

## Deadline Nears for Beauties

The 1959 LA VENTANA Beauty Contest hit high gear yesterday with the addition of 15 names as the Dec. 2 deadline nears.

"THE GIRLS actually have only about four days left until deadline due to the Thanksgiving holidays," said Billy Ellis, Editor of La Ventana.

He further commented that there is no limit on entries, but that a \$1 entry fee must be paid by each contestant. Ellis stressed that those girls with entry blanks out must return them before the deadline to be eligible. Entry blanks may be picked up at J101 anytime before the deadline.

**THIS YEAR** for the first time the contest will be held locally and based on a Miss America theme. In previous years, a noted actor has picked the beauties from photographs.

The top ten beauties will be guests of the LA VENTANA and men's Press Club at Hondo Lodge in Taos, New Mexico, which is located in the famous Taos Ski valley.

**EACH BEAUTY** will also have a full page picture in the annual. These pictures will be taken at the lodge.

Since the contest will be a Miss America type, each contestant will be required to appear in a bathing suit.

"Entrants will appear only briefly in bathing togs," Ellis explained. "This will be at the beginning of the pageant when each entry walks across the broadwalk." Contestants will be dressed in formal for the remainder of the evening.

**GIRLS WILL** be allowed to wear ribbons carrying the name of their sponsor and Tech Men's Press Club will work in cooperation with the organizations on publicizing the entries.

The contest will be in the Lubbock Municipal Auditorium on Dec. 5. Admission prices are 75 cents for adults and 50 cents for students. The reason for entry fees and admission is to help finance the winners' trips.

## Sigma Delta Chi OK's Press Club's Petition

The Men's Press Club of Texas Tech was accepted into Sigma Delta Chi Saturday at the professional journalism fraternity's national convention in San Diego.

"**THIS ACCEPTANCE** is a major step forward in recognition of Tech's journalism students and curriculum," Prof. W. E. Garets said. "Sigma Delta Chi is the most important men's group with which we could affiliate."

Represented in San Diego by Billy Ellis, Press Club president, and Tommy Schmidt, the group was accepted by a unanimous vote. National President James Byron, news director of WBAP AM-TV

**BIRD'S EYE VIEW** — Two Tech students sit in their third-story window as they watch last Saturday's Homecoming Parade. Similar interest was shown by spectators all along the route of the parade.

## Directors Approve Building Budget

In a meeting of the Tech Board of Directors Friday afternoon, a budget appropriating \$3,284,922 for building purposes on the Tech campus in the immediate future was approved.

**THE PART** of the building program with the most immediacy which received final approval from the Board was the new classroom and office building.

Included in final plans were provisions for complete air conditioning. This was done because the building will be used extensively during the summer sessions by the schools of Business Administration and Arts and Sciences.

Along the same line, the Board also authorized employment of consulting engineers to survey long

range needs for campus-wide air conditioning.

A new boiler and housing construction project was accepted by the Board. It is scheduled to be in full operation by January, 1959. It will serve to meet heating needs of the entire campus.

**THE CAMPUS** Plot Plan, a scale model of the Tech campus which extends many years into the future, will be reconstructed, after being heavily damaged from water from a leaky roof. Money is to be appropriated by the Board from the unappropriated balance.

The Building Committee of the Board was authorized to negotiate with the second low bidder on construction of the new addition to the Textile Engineering Building on revision of plans for a structure which would not exceed available funds.

**PREVIOUS BIDS** were considered excessive, and as a result, plans, specifications and negotiations were made on a lower cost.

The Board accepted two grants from the National Science Foundation, Washington, D.C., totaling \$148,700 for support of summer institutes for high school teachers of biology and chemistry.

Two other grants were accepted for research totaling \$3,258. One was from the United States Atomic Energy Commission's Research and Development Division, Oak Ridge, Tenn., for continuation of the project of "Effects of Radiation on the Albino Rat" by Dr. S. I. Kapland.

The other was for \$1,897 from the Department of Health, Education and Welfare for the project "Study of Health Attitudes and Behavior" to be conducted by

**DIRECTORS APPROVE**, Page 6

## Directors Approve Tech Allocations

Tech Board of Directors met Saturday and approved the recommendations for the distribution of some \$41,862 among 16 campus organizations.

Tech Radio Station KTTC's request for \$500 was refused by the Student Council in a general meeting, said Dan Howard, business manager. Howard continued that the station was on a probation status last year and it "didn't prove itself."

**LAST YEAR** KTTC requested \$1,114. The station received \$614 of the amount from the Student Council and the remaining \$500 from a special fund controlled by Pres. E. N. Jones. The \$500 was not used, and Howard said that station managers could apply to President Jones for the money.

**THE TOREADOR** received \$19,300; the Tech Band, \$8,921; and the Tech Choir, \$1,875. These three organizations received the amounts that they had requested.

Home Economics open house requested \$300 and received \$200; Engineering Society requested \$1,500, received \$800; Engineers Show requested \$1,300, received \$1,200; Student Religious Council, requested \$400, received \$325.

Rodeo Assn. requested \$1,422 and was allotted \$500. If the Rodeo Assn. had received the full amount, they had planned to lower the cost of tickets proportionately.

The crops judging team requested \$425 and received \$400; dairy products team, requested \$400, received \$250; and Ag judging team, requested \$2,613, received \$2,200.

**FORENSICS** requested \$1,924, received \$1,200; Dramatics, requested \$1,200, received \$1,100; Sigma Tau Delta, requested \$500, received \$300.

AIEE-IRE and the American Society of Mechanical Engineers requested \$250 and \$382, respectively, but these requests were rechanneled through the Engineering Society allocation.

**GEOLOGY CLUB** requested \$325 and received \$50. The Student Council request was for \$4,441.24 and they received \$4,241 plus a reserve fund of \$800.

The total amount requested was reduced by \$5,116.24, according to Howard.

**THE MONEY** for the allocations is obtained from the student matriculation fee. The Athletic Department receives an automatic 70% of that money.

The remaining 30 percent, less the cost of the identification card (40 cents a card or approximately \$3,000), is allotted the various organizations.

## Rallies End Tonight

A "noise rally" will conclude the season's series of pep rallies tonight at 7:30 at the Saddle Tramp Circle.

**PETE BAKER**, sophomore class vice president, asked that everyone bring some type of noise makers to close the season with "lots of noise and spirit."

Senior football players and all the basketball players will be introduced. There will be a guest speaker, also, according to Baker.

## COUNCIL MEETS AT 5

The executive council of the Texas Tech Campus Speech Championship will meet at 5 p.m. today at the Speech Building. All representatives of participating organizations are requested to attend this meeting. The date of the tournament will be determined at this time since the originally scheduled meeting conflicts with the opening basketball game.

## Sneed Smoke House Smokes

"Well, I looked out, and, Man, was that smoke house smokin'!" commented a Sneed Hall resident when he noticed their dorm decoration was on fire about 8:45 Sunday night.

**THE DECORATION** was a pig on the way to a smoke house, and, ironically, it was smoked.

About 30 students manned hand extinguishers and fire hose, and put out the fire, but the chicken-wire-and-napkin pig was long gone.

**"WE HAD IT OUT** in about eight minutes — before the fire department could get here," explained Doug Howell, assistant wing adviser.

The only damage done by the fire, continued Howell, was to several window panes cracked by the heat.

**WHEN ASKED** how the decoration "caught" on fire, Sneed residents tactfully declined to answer.

## All-Campus Watch Set

Dr. C. Melvin Ratheal, pastor of the Trinity Baptist Church, will present "a Thanksgiving thought" at the all-campus Morning Watch at 7:30 a.m. Wednesday in the Union ballroom.

**DR. C. C. SCHMIDT** will give the opening prayer, and Dan Howard will lead the call to worship. Helen Anderson will be pianist and Arthur Berg will lead the singing of two hymns. Berg will also give a prayer.

The Thanksgiving Morning Watch service is sponsored by the Student Religious Council. It is the first in a series of morning watches that will be given during the school year preceding holidays.

**STUDENT CENTERS** who usually hold regular morning watches at that time will not have them, so that everyone may attend the campus-wide service.

Sandra Standefer is chairman of the program committee that planned the morning watch.

Student Religious Council officers are Dan Howard, president; Deann Buske, vice president; Karin Smith, secretary; Carol Cummings, assistant secretary; and Don McMurray, business manager.

## APO Initiates New Pledges

Eighteen pledges were initiated into Alpha Phi Omega, national service fraternity, Saturday night in the Aggie Memorial Auditorium.

Following the initiation, the 20th anniversary banquet was held in the Rec Hall commemorating 20 years of service on the Tech campus.

About 140 members and guests heard Delbert Downing, manager of the Midland Chamber of Commerce, deliver the keynote address. Dean James Allen, student life dean, acted as toastmaster.

Twenty-year pins were presented to the six charter members attending the banquet. Dean Lewis Jones, chapter sponsor and member of the National Executive Board, presented a 20-year certificate to the chapter.

Tony Gustwick was presented as semester honor member. Andy Scott was awarded the honor pledge key.

Those initiated include: Jerry Adkins, Lubbock; Jesse Beard, Lufkin; Bill Benner, Lubbock; Brooks Bradley, Dallas; Rudy Dominguez, Sundown; Melton Feldman, Miami Fla.; Leo Lavender, Mineral Wells; Kenneth Leusing, Lubbock; Donald Mason, Olton.

Dale Miller, Borger; Edward Neil, Farmington, N.M.; Jack Nelson, Dallas; Tony Nolan, Paris; Bill Randle, Huntsville; Bill Riley, Dallas; Andy Scott, San Angelo; Tom Wilten, Port Arthur; and James Zetzsche, Bowie.

## 'Diary' Opens Here Tuesday

"The Diary of Anne Frank, a dramatic presentation sponsored by Civic Lubbock, Inc., will open Dec. 2 at 8 p.m. in the Lubbock Auditorium.

The drama is taken from the diary of a Jewish girl during World War II. The production coming to Lubbock stars Francis Lederer as Otto Frank and Pauline Hahn as Anne.

Ticket prices will remain the same as for the previous scheduled production. They are \$4, \$3.50, \$3, \$2.50, \$2, \$1.50 and \$1 for Tech students. The Auditorium Box Office will be open daily this week from 9 a.m. until 5 p.m. for sale of tickets.

## Tech Union Closes For Thanksgiving

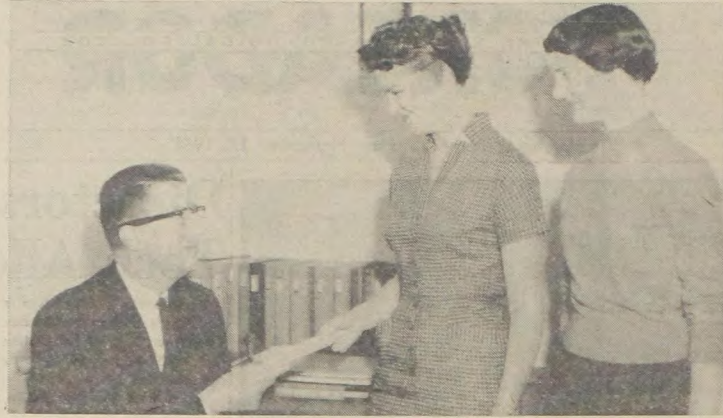

Tech Union will be in full swing with varied activities until 5 p.m. Wednesday when the doors will close for Thanksgiving holidays.

**THANKSGIVING** greetings may be exchanged between students and faculty at the informal Hospitality Hour 10-11:30 a.m. today in the Anniversary Room. Refreshments will be served.

Disc Jockeys from KDUB will be spinning records for tonight's record hop, 7-8:30.

**ALL-CAMPUS** morning watch will be held in the Ballroom Wednesday at 7:30 a.m., featuring Dr. C. Melvin Ratheal, Trinity Baptist Church, Lubbock.

The Union will reopen at 2 p.m. Sunday.

B. E. RUSHING, JR., Community Chest campaign chairman, receives a \$15 check from Toni Bannister and Linda Dennis, president and treasurer of Kappa Kappa Gamma sorority. This check is the initial payment of a \$150 pledge made by the sorority. The remainder will be paid throughout the current academic year.

## Pledges Have Cutting Woes

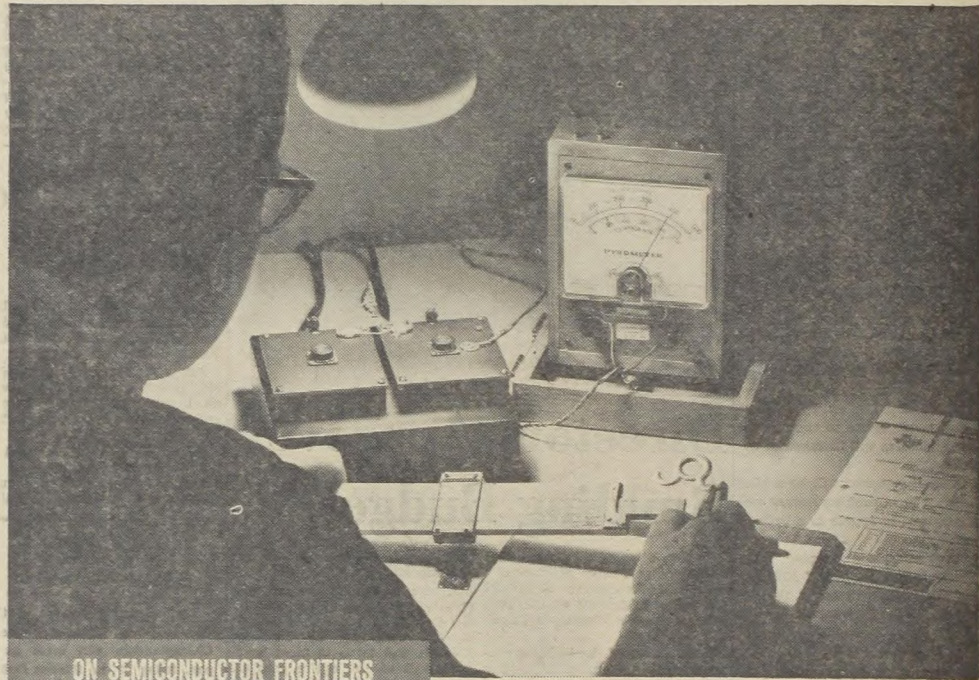

Pledges from three Tech sororities have been seen performing extra little niceties to members and wearing several required items of clothing as a result of pledge cuts.

Zeta Tau Alpha pledges are wearing high heels and white gloves until Wednesday and even the upperclassmen pledges have a special type of green cap adorning their heads.

They have been serving breakfast in bed to pledge trainers, Janet Wright and Joyce Johnson and any other members who request it.

Sigma Kappa pledges have just concluded a time of wearing Bermuda socks and slime caps backwards. They had to stand every time a member approached and address her as "Miss . . . , ma'am."

Cardboard anchors have been seen clutched in the hands of Delta Gamma pledges.

## Six Tech Methodist

Several members of Tech's Wesley Foundation will be spending Thanksgiving holidays in Houston-Tillotson where they will attend Methodist Student Conference.

Students attending are: Ben Jerry Matthews, Cville; Mary Herrington, Lindale; Jennice Marks, Rev. Holt and Rev. and Mrs. Cecile Matthews, Wesley Foundation. They will also go to the "Long Division" is the title of the state conference and will be carried out in speeches by Albert C. Outler, professor of theology at Perkins School of Theology, SMU, and Eduardo C.

## Appraisers Meet Here

David L. Montonna, a New York consulting appraiser, is in Lubbock for a one-week school for appraisers and real estate agents in Lubbock November 24-28.

**CO-SPONSORS** of this school are the Texas Tech financial department and the South Texas chapter of the Society of Real Estate Appraisers.

Classes from 9-12 a.m. and 1-4 p.m. are being held in the Union Ballroom daily.

**ACCORDING** to Burt M. Montonna, associate professor of finance at Tech, "approximately six hundred appraisers and real estate agents from West Texas and Eastern Texas and faculty members of Tech's finance department are expected to attend."

Tuition is \$40 for the two-week course.

### Six Techsians Attend Methodist Conference

Several members of Tech's Wesley Foundation will be spending Thanksgiving holidays in Austin at Houston-Tillotson College where they will attend the Texas Methodist Student Movement Conference.

Students attending are Arthur Berg, Jerry Matthews, Gwinn Lovel, Mary Herrington, Linda Lee and Jennice Marks, Rev. Fred Holt and Rev. and Mrs. Cecil Matthews, Wesley Foundation directors, will also go to the meeting.

"Long Division" is the theme of the state conference and will be carried out in speeches by Dr. Albert C. Outler, professor of theology at Perkins School of Theology, SMU, and Eduardo C. Mond-

lane, professional officer in the territorial research and analysis section of the Trusteeship Division of the United Nations.

"The purpose of the conference is to bring Methodist students together and discuss the divisions that have long been problem such as man from man, man from God and one nation from another nation," Mrs. Matthews said.

### Dr. Pasewark Attends Meet

Dr. William Pasewark, professor of business education at Tech will attend the Sixty-First Annual Convention of the National Business Teachers Association, in Chicago, December 30, 31 and January 1.

DR. PASEWARK will serve as chairman of the meeting of the College Department. Topic for this meeting will be "Improving Teaching Through Classroom Experimentation."

Theme for this year's convention is "Personal Development Through Business Education." Emphasis will be placed on the teaching of students more than mere skills of business. The convention will deal with the problem facing teachers of how to teach students how to make good adjustments to personal situations in business.

DR. G. HERBERT TRUE will deliver the main address at the annual NBTA Banquet. The title of his lecture will be, "Creativity . . . A Professional Approach." Other features will be special tours to business organizations and points of interest in Chicago, teaching problem clinics and other types of programs.

### Former Alcoholic Talks Exhibits

T. P. O'SHANAHAN Speaks On Alcoholism

"If you are between the ages of 18 and 21 and an occasional drinker now, 1 out of 8 of you will have a drinking problem by the time you are 30."

THIS IS what T. P. O'Shanahan, lecturer for the South Plains Alcoholic Clinic, told Newman Club members in a speech on Alcoholism Sunday night.

O'Shanahan, speaking as a previous alcoholic, described the tendencies which could lead to alcoholism in a student or any young person, by posing the question, "Why do you drink?" He then noted, "if it's for pleasure, that's fine! But if it's to let down emotional inhibitions, that's dangerous! These inhibitions were placed in man for a purpose; to let them down is no less dangerous than to take the brakes off a car and drive into downtown Lubbock," he said.

A RESIDENT of Lubbock for the past eight years, O'Shanahan told Newmanites that there were over 4,000 people in the city needing the treatment of the clinic at present, but that almost 1,200 had been restored to normal life by its work.

O'Shanahan left his audience chucking with the reminder that "Human dignity is about the only substance that cannot be preserved in alcohol."

### HAT COURSE TO BE OFFERED

The Home Economics Club and Phi Upsilon Omicron will co-sponsor a Holiday Hat Course on Dec. 3 and 4. The course will be taught by Mrs. Patsy Schneider, and will include 6 hours of instruction for \$7.50.

Three sections will be taught — one from 9 a.m. to 4 p.m. on Dec. 3 and one from 9 a.m. to 4 p.m. on Dec. 4, and the third will meet from 7 to 10 p.m. on both evenings.

For further information contact Ex. 314. Reservations must be made by Saturday, Nov. 29.

### FRENCH MOVIE IS PRESENTED

"Passion For Life" is the French movie that will be shown December 4 in the library, room 14.

Sponsored by the French Club, the movie starts at 3, 4:30 and 7 p.m. Admission is 40 cents.

### Exhibits Are Shown

Two new exhibits will open in the West Texas Museum December 2 and run through December 19.

The South Plains Art Guild's Alcov show, featuring the work of Thelma Lawrence and Rod Parkenson, assistant professor in Architecture, will be shown in the Art Gallery in the museum. The show will consist of paintings that they have done.

The other exhibition consists of Japanese Festival Dolls. The exhibit is composed of two units.

One part is composed of 65 dolls being circulated by the Smithsonian Traveling Exhibition. It is traveling throughout the U. S. and Canada.

These dolls are made by manufacturers in Japan for decorative and festive occasions. Ideas for the dolls come from the theatrical personalities. They are made from clay, wood, sticks and paper mache. This exhibition will be shown in the Museum Rotunda.

The other component of the Japanese Doll exhibition was loaned by the Children's Museum in Fort Worth. There are about 15 dolls in this exhibit.

They are ceremonial dolls. They are used for special occasions such as birthdays and the Peach Blossom Festival on March 3 every year.

These dolls are carved out of wood and have clothes of real cloth.

Children are never allowed to play with the dolls. They are used only for decorations and ceremonial occasions.

### Appraisers Meet Here

David L. Montonna, a New York consulting appraiser, is instructing a one-week school for appraisers and real estate agents in Lubbock November 24-28.

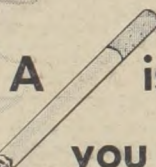

CO-SPONSORS of this school are the Texas Tech finance department and the South Plains chapter of the Society of Residential Appraisers.

Classes from 9-12 a.m. and 2-5 p.m. are being held in the Tech Union Ballroom daily.

ACCORDING TO Burl M. Abel, associate professor of finance at Tech, "approximately sixty appraisers and real estate agents from West Texas and Eastern New Mexico and faculty members of Tech's finance department are expected to attend."

Tuition is \$40 for the 30-hour course.

A  is to beat—but without the  you miss the whole idea of

A  is to smoke—but without flavor you miss the whole idea of smoking!

When it comes to flavor...

### Careful Driving Needs Emphasis

CAREFUL DRIVING cannot be emphasized too much. This is especially true for all Tech students who will be leaving Wednesday to spend Thanksgiving in a different surrounding.

In many instances a person from a certain town or city with a car will be taking fellow students as passengers on the journey home. This increases his responsibility.

Thanksgiving is usually a welcome break in the school year, and when it comes, students are usually in a hurry to get to their destination. In this "hurry, hurry" bit lies the potential danger.

★ ★ ★ ★

Before you hit the highway and start making speeds between 80 and 90 miles an hour, stop and think for a moment what the consequences could be. Stop and think what and how you would feel if you had a wreck.

What would Dad think if you tore your (or his) car up? How much would it upset your mother if she was to receive the news that you were injured or killed in an accident? How would it affect your little brothers and sisters?

The main cause of accidents on highways today is speed. Most of the cars are equipped to run faster than the speed provided for by State laws without any extra effort.

★ ★ ★ ★

This brings up another point. If you are speeding on your way home, and are lucky enough not to have an accident, chances are still great that you will get stopped by the Highway Patrol, and then chances are even greater that you will receive a ticket for \$20 or \$30. If you are like most Tech students, you don't have the money to throw around.

The fact that it is a holiday period also adds to the danger of traveling. There will be others who are not as careful as you, so you have to watch out for them also.

Stop and think. Watch the gas pedal and keep within the speed limit. We would like to see you around the campus again.

### From Other Colleges

## Teacher Education Gets Shot in Arm

In a "teachers for tomorrow" move, Williams College this year is offering a new course, "Studies in the History of American Education."

PROFESSOR Charles R. Keller has termed the course another move by Williams to place the stamp of approval on teaching, particularly on teaching in public schools.

It is designed both for prospective teachers and students who have a general interest in the history of education, and for prospective parents and taxpayers who should be well-versed in the history and problems of education.

THE NEW COURSE will deal with education as an aspect of American culture and in relation to the main currents of intellectual history.

★ ★ ★

Yale will receive a grant of \$120,000 from the Carnegie Corporation in support of the first of a series of steps to strengthen and consolidate the University's efforts in the recruitment and training of candidates for the teaching profession.

THE GRANT WILL enable Yale to seek out and enlist as many as ten such students annually and assign them to teaching duties in the various departments of instruction in Yale College. The new project will be known as the Teaching Fellows Program.

Each Teaching Fellow will receive two kinds of supervision. The first will be within the University Department in which he will normally be teaching.

THE SECOND KIND of supervision will come from a central committee or professors named to administer the Teaching Fellows Program.

### two party

## Grand Affair

mccarty

Homecoming this year was a grand affair. We overheard several exes say that this was the best ever as far as they were concerned.

A prelude to the actual Homecoming activities as far as the exes were concerned were the activities at the Saddle Tramp Southwest Conference Circle Friday night.

Things started off with a few yells and band numbers by Tech students. Following this was a very impressive sight—the Coronation of the Homecoming Queen and the announcement of the Court.

Next was the dedication of the Circle to the Southwest Conference. The procedure used in this dedication was impressive, as was the lighting arrangements and the choral numbers.

When the pig in effigy swung over the pit of fire and the loud roar from Tech students followed, the spirit for Homecoming was set.

The initial kickoff was the Homecoming Parade Saturday morning (even though a few extracurricular activities got underway Friday night in some of the downtown hotels).

The parade was impressive, although there were a few things that went wrong. The floats which were entered were well built and showed signs of originality.

Some of the more unfortunate things were that one float broke down, and didn't get to come down Broadway until the parade was over, and another's motor wouldn't run, and it had to be pushed all the way by members of the fraternity.

Perhaps the most unfortunate thing was that some of the fraternities had no floats at all. This was one of the main gripes of the exes. This should be remembered next year when Homecoming rolls around.

The game itself was enjoyable to watch, even though Tech lost. The Raiders played a good game, and from all indications the exes weren't too disappointed.

Both teams put on a good offensive show, although the score wasn't very high. This pretty well indicates that the defense was able to buckle down when the pressure was on.

Following the game, exes filtered out to the many, many receptions planned for them. We imagine that the exes enjoyed seeing old acquaintances again, as the students enjoyed seeing them all back.

Saturday night was filled with music as several dances throughout Lubbock were ensuing. The biggest of them all was the dance for students in the Coliseum.

Don't know what the actual attendance was, but for an idea, we'll give a picture of the scene about 10:30 p.m. The entire floor area (except for chairs) was filled with dancing couples, most of the chairs were occupied, and many were in the stands sitting a few feet or just there observing the activities.

By the time Sunday morning arrived there were many tired Techsans, but the overall feeling seems to be that Homecoming this year was a worthwhile endeavor.

"MATH F, PSYC F, ENGLISH F, AN' A' C' IN PHYS ED - JUST SHONS YA WHAT HAPPENS WHEN YA SPEND ALL YER TIME STUDYIN' ONE SUBJECT."

## The Wasp

tommy schmidt

Sigma Delta Chi, professional journalism fraternity and possibly the most powerful men's fraternity in the world today, will soon be installed at Texas Tech, after being unanimously admitted at the annual national convention last week in San Diego.

THIS IS A big step for Texas Tech and especially for the College's journalism department since the fraternity is represented by journalists from all parts of the United States.

AS CONVENTIONS GO, this annual affair equals any in the country. It was amazing to see how the populace of San Diego cooperated with the organization.

I had the pleasure of attending the convention last week and a short description of activities might serve to illustrate the completeness of the fraternity.

To put first things first, the convention actually began with a get-acquainted party at the Kona Kai Club on Shelter Island Wednesday night. Six minutes from the heart of San Diego, Kona Kai is a veritable transplanted South Sea Island.

AS JOURNALISTS gathered to

chat informally in the main dining room, a small Hawaiian com- be entertained with such songs as Dixie (to a Hawaiian beat) and Cuban War Dance.

Events rolled along until Friday night when the Caliente Turf Club of Tijuana in Lower California, entertained the group with a reception and dinner. This was the climax of the convention (funwise, that is). Music was furnished by the Caliente Mariachis and entertainment by Jimmy Durante, who added an extra bit of hilarity to the occasion.

THE DINNER took place in the dining room overlooking dog races which were taking place below. (As an example of the extravagance afforded, a bottle of imported champagne accompanied each of the 200 tables present). Final feature of the occasion was a luncheon aboard the air-convention actually began with a craft carrier USS Kearsarge. Speaker was Adm. Arleigh A. Burke, USN, Chief of Naval Operations.

At night, parties and fun were the rules, but during the day, the journalists conducted many forums, panels and business sessions.

## Tech W Institut

High school chemistry and biology teachers will attend science institutes at Tech summer under a \$148,000 National Science Foundation grant.

DR. E. N. JONES, Tech president, said the aim of the institutes is to provide for the school teachers a refresher course to bring them up to date on recent events in the scientific field.

The eight-week biology institute will be headed by Dr. Earl Camp, Tech biology professor. The six-week chemistry institute will be directed by W. W. W. landt, chemistry professor at Tech.

DOCTOR WENDLANDT "we plan to select chemistry teachers with one or more years experience in high school teaching." Those who have reasonable expectations of continuing in

## Thanksgiving Frees Student

The long awaited first so- vacation of the year — Thanksgiving — will officially begin 10 p.m. Wednesday, although several students will have already left by then.

CLASSES WILL RESUME 8 a.m. Monday for the final school year until Christmas vacation, December 19.

Tech Union will also observe special hours during the upcoming holiday. The Union will close at 5 p.m. Wednesday and will open at 2 p.m. Sunday.

RESIDENTS OF towns outside of Lubbock will have several things to look forward to during the short four-day holiday.

Besides the ever-present turkey and dressing, the all-reveal mid-semester grade reports have reached home by Wednesday. Therefore, students probably start thinking of some good excuses on the way home.

THANKSGIVING will also be a time of renewing friendships with those whom you graduated with and who went to different colleges.

Following the Thanksgiving holiday, it will be only 26 days, counting Christmas vacation, until Dead Week.

# Tech Will Host Science Institutes Next Summer

High school chemistry and biology teachers will attend two science institutes at Tech next summer under a \$148,000 National Science Foundation grant.

**DR. E. N. JONES**, Tech president, said the aim of the institutes is to provide for the high school teachers a refresher course to bring them up to date on current events in the scientific fields.

The eight-week biology institute will be headed by Dr. Earl W. Camp, Tech biology professor. The six-week chemistry institute will be directed by W. W. Wendlandt, chemistry professor at Tech.

**DOCTOR WENDLANDT** said, "we plan to select chemistry teachers with one or more years experience in high school teaching." Those who have reasonable expectations of continuing in the

secondary field are preferred."

A stipend of \$75 a week plus \$15 weekly for each dependent will be awarded to teachers qualifying for the institutes.

**TUITION AND FEES** will be paid and a travel allowance of four cents per mile will be paid for one round-trip from the teachers' homes to Lubbock.

The biology institute is scheduled to begin on June 1; the chemistry teachers' institute on June 8.

**MONEY IS AVAILABLE** for a minimum of 78 chemistry teachers and 60 biology teachers, the Tech professor said. Funds will be made available for dependents not to exceed four.

If there are fewer dependents than estimated, more funds will be available to train other teachers.

Camp stated: "Biology teachers will be selected according to their need for the refresher training in the biological sciences."

**THE HIGH SCHOOL** teacher may earn a maximum of nine credit-hours at the biology institute that will also include two fields trips — one to study mountain flora and fauna in New Mexico. The other will study subtropical life near Xilitla, Mexico.

High school chemistry teachers will earn six-credit hours at the chemistry institute, Doctor Wendlandt said. Six visiting lecturers and three full-time Tech chemistry and chemical engineering faculty members will direct the institute.

**APPLICANTS** for the institutes should write Dr. Camp, biology institute director, or Doctor Wendlandt, chemistry institute director.

# Flint Opens Wednesday

Flint Street will be opened from 19th Street Wednesday morning to provide another thoroughfare for the campus. Considerable traffic congestion can be avoided by entering the campus by this route from south and southwest Lubbock.

dormitory students who have been parking in the off campus parking lot south of the track field must park in dorm lots.

Tickets will be issued beginning Wednesday to cars parked in this area without off campus permits.

**THE NEW STREET** also provides easy access to the largest parking area on the campus.

Tech meets West Texas State Dec. 1 to open the 1958-59 basketball season.

## THE CLOTHES YOU SAVE MAY BE YOUR OWN

In this column we take up fashions for college men, which means of course, the Ivy Look. Today's Ivy Look clothes have made a great stride forward. Not only do they have thin lapels, three buttons, narrow trousers, and a minimum of shoulder padding, but — now hear this! — this year they are actually covered with ivy!

This new development, while attractive beyond the singing of it, nevertheless gives rise to certain hazards. For instance, people keep trying to plant you on Arbor Day. Indeed, this is precisely what happened to two SAE's of my acquaintance, Walter R. Gurlash and Fred Rasp. Before they could protest, they were snatched up, planted, limed, and watered, and today they support a hammock in Cut and Shoot, Vermont.

People keep trying to plant you on Arbor Day...

Let us now discuss shirts. Again this year the campus favorite is the good old Oxford with button-down collar and barrel cuffs. This is without doubt an admirable garment, but let me ask you a question: if you don't wear anything but Oxfords, what do you do with all the cuff links people have been giving you for your birthday since you were twelve years old?

Well sir, some fellows have their wrists pierced, but what E. Mackenzie Sigafos, a Chi Psi of my acquaintance, did was to take a dozen pairs of his handsome gold monogrammed cuff links and string them together in a charm bracelet for his girl, Jo-Carol Isobar.

(It turned out, incidentally, to be a mistake. In short order so many admirers accrued to Jo-Carol on account of her gorgeous bracelet that she grew tired of plain old E. Mackenzie, and one night when she was seated on a bench in Lovers Lane throwing sticks for E. Mackenzie to retrieve, she suddenly, cruelly, without warning, told him they were through.

"I am heartbroken," said E. Mackenzie, heartbroken. "But if you must, give me back my charm bracelet."

"No, I will keep it," said Jo-Carol.

"What for?" said E. Mackenzie. "You can't wear it. The initials on the cuff links are all mine—E.M.S."

"Ha, ha, the joke is on you," said Jo-Carol. "Yesterday I was voted Miss Chinese Restaurant of 1958."

"So?" said E. Mackenzie.

"So," replied Jo-Carol, "E.M.S. does not stand for E. Mackenzie Sigafos. It stands for Eat More Subgum!"

A broken man, E. Mackenzie today squeezes out a meagre living as a pendulum in Cleveland. Jo-Carol was killed in a tong war.)

But I digress. We were talking about well-dressed men, and the one essential for every well-dressed man—and every well-dressed woman too—is a well-dressed cigarette—neat, compact, flavorful, and correct for work or play, sunshine or shower, repose or revelry, darkness or light. And where does one find such a perfect companion? Just go to any tobacco counter and ask for Philip Morris. Ask for it in long size or regular. Ask for it in soft pack or hard. But ask for it; that's the important thing. Don't just stand there making cryptic gestures at your tobaccoist. He may be armed.

Those of you who favor filters, try a filter that will favor you—Marlboro, made by the makers of Philip Morris, who bring you this column throughout the school year.

# Thanksgiving Frees Students

The long awaited first school vacation of the year — Thanksgiving — will officially begin at 10 p.m. Wednesday, although several students will have already left by then.

**CLASSES WILL RESUME** at 8 a.m. Monday for the final short grind until Christmas vacation, December 19.

Tech Union will also observe special hours during the upcoming holidays. The Union will close at 5 p.m. Wednesday and will reopen at 2 p.m. Sunday.

**RESIDENTS OF** towns outside of Lubbock will have several things to look forward to during the short four-day holiday.

Besides the ever-present turkey and dressing, the all-revealing mid-semester grade reports will have reached home by Wednesday night. Therefore, students will probably start thinking of some good excuses on the way home.

**THANKSGIVING** will also be a time of renewing friendships with those whom you graduated with and who went to different colleges.

Following the Thanksgiving holidays, it will be only 26 days, not counting Christmas vacation, until Dead Week.

# Europe Trip Offered

A gondola ride in Venice and visits to Buckingham Palace, Paris' Arc de Triomphe—all these world famous sights and more will be available to those students who tour Europe this summer under the guidance of Mrs. Alan I. Strout, Texas Tech English instructor.

**THE TOUR** will last 63 days and may be taken advantage of by qualified students for six semester hours of English credit. The tour

will include trips to England, Holland, Switzerland, Germany, Austria, Liechtenstein, Italy, Monaco, San Marino, Spain and France. Students making the trip will have a choice of crossing to the Continent. Those who decide to go by boat will leave New York City on June 27 and those who fly will depart July 5.

**ENGLAND WILL** be the initial stop. The visiting students will visit Buckingham Palace and

Westminster Abbey. They will take a full-day motor trip to Oxford and to Shakespeare's home at Stratford-On-Avon, where they will see a Shakespearean play in its original setting.

In Holland, the students will stop in Amsterdam at Rijks Museum to see Rembrandt's "Night Watch" and other art masterpieces. In Germany, the students will see the Great Gothic Cathedral of Cologne and Heidelberg of "Student Prince" fame.

**A GONDOLA RIDE** on the Grand Canal of Venice will be the highlight of the tour of Italy. The Colosseum and the Catacombs and the Vatican Library are top spots of interest in Rome.

Paris will offer, among other things, the Notre Dame Cathedral, Napoleon's Tomb, the Arc de Triomphe, Versaille Palace and the Latin Quarter.

**OTHER INFORMATIVE** and interesting side tours will be taken during the 63 day excursion.

Further information, including the expenses of the trip, may be obtained from Mrs. Strout in the Tech English department.

## Crop Judging Team Is on Contest Tour

Members of Tech's crop judging team boarded a train last Saturday which took them to the National Collegiate Grain Judging Contest at Kansas City, Mo.

**TEAM MEMBERS** are Bobby Burnett, Loving, N.M.; Ed Clark, Crowley; Dieky Hardee, Snyder and Steve Noble, Lubbock.

After leaving Kansas City, the team will travel to Chicago for the International Collegiate Crop Judging Contest where they will compete with teams from colleges and universities from all over the United States.

**EACH CONTEST** has three phases — identification, seed judging and commercial grading.

Cecil Ayers, assistant professor of agronomy, has coached the team since 1947. During that time Tech's team and individuals have won 22 out of a possible 24 all time records in the various phases of the contest.

**"WE FEEL** that we have the best team of all times this year," Ayers said.

The team will return to Tech Dec. 3 at noon.

## Board Approves Building Budget

(Continued from page one).

Dr. Earl Lemon Koos, professor of Sociology.

**THE CONTRACT** with the United States government for air flight training was renewed by the Board.

Funds were made available for air conditioning and installation of computers in the Computer Lab of the West Engineering building.

**OTHER MAJOR** building plans — a new physical plant building, mechanical engineering laboratories, addition to the Science building, mechanical engineering laboratories and a new location for the Tech Press — were okayed.

Eleven courses in Tech's curriculum have been rearranged, 40 new courses have been added (including four courses in Russian, the first of which will start in 1960), and 12 courses have been dropped.

**THE BOARD** appointed a committee to make Tech's recommendations concerning funds for a nuclear reactor and the West Texas Museum to the Texas Commission on Higher Action. The Commission had previously denied funds for these uses.

In the art of writing, to pretend originality is as vain as for a girl to believe that nobody except her ever dropped a handkerchief in the path of a sweet boy.

We are more likely to admit that a man we praised is really a flop than to admit that a man we called a flop is really worthy of praise.

## Cigarette Packs Due Monday

Sororities, fraternities and other Tech organizations participating in the Philip Morris, Inc. Save-A-Pack cigarette contest must turn in their packages before midnight Monday at 1602 Avenue Y, according to Arthur Mayhew, campus representative. Boxes will be counted by impartial judges and the winner will receive a hi-fi record player and stereo speaker setup. Second prize will be a \$25 savings bond.

## RELIGIOUS LIBERALS, ATTEND CHANNING CLUB!

The Channing Club is an organization of liberal religious youth, sponsored by the Unitarian Fellowship of Lubbock. Participation in club activities does not require membership in the local church, or an agreement with any particular religious philosophies. Our group is interested primarily in discussion and an exchange of ideas.

Following is a brief and partial list of ideas held by many religious liberals:

1. We believe that reason & experience are the basis of a mature religion.
2. Religion cannot be a set creed, but an ever evolving experience.
3. Our chief concern is with life on earth, not with an after-life.
4. The Bible is used as an important reference material, but NOT as an absolute authority.
5. We do not accept the doctrine of Original Sin.
6. In the Channing Club, any and all questions are welcome and respected.

For further information about meetings or purposes of this club call:

PO 2-2173 — PO 3-7788 — PO 2-5889

# 'Our Kids Did A Fine Job' — Weaver

"All our kids did a real fine job," remarked DeWitt Weaver following Saturday's 14-8 loss to Arkansas.

From Weaver on down everyone felt that had a few more breaks come Tech's way it would have been a different story. But no one wanted to take anything away from Arkansas.

THEY HAVE a hard-hitting team and terrific speed," the head coach commented. "They are real clean and show good coaching."

This week's game in Houston with the Cougars will wind things up for the year. It will be the last performance for 15 graduating

seniors. A win would give the Raiders a 4-6 record and leave things on a bright note.

Ronnie Rice continues as the leading rusher with 241 yards on 60 carries and an average of 4.0 per carry. Floyd Dellinger is second with 232 on 65 for a 3.6 mark.

RICE IS THE total offense leader with 307. Again Dellinger is right behind with 305. Dellinger is the leading pass receiver with 19 for 167 while end Bob Witucki is now 10 for 138 following a brilliant performance Saturday.

Quarterback Jerry Bell is the leading passer with 25 out of 57 for 236 and two TD's. Bell also leads the scoring with 20 points followed by Witucki with 18.

QUARTERBACK Ken Talkington now leads the punters with 8 for a 39.3 average. Rice has the best mark, 27.6, on kickoff returns while Dellinger with 5.4 leads the punt returns.

SHORT LIVED JOY — Raider quarterback Jerry Bell breaks away to the Arkansas 45 with 2:22 left in Saturday's 14-8 loss to Arkansas. Bell, with

the ball on the Tech 20, started to pass, but ran instead. However, the play was nullified by a clipping penalty and the Raiders were penalized to their own 30. (Photo by Joe Spears)

## Ever meet a pessimist?

He sees the world through dark glasses. He just knows that he'll wind up in a job he doesn't like, that he'll be underpaid, that he'll get lost in the crowd. But realistic men know these things depend largely on their own decision in choosing a career.

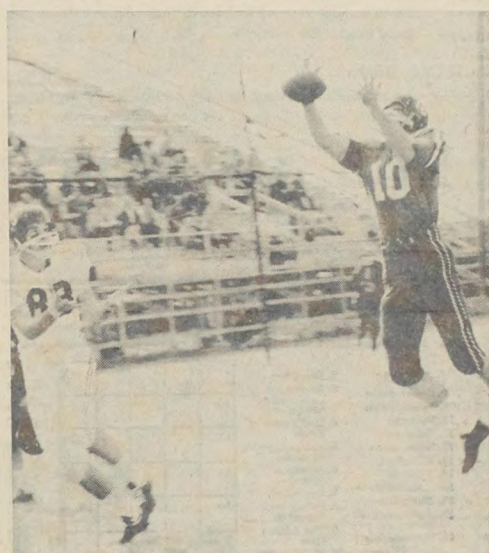

Realistic men look for companies that provide sound training, advancement opportunities, challenging work, stimulating associates and good pay. These are the fundamentals that insure success and progress in a career.

The Bell Telephone Companies offer these fundamentals to hard-working, ambitious realists majoring in the arts, the sciences, business or engineering. Get the whole story regarding telephone careers. Talk with the Bell interviewer when he visits your campus. Ask him about training, advancement opportunities, salary, job security. We think you'll like what you learn.

You can also get information about telephone careers by reading the Bell Telephone booklet on file in your Placement Office.

**BELL TELEPHONE COMPANIES**

HOLD EVERYTHING! — Floyd Dellinger, Raiders halfback, halts an Arkansas drive early in the second period with an interception of James Monroe's pass on the Tech 3-yard line. He returned to the Raider 28. The play started on the 30. (Photo by Joe Spears)

### ET Leads State

By THE ASSOCIATED PRESS

East Texas State leads the Texas college football campaign going into its final week and the Lions will finish at the top regardless of what happens.

With a 9-1 record, East Texas has wound up its schedule. Texas Christian has 8-1 with Southern Methodist to play Saturday. TCU could tie East Texas State for the final lead by beating SMU.

There are only six games left with most of the teams having finished the season.

# Phi Delt's Cop Volleyball Title

by JOHN LEWIS  
Phi Delta Theta did it again. After winning the intramural touchfootball title, the Phi Delt's entered volleyball and came out on top again.  
The Phi Delt's entered two teams in volleyball competition. The Phi Delt "B" team was eliminated in the first round of competition by a strong PE No. 2 team by scores of 15-11, 14-9, and 14-8.

Phi Delt "A" team began with a win over the Cosmopolitan Club and then went on to win the title with a game against PE No. 2. In this final round, the Phis defeated PE No. 2 in three games while allowing their opponent one victory.  
Phi Gamma Delta and Sigma Alpha Epsilon were eliminated in the semi-finals.  
The winning Phi Delt team was comprised of Podd Hill, Charley

Lynch, Gerald Myers, Don Apple, James Wiley, Steve Lee, Preston Davis, and Chuck Key.  
The one game this combination lost to PE No. 2 was the first defeat for them in two years of competition.  
The team over-all height would average out to be about 6-3. This is one factor in the title victory.

## LSU RATED NO. 1

(P) — Last Saturday it was Louisiana State 62, Tulane 0 on the football field; Monday it was LSU 115, Iowa 16 in the ballots. In both cases it was no contest where the Sugar Bowl bound Tiggers of LSU were concerned.  
The 115-16 margin measured the first place votes in the weekly Associated Press poll of sports writers and broadcasters. Iowa came closest in this respect but placed only fourth in the overall balloting, counted on the basis of 10 points for each place vote, nine for second, etc. There will be one more poll next week, but it seems a formality for LSU, which has completed its regular schedule.

## Surprise Coach

Coach Tom Hamm had a pleasant surprise waiting for him at the training table at West Hall Sunday. The Freshman football players presented him with a transistor radio.  
HAMM HAD been hinting to his wife, Dorothy, for a transistor for Christmas. "I guess that's where they got the idea," he said. Along with the radio, Captains Neil Kobel and Dickie Polson gave Asst. Coach Jim Palmer a cigarette lighter.  
Stated Hamm, "It was a complete surprise to me. It's the first year the freshman have done anything like this."  
THE RADIO was just what he wanted.

# Outlook

By BILL DEAN

by BILL DEAN

Saturday afternoon Texas Tech played its finest game of the year in losing to Arkansas 14-8. With a few more breaks it would have been a different story.  
It was the kind of game that left a good taste in the mouths of the Homecoming fans even though we lost. It was a sharp offensive attack with plenty of razzle-dazzle that impressed me most.

Raider passing never was better. In all the Raiders completed 15 of 27 for 145 yards. Quarterback Jerry Bell came off the bench despite injuries to have one of his finest days — 10 out of 14 passes for 94 yards and 32 yards rushing on four carries.

The starting quarterback, Ken Talkington, did a grand job also. It was his first game as a starter since coming to Tech and he admitted he "was real scared at first." When asked about the sharpness of the passing he replied that "we knew we had to pass to loosen them up."

Bell agreed. "Our short passes and passes to the flat were the most effective," he remarked. "We hit them short where they were weak," Bell concluded.

Coach DeWitt Weaver felt that the real turning point of the game was "when we didn't get the ball when they fumbled on Bell's punt." This was on the next-to-last play of the third quarter when Bell punted from the Tech 29 to the Arkansas 42 where the ball hit a Tech player on the shoulder and the Raiders were penalized to their own 44.

The officials explained that it interfered with the Arkansas player trying to field it. The ball was fumbled on the play and the Raiders recovered but instead were penalized 15 yards and the ball was given to the Porkers.

However, many of the players felt that the penalty was for interfering with the receiver after a fair catch signal.

In fact, one of the officials told Bell that the receiver was, "in the process of lifting his hand to signal for a fair catch."

Big E. J. Holub, who played one of his finest defensive games, was the first man to make contact with the receiver and said that he didn't see any signal. "I was first to hit him and he gave no indication of a signal," Holub stated.

All the rest of the players agreed that: (1) there was no signal; (2) It was the turning point of the game.

Everyone felt that the Hogs were a hard-hitting solid outfit. Weaver described them as, "a real clean team and well-coached. They hit hard and have better speed than most teams . . . But all our

kids did a real fine job. Holub was great . . . Jerry Seltridge and Bob Witucki played well as did Rabbit (Milton Vaughn) and Bell — they all did," he concluded.

Witucki, who set a new pass reception record with six for 78 yds., had high praise for Porker quarterback James Monroe. "He hurt me the most," Bob remarked. "His play-calling was real good. They hit as hard as any team we've played. I just wanted to win so badly — all of us did. Jerry (Bell) was terrific today."

Holub praised the speed of the Hog backfield. "They run like jackrabbits. I rate them next to TCU among the teams we've met."

Donnie Stone, elusive Porker halfback, drew his share of praise. Most of the Raiders agreed that he was one of the fastest backs they had seen. Stone carried 12 times for 41 yards and one touchdown.

Assistant Coach Beattie Feathers felt that the Raiders contained their end runs "pretty well." Feathers felt, "they have a fine club — one of the best in the conference. Broyles did a fine job of bringing them back. With a few more breaks though we would have won."

Many of the seniors expressed sorrow of having played their last home game at Tech. Tackle Phil Williams objected, "we were really up — it was a big disappointment. They have a good team, but we got some bad breaks."

Regardless of how you viewed the game you almost have to agree with Holub when he said, "We have a great bunch of guys and we really played our hearts out today."

As this edition will be the only one for the week it has come time to make my last forecast. Last week was a good one with 16 out of 18 for 89 per cent. The yearly total is now 147 out of 208 and 71 per cent.

TECH vs. HOUSTON: The Raiders will be after this one and I believe they will get it to close out the year on a bright note. Tech.

TCU vs. SMU: The time is ripe for an upset but the Frogs want that undefeated conference season too bad. TCU

TEXAS vs. A&M: This tradition packed classic should be a terrific battle. Texas.

BAYLOR vs. RICE: The Owls will try and salvage something from a bad year. Rice
