"In Dallas, Fort Worth, and other places One Inch of Rain you hear these road signs mention ed", he said , "and they have done much to advertise the county."

It was through the Chamber of Commerce tht the grading of the streets by the county graders was brought about. Recently the tourist camp has been cleaned and thorough ly disinfected, so that it may afford a comfortable camping place for

When the boys went to Brownwood they carried ten thousand placards with them, bearing the attractive de sign and slogan suggested by Mr. Greenfield, the president. These were distributed among the thou sands of visitors there, and many of them fell into the hands of people from Central, north, and east Texas It was good advertising.

The Secretary of the Chamber of Come give has recently sent out thousants of letters, telling some-thing of the resources and possi-hit ies of Lynn county. These letters have been sent to every county in the state, most of them going to points east, of course.

At this time, folders in which the possibilities and opportunities af forded by Lynn county are more fully set out, are being printed, and thousands of these will be sent to people all over Texas and especially to people outside of west Texas These are not sent just at random but are sent to a carefully selected mailing list which the secretary has procured from prominent citizens residing in the respective counties.

Mr. Robertson has already had a number of inquires regarding the establishment of new industries and businesses here. There is prospect of some of these enterprises being es tablished here, enterprises that will be a distinct benefit to the town and county and that will afford a strong impetus for continued and increasing development and growth.

There are a number of other worthy achievements which the Chamber of Commerce has to its credit. It will have another meeting next Monday night. Mr. Business Man, you should be there. Mr. Citizen of Tahoka, you should be

Fell During Week

The rainfall at Tahoka since the last assue of the News has amounted to just one inch. On Friday afternoon the precipitation was .65 of an inch. Friday night .20 of an inch fell, and on Tuesday night of this week a shower fell amounting to .15 of an inch.

The precipitation throughout the county has been variable, however None of these showers covered the entire county. Another shower visit ed the northeast portion of the count Monday morning, which did not reach Tahoka. The southeastern por tion of the county received very little rainfall during the past week, while the rain at Three Lakes and T-Bar and that section of the county has been much lighter than at Ta hoka, and this section of the county is in need of more rain. Cotton is either up or is coming up throughout the county, and farmers in most communities say that prospects for a crop are excellent.

Methodists Hold A Big Banquet

The men of the Methodist Church Nearly 1500 Victims of The Hunt had a banquet in the basement of their new building on Wednesday night of last week, with a number of invited guests from the other churches of the city. J. A. Brashea: was the toastmaster of the occasion and after the feast was enjoyed a number of talks were made. The rincirs speaker of the evening was Dr. McMicken, the pastor of the Methodist Church at Lubbock. One of the purposes of the occasion was to foster a spirit of fellowship among the men of the church and of the city, and another was to launch a campaign to raise about \$2,000 needed for the completion of the church. After the close of the pronumber of subscriptions were given to Mr. Brashear, and a committee followed up the work the next day, with the result that the goal has almost been reached. Only a few more dollars are needed, we are advised, to finish up the task, and it is thought that that will be subscribed within the next few days. So, from every standpoint the banquet

THE EDITORS TWO SONS MARRY THE SAME DAY

was pronounced a success.

Frank and E. I. Hill Jr., sons of the editor, both married last Saturday afternoon. This was a rather remarkable co-incidence, since neith er of the young men knew the other's intentions.

On Saturday morning Frank received his B. A. degree in the State Teachers College at Canyon, having been a student in that institution the past four years. Miss Mae Howard of Crosbyton was likewise a student in that institution, and an affair of the heart had sprung up between the two young people. Accordingly, on Saturday afternoon they drove from Canyon to Plainview, accompanied by Davis Hill of Canyon, a cousin of Frank's Tate Fry of Floydada, and Miss Nannie McComas of Plainview; and in the presence of these they were married at the home of Rev. G. S. Hardy Presiding Elder of the Plainview district, who pronounced the wedding ceremony. They came on to Tahoka Monday afternoon, where Frank will be associated with his father in the publication of the Lynn County News. The bride is the daughter of Judge and Mrs. B. H. Howard of Crosbtyon. Judge Howard has served as county judge of Crosby county a number of terms, and is a well-known citizen of that section of the Plains.

At almost the same hour, E. I Hill Jr. the second son of the editor, and Miss Grace Johnson of Sweetwater, were married at the Baptist parsonage in Swetwater by Dr. L. G. Morony, pastor of the First Baptist Church of that city. E. I. had spent several months in Tahoka as a part of the office force of the Lynn County News, but for the past two months he has been employed by the Watson Focht Printing Company, for whom he formerly worked. He will remain in that city as an employee of this company for the present. The bride, Miss Grace Johnson, lived with her sister, Mrs. John Smith, in Sweetwater, her mother being dead, and was a student in the Sweetwater

Of course the blessings of the editor and the Mrs. Editor are upon these two boys and their young wives, and we shall hope for each of them the successful career that we naturally feel they both deserve.

Big Dinner Served Followed By Flow of Oratory from Candidates

(By Geo. E. Halliday) Down on the old famous Slash I. Ranch, modernly known as the Single ton Ranch, eighteen miles south west of Tahoka, where once the buffalo lowed, where twenty years ago the antelope loped, where for more than a generation browsing cattle minted golden sheckles for their master and then went the way of unprofitable business, where a ago there was not a farm on the fifty section estate but to-day forty-eight families have bought and are improving and cultivating as many home steads the jack rabbit drive replaced the spring roundup Tuesday of this

During the day 1422 jack rabbits bit the dust and lay still-almost 1500 rodents that inflict great damage on young maize, caffir, corn, peanuts, and other crops "went west" and took their long line of unborn posterity with them. The conquering white man has arrived on Slash L; his virgin fertile fields, watered abundantly by recent rains are sending up young crops, and he is determined that the rabbit tribe, grown multitudinous through undisturbed years, must go like the weed in order to conserve the finest of prospects and prevent the wiping out of profits.

Early Tuesday morning local gun-

ners and others from Tahoka and O'Donnell, including most of the candidates, gathered at the old headquarters place, now known as New-Moore, and made drives throughout the forenoon, while the women and their helpers got ready for a big dinner. The hunters were primed for the "Come get it, fellows' at noon, when they enjoyed a bountiful dinner spread in the shade of the grove of beautiful trees that surround the old headquarters residence. There were roast beef, done to a turn, stew, lightbread, pickles, salads, pies, cakes, and coffee all attesting that Newmoore community has good cooks.

Following dinner, the candidates made short speeches.

The afternoon drives continued un til after sunset. The day was considered a success and local people expressed appreciation to the visitors for their help. The only near-accident of the day was when J. A. Wright was sprinkled with shot by another hunter. He was not injured J. H. Mariner was general superintendent of the drives. The gunners

Opposes Extravagance and Favors Reduction of State Taxes. Flavs. American Book Company

"No more taxes-no time, no place against nobody nor nothing," given as his campaign slogan by Hon W, E. Pope of Corpus Christi, candidate for governor, Monday afternoon in the district court room, when he kept a goodly sized audience interested in state affairs for more than two hours.

"This is the second candidate for governor of Texas that has visited Tahoka within the past week," rcmarked Judge B. P. Maddox in introducing the speaker, "and shows that West Texas is becoming recognized and is getting the attention it deserves," he continued. He mentioned the fact that Mr. Pope was born and raised in Leon county, Texas served for a time as district attorney of the twelfth district, and for the past four sessions of the State Legislature had represented the Corpus Christi district in the

Mr. Pope made it clear in his speech that he is making his campaign strickly on tax reduction basis He believes that the state government can be run without any increase in tax rate and at the same time pay off an indebtedness of \$8 .-066 '00 which he declared will have areumulated at the end of Governor Neff's tenure. He favored the abolition of soire departments of the government at Austin and the merging of others, and would, as he put it, "have more unnecessary government employees buying tickets from Austin back home than ever before.

'In the last legislature I found an unholy influence in Texas, that was trying to get into the politics of the State and I made many enemies. I decided to carry the fight to the people," Mr Pope said in beginning his address. A NEIGHBOR DROPS IN

J. F. Tharp dropped into the News office Saturday to make inquiry about the speaking date of Senator Pope, and the editor dis-covered that he and Mr. Tharp had been neighbors in the long ago. Mr. Tharp was reared in Coryell county while we were in the adjoining coun ty of Bell, and we lived not far a part. Mr. Tharp served four terms in the legislature, a part of the time with Senator Pope, and he feels a peculiar interest therefore in Pope's candidacy. He was also a schoolmate of Pat Neff's in Baylor Uni versity and is quite an admirer of the noted Governor. Like many other good men, he was captivated last year by the lure of the plains, and he moved out and likes the coun try. Thinks he'll stay. Hope he does. We need him.

row Lamp Carbons Are Obtained. Carbons of high grade are, it is said, obtained from tar by a Swedish process. The powdered carbon is pressed to form electric light carbons, or larger sizes for electro-chemical work. The method is based on the fact that finely divided carbon makes up a large percentage of the composition of tar and is what gives the black color, this being due to the carbon particles suspended in an otherwise dense and transparent yellowish brown liquid.

Big Trees of California.

As the largest existing organisms, this big trees of California occupy a place unique among the living things of the world. While they may be exceeded in height by some of Australia's gum trees, as they are exceeded in diameter by the chestnut trees of Sicily, in the matter of actual bulk, they are far greater than either of these. Authenticated measurements show that California's big trees have reached a diameter of over 36 feet. heights of more than 350 feet and ages well over 3,000 years. Boll weerils are not unlike inhabl-ants of cities. When "city folks" find the crowds in mid-summer are becoming unbearable they want to get away to quiet places where they will have more "elbow room." When the square "tenements" of the boll weevils - become too crowded; they also become restless and take to the air.

However, it is not neessary that they be crowded before their movement begins for their migratory instinct prompts them to seek new fields.

place by flight. Although it does not fly far as compared with many other fly far as compared with many other insects, it has been known to cover a distance of more than torty miles in a short time. It is unable to con-tinue flight very long but by a series of short flights, especially when the wind is favorable, it may cover con-siderable distances.

The first movement is in the spain:

from winter quarters to the tiearest cotton, usually a short distance. One of the most striking things about the boil weevel is the rapid advance it has made scross the cotton belt. The insect made its way into Southern Texas about 1892 and since Southern Texas about 1852 and since has swept across the cotion territory to the Atlantic seaboard and as far north as Virginia. The annual advance has been from 40 to 160 miles. Under some conditions the boil weev't is sometimes spread by man through the shipment of cotton and cotton products or of any commodity.

V to seem to forget that it takes but one generation to overthrow the traditions of a Nation; but one gener tion to destroy the very foundation f the government. Our young people do not know God's leadership, they do not hear God's instructions. His word is unknown to them. Why? Because the family alters have been torn down; they do not frequent the churches, and thre is no place left for them to hear God's word. Count the young people at the next service in your church and see what percentage of the youth ofour community is present. Convince yourselves of the truth, or falsity, of this statement as it relates to our community.

-Slaton Slatonite We do not know that the young people of today are worse or better than the young people of a generation ago. It is the tendency of the elders to berate and bemoan the sins of the youth. This has been true of every age. Yet it can hardly be denied that there is less interest in religious matter on the part of young folks today than there was a genera tion ago. It can hardly be denied that there is greater freedom between the sexes than existed a generation ago. It can hardly be denied that parental authority is less respected than it was a generation ago. If young folks are worse today than they were a generation ago it is not due to the failure of courts, it is not due to the failure of our laws; it is due to the failure of the parents in the home. In this day of automobiles and picture shows and bunny hugs, the parents have a task such as parents of no other age ever had. For the moral evils that engulf our young people, we need not look to the courts nor to Ku Klux Klans for the remedy. We must look to the church and to the home. If the remedy is not to be found in and administered by these two institutions, it will not be found anywhere

There are 1098 votes in the National Democratic convention. many years a two-thirds majority has been required to nominate the candidate of the party for the Presidency. Under this rule 732 votes are necessary to nominate. According to last Sunday papers, 948 delegates have been chosen, McAdoo has 376 instructed votes, Al Smith 917, and Underwood (9. Most of the remaining 192 go to favorite sons. One hundred and fifty delegates are yet to be selected. Unless the two thirds rule is abrogated, we see no chance for either McAdoo, Smith or Under wood to be nominated. If McAdoo should get all these remaining 150 votes and should then get all the favorite-son votes, he would still have only 718, which would be fourteen votes short of the required number. will get the remaining 150 and just But there is little pl as little chance for him to ever get if the negroes in town could be segall the favorite-son vote. Of course Al Smith is an impossibility. Notody now believes that Underwood can win the nomination. To us it looks like a dark borse. It may be Ralston, it may be Davis, it may be some man that William J Bryan names, it may be nobody that any of us are now dreaming of in this connection. We only know that there i going to be a hot time in Madison Square along about the latter days of June. They'll need plenty of fans and ice water-nothing stronger

Some funny things occurred at that Wac; convention. It was domi nated by the Ku Klux Klan. Whether the Klansmen were in the majority or not we do not know, but they wer; organized and they held the balence of power. W. A. Hanger of Fort Worth, one of the leaders of the anti-prohibition forces in Texas as long as there was a saloon anywhere to fight for, was the remized leader of the Klan forces. He held the lines and cracked the whip and his trained ponies pranced around tae ring and jumped through the hoops at his will. Marshall Hicks of San Antonio—wet old San

tone—who was also an enemy to HOME DEMONSTRATION prohibition when prohibitionists were making a fight for a dry Texas, he was the chairman of the convention and was selected to head the delegation to New York. Zeke Marvin f Dallas, Grand Dragon or some suc hideous animal of the Realm of Texas, sat on the platform and watched Hanger run the show. John Mathis of Houston, the man who fought prohibition in the legislature and out of the legislature to the last ditch was made one of the delegates atlarge, The only congressman, we believe, who was placed on the delegation was John N. Garner, one of the few Texas Congressmen who opposed prohibition and woman suffrage. U. S. Senator Earle B. Mayfield was placed on the delegation while Senator Morris Sheppard was left at home. The name of Harper N. Kirby of Austin was submitted to the convention as a delegate but he was elected to stay at home.—Kirby who spent big money to put Texas in the dry column and who was one of the leaders of the dry forces. Yet the conven and instructed for a bone-dry candidate for President. Funny things happened at Waco.

Two candidates for Governor, Burkett and Pope, have visited Tahoka and given the people of Lynn county an opportunity to hear their views on public issues. Both of them spoke to only fairsized audiences. Both of them had much to say that was enlightening and instructive. They differed materially on some issues. The arguments of each seemed plausiable. We believe that both of them are right on some of the matters that they discussed. On the other hand we believe that both of them were wrong in some particulars Each made a good impression on those who heard and each no doubt gained som support. We hope to have the opportunity of hearing the other five or six candidates before the campaign closes. Then possibly we will be prepared to make up our minds as to the best material for the stand already have their minds made up, but as for us, we are still "up a

THREATENING LETTERS ARE SENT TO NEGROES

Anonymous threatening letter: have been received by a number of negroes who are working on farms, warning them that they must leave at once.

At this time of year people often complain of the low price of eggs. How many of you have ever consider. The past year the average price was ed the matter seriously enough to see | sixty cents per case (30 doz.) for a that you can do much to remedy this season (five or six months.) matter?

What We May Do at Home 1. Have clean nests so that eggs are clean when gathered.

2. Use all thin shelled, dirty, brokan or small eggs at home.

3. Market only clean fresh eggs weighing at least 23oz. to the dozen. 4. Gather eggs once each day and in hot weather twice each day and keep in cool place.

5. Never market eggs that come from a stolen nest whose age is doubtful.

6. Market aggs at least once a week twice if possible.

7. From May until October when you are hatching chickens pen or get rid of all roosters and produce infertile

8. See that hens get plenty of lime such as oyster shell so that your eggs will ship without breaking.

9. Your local grocers are usually ready to co-operate and if you produce first class eggs will usually pay you a good price.

Eggs for Home Use

UNCLE IKE HAS THE GRAPES

Yes, he has no bananas, but he has nearly every other kind of fruit that grows in the temperate sone on his premises right here in Tahoka. We are talking about Uncle Ike Metcalf. He had an idea that the editor and wife were from Missouri and so he invited us down Tuesday afternoon to be shown. His residence is literally surrounded by fruit. There are peach trees, cherry trees, apple trees, pear trees, apricot trees, apple trees, and we forget what-all. There are blackberries, dewberries, strawberries, gooseberries; and maybe some other kinds And then there are the grapes. All these are bearing. The freeze damaged the fruit on some of the trees and the sandstorm damaged it on others, but there is lots of fruit left yet. Some of the trees are loaded down. We don't think Uncle Ike raised the cream but any way he fed us on ice cream and berries. It was a feast fit for the gods. If any man thinks this is not God's own country he had better stay away from Uncle Ike's place. We are not going to try to stay away. We are going again.

JOE BAILEY VOTES SCHOOL

The election held at Joe Bailey on May 24 to determine whether or not bonds should be issued for the purpose of erecting a brick school building resulted in a unanimous vote in favor of the bonds. Twenty-three votes were cast and not a single vote was cast against the bonds. The amount of the issue is to be \$6,500.00. At the same election the school tax the building completed and ready for advance use before the next term of school opens Joe Bailey is one of the school the county as evidenced by the unanimity with which it has taken this forward step.

LITTLE CHILD DIES AT DRAW

On June 1st 1924, The Heavenly Father, in his infinite wisdom saw fit to take back to Himself the beauti ful flower that he had given to bloom only for a short time in the home of Mr. and Mrs. Tom Smith. Little Alta was born March 19th 1924. SurelyHeaven is dearer to us since she is there and Jesus is more precious since she is with him. To the bereaved family we extend our love and sympathy and commend you to Him "who doeth all things well".

"In memory of Little Alta" Death has called thee, little darling From our side and earthly home; And we know that thou art waiting For thy lovedones here to come To be with thee up in heaven

SUMMER SCHOOL

There have been several inquiries in regard to Summer School, and in order to make satisfactory arrangements to accommodate these, if pos sible, I would like to have a conference with those who are interested. I will be in my office Saturday morning June 7th, from 9 to 11 for the purpose of meeting those who are interested. If a sufficient number report then to justify the organizawas increased from 50 cents to \$1.00 tion of a school I shall make arrange on the property valuations of the ments for the work, If any are indistrict by a like vote of 23 to 0. A terested in making a half grade three-room brick building is to be during the summer, come Saturday. constructed, and it is hoped to have Tuition will be \$1.50 a week up in

I wish to call attention to the fact progressive of the rural schools of State Department of Education, for summer school work to be acceptable, it must be done by teachers selected by the School Board and under the same supervision as in the regular session.

(Cont'd from First Page is too large and that it would be impossible for the board members to tive program that would make it in each county to get the needed inyears time for the entire state. The is now." only alternative would be the hiring of a gigantic force of assistants, which would run up the expenditures and the tax rate and still assessments would not be of equitable as under the present local forces, Also the common man could not afford to go to Austin to protest the assessment agairst him; but the big corporations would like to have the board in Austin, for they would then be out from under the local influence and have fewer and less informed people to deal with in getting lower valuations on their property.

"I am opposed to selling the penitentiery and putting the convicts on the roads," Mr. Pope declared. He contended that the peniteatiary farms have lost only \$839,000 since 1870, part oof which was from overflows and part from "negligent" deals in buying and selling state lands, saying he used the word "negligent" chariably. He holds that no concharitably. He holds that no contract for sale or purchase of lands for the State should be valid until approved by the Legislature.

Opposing the placing of convicts on the roads, the speaker gave in detail the enormous amount of equipment costing \$9,000,000, that would be necessary to carry out the project and also maintained that convict labor would not be as efficient as hired labor and would, therefore, be more expensive. Besides there would not be enough convicts to give a road force to all of the counties of Texas and it would be inhumane to subject the infortunates to needless public ing been submerged by sand and sea. humiliation and would be had policy to have the convicts, most of whom, he said, are negroes, on the roads traveled by the school midren of the state.

Touching on education, Mr. Pope that the great reed was in the common schools and he believed that the constitutional prevision for a six months term in the common schoo's in state funds should be achieved first. He pointed out the extresagames in the I haversity and advocated requiring the university professors to teach five i cars a day insies: c three hours as at present, in view of the fact that teachers of common schools are reared to beach seven hours a day on censiderably less pay. He declared tre professors could teach five hours a day if coung girls could teach seven and if children in factories could work nine hours a day.

ANCIENT CITY OF TYRE

Was Once Scene of Many Furious Batties—New Town of 6,000 Inhabitants.

Decidedly, old Sidon is off the beaten tourist track. Only the rare visitor to the Holy Land ever tastes the distinc tive flavor of its charm. Although the names of Tyre and Sidon, because of their recurrence in the Bible, and in literature that has borrowed its image ry from Scripture, are more familiar to the civilized model. the civilized world than those of some cities of a million inhabitants. the actual places are seldom seen by strangers.

These cities-or city sites, for today Tyre is only an inconsiderable town of about 6,000 inhabitants, although it was once the prize for which kings and conquerors contended-suggests thoughts of the passing of the pomp and power of the past-"Sic transit gloria mundi "

Pharachs of Egypt, kings of Assyria and Babylon and Persia and Greece and Rome, as well as the Crusaders and the Moslems, all fought furious battles and maintained incredible sleges for the capture of Tyre. Although encrusted with historical as sociations and literary traditions, this once powerful Tyre, which planted Carthage and established colonies in Europe, and was mistress of the Mediterranean, is now a ruin with few traces of its ancient grandeur, all hav-Sidon is unlike all the other cities of the world. He also believes in retaining the present method of appointing the board of regents of the University and not turning it over to the ex-students.

Mr. Pope doubted the business efficiency of Lynch Davidson, another candidate for governor, in handling the state railroad. He gave figures purporting that instead of a profit of \$10,000 as claimed by Mr. Davidson,

Marriage, says Mrs. O. H. P. Belmont, is a sort of slavery, and for that reason she would hesitate to recommend marriage to any girl. for the same reason hesitate to p mend marriage to any man? There are millions of average men in the world who are just about able to make ends meet, observes the Detroit Free Press. They are conscientious per-sons feeling the usual affection for their families and having a strong regard for the obligations which they as sumed when they married and became

fathers. that they work on year after year, paying the family bills, pinching a lit-tle sometimes off for life insurance. laying away to meet the cost of edu-cating their offspring, struggling to get ahead to buy a home, and at the end of the first 25 or 30 years of married life they frequently find themselves just about where they started in a financial way, and beyond their prime physically.

They have, in a sense, been the slaves of marriage quite as much as their better halves, but it has not been observed that the outlook for hard work and small returns ever discour ages the youth of either sex when marrying time comes. They seem to think the game is worth the candle and something over. Perhaps, notwithstanding Mrs. Belmont's doubts, they

Italian Farmer Who Found Marble Torso of a Venus First Sold It for \$5.

The history of some pieces of marble which were found buried in a field at Sinnessa, near Naples, in ancient days the site of a Greek colony, has formed the subject of a long-drawn-out law case in which the government has at length secured an important verdict. The fragments were apparently of no

particular value and the farmer sold them for \$5. They were on their way to the new purchaser when the govern-ment director of antiquities, Professor Spinazzola, ordered him to return them to Naples for examination. The profesto Naples for examination. The profes-sor, having looked at them, exercised his powers of compulsory purchase and bought the fragments for \$50.

Under his direction they were cleaned

and put together, when they appeared as the torso of a beautiful Venus, undoubtedly by the hand of Praxiteles (the greatest of the Attic sculptors of the Fourth century B. C.) and worth about \$100,000.

The farmer sued the government for half the value of the find, and after gaining a verdict in two courts lost his cuse when the government took it to the court of appeals. The statue is now one of the most precious possessions of the Naples National museum.
