## DON'T NAME IT

WILL J. MILLER

Uppermost in the minds of many voters of this county is the situation presented the citizens in the three cornered write in political race for District Judge of the 84th judicial district. The death of Judge E. J. Pickens, coming just a short time before the general election creates a vacancy which according to law must be filled by the voters of the district. Had Judge Pickens lived until after the general election the appointment of his successor by the Governor would have been for a two year term beginning in 1940. Since the situation has developed as it has, it becomes the duty of every voter to weigh the matter carefully and name a successor to our well loved judge who will carry on with equal dignity, character, and consecration for the enforcement of the law.

Last week it was known positively that Judge Aynesworth of Borger would be a candidate for the vacancy. This week, after having had time to consider the matter carefully we are informed that District Attorney W. L. McConnell will be a candidate for the office as will Attorney Jack Allen of Perryton.

While this writer respects the excellent character and native ability of both Judge Aynesworth and Attorney Allen, he agrees heartily with the implied opinion of our former Judge E. J. Pickens . . . namely, District Attorney McConnell is the logical man to assume the duties of district judge. It was the request of Judge Pickens just before he died that McConnell be appointed to the office. Since Governor Aynesworth, Attorney Allen and W. L. McConnell, he wisely appointed a successor who would not be a candidate for the office.

District Attorney W. L. McConnell will be a candidate for the office of District Judge, his name will also appear on the ballot as the Democratic nominee for the office of District Attorney. The voters of this district face the probability of electing Mr. McConnell as both the district judge and the district attorney. At the outset that seems just a bit fishy, and for some seasoned political observers, unbalanced for Mr. McConnell to run for both offices. However, to this writer it seems quite logical and beneficial to the citizenship of the district. It does seem that it would be clear out of line for Mr. McConnell to be deprived of both offices and for the district to be served by two new officials who are not familiar with the conditions.

For one this writer plans to vote for W. L. McConnell as District Attorney and for W. L. McConnell as District Judge. Giving him the chance that he has earned by faithful service. In case Mr. McConnell is elected for both offices (which is more than likely), a successor to Mr. McConnell would be appointed by Governor O'Daniel to serve out the unexpired term as District Attorney.

The idea that has been added is to the effect that should McConnell be elected to both offices the appointment would be made by Governor O'Daniel, and the office would be held by some one out of the county. This is a fallacy, since Governor O'Daniel will not take office until Jan. 17, and a successor would of necessity be appointed on or immediately after January 1. In the opinion of this writer, Jack Allen would be appointed district attorney, should the voters of this district elect W. L. McConnell to the office of District Judge.

## FRIENDS OF McCONNELL URGE HIS ELECTION AS DISTRICT JUDGE

Friends of W. L. McConnell throughout the 84th Judicial District are urging the voters of the district to write in the name of W. L. McConnell for District Judge of the 84th District. McConnell, veteran District Attorney of the 84th District is familiarly known to his many acquaintances as "Bill McConnell." McConnell's friends, in presenting his candidacy, feel that he is entitled to the promotion, and point with pride to his enviable record made as a prosecutor. As stated by his many friends "McConnell's long service as District Attorney and his wide acquaintanceship with the people thoroughly qualify him for the Judgeship. His knowledge of the working machinery of the court gives him a keen insight into the many needs of the judiciary. We will be assured of a fair, efficient and economical court if McConnell is elected, and his many friends urge the voters of the district to write the name of W. L. McConnell in for Judge at the November election."

## ARMISTICE DAY PROGRAM SPONSORED BY LOCAL LIONS CLUB

## Felton May Brings Home The Bear Bacon From Trip To Colorado

Felton May, accompanied by the best shot of Hansford county and perhaps one of the best of the USA namely Dennis Jones and joined in a hunting trip by Aubrey Sparks returned home Sunday evening with the Bear Bacon. The trio of hunters left Spearman Sunday Oct. 9th and visited with Luke Karr, former Hansford citizen, now a rancher near Pagosa Springs, Colo. According to Dennis Jones, who really rates himself as a HUNTER, Felton wouldn't even make a real hunting trip with the boys, but turned back when he was only a mile from the ranch home. Dennis and his partners hunted systematically for two days and brought in a coyote and a chipmunk, while the tenderfoot Felton May winged a Big Black Bear.

## WANTED LOCATION FOR HALF MILLION DOLLAR LAKE IN THIS COUNTY

With all work advancing rapidly, and the possibilities of a half million dollar lake and recreational center possible, it now appears that those interested in a lakemist begin hunting a location. It was learned definitely this week that the location that has been Hansford county's prize argument for a large Federal appropriation will not be available at any price. Mr. Steele stated to Judge A. F. Barkley that he and Mrs. Steele were afraid the dam might break and do untold damage to the home and ranch property they have spent a life-time building up.

Suggestions have been made that a suitable location could be made perhaps on either the Sid Lackey, Coy Holt or Jimmie Cator ranches. Regardless of where the best available locations for several sites should be ferreted out within the next few days, so that Hansford county can logically conclude this program. The county has gained considerable prestige in the lake matter, and it is going to be considerably embarrassing if the Federal government bring us down an appropriation and say in effect, "you boys have been shouting long and loud, now we are ready to build your lake . . . where do you want us to put it . . ."

R. E. Lee and Van Earl Steed made a business trip to Dalhart Tuesday.

## Elk, Bear and Lots Of Time Killed By Hansford Hunters

Ed King and family of the Holt community returned this week from a visit with Luke Karr, near Pagosa Springs, Colo. Ed duplicated the stunt of Felton May by bagging a large black bear. Ed came near getting killed by the bear he brought back. He had shot at two bears from a clearing and both the beasts entered the dense woods. Ed ran into the woods and saw one of the bears making for the south side of the mountain. He mentally calculated that if he could rush to the left he could gain a better shot, and was just ready to jump a big log when a bear reared up right in front of him, as big as a mountain. Ed did not have time to do any fancy aiming . . . he simply thrust his gun in front of him and began shooting. He said in another second he would have jumped and perhaps landed right on top of the injured bear, as the bear was one of the two he had shot a few minutes before.

## 4-H Club Boys Stage Baby Beef Show

Twelve calves representing 12 4-H club boys working project for this year were on exhibit for a preliminary showing Saturday of last week. The calves attracted quite a bit of attention, and favorable comments. Considering the fact that these baby beeves have 4 more months for growth before exhibit at the Amarillo fat stock show, local people are of the opinion that Spearman club boys will be in the money when the judging is completed at Amarillo in March. Those showing included: Dennis Kern, C. P. Archer, R. D. Tomlinson, Jr., Ernest Wilmet, Jimmie Linn, Peter Vernon Elmo McClellan Jr. and Lawrence McClellan also Dean Church.

## JACK ALLEN IN RACE FOR DISTRICT JUDGE

Jack Allen, prominent attorney of Perryton has authorized the Reporter to make his announcement as candidate for the office of District Judge, 84th Judicial District to succeed the late Judge E. J. Pickens, subject to the action of the voters of the district at the General Election Tuesday, November 8, 1938.

Judge Allen is well known in Hansford and has represented practically all the citizenship of the county as their legal advisor during the past few years. Allen is a clean, conscientious, capable attorney. He is very active in civic affairs of the district, and has made a good leading citizen in the county in which he resides during the many years he has lived in Ochiltree county. Judge Allen has served as District Judge in Hansford, Ochiltree and Hemphill counties during the past year's illness of the late Judge E. J. Pickens, and his record has been excellent. He is qualified to handle the duties of the office, and is asking the voters of Hansford county to support him in this election, pledging to them the same courteous, fair, efficient service they have received from him during the years he has been a neighbor and friend.

Due to the unusual circumstances occasioned by the death of Judge Pickens, under the law this must necessarily be a "write-in" election. Voters will write their choice of the candidate in the blank space provided for that purpose in their political party column. You can "write-in" the name of your choice for District Judge in any one of the columns but do not "write-in" except in one column.

## CLEAR UP SERIES OF ROBBERIES WHEN TWO PAMPA MEN ARRESTED

Howard Cooper and G. L. Amos who gave their address as Pampa were arrested Sunday on charges of burglary in connection with robbing the Spearman Hardware Cates Grocery, Phillips Retail, Jimmie Davis Service Station of Spearman and Phillips Retail station and Cal Williams of Gruver. Following their arrest sheriff Hix Wilbanks secured signed statements of confession that solved all the above mentioned robberies. After waving examining trial the young men were bound over awaiting action of the district court grand jury which will convene Nov. 1st.

According to the text of the confession written in long hand by one of the two charged, and signed by both men, the first robbery occurred just before midnight Saturday October 8th. Entrance into the store was effected by use of a large pinch bar. The text of the confession states the young men secured something near \$40.00 in money, shot gun shells, and a shot gun. Following the entrance of the Spearman Hardware the men confessed they entered Cates Grocery securing cash but not taking merchandise. The next stop was at Phillips Retail Station where the confession states they secured cash, battery and 5 gallons of oil. The confession relates that a week following, the young men came back to Hansford county going to Gruver where they broke into the Phillips station getting a tire, tube and something near \$19.00 in money. While at Gruver they secured a car heater and radio from the car of Cal Williams so their confession relates. Since the tire secured at Phillips was not one of their required size, their confession relates that they broke into the Jimmie Davis service station at Spearman taking 2 21x600 tubes and one 21x600 tire, spot light, candy, 30 pennies and two 25c pieces.

Her favorite class is English in high school and she does well in it, so she ought to be good in college. Her favorite teacher is Mrs. Caldwell. Her hobby is collecting gopher matches and here a great weakness is shown for tall boys that drive Ford V-8's around.

In the 2nd quarter with a series of passes and line bucks, the Lynx scored. Roy Reed making the touchdown. Haralson booted the ball squarely between the uprights, making the score 7-6. The third quarter ended with neither team scoring. In the fourth quarter the Lynx got some bad breaks and Beaver scored in the last few minutes. The fifth B class called a business meeting today to elect a new vice-president and a new secretary. Our former vice-president was changed to another room and our former secretary Don Yates, moved to Amarillo. We all regretted to see Don leave, because he was a good officer and a worthy class citizen. We elected Evelyn Reynolds for our new vice-president and Joy Crooks for our new secretary. We feel confident our class will prosper and move forward to a higher standard under the present staff of able officers. —J. C. Williams

The Seniors are expecting their rings any day now. They are getting anxious for them. The group pictures of the Senior Class should be in any day also. Did you have a good time in Canyon Sunday, Vera Beth, and who did you see? You must tell me about it sometimes.

The Senior Class has been pondering the question as to the identity of the person who has Denzil's junior wristlet. Suppose you enlighten us on the subject, Denzil? Arnold finally got to see the Air Circus and Ground Show in Amarillo, after going for the last two weeks.

The teachers wish to take this opportunity to thank the Lions for the treat received at the annual entertainment. That is one of the annual affairs toward which the teachers always look with pleasure. Everyone thoroughly enjoyed the fried chicken and all the "extras", as was evidenced by the quantity consumed by each one. Mr. Glover has been acclaimed the best cook in the country.

### Samplings

These paragraphs were written by students in English 1. Nicknames are often absurd. They are sometimes given when a person is young and he has to carry them through life. I have a friend who weighed very little when she was born, so her parents called her tiny. She is now a very large person, weighing almost 170 pounds, but she still goes by 'Tiny.' I also have a brother who is very quiet. He hardly ever says a word unless it is necessary, so his friends call him "Noisy". These examples show just how absurd nicknames sometimes are. —Zola Mae Sheets

Schoolboys appear in odd costumes. Some even wear bright clothing, as red and blue. In Holland the boys wear kneepants of plaid and plain cloth with bright waists and a colorful sash. In China the schoolboys wear long robes with flowers on them. Some robes have pictures of witches and goblins on them made out of bright colored thread. In Alaska the schoolboys wear fur costumes and fur caps to match. These hook to their shoes. Their costumes are made of animal skins. The schoolboys in every land wear different costumes.

### EDITORIAL

Do you want to hear something you have never heard before? The first six weeks of the term of 1938-39 is over. Perhaps everyone has found out how "smart" you are or aren't whatever your case may be now.

Let's resolve to make this year at Spearman Hi an outstanding one, and everyone get to work on some worthwhile thing. If you have come to the conclusion that you can get the school work well without much effort, you are the one who will have time to do some extra-curricular work.

To the girls who are taking Choral Singing: if you will put all you can into it, you will get "loads" out of it. Of course you may never be a Lily Pons, Deanna Durbin, or even an Alice Faye, (or maybe you will), but it is nice to go through life knowing a little about music. We have an excellent opportunity to learn something.

It won't be long until the girls who are coming out for basketball will be in the gym working towards going places in that sport. Why don't you be one of those girls?

You girls don't need to be told what a fine bunch of boys is on the football team, so get out there, if you aren't in the band and yell like you have never yelled before, to show them that you are behind them.

The same goes for you boys who neither play football nor are in the band; you have strong vocal chords and you can show your school spirit by your support. We have some 'swell' teachers, athletic directors, material to work with, and we have a marvelous opportunity to do some big things. Let's make use of our advantages! And we can't have too much school spirit, so let's start in now!

### Fifth A Builds Indian Village

—Janelle Womble  
In the 5th A classroom, the old West predominates. A tall straw cowboy rides the range on a straw horse. Miniature covered wagons drawn by paper horses are driven by tiny pioneers. In the Indian village, brightly colored wigwags rise up among paper Indians. Drums with strange designs can be seen in the village. Scattered over the table are small Indian articles, a stone match holder made by Taos Indians, flint rock knife and arrow heads, and an ash tray of Indian design. Another interesting feature is the miniature fort built by the 5th graders. A canyon is inside, and soldiers can be seen within the blockade.  
Mrs. Gunn is the sponsor for this group and she and the children wish to extend an invitation to their parents, friends and those who are interested in Indian study to visit them and their project.

### Know Your Library

The following students are working in the Library this year under the direction of Miss Ethel Deakin, our Librarian; Beuna Vernon, Joyce Dulaney, Rubyjo Simmons, Elizabeth Forbes, Norma Hall, Della Beth Uptergrove, Georgia Thompson, Marjorie Russell, Betty McKay, Frances Sheets, Nellie Deering, Grace Sheets, C. P. Archer, Mary Ann Sparks, Jewel Brandt, Colleen Kelly, and Melvin Schell.  
These students are giving an hour a day of their time that we may be able to use the Library to the fullest extent. We can help them by taking good care of the books and magazines we use and by returning them at the proper time.

### COUNTY UNIT OF TSTA ORGANIZES

All teachers in the county met in Spearman Monday evening for the purpose of organizing the county into a unit of the Texas State Teachers Association. The chief business was the election of officers. W. R. Finley, superintendent of schools in Spearman, was elected president; Mr. McCollum superintendent at Gruver, first vice president; Mr. Gillispie, superintendent at Morse, second vice president; Mrs. J. B. Caldwell, Spearman, secretary-treasurer. At a later meeting delegates will be chosen to represent this county at the district meeting in Canyon in March.

### Through the Keyhole

Joe shows no preference but there are several that show a preference toward him. He wonders who? ?

Verna Gail has finally decided. I don't see how that took so much consideration, for it seems rather evident.

Polly doesn't share a little sister's ideas on who is the best football player but that can only be expected.

Betty really had trouble with her car Saturday night. Was there some reason—I wonder?

Did you get an introduction, Mary Ann? Monday you rather resembled the town you visited Sunday.

Notice to SDC Girls—Leon has moved just across the street from you.

Nannie Grace is a regular night hawk nowadays. I don't suppose she has missed a preview.

No wonder Ida Mae is very nervous. Was it only twenty miles an hour?

Why is Joe so worried about what the author of this column knows? Is it that he doesn't want it repeated?  
D. R. is a wonderful reader, and a good seamstress, too. Just watch some of his actions in last period study hall.

The school building was not really on fire Monday afternoon, that was just Clifton trying to pronounce FIRE.

L. M. is a wonderful singer, as Norma would have us believe. "Let me Call you Sweetheart" is such a sweet song.  
Delbert and D. R. were in rather a quandary or dilemma Sunday night (if you know what I mean.)

### Fifth A Grade

We organized a Citizenship Club during our language arts class on Monday, Oct. 18. We elected the following officers; president, Winifred Hoskins; vice president, Willis Sheets; secretary treasurer Barbara Jean Daily. Mrs. C. L. Bennett and Mrs. H. L. Heard, our room mothers, gave us a party Oct. 7. We all enjoyed the party very much.

### GRADE CHAPEL PROGRAM ANNOUNCED

Because of six weeks tests in both the grade and high schools, there were no chapel programs last Friday. The high school students had a short pep meeting Friday morning and practiced the new school song, "Hail to Spearman High".

Miss Mary Gantt has charge of the grade school program for this Friday morning. She announces the following program.  
Songs by third grade: "The Fairy Boat, An Evening Prayer, and Shortening Bread", piano solo by Eula Marie Meers, short address by Rev. Doyel, pastor of the First Baptist church.

### 4-H CLUB NEWS

—Estella Garnett  
On Monday Miss Locke met with the 4-H Girls of Spearman at the high school building.

The girls were divided into two groups. The groups consisted of those who had not had sewing and those who had sewing. The first group studied seam finishes and the second group studied the different types of set-in pockets.

After the girls have studied dress finishes, they will make a print dress containing one or more of these finishes.

The meeting was well attended by the school girls. There were the same number of girls present that were present at the first meeting.

### Exchange

Passing the Buck  
The College President:  
Such remarks in a student is a shame. But lack of preparation is to blame.

The High School Principal  
Good heavens, what crudity! The boy's a fool. The fault of course is with the grammar school

The Grammar Principal:  
"O, that from such a dunce I might be spared! They send them up to us so unprepared.

The Primary Principal:  
Poor kindergarten blockhead; and they call that preparation! Worse than none at all.

The Kindergarten teacher:  
Such lack of training never did I see! What sort of person CAN the mother be?

Sane Jesters  
Little Jean, age five, taking her first piano lesson, looked down at the pedals and said, "When do I put on the brakes?"

In our Citizenship Club, we have elected officers. We are having a play in our citizenship club, "Sigurd the Young Warrior."

We have made our fire prevention posters for this year, and have some of them up in the room.

### JUNIORS

The beginning of the second six weeks finds the Juniors busy correcting test papers. They are ready to receive their report cards, which will be handed out this week. Some of the Juniors will probably have to practice signing their report cards.

The Juniors made \$4.80 Friday afternoon, and wish to thank everyone for this patronage.

Another junior boy has been showing up out on the football field. He played several minutes Friday. Stay in there, Cecil.

Janelle, what is this I hear about Bob's making a touchdown?  
Harold, that Pontiac has run that green Ford away, hasn't it.  
Kyble is doing very well winning double-thick malts on bets. What are those bets about, Melvin.

The Junior football boys reported that the steak was fine which they ate Friday night, and they will be ready to meet Boise City Friday.

We saw Janelle, robbing the cradle.  
Julia, why wasn't Roy at school Monday morning?

Dad: "Why do you want some money, Son?"  
Boy: "Well s'pose a robber was to hold me up and say 'Your money or your life', and I hadn't any money.

She: "What heavenly swing! Lets dance."  
He: "That wasn't swing. The waiter just dropped our dinner."

"Do you think your son will forget everything he learned in College?" Asks Dr. Cutem.  
"I hope so," replied Dr. Open "He can't make a living necking."

### BAND NEWS

The Spearman Hi Band played throughout the game of Lynx vs. Beaver. They played until the half and then marched out onto the field and went through a drill well worth the applause they received. The junior band also had a part in the marching. The senior band then played throughout the remainder of the football game. They intend to play during the next home game which is this coming Friday.

The bandmaster, Fred Rattan, has already set an overture up before the band. I suppose he wants the band to become familiar with that kind of music so the overtures required at the band contests won't be so hard.

### Seventh Grade

The girls of this room are pretty industrious, making curtains in such short time. The boys are also doing wonders in manual training. In English we are having to make work book reports, although it isn't so easy. Monday we started a new six-weeks, so off to work again!

The Lynx will play Boise City, Oklahoma, Friday afternoon, 3 o'clock on the home field. The Lynx hope to do better than they did last week, and will spend the week correcting their mistakes and perfecting their blocking and tackling. The strength of the opponents is not known, but the boys still believe they can win and will be on the field Friday to make that thought come true.

### FUTURE HOMEMAKERS OF TEXAS

The T. H. T. met October 12, to elect officers. Fran Shubert was elected president; Doris Jean Russell, vice-president; Mary Howard, secretary; Virginia White, treasurer; and Zola Mae Sheets, reporter. The rest of the officers and committee members are to be elected at a meeting in the near future. They plan to meet twice a month.

Monday Oct. 17, the Home Economics class served the 4-H club boys, Father and Son banquet. The proceeds of this banquet are to go to the FHT club fund.

The menu served was:  
Tomato Juice  
Pork Chops  
Candied Yams - Green Beans  
Carrot Salad  
Rolls  
Butter

Pumpkin Pie Whipped Cream  
The program consisted of 3 classes served by Slim Wind, Roscoe Sparks on the fiddle. Following this the president of each of the 4-H from Gruver, Morse and Spearman spoke.

### Book of the Week

This week "The Barretts of Wimpole Street" seems to be our best bet. It is a drama of Rudolf Besier.

Mr. Besier's play was a big success both in London and New York. It is the story of a family, the Barretts, and of two romances, that of Elizabeth Barrett and Robert Browning and that of Henrietta Barrett and a soldier. Mr. Barrett is a man possessed, passionately resolved to keep his family unharmed and untainted by the world.

Elizabeth is Barrett's invalid daughter, who lies eternally behind closed windows, her room a sanctuary in a house of terror and torture. She lies day after day, ill and lacking the strength even to try to recover. Then Robert Browning comes. He is the life-giver, the knight in shining armor who is destined to deliver Elizabeth Barrett from her Victorian prison.

This play is an intensely dramatic of the terror and racking torture of a woman's home could be. Of course, end Elizabeth is freed, and others' ends are left to imagination. All told, "The Barretts of Wimpole Street" is an intensely interesting play.

### FIRST GRADE

The first grade gave a party was one of the best we ever had. There were 30 present. Our room mother, Mrs. Lee, and Mrs. Edwards and their assistants Mrs. Garret Allen and Mrs. Tommy Taylor certainly were gracious hostesses. The children gave a short program consisting of songs they had learned this year. They were accompanied by Miss Gantt their music teacher.

After the children were dismissed the parents and teachers enjoyed a very pleasant hour. We wish we might have a get-together again soon.

We are very thankful to the Manual Training Teacher and class for the now sand table just finished.

Mrs. Skinner has a new Ruby Nell Brazil from Gruver.

Have you seen J. D. lately? will probably stay away from blow torches from now on.

### Erosion

Strips of close-growing crops such as Sudan grass or other sorghums, alternated with strips of clean-tilled crops such as cotton, corn and beans, afford protection from both wind and water erosion. Soil Conservation Service technicians report. On this farm in one of the demonstration project areas Sudan grass, which resists erosion, is alternated with cotton, which does not resist erosion.

**AMARILLO**—Strip cropping, the alternation of strips of crops which resist erosion with those which do not—is becoming more and more popular with farmers of the Southern Great Plains each year. Strip cropping alone, in most ON T... through to control Spr... and erosion in the Plains area, Mr. Hinde points out. This practice should be used in a variable cropping system with contour tillage operation, strengthened by terraces where necessary, he says. Another advantage of strip cropping is cited in the fact that the plan offers a diversified program in that cash crops and feed crops are produced, and at the same time erosion is being controlled.

Congressman Marvin Jones, back from Hawaii, says that he is not going to resign and that should end the talk for some time about who will succeed him. It has been rumored that Jones would resign from office, the dates being set all the way from next January to the summer. As the congressman should know his own affairs, no one should be in position to say that he is about to step out of office.

District Judge E. J. Pickens of the 84th judicial district was well thought of in Carson county. His semi-annual visits to Carson county to hold court were looked forward to by many persons. The judge was well fitted for his position and did his part in upholding the traditional dignity of the bench. His long illness was a cause of sincere regret by hundreds of friends in Carson county.

Curtis Douglass is receiving congratulations on his appointment to succeed Judge Pickens. During the past year Douglass has made a great record in cleaning up the docket. However, the governor announced that Douglass would resign at the first of the year—and that makes us believe that District Attorney W. L. McConnell will be named for the balance of the term of two years.

The district attorney deserves promotion to the bench permanently, according to the custom followed in Texas. Practically all the district judges have been district attorneys, and this work has given them a thorough knowledge of court procedure. With McConnell as the district judge effective January 1, it is expected that one of the other counties will be honored with the appoint-

### LIGHT CONDITION with I. E. S. Lamps

An I. E. S. study lamp, with 100-watt bulb in glass diffusing bowl, is ideal for the study table. Prevents eyestrain due to glare and harsh contrasts of light and shadow. \$3.95.

An I. E. S. floor lamp, with 100-200-300 watt bulb, provides plenty of soft, even light for easy reading. White glass diffusing bowl conceals bulb, eliminates glare. \$7.95 up.

How I. E. S. lamps protect eyes: White glass diffusing bowl (A) sits out harmful glare. White shade lining (B) reflects maximum amount of glareless light and wide angle shade (C) spreads it over broad area.

EYESTRAIN starts when children begin to use their eyes. Young eyes develop normally. Safeguard the eyes of older members of your family by Light Condition. The first step is to burn-out or blackened bulbs. Empty sockets with new bulbs proper size and type. The next is to see whether your present lamps and fixtures are providing enough light that is free from glare and harsh contrasts.

We shall be glad to measure your lighting with a Light Meter... show you whether you need more light safe seeing and, if so, how to obtain it with I. E. S. lamps, shades, diffusers and other inexpensive but highly efficient lighting equipment.

**County Hopper**  
 The county hopper during the season estimated by Joe Hutton, agent and A. A. Miller, general Entomologist, 347-040 acres were protected from hoppers with 2,200,000 pounds of poison bran mash applied by farmers in the county. Actual loss from the hoppers was estimated at \$132,300.00.

Poison mixing stations at both Gruver and Spearman are still operation as farmers are fighting to protect their young wheat on migratory hoppers that have drifted in during the past month. It will probably be necessary to put out poison until cold weather.

A number of different agencies have cooperated in making the poisoning campaign successful. The Federal Government, furnished the bran and poison. The Commissioners' court of Hansford county met all local expense, which included cottonseed hulls in equal weight to match the bran, labor, hauling and other incidental expenses. The state program was under the leadership of R. R. Reppert, Extension Service Entomologist. The program was directed by County Agent Joe Hutton.

**R. V. CONVERSE SAYS**

Try this one in your spare time, a farmer advised his son to buy 100 head of stock and gave him \$100, to do it with, the boy found he could buy lambs at 50c per head, hogs at \$3. per head and calves at \$10. per head, he bought the 100 head with the \$100. How many head of each did he buy.

Our Farm program is being attacked by every speaker that is trying to gain prestige politically, and if the farmer wants to keep a workable program he will stick tight to what we have and try to improve it, instead of following off after the glitter of political promises.

It looks like Allred is to have opposition to the confirmation of his judgeship, in the senate. It seems that people can not stand to see a boy taken care of by the people he has favored.

Price fixing of agriculture products was tried in New Zealand and when the farm prices were fixed to the satisfaction of the farmer, the prices of all the farmer had to buy went up so high that the farmer was worse off than before he had Government aid.

There is joy in high circles, as the Government is expecting to spend Billions for armament in the next few months and some can see the end of WPA as labor is absorbed in the rush to build bigger ships and more guns, and to think all of this equipment is headed for the junk dealer in just a few years as new machines come to be.

Yours,  
 R. V. Converse.
