Lubbock Man Lives After 6 Car Rols And 350-Foot Skid

Barney Watts, 37, of Lubbock, is in Stanley Hospital with a broken shoulder, two broken ribs, fractured pelvis and a broken leg, after his 1952 Ford left State Highway 70 south of Roaring Springs about 2 a. m. Saturday morning, rolled over six times and skidded approximately 350 feet.

Gate receipts show that the rodeo attendance was in the neighborhood of 4,000. Number of ropers and riders entering the contests was almost double that of any previous meeting. Attendance at the dances Saturday was larger than ever before.

First time for the reunion to be extended to three days was successful. The crowd Saturday afternoon and night was the largest and interest was just as high as the two previous days. Reports of disorderly conduct were very low, with only two or three instances requiring attention of peace officers.

Reeves Is Returned

Elbert Reeves of Matador was elected for his third term as president of the organization at the business meeting Thursday afternoon. Robt. Reynolds of Dickens was elected vice-president to replace Curtis Graham who had served on the board for ten years. Report of the nominating committee, of which S. J. Braselton, Jr. of Roaring Springs was chairman, was unanimous.

The Thursday program began with the parade through the streets of Roaring Springs and to Pioneer Park. It was followed at 11 o'clock by necrology services by Rev. Ray Manning, pastor of the First Baptist Church of Matador.

Former Resident Is TV Director
W. B. (Mac) MacDonald of Chicago, Ill., visited from Thursday through Sunday in Roaring Springs with Billy J. Cooper and his parents, Mr. and Mrs. Lige Cooper. The two men served in the U. S. Navy together during their two years assignment.

MacDonald is well known here having spent several years in Roaring Springs and Motley County. At present he is with the Chicago Educational Television Association, as producer-director of specialized programs over WTTW-TV Channel 11. His work includes the organization of programs in terms of content and form of presentation, directing the physical arrangement of the program, and assisting with camera direction.

"By far the most interesting aspect of the work is following an idea from its beginning through to the final finished product", Mr. MacDonald told a Tribune reporter. "Educational TV has not yet made itself felt in the communities outside of the cities," he asserted. "The next function of educational TV is to meet the needs of the rural people so that they can benefit more immediately and directly from the contributions made by agricultural research."

Highlights and Sidelights FROM Your State CAPITOL
Texas Press Association
By VERN SANFORD

Delegates Return Home
Wary Texas delegates to the Democratic National Convention have returned home to face still bigger tasks.

Their goals: (1) to win undisputed party control at the Sept. 11 state convention and (2) to swing Texas back to the Democratic column in November.

In both efforts they will have the guidance of two of the party's most influential leaders—U. S. Sen. Lyndon Johnson and House Speaker Sam Rayburn.

Hopes are based on the mild civil rights platform plank adopted at the Chicago convention. Both Johnson and Rayburn are credited with significant roles in gaining this "moderate" victory.

Many of the Texas delegates say they will have a hard time selling the Stevenson-Kefauver ticket in this state. There is considerable muttering about the prospects of victory in November. And former President Harry Truman's cracks at Stevenson don't help a bit.

Drought Aid Program Launched
Federal and state machinery are grinding out a three-phase drought aid program for Texas farmers and ranchers.

Action came as mounting disaster conditions caused federal officials to release "one of the bleakest crop and cattle situation reports in 22 years."

Present plans would provide (1) certificates good for \$1.50 per hundredweight toward feed grain purchases, (2) certificates for \$7.50 per ton to buy roughage and (3) Farmers Home Administration loans to refinance debts on family-size farms.

Initial details were worked out at an Austin conference of U. S. Dept. of Agriculture officials, Gov. Allan Shivers, Agriculture Comm. John White and the Texas Emergency Drought Committee.

USDA is providing \$1 million to finance the roughage program. Gov. Shivers has allocated \$100,000 from his emergency funds for administrative operations.

Texas reaction to the federal offers ranged from "fairly satisfactory" from Governor Shivers to "too little and too late" from some South Texas farmers.

USDA's weekly report on Texas agricultural conditions termed

the drought "one of the most severe on record." It reported pasturage conditions "low west since 1934" and feed crops "very short" over most of the state.

Reservoirs Drop
Water in Texas' major reservoirs was down 20 per cent during July, from 1955. Average storage was 51 per cent of capacity.

As evidence of "critical conditions" the State Board of Water Engineers' monthly report cited these further statistics: (1) July rainfall was less than half of normal. (2) Observation wells continued a decline to all-time lows in five areas of South Central and West Texas. (3) Dwindling streamflows and decreasing storage resulted in water rationing in many cities in all areas.

More Safety Aids Asked
Next year's Legislature may be asked to double the present 470-man state highway patrol.

Such an increase was urged by Homer Garrison, Jr., director of the Department of Public Safety, in a talk before the Texas Safety Association Women's Conference.

Cost of safety precautions is cheap compared to accident costs said Garrison. Property loss alone has exceeded \$1.5 billion in the past 20 years.

A legislative program being pushed by the Association includes: (1) more patrolmen, (2) county-wide traffic courts, (3) state-financed driver education, (4) prohibiting sale of fireworks, (5) chemical tests for drunken drivers and (6) laws to punish juvenile traffic offenders.

Bigger Hiway Program Started
Expanded highway building under the new federal program is off to a fast start in Texas.

In the first tabulation since U. S. aid bill passage, the State Highway Commission received low bids totaling a whopping \$18,494,446. Of this, some \$5,847,678 was represented by six bids for improvement of federal interstate routes.

Short Snorts
Contracts awarded in Texas during July soared to \$86,021,020, highest point since July 1952. . . . A "School Problems Forum" has been scheduled by the Texas Association of School Boards for Oct. 14-15 in Austin. Board members have been invited to bring questions for group discussion and consideration by a panel of top educators. . . . Texas' oil allowable for September was set by the Railroad Commission at 73,505 barrels a day less than August. Permissive production will be 3,297,954 barrels a day on a 15-day producing pattern. . . . Taxes on whiskey brought into Texas from Mexico totaled almost \$1 million last year. Last week's audit of the Texas Liquor Control Board showed 1955 collections at \$905,801, compared to only \$379,534 in 1954. . . . A portable classroom bleacher has been developed by University of Texas engineers. It is designed to give from 15 to 25 students a close-up view of teacher demonstrations. Streamlining of State Library services might save Texas taxpayers a substantial sum of money, reports the Texas Research League. An extensive survey was made by the league, at the request of the Library Commission. . . . Gas companies continue to hammer at the state for recovery of millions paid under the old natural gas gathering tax law. Latest to win a judgement was the El Paso Natural Gas Co. victor in an Austin district court case. It was one of several companies which paid the tax without formal protest.

HOSPITAL PATIENTS
Calvin Poteet of Floydada and James Monk of Flomot are new patients this week in Stanley Hospital. J. L. Speer was dismissed last Wednesday and returned to his home at Flomot.

Also a patient in Stanley Hospital is Barney Watts, wreck victim, who suffered broken shoulder, ribs, and leg when his car overturned Friday.

IN APPRECIATION
I wish to take this means of expressing my deepest appreciation to friends and neighbors for every kindness extended me during my recent affliction. Your cards, gifts and flowers have been a great source of comfort to me, and the nice dishes of food have been a great help in a time of need while I was confined to my bed.

Mrs. Turner Campbell.
Visitors in the home of Mr. and Mrs. Bill Seale from Friday until Monday, were her sister and family, Mr. and Mrs. E. T. Patterson and son, Mike, of Winters.

Mrs. Margaret Springer returned home Friday from a trip to Denver, Colo., where she visited her daughter, Miss Barbara Springer.

Mr. and Mrs. Harmon Mills and son, Bobby, were week-end visitors in the home of Mr. and Mrs. Clyde Gilbert.

Mr. and Mrs. Charles Payne have returned to Nara Visa, N. M., after spending the summer here. They are teachers in the Nara Visa schools.
