## Sigma Nus Honor Morton

Jany Ann Morton, was recently named "White Rose Princess" for the month of March, at a party at the Sigma Nu lodge.

**MISS MORTON** is a senior education major from Lubbock, and member of the Delta Delta Delta sorority.

She will compete with other princesses of the year for the "White Rose Queen," to be chosen in April.

## Organizations Install Officers; Greeks Initiate, Honor Pledges

**GAMMA PHI BETA**

Gamma Phi Beta held officer installation Wednesday night. New officers include Ruth Sewell, president; Mayme McDaniel, 1st vice president and pledge trainer; Cookie Puig, 2nd vice president and social chairman; Day Hoelscher, recording secretary.

LaRue Elliot, corresponding secretary; Kay Sharpe, treasurer; Gail Cooper, standards chairman; Jean Shawver, rush chairman; Billie Jean Stroehle, scholarship chairman and Shirley Wyatt, efficiency chairman.

Appointed officers are Ellen Wheeler, activities chairman; Mary Anne Clifton, assistant pledge trainer; Vivian Lowe, assistant rush chairman; Susie Cruthfield, assistant social chairman; Joy Womach, alumni relations; Janie Bowles, BSO delegate; Carolyn Vines, AWS representative.

Mary Sue Rheinhardt, Cresent correspondent; Dianne Dodson, assistant corresponding secretary; Jan Anders, historian; Par Hart, intramural sports chairman; Ann Montgomery, float chairman; Mary Ellen Colbaugh, lodge chair-

man; Dolores Hunt, magazine chairman.

Roxene Bingham, Panhellenic delegate; Diana Blake, Parliamentarian; Barbara Parsons, philanthropy chairman; Debbie Howell, public relations; Becky Bennett, ritual chairman and Mary Jane Campbell, song leader.

A planning workshop for new and old officers will be held today to discuss improvements for the next year.

**ALPHA PHI**

Climaxing a week of pre-initiation activities, 19 Alpha Phi pledges became active members in services at First Christian Church.

New members include Suzanne Alexander, Connie Anderson, Linda Anderson, Elaine Bowron, Eleanor Clayton Ouida Daugherty, Ann Dowdy, Judy Konham, Judy Grafius, Suzanne Halbrook, Phylis Kuhn, Carole Kutner, Judy Lott, Virginia Nelson, Pat Pate, Dee Smith, Gloria Wakefield, Marilyn Warner, and Mary B. Welch.

A banquet at Top of the Plains followed initiation services. Eline Bowren, Hazel Casey and Mrs. Lenore Tunnell spoke. Other activities included a surprise party, card get-together and a kidnap-slumber party.

**TAU BETA SIGMA**

Tau Beta Sigma, honorary band sorority, elected 6 new officers at the last meeting.

Officers for the year are: Jill Jost, president; Jeanne Newman, 1st vice president; Deana Ward, 2nd vice president; Francie Russell, secretary; Jean McCoy, treasurer and Frances Dietrich, AWS and BSO representative.

New pledges of Tau Beta Sigma are Darnell Eubanks, Tamesia Fields, Linda Meadow, and Daisy Standert.

**DELTA DELTA DELTA**

Following election on Wednesday night, new officers of Delta Delta Delta attended a retreat Saturday to plan for the coming year.

Officers are Gail Petersen, president; Linda Bunger, vice president and pledge trainer; Sherre Smith, recording secretary; Carolyn Dorsey, treasurer; Patsy Painter, Marshall; Lynn Baxter, Chaplain; Kay Kring, activities.

Marcia Vick, social chairman; Kathy White, rush chairman; Peggy Braselton, recommendations scholarship chairman; Suzanne Stafford, Librarian; Robbie Craze, correspondent secretary; Jimmy Harkrider, Trident correspondent.

Sue Ann Jenkins, historian; Jane Rechenhain, service projects; Marty Wynnes, Fraternity education; Melinda Harrison, publicity; Suzanne Hood, sponsor chairman; Judy Jones, AWS representative; and Gail Petersen and Judy Harper, Panhellenic representatives.

## Hike in Tuition Needs More Study

IS A TUITION HIKE GOOD OR BAD?

Texas college students find themselves faced with this question, with a proposed tuition hike pending in the state legislature.

Three points should be considered in answering the above question—how much will the raise in tuition be, how will the money be used and will anything be accomplished by it.

A tuition hike exceeding \$25 per semester would certainly be too high for the average student's finances.

★ ★ ★

As for the second point, a raise in tuition would meet with more favor among students if it is used in higher education, rather than for such things as to retire part of the state debt or to raise the public education salaries.

Tuition hikes in the past have been used for other things than higher education. We understand and sympathize with the problems facing the state government, but we fail to see why student funds should be used for anything except higher education, which certainly is in dire need of funds.

★ ★ ★

Concerning the third point, it is necessary to consider the enormity of the monetary problem facing the state government and higher education. A \$25 per semester tuition hike would only be a "drop in the bucket" towards solving the problems of either the state debt or higher education.

To bring in enough money to do any good, the tuition rate would have to be raised, but then college enrollment would decline at about the same rate the tuition was increased thus preventing a substantial increase in the sum of money brought in by tuition.

To solve its monetary problems, higher education or otherwise, the state government must find some other solution except making the college students pay more. A broad-base tax, income or sales, seems to be the only way to raise the large amount of money necessary to conquer the state government's finance problem.

★ ★ ★

We feel that a tuition hike is basically unsound, but each student should reach a personal decision on the matter. Talk or write to your state representatives, talk to friends and relatives and study the problem from every angle—then support whichever side of the question you favor, before it is too late.

The TOREADOR, official student newspaper of Texas Technological College, Lubbock, Texas, is regularly published each Tuesday, Thursday and Saturday morning during the two long terms, excepting holidays, by students of the College as an expression of student news and opinion only.

The TOREADOR is financed by a student matriculation fee, advertising and subscriptions. Letters to the editor represent the views of their writers and not necessarily those of the TOREADOR. Letter must be signed, but may be published without signatures in justifiable instances. The views of the TOREADOR are in no way to be construed as necessarily those of the administration.

Entered as second class matter at the Post Office in Lubbock, Texas, under act of March 3, 1879.

## Does Tech Need Flag?

Does Tech need and want a school flag?

The Tech Vets Association will be searching for the answer to that question for the next week or two by weighing student opinion.

IF THE MOVE is backed by enough students, the Vets will then begin work on the project, with a presentation of the flag to the school later this spring.

In pointing out the desirability of a school flag, David S. Weaver, Vets president asserts that at least three other Southwest Conference schools have school flags — Texas University, Texas A&M and Texas Christian.

A school flag can be used to good advantage in commencement exercises, convocations and athletic contests, along with the American flag and the Texas state flag.

Tech's flag would be financed by the Vets spring dance, which is open to the public, and a contest would be planned for a student design of the flag — contest rules and flag dimensions to be given later, if the project receives favorable attention.

A panel of judges, made up of students, faculty members and Lubbockites, could narrow the entries to a reasonable number, and, perhaps, a campus-wide student vote would decide which design would be used.

Westley LaBar, chairman of Tech Vets Projects Committee, has charge of the flag project.

★ ★ ★

As far as the TOREADOR is concerned, the project is a good one, because, with the second highest enrollment among state colleges, a member of the Southwest Conference and one of the leading colleges in the state, Tech needs something that is representative of all that Tech stands for.

A flag would be representative of school spirit, and, on a smaller scale, evoke the same feeling for Techsians that the American flag does for Americans.

Persons connected with Tech could point to a flag with pride, while the flag would develop into a means of easy recognition for people outside of Tech. This flag would be a great spirit builder for athletic contests, as well as other Tech functions (all school convocations).

★ ★ ★

But to make a project of this sort successful demands support from the student body, faculty and staff. If Techsians have any comment to make, they should contact the Tech Vets or Student Council.

The TOREADOR is happy to receive letters discussing the project, and will help in any way possible to make the project successful.

A school flag would be a great addition for Tech, since it would become representative of the school. It is up to Techsians to see that Tech gets a flag.

## Book System Can Aid Tech Student

NEXT TO TUITION, the biggest scholastic expense faced by Tech students is books and supplies, and this is further aggravated by the low resale value of used books.

After receiving a low sum of money for a used book, a student must then pay a much higher price for a used book, comparable to the one he sold, in another course.

Many students have found a partial answer to this problem by selling or trading books among themselves, but it is done on too limited a basis to be helpful to many students. Why can't an operation of this sort be expanded to be of aid to the entire student body?

An exchange system, under the direction of Tech Union or the Student Council, could be set up, allowing students with used books to trade them for used books needed for courses the following semester.

A small fee could be charged for each exchange, to finance the operation, and if a student wished to exchange a book for one of greater value, he would have to pay the difference. Also, used books could be bought outright and sold outright at fair prices.

To get the operation off the ground, an allocation, to be paid back later, could be made from the student matriculation fund, or in case of a perverse allocations committee, student contributions could finance it. If any profit were made later on, it could be used to expand the stock of books, or be divided among students participating in the exchange system.

Office space for the exchange system could be provided by Tech Union, or could be found in one of the barracks around the campus. If on-campus space couldn't be obtained, then off-campus space could be rented.

An exchange system for used books is not new to American colleges and universities—there are more than one in the state. In fact, one of Texas' larger universities has gone a step further and set up a student cooperative bookstore, handling school supplies as well as books.

Setting up an exchange system would meet with some disapproval, on-campus and off-campus, because it would cut into the profits of businesses dealing in used books, but any person with the welfare of the Tech student at heart will support an exchange system.

With ever-rising scholastic cost staring him in the face, the Tech student must cut his expenses wherever possible, and a fair deal in buying and selling used books would be a big help. The student must cut corners wherever he can, just the same as a businessman.

# 1959 Interviews Start

Several types of companies have planned interviews for 1959 graduates of Tech, Wednesday, Thursday and Friday.

**WEDNESDAY**, Allis-Chalmers Manufacturing Co. and Texas Power and Light Co. will interview engineering majors. Otis Elevator Co. is also interested in engineers as well as marketing and industrial and personnel management majors.

Other companies to interview Wednesday include these: J. C. Penny Co. has position available for marketing, retailing, personnel and office management, finance and economics majors interested in merchandising.

**THE FORT WORTH** public schools anticipate vacancies in all levels of elementary school and secondary English, science, boys' physical education, arts and crafts and Spanish for those graduates who plan to teach.

Gulf Oil Corporation and Airborne Instruments Laboratory Inc. will be interviewing engineering and physics majors on Thursday. **CAMP FIRE** Girls, Inc. will also be interviewing interested women graduates on Thursday.

Sinclair Refining Co. has employment for 1959 chemical engineering graduates for their refinery technical department and summer employment for men who expect to be graduated in June or August, 1960. They will interview on Friday.

**ALSO INTERVIEWING** on Friday will be: Philco Corporation, interested in electrical and mechanical engineers, chemistry and mathematics majors; Prudential Insurance Co., positions in accounting, finance, marketing, retailing, office management, personnel management and mathematics; Midland public schools,

positions in all levels of elementary education, secondary mathematics, science and English for those graduates interested in teaching.

Texas Instruments Inc. will be and Friday for positions available in two divisions. The apparatus division wants electrical and industrial engineers, mathematics and physics majors. The semiconductor components division wants

men with majors in physical or inorganic chemistry, electrical, industrial, and mechanical engineers and mathematics majors.

**PUBLIC SERVICE CO.** of Colorado wants freshmen electrical and mechanical engineering students interested in summer employment for such positions as laborers, helpers, and utility men for Denver area. They will interview on Friday.

# THE TRUE AND TYPICAL CASE OF CHATSWORTH OSCEOLA

You all know, of course, that every engineering senior is receiving fabulous offers from dozens of corporations, but do you know just how fabulous these offers are? Do you have any idea how widely the corporations are competing? Let me cite for you the true and typical case of Chatsworth Osceola, a true and typical senior.

Chatsworth, walking across the M.I.T. campus one day last week, was hailed by a man sitting in a yellow convertible studded with precious gem stones. "Hello," said the man, "I am Norwalk T. Sigafoos of the Sigafoos Bearing and Bushing Company. Do you like this car?"

"Yeah, hey," said Chatsworth.

"It's yours," said Sigafoos.

"Thanks, hey," said Chatsworth.

"Do you like Philip Morris?" said Sigafoos.

"Of corris," said Chatsworth.

"Here is a pack," said Sigafoos. "And a new pack will be delivered to you at twelve-minute intervals every day as long as you shall live."

"Thanks, hey," said Chatsworth.

"Does your wife like Philip Morris?" said Sigafoos.

"She would," said Chatsworth, "but I'm not married."

"Do you want to be?" said Sigafoos.

"What American boy doesn't?" said Chatsworth.

Sigafoos pressed a button on the dashboard of his convertible and the trunk opened up and out came a nubile maiden with golden hair, flawless features, a perfect disposition, and the appendix already removed. "This is Laurel Geduldig," said Sigafoos. "Would you like to marry her?"

"Is her appendix out?"

"Is her appendix out?" said Chatsworth.

"Yes," said Sigafoos.

"Okay, hey," said Chatsworth.

"Congratulations," said Sigafoos. "And for the happy bride, a pack of Philip Morris every twelve minutes for the rest of her life."

"Thanks, hey," said Laurel.

"Now then," said Sigafoos to Chatsworth, "let's get down to business. My company will start you at \$45,000 a year. You will retire at full salary upon reaching the age of 26. When you start work, we will give you a three-story house made of bullion, complete with a French Provincial swimming pool. We will provide sitter service for all your children until they are safely through puberty. We will keep your teeth in good repair, and also the teeth of your wife and children into the third generation. We will send your dentist a pack of Philip Morris every twelve minutes as long as he shall live. ... Now, son, I want you to think carefully about this offer. Meanwhile, here is ten thousand dollars in small, unmarked bills, which places you under no obligation whatsoever."

"It certainly seems like a fair offer," said Chatsworth. "But there is something you should know. I am not an engineer. In fact, I don't go to M.I.T. at all. I am a poetry major at Harvard. I just came over here on a bird walk."

"Oh," said Sigafoos.

"I guess I don't get to keep the money and the convertible and Laurel now, do I?" said Chatsworth.

"Of course you do," said Sigafoos. "And if you'd like the job, my offer still stands."

# Anything Can Happen In '59 Varsity Show

When a star football player loses his confidence, anything can happen and probably will in the Texas Tech 1959 Varsity Show, "Something for Nothing," to be presented in the Lubbock Municipal Auditorium April 3-4.

**JOE COOPER**, a football hero and the epitome of "College Joe," finds that his loyal girlfriend, Shirley Jamison, stands by his side

through all his worries and troubles at Kingston College.

Joe will be played by Dick Scales and Shirley by Betty Townsend.

A SENIOR physical education student from Lubbock, Dick has had an extensive background of musical plays. He appeared in the Tech Choir four years, directed a play for the Wesley Foundation and is song leader of Phi Delta Theta social fraternity.

Betty Townsend is a senior music-education major from Amarillo. She went to high school with Johnny Gilbert, director and author of "Something for Nothing."

**IN HIGH SCHOOL** she sang one of the same songs that will be featured in the Varsity Show. The song was written by Gilbert. She is a member of the Tech Choir, Mu Phi Epsilon and was a staff member of last season's Varsity Show.

## Dr. Livingstone?

What a happy man he would have been if his man Stanley could have brought along a carton of Coke! That cold crisp taste, that lively lift would certainly hit the spot with any tired explorer. In fact, after your next safari to class—wouldn't Coca-Cola taste good to you?

**BE REALLY REFRESHED...HAVE A COKE!**

## Raiders Test Buffs

Texas Tech's varsity baseball team began final preparations yesterday for the opening of the season Friday against Colorado.

Coach Beattie Feathers is scratching his head over the line-up with several good ties being waged for almost every position.

Either Bill Curry, sophomore Amarillo right-hander, or House Powell, another right-hander from Lubbock, will be on the mound. That doesn't start Friday, probably draw the bid Saturday.

Set behind the plate will be David Bourland, who has made the transition from short-catcher to the satisfaction of Feathers.

But from there the picture clouded. At first the battle is between Burre Boyd and Bill Adams. Adams is the sophomore Boyd, the veteran.

At second the fight is between Dave Allen, senior, and Joe Reevy, a sophomore. Allen, a pack of trades, played first, second and the outfield last year.

Tommy Pritchard and Jack Miller are the shortstop candidates with Miller having the preference edge. At third venter David Potter is battling sophomore Larry Green.

More problems exist in the outfield. The Raiders have lost the services of one of last year's starters, Bill Dean, for the first part of the season.

Dean broke his collarbone two weeks ago and will be wearing cast until the last of this month.

The other outfield candidates include Gaining Garrison and Warren, starters last year. Norm Higgins, a starter in 1958, who was ineligible last season and sophomore Joe Knostman and George Gibson.

The freshman, under Earl P. Lee, have already opened the season and stand 2-0 with wins over Monterey and Lubbock high schools.

## KAPPA SIGMA

Kappa Sigma has 13 new members. They are James Collins, George Culp, Drew Dorsey, Larry Green, Johnny Hastings, Holmes, Bernard Johnson, David Jones, Mike Nichols, Tom Pritchard, Bill Smith, John Webb, and Jimmy Williams.

Coach Beattie Feathers is still scratching his head over the starting line-up with several good battles being waged for almost every position.

Either Bill Curry, sophomore Amarillo righthander, or Houston Powell, another righthander from Lubbock, will be on the mound to face the Buffs Friday. The one that doesn't start Friday will probably draw the bid Saturday.

Set behind the plate will be David Bourland, who has made the transition from short to catcher to the satisfaction of Feathers.

But from there the picture is clouded. At first the battle is between Bruce Boyd and Butch Adams. Adams is the sophomore; Boyd, the veteran.

At second the fight is between Dave Allen, senior, and Joe Reeves, a sophomore. Allen, a jack of all trades, played first, second and the outfield last year.

Tommy Pritchard and Jackie Miller are the shortstop candidates with Miller having the experience edge. At third veteran David Potter is battling sophomore Larry Green.

More problems exist in the outfield. The Raiders have lost the services of one of last year's starters, Bill Dean, for the first part of the season.

Dean broke his collarbone two weeks ago and will be wearing a cast until the last of this month.

The other outfield candidates include Gehring Garrison and Ken Warren, starters last year, Norm Huggins, a starter in 1956 who was ineligible last season, and sophomores Joe Knostman and George Gibson.

The freshman, under Earl Parker, have already opened their season and stand 2-0 with wins over Monterey and Lubbock high schools.

BRUCE BOYD

# Tech Places In Golf Meet

Texas Tech's golfers placed third in the Southwestern Recreation Golf Meet at the Meadowbrook Course in Fort Worth with a four-man total of 300.

TEXAS CHRISTIAN won the meet with a four-man total of 297. Texas Wesleyan College was a single stroke behind with 298. John Paul Cain and John Farquhar each shot two over par 73's, which Chris Blocker and Don Kaplan each jumped to 77's.

IN THE university-college class, Charles Coody of Texas Christian University and TWC's Jerry Edwards had to play a sudden death playoff for medalist. Both Coody and Edwards fired 69's, but in the playoff Edwards parred the first hole to win the playoff and the medal.

Don Massengale added a 72 to the 69 claimed by Coody and helped the Texas Christian team in edging out the TWC golfers.

# MURAL ROUNDUP

# ATO Raps Phi Psi's

By JOHN LEWIS

Intramural league softball got underway Sunday and the action on the diamonds proved to be exciting.

THE PHI Kappa Phi's fell before the ATO team by the score of 12-8. Sigma Alpha Epsilon downed the Sigma Nu by the lopsided score of 12-4.

Phi Delta Theta trampled on the Phi Gamma Delta team to defeat them 6-2. Kappa Sig slaughtered the Sigma Chi's, 15-3. Pi Kappa Alpha was edged out by the Delta Tau Delta's, 10-9.

Today will see the Dormitory league swing into action with three games on tap.

DORM 5 WILL MEET Gordon Hall, Dorm 8 plays Sneed Hall

and Dorm 6 will tackle Bledsoe Hall at 5 p.m.

Wednesday the Fraternity league will get another work out with the Kappa Sig's meeting the Phi Deltas, the Phi Psi's trying the Sigma Nu's, Sigma Chi taking on the ATO's, SAE battling the Deltas, and the Phi Psi's playing the Pi Kappes.

The Fraternity League games Wednesday are scheduled to begin at 2 p.m. at the diamonds surrounding the men's gym and the Naval armory.

INDEPENDENT League 2 will see action for the first time Thursday when the American Institute of Chem. Eng. plays the Church of Christ. The Chinese Bandits will take on the Disciples

of Student Fellowship and the Angles will battle the Tech Vets.

Independent League saw action yesterday afternoon but the results of the games were not known at press time.

★ ★ ★

Finishing out the basketball season the Phi Psi's will meet the Chinese Bandits for the All-College Championship tonight at 7:15 at the Smiley Wilson gym.

THE WINNER of this contest will meet the winner of the West Texas State College intramural basketball title in a game scheduled to be played here Thursday night.

There will be a return contest held up at West Texas State on Saturday night.

# Raiders Take Fourth In Meet

Texas Tech trackmen placed fourth in the Southwest Recreational Meet held at Fort Worth Saturday.

"The boys made a good showing," stated Coach Don Sparks. "They were up against top competition. We don't have enough material, but of what we have we're real proud."

Two weeks ago the Raider team took fifth place in the Border Relays at Larado against a field of 11

universities in their class.

At the Recreation Meet Tech's James Leonard tied for fourth place in the pole vault with a 12' 6" mark. W. L. Dub Thornton captured second place in the high jump for Tech with a leap of 6 feet 6 1/2 inches.

**TECH GRABBED** a fourth place in the 440 relay event. The relay team was comprised of Dick Murphy, James Pettit, Roger Crawford, and E. H. Davis.

In the 120-yard high hurdles event, Dick Murphy finished third and James Pettit was fourth behind Calvin Cooley of ACC and Don Beard of Texas.

**JAMES PETTIT** took third place in the broad jump with a jump that measured a foot shy of the one made by Pettit. Pettit added a second place to

his credit in the 220-yard low hurdles. He was edged out by Cooley of ACC. Murphy placed fifth.

**IN THE ONE-MILE** relay event Texas set a new record with a time of 3:13.4. Tech captured third place in this event.

The Texas Tech freshmen team walked away with a second place in the freshmen competition. Baylor edged them out for the first place.

**THE FROSH TEAM** was hampered with the problem of being short of material. Dick Swafford, Iran King, and Mike Stell each took part in seven events.

Swafford stood out in the 120-yard high hurdles. His mark was better than the time which won the Southwest Conference race last year.

## Radio Hams Meet For Code Classes

Anyone interested in amateur radio is invited to Tech Amateur Radio Club meeting at 7 p.m. Thursday in the MARS radio station, located in barrack X-8, for a program and refreshments.

**CODE CLASSES** are also being held by the club Monday through Friday at 5 p.m. in X-8, which is located behind the ROTC buildings north of the West Engineering Building.

Persons interested in obtaining amateur radio licenses are invited to attend these classes.

## PHI UPSILON OMICRON

A breakfast honoring 10 Phi Upsilon Omicron initiates was held at Western Ways Restaurant Sunday. After the breakfast, the group attended church together at the Broadway Church of Christ.

New initiates are: Martha Kaiser, Roman Shepard, Barbara Law, Ednia Fay Wayatt, Dorothy Ann Ayers, Dorothy Dodswoorth, Lynell Fouts, Mary Ann Nugent, Carolann Pinson, and Carol Ann Sanders.

## PI DELTA PHI

Pi Delta Phi, national French honor society, held spring initiation services Sunday in the Union.

Initiates were Peggy Ann Harvey, Caroline Wood, Joe Ben Hudgens, Sandy Miltzer, Patricia Reynolds, Mildred Thompson, Mary Anne Clifton, Kay Prestridge and Johanna Zournas.

Mrs. Charles B. Qualia and Mrs. Albert J. Sanger were granted associate memberships. These are given to French speaking people devoted to French culture.

# Outlook

by BILL DEAN

TCU's four-point loss to Cincinnati was unfortunate. The Frogs could have gone from that game right on to the national championship. As it stands now the Bearcats have the inside track barring an upset.

**Upsets however, seemed the order of the day during the weekend. The biggest one was Louisville's win over Kentucky and Michigan State. The rest of the tournament ought to be interesting.**

\*\*\*

With basketball slowly fading from the picture the emphasis is on the spring sports. Here at Tech the picture looks good.

**The track team, under Don Sparks, has been pleasingly surprising. If good weather holds out the Raiders have an excellent chance for a high finish in the SWC Relays.**

Baseball workouts have satisfied Beattle Feathers up to date. A lot more work must be done before Friday's opener with Colorado, but it looks like one of the best diamond teams the Raiders have ever fielded.

**Golf and tennis seem to be in good shape and there is a definite improvement in the swimmers. All in all it should be a good spring.**

\*\*\*

Speaking of baseball the national picture looks as if there are going to be some good races this summer.

**While no one is saying much you can bet the Milwaukee Braves are approaching the coming race with a bit of mixed emotions. Ever since it was learned that the Braves would be without the services of Red Schoendienst, the front office has been desperately searching for a replacement.**

Otherwise the National League champs are in good shape with Bob Buhl back on the mound and ready to go. But if they can't find a second baseman to fill in for Red, they might get a chance to see the World Series in color this fall.

**On the other side of the ledger again all the talk is settling down to one topic — the Yankees. Casey Stengel's biggest problem is not who to play — but which one.**

The Yanks, as usual, are loaded. Only a miracle coming out of Chicago could stop them. But Bill Veeck has been known to work them before.

Veeck's purchase of the White Sox was good for baseball. His club might not win it, but you can bet they'll raise a lot more than came making an effort. You can look for a colorful ball club with an owner not afraid to do anything if it will help. This should be good for the American League as a whole.

\*\*\*

The minor leagues are still floundering around wondering what to do next. This is the most pitiful situation that has ever existed in baseball. Money, of course, still being the root of it all, is the dominating factor. How can we make more money?

The best way to start is by pleasing the people who are spending that hard-to-come-by green stuff — the fans.

Lubbock is the typical example of that. For years Lubbock fans were kicked around (prior 1950) and forced to watch a parade of clowns with nothing but promises coming from the front office. Finally when someone did take the team and make an honest effort it was too late. The interest that once flourished was gone.

**It's time the minor league owners and the major league kingpins sat down and did some re-evaluating. If all personal desires and petty whims were put aside and only the future of baseball and its fans were considered then a solution which would benefit all might be arrived at.**

It wouldn't hurt for the colleges to sit in on that conference either!
