Wells, Worley Make Final Plea For Marvin Jones' Job

Plunging into the final week of his congressional campaign Deakins Wells of Collingsworth County continues to pile up a strength unprecedented in the political history of the Panhandle, bearing out the earnest belief of Deck Wells and his friends that the people of the Panhandle—the independent voters—want a man of accomplishment, with an agricultural background as their representative in Congress.

PADUCAH, Aug. 21—Eugene Worley of Shamrock, candidate for congress, told a large street crowd Wednesday his best recommendation is the fact he is bitterly opposed in his present campaign by "a well known Amarillo political machine which has sought to control Panhandle politics for the past 12 years."

DESKINS WELLS

GENE WORLEY

Wells led his opponent 6,000 votes in the primary, carrying 22 of the 28 counties. He was especially strong in the agricultural counties like Hansford county. Everywhere he goes the average farmer, rancher and merchant want a man for congress who understands their needs. It has been stated many times that he will serve a young man to give his services to the Panhandle, but old enough to show mature judgment and clear thinking.

Wells, son of an old pioneer family, was born and raised on a farm near Wellington.

Wells said "The people of the Panhandle know my platform. They know I am for the farm program, for national defense, for oil conservation, for the recognition of the rights of labor, and for the strict enforcement of immigration laws. But more than that, they know that Deck Wells will be a representative for every person in the 18th congressional district, serving no clique or special groups."

Wells is able to serve the Panhandle. He has had 15 years practical down to earth business experience with people in every walk of life in recognition of this, his home town twice chose him its mayor. During these two terms, Deakins Wells reduced the bonded indebtedness of Wellington over 70 thousand dollars.

Deck Wells urged everyone to vote Saturday, whether for him or not.

Aug. 26 Set For Filing Applications For Tenant Purchase Program

Applications are now being taken for the purchase of farms under the Bankhead-Jones tenant purchase act, according to Percy Powers, local Farm Security Supervisor. Under this plan farms can be purchased for no down payment with 40 years to pay and only 3 percent interest.

If interested, apply direct to the FSA office in the basement of the court house before Aug. 26.

ALEXANDER URGES VOTERS TO VOTE

Judge Alexander, candidate for Chief Justice of the Texas Supreme court offers voters of Spearman his record: Of 608 opinions by Judge Alexander on the Court of Civil Appeals at Waco only 15 were reversed by the Supreme Court. His record is 98 percent perfect. He was born in a Texas log cabin and has practiced law 14 years and has served 18 years as a Texas judge, the last 10 years as Associate judge of Court of Civil Appeals. His friends say that he is the man to elect Chief Justice of the Texas Supreme Court.

Max Boyer, the leading candidate for State Senator, who received 42 percent of the total votes cast in the first primary, enters the final days of the run-off campaign with the assurance of his friends from the rural section that he will have the opportunity to serve the average citizens for four years, when the final count is made Aug. 24.

In accounting to the public for the service he has rendered the average citizen during the past four years, Max Boyer stated, "I believe the statement made by Governor O'Daniel in the daily newspapers following his election July 28, is the best recommendation I can give the people at this time."

Governor O'Daniel said "The record of the 46th Legislature reflects the fact that you had 94 House members who did everything they could to aid in solving the Social Security problem. I urge that you take the record and from the record decide which candidate will most likely make the most efficient public servant."

"A second recommendation to the voters who are not familiar with my type of service can be found in the votes of the ten counties I have served during the past four years. This record shows that 81 percent of the average citizens have been well satisfied with the work I have done, because they returned me to office with the majority vote.

An additional proof of my service can be found in the fact that each of the ten counties I have represented gave me an outstanding majority vote over both opponents in the first primary election. I believe my legislative record in behalf of the farmers, truckers, independent merchants, industrial workers, and ranchers justifies the approval I have received during this race. It is a well established fact that I have cooperated with both Governors in trying to solve the social security problem of this state. The general public has agreed with Governor O'Daniel in recognizing the fact that this vital social security problem could not be solved until the state officials who co-operated were re-elected and those who blocked this legislation were replaced by efficient officers who would co-operate with the governor. This fact was recognized by many of the legislators during the last term of the 45th legislature. These legislators voted to adjourn the state legislature in order to save tax-payers more than \$5,000,000 per day when it became well established that there was no hope of solving this social security problem so long as the minority group was determined to block this worthwhile legislation.

It is interesting to note that the action of these legislators not only showed they were co-operating with the governor, but were co-operating with the tax-payers and that this was the proper action, since no legislation was passed to solve this problem during the 41 days that the legislature remained in session after May 10. It is also interesting to note that Governor O'Daniel recognized this hopeless situation and refused to call a special session of the legislature to spend needless the money of the tax-payers.

"I believe a third recommendation to the average voters has been earned by your leading candidate for State Senator, because he has received the persecution of the Amarillo Political Machine that has dominated the Panhandle for the last 12 years. It is amusing to note the extent to which this official political machine will go in order to cloud the vital issues in this run-off race.

Max Boyer has conducted a clean campaign and has not allowed any of his supporters to sling mud at his opponent.

DR. BOWELL will be in Dr. Gower's office Aug. 28. This day will be special for school children who need glasses.

Slings Mud Loses

How true that is proving the senate race where a fellow has apparently so tangled up with an Amarillo political machine has allowed his supporters to resort to dirt in the few remaining days of the present campaign.

I have been the so called "opponent" for Max Boyer during the present campaign, I realize a great deal of pleasure in the fact that Max Boyer has denied any such statement that would detract from his record or name of his in this campaign. During the first part of the first primary election rumor that would detract from the character and reputation of my present opponent. Max Boyer stated that 650 people of the 26 counties, who are listed as works in his behalf I will not tolerate scandal or rumor that would detract from the character of my opponent or his family. I am sure such rumors to be untrue if I believed them true and did not repeat them."

different is the situation of the opponent. Max Boyer has heard that Max Boyer was a wife beater, that Boyer was divorced, that Boyer was a habitual drunkard, all of which is the lowest of politics. It was outlawed by the whiskey barrel and politics lost its strength.

Boyer has one record he can point to with pride. He has not introduced a single measure in the final minutes of a campaign. He has asked people to study his record and the record decide who they want to represent them. He has an affirmative campaign and has not wasted his time calling for attention of the public to his shortcomings and defects of his opponent. He has not introduced a single truth. The voter votes for Max Boyer has same information today that he had at the opening of the campaign in March.

My writer has not worked in my own county very much for Max Boyer. He does hope that vote will be a bit more emotional for our own leading candidate in the next election. This writer has fought the special interests that have awarded all the money and political patronage to the group near the center of attention in this Panhandle.

My writer will continue to fight for a group of individuals who have established the most efficient and loyal group of men who will all politics in the Panhandle. I say to my people of Hansford county that this group of people are fighting our candidate with all their might and money. We have won the race for state senator if my people will come out and vote.

For your sake, the sake of agriculture, the average citizen, and the future of the Panhandle of Texas, vote for Max Boyer next Saturday.

KIKER COLD STORAGE SYSTEM OPEN SOON

Because of some last minute trouble the cold storage locker at the Kiker store will not be open as scheduled. Mr. Kiker said they are taking meat for storage everyday but as yet we have not started our plant. The delay was unavoidable and within three or four days we will be going full blast. Dick also thanks the people for being patient with him through this emergency.

Entered as second class matter on November 21, 1919, at the post-office at Spearman, Texas, under the Act of March 3, 1879.

R.V. Converse Says:

Worley and Wells both young men of ability have turned in to the last lap in their race for congress. Worley a young lawyer of Shamrock has to his credit six years of legislative experience gained in the State Legislature of Texas. Deskins Wells, has been associated with or editor of a newspaper at Wellington Texas

practically all of his life. It will be interesting to see if the people of the 18th congressional district will chose for their representative in these perilous times a newspaperman with no legislative experience or a young lawyer who has to his credit six years of efficient service.

Roosevelt and Wilkie both after the presidential seat are dividing the country pretty evenly. The Wilkie supporters claiming he is the man to put the U. S.

back on its feet, and supporters are claiming Roosevelt is the man who will keep the government checks coming out. Roosevelt's mate, Wallace is expected to go to the rural sections to round up and corral the agricultural vote; while McNary mate of Wilkie is already in the rural section beating the bushes. Wilkie has already made a bid for the Townsend vote by coming out for the plan. This has placed in the Wilkie camp millions of votes.

The European situation is rapidly becoming worse and it is becoming more and more evident that the United States will shortly be forced to take sides in this world conflict. The writer has long been of the opinion that the best way to keep the United States out of this conflict is to place at the disposal of Great Britain all of the airplanes, ammunition guns and other supplies that she needs. The wars of today will not be determined by the number of men in the ranks of the army but how they are equipped.

OUR COOKIES

Mary and I had lots of fun. Eating the cookies after they were done.

They were very good. And we did the best we could.

Mary did half and I did the other. So we could make them for her brother.

They were so good and nice. After we fixed them with spice.

When we are in our garden and worked until we are tired We run in the house and eat cookies what we have always desired.

To make cookies with a little girl. Is more fun than anything in the world.

And this is the end of our cookies rime. So we hope you will have a good time.

Nephew of Mrs Hazelwood Killed in Explosion

Mrs D. W. Hazelwood returned Tuesday night from the funeral of her 8-year old nephew, Melvin Wayne Long, Guymon. Also injured in the accident was Mr Cecil Long, her brother-in-law.

The explosion occurred at approximately 6 o'clock Saturday at the Long home 32 miles west of Guymon. Mr Long and his son were burned when gasoline which had been poured over ants in the house exploded because of fire from their mechanical refrigerator.

The boy fell while running from the house and the father received burns while rescuing him from the flames. Both were taken to Guymon for treatment by a neighbor. They were then rushed to a Liberal hospital where the lad died.

Mr Long is still in a serious condition.

Services were held at the Baptist church Tuesday afternoon.

Twas a beautiful Saturday morning, said Litch Sparks, owner of Sparks Dairy, until the golden light stood mid way in the skies. Then shades of darkness spread upon the planet earth and things went hay-wire. 1) one cow went dry. 2) one calf got killed. 3) One son, W. E., fell gently asleep and speedily demolished one nice car. 4) One daughter, Opal, saw fit (and we think good judgment) to seek a help-mate for life and quietly got married. 5) Rumors spread over town that one of his own producers was going to be a mother (later named Susie Belle we didn't catch it papas name.

State of Texas is hereby directed to issue the necessary proclamation and to have necessary proclamation for said election and to have same published as required by the Constitution for Amendments thereto.
