## Texas WPA Workers' Strike Is Threatened

### Reviewing The BIG SPRING WEEK

by Joe Pickle

It's all over now but the shouting—for San Angelo. Big Spring wins with George Gentry, high school principal, in wishing San Angelo and her beats the best of luck in the state schoolboy race. Big Spring had felt, and we believe justly so, that she had an even claim on the crown and had hoped to represent this district in the scramble for state football honors. Saturday a special committee composed of school men from the widely separated places decided in favor of San Angelo. The fact that they were out only three minutes would lead to only one logical conclusion. We suspect they tossed a coin, and the Bobbitts side landed up. It might have been so, but inasmuch as it wasn't power to San Angelo.

Last week the first Christmas pictures of the season were delivered by the local post office. It seems a bit early for such activity, but remember, you have only about 20 shopping days left until Christmas. If you are wise you will do your shopping and mailing early. You can avoid the shoving crowds and long lines by doing it now.

The cemetery issue has again heated up to demand serious consideration. At least 150 new graves must be dug next year. Right now there is no particular place to dig them, the available space in the cemetery being almost exhausted. This means new land, and while it is being obtained, enough to last for years ought to be provided. Some thought could be given to facilities for beautification of the burying place. This city has one of the most rugged cemeteries in the entire state.

Such titles as "cop," "flatfoot," and "bull" are tacked onto peace officers by an "adoring" public. The average person seems to be on the side of the law enforcers. Especially do we delight in digging them for not catching offenders promptly. Last week when a store was robbed there seemed no officers at all on which officers could depend. Yet in a day's time they had several in jail and part of the loot recovered. A much-hunted-for man was in jail awaiting the arrival of federal authorities. Still another was arrested quickly and sent away for the department of justice. Certainly this should draw some commendation from the public.

The state park board held an important meeting in Austin last week. Big Spring had a representative on hand to present the case of this city for its mountain state park. As a result you may hear of a very important development within a few days. This "development" should be very cheering news. It should even take the form of action.

Into the news print went a simple item under public records. It stated that A. Schnitzer had taken out a building permit for a \$3,000 residence. This may prove to be an important point in the current history of this town. There is reason to believe that this may be the signal for an honest-to-goodness renaissance in building activity. This city must have more houses. Others may wax weary of worrying if their house is to be sold out from under them and build their own home. Business concerns may also follow the lead.

"The White Plague" was once a favored name for tuberculosis. Though not as prevalent as in bygone years, the disease is still common and nonetheless dangerous. Howard County Tuberculosis association has done a wonderful bit of work in combating the disease and seeing that its victims are given a chance for cure. The association is dependent upon funds coming from the sale of Christmas seals. Most of us use some sort of Christmas seals for our Yuletide correspondence so why not buy the regulation seal and relieve human suffering.

### Bond Accepts Farm Agent Job

George Bond, for three years leader at the U. S. Experiment farm here, has accepted an appointment as assistant county agent for Midland and Martin counties. He will be stationed at Stanton and will have charge of club and calf work in both Martin and Midland counties. He will work under S. A. Dehann, county agent. While here, Bond had fed out three lots of calves under the feeding program of the farm. He recently put a fourth group on a 180 day test. Lubbock, will succeed Bond here.

## Continuance Granted In Mandamus

### County Judge Wins Delay In Hearing

#### Court Grants More Time For The Securing Of Counsel

County Judge J. S. Garlington Saturday won another delay in mandamus proceedings brought against him by the city of Big Spring when Judge Charles L. Klapproth granted a motion for continuance until the January term of court.

The mandamus action was originally filed with the 11th district court of civil appeals in Eastland only to be dismissed without prejudice because of lack of jurisdiction. It was brought in an attempt to compel Garlington to appoint three jury-of-view commissioners to appraise the L. E. Coleman property inside the eastern city limits for damages by reason of rerouted highway No. 1 traversing the premises.

The court's ruling came after motion for dismissal on the grounds of lack of jurisdiction had been over-ruled. Approximately fifty interested spectators sat through two hours of reading documents, listened occasionally to verbal exchanges between Judge Garlington, who appeared as his own counsel, and Thomas J. Coffee and Wilburn Barcus, attorneys for the city.

Hearing Time Set  
In granting the motion for continuance, Judge Klapproth said he did so to allow Judge Garlington to employ counsel. Refusing to set a date before the next term of court, the court declared the hearing would be set for the "very first part of the next term."

Judge Garlington thrust an element of surprise into the hearing when he unexpectedly started filing and reading a bevy of motions for dismissal and continuance, a plea in abatement, answer to the original petition, and a flock of exhibits.

The court room was thrown into a state of excitement toward the conclusion of the hearing when Garlington introduced his plea in abatement on the grounds that another condemnation suit against L. E. Coleman, et al, for the same property concerned in proceedings for dismissal and continuance, was still in county court.

Coffee answered that the suit had been dismissed, that it did not concern the mandamus proceedings, that different land parcels were involved.

Judge Garlington countered with a demand for proof that the other suit had been dismissed. The court called a brief recess for an examination of the county court records. No ruling by Garlington had been entered.

### TEXAS ENTRIES IN LIVESTOCK SHOW

C. M. Largent & Sons of Merkle, Tex., have entered "Editha," (left), a Hereford cow, and "Publcan Domino Tenth," Hereford bull, in the international livestock show at Chicago. Viola Tomhave is the pretty custodian of the animals. (Associated Press Photo)

## ANGELO IS DECLARED CHAMPION

### Tribunal Of Three Men Make Decision

SAN ANGELO, Nov. 30. (AP)—San Angelo was declared football champion of interscholastic league district No. 3 Saturday following a meeting here between three school men who had been requested to name the champion after the race in that district had resulted in a tie between San Angelo and Big Spring.

Those asked to make the decision by San Angelo and Big Spring were T. Guy Rogers, principal of Thomas Jefferson senior high school here; J. L. Williams, principal of the John Reagan high school in Houston, and Henry Foster, superintendent of the Longview schools.

"They asked us to make a decision, and make it any way we chose," Rogers said. "They said they would not ask us how we arrived at our decision and requested we not tell anyone how we arrived at it."

Both schools had a mass of statistics which they submitted to the committee. It took San Angelo and Big Spring officials 25 minutes to state their cases and the tribunal three minutes to reach a decision.

San Angelo engages the El Paso Tigers, district 4 champions, in a bi-district strife next week, the date and site of the game not yet decided.

## \$180 Secured By 2 Robbers In Fort Worth

FORT WORTH, Nov. 30. (AP)—Two robbers, one with a sawed-off shotgun, and the other with a pistol, held up and bound three men in the City Realty company office above a crowded downtown street and fled through the crowds with over \$180 Saturday morning.

John Reagan, operator of the realty firm, Dr. E. A. Sibley and Frank Lanham were in the office on the second floor when the men came in. They bound the triad and foot and their lips were sealed with adhesive tape during the robbery.

## Abilene Hospital Is Given \$110,000

ABILENE — Gift of \$110,000 to the West Texas Baptist sanitarium by Mr. and Mrs. T. G. Hendrick was announced here Saturday by George S. Anderson, chairman of the hospital board of trustees.

A portion of the gift was used Saturday to wipe out all debts of the institution. The remainder will finance construction of a four-story wing hospital that will virtually double its facility and provide permanent quarters for the school of nursing.

Mr. and Mrs. Hendrick moved here in 1932 from Odessa, where they resided forty years. Several years ago rich oil production was discovered on their holdings in Wink and Ector counties.

## Window Unveiling Event To Be Held Wednesday Night

### Official Christmas Shopping Season Opens Dec. 4

Opening of the official Christmas shopping season in Big Spring has been set for Wednesday, December 4th, it was decided at a meeting of business men at the chamber of commerce offices Friday afternoon. Ways for creating added interest in the Christmas season were discussed at length by the group, which included approximately twenty-five business men. W. T. Strange, Jr., manager of the chamber of commerce, presided.

Window Unveiling  
Merchants are asked to prepare their windows for Christmas, and have them ready to unveil on the night of Wednesday, December 4th, at 7:30 p. m. Christmas lights on the streets will be installed in time for the window unveiling event, it was announced. It was voted to let each merchant decide for himself whether or not to leave the windows veiled during Wednesday preceding the unveiling. The Big Spring High School Municipal band will furnish music during the evening.

Free Matinee  
On the afternoon of Wednesday, December 11, a free matinee for the kiddies will be staged at the Ritz theatre, when a two-reel motion picture of Santa Claus will be shown. This event is made possible through the courtesy of the Ritz theatre, when a two-reel motion picture of Santa Claus will be shown. The matinee will be held at 4:45 p. m., and will last about half an hour.

Santa To Visit  
On December 13th, Santa Claus will visit Big Spring. The arrangements committee has not yet received information from St. Nicholas as to the exact time of his arrival, but this information will be known in a few days. Santa will bring his usual message of good cheer and a story about his trip from the Northland.

The following week, a few days prior to Christmas Eve, another event in the form of a parade, made up of story-book characters in full regalia, will be staged, the committee announced. Details of this event will be announced shortly. Prizes for the best entrant portraying a character will be awarded.

Preparations for installing the Christmas lights were under way Saturday, and City Manager Spence stated the lights would be installed in plenty of time before the window unveiling event. Merchants are asked to leave their lights on until 7:30 when the street lights and Christmas lights will be turned on promptly at that hour.

Those attending the Friday meeting were as follows: Mrs. J. L. Rush, Ladies Salon; E. L. Gibson, Gibson Office Supply Co.; A. Schwartz, Hollywood Shoppe; Joe Galbraith, The Herald; Bert Boyd, L. C. Burr & Co.; E. M. Conley, Montgomery Ward & Co.; Herman Fuhrer, Mellinger's Department Store; Dave Tobolowsky, La Mode; P. B. Alexander, J. C. Penney Co.; James L. Russell, The Herald; William Edwards, Wacker's; Albert M. Fisher, Albert M. Fisher Co.; W. T. Strange, Jr., and Mrs. Alice Phillips, Chamber of Commerce.

## Greek Premier Forms New Cabinet Saturday

ATHENS, Nov. 30. (AP)—Constantine Demerdis, named premier under King George, recalled monarch, has formed a cabinet, which took office immediately. Demerdis is a law professor and former minister.

### Rumor 'Rubbish'

"Why that's rubbish, absolutely," said the fetching Elissa Landi (above) when confronted in New York with rumors of a romance between her and Douglas Fairbanks, Jr. (Associated Press Photo)

## International Tension Eases

### Oil Embargo Question Simmers Down After A French Warning

(By Associated Press)  
A Franco-British collaboration, informed London sources said, has eased the international tension in the Mediterranean.

Talk of Italo-British crisis over the oil embargo question simmered down after France warned Italy against an unprovoked attack on the British fleet.

Premier Mussolini's cabinet approved plans for strengthening Italy's supreme council of defense.

A communique announced the committee membership had been enlarged to include many new officials. It was regarded as a move to assure no aspect of the nation's defensive position had been overlooked.

The new Italian commander, General Badoglio, indicated his intention to press the campaign.

(By Associated Press)  
Ethiopia announced Saturday an Italian column had been surprised and routed east of Mount Mussa. It was said 183 Italians, and 20 Ethiopians were killed.

The British were said to be satisfied with Premier Mussolini's "change of tune" since the French warning against attack on the British Mediterranean fleet.

## Labor Leaders Demand Cut In Hours For Men

### Also Ask Jobs For More Men, Demands Sent To Capital

SAN ANTONIO, Nov. 30. (AP)—A general walkout of thousands of workers on Works Progress Administration projects in Texas loomed Saturday after a gathering here of prominent labor leaders from over the state at which demands for fewer hours and more employees on the projects were heard.

The union leaders decided to address their demands to Harry L. Hopkins, WPA administrator, after an interview with Harry P. Drought, state administrator, proved "unsatisfactory." Should the demands be ignored in Washington a general strike will be called on all WPA projects in the state, it was decided at the local meeting.

W. B. Arnold, president of the State Federation of Labor, said Saturday morning that union labor was demanding that the number of hours a month for each WPA employee be cut from 140 to 70 hours, thus doubling the number of employees.

"A lot of red tape is being put up by state administrators retarding the program," declared William J. Moran of El Paso.

Moran said that in this region unskilled labor gets \$35 for 140 hours work a month while intermediate laborers get \$52 for the same hours and skilled labor draws \$60. He said that union labor is not seeking an increase of the wages but is asking that the number of hours be cut so that more men could go to work.

"We mean business on this thing," Arnold declared Saturday morning. "The resolution to Hopkins will probably be drawn up and forwarded by airmail to Washington today."

Maverick To Give Aid  
The state president said that Representative Maury Maverick has pledged his support toward "straightening this thing out." Mayor Quin and the city commissioners signed the resolution which was addressed to Drought Friday, according to Arnold.

The meeting lasted throughout the day with a general gathering of the 53 state labor leaders being held in the Labor Temple before Drought was called upon. After the conference with the state administrator the leaders went back into session at the Labor Temple and decided to make a final appeal to Washington before calling a strike.

Harry Carroll, business manager of the local painters' union, suggested that the strike be called immediately. Moran suggested the appeal to Hopkins before ordering a strike.

Arnold declared that the move is not being made solely for union members but for all WPA project workers. W. F. Hill and R. Varado of Port Arthur suggested that the unions set about "organizing the unorganized to the point of walking out on the jobs."

The delegation that called on Drought was invited back to his office Saturday but the invitation was declined when many delegates balked because their expense accounts did not provide for an extra day's stay here.

## Proclamation For Autonomy Forthcoming

### Japanese Commander Intends To Force Two Provinces

SHANGHAI Nov. 30. (AP)—A correspondent for the Rengo agency reported the Japanese commander at the Peiping-Tientsin garrison issued a circular telegram proclaiming his intention for the Hopei and Chahar provinces to form autonomous states.

It was widely rumored here a proclamation for autonomy may be made Monday.

A vehement note of protest against alleged Japanese seizure of a Chinese postoffice in the North China demilitarized zone was presented to Japan by China.

"The time is near for new northern developments," a Japanese spokesman said.

Persian Minister Protests Arrest  
WASHINGTON, Nov. 30. (AP)—In a formal protest to Secretary Hull, Ghaflar Djafar, Persian minister, demanded punishment for an Elton, Md., policeman who handcuffed and otherwise "insulted" Djafar when the latter was arrested for speeding.

The Weather  
WEST TEXAS—Fair and warmer in southeast; Sunday fair and colder in the north.  
EAST TEXAS—Partly cloudy, warmer in the south and extreme east; colder in the northwest and north central portions.

# "Thanks A Million," Bright New Musical At Ritz 2 Days

Dick Powell, Ann Dvorak In Chief Romantic Roles

Irresistible song, crackling comedy and a heart-tugging romance fill the speedy sequences of 20th Century's "Thanks a Million," a bright new musical with a million dollars worth of stars which comes to the Ritz theater Sunday and Monday.

With Dick Powell and Ann Dvorak enacting the chief romantic roles, "Thanks a Million" presents Fred Allen, Patsy Kelly, Paul Whiteman and his band with Ramona, Rubinf, Raymond Walburn and the Yacht Club Boys. They all act real parts in a real story.

The plot of "Thanks a Million" revolves about the grief and comedy a tanktown road company encounters under the masterful misdirection of Fred Allen.

Dick Powell is the featured singer of the company, and Ann Dvorak and Patsy Kelly, its dancing team. But Dick doesn't want to sing through a megaphone, and Allen has some peculiar ideas about that and also about how they can make money. Some hilarious clashes are the result.

In the climax of the film, Powell achieves recognition and a radio contract. And Miss Dvorak says she will be his, although their romance is threatened for a time by the intrusion of lovely Margaret

## "The Affair Of Susan" At Queen

Cast as a young woman who installs tails on candy dogs and a young man who puts tail-lights on automobiles, who are very, very lonesome, Zasu Pitts and Hugh O'Connell furnish the hilarious comedy and the tender pathos of Universal's tale of a Coney Island romance, "The Affair of Susan," which opens for an engagement of three days at the Queen theater today.

The story finds Zasu grieving because all the other tall installments in the candy factory have young men, but she has never had a love affair. At the same time she shy O'Connell, who hasn't had a date for years, pretends to his dating companions that he is in the throes of a romance with an heiress.

Hugh goes to Coney Island to Irving. Benny Baker, playing a comical stooge to Fred Allen, Andrew Tombes and Alan Dinehart, are among the actors who are seen in important featured roles.

MUSIC for "Thanks a Million" was written by Gus Kahn and Arthur Johnston and include "I've Got a Pocket Full of Sunshine." The picture was personally produced by Darryl F. Zanuck.

forget his lonesome feeling, and Zasu does the same thing. They finally meet. Love burr-on roller coaster, goes into full bloom on the shoot-the-shute, and then, without knowing each other's names, they are separated by an accident. Hilarious and yet touching incidents occur as they try to locate each other once more—and finally do so under amazing circumstances.

The production, taken from an original story by Mann Page and treated for the screen by Arthur Casper, Andrew Bennison, H. M. Walker and Clarence Marks, four of Hollywood's most noted fun-makers, was directed by Kurt Neumann. In the talented supporting cast are Inez Courtney, William Pawley, Tommy Dugan and many other noted players.

## A&M Attains Top Ranking

### Enrollment Of Agriculture Students Is Largest In The World

COLLEGE STATION, Nov. 30.—In point of enrollment of undergraduate students pursuing four-year courses in agriculture, the Texas Agricultural and Mechanical college, according to a survey just completed, outranks this year any other institution of higher learning in the world. The survey in question, made by Dean E. J. Kyle of the school of agriculture of the college, covers the leading agricultural colleges and universities of every state and territory of the United States. Placing first in that list, the Texas institution attains similar world rank since agricultural colleges of the United States outrank those of other countries in enrollment.

The survey just completed shows freshman and total enrollment in agricultural courses as of Oct. 10, 1935, excluding forestry and home economics. Texas A&M college stands at the top with 488 freshmen and a total of 1,164 undergraduates taking four-year courses in agriculture. The Texas school ranked first in agricultural freshmen enrollment for 1934-35 but was second that year in total agricultural enrollment, being led in the latter by Cornell university. For the current school year, the Texas school holds the lead over all in both freshman and total agricultural enrollment.

The 1935-36 agricultural enrollment at the college shows a gain of 40 per cent over 1934-35 and 106 per cent over 1933-34. In attaining first place for 1935-36, the college has advanced from seventeenth place in 1915-16. The enrollment figures given are for the school of agriculture at the main college only, the enrollment at junior branch colleges of the institution not being included.

Dr. E. B. Atwood, of the Bible department, Hardin-Simmons university, Abilene, will preach at the First Baptist church, both morning and evening, next Sunday in the absence of Pastor R. E. Day who is out of the city over the week end. Dr. Atwood supplied for Rev. Day during an absence last spring, and his messages were well received.

The picture will be presented at the Lyric Sunday, Monday and Tuesday.

## Shipments Of Livestock In State Higher

### October Figure Reverses Trend, Is Near That Of A Year Ago

AUSTIN, Nov. 30.—Shipments of Texas livestock to Fort Worth stockyards and interstate points during October almost equaled those of the corresponding month last year in contrast with the sharp decreases in the year to year comparisons which have been noted during the past several months, according to Dr. F. A. Buechel, assistant director of the University of Texas bureau of business research. Last year the government's emergency cattle purchasing program reached its peak during August and September and tapered off in October, while the sheep purchasing program did not get well under way until October. This situation is clearly reflected in the comparison of shipments.

Shipments of all classes of Texas livestock to Fort Worth and interstate points were 6,577 cars, a decline of 6 per cent from October last year. Cattle, 4,300 cars, increased 10 per cent; calves, 1,371 cars, decreased 15 per cent; hogs, 183 cars, dropped 16 per cent and sheep, 718 cars, were off 43 per cent.

"It is probably that because of the better range and feed conditions which have prevailed this season, actual tonnage of livestock shipped from Texas may have been greater than during October last year," Dr. Buechel said. It is certain that the income received by stockmen is far above that of a year ago because of the sharp rise in the price of meat, wool and mohair.

"The bulk of the increase in cattle shipments went to Fort Worth, while a sharp decline occurred in the receipts of sheep at that market. The other large markets all showed declines in receipts of Texas livestock except Chicago which received more than 5,000 Texas sheep, whereas last year no sheep were forwarded to that market from Texas.

"Increases, however, occurred in shipments of Texas livestock to interstate points other than the large markets. More cattle were shipped

## Britain Will Seek To Limit Size Of Ships

### Also Will Propose Elimination Of Subs, At Naval Parley

(Copyright, 1935, by United Press) LONDON, Nov. 30.—A strong British plea for abolition of submarines and for limitation of the size of battleships and gun carriers will be made almost as soon as the naval conference, scheduled to open Dec. 6, gets down to business, it has been revealed.

The British have sought for years to have the maximum size of battleships reduced to 25,000 tons. The United States has gone on record as favoring an upper limit of 35,000 tons.

The delegation which will urge the British proposals will include Prime Minister Stanley Baldwin, Foreign Secretary, Sir Samuel Hoare and First Lord of the Admiralty Sir Bolton Eyles-Monsell.

Britain also will revive her proposal that the leading naval powers exchange complete information on their building programs for the next six years, it was said. At the same time, under the British plan, the United States, England, France, Italy, Japan and the British dominions would commit themselves to a maximum tonnage for each category of warships.

The British will urge embodiment of agreements along these lines in a new treaty to replace the Washington and London naval treaties, which were denounced by Japan and hence automatically go out of force at the end of 1936. Britain, it was said, attaches greater importance to qualitative than to quantitative limitation of fleets, "because qualitative restriction would reduce competition in types of ships." (The Japanese repeatedly have argued for quantitative limitation, based upon a "colossal upper limit for the British, American and Japanese fleets, a euphemistic way of asserting their demand for parity with England and America.) One of the major problems confronting the naval powers, in his opinion, is replacement of obsolete ships, particularly gunships, rather than large programs for naval construction. Ground squirrels of western states are potent carriers of plague germs.

### Copies Of Texas Declaration Of Independence Sought As Centennial Year Brings Interest In History

AUSTIN, Nov. 30.—With the advent of the Texas Centennial celebrations, Texas has become history conscious. The finer points and intricate details of historical records are among the most popular topics of today's conversation.

One of the most recent subjects of controversy regards the so-called "original" declaration of independence, which reposes under a glass frame near the rotunda of the state capitol at Austin, and is viewed by hundreds of passers-by daily with the concealing thought—that it is the original. The truth of the matter, however, is that this particular document is no more the original than the four or five others of the same content that were distributed to various localities by the declaration convention of March, 1836. At the close of the convention, March 17, President Burnet dispatched George Childress and Robert Hamilton to

Washington City to notify the three commissioners, Archer, Austin and Wharton, that Texas had declared her independence. It is assumed that Childress took a signed copy of the instrument with him. The document which is on display in Austin is undoubtedly this one, since it bears this inscription: "Wharton's copy presented to the state department May 29, 1836," and apparently contains the bona fide signatures of the delegates.

**Copies Sought**

What has become of those four or five copies of the declaration? It is hoped that some Texas community will unearth one or more of these in the general searching around in the attics and round-topped trunks that is going on in space to bring to light the state's

colorful romantic history.

Miss Melissa Castle, director of research and historian for the Texas centennial celebrations, on one of her recent missions to Austin, discovered in the archives of the state what appears to be the original declaration of independence. Despite the fact that the document does not contain the names of delegates to the convention it is undoubtedly the "original draft"—the first physical conception of an instrument designed to convey the sentiment of the courageous "Texans" in their struggle.

Proof of the authenticity in such a statement that this particular draft is the original is borne out by historical records.

On March 1, 1836, delegates to the convention gathered for the dual purpose of providing themselves with a declaration of independence and adopting a constitution of government. On the motion of George C. Childress, a committee of five was named by the president to draw up a declaration. Whereupon, Childress was named chairman of the committee along with James Gains, Edward Conrad, Collin McKinney and Bailey Hardeman. According to E. M. Pease, who acted as assistant secretary of the convention and later served two terms as governor of Texas, "it is generally thought that Mr. Childress brought the draft of the declaration of independence with him to the convention." This fact can hardly be doubted, since the committee agreed on a declaration in an almost unbelievable length of time. The draft brought to the convention by Childress was accepted by other members of the committee and the declaration was pushed through with great dispatch.

The handwriting in this rough draft, recently identified in the archives at Austin, resembles remarkably the signature of Childress, and accepted as being written in his own hand. As further proof, handwriting experts have checked the similarity in writing in the two papers and agree they were written by the same person.

### Part Of Coal Act Is Upheld In U.S. Court

**Test Of Guffey Law Will Be Taken To The Supreme Court**

WASHINGTON, Nov. 30. (UP)—Price-fixing provisions of the Guffey bituminous coal control act were upheld by the District of Columbia supreme court in a surprise decision delivered orally by Justice Jesse Adkins.

The jurist, however, invalidated sections seeking to regulate wages and hours, thus enabling the new deal to claim only a partial victory. The case will be taken to the U. S. supreme court for a final decision.

James W. Carter, president of the Carter Coal company of West Virginia, who brought the suit to test the law, lost his plea for permanent injunctions to restrain the government from collecting a 15 per cent "compliance tax" to be levied on the value of coal and to enjoin his company from accepting the producers' code created by the statute.

The judge did, however, grant a stay which will prevent the government from collecting more than a 1-1-2 per cent tax from the Carter concern.

The justice followed the reasoning of new deal attorneys when he declared that the price-fixing provisions were valid. "It seems to me," he said, "that congress does have the right under all the facts shown to do what is necessary to remove obstruction and prevent dislocation of interstate commerce in bituminous coal."

He indicated the government had presented a sound argument when it contended that price-fixing was necessary to correct "evils," including "cutthroat competition," in the industry, and added that congress could fix prices under the powers delegated to it by the commerce clause of the constitution.

car weight. As the industry progressed, we learned how to get more power out of an engine of given size, and how to reduce car weight too, until today it is a simple matter to give a car all the acceleration and all the road speed that can be desired.

"From now on, engineering for economy will gain in importance. As the efficiency of engines increases, we can reduce their size without reducing power, thus bettering the ratio of power to weight. As fuels improve, we will use less gasoline to develop any given

horsepower. "Of course, every automobile engineer constantly seeks to improve economy of operation. That is, he has for his constant goal the achievement of maximum efficiency—and efficiency, after all, means economy."

### Probe Of Safety Department To Start This Week

DALLAS, Nov. 30. (UP)—Rep. Sam Hanna of Dallas, chairman of a house committee named in the legislature to survey activities of the state safety commission, and in particular the discharge of Ranger Capt. Tom Hickman, said the committee would begin its hearings "some time next week" in Fort Worth.

"We will make as thorough a survey as possible with the limited funds available," Hanna explained. "The house only provided \$300 for our expenses."

He said he was preparing a list of witnesses to be summoned and added that he had talked with Capt. Hickman, who, he indicated, was

### Development Of Autos Turns To Economy Feature

DETROIT, Nov. 30.—Automobile engines will continue to improve in efficiency year after year, but future gains will be utilized to increase economy, rather than to add to the horsepower and speed of cars, according to James M. Crawford, chief engineer of the Chevrolet Motor company.

"From the early days of the automobile," said Mr. Crawford in a recent address, "the demand has been for more power per pound of anxious for the committee to investigate his dismissal.

MRS. PETE JOHNSON

## Holiday Season Has Wide Variety Of Attractions

### Reunions, Services In Limelight For Week-End

Union church services, family reunions, returning college students, and football featured the Thanksgiving holidays. But all in all, it was one of the most delightful holiday seasons for Big Spring in years.

Probably the most complete of the family dinners on Thanksgiving Day, so far as having the entire family at home is concerned, were had by Mr. and Mrs. J. R. Creath and Mr. and Mrs. H. W. Leeper. The Pete Johnsons had all but one and Dr. and Mrs. G. S. True lacked several.

## Cauble P.-T. A. Plans Christmas Program, Mrs. Dave Leatherwood Selected To Lead Organization

A meeting was held at the Cauble schoolhouse Wednesday afternoon to reorganize the P.-T. A. for the school. Mrs. J. F. Sellers was temporary chairman until election of officers was completed. Mrs. Dave Leatherwood was elected chairman, Mrs. A. D. Franklin vice-chairman, and Miss Nova Lynn Graves, secretary-treasurer. Plans for the year were discussed. The organization decided on a Christmas tree and program for its first project. A committee composed of Mrs. A. D. Franklin, Mrs. R. L. Findley and Mrs. Ches Anderson will have charge of the Christmas tree and to fill the candy bags. Meetings will be held on the last

Friday of each month at 2 p. m. with a small fee for each member. Present for the meeting were: Mr. and Mrs. Dave Leatherwood, A. K. Merrick, Mrs. John Coleman, Mrs. J. O. Miller, Mr. and Mrs. A. D. Eard, Mr. and Mrs. A. D. Franklin, Miss Benetta Franklin, Mrs. H. G. Russell, Mrs. C. J. Russell, Mr. and Mrs. A. C. Treadway, Mr. and Mrs. Milton Gaskin, Mrs. R. L. Finley, Mrs. Lois Jernigan, Miss Mary Lois Jernigan, Mrs. Ches Anderson, Mrs. Finny Franklin, Mrs. Lena LeFever, Mrs. S. M. Callihan, Mrs. Joe Simmons, Miss Lilly Faye Penny, Miss Pansy Penny, Mrs. G. R. Simmons, Mrs. J. F. Seller and Miss Nova Lynn Graves.

At the Creath's were Evelyn, who teaches in Lamesa and Mildred, local teacher. Mr. and Mrs. G. J. Earley, Mr. and Mrs. Lee Wilhight who are intimate friends of the family. The Leepers had Mr. and Mrs. Tom Helton and Dr. and Mrs. Bennett and daughter, Louis Ann. At the Johnson home were Mr. and Mrs. Ebb Hatch, Mr. and Mrs. Hilo Hatch, Mr. and Mrs. Joy Johnson and daughter, Charlene, Mr. and Mrs. Monroe Johnson and small daughter, Mr. and Mrs. Y. C. Gray, of Garden City, and Mrs. W. A. Earnest. Dr. and Mrs. Wofford Hardy and children attended a family reunion at Anson, home of Dr. Hardy's parents. Dr. and Mrs. True's family, being rather widely scattered, did not all get to come home. Those who were there were Mr. and Mrs. Jerome Lusk and their children, Mr. and Mrs. R. H. Miller and son, Mr. and Mrs. Archie True and children, Mr. and Mrs. Hayden Griffith and Mrs. Mrs. Stanley Davis.

The number of college students who returned home for the Thanksgiving holidays exceeded that of many years past, with, of course, the exception of the Christmas season. Union services, under direction of the local pastor's association was one of the most impressive ever held here. The Rev. G. C. Schurman, First Christian pastor, was the principal speaker of the evening. A fair size crowd attended. Thursday, Thanksgiving day, saw hundreds of cars leaving for Sweetwater for the game. Big Spring showed her Steers off to a good advantage and displayed one of the best drilled pep squads and peppest bands in this section. "Torchy" Bright, flaming haired drum major, strutted all over the field much to the delight of the fans. Few Big Springers remained in

Sweetwater for the dances there Thursday evening, most of them boarding the special that returned soon after the game. Friday's entertainment was furnished by Ned Bradley's orchestra who played for a dance at the V.F.W. hall, and was attended by most of the younger set and their out of town guests. Saturday was spent near a radio and football was the cause of it all. Sunday saw the boys and girls start back to their respective colleges and universities for study until Christmas when even greater numbers will spend the holidays at home.

## Doris Jeanne Glenn Entertains Friends With Birthday Party

Doris Jeanne Glenn entertained friends Friday afternoon in celebration of her eighth birthday. Games were played with Delma Buffington and Carolyn Cantrell winning first and second places in the drawing contest. After the games, the little guests assembled in the dining room around the table that was centered with a large birthday cake. They sang a birthday song to the honoree who then blew out the candles. Refreshments were served to: Eva Jane Darby, Mary Joyce Minns, Billie Newsum, W. S. Garnette, Naime Mannin, Nada Ruth and Delma Buffington. Welcome Martin, Carolyn Cantrell, Jeanne Dickerson, Juanita Coker, Leola Fee Vines, Bobbie Joe Wyatt, and Allene Browning.

## Interesting Program Given By Pupils Of Cauble School

Pupils in the Cauble school staged a varied and interesting program with offerings ranging from songs to readings to playlets. The following program was presented: Songs, Mrs. Sellers' room: "That's Thanksgiving," Garland Findley; "Thanksgiving Parade," Mrs. Sellers' room; "Thankful," Wanda Ford; "Elsie, You Washed," Elsie Ford; "The Child Who Was Polite," Miss Graves' room; "A Good Thanksgiving," Jerry Ford; "My Grandmother," Harold B. Leatherwood; "The Purple Cow," A. C. Treadway; "An Epitaph for Speeding," Arthur W. Franklin; piano solos, Allene Rus-

## Painting Of Austin Is On Display Here

### Original Picture Of Hero Of Texas Is At The Museum

An original painting of Stephen F. Austin is now on display in the West Texas Historical museum. The picture was made in the fall of 1836 while Austin was serving as secretary of state for the Republic of Texas.

Austin had this picture made and framed and presented to his friend, a Mr. Resley, surveyor in the early days of Texas land grants. Mr. Resley gave it to his daughter, Mrs. Ellen Marler-Hodges, who died in Las Cruces, N. M., in April, 1933. She was buried in Mt. Olive cemetery, Big Spring. A short time before her death she gave the picture to Frank Marler, her son. The painting was presented for display by John Resley Marler, great-grandson of the surveyor, Resley. "At the foot of the frame is part of the statesman's name, which can still be read, though faded and partly destroyed. The picture is encased in an old type mahogany frame and the pose is familiar to those who study Texas history in that it is reproduced in text books. Leaning on his long rifle, his back to a tree, and dog by his side, Austin seems to be a living and breathing Texan. The picture was presented to the museum by John Resley Marler on Nov. 23, 1935. Mr. Resley lives in the Fairview community and is manager of the Fairview filling station.

## Seven Pillars Of Wisdom To Be First Of 1930 Hyperion Reviews This Season; To Be On Saturday

The 1930 Hyperion club—formerly the Junior Hyperion club—announces the first of its series of book reviews this year Thursday afternoon at the Settles hotel, room number one, at 4 o'clock. The book will be "Seven Pillars of Wisdom," by T. E. Lawrence, and the reviewer will be the Rev. P. Walter Henckell, rector of St. Mary's Episcopal church.

"Seven Pillars of Wisdom" is the book made famous because of the incidents concerning its publication. According to rumors, it was written long before Lawrence's popular "Revolts in the Desert" made him a world-wide figure. In "Seven Pillars of Wisdom," however, he revealed secrets of the British policy in Arabia that showed leaders in the wrong and told names of these men. Because it was such an outspoken book, the manuscript was stolen from Lawrence and he had to rewrite the book again. He decided to publish "Revolts in the Desert" which contained appetizing samples of the former book and to hold "Seven Pillars of Wisdom" for publication after his death. This book that Mr. Henckell will review is the unexpurgated edition. This, however, is its second publication. It was first published quietly and to keep it from wide circulation, the publishers set the price of the edition at \$20,000 a volume. To their surprise and that of the author the whole edition was sold out at this price. Lawrence's death in England about a year ago was the subject of debate among his friends who thought it might have not been the accident it seemed. He was killed in a collision while bicycling along a country lane.

The 1930 Hyperion club will use the proceeds from the review to build up the juvenile library that they started last spring and that proved so popular during the summer.

## PERSONALLY SPEAKING

J. R. Mize of Mississippi and R. E. Basham of Westbrook are guests of Mr. and Mrs. Bernard Harmon.  
Mrs. R. E. Day has as a guest her daughter, Mrs. E. V. McCollum of Ponca City, Okla., who arrived Friday evening.  
Mrs. Clyde Sanders of Trona, Calif., is visiting her parents, Mr. and Mrs. Will Olsen during Mr. Olsen's illness. She plans to be here until after the Christmas holidays.  
Miss Geraldine McClendon and Miss Martha Vandiver, students at Howard Payne college, are visiting Miss McClendon's parents, Miss Vandiver of El Paso is Miss McClendon's roommate.  
Mr. and Mrs. Ely Dalmont of Littlefield, Thanksgiving guests of Mr. and Mrs. R. L. Price, have returned home.  
Mr. and Mrs. Kin Barnett have as guests Mr. and Mrs. A. T. Nicholson of Dallas who were married Thursday in Dallas and are on their honeymoon. Mr. Nicholson is a brother of Mrs. Barnett.  
Mrs. E. D. Merrill, Mrs. W. R. Ivey and her mother, Mrs. H. Surginer of Floydada, left Saturday for Brownwood for a visit with friends and relatives. They will return Monday.  
Frank Holmes, formerly of the Eberley Funeral home, but now with the Foster Funeral home in Slaton, is in the city over the weekend, the guest of friends. He will return to Slaton Sunday evening.  
Altus, daughter of Mr. and Mrs. H. Phillips returned today to Denton where she is a student at C. I. A.  
Mr. and Mrs. Wilburn Dunn visited recently in San Angelo and Sonora.  
Mr. and Mrs. Charles Coulson and daughter, Frances, spent the past week in Fort Worth.  
James Thompson, John Camp Adams, Marie and Frances Jones, and Alida Alston, Tech students are visiting their parents in For-

## Double Fours Entertained By Club Lows

### Group Is Not To Meet Until After Christmas Holidays

Miss Beverly Franklin was a luncheon guest of the Double Four bridge club when the low scores entertained the highs Wednesday. Mrs. R. H. Miller, Mrs. William Dehlinger, and Mrs. Ed Allen were hostesses at Mrs. Allen's home. Bridge followed the luncheon, and prizes were awarded to Mrs. J. N. Blue for high score, Mrs. Ed Allen for bingo and Mrs. R. H. Miller captured the floating prize. Members present were Mrs. J. N. Blue, Mrs. Gene Wilson, Mrs. Shelle Barnes, Mrs. Frank Rutherford,

## Business Women In Club Session

### The Business and Professional Women's club had an educational program recently at the Crawford hotel in its first regular meeting.

The subject of the program was "Education." Mrs. Anna Gibson Houser was in charge. Talks were made by Mrs. C. A. Bickley and Miss Anne Martin, president. Mrs. Sudie Gibson, mother of Mrs. Houser, gave a reading in negro dialect. Miss Evelyn Jackson, accompanied by Miss Roberta Gay, played two violin numbers. Fifteen members were present for the meeting.  
Mrs. W. S. Wilson and the three hostesses. The club will not meet again until the first of the year. Another effort to climb Mount Everest will be made by British explorers in 1936.

### Silver And Green Christmas Trees In Cellophane Wrap Set 1935 Style

ST. PAUL, Minn., Nov. 30. (UP)—The old-fashioned Christmas tree that shed its needles all over the parlor floor before grand-father had fired his blunderbuss on New Year's Eve is passe.

In its place is offered a new product from Northern Minnesota spruce swamps—still a Christmas tree—but a sleek, durable, glistening thing of beauty wrapped in cellophane.

The modern Christmas tree, according to Ray Clement, state forestry expert, is the product of an infant industry which already boasts two large plants in Duluth and Cook, Minn.

These new trees, marketed in virtually every state in the Union, will be colored silver or a processed green, and will range in size from table centerpieces 20 or 30 inches high to majestic ballroom

giants nine or more feet in height. Next year additional colors may be offered.

The method of treatment varies with the processor, but the chemicals used are guarded trade secrets. At Duluth, where the finished trees are piled into a huge refrigerated warehouse ready for widely scattered markets, a dipping process is used. The manufacturer promises the needles will hold fast for several months as a result. At Cook the processor sprays the trees. Similar durability claims are made by him. In either method, the green trees emerge slightly darker in color than were the unprocessed trees. The tablepieces, a specialty of the Duluth company, are equipped with a base.

Minnesota has an indirect interest in this industry, which be-

### Scouts Widen Aid To Youths

#### Educational And Vocational Enterprises To Be Promoted

PITTSBURGH, Nov. 30. (UP)—Bands of youths roaming the country and unorganized wanderers will be only memories of the depression when proper educational and vocational enterprises are initiated for their relief, according to Thomas J. Keane, New York director of scout scouting, Boy Scouts of America.

"The CCC camps which the president started in motion were the first great step toward rehabilitating the young men of America," he said. "At 15 a boy becomes a man, and at that stage in life he wants something active to do. New interests are crowding his life and some sort of educational diversion must be presented."

In line with his views, Keane Scout program which the national Boy Scout organization is starting in Pittsburgh, which is designed to eliminate juvenile wanderers and to keep them close to home. The nationwide program is outlined for youths from 15 to 25.

Keane asserted that boys of this age are filled with a desire for adventure and the purpose of the new program is to sublimate these natural impulses.

about three years ago. Most of the trees are taken from state-owned lands, under supervision to insure adequate replacements over a five-year period. Tracts of muskeg from Minnesota's 20,000,000-acre reserves are leased with renewal options and the proceeds revert to the state's school funds.

Packaging is an important part of the industry. Paper cartons carry the finished trees, which are packed in tightly, but which unfold to a natural contour when exposed in a warm room. Many of the small table trees are wrapped in cellophane, while at Cook numerous orders for large trees on request also are cellophane wrapped.

By-products of the Cook plant include numerous processed wreaths, garlands and pine cones. One many of these decorative pieces a third color—red—is used.

### Every State Has Part In Car Building

#### Motor Industry Provides Employment For More Than Five Million

NEW YORK, Nov. 30.—"Most Americans think of Detroit as the motor capital of the country, but the whole nation actually contributes to the motor car," D. S. Eddins, president of the Plymouth Motor corporation, said in discussing the reasons for the motor car industry's importance in leading national business recovery.

"The business of making, selling and servicing motor transportation absorbs more than 5,000,000 men and women workers," Mr. Eddins said. "One out of every six American workers derives his daily bread—either directly or indirectly—from the automobile industry."

"Behind that fact lies the reason for the motor car industry's importance as a vital force in leading the United States back to prosperity."

"Industrial cities and farming communities alike share in the fortunes of the motor car industry. Millions of workers in all walks of life—miners in lead, zinc and copper mines; cotton pickers in the south; shepherds in the west; and industrial workers in scores of cities—owe a big part of their income to this one industry."

"The amount of raw material and finished car parts necessary to keep automobile assembly lines going staggers the imagination. In one year the industry uses between four and five million tons of steel and a quarter million tons of malleable iron. Automobile factories absorb 350,000 tons of rubber, 12,000 tons of aluminum, 81,000 tons of copper and more than 80,000,000 square feet of plate glass. One of every ten bales of cotton and 4,000,000 pounds of mohair go into new motor cars in a year."

### Report Heavy Sale Increase

#### Hudson, Terraplane Total Far Above That Of Previous Year

DETROIT, Nov. 30.—Reports of increased sales from the leading cities where automobile shows already have been held show that retail sales for 1935 Hudsons and Terraplanes are running from 1-2 to four times greater than those reported a year ago, according to W. R. Tracy, vice president in charge of sales of the Hudson Motor Car company.

"This marked increase in retail orders," stated Mr. Tracy, "is reflected in the stepping up of our production schedule to 33,500 cars for the last quarter of this year, which is 11,000 cars greater than the first three months' shipments of 1935 models."

"Another comparison which shows to a marked degree the public acceptance of our 1936 offerings, is in the fact that factory shipments during the last three months of 1935 will be fully one-half of the total for the first nine months of the year."

"Our dealer record," continued Mr. Tracy, "as of today, shows that 248 new dealers have joined up with Hudson since the announcement of the new cars."

### H. P. Davis Resigns As Pecos Secretary

PECOS—H. P. Davis, secretary of the Chamber of Commerce for the past four and one-half years, tendered his resignation to the president of the body Wednesday to accept the position of manager of the Douglas Chamber of Commerce and Mines in Douglas, Arizona. Mr. Davis will take up his new duties December 8th.

### Early Resident Of Midland Dies

MIDLAND—J. M. Flanigan, 71, Midland feed dealer, died at his home here at 2 a. m. Friday after an illness of three months caused by a lung infection. He recently had been taken to an El Paso lung specialist and was given not more than six weeks to live. He was brought back here by family members early last week.

Coming to Midland 48 years ago, Mr. Flanigan first was employed by cattle ranches, later being connected with the Midland Hardware Co. for several years and then with J. E. Hill in the feed business. He purchased the Midland Feed store three years ago and was operating it at the time of his death.

His wife, a son, J. M. Flanigan Jr. of Gladewater, and a daughter, Miss Emily Flanigan of Midland, survive. J. M. Flanigan Jr., with his wife and child, had been here for a week, having been called by Mr. Flanigan's illness.

### Report Heavy Sale Increase

#### Hudson, Terraplane Total Far Above That Of Previous Year

DETROIT, Nov. 30.—Reports of increased sales from the leading cities where automobile shows already have been held show that retail sales for 1935 Hudsons and Terraplanes are running from 1-2 to four times greater than those reported a year ago, according to W. R. Tracy, vice president in charge of sales of the Hudson Motor Car company.

"This marked increase in retail orders," stated Mr. Tracy, "is reflected in the stepping up of our production schedule to 33,500 cars for the last quarter of this year, which is 11,000 cars greater than the first three months' shipments of 1935 models."

"Another comparison which shows to a marked degree the public acceptance of our 1936 offerings, is in the fact that factory shipments during the last three months of 1935 will be fully one-half of the total for the first nine months of the year."

"Our dealer record," continued Mr. Tracy, "as of today, shows that 248 new dealers have joined up with Hudson since the announcement of the new cars."

FOR 1936 . . .

# Drive a Luxury Car!

## BRILLIANT New Chryslers START AT \$760\*

and Up, List at Factory

**THIS YEAR, drive a big car!** Step into the luxury class with a 1936 Chrysler . . . and still keep your budget happy!

You can buy a big new Chrysler Six for just a little more than the price of lowest-priced cars. You can drive this big luxury car at a cost as low, and in many cases lower, than smaller cars.

You get big-car comfort and roominess. Big-car riding ease from big tires and big, soft-acting springs. Big-car power, speed and pick-up. Big-car steadiness on the road.

Through the miracle of Automatic Overdrive, available on the Six at slight extra cost, you actually get from 3 to 5 more miles from every gallon of gasoline at all touring speeds.

**New De Luxe Eight**

If you like action . . . be sure to drive the 1936 Chrysler De Luxe Eight. Fast and nimble, velvety-smooth . . . this brilliant new Chrysler handles like a small car, but rides with all the solid comfort of 121 and 133-inch wheelbases. Typical of two thousand dollar cars in smartness and appointments, it is priced surprisingly enough in the thousand dollar range.

**New Chrysler Airflows . . . the world's most modern travel**

For 1936 Chrysler presents two beautiful new Airflows . . . the Airflow Eight and

**Ask for the New Official Chrysler Motors Commercial Credit Company**

**6% TIME PAYMENT PLAN**

You can figure it out for yourself.

1. Start with your unpaid balance.
2. Then add insurance cost . . . at conference rates.
3. Then multiply by 6%—for a 12 month plan. One-half of one per cent per month for periods more or less than 12 months.

In some states a small legal documentary fee is required.

**NO OTHER CHARGES**

Airflow Imperial. Here you find the spaciousness only Airflow design makes possible . . . great wide doors . . . divan-like seats . . . real comfort for six grown people. Here is Floating Ride at its finest, for only Airflow design permits the fullest advantage of new weight distribution. Here, too, is the greatest safety on the

road . . . you ride inside the strong steel girders of the car frame.

Automatic Overdrive is standard on the Airflow Imperial. It is available on any 1936 Chrysler at small extra cost. All the 1936 Chryslers have strong, rigid safety-steel bodies . . . famous Floating Power . . . time-tested hydraulic brakes . . . integral body-form trunks on Sedans.

See and drive the Chryslers for 1936. Then ask yourself this question: With Chrysler offering so much luxury . . . for so little more than the cost of just plain transportation . . . isn't it sensible now for me to own a Chrysler?

- \*1936 CHRYSLER SIX . . . 93 horsepower, 111-inch wheelbase. Six body types. Prices \$760 and up. Four-Door Sedan \$875.
- \*NEW CHRYSLER DE LUXE EIGHT . . . 105 and 110 horsepower, 121 and 133-inch wheelbase. Seven body types. Prices \$925 and up. Four-Door Sedan \$1045.
- \*CHRYSLER AIRFLOW EIGHT . . . 115 horsepower, 121-inch wheelbase. Six-passenger Sedan and six-passenger Coupe \$1145.
- \*CHRYSLER AIRFLOW IMPERIAL . . . 130 horsepower, 121-inch wheelbase. Six-passenger Sedan and six-passenger Coupe \$1475.

\*All prices list at factory, Detroit; special equipment extra.

**See the cars—The 1936 Chryslers are on display at Chrysler dealer showrooms.**

**Early Resident Of Midland Dies**

MIDLAND—J. M. Flanigan, 71, Midland feed dealer, died at his home here at 2 a. m. Friday after an illness of three months caused by a lung infection. He recently had been taken to an El Paso lung specialist and was given not more than six weeks to live. He was brought back here by family members early last week.

Coming to Midland 48 years ago, Mr. Flanigan first was employed by cattle ranches, later being connected with the Midland Hardware Co. for several years and then with J. E. Hill in the feed business. He purchased the Midland Feed store three years ago and was operating it at the time of his death.

His wife, a son, J. M. Flanigan Jr. of Gladewater, and a daughter, Miss Emily Flanigan of Midland, survive. J. M. Flanigan Jr., with his wife and child, had been here for a week, having been called by Mr. Flanigan's illness.

J. M. Flanigan and Mrs. Flanigan

# Mexico Planning To Inaugurate Pan-American Highway In May; Road Is Unofficially Open Now

MEXICO CITY, Nov. 30. (UP)—The Pan-American highway, linking Laredo, Tex., to Mexico City, is nearing completion. The department of communications reports that work on the stretch between Jacala and Tamazunchale is scheduled to be finished in December, 1935. Bridges that remain to be finished are scheduled to be ready by April, 1935. Unless something unexpected happens, it is the intention of the government officially to inaugurate the road in May, 1936. Officially the road is not open now, although it is being daily used by persons coming from various parts of the United States to the capital in their own cars. By having the road officially "closed" the government avoids any responsibility for delays or discomforts which might be endured by tourists. Engineers and motorists who

have made the trip in recent days told the United Press correspondent that it will require many months for the gravel to settle. Landslides, they say, are likely to occur for several years to come in certain sections, but once they fall, they can be rapidly cleared away and should not interrupt traffic. High Speed Impossible The looseness of the gravel makes it impossible to make much speed in various sections. Nevertheless, there are drivers who come through from the border, 767 miles in three days, and some in even 2-3 days. Mexican officials here generally deprecate reports that the road is complete and that it is smooth throughout. Mexicans do not overrate the highway, so that anybody who suffers several punctures en route, delays by slides or in ferrying rivers, need not complain of misinformation before leaving home. Some tourists have told the correspondent that they were unable to find any good hotels en route except at Monterrey and Victoria. Mexican officials were asked if anything was being done to remedy this condition, and was informed that the government is not doing anything directly, but is giving all kinds of facilities—such as exemption from taxation—to any private concerns desiring to construct hotels not only along this road, but on any road which may be used by tourists.

## Services Churches Topics

**FIRST CHRISTIAN CHURCH**  
Fifth and Scurry  
G. C. Schurman, Pastor  
9:45—Bible school.  
11—Morning worship. Sermon by pastor. Topic: "What Is Religion?"  
6:30—Christian Endeavor.  
7:30—Evening worship. Topic: "The Call to the Colors."  
George Wilke, superintendent, urges that folks come on time. Our school and morning worship are run on schedule, and every member of every class should be in his place at 9:45.  
The Christian Endeavor had a fine meeting last Sunday night. There were 55 present. The elders and deacons were their guests. Every person of endeavor age is urged to be present next Sunday. There have been 23 additions to the church in six weeks. The attendance is exceptionally good. The people have a mind to work. The pastor appreciates all this and urges a continued and increased faithfulness.

**FIRST METHODIST**  
Rev. Sam H. Young, new presiding elder for the Sweetwater district, will visit the First Methodist church of Big Spring Sunday night, and will preach at the 7:30 p. m. service.  
The church pastor, Rev. C. A. Bickley, will preach at the morning hour on the subject, "A Vacant Chair." There will be special music by the choir.  
Sunday school, under direction of A. Schnitzer, superintendent, will be at 9:45 a. m. Young people's meeting are scheduled for 6:30 p. m.

**FIRST PRESBYTERIAN**  
The new pastor of the First Presbyterian church, Dr. D. F. McConnell, will assume duties Sunday, and will occupy the pulpit for the first time at the day's services. He will preach at 11 a. m. and 7:30 p. m. The membership is urged to attend the services and give him a warm welcome, and visitors are invited.  
Sunday school will be at 9:45 a. m. and young people's meeting at 6:30 p. m.

**CATHOLIC SERVICES**  
Held every Sunday, St. Thomas parish church in North Big Spring.  
9:30 a. m. High mass, English sermon.  
7:30 p. m. Evening prayer, doctrinal lecture, all English program. Everyone cordially welcome. Rev. Charles J. C. Taylor, O. M. I., pastor.

**ST. MARY'S EPISCOPAL**  
Services for the first Sunday in Advent at St. Mary's Episcopal church are as follows:  
9:45 a. m. Church school.  
10 a. m. Adult Bible class.  
11 a. m. Holy Communion and sermon by the rector.  
Sunday marks the beginning of the Advent season when we begin our preparation for Christmas. The auxiliary will hold its weekly meeting Monday at 3 p. m. in the parish house.  
Visitors are cordially invited to worship with us.

**CHRISTIAN SCIENCE SERVICES**  
Christian Science services are held each Sunday, room 1, Settles hotel.  
Subject: "Ancient and Modern Necromancy, alias Mesmerism and Hypnotism, Denounced."  
Golden Text: Psalms 139: 22, 24. Search me, O God, and know my heart; try me, and know my thoughts; and see if there be any wicked way in me, and lead me in the way everlasting.

**CHURCH OF CHRIST**  
Fourth and Main Sts.  
Forrest R. Waldrop, Minister  
Lord's Day services: Bible classes, 9:45 a. m.; sermon and communion, 10:45 a. m.; subject "Thankfulness." Young people's meeting, 6 p. m.; sermon and communion, 7:15 p. m.; subject, "Following Christ."  
Monday: Ladies Bible class, 4 p. m.  
Wednesday: Mid-week service, 7:15 p. m.  
You are always welcome.

**ST. PAUL'S LUTHERAN CHURCH**  
501 North Gregg  
T. H. Graulmann, Pastor  
10 a. m. Sunday school and Bible class.  
11 a. m. morning service. The pastor will preach the first of a series of four Advent sermons, on the general topic: "Behold He Shall Come." The theme of Sunday's sermon will be: "Behold He Shall Come, the Messenger of the Covenant."  
FIRST BAPTIST  
Rev. R. E. Day, Pastor  
9:30 a. m. Sunday school, Geo. H. Gentry, superintendent.  
10:45 a. m. morning worship. Anthem: "The Lord Is My Shepherd." Sermon by Dr. E. E. Atwood, Hardin-Simmons university, Abilene.  
6:30 p. m. Baptist Training Union, Ira M. Powell, director.  
7:30 p. m. evening worship. Special music to be arranged. Sermon by Dr. E. D. Atwood, Abilene.

**BIRTH ANNOUNCEMENT**  
Born to Mr. and Mrs. W. L. Sandridge of the Cooden refinery, a nine-pound daughter. Both mother and child are doing nicely.

by-laws was drawn up by this committee. All members of the class have been urged to attend the Dec. 10 meeting.

**Class To Hold Social-Business Meeting Dec. 10**  
A combined social and business meeting of the Every Man's Bible class has been planned for the evening of Tuesday, Dec. 10, at which time officers for the coming year will be elected and a set of by-laws adopted. The session will begin at 7:30.  
Plans for the session were made at a recent meeting of a class committee, composed of George Owen, R. W. Ogden, W. E. Martin, Rev. G. C. Schurman, J. R. Creath and C. C. Balch. A set of

# Trade Pact A Riddle For Politicians

In the treaty provisions. That still may be true; but it will require the burning out of a delayed fuse to disclose how great the explosion will be. Meantime caution and curiosity strike the prevailing note. It will take months to test the treaty in actual operation, and that seems likely now to provide the only fully reliable yardstick of the political reaction. If the aggregate of trade with Canada increases materially, and no particular gain in this country is damaged seriously in the process, democratic spellbinders may be expected to put the treaty high on their "pointing-with-pride" list in the 1936 campaign. If things go wrong, however, if recovery falters and certain classes think their troubles are tied up with this sweeping revision of American trade policy, then there will be plenty of "viewing-with-alarm" among the republicans. One complication is that the first adverse criticism has come from those sections where Mr. Roosevelt is strongest politically. Various western and northwest-

# New Agreement Far Reaching, Party Factors Not Involved

By BYRON PRICE  
(Chief of AP Bureau, Washington)  
The new Canadian trade treaty has some of the wisest politicians completely stumped. The agreement is far more technical and involves a far greater number of commodities than had been expected generally. It cuts across political lines in a most confusing manner. The verdict of many leaders is that only time can tell which party will benefit most. Advance reports were that much political dynamite was wrapped up

# Services Churches Topics

erm farm leaders and lumber men voted concern over the prospect of increased imports of Canadian timber and agricultural commodities, including cattle and dairy products. In calculating the net political reaction, however, it must be remembered that the west and northwest also will be reminded by the democrats of other Roosevelt policies during the coming campaign. Unquestionably the outpouring of AAA benefit payments is a factor which can be presented as overshadowing the supposed effect of a treaty which, after all, is a remote instrument compared to a bankable check. Similarly, in the lumber country, the reclamation and power policies of the administration take visible form in the very midst of many communities. It also is possible that democratic leaders may be able to link together in the public mind the trade treaty and the unratified St. Lawrence waterway treaty. That would be particularly likely if, as reported, the president asks for another vote on the St. Lawrence pact next session. And it is worth noting that when

# Services Churches Topics

the waterway treaty failed of ratification last session, it drew its chief support, regardless of party lines, from the west and northwest. Fletcher Hesitated Conversely, much of the republican caution doubtless is traceable to the fact that the trade agreement has been accepted with such equanimity in those quarters where republican hopes for 1936 are high. Some of the largest manufacturing industries, centering in the east, see possible benefits from the lowering of Canadian import duties against shipments from the United States. The stock market's reaction was a buying spree which carried some securities to their highest peak in many months. Then there is the further confusing fact that by this treaty the Roosevelt administration has leaned distinctly in the direction of a freer movement of industry, a leveling of artificial barriers and regulations. What this may mean as to the general trend of economic thought at Washington is a matter for speculation.

# Services Churches Topics

Altogether, it is a scrambled picture politically. Mr. Hoover has condemned the treaty unhesitatingly, but most of the others who have been mentioned as possible republican candidates for president have chosen to wait. Miss Mildred Rhotan, a student in T. W. C., is visiting her parents, Mr. and Mrs. D. A. Rhotan. She will return to Fort Worth this afternoon.
