

# Students Strike in Dorms Residents Protest Poor Quality Food

Vol. 34 Lubbock, Texas, Saturday, November 1, 1958 No. 19

## Festival Boosts Arts; Talk Starts Activities

Texas Tech's First Fine Arts Festival begins Sunday at 3 p.m. in the Tech Union Ballroom with the keynote address by Richard Tracy, assistant professor of architecture, entitled "What are Fine Arts?"

**THE FESTIVAL'S** main purpose, stated Dr. Truman Camp, English department head, "is to help students realize the value of fine arts in a well rounded education."

Highlighting Monday's events will be a film, "The Barber of Seville" at 4 p.m. and a Modern Dance Concert, 8 p.m. Concert will be the first appearance of the season for the group.

**THE FILM** is a new and complete version of Rossini's immortal comic opera and is sung in French with English subtitles. Other events rounding out the festival are a lecture at 4 p.m. Tuesday by Dr. J. T. McCullen, English professor, and a second performance by the Modern Dance group.

Wednesday's activities will in-

clude the grand prize winner of the Cannes Film Festival, "Mr. Hulot's Holiday," a film which will be shown in the Ballroom at 4 p.m. The music department will present a concert in the Lubbock Municipal Auditorium of orchestral and choral music.

**THURSDAY**, the Tech Stage Band will give a concert of progressive jazz at 4 p.m. in the Union lounge.

The speech department will present Jean Anouilh's "Antigone" in the Livestock Pavilion at 8:15 p.m.

The film, "Julius Caesar," will be shown in the Ballroom Friday afternoon at 4. "Subida al Cielo (Mexican Bus Ride), will be presented at 2, 4, 6, and 8 p.m. in Room 11 of the library. The film, a Mexican comedy, is sponsored by Capa y Espada and Sigma Delta Pi, national Spanish honorary. Dialogue is in Spanish with English subtitles.

**A FINE ARTS** Potpourri will be staged at 7:30 Friday night by the Tech Opera Theater. The

second performance of "Antigone" will round out the day's activities.

Curtain on the third and final presentation of the play "Antigone" will go up at 8:15 Saturday night to complete the Fine Arts Festival.

### Frosh To Elect Cheerleaders

Tech freshmen will go to the polls at 2 p.m. Sunday to elect the six frosh cheerleaders for this year.

"There will be no runoff," said Dennis McCarty, freshman publicity chairman. "The six candidates with the most votes will be elected."

Final results will be posted on the Student Council Office door after the ballots are tallied. More than seventy candidates are in the running.

"Candidates will be distinguished by a number rather than name on the ballot," McCarty said. "This will be done to keep voters from voting for a name rather than for ability."

Each candidate will be given a number Sunday afternoon when they perform before the freshmen voters. The voters will be given a ballot with the numbers on it, and will circle the numbers of the six giving the best performance.

Women candidates will perform in groups of four, while the men candidates will work in groups of three.

### BSO FEES DUE TODAY AT 5 P.M.

Attention Board of Student Organizations representatives. Dues of \$2.50 must be turned into the Board office today by 5 p.m. or the price will be raised to \$3.

Remember to check by the Board post office for mail.

### NEW LOOK

## Building Is Modern

by MARY ALICE ATCHISON

Planned for Tech by Techsians! This can be applied to the million dollar, modernistic office-classroom building soon to be erected on the north side of the Journalism Building.

Part of a long-range program financed by a Building Amendment Fund, it contains 75 business administration faculty offices and 24 general classrooms (8 classrooms per floor) for a maximum capacity of approximately 1,100 students.

**CONSTRUCTION** may begin in November, and it is hoped it will be ready for occupancy next fall. When completed, the building will eliminate about 85 per cent of the parking lot behind the Journalism Building.

In protest of what they termed "poor quality food," students in five men's dormitories at Tech went on non-eating strikes Thursday and Friday.

The first food strike started Thursday morning in Sneed Hall when an extra large number of residents went to breakfast, attempting to exhaust the food supply for that meal.

When noon came, almost none of the students in Sneed showed up for the meal. Then at the beginning of the evening meal, students started coming in, taking trays of food and dumping them with out eating.

Friday noon in Men's 5 and 6 students went in a semi-food strike as about one-third of the chow hall was filled throughout the eating period.

In a few minutes there was not a line leading into the dining hall from either direction. Occasionally a few would wander in and eat, but the majority of them would come to the entrance, look around a moment and walk off.

From Men's 5 at noon Friday there were approximately 100 students who ate, and from Men's 6 there were about 220.

**A SIMILAR** strike at Bledsoe and Gordon Halls was carried to a greater degree, and only 75 ate the noon meal in Gordon, and 150 in Bledsoe.

Lewis N. Jones, dean of men, said that he didn't know whether the protest of "poor quality of food" was justified or not, but he did know that the proper method to correct such a matter was not used.

This has come up before, and a committee has been set up to handle any problems that come up about dormitory food, he pointed out.

"**STUDENTS** living in dormitories should make their representatives responsible for bringing their views before the food-service committee, and then to report to them the outcome of the meeting," he stated.

The present set-up did not function properly this time and steps should be taken to correct it so the students can work through their representatives, and in turn the representatives can work through the committee, he added.

"**EACH TIME** an exhibition of this type takes place, it tends to degrade our college. Students should realize that this kind of action is not a mature way of handling affairs, and that once out of college the proper approach to matters is always desired," he concluded.

To point out the reason why the matter wasn't handled the right way, a dormitory food report Page 6, **STRIKES** . . .

### Clubs Ask For 18,000

Fifteen Texas Tech organizations have filed allocation applications asking for approximately \$18,000, as compared to the \$9,700 they received last year, announced Dan Howard, student council business manager.

The Student Council committee is meeting with representatives to work out the budget, Howard continued. The 15 organizations do not include the Tech Band, Tech Choir, or the Treador.

**AFTER THE** Student Council committee finishes its study, possibly within the next week, a recommendation will be made to the council.

The final decision rests with the College Allocations Committee, composed of President E. N. Jones, Dean James G. Allen and faculty representatives of the band, choir, athletic department and The Treador.

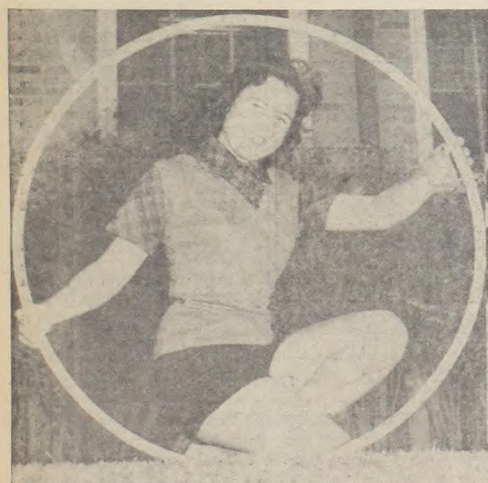

Last year the Treador received \$18,300, the band, \$7,800 and the choir, \$5,00. This added to the \$9,700, brings the total to \$40,800.

### LA VENTANA PAGE FEES DUE

All organizations must pay for their La Ventana pages by 5 p.m. Tuesday.

Cost per page is \$50. Contact Phil Orman in J.101 to reserve order.

Also, students may make appointments for their annual pictures until 5 p.m. on Tuesday by paying the \$1 penalty at J. 211.

**VERSATILITY**—The hula hoop is a versatile creation. Besides slimming down the hips, it can also be used to frame a pretty girl, as Leta Merle Riberts, Tech majorette from Littlefield, proves.

# ★ Campus ★

## Dean Sterner to Direct Seven Mortar Boards

Miss Jacqueline Sterner, assistant dean of women, has been appointed section director for Mortar Board chapters in Texas, New Mexico and Oklahoma.

The three-year appointment was made by Mortar Board national president.

DEAN STERNER will direct chapters at Texas University, Southern Methodist, Oklahoma University, Oklahoma State, University of Tulsa, University of New Mexico and Texas Tech.

"My job is to act as liaison between these chapters and the Na-

tional Council," said Dean Sterner.

Dean Sterner is attending a regional convention meeting today in Albuquerque, with nine Tech Mortar Board coeds.

MORTAR BOARD, a national senior women's honorary society, is composed of five to 25 outstanding senior women, chosen on the basis of scholarship, leadership and service.

Dean Sterner is campus sponsor of Forum Chapter of Mortar Board, and also of Casa Linda, Panhellenic and Junior Panhellenic.

### Strictly Ad Lib

## Combos to Jazz-Up St. Louis Ball Games

Thelonious Monk finally has been discovered. In a definitive profile of the jazz pianist in a recent issue of Down Beat, Frank London Brown explores the myth and the man.

A key quote comes from Monk's wife: "Thelonious was never like ordinary people, not even as a child," she told Brown. "He always knew who he was. 'Sometimes when he plays the blues, he goes way back to the real old time pianists — I'm always amazed, because I know he hasn't spent a lot of time listening to these pianists — yet it's there in his music. He has smaller hands than most pianists, so he had to develop a different style of playing to fully express himself.'"

Pianist Earl Hines is leading a comfortable, secure life

these days. He lives in a home in a suburb of Oakland, and works steadily at San Francisco's Hangover club. Recently, he stated, "Cabarets were a pleasure in the old days, because musician could relax without worrying about being analyzed by every customer in the place."

"At the same time, it was essential to have a sense of showmanship. Many musicians today are not finished products, and the customers know it."

### MUSIC NEWS

A work by Bill Russo will be among those performed by the New York Philharmonic orchestra, under the direction of Leonard Bernstein, this season—Saxophonist Herbie Fields swallowed an overdose of sleeping pills and died in his Miami home in mid-September — Jazz found a new home in the nation's capitol in September, when 2,000 persons filled the plush Sheraton hall of the Sheraton-Park hotel in Washington to hear the Modern Jazz Quartet, Mose Allison's trio, and the Charlie Byrd sextet —

The American Federation of Musicians announced plans to conduct a national dance band competition — Jazz and basketball will share doubleheaders at St. Louis' Kiel auditorium this season, with Lionel Hampton, Louis Armstrong and the Dukes of Dixieland among groups set to appear as part of St. Louis Hawks basketball games — After an eight-year absence, Paul Weston returned to the Capitol Records fold.

## Round About

Bill Pittman was recently elected president of the Dolphin swimming club. Other officers elected by the swimming fraternity were Harry Van Horn, vice president and Bob Alexander secretary. The group will begin work shortly on the annual Dolphin water show.

### ★ ★ ★

KAPPA KAPPA GAMMAS are leaving town this weekend: The Kappas will travel to Ceta Canyon for a fall retreat and workshop.

### ★ ★ ★

FOURTEEN "sharp - shootin' cherubs" have been selected to fire with Angel Flight rifle team. Selection was based on a firing score on two cards which averaged over 80. Tech coeds firing in coming meets will be Barbara Bryant, Nan Davis, Pat Dunn, Virginia Fowler, Carol Jean Hanks, Joyce Hervey and Laura Holland.

Others will be Pam Lane, Margaret Mead, Gwen Madole, Lynn McDonald, Sandy Miltzer, Liz Sherar and Carol White.

### ★ ★ ★

THE EPSILON DELTA Chapter of Delta Tau Delta recently initiated ten new members.

Recent initiates are: Marshall Chase, Donald Davis, Pat Fletcher, Hamilton Jenkins, Bill Mueller, Charles Price, Tommy Sanders, Cordell Smith, John Stokes and Jean Rawlinson.

Deltas have also elected new officers to various positions. Hamilton Jenkins will serve as Assistant treasurer; Donald Davis as historian; Bill Mueller, publicity; Charles Price, rush committee; Tommy Sanders, assistant music director and John Stokes, social committee.

### ★ ★ ★

"PROBLEMS and Issues of Secondary Education" will be discussed at a dinner meeting of Phi Delta Kappa this evening at 5:30.

Dr. Earl Seifert, past president of the North Central Assn. of Colleges and Secondary Schools will speak to the professional education fraternity in the workroom of the Tech Union.

### ★ ★ ★

NEWEST ALPHA Chi Omegas will become formally pledged Monday afternoon in the A Chi O lodge. Pledges will receive red carnations, their pledge pins and big-sisters, during the ceremony. The sorority's newest pledges are Janet Druessedow, Kathy Ruff, Julie Rainwater, Suzie Roberts, Linda Spillers and Jane Sargent.

### ★ ★ ★

SENIORS WILL discuss future plans at a meeting Tuesday at 5 p.m. Meeting place has not been decided upon but will be announced. Future grads plan to elect a class sponsor, appoint committees and discuss a gift to the college, said Joe Dunlap, senior class spokesman.

Dr. Morris S. Wallace, head of the department of education will speak on College facilities at a meeting of the American Institute of Architects on Tuesday at 7:30 p.m. in room 211 of the West Engineering Building.

Phi Delta Theta will host a date party at Mackenzie Little Party House and the Delta lodge will be the sight of the Delta Tau Delta lodge party.

**TWIRPING** — Two Tech coeds get in some preliminary practice for "twirp week," beginning Monday, under the approving gaze of a male Techson.

## Dating Situation Reverses; Girls Ask, Pay for Dates

The Woman Is Requested to Pay—TWIRP. This is your chance for revenge boys. During TWIRP Week, Tech coeds will reverse the dating procedure and ask boys for dates.

TWIRP Week, sponsored by the Tech Rodeo Assn., is in effect Monday through Saturday.

Policies adopted for TWIRP Week activities include: the woman making the date, arranging for transportation, paying all dating expenses, being prompt for all engagements and extending to boys courtesies that are usually extended to coeds.

Points will be given to Rodeo Assn. members who attend the week's activities. Minus points will be given for not following the policies.

TWIRP Week will climax with a Sadie Hawkins' Day Dance Nov. 8 at 8:30 p.m. in the Rec Hall, where trophies will be awarded to the boy and girl with the highest number of points. Admission to the dance is a TWIRP license with the number of points gained.

Nancy Jones and Lane "Tater" Goar are in charge of the week's activities. Over 300 Rodeo Assn. members are expected to enter TWIRP activities.

## Phi Mu Rushes

# Colonization Meetings Begin Monday in Dorms

Girls interested in the colonization of Phi Mu, Tech's eleventh national Greek letter social sorority, will meet Monday and Tuesday nights in the women's dormitories.

The meetings are under the direction of Panhellenic representatives Cora Jo Lilly, Sandra Broome Love, Carolyn Porter and Gail Peterson, Representing Phi

Mu will be Miss Shirley Welch, national traveling secretary and Morcia Marsh, transfer student from the University of Illinois.

Interested town girls will meet with residents of Drane, Horn and Knapp Monday night at 8:30. Girls in Doak and Weeks will meet at 10:30 p.m. Tuesday.

Next week coeds interested in meeting with Phi Mu representatives should schedule an interview for Monday or Tuesday, Nov. 10 and 11, in the Dean of Women's office.

Other Texas Phi Mu chapters are at Southwestern University, The University of Texas and the University of Houston.

## Best Dressed In U.S. Chosen

Mamie Eisenhower was named best-dressed woman of the year Monday, by the Fashion Foundation of America.

The foundation, one of several organizations that issue a "best-dressed" list each year, said the first lady "selects clothes which best bring out her natural charm. They said her choice of costumes "stimulates high interest in American designer fashions and serves as an inspiration to young designers."

**OTHER NAMES** according to category are: Ambassador of fashion — Mrs. Clare Booth Luce, former ambassador to Italy.

Society — Mrs. William Paley, wife of CBS board chairman William S. Paley and one of the famed Cushing sisters of Boston.

**DEBUTANTE** — Eileen Kingsbury-Smith, a New York deb of the current season.

State — Cornelia Otis Skinner, now appearing in the "Pleasure of His Company" on Broadway.

Television — Dorothy Kilgallen, and Arlene Francis of "What's My Line."

**HOSTESS** — Mrs. Wilbur Clark, wife of an executive of the Desert Inn, Las Vegas, Nev.

Screen — Ingrid Bergman.

## Ann Corrigan 'Miss Pledge'

"The winner is—Miss Ann Corrigan."

These exciting words left Ann Corrigan almost speechless Thursday night when she was elected "Miss Pledge of 1958-59."

"Oh you all," she cried. "I just don't know what to say—yes I do, too." Then turning to the pianist, she asked him to play "You'll Never Know," expressing her feelings through song.

Kappa Sigma sponsors the Miss Pledge contest each year, asking each sorority to enter two contestants. These are voted on by Kappa Sig rushees and members who then present the winner at a party on campus.

The five finalists were: Sara Ince, Kappa Alpha Theta; Ginger Gilbert, Kappa Kappa Gamma; Joy Keller, Delta Delta Delta; Ann Corrigan, Pi Beta Phi; and Karen Williams, Kappa Kappa Gamma.

## Charm Class Still Open

Classes in the Home Economic Charm School are still open as the second week of the school begins Monday, according to Miss Billie Wolf, assistant professor of home management.

For those who still wish to enroll, the classes missed will be made up.

**MRS. BETH ROTHMAN**, formerly of John Powers Modeling School, is presenting the course she taught the Powers models.

Approximately 50 girls are enrolled at present in the advanced and beginners classes. Advanced classes meet from 4-6 p.m. on the scheduled days, and the beginners meet either from 10-12 a.m. or from 6-8 p.m.

**SCHEDULED** classes will be Nov. 10, 17 and 24, and Dec. 2. Cost of the course is \$15 for the ten hours of instruction.

Those who wish to enroll should contact either Barbara Hale or Karen Noteware, or contact the Home Ec. Dept.

## Wallace At A.I.E.

"Junior College and College Facilities" will be the topic of Dr. Morris S. Wallace Tuesday night.

Dr. Wallace, department head of education, will speak to the American Institute of Architects at West Engineering 211 at 7:30 p.m. All architectural students are urged to attend. Coffee will be served.

THE TEXAS TECHNOLOGICAL COLLEGE

## Editorial Page

### Poor Food Leads To Dorm Strikes

FOOD STRIKES are the center of attention for both students and the administration of Texas Tech. There are several different ideas held by the two parties about the strikes.

The first thing students attribute the strikes to is simply "poor quality food." The people involved state that the food is flat and tasteless, and that there is too much repetition.

Another student view expressed was that students wanted to give the administration a hard time, and food strikes were the quickest way to accomplish this purpose. This one seems to be overridden by the first view.

Still another thought was that the matter of poor quality food could not, or was not, properly arbitrated between the students and the personnel charged with handling food service. The main point here was that the students en masse were not properly informed, although their dormitory food representatives might have been.

The administration doesn't deny that a definite problem exists, but wishes it could be taken care of through the right channels—from students to dormitory food representatives to the committee set up to advise on food service, and then action if action is needed.

This ties in directly with the problem of "lack of information." If students are kept in the dark, and keep getting poor quality food, they will display the fact in a most obvious fashion, as they did.

Now, the "proper channels" for getting something done about the dormitory food do not seem to function properly. Better student representation to the administration, the cooperation of the administration with the representatives, and informed students through their representatives is the desirable solution.

The food representatives will have to, by some means, relate the views of the committee to the students in various dorms. If the committee doesn't take action to relieve the problems, then the problem should be taken to higher authorities in the way of a formal written protest.

Students have charged, "all we get from the higher ups is a lot of double-talk." This may or may not be true, but in future relations on the matter of food in the dormitories, both the students and administration will have to shoot straight from the shoulder, no matter what, if a desirable end is reached.

The TOREADOR, official student newspaper of Texas Technological College, Lubbock, Texas, is regularly published each Tuesday, Thursday and Saturday morning during the two long terms, excepting holidays, by students of the College as an expression of student news and opinion only.

The TOREADOR is financed by a student matriculation fee, advertising and subscriptions. Letters to the editor represent the views of their writers and not necessarily those of the TOREADOR. Letters must be signed, but may be published without signatures in justifiable instances. The views of the TOREADOR are in no way to be construed as necessarily those of the administration.

Entered as second class matter at the Post Office in Lubbock, Texas, under the act of March 3, 1919.

### The Spastic

a. m.

Scattershooting while trying to figure out why the Tech School of Arts and Sciences requires up to 18 hours of a foreign language when 90 per cent of its graduates never will leave the continental United States.

An open note to the powers-that-be at the Texas Tech infirmary: You can quit worrying about that dead rat in front of your building as Mother Nature has about finished her job of removing said rodent. And, it's only been there three weeks.

We are glad to see that last week's column aroused (or shall we say wounded) the female pride in some of our Tech Girls.

While we would like to believe that pen and ink could cure this gross injustice to Tech males, we shall not kid ourselves that we solved anything.

After reading some of the letters in rebuttal to the column, we now believe that there are several girls (non-moosees to be sure) who are all alone in the various girls dorms on weekends devoid of dates.

We also know that there are many boys (understatement of the year) who sit around on weekends with nothing to do. Therefore, what needs to be done is to affect a meeting between, and for the purpose of dissolving, both groups.

But back to reality. Men, we'd better get on the stick and hurry up a date for Homecoming. After all, it's only three weeks off.

### Survey Tells Story Of Progress So Far

by Ron Calhoun

QUESTION: Do you find it easy or hard to study? Thirty-three per cent said it is hard to study, 67 per cent find it easy.

QUESTION: Do you have quite a bit of night life, not enough, or just a mixed amount? Forty-eight per cent said they are not getting enough night life, forty per cent settled for a mixed amount and the remaining 12 per cent said "Whoopie!!!"

QUESTION: How many courses are you failing at the present and how many are you passing? Eighty-two per cent are passing all their courses, 14 per cent are failing one course and 4 per cent are failing two.

QUESTION: Is the girl situation at Tech good, great, or lousy? Forty per cent declared the situation good, forty-three per cent as great and only 17 per cent as lousy.

QUESTION: After a month in college, do you feel able to last out the semester, last out the four years, or do you feel like quitting or transferring? Seventy-five per cent said they will last out the four years, 19 per cent think they will only last through the semester and the remaining six per cent are going to transfer. None said they would quit and go to work. (Smart).

QUESTION: Do you think college life is what it's cracked up to be? This question is split about 50-50.

In conclusion to this survey, I have decided that the freshmen this year are smarter than they were when I started to college, seven years ago. The voices I heard in the hall must have all been upperclassmen.

### Techsans Talk Back

TCU DATING

Editor,

I noted with interest the "defense of the fair sex" in the Oct. 28 issue of the TOREADOR. I would like to submit the following article, or parts of it, taken from "The Skiff", the TCU school paper, and it should be of interest to all parties concerned.

This should be sufficient evidence that the dating problem is not confined to Tech, but is present on other campuses as well. Incidentally, the present ratio at TCU is 1 to 4.6 in favor of the boys, as far as the dating situation is concerned.

From "The Skiff": "In bygone days (high school and perhaps earlier), a date was a simple matter. It involved four primary elements: (1) Boy, (2) Girl, (3) car, canoe, or sturdy hiking boots, and (4) a small amount of cash.

"Alas, bygones are bygones. Today's minimum requirements are: (1) Boy, (2) Girl, (3) convertible, sports roadster or sturdy hiking shoes, (4) a certain amount of influence with the teacher of the following day's 8 a.m. class, (5) fabricated smile for dorm mothers, (6) key to Fort Knox, (7) knowledge of which athlete is going with which girl, (8) ability to smooch up a storm on a crowded dormitory porch under glaring lights.

"On the night of the date it is most important that Boy remember certain details. For the casual date Boy may disregard white tie and tails. A simple tuxedo will do admirably.

"Before crossing the moat to the women's dorm, Boy should check for odor of alcohol, marijuana and chewing gum or jaw breaker on his breath.

"It is also advisable to have a list of congenial greeting for dorm mothers and former fiancées tucked behind lapel for quick reference."

Ben Pilcher  
Bledsoe Hall

BROWN NOSER

Editor,

After reading the first of this series "The Tech Girl" vs. "The Tech Male" I was not particularly impressed — Just another guy with a gripe, faced with a dull weekend of introspection. But the letter that intrigued me was the one written "in defense of my fair sex on this campus, regardless of the effect stooping to such conflict may have on my female ego."

Perhaps I have no right to speak, for about the only school spirit I have shown in three and one-half years at Tech is this letter. I'm writing to the TOREADOR. But I have dated, with limited success, a few of the "Tech Girls". On the whole, and almost without exception, I have found them to be (quoting again) "clever, alert, intelligent, good companions, etc." My only regret is that I haven't met more. But I will be the first to admit that is my fault.

There are many girls on the Tech campus, beautiful girls, who would look more at home on the cover of a fashion magazine than walking across the campus, open game for leering males (of whom, I say with 20-20 pride, I am the worst offender.) To these girls I say you are indeed fortunate.

Nature (Mom and Dad) has mixed your genes in the most pleasing manner. Yet, as the Defender implies, it is not necessary for a girl to have "a graceful metatarsal arch" (whatever that is) to be desirable. There are several girls on the Tech campus I would consider fortunate to claim as the mother of my children. (And for you who know me and have claimed I suffer from a complete lack of middle-class morals, let me hasten to reassure you that I am dead serious).

So, in concluding this small piece of praise to "The Tech Girl" is just a bit more in demand, that's all.

However, if there is, as the Defender claims, "attractive" girls "sitting in their dorm room weekend after weekend pursuing such delightful pastimes as writing retaliatory articles to the TOREADOR or swatting flies to keep their mental equilibrium", then please let them drop me a card.

I'm sure something could be worked out.

Warren Dunn  
Plaza Apt. No. 10

SPEAK OUT

Editor,

I am speaking out against some statements made in Tuesday's "Techsians Talk Back" column about the so-called "Tech Girl."

In the first place, I agree with the author of "The Spastic" in every detail. The article was cleverly written and I hope some of the Tech Girls take heed to some very good advice.

It seems that the young lady who wrote the letter in question doesn't seem to realize that all of the females on our campus are "not" fut loose and fancy free.

Page 5, TECHSANS TALK . . .

... Tec

She stated that "one male of three is engaged or already married." But she failed to point out that the mate of this male is usually one of the Tech Girls, thus eliminating her ratio, thus eliminating her the already tight field.

She also stated that "one is engineer and unavailable seemingly." Our friend doesn't seem to realize that there are some in the fairer sex that major in the territory or some form of study that takes up a lot of her time. And, besides, the engineers on this campus constitute a high percentage of our socialites.

Then she went so far as to state that the "third is plain not interested or interesting." The son for this is that most of the girls have the same type of attitude as our little friend, and don't blame the fellows. I would not be interested either.

Our member of the female gender stated that the Tech was plain "askewed of being owned by one of the fair." Since when did the women arrive here start accosting? I have to see one.

A girl doesn't have to be looking to be popular with Tech Male. But she must have little something on the ball, for she even presents a lenge to the boy.

If this young lady would like to discuss this further, I would more than glad to be a part of something just burns me.

Ed Baliff  
Bledsoe Hall

TECH GOVERNMENT

Editor,

"Government in the United States represents the best most advanced governmental system in the world, and the theory of the United States government at all levels is the government is the servant of people — not vice versa." At this is the view of a TOREADOR staff member.

Is our government the best most advanced because of "basic theory"? If so why government any better or more advanced than that of Britain, France, Canada or others who also have this "ory"?

... it is correct to a that any United States government is subject to the American concept of government? I suggest that your assumption run away from you. Is the government of Texas subject to the American concept of a government? Is it subject to the American concept of an individual chief executive?

Since you claim that Texas is a governmental unit which is subject to the American concept of government, why not the drums for a faculty election by your tax-paying students? Perhaps our instructors should have a vote in their classes to elect whether the hour should be on a lecture or drinking coffee.

Then too, maybe a president should obtain the "consent of the governed" before giving a sanction? If so please me of this; at the present classes are not being con

Story So Far

ON: Do you find it easy to study? Thirty-three per cent said it is hard to study, and 67 per cent said it is easy.

Do you have quite a bit of life, not enough, or no life at all? Forty-eight per cent are getting a bit of life, forty per cent are getting a mixed amount and 12 per cent said they have no life.

How many courses are you taking at the present and are you passing? Eighty per cent are passing all, 10 per cent are failing and 4 per cent are undecided.

Is the girl situation on campus great, or lousy? Fifty-three per cent declared the situation is great, 37 per cent said it is lousy and only 10 per cent are undecided.

ON: After a month in college do you feel able to last the semester, last out the four years, do you feel like quitting? Seventy-five per cent feel they will last out the four years, 19 per cent think they will last through the semester, the remaining six per cent are undecided.

Do you think college is worth it? It's cracked up to be a question is split about 50-50.

Reason for this survey, I feel that the freshmen are smarter than they were a year ago. I started to college a year ago. The voices I hear must have all changed.

# ... Techsans Talk

She stated that "one male out of three is engaged or already married." But she failed to point out that the mate of this male is usually one of the Tech Girls and is included in the three to one ratio, thus eliminating her from the already tight field.

She also stated that "one is an engineer and unavailable socially." Our friend doesn't seem to realize that there are some of the fairer sex that major in bacteriology or some form of study that takes up a lot of her time. And, besides, the engineers on this campus constitute a large percentage of our socialites.

Then she went so far as to say that the "third is plain not interested or interesting." The reason for this is that most of the girls have the same type of attitude as our little friend, and I don't blame the fellows. I would not be interested either.

Our member of the feminine gender stated that the Tech Male was plain "askered of being accosted by one of the fair sex." Since when did the women around here start accosting? I have yet to see one.

A girl doesn't have to be good looking to be popular with the Tech Male. But she must have a little something on the ball before she even presents a challenge to the boy.

If this young lady would like to discuss this further, I would be more than glad to because this sort of thing just burns me up.

TECH GOVERNMENT

Editor,  
"Government in the United States represents the best and most advanced governmental concepts in the world, and the basic theory of the United States government at all levels is that the government is the servant of the people — not vice versa." At least this is the view of a TOREADOR staff member.

Is our government the best and most advanced because of this "basic theory"? If so why is our government any better or any more advanced than that of Great Britain, France, Canada or many others who also have this "theory"?

... it is correct to assume that any United States government is subject to the American concept of government." I would suggest that your assumption has run away from you. Is the state government of Texas subject to the American concept of a federal system? Is it subject to the American concept of an indirectly elected chief executive?

Since you claim that Texas Tech is a governmental unit which "is subject to the American concept of government," why not beat the drums for a faculty elected by your tax-paying students? Perhaps our instructors should take a vote in their classes to decide whether the hour should be spent on a lecture or drinking coffee in Tech Union?

Then too, maybe a professor should obtain the "consent of the governed" before giving an examination? If so please inform me of this: at the present my classes are not being conducted

in an entirely democratic manner.

G. S.  
EDITORS NOTE:

My advice to G. S. is to again read the editorial dealing with government on page 4 of the Oct. 8 issue of the TOREADOR. If he does this, he will find that no mention was made of the United States government being the best and most advanced in the world — the editorial merely said that our government represents the best and most advanced governmental concepts in the world. The other governments he mentioned do this, too.

"The American concept of government" in the editorial referred to the belief that the populace should control the government — not vice versa. No mention was made of specific governmental features such as election of the chief executive.

As for G. S.'s third point — dealing with the faculty here at Tech — nothing was said in the editorial about the faculty. It would be erroneous to assume that the faculty could be considered as "government".

They perform a specialized service for the student — they do not "govern" in any way. The editorial pointed out that the administration is the government here at Tech — they are the ones that "govern" the student body.

R. L. STUDEBAKER, Pampa junior horticulture major, holds the bird-of-paradise plant which is blooming after several fruitless seasons in the horticulture greenhouse.

## Rare Plant Blooming

One of two bird-of-paradise plants is finally blooming in the horticulture greenhouse after several fruitless seasons.

The plants have been growing and thriving, but not blooming, ever since they have been here, according to E. W. Zukauckas, assistant horticulture professor and greenhouse manager.

THE PLANT has two blooms attached to the same stem. One has two orange and one purple pedal. The other has three orange and one purple pedal. The pedals resemble the feathers of a peacock's fan in shape.

The other plant is growing in the same soil, under the same climatic conditions, yet it has no bloom. It may bloom in months, years, or never.

STRELTIZIA reginae, a member of the banana family, is a native of South Africa. It is now grown in areas of California and Hawaii where there is a year-around growing season. The flowers are valuable for unusual arrangements and corsages.

Blooms such as the ones in the greenhouse are worth approximately one dollar on the floral market according to R. L. Studebaker, Pampa junior horticulture major.

Even at this good price, raising and selling bird-of-paradise blooms would be a poor business if they didn't bloom more often than the two owned by the horticulture department.

## Lombardo Slates Lubbock Concert

A special fee of \$1 is being extended to Tech students attending the Guy Lombardo Show 8 p.m. Monday in the Municipal Auditorium.

HIGHLIGHTS of the show, sponsored by the Lubbock Jaycees, will be the Lombardo Trio, Lombardo Twin Pianos and variety acts presented by comedian Phil Maraquin.

The famous Lombardo orchestra has four members of the family playing in the group: Carmen, Lebert, Victor and Guy. Kenny Gardner, husband to Guy's sister, is a featured vocalist.

GUY LOMBARDO is also a prominent restaurateur, oilman and show producer. His 1956-57 production of "Show Boat" at Jones Beach, N. Y., has been hailed by critics as among the most successful shows of this generation.

"The Guy Lombardo Show," one of the most successful of all musical radio programs, is now an internationally syndicated TV show.

CHIEF ARRANGER for the orchestra is Larry Owens, former orchestra saxophonist. Buddy Brennan, a member of the twin piano duet, is also an arranger.

The Lombardo Show will come from the Coconut Grove of the Los Angeles Ambassador Hotel. TICKETS for reserved seats are priced at \$3.50, \$2.50 and \$2. They may be purchased at the Junior Chamber of Commerce located in the Lubbock National Bank Building.

### Students Strike

(Continued From Page 1)

representative explained that the committee set up was a very general thing, and the meetings were to inform them of matters concerning the food standpoint instead of them informing the people in charge of the student's view point.

**IN PREVIOUS** dealings with the head dietitian, they have been asked to meet individually instead of as a group of representatives when problems arise. The result of these meetings has been nil.

The main protests about dormitory food by the students has been in regard to the dry, flat, tasteless food, especially the meat and vegetables. They maintain that the meat is a poor grade and is either so tough you can't chew it or so fat you can't eat it.

**THE VEGETABLES** and the preparation of them has drawn a line of fire from all students interviewed. They maintain that the carrots are hardly ever cooked properly, and they, along with peas, beets and spinach, are served much too often.

THE NEW MILLION dollar, ultra-modern classroom building will be constructed north of the Journalism Bldg. It will house business administration faculty, deans and about 1,100 students.

## Building Deviates From Style

... Continued from Page 1  
be able to see in at night when it is lighted.

Canopies will be made of rubbed white concrete. **MOST** interesting part of the The contractor may pour flat concrete plate on the ground and then move it with a hydraulic jack. White gravel will then be construction should be raising the

roof, according to the architects, distributed over the roof.

Eight entrances and three entrance lobbies will facilitate getting 1,100 students in and out. Entrance doors do not face directly north, south, east or west.

**RESEARCH** revealed doors not facing these directions are easier to open than those which do. This is another reason the towers are offset at the structure's ends instead of continuing in a straight line.

Corridors of unglazed ceramic tile will "borrow" light from rooms through a two-foot-high glass strip near the ceiling. On the corridor's north wall tile will shade from a deep to light blue with occasional red flecks.

**CLASSROOM DOORS** will be recessed in a semi-vestibule to prevent blockage of halls between classes. A ceiling-to-floor glass panel will be to one side of the solid doors.

At the classroom's east end, a chalkboard reaches from the floor to a height of seven feet. Covering the remaining two feet to the ceiling, glass extends around the room. Midway of the board, there will be an aluminum chalk rail.

**OFFICES WILL** be equipped with built-in bookshelves filing cabinets and small closets.

The building, designed for year-round air conditioning, will need only the addition of a cooler in the basement to air-condition it for summer.

**VACATED OFFICES** in the Ad Building will be used by another department or departments, depending on the number vacated.

Architect's structure model will be on display in the Ad Building in the near future.

The third campus building to deviate from the traditional Spanish Renaissance type architecture, it will not be the last. Other buildings are the natatorium and bookstore. All future construction will be done in contemporary style.

**PHOTOGRAPHERS MEET**  
Kappa Alpha Mu, photographers fraternity, will meet 5 p.m. Tuesday in the Journalism Building Reading Room.

## Careers Conference Set

Final plans for the Delta Sigma Pi Careers Conference, Nov. 5-7, are complete with seventeen leaders in their business fields speaking, announced Ed Hayden, conference chairman.

**"THE PURPOSE** of the conference is to give all students insight into the advantages and disadvantages of entering particular fields of business," Hayden said. "All students interested in business careers are welcome to attend."

**ALPHA DELTA** Sigma, national advertising fraternity, is helping with publicity, and Phil Orman, ADS president, is in charge of the advertising division.

High S. Thomas, C.P.A. for Merriman and Thomas in Brownfield heads the speakers for governmental accounting division.

**IN PUBLIC** Accounting, Dewey J. Berglund of the Peat, Marwick, Mitchell and Co. of Dallas will speak, and Lionel E. Gilley, financial vice president of Pro-

ducing Properties Inc of Dallas will guide the Private accounting session.

Miss Lillian Ireland, assistant personnel director of Folley's of Houston will speak to the marketing section.

**FINANCE** speakers are Hollis L. Manly, director of training for the Amicable Life Insurance Co. of Waco, and Ed Jim Waller, president of the Plains National Bank in Lubbock.

Friday, five Lubbock women will address the secretarial administration and business education division.

**THEY ARE** Mrs. Pauline A. Coplin, former secretary for Dr. William G. Evans; Mrs. Dorothy H. Evans, administrative secretary at Lubbock National Bank; Mrs. Doris T. Peques, secretary at Pan American Petroleum Co. Mrs. Betty Jane Bennett, secretary to the president of American State Bank and Mrs. Billy Reynolds, secretary to Crenshaw, Dupree and Milam law firm.

**MANAGEMENT** speaker will be R. H. Norris, president of the Dearborn Stove Company of Dallas.

"How to get ahead in the business World After you Graduate" will be the topic of the main address by R. J. Bromell 11 a.m. Friday. Bromell is the vice president in charge of drilling of the Kendavis Industries of Fort Worth.

"it covers everything!"

# Football Bowl Bids On Line Today

by JACK CLARY  
Associated Press Sports Writer

Prospective bowlers have their day Saturday — Rose Bowlers, Sugar Bowlers, Cotton, Orange and Gator Bowlers to be exact.

**THIS COULD** be a crucial day for those teams who want to play football New Year's Day. The way various conference races have shaped up, the weekend's play will give a pretty solid line on whom you will watch Jan. 1, 1959.

There is also a smorgasbord of inter-sectional and some interesting prestige games for others of the top 20 teams selected for the Associated Press this week by sportswriters and broadcasters.

**THE BIG GAME** — Saturday night at 9 EST — is at Baton Rouge, La., where top-ranked, and unbeaten Louisiana State meets unbeaten and sixth-ranked Mississippi. The winner will become the odds-on choice for the Southeastern Conference title and the host spot in the Sugar Bowl.

LSU has a 6-0 season record, 3-0 in the SEC, while Ole Miss has the same season mark and is 2-0 in conference play. Both have to play Mississippi State, a possible spoiler.

**IN THE** Big Ten, Iowa 4-0-1 has been casting a big eye toward the Rose Bowl. If the second-ranked Hawks can take Michigan 2-2-1, their path is pretty smooth. They still have a Nov. 15 date with Ohio State, ineligible this year as the current champion. Ohio State No. 5 plays Northwestern No. 11, which must win to stay alive after losing to Iowa last week.

**AT BOULDER, Colo.**, unbeaten Colorado 5-0 meets once-beaten

Oklahoma No. 7 in the battle for the Big Eight title and a trip to the Orange Bowl.

The Sooners are eligible to return to the Orange Bowl this year and Colorado No. 9 also would like to make the trip as the Big Eight champ. Although the Sooners played in Miami last January they are free to go again this year if they are the champs.

**TEXAS CHRISTIAN** No. 18 gets a chance to tie idle Rice No. 14 for the Southwest Conference lead if it can get by Baylor. Two have a date Nov. 22 but until then the home spot in the Cotton Bowl is up for grabs.

There are a host of top Eastern independents eyeing bowl bids since the Atlantic Coast Conference severed its tie with the Orange Bowl.

**PITT** No. 12 plays Syracuse, 4-1, with the winner getting an inside track on bids to the Cotton, Orange or Sugar bowls, plus a shot at the Gator Bowl. Pitt, 4-1-1, tied Army last week and lost to Michigan State.

The Cadets No. 3 meet Colgate in a game that should rest them from their bruising battle with Pitt and set them for their bowl because of an NCAA ruling.

**TELEVISION** viewers can

watch Wisconsin No. 8, which played Ohio State to a 7-7 tie last week, tangle with Michigan State NBC-TV, 1:30 p.m. EST. Purdue No. 10, plays Illinois, winner of its last two after losing its first three.

The Air Force Academy, 13th ranked with one tie and four wins, meets toughie Oklahoma State, 5-1. Navy No. 15 plays Notre Dame, 3-2 in Baltimore in the top inter-sectional game of the day.

## Tech Fencing Team Readies For Meet

Tech's fencing team is working out two nights a week in preparation for the Dallas Invitational Fencing Meet which will start November 14.

**THE MEET**, which will be in the Dallas YMCA, is an open tournament and most of the better individual fencers and teams of the state and surrounding area are expected to be on hand.

The fencers are coached by Frank Griffin, a senior physics major who is ineligible to compete on the collegiate level but can in the open tournaments such as the one at Dallas.

**THE TECH** team members are Delano McLane, Bob Smith,

Royce Bruce, Wendell Morrow and Gerald Garrett. Three Beginners are working out for possible future spots on the team. They are: Donal Myrick, Billy McAfee and Ronald Benson.

According to Griffin, the team will soon start working out every night to get ready for the future fencing schedule.

## Bowling, Swim Entries Open

Entries are now open for the Intramural Bowling and Swimming meets.

The deadline to sign up for the bowling meet will be December 6 and for swimming, December 5. The bowling tournament will start December 13 and the swimming meet will be on December 12.

Entries will be on a team basis only. All those interested should contact Edsel Buchanan, the Intramural Director, in the Men's Gym.

## Outlook

By BILL DEAN

Ralph Carpenter, who does a column on these pages in the Thursday edition, showed me an unsigned letter the other day in which the writer was quite outspoken in his criticism of the Toreador sports department and the coaching situation at Texas Tech.

Now, as I have mentioned earlier, criticism, either constructive or destructive bothers me not. And I can assure the readers of this paper that both the letter, regardless of content, will be printed.

However, any letter that is unsigned is useless. Any person who does not think enough of his letter to sign it will never see it in print. Also, I will refuse to just use initials unless the situation is one that calls for the use of them.

In other words, I sign my opinions in this paper and so does Ralph. If you, the reader, have a desire to express your opinions you may do so and have every right to. But, unless you also sign them please do not expect us to print them.

★ ★ ★

My prediction percentage is falling as rapidly as leaves off trees during this time of the year. Last week I hit 7 of 14 for 50%. The yearly total has now dropped to 67%.

**TECH VS. TULANE:** As this game will have already been finished by the time the paper has come out I pick the winner.

**TEXAS VS. SMU:** The Steers were flat last week but I look for them to bounce back. Texas.

**TCU VS. BAYLOR:** TCU has more of a balanced ball club. Texas Christian.

**TEXAS A&M VS. ARKANSAS:** The Aggies are always dangerous. A&M.

**OTHERS:**  
Army over Colgate  
Alabama over Georgia  
Arizona St. over New Mexico A&M

Auburn over Florida  
Penn State over Furman  
Hardin-Simmons over Texas Western  
Purdue over Illinois  
Minnesota over Indiana  
Iowa over Michigan  
LSU over Mississippi  
Notre Dame over Navy

California over Oregon State  
Colorado over Oklahoma  
Detroit over Marquette  
Duke over Georgia Tech  
Houston over Tulsa

## 'Mural Table Tennis Tourney Won by Hurt

David Hurt downed Tommy Neel in the best two out of three games to become the All College table tennis champion Thursday night.

**HURT WON** both games 21-16 to cop the Intramural tournament which was held in the Men's Gym under the direction of Edsel Buchanan, the Intramural head.

In making his way to the finals, Hurt defeated Derrell Gleghorn, Clayton Roberson and Billy Holloway. Roberson was the only one to beat Hurt a game, but Hurt went on to take the set, 3-0. Neel clipped Fred Chauncey in his first match, then Kenneth Stewart and Tom Neel in the Semi-finals. The complete results:

**1ST. ROUND** — Bill Holloway

def. Ron Calhoun, Clayton Roberson def. Stan Powers, David Hurt def. Derrell Gleghorn, Kenneth Stewart def. Ralph Goodman, Tommy Neel def. Fred Chauncey, Charles Joyner def. Maurice Williams, Tom Neel def. Pat Keough.

**2ND. ROUND** — Hurt def. Roberson, Neel def. Stewart, Neel def. Joyner.

**SEMI-FINALS** — Hurt def. Holloway, Neel def. Neel.

**FINAL** — Hurt def. Neel.

# Tulane Whacks Raiders

Richard Petitbon, Tulane's candidates for All American honors, ran and passed the Green Waves to a 27-0 rout of the Raiders of Texas Tech in the Sugar Bowl.

**THE FLASHY** junior quarterback ran for 44 yards, completed 8 of 9 passes for 2 touchdowns and a whopping 191 yards.

Tech managed to get the ball into Tulane territory several times but could not push the ball across for a score. The Raiders reached Tulane's 30 yard line in the 1st. quarter, and the 30 again in the second quarter. In the third quarter, Tech could not score from the four yard line or from the one yard on another series.

To start the first quarter, Tech won the toss and elected to kick. Petitbon took the ball and made

it out to the 29 and then on a keeper to the 40 for a first down. Tulane fullback Eddie Dunn then made a first on the Tech 49 but a penalty put the ball back on the 23. Tulane was then forced to punt.

**ON TECH'S** first series of downs, the Raiders could not gain and Jerry Bell punted to the Tulane 25 yard line. Petitbon then sparked the Green Waves out to the 43 but Tulane lost the ball after an attempted end run at their 47. Tech's Doug Duncan recovered to give the Raiders a chance in Tulane territory.

The Raiders stalled on the Tulane 30 yard line and Bell was again forced to punt. From the 20 yard line, Petitbon guided the Waves out to their 36 before returning the favor by punting.

**TECH** could not move and two 15 yard penalties finally put the ball on the nine yard line. Ken Talkington punted from this point to Tulane's Phil Nugent who returned to Tech's 39.

As the second quarter got under way, Petitbon passed to the 30 but a penalty brought the ball back to the 44. Three plays later, runs by Petitbon, Dunn and Mason had the ball on the Tech 23. Petit-

bon then dropped back and whipped a pass into the end zone for the first Tulane touchdown. The extra point was good to make the score 7-0.

**AFTER THE** kickoff the Raiders were again plagued by penalties and Bell was forced to punt from his 20 to the Tulane 40. Then Petitbon struck again by completing a pass into the flat to Bob Mason who went down the sidelines for the score.

Tech managed to work the ball into Tulane territory again but Petitbon intercepted a Bell pass on his own 12 to end the threat. The teams traded punts and the half ended with Tulane leading 14-0.

**STARTING THE** second half, Tech again elected to kick. Tulane started a drive on their 35 which combined the running and passing of Petitbon with the running of his teammates to put the ball on the Tech 17. From here, reserve halfback Percy Colon ran for the score. The extra point was

good and Tulane had a 21-0 lead.

Rice then took the kickoff and ran to the Tulane 23 yard line before being hauled down. Tech worked the ball down to the four before being stopped by a stout Tulane line.

**TULANE** punted out and the Techs came roaring back to get the ball down to the one yard

line. The Green Wave again held the Raiders and on the punt a Tech player touched the ball and Tulane took over on their own 26 yard line.

From here, Tulane drove 74 yards for their fourth score. Petitbon again paved the way for the tally but it was Colon who made the final Wave score.

## Cotton Bowl Stars Earn Decade Honor

**DALLAS (AP)**—A generation of Cotton Bowl football stars will earn permanent honors and a new set will be chosen for each decade.

**THUS L. D. MEYER** of TCU, who scored all his team's points in the 16-6 victory over Marquette that started the New Year's Day football game in 1937, will finally get on an all-star Cotton Bowl team.

There had been wonder through the years why Meyer hadn't made the team in the first place but it couldn't be changed because a couple of more modern players had been given the wing posts.

**BOBBY LAYNE**, who put on a fantastic passing exhibition for Texas in beating Missouri in 1946, got on the team for the first era but as a halfback. Layne either passed for or scored all Texas' points that day.

Dicky Moegle of Rice, who put

on the greatest running show in bowl history — 265 yards gained — as Rice beat Alabama in 1954, is on the team for the current decade. Moegle was the victim of the famed "tackle from the bench."

**TRADITIONALLY** the all-star team has been comprised of the top 11 who have played in the game since its inception 22 years ago. But it has been increasingly difficult to set even standards of comparison for recent and current performers against the stars of the pre-World War II era.

A committee of veteran sports observers, representing newspapers and wire services, this week voted a new plan for Cotton Bowl all-stars. A team was chosen for the 1937-49 period and another for the 1950 period.

**THUS 22** Cotton Bowl all-stars were announced Saturday, representing the full 22-year history of the Jan. 1 game.

## Upset Marks 'Mural Football In Dorm Tilt

Thursday's intramural touch-football saw Dorm No. 6, which was until then undefeated, upset by Bledsoe Hall, 1-0. Bledsoe Hall had no wins to their credit preceding the game, but they succeeded in stopping the league leading Dorm No. 6 team to win the game.

**IN LOSING** Dorm No. 6 is now tied for second place with Gordon Hall.

In the play-off games to determine the All College intramural touch football champion, the fraternity league drew a bye. This means that the Independent league champion will play the Dormitory league champion on November 10. The winner of this

game will then play the Fraternity league champion, November 16, to determine the All College champion.

**SUNDAY'S SCHEDULE** (Following games at 2 p.m.)

Kappa Sig vs Sigma Nu (G-1)  
Fijis vs Pikes (G-2)

## PROGRESS REPORT

Our new fixtures have arrived and we will be in the midst of installing them the next few weeks. Please excuse the clutter and confusion. When this job is completed we are sure you will be pleased with the new look at the Bookstore.
