is Really Funny."

What Anatomy is.  
A little school girl, down in Florida, in answer to this question, wrote the following:  
"Anatomy is a human body. It is divided into three parts, the head, the chest and the stummick. The head holds the skull and the brains if they is any, the chest holds the liver and the lites, and the stummick holds the entrails and the vowels which are a, e, i, o and u and sometimes w and y."

# WHY Americans Are Not Likely to Drop the Word "Hello"

A cheering, rollicking word is "Hello," and it is thoroughly American in its origin and use. It has no exact counterpart in any other language so far as we can learn. To be sure the purists have tried to dissuade us from its use, particularly in our daily telephone conversation. But the word somehow sticks. When the Britons pick up their telephone receivers they call into the mouthpiece of the transmitter, "Are you there?" And this never fails to tickle the risibilities of the average American. Picture Jones calling you up in the morning, saying, "Are you there?" and picture yourself in turn replying, "I am here." No, it is a picture no American can paint. Good old "Hello" is his word.  
There is something friendly in it. It has a merry ring and is a mighty good beginning for the voice with a smile which common sense advises us to adopt at all times. It is a word of infinite possibilities. A cheery "Hello" at the beginning of a day lends a flavor that lasts many hours. A sincere "Hello" from the lips of a child makes us glad. From a real friend it carries heartiest good wishes. "How do you do?" is impersonal and does not serve as a typical American salutation. "Hello" just fills the bill.—Portland Express.

# Dull, Sluggish Feeling

"BLACK-DRAUGHT is our household stand-by," says Mrs. Thomas H. Kell, who lives near Ellijay, Ga. "We have been using it years and years. My mother's family used it and we do here and my four sisters do, too."  
"I could not run my house without Black-Draught. I give it to the children whenever they need a purgative, and both Mr. Kell and myself take it. As a medicine for sluggish liver and headache, and the ills that come with constipation, Black-Draught is fine."  
"Lots of times I have felt dull and sluggish, my head would ache and I had to make a great effort to do my work. A little dose of Black-Draught would correct this feeling. We always keep it on the medicine shelf."  
Be sure that you get Theford's, the old, reliable Black-Draught powdered herb liver medicine. At all dealers.

Foreign Advertising Representatives: THE AMERICAN PRESS ASSOCIATION

**NOTICE TO THE PUBLIC**

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to the attention of the editor.

One year from now, five years from now, fifty years from now, you will be glad you planted a tree.

The peach blossoms are in bloom. Springtime is at the door. Let's go a-fishing.

Lynn county ought to begin to get ready to send an exhibit to the Dallas Fair next fall. She can deliver the goods. Fine advertising. Why not?

If your friend back east is not satisfied and wants to move invite him to come out to Lynn county and take a look. One sight of the plains has been a revelation to many a man.

Come to Lynn county, the land of grape vines and berries. Not much truth in that appellation, you think? Not as much as there will be some day. But both grapes and berries are still there. Still some vines ought to have a vineyard and a berry patch. Why not?

That gentle little breeze from the west Monday just served to remind us that we are in west Texas. There must have been a lot of New Mexico sand in the atmosphere, however. Where it was bound for and where it landed, we have no idea, but we are sure it was o its way. Still west Texas is the greatest country and has the finest climate in the world; at least, to a west Texan. We are glad we are here.

The official who would accept a bribe is as much to be despised as Benedict Arnold. The man who would offer a bribe to an official ought to be regarded as an enemy to his country. Let the white light of publicity be turned on every one suspected of wrong doing at Washington. Let the guilty be punished and the innocent vindicated. This applies to Republicans and Democrats alike. A Democratic traitor is no better than a Republican traitor. Let us lash the rascals from power.

Judge Mullican made a few observations in charging the grand jury Monday morning that many of us need to ponder. "Our laws may not be perfect but they are perhaps as good as could have been devised. They have come out of the experiences of men from generation to generation. I am proud of our system of government. I am proud of our state government." After having heard so much criticism, -criticism of our courts, criticism of the officers, criticism of the legislature, criticism of the government, criticism of every thing and everybody by everybody, - it is refreshing again to hear a Judge on the Bench call attention to the fact - for it is a fact - that we are today living under the best and greatest government that has ever been devised by the wisdom and genius of man. It is right and wise that we should be strict accounting those who are selected to administer our laws, but we can criticize our government, our courts, our officials, our laws, and all people have little respect for either. Less criticism of the courts of the country and less criticism of our government, more words of commendation and praise, are needed in Texas and in all America today. Like Judge Mullican, we are proud of the government, state and national, under which we live.

**FIRE ON LAST FRIDAY NIGHT DESTROYS CAR SHED**

On last Friday night the fire alarm told of a fire in an outhouse or garage where Olie O'neal had had some negro help living but they had moved practically out of the house and one Tahoka negro visiting the town became overjoyful and some friends located him in this house. It is supposed that he was smoking and sat the bedding on fire as the mattress burned first. He was so drunk they had to haul him out of the house and nearly out of the fire. Deputy sheriff Merrick escorted him to the city and county hotel where he enjoyed the night we suppose hugely. There are too many idle negroes here at present. It is high time there was a thinning of loafing negroes. This one has burned up a house and when some terrible tragedy occurs, then there will be three fourths of the population that will be ready to chase the negroes out of the country. Better get rid of this idle element if you want your negroes to stay it might surprise you to hear the opinion since this fire about the negro population. -And Mr. Lynn County News we want your coons at home if they are going to come down here and get tumbled up and set the town afire.

The fire boys did good work after they had located a plug. These plugs painted the color they are they tell us are hard to find at night. -Lamesa Reporter.

The above news story appeared in the Lamesa Reporter of recent date and for the fear that it might escape the attention of the editor of this paper, Brother Smith ran a big lead pencil mark all way around the article and then mailed the marked copy to us.

We will admit, Brother Smith that this was a regrettable occurrence, regrettable that the car shed was burned and regrettable that this Tahoka negro got teased up on some kind of Lamesa corn juice or other concoction. We regret to Brother Smith that this Tahoka coon ever went to Lamesa. We

don't see why he did it. Just why any human would leave a nice little city like Tahoka and take up his abode even for a night in an old car shed in Lamesa is more than we can comprehend. But, Brother Smith, we don't know how to go about keeping this prodigal nigger at home. Away back about 1860 the U. S. government passed what was known as "the fugitive slave law", and several of the southern states had similar laws operative within their limits. Now, if these laws were still in effect, we would know how to keep our Tahoka niggers in Tahoka. But the Republican party, the party with which we understand that you affiliate, Brother Smith, the Republican party put these laws out of commission a long time ago. A little unpleasantness arose between the North and the South along about 1860 and continued about four years, and when the thing was over the Tahoka nigger and every other kind of nigger had a right to go any dad-rotted place he pleased. That is known in history as the Civil War, Brother Smith. And say, didn't you know the war was over? By the way, come up to Tahoka and take a spin around over our paved streets, Brother Smith, and perhaps you will like us better.

Mr. and Mrs. R. B. Haynes made a business trip to Levelland, county seat of Hockley county, on last Saturday. Mr. Haynes reports that he found a lot of unoccupied space in that section. The land is excellent, however and it is only a matter of time until it will be thickly populated.

**T-BAR TOPICS**

There are still plenty of measles in the community but most cases are improving.

The Draw Boys and girls came over and played the T-Bar boys and girls two basket ball games recently. The Draw constants were winners in both games. T-Bar has the tenacity to hold on, though. She has not given up yet.

Rev. Belcher of O'Donnell preached at T-Bar Saturday night and Sunday. He will have a regular appointment every first Sunday hereafter.

Rev. H. L. and R. B. Braswell of the Nazarene faith are holding a series of meetings at T-Bar at nights this week. The meetings will continue throughout the week.

The American Legion, we are informed, will have a box supper or pi supper at Wells school house on the night of March 14.

There will be a pie supper at T-Bar on Friday night, March 14, to raise money to finish paying for a piano for the community. All county candidates will be allowed time to make their announcements. Tahoka and O'Donnell are cordially invited to be well represented.

The T-Bar literary society will meet again on Friday night, March 28. An interesting program will be rendered. Everybody cordially invited.

Charley Thompson accompanied his wife to Cheyenne, Okla., last week, where she is visiting relatives. He returned home Sunday.

**BOOST FOR YOUR HOME TOWN!**

Rambling Kid

About the time it was expected that the great influx of prospective farmers and business men would cease, the run to this country has just started, according to Mr. Brown, proprietor of the O'Donnell Hotel. He says that the demand the past two weeks for accommodations at his hotel had been greater than at any time this winter. With every room full each night, he throws the lobby open to the overflow, paying a man to keep the fire going for their comfort. He says O'Donnell's greatest need is hotel of sufficient capacity to meet the demands.

**O'Donnell Index**

**JOE BAILEY JOLTS**

Everybody is rejoicing over the fine weather we're having at present, and most all farmers are busy preparing their land for another good crop in Lynn county.

Mr. A. L. Deakin and Uncle Edd Brewer made a flying trip to O'Donnell Friday.

We're sorry to say Joe Bailey school has had to stop on account of so many

DIXIE DOTS

March has come and old sandstorms that are very disagreeable. It is almost here again. The singing every long till all the trees bloom, and the grass is all green.

MIDWAY MUSINGS

We regret very much to have Mrs. N. B. Hood on our sick list this week. Hope she will improve by next writing. Mr. Law, who is in our community improving his new home made a trip to Spur last week to visit home folks.

Cooledge, Limestone county, and friends of our fellow townsman J. K. Callaway, were here the first of the week prospecting. Mr. Lusk already owns a quarter of a section of land in the New Home community and it is hoped that these other gentlemen will yet make some investments in the best cotton county on the plains.

Geer was taken for a drive over town to view the great amount of building going on.

J. L. Allen, a cotton man of Sweetwater, had business in Tahoka Monday.

Mr. and Mrs. R. B. Haynes were visitors to Seagraves and Seminole Monday.

O'Donnell Index

STATE GAME WARDEN HERE

D. K. Taylor, State Game Warden, is here and dropped into the News office Wednesday to ask that we give warning against violations of the game laws. Mr. Taylor stated that he had placed money in one of the banks here to be paid as rewards for conviction of those killing birds, ducks or other game out of season. He expects to remain in this section indefinitely.

LIKES LYNN COUNTY

R. H. Turner returned recently from a trip to El Paso. "Business very dull out there" is the way he expressed it to the News man. "I came back mighty well pleased with Lynn county", he continued. "I went across the river into old Mexico but found about as many Mexicans on this side the river as the other. Don't care to live in that country. There are some fine irrigated farms there that I would like to own, but there are too many foreigners there to suit me. I'm mighty well pleased with Lynn county." And we fully agreed with him. Old Lynn is hard to beat.

L. O. Thompson, who has been at Houston employed as a sailor on a big freight steamer, returned to his home here Sunday.

J. A. Coughran is in El Paso this week on business.

POME

Ashes to ashes, Dust to dust, If it weren't for the Sophs Old Wilson would bust.

Mr. Willis: "With what does comedy deal?"

Roy Brown: "With love and other ridiculous things."

CHAMBER OF COMMERCE MEETS WITH ELECTRIC MAN.

L. S. Geer of Sweetwater, Manager of the Texas power and Light Co. was here Saturday and met the Chamber of Commerce in regard to the extension of an electric light and power line from Lamesa to this point. Mr. Geer made a straight-from-the-shoulder talk to those present emphasizing the fact that there was nothing worth while that did not cost something and to make a town grow the citizens must expend both energy and money. He asked that the city take 25 street lights in case his company decided to construct the line. To this Mayor Sanderson explained the present tax rate would not take care of the lights. Secretary Brown made a motion that the cost of the lights be taken care of by private subscription, which when left to the vote, carried unanimously.

Mr. Geer complimented those present for agreeing to take care of the cost of the street lights and stated that continued work in this direction would lift the town from the village class to that of a city.

The matter of constructing the line will be laid before the board of directors of his company, Mr. Geer said and their reply would be given by March 1st.

After the meeting adjourned Mr.

An added attraction was the girls' game. The scores ending 12 to 23 in Midway's favor. We compliment the South Ward girls for fast and clean playing.

Boys and girls also played on the ground. We did not learn the scores.

BUILD LUMBER YARD

Work on the Cicero Smith Lumber Yard is progressing rapidly, several cars of building material now being on the property recently purchased on the south side of the square. The site of the yard will occupy seven lots fronting the square and will extend two blocks south.

M. A. Brown has charge of the carpenter work in constructing the buildings and will remain as the local manager for the company. He will build a cottage for his home as soon as the yard buildings are completed.

O'Donnell Index

Judge John J. Ford of Sweetwater was here Monday representing a client in the district court. He was well pleased with the appearance of our little city.

HOW

SUGAR CANE IS BEING UTILIZED FOR ALCOHOL. The average yield of sugar from the Hawaiian islands. That crop, sugar cane, is not only able to supply all the domestic needs locally, but also enough surplus to make a world-wide export, should the price of gasoline rise much above its present level.

The manufacture of industrial alcohol from molasses is being developed in Hawaii according to an extensive report issued by H. D. Agre, director of the department of the Hawaiian Sugar Planters' Association, and W. L. McQuay, assistant sugar technologist of the same institution.

Domestic problems, they say, have been solved in a satisfactory way with respect to manufacturing both more alcohol and more molasses for domestic use purposes. But at the average price of gasoline and molasses for the last five years average production is not an inviting proposition.

On sugar plantation, the Hawaiian Agricultural Company, now has in operation an industrial alcohol distillery which is supplying the needs of 12 tractors, 20 passenger cars and 12 tractors owned by the plantation and its employees. Five hundred gallons used in the distillery of the fuel alcohol are now being supplied with the from the distillery.

Difficulties incident to the substitution of more alcohol for gasoline in tractors and cars have been overcome. Much experimentation was necessary in arriving at the present satisfactory formula, but now there is essentially no difference between more alcohol and gasoline in the ability of starting in general ease of operation. The life of the motor and extent of repairs is not influenced by the new fuel. Distances of the last plantations, which have been operated with alcohol for several years, have less motor trouble than when the used gasoline. Proper accurate adjustment must be made in changing to this, however, as the all accessories are suitable for alcohol.

When our homes are run on electricity in the large heating plants, we shall have more housekeepers such as the Chamberlaine, who are now being used in the homes of the future. They provide their families with the best of everything.

With the High School Classics

By MARGARET BOND

(Continued from page 1)

The Chamberlaine had been brought up in that way that they never suffered a pinch of salt to be wasted, and yet everybody in their household had of the best, according to the plan.—Sally Warner.

There are several persons and their persons in every nation, but when the percentage of waste is very high, we speak of the nation as wasteful. America has the reputation of being one of the most wasteful nations on earth. Hence the regulation of the use of the wastes.

The movement in popularizing electricity in our country is that so many people, through thrift and savings.

Part of our extravagance is probably due to the fact that we are still close to pioneer conditions when price and cost and value were so plain that there seemed no possibility of hoarding the supply, and consequently no need for thrift. Part of it is also probably due to the fact that many of our housekeepers grew up on farms where there were always pigs and chickens and cats and dogs to eat all their scraps and kitchen waste. Broken bread, bits of meat, this garbage and waste food seemed to waste when thrown into the well back to be fed to the pigs. Nowadays, however, the farmer knows that his pigs and chickens live better on a proper diet than on table scraps, and what was formerly fed to them is now burned or buried.

When a farmer kills a head of a hog, or a sheep, there is usually much waste. Often he wastes the very portion of the animal that needs feeding. The blood and granular organs, if they are packed in salt, when a few cents saved on each animal may result in hundreds of thousands of dollars in a year, there is no part of the carcass allowed to go to waste. When we speak of the portion of the animal that is wasted, we mean the waste of the kitchen, because the quantities handled are so large.

When our homes are run on electricity in the large heating plants, we shall have more housekeepers such as the Chamberlaine, who are now being used in the homes of the future. They provide their families with the best of everything.

Now President Lee is in the White House, and the secret of the past is being discovered.

It is the secret of the past. The discovery of gum resin was made by the American geologists.

How Rats Get to Prison

To be apprehended by means of traps and then to be entertained by a jail in the interior of the United States is the fate of the rat. The inmates there may stretch out on their prison beds and listen to the siren strains of the United States Navy band, the daily police reports on radio automobiles, and perhaps they may even appreciate the use with which the radio waves penetrate the stone walls of their prison. A dog which is used to catch the waves for the receiving set. After using ear phones to tune in the operator switches the program onto a loud speaker placed in the vicinity of the jail, by this means the inmates in the distant cells hear the entertainment plainly. Often, however, Capt. W. L. Beach allows the rats to leave their cells and come down to the auditorium—Napier Studio.

## WILSON HAS NEW LUMBER YD.

A new lumber yard for Wilson is in operation. Mr. Moss, manager for the Alamo Lumber Company, has been in town two or three weeks getting ready for the arrival of his stock. He is unloading his lumber this week and is expecting several more cars right away. This company, in addition to our Rockwell Bros. Lumber Company, with Mr. Cobb as manager will make Wilson a sort of lumber center.

ing and thinking that will draw the blood to the brain cells.

It requires more energy to write an original debate or oration than it does to dig in a ditch. It burns up more nerve tissues to think original thoughts and put them in paper than the hardest manual labor. So let us emulate the institution that will give us grit, patience, power of endurance, and determination to practice self restraint.

M. Hembree.

## JUNIOR REPORT

All the members of the Junior class are back in school again. Pauline Fountain, who had her tonsils removed several weeks ago, Raymond Standifer who happened to an accident in a car wreck, and Leola Watson, who has been out of school for several weeks with measles, were in school last week.

The second team of Slaton's basket ball girls came down last Thursday afternoon and we had a very good game. The score was nine to sixteen in Wilson's favor.

Friday afternoon Wilson's Junior girls played with Lynn and were victorious. The boys played at Ropes and were defeated by two points.

The Sophs, Freshies and teachers were entertained at the school building Friday night at a leap year party by the Juniors and Seniors. The girls assembled in the basement and the boys in the Auditorium. The boys were given numbers, and so were the girls, and at eight o'clock the girls went up stairs and found the boy that had the number to match hers. Then she walked down stairs with him. Several games were played and at ten o'clock ice cream and cake were served.

Dr. J. H. Smith from Lamesa visited A. E. Smith here Sunday.

Mr. and Mrs. Houston visited Mr. and Mrs. L. E. Metcalfe at Southland Sunday.

## IMPORTANT FACTS

Environment plays an essential part in moulding character. Any one can do right in the proper environment. The power of suggestion is so strong that it is essential that high ideals be ever held up before plastic minds. The words that fall most upon the students ear are the words that will make up his vocabulary. If they be street slang, his future conversation will be in slang for

"Vice is a monster of so frightful mien As to be hated needs but to be seen, Yet seen too oft, familiar with her face, We first endure, then pity, then embrace."

While on the other hand, if these words be in the form of extractions from the great minds of the past and present—such as are ever before us in school work—his future conversation will be pleasing and helpful to those with whom he is associated. Through literature music, prayer and the discussion of practical themes, the mind is prepared for creative work

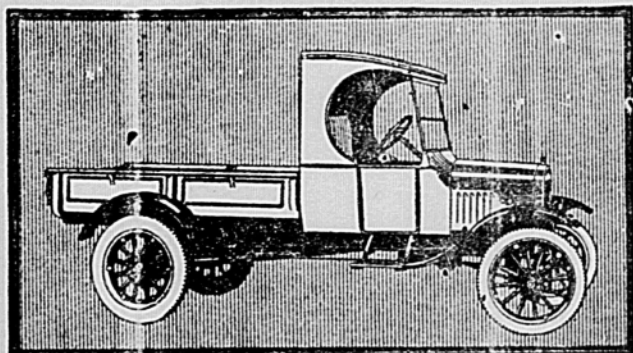

The reproach which comes with an unprepared recitation or some carelessness, hurts; but the reproach that comes when one appears before his fellow students to make an unprepared speech, sing an unprepared song or play an unprepared piano selection stings to the heart, and makes one resolve to do some real thinking—first hand thinking, deep continuous think

SLATON, TEXAS

The new Ford all-steel body and weather-proof cab on the Ford worm-drive chassis makes world's lowest priced complete one-ton truck.

## A New Ford Steel Truck Body

The Ford Motor Company announces the production of a new all-steel body and steel weather-proof cab, mounted on the famous Ford one-ton worm-drive chassis, forming a complete haulage unit at the remarkably low price of \$490.

Steel flare boards and end gate with sockets permit the use of stakes and high side boards or the mounting of a canopy top. The weather-proof cab is fitted with removable, door-opening curtains.

This Car can be obtained through the Ford Weekly Purchase Plan

Authorized Ford Dealers

## NINTH GRADE

We have been memorizing poetry during the past week under the direction of our English teacher, Mr. Willis. He told us that unless we learned to memorize the thought of the poem, it would be very hard to memorize the words. And since telling us that, Ford always asks what the thought is.

We missed our classmate, John Deavor, Friday and Monday morning during history lesson.

John is the only student that answers all the questions Mr. Heath asks.

The Camp-fire girls have succeeded in furnishing their club room. The seventh grade boys made sewing tables and the girls have made curtains for the room. The girls expect to meet each week on Thursday afternoon from 4 until 5 o'clock.

## FRESHMAN REPORT

Zip! Bang! Bingo! Notebooks, themes, and book reports! O labor, where is thy reward!

We are eagerly awaiting the return of our notebooks, which were handed in last week, with fear and trembling since glimpses into a few of them have reminded us of the battlefield at Waterloo.

We have finished our fifth book report and soon expect to take up the study of short stories. This phase of our English work is proving very beneficial and likewise is becoming more interesting. To read good literature broadens us intellectually, socially, and morally; it cultivates a taste for good literature and develops our power of selection.

Our memory work is progressing rapidly. A study of Longfellow's "Psalm of Life" gave to all a clearer understanding and deeper appreciation for higher ideals.

We have been as busy as an ant, preparing our term themes; their being the most important themes of the year, we were required to get our material from the Extension Loan Library of the State University. Among these themes we believe will be found some fairly good work for a

"poor fish". Among the different topics treated were "American Ideals", "Woodrow Wilson", "James Whitcomb Riley", "America's Natural Scenery", "Campfire Club work" Texas on Education", and "The How and Why of Geysers".

We fish are beginning to realize that one doesn't know how much he has to know in order to know just how little he knows yet. Messrs. Herrick and Damon surely did not realize, when they put such a detailed treatment of the parts of speech and punctuation in their text, that eight grade students had completed that work while in the grades, therefore had no time for such trifles.

Recently when the class was complaining about their English course's being so hard and not practical Miss Hembree asked Joe Stell how he would have the course revised. He promptly replied: "An English course should consist only of the proper phrases to use in a crowd, at parties, in the school room, and on the way to school. The course should develop a vocabulary that would enable one to approach a member of the opposite sex with perfect ease."

While studying the parts of speech and their uses, Burnace was asked to use the word "like" in a sentence. He studied a few minutes and then said hesitatingly, "I like Bessie."

Itylene was asked to parse the word "kiss". She promptly began: "The word 'kiss' is a noun, but is usually used as a conjunction. It is never declined, and is more common than proper. It is never singular in that

it is usually used in the plural." Edith Monroe was asked in which course she expected to pass. Readily she replied. "In the course of time" Roy Roxburg says: When I was six and went to school They gave me A, B, C's: ( Now I am sixteen and in school And they give me only D's.

Isla May Wilson is driving a new Ford touring car.

A musical was given at the Wel-drep's home Saturday night.

Mr. Jim Ham was suddenly called away to his home in Olustee Oklahoma, when he recieved the letter that his mother was seriously ill.

Miss Veda West visited Miss Bertha Stell Sunday afternoon.

Mr. and Mrs. C. N. Heath visited in the Longford home Sunday.

Mr. and Mrs. W. H. May spent Monday night in Lorenzo visiting their daughter Mrs. B. W. Baker.

Mr. and Mrs. Jim Scott of Slaton visited in the A. E. Smith home Sunday.

Mr. Heath: Did you ever take chloroform? Roy B.: No, who teaches it? } Certainly

Exams, the tide, and street cars wait for no man (not even Elbert Monroe.

THREE LAKES THROWS

Rev. James Atkinson of Tahoka will preach at the school house here Sunday at 3 o'clock P. M. Among the great number who attended the singing at W. W. Johnson's Sunday night were Bill Barrett, Bill Robinson, Mildred Barrett and Missie Barrett of Dawson county. Those who attended church Sunday afternoon at Newmoor from this place were E. T. Ellis, G. W. Hansen and others. E. T. Edwards of the New Home and J. Wright Edwards and family spent Sunday with John Anderson and family at O'Donnell. W. E. Sixes and family moved to Lubbock and back Sunday. Prof. I. G. Haynes and family went to Lubbock Saturday and returned Sunday afternoon. Joe Ellis happened to a very painful accident but not a serious one the other day while playing basket ball. He sprained his ankle and lost several days from school, but is all right now. Dear Hickerson, who recently underwent an operation in a sanitarium at Waco, is reported to be at home again. Dear has many friends who are glad to learn he is doing nicely. E. W. Ellis is attending district court at Tahoka this week.

LYNN ITEMS

Brother Bailey filled his regular appointment at Lynn Saturday night and Sunday at 11 o'clock. On last Saturday morning the news came that Mrs. Walter Davidson had passed away to her last resting place. She will be missed at home, in the church, and in the community. She was the teacher of the little folks at Sunday School, and while at church Sunday we missed her out of her place with those little fellows. We extend our sympathy to husband and three children, father, mother, brother, sister, and all the relatives. God knows best for us all. J. I. Bartley has bought him a new two-row planter. He doesn't intend for Uncle Jim Estridge to plant two rows to his one. Some of our folks are attending court this week. There is not very much news this week, so we ring off for the present. Uncle Tom. E. H. Gildert tells this one: A preacher, at the close of one of his sermons, said: "Let all in the house who are paying their debts stand up." Presently every man, woman and child, with one exception, rose to their feet. The preacher seated them and said: "Now let ever man not paying his debts stand up." The exception, a crowder, hungry looking individual, clothed in last summer's suit, slowly assumed a perpendicular position. "How is it my friend?" asked the minister, "that you are the only one

not able to meet his obligation?" "I run a newspaper," he answered meekly, "and the brethren here who stood up are my subscribers and—" "Let us pray," exclaimed the minister. Sweetwater Reporter. Among the recent arrivals to this county are T. H. Stokes and family, who recently removed to this county from Coleman county. Mr. Stokes is preparing to farm on the W. L. Bowen's place six miles northeast of Tahoka.

FINE ARTS RECITAL MARCH 12

In the closing concert of the year the voice and piano students of Miss Glenn Miles will appear in the recital at the High School Auditorium Wednesday, March 12. The program will be a variety of vocal solos, duets, quartets and piano numbers. There will be both classical and highly entertaining numbers. Miss Miles is a recognized artist of unusual ability and this will doubtless be reflected in the singing of her students Wednesday, March 12.

W. E. SIXES EXHIBITS FINE TURNIPS

W. E. Sixes, who lives out in the Three Lakes community brought to the News office last Saturday three fine turnips, as specimens of the plant which he raised this winter on his farm. Not only were they of immense proportions but they were also extremely palatable. The editor and family had one more square meal. Next.

Jim Bannister, a recent arrival in this county, purchased a quarter section of land in the Redwine community Monday from W. A. Eumage. Mr. Eumage has not matured his plans for the future. Mr. Bannister will make his home on the newly-acquired property.

Eggs for Hatching

From my pen of S. C. Rhode Island Reds. Book from Roy M. Crandall, Imperial aviculturist, and J. I. Hearsh's, Green Farm strain. Come and see my chickens. Eggs \$1.50 and \$2.00 per setting. J. C. EUBANKS

JUDGE METCALF SAYS THE FRUIT PROSPECTS ARE FINE

Judge Metcalf brought to the News office Monday some twigs which he had cut from a number of his fruit trees, just now beginning to bloom. The specimens included peaches, plums, apricots, and cherries. The Judge has some very prolific trees of all the above varieties, and if there are no more killing frosts the Judge thinks he will have several hundred dollars worth of fruit on his trees this summer. He says his black berries, new berries, straw berries, and we don't know how many other kinds of berries are also in full bloom now, and he expects to be feasting on berry pies before many more moons. This editor is going to make it convenient to drop around by the Judge's place about blackberry time.

Judge Iris Prosser of Newmoor was in the office of the News Saturday. He reports much improvement in his community. He left Sunday for his former home at Boose to spend a few days with relatives.

DR. W. F. HUGHES RETURNING TO TAHOKA

Dr. W. F. Hughes of Post this week removed to Tahoka and will occupy the new little residence in south Tahoka recently constructed by Rev. J. E. Dasher. Dr. Hughes will establish an office here and re-engage in the practice of his profession as a Chiropractor. Dr. Hughes formerly resided here but removed to Post a year or two ago. He and his good wife have many friends here who will welcome them back to Tahoka.
