

Australian consul hears Center plans

Truscott meets with university officials

Australian Consul General Neil Truscott conferred with university officials Thursday and received a definition of the present and future prospects of Tech's new International Center for Arid and Semi-Arid Land Studies (ICASALS).

Truscott, one of Australia's ranking representatives to the United States, discussed ICASALS with Tech President Grover E. Murray, Dr. Thadis W. Box, organizational director for the Center, and several other officials.

AT THE GENERAL meeting, Dr. Box said discussion consisted of the possibilities of what Australia has to offer in the way of research towards ICASALS, and in help which can be offered Australia from ICASALS.

Truscott told of possible cooperation and exploration of mutual interests available in Australia.

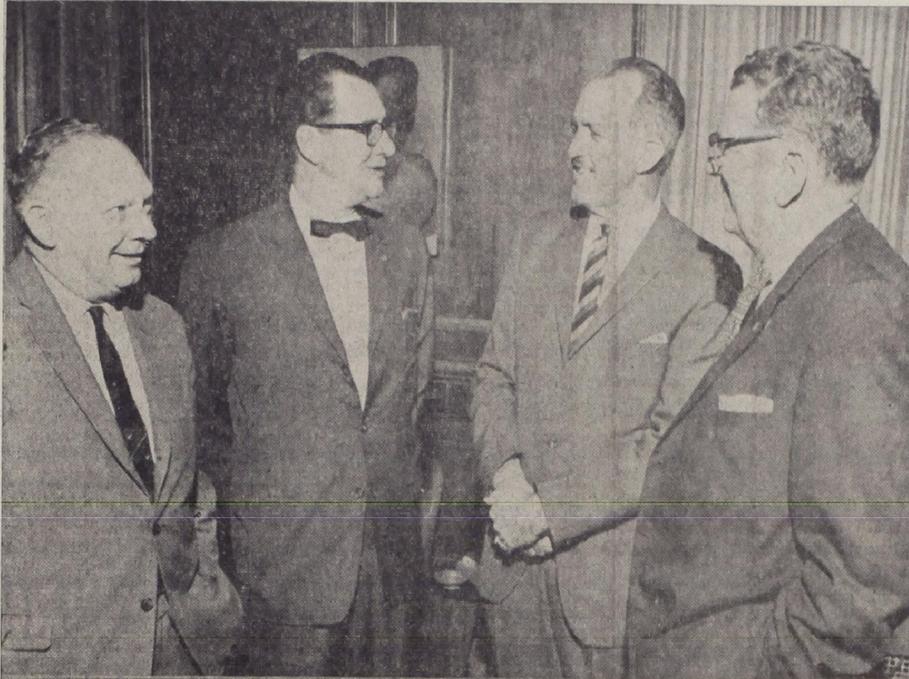

The Center, concerned with areas of arid and semi-arid conditions, and possible solutions to these problems, is of great interest to Australia, said Box.

"Australia has vast areas of dry lands with a very small amount of rainfall. These dry lands cause many problems."

One of these problems was cited by Dr. J. R. Maxfield, Aerospace Medicine official, who attended the meeting.

HE SAID A definite problem in Australia is that of capturing the small amount of rainfall for future use. In many areas of Australia rainfall is received every seven years.

Dr. Box said an effort is being made to acquaint as many people as possible with the ICASALS program and that the meeting is evidence of the program's growing recognition.

ICASALS DISCUSSION—Shown conferring with Dr. Grover E. Murray (second from left), Tech president, are N. H. Powell of the United States Information Agency; H. Neil Truscott, Australian Consul General in the United States; and Dr. J. R. Maxfield, aerospace medi-

cal consultant to NASA. Discussion centered on ways in which the ICASALS study could benefit the dry climate of Australia and, in turn, how Australian knowledge could be utilized by the center.

Campus move effective Sept. 1

Counter checks to be removed

R. B. Price, Tech comptroller, announced Thursday that counter or draft checks will not be accepted on the campus after Sept. 1.

Price said this policy will be in conjunction with the new policy of Federal Reserve System officials in Dallas. The Reserve Banks will no longer process checks which do not carry the magnetic ink symbols of the writer's bank. This policy will also be in effect as of Sept. 1.

The Federal Reserve officials are mounting a special campaign to educate the general public on the need to carry their personalized or reprinted checks.

THE CAMPAIGN IS also aimed at encouraging stores to withdraw all counter checks and refuse to cash checks that do not have the magnetic symbols. Lubbock businesses will adopt the policy.

Price said the policy is not to make it harder for the student to cash a check, but to cooperate with the Federal Reserve policy. He said the new policy will not disrupt Tech transactions to a great extent.

Price said more than a million checks are handled daily at the four offices of the Federal Reserve Bank of Dallas and that approximately 50,000 of those checks are without symbols. The symbolized checks are processed at 60,000 an hour as compared to only 1,500 non-symbolized per hour.

THE NEW RESTRICTION on handling non-preprinted checks will mean slower collection for this type of check and it will be more costly. The non-printed will be handled as a non-cash collection, which means that credit cannot be given to the receiver of the check until it has been processed through the drawer's bank.

Federal Reserve officials say that stores will sustain less loss from checks as counter check handling accounts for the largest check losses for businesses.

Price said most of the trouble at Tech from counter checks come from the failure of the student to fill out the draft properly.

Dallas bank officials said the general public will benefit by the more efficient system by fewer charges for processing and also by more rapid and effective payments.

banquet tonight, sightseeing and shopping in Santa Fe tomorrow afternoon, and group sessions of instruction throughout the weekend.

'Modern Policy' topic for Galbraith speech

John Kenneth Galbraith, Harvard economist, will address Tech students and faculty at 7:15 p.m. Saturday.

The recently elected national chairman of the Americans for Democratic Action is the eighth and final lecturer in the University Speaker Series.

Galbraith's topic will be "A Modern Foreign Policy."

The educator is also a business analyst. He has received both criticism and praise for his outspoken comments on economic policies in the United States and abroad. Galbraith has been a frequent spokesman for American liberals on both foreign and domestic policy.

A NATIVE OF Canada, Galbraith has lived in the United States since coming here shortly after receiving his BA degree from the University of Toronto in 1931. He studied economics on a scholarship at the University of California at Berkeley, where he received his master's and PhD degrees.

Speaking from a wealth of experience gained in government posts, he has been lauded for his trenchant writing and caustic wit and challenged for his recommendations as deputy administrator of the Office of Price Administrator in the 1940's.

In addition to serving as an editor of Fortune Magazine, Galbraith also has written many works which have won wide readership in college and universities. His best known are "American Capitalism," "The Great Crash, 1929," "The Affluent Society," "The Liberal Hour," "Economics and the Art of Controversy" and "American Capitalism."

ACTIVE IN Democratic party

affairs, he has served as director of the State Department Office of Economic Security Policy, consultant to the Department of Agriculture, the National Resources Planning Board, the Council of Economic Advisors and American Farm Bureau Federation.

Galbraith served on the faculties of Cambridge and Princeton Universities until 1938 when he entered the government service.

Galbraith is a Fellow of the National Institute of Arts and Letters and a member of the Century Association and the Federal City Club of Washington.

Moore drops out of race

Carl Moore withdrew his candidacy for president of the Student Association Thursday.

IN A LETTER to the University Daily, Moore said that as an active member of Tech's Debate Squad he would have very limited time to cope with the full-time job of president.

"What is most important, however, is that we as students get behind our student leaders and support their actions. For my own part, I firmly believe that I can contribute more to the image of Tech, locally and nationally, as an active member of our student body and as a participant in Tech debate," Moore said.

Students will vote on the remaining candidates, Max Blakney, Richard Ferguson and Johnny Walker, April 21.

Berlin youths deride HHH

By The Associated Press

BERLIN—Demonstrators hurled bags of flour at Vice President Hubert H. Humphrey's car Thursday night and shouted anti-American slogans after a day in which he reaffirmed a U.S. pledge to defend Berlin.

None of the flour struck the vice president, who had been given a heavy security guard after police arrested 10 young leftist extremists and accused them of planning to attack him with explosives.

But the night echoed with whistles, boos and shouts of "Americans get out of Vietnam" as Humphrey arrived at Charlottenburg Castle to be the guest of honor at a reception given by Mayor Heinrich Albertz.

ON HIS TWO-WEEK tour of Western Europe, Humphrey has been dogged by demonstrations mainly aimed at U.S. policy in Vietnam and this was one of the largest.

After Humphrey entered the castle, scuffling broke out between those carrying pro-American signs and those shouting "Murderer, Murderer, Murderer!"

At the opening of a busy day in the old German capital, he predicted that, "One day Berlin will once more be the capital, the proud and glorious capital, of a reunited Germany in a safe and peaceful world."

Solemnly, Humphrey told the West Berlin parliament he brought a message from President Johnson renew-

ing the pledge of America's commitment to the city 110 miles behind the iron curtain.

THE VICE PRESIDENT left this morning for Paris, where police have been busy drawing up security plans against an expected wide-scale Communist-led demonstration.

Humphrey turned briefly to Vietnam in his city hall address. He said the people of South Vietnam were struggling to maintain their integrity, and that free people know that the American commitment to freedom in one place "is no less a commitment to freedom in another place."

Referring to the West German goal of making West Berlin a bridge to Eastern Europe, Humphrey declared: "Your Berlin has a chance to play a large role in making the open door to the East a reality."

POLICE WERE STILL probing the alleged conspiracy by young leftists who they said planned attacks with explosives during the Humphrey visit.

Ten persons originally were arrested Wednesday night, but three girls were released when, police said, they could not prove a direct connection between them and a conspiracy by the seven men still held.

Miss Worley named outstanding journalist

Barbra Worley, Houston senior, was named as outstanding woman journalist at Tech during Thursday's annual Theta Sigma Phi awards banquet.

Miss Worley was a unanimous choice for the honor which was presented to her by Katie O'Neill, president-elect of the national women's journalism fraternity. The award was given on the basis of Miss Worley's work as fine arts editor, copy editor, editorial assistant and reporter for The University Daily.

Following the award presentations, Mrs. Lorna Novak, author of two books based on West Texas humor, spoke to the audience of local professional women and women journalism students on her experiences as a writer.

Her natural, personal style was immediately revealed when she began describing how her life had changed since her first book was published. That book, "Does It Make Into A Bed?" was followed by a second novel, "How Amelia Secured the Tie That Binds With A Very Loose Knot," 1966 Book-of-the-Month Club selection.

SHE SAID AFTER the first book was published, she discovered a lot of people in the United States were as nervous about their way of life as her heroine, France Jane, was, and that they liked finding incidents in the book that made their own problems funnier.

Mrs. Novak said that whether a novel is serious or funny, it's a form of truth.

"Truth will be the same 100 years from now, whereas facts seem to change somehow," she said, "and humor is truth told from a little different angle."

"Books are one of the few things that are left where one mind can speak to one mind," she said.

"To find time to write, you automatically find out what you did that you don't want to do, and all the time before, you thought you enjoyed doing." She explained this by adding that she doesn't play bridge, attend PTA meetings, shop, go to the beauty parlor or watch daytime TV. She simply is too busy just raising a family, being a wife and finding time to write.

"I WRITE IN the mornings usually, unless someone has the measles or it's Saturday or Sunday. Of course, I don't write in the summer, on Christmas, or on Easter either, because then I am with my family most of the time."

An Amarillo housewife and mother, she said that right after her first book was published, her life was "kind of awful because my neighbors were kind of literal and were determined to believe the characters in my book were people I knew."

PANHANDLE NOVELIST—Mrs. Lorna Novak, Amarillo resident and author of two novels, autographs a copy of her latest book for Barbra Worley (right), president of Theta Sigma Phi Tech chapter, and Opal Dixon, president of the local professional chapter. Mrs. Novak was guest speaker at the women's journalism fraternity Matrix Table Thursday night. Miss Worley was named Tech's outstanding senior woman in journalism at the annual banquet.

Platforms due by Wednesday

All candidates for Student Association executive positions should turn in their platforms to the University Daily by 5 p.m. Wednesday.

Each candidates' platform will be published in next Friday's paper, one week before executive officer elections. This is being done so students can become familiar with each candidates' views prior to the day of the election.

The type-written platforms should be mailed or turned in to the Student Publications Business Office, Journalism 102.

CLASSIC DRAMA—Henri de Montherlant's classic drama, "The Master of Santiago" stars Stephen Murray as Don Alvaro Dabo, John Le Mesurier as Don Bernal de la Encina, and Meg Wynn Owen as

Mariana. The drama is a National Educational Television production which will be televised next Friday at 9 p.m. on KTXT-TV, Channel 5.

Channel 5 spotlights drama with 16th century classic

"The Master of Santiago," Henri de Montherlant's classic drama will be presented on "N.E.T. Playhouse" at 9 p.m. Friday on KTXT-TV, Channel 5.

The 16th century Spanish setting play is a study of a man who prefers to withdraw from a world of exploitation and hypocrisy, rather than to compromise his standards of honor and charity.

"SPECTRUM," the weekly science series, takes a penetrating look at one of the most prolific and prophetic writers in the history of English literature. The program, "H.G. Wells, Man of Science" at

8:30 p.m. Monday, concentrates on Wells scientific training and his amazingly accurate predictions of future developments in science and technology.

"N.E.T. Journal: Black Natchez," 9 p.m., Monday is a documentary created amid a fermenting Negro community just after a bombing incident. The conflict arises after the local NAACP president, George Metcalfe, has been seriously injured in a bombing.

HOW THE LAST FATAL minutes of the I50-ton Trans-Canada Air Lines DC-8F jet airliner which crashed on Nov.

29, 1963 were pieced together by aviation experts will be explained on "The Moment of Impact" at 6:30 p.m. Tuesday.

Nationally syndicated columnist Drew Pearson is interviewed by N.E.T.'s Washington correspondent Paul Niven on "In My Opinion" at 9 p.m. Wednesday. Pearson predicts that New York Governor Nelson Rockefeller will be the Republican presidential candidate in 1968. Pearson says that President Johnson may not run because of the Vietnam war and partly because of his health.

"The Vietnam Formula" will be examined on the monthly consumer program "Your Dollar's Worth" at 9:30 p.m. Wednesday. N.E.T. will attempt to find out why Americans spend more than \$300 million annually on vitamins.

RICE PUDDING made the French way is truly a dessert fit for a queen. Julia Child calls on her recipe the "Empress' Rice" and on "The French Chef," 8:30 p.m. next Thursday.

Maledy receives award from Tech ROTC group

At a time when the loudest yell is "Get out of Vietnam," Sgt. Calvin H. Maledy says, "I'm looking forward to going back. I think every military man should."

Maledy was honored in a surprise ceremony yesterday beside the Social Science Building with an award of appreciation from the men of

the Texas Tech department of military science.

"THIS IS ONE of the finest awards I've ever received," said Maledy.

Maledy, who saw action in Korea with the 25th Infantry Division, is a recipient of the Purple Heart. He earned his parachutists badge with the 101st Airborne (the Screaming

Eagles), and holds a master parachutist badge.

Maledy also has been awarded the Bronze Star medal, the Army commendation ribbon with pendant, combat infantry badge and has the national defense service medal with oak leaf cluster.

MALEDY, WHO has been an instructor in the military science department at Tech since September of 1965, is about to leave for his second tour of duty in Vietnam.

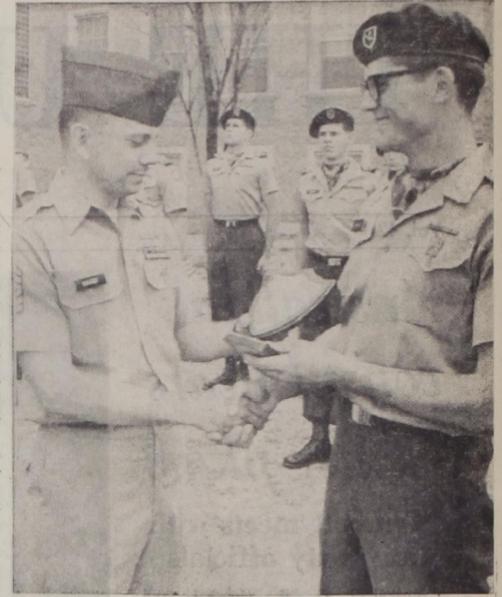

His second tour of duty will be with a military assist command stationed in Vietnam. He will serve there for one year before being given new orders.

Maledy, a native of Salem, Missouri, came to Tech from Fort Campbell, Kentucky where he was assigned to the 101st Airborne Division.

A CAREER OFFICER himself, Maledy is a strong advocate of military service and the army as a career for young men. "I think it is a great opportunity to make men out of boys," he said.

He did not comment on draft dodgers and aid to the enemy.

THE SERGEANT said that war in Vietnam is vastly different from World War II. "Tactics have changed a great deal," he said.

VIETNAM BOUND—M. Sgt. Calvin H. Maledy (left) receives a special award from an Army ROTC cadet during a surprise ceremony Thursday. Sgt. Maledy, an instructor in the military science department for the past two years, will leave soon for his second tour of duty in Vietnam. The award was presented to Maledy by the cadets "in appreciation for his work in the ROTC program."

Conference will attract company representatives

The annual Delta Sigma Pi Career's Conference, April 11, will attract representatives from major companies throughout the United States.

Bill Loyd, professional chairman of Delta Sigma Phi, a professional business fraternity, said 30-40 representative companies will be on campus for private counseling or for general information requested.

These companies include Dow-Jones Chemical Co., Humble Oil Co., Civil Service, and Republic National Bank in Dallas.

Lubbock Mayor, Dub Rogers, the main speaker, will speak on "Business Job Opportunities."

Loyd said the conference is offered once a year for students to find out specific details about their future. The conference will begin at 1 p.m. in the Tech Union Ballroom and is open to the public.

Beauty & Beast Contest

Deadline for entries in the annual Beauty and the Beast contest is set at 6 p.m. today. Any organization wishing to enter a contestant should turn in an entry form and a \$5 entry fee to the Alpha Phi Omega office in Tech Union.

Voting will be conducted in the Union Monday through Saturday. Winners of the titles will be announced at the Beauty and Beast Dance.

X Ray Mobile Unit

Chest X rays will be available to Tech students, faculty, and staff today in the Mobile Detection Unit at the northeast corner of the Tech Union from 8 a.m. to 5 p.m.

The X rays can detect possible tuberculosis, heart ailments, tumors, and emphysema.

The West Texas Tuberculosis Association has asked for contributions of \$1 for the service from those who can pay.

The drive has been coordinated by Dr. Robert Amason, Faculty Advisory Committee, and James Hayter, Student Council.

'Angels' to visit Academy

Thirty-six members of Texas Tech's Angel Flight left late Thursday for a weekend at the Air Force Academy in Colorado Springs, Colorado.

The girls, whose purpose is to promote the Air Force and the Air Force ROTC, will visit classes, tour Arnold Hall and other sights on campus, and attend a special planetarium show.

Members of the 13th Squadron Honor Guard will serve as the Angel's official escorts during their visit.

Their purpose is to learn more about the Air Force program and serve as ambassadors for Texas Tech. Angel Flight will return to Lubbock Sunday.

Members of the 13th Squadron Honor Guard will serve as the Angel's official escorts during their visit.

Their purpose is to learn more about the Air Force program and serve as ambassadors for Texas Tech. Angel Flight will return to Lubbock Sunday.

Outstanding cadet chosen

Stephen J. Neal received the outstanding Air Force ROTC Cadet Award for the month of March in ceremonies on campus Thursday.

Sophomore and freshmen cadets are eligible for the award and are selected by competition based on general drill performance, participation in corps activities, ratings by cadet officers, and academic grades.

The 821st Squadron and "I" Flight were honored an outstanding squadron and flight of the month, respectively. Coach George B. Huffman presented the awards.

Cadet John W. Roberts, "I" Flight sergeant, and Cadet Stephen Martin, 821st Squad-

ron sergeant, received the awards for their units.

Neal, a sophomore physical education major and varsity football player, is the son of Mr. and Mrs. B. J. Neal of Brady, Texas.

Stephen J. Neal

German club presents play

"Ein Schluck Erde" (One Swallow of Earth) will be presented Saturday at the annual Texas Association of German Students Convention in San Marcos.

Staged by Tech's third year German class completely in German, the Henrich Boll drama was presented at Tech in March before being taken to San Marcos.

Assistant Prof. Theodor W. Alexander directs the three-act play, and Barbara Bryant, a Lubbock senior German major, is the associate director.

Set in the year 2500 A.D., "Ein Schluck Erde" tells of the reactions of survivors of a land-destroying disaster, and the importance of a "piece of earth" to these survivors.

Texas Tech is a charter member of TAGS and Mary Ann Baber, a German graduate student from Vernon, is the current president.

Raider roundup

Dr. Mary Brewer, professor of English, will speak at the Baptist Student Union noon forum Wednesday. She will speak on "The Christian Influence on Literature." Reservations for lunch must be made by noon Tuesday by calling PO3-8263.

HOME EC BANQUET

There will be a Home Economics Banquet Wednesday at 6:30 p.m. in the Tech Union Ballroom. Dean Tinsley will speak on education abroad.

All Home Economics students and ex-students may pick up tickets in the Home Economics Building.

BRIDGE BENEFIT

Tech Dames are sponsoring a bridge benefit Saturday at 7:30 p.m.

Prizes will be awarded to the winners of the bridge, the canasta, and 42 games. The benefit will be held in the Public Utilities Downtown Reddy Room.

Admission will be 50 cents. Proceeds will go to a worthy organization.

Placement interviews

The following is a list of the organizations which will be on the campus:

- April 10
 - San Angelo Public Schools—Elementary, Secondary
 - Texas Highway Department—Park, Adm., Math., ChE, CE, EE, ME
 - Prentice-Hall, Incorporated—Encl. Govt., Hist., Psych., Socio., Acct., BusEd., Eco., Fin., Mkt., Ret., Advt., Mgt.

Improvement needed

Wednesday's well-attended Gripe Night turned out to be little more than a question and answer session, with a lot more questions than there were answers. The biggest plus for the entire session was the presence of three top administrators, including Dr. Murray, indicating the administration at least has an interest in the study body.

The biggest problem with the session was the obvious differentiation in the levels of administrators and students. Students appeared to be intimidated by the presence of the administration and the session lacked much of the enthusiasm of the first session. Contributing to this was the attitude that "you can't fight City Hall."

Perhaps there was a reason for this. Students Wednesday night had done little preparation and as a result usually came out on the short end of the "exchange." Had students had specific improvements and changes in mind rather than just "fishing" for answers, they might have had better luck.

On the other hand, the administration had little to say about several matters such as the AAUP blacklist, the name-change, the Code of Student Affairs, AWS, et al. These questions were not those of a trouble-making student body, but of an interested student body who wanted to know what is being or not being done on these matters. Answers such as "work is being done" do not satisfy this interest, although students are expected to be content with it. Such answers tell students they are being left out of the university community and that they will only be informed of what's been done after it's been done.

Both parties have improvements to make before the next student-administration exchange. The mere fact that the exchange itself was attempted is of considerable importance and is a starting point; we only hope that future such meetings will be profitable from the standpoint of exchange as well as existence.

•Defends ICASALS program

It is difficult to reply to a letter written in righteous indignation over the "internationalizing" of Texas Tech. It is even more so, when the writer is an "early settler" who "exploited" this land and declared the country her own.

THE WORLD would be unrecognizable if we were not the recipients of rich legacies from the Greek and Roman worlds; language would be sterile, and, indeed, metaphors of the Trojan horse would themselves be non-existent!

I can do no better than to hope that a quotation from an Indian artist will awaken new possibilities of thought for those of us who refuse to see anything but the inside of our own front door:
 "IT IS ALL very well to talk in metaphors about having roots in one's own country. But the roots need water from clouds forming over distant seas; and from rivers having sources in different lands."

Charmazel Dudt
 1711 Ave. X

•Dislikes administration's reply

Once again a Tech student has publicly asked a question about school policy. And once again the administration's answer has been less than credible.

DEAN JAMES Allen's explanation for starting spring vacation in the middle of the week instead of on the weekend insults the intelligence (I hope) of every student who sincerely wishes to understand the motive behind school policy.

His first excuse, referring to exam scheduling, is flimsy, but the claim of concern for the student's safety in driving home is ridiculous. If Tech officials were really concerned

•Want summer night classes

The Administration's function is primarily to serve the college which is composed of students; however, the best interests of the student body are not being served when night classes are not offered during the summer term.

THE SUMMER bulletin states that the summer terms are extensions of the regular long term sessions. One notable omission is that of night classes. During the summer session it would appear that night classes would be more valuable than during the regular terms because of the increased number of working students wanting to take night classes.

Night classes during the summer sessions would not involve any great expenses. The teachers are paid the same no matter what time they teach. Classrooms are there ready for use at any time and the additional cost of lighting for the classrooms at night surely would not constitute a reason for not using the room. And besides, the cool night air would be conducive to better concentration by both student and teacher.

WE ADMIT there are disadvantages, but the advantages of having night classes

Galbraith says idea outmoded

(EDITOR'S NOTE: Noted economist John Kenneth Galbraith will speak at Texas Tech Saturday night as a participant in the University Speakers Series. Perhaps his best-known book is "The Affluent Society," published in 1958, which stayed at the top of most best-selling lists for six months. It is Galbraith's criticism of traditional ideas of economics and proposes some sweeping changes for the affluent society.)

Times change but economic ideas have not. The central message of Galbraith's "The Affluent Society," the author's most widely-read and criticized book which was first published nine years ago.

Economically affluent societies such as the United States are now operating on an outmoded principal of economics suited to poor societies whose principal goal is subsistence, he says in his once best-selling book.

This reliance on obsolete ideas causes a production-oriented society. Such a basic for production constitutes a traditional and irrational myth called "conventional wisdom" by Galbraith. This "conventional wisdom" is made up of ideas esteemed because of their historical acceptability.

Production is the panacea of all economic ailments according to conventional wisdom. However, production has also brought about a "dependence effect." That is, consumers are now convinced they need goods solely to facilitate the conventional wisdom belief that high production must be maintained at all costs. The dependence effect causes debt creation and debt expansion.

Investments are made in areas of immediate benefit, are great enough to initiate night classes for the summer term.

 Andy Brandon

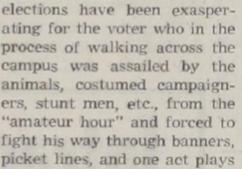

Senators Speak Out—VI

Election revision to help

By RICHARD KNOX
 A&S Senator

About this time every year our campus undergoes what has always proven to be an exasperating experience — Executive and Senate elections.

It has been exasperating for the candidate because weeks were required to develop a good campaign "amateur hour" complete with animals, costumes, stunts, etc., which would capture the electorate's attention and votes. Likewise,

Richard Knox, A&S Senator

elections have been exasperating for the voter who in the process of walking across the campus was assailed by the animals, costumed campaigners, stunt men, etc., from the "amateur hour" and forced to fight his way through banners, picket lines, and one act plays

merely to attend class, let alone vote.

THIS YEAR will not witness the annual election-day circus. Instead, it is the hope of the Senate that Texas Tech will see a mature and effective election process based on issues, platforms, and qualifications.

With the new restrictions on material campaigning, the voters can sit down unmolested and see what the candidates have to say. These restrictions also help put the independent on equal footing with the fraternity-sorority backed candidates. The electorate will be selecting the most qualified candidate, not the funniest act.

THERE IS another possible result of the new system: a heavy voter turnout. Previous elections have had fair responses for the Executive offices, but have lacked miserably in the Senate race. This lag could possibly be accredited to the slump in excitement

Don't laugh at Charles Van der Hoff's big ears. He can hear a party a mile away, thanks to Sprite.

VAN DER HOFF WITH SPRITE

Social-life majors, take a look at Charles Van der Hoff. He can't play the guitar. Never directed an underground movie. And then look at his ears! A bit much? Yes! But--Charles Van der Hoff can hear a bottle of tart, tingling Sprite being opened in the girls' dormitory from across the campus!

What does it matter, you say? Hah! Do you realize that Charles Van der Hoff has never missed a party in four years? When he hears those bottles of Sprite being uncapped--the roars--the fizzes--the bubbles--he runs! So before you can say anti-existentialism, he's getting in on that tart, tingling, slightly tickling taste of Sprite. And delicious refreshment --as well as a good time--is his.

Of course, you don't have to have ears as big as Charles Van der Hoff's to enjoy the swinging taste of Sprite. You may just have to resign yourself to a little less social life.

Sprite, SO TART AND TINGLING, WE JUST COULDN'T KEEP IT QUIET.

Tech wins triangular

By BILL MOORE
Assistant Sports Editor

The Texas Tech Red Raider trackmen found everything hot but the weather as they trotted to an easy win over the University of Texas at Arlington and Texas Christian in a triangular meet here Thursday.

A heavy cloud cover and intermittent sprinklings of rain cooled off the proceedings temperature wise, but the Raiders found the thermostat running high as they captured nine first places and eight seconds, totaling 76 points to UTA's 43 and TCU's 18.

ED MOONEY and Don Parrish led the Raider's winning parade capturing two first places apiece. But the winning honors had to be shared with Arlington's distance man, Dale Drennan, who won the three-mile run and set a stadium record in the mile.

The Arlington team won six events and four second places in its second place finish. TCU managed only one first place, that being a stadium record by Robert Nees in the high jump.

MOONEY tossed the shot 56-9½ to win the shot put. Skip Benson of Arlington finished second with 51-6½ and Tech's Randy Hicks, third with 49-3.

In the discus **MOONEY** threw 159-7½ to beat second place Jim Napier, TCU, who had 150½. Ken Terry of Arlington was third with 142-1.

PARRISH and Gary Golden finished first and second respectively in the 100-yard dash. Parrish was clocked in 9.8 and Golden 10.0. Stan Dugan, UTA, was third with 10.2.

Parrish also won the 220-yard dash with a 21.9. Dugan was second with 22.2 and Richard Hardy, Tech, third with 25.6.

DRENNAN'S time in the record setting mile run was 4:12.9, which surpassed the

old record by .4 of a second. Tech's Bob Nelson was the only other runner in the race and finished with a 4:30.

In the three-mile run, Drennan was closed in 16:40.9. Again Nelson was the only other runner and finished with 17:57.0.

NEES cleared the bar at 6-7½ in the high jump to break the old stadium record of 6-5¾. Mike Hale of Arlington and Jim Flowers, Tech, tied with leaps of 6-6, but Hale was awarded second place with fewer misses.

Tech relay teams picked up two first places. Golden, Jim Garrison, Parrish and James Jones combined forces to win the 440-yard relay in a time of 42.0. Arlington was second with 43.2.

In the mile relay, a dropped baton by TCU set the

Raiders for their other relay win. Holding a 20-yard lead going into the final lap, TCU's Ray Hallford bobbled and dropped the baton before the handoff starting the final lap. Tech took over the lead and finished with a 3:20.6. TCU was second with 3:26.1 and Arlington third with 3:27.7.

In other Tech wins, James Jones clipped off a 48.9 to capture the 440-yard dash. TCU's Richard Snow was second with 49.1 and Tech's Wayne Nelson, third with 49.3.

The Raiders had the only entrants in the pole vault, thus making a clean sweep in the event. Tom Lane and Sam Hart tied at the 13 foot mark but Lane was given first place on fewer misses. Russell Durham was third at 10-6.

DURHAM came back to capture the javelin with a toss of 204 feet. Hicks, Tech, was second with 192-8 and Howard Kinzy, TCU, third with 185-5½.

The remaining Arlington wins came from Ken Walters with a 14.9 in the high hurdles. Tech's Dennis Lilley and Foster Miller finished second and third respectively with 15.1 and 15.2 timings.

RICHARD KEY was clocked at 1:57.2 in the 880-yard run to beat Tech's George Coon, 1:58.1.

Mike Hale won the broad jump with a leap of 22-9¼. Napier, TCU, was second with 22-3¾ and Tech's Garrison, third with 21-9.

BOB MCGOTHLIN won the 440 intermediate hurdles with a timing of 53.9. Garrison was second with 54.5 and TCU's Buzz Gardener, third with 56.6.

The Raiders next meet will be with ACC and Baylor in a triangular meet in Abilene April 15.

SOFTBALL OFFICIALS
Softball officials are urgently needed by the Tech intramural department. The opening of two co-educational leagues has added openings for the paid position. Interested students should contact the intramural office. No experience is necessary.

SPORTS

Coeds mixing it up with men on diamond

"Watch out how you tag that ballplayer out, fella. It's a girl."

"You're kidding?" "When do we all hit the locker room?" "Soon I hope. She just got on ODA on that last play."

YES, THE Intramural Baseball Program is becoming just like all the other night time sports around Tech. Under the starry sky of the lighted intramural fields, boys and girls are slugging it out in the biggest free-for-all since the last guy was found on the second floor of Wall Hall. Girls have teamed up with the boys in this intramural sport.

NATURALLY the game has some slight limitations over the old standard game of yesterday. The ever-famous television stance of the batter "preparing" himself at bat, and the pitcher's pre-windup have "bit" the dust.

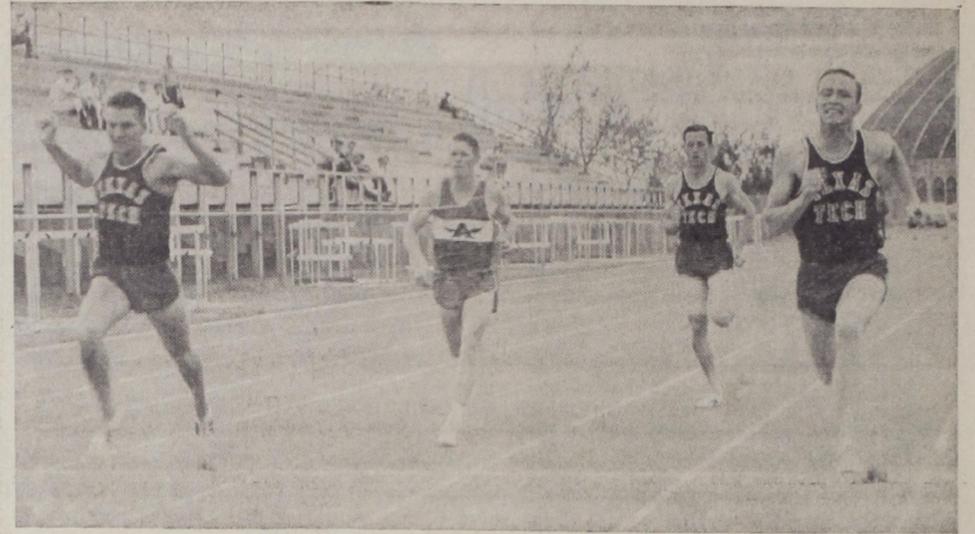

New rules have been made prohibiting that last final fling at sliding into base—too many spiked nylons caused the rule. Pain also had something to do with it.

SEEMS THAT the general positions on the playing field have changed, too. Four men covering (helping — so they said later) the third base basegirl? The shortstop in center field tying his teammates shoes? The manager going out to the mound to ask the pitcher for a date? How about "His" and "Hers" towels in the locker room?

The idea for the mixed game started at the University of Colorado four years ago. The popularity increased and has spread to the Tech campus with apparent success.

THE CO-ED Residence Hall Slow Pitch Softball leagues met for the first time Monday. The Gordon-Weeks and Thompson-Hulen Halls teams have a positive 1-0 lead over defeated Matador-Horn and Thompson-Doak Halls.

Likewise, the combined forces of Phi Gamma Delta and Alpha Delta Pi, and Alpha Tau Omega and Alpha Delta Pi defeated Phi Kappa Psi and Kappa Kappa Gamma, and Zeta Tau Alpha in the Wednesday-Thursday co-ed Fraternity games.

IT'S A CLOSE FINISH — Don Parrish (left) and Gary Golden (far right) battle it out at the finish line in the 100-yard dash, during Tech's triangular meet with the University of Texas at Arlington and TCU Thursday. Parrish won the event in 9.8. Golden was second with 10.0. Also in the race were Arlington's Stan Dugan and Tech's Richard Hardy.

Also in the race were Arlington's Stan Dugan and Tech's Richard Hardy.

Spring trainees take day off

Today is a day of rest for the Tech football team, but tomorrow at 2:30 in Jones Stadium is entirely a different matter for discussion.

Coach J T King and Co., after a fine workout yesterday, take today off in preparation for the first scrimmage of the spring session.

"We'll play six periods instead of the regular four. This

SCRATCH BOWLING

In the Scratch Bowling Tournament, John Johnson, playing for Alpha Tau Omega, won first place with a 583 point tournament score. Richard Cates, playing for Murdough Hall, placed a close second 580.

Ralph VanWagner followed with a 524 score for Matador "A". Bruce Jobe, Bledsoe "A"; Don Hempel, Matador "A"; and Chuck Smith, Wells Hall, placed fourth through sixth respectively in the tournament.

way we can try to play every one we can. We will take films of the session so we can study the workout longer and evaluate it better," said King.

This spring there are 90 hopefuls out for the varsity. Some are redshirts, returning lettermen, squadmen, up from the freshman team and then "there are a few boys that came out because they've never played college football before and think they can make the team," said King.

Coach King was impressed with the young players that are starting to come around. "What we want to find out about these boys is: can they play ball for us and do they want to play ball," said King.

"These boys feel that they should take over the first day they hit the field. They feel

they should be on the first team right off the bat and this just isn't so. They have to make it first," King said.

"Some of these boys think they want to play but don't put out the effort they should. We've got to find out if they really can play and want to play 'cause we lost some veterans last year and we are gonna have to use some of these youngsters next year," said King.

While walking over the practice field and evaluating the workout Coach King stopped for a moment to chat with two boys that will provide many a sleepless night for him this fall. They are sophomore Kenny Vinyard and freshman kicker Jerry Don Sanders.

"You know we probably

have the only situation like this in the entire nation," commented King. "We have two kickers, one holds the conference varsity record and the other holds the freshman record, and the freshman record is longer than the varsity record."

Vinyard kicked a 55-yard field goal last year against TCU in Ft. Worth. Sanders kicked a 57-yard field goal against the A&M freshmen in Midland last season.

Seniors on the squad will make their first appearance in full pads Tuesday. For the last two weeks they have been working out in shoulder pads and sweat pants.

Tech spring training will last three more weeks with the final scrimmage game April 29.

Intramural standings

The Fraternity 'A' fast-pitch softball lead is currently in the hands of Phi Delta Theta (5-0), and Sigma Chi and Delta Tau Delta with a 5-1 record each. The other team standings are:

W	L	Phi Delta Theta "B"	2	1
Kappa Alpha	3	Gaston Hall "B"	2	1
Kappa Sigma	3	Bledsoe Hall "B"	2	2
Phi Kappa Psi	2	Alpha Tau Omega "B"	2	3
Sigma Alpha Epsilon	2	Phi Kappa Psi "B"	1	3
Pi Kappa Alpha	2	Sigma Alpha	3	2
Phi Gamma Delta	2	Epsilon "B"	1	4
Sigma Nu	1	The Residence Hall "A"	2	4
Alpha Tau Omega	0	5 teams have given Bledsoe Hall a slight advantage with a 3-1 standing over Murdough's 2-0 and Thompson's 2-1 at-tempts for the lead.	1	2
		Gordon Hall	1	2
		Wells Hall	1	2
		Delta Tau Delta "B" and Phi Gaston Hall	1	2
		Gamma Delta "B" have each	0	2
		Matador	0	2

Phi Epsilon Kappa's 4-0, and the Baptist Student Union's 3-0 winning streak in the Open No. 1 leaves:

Del Acres	2	1
69ers	2	1
Toads	2	1
Independent "A"	1	3
Blue Team	0	3
Grubs	0	3
Air Force ROTC	0	3

The Open No. 1 Slow Pitch leagues have given Gordon Hall three games undefeated. Carpenter Hall 2-1, Gaston Hall 2-1, Thompson Hall 2-1, Murdough Hall 1-2, Sneed Hall 1-2, Delta Sigma Pi "B" 0-3

The University Gardens and Chi Rho "A" are undefeated four and three games respectively in the Open No. 2 Slow Pitch with:

Delta Sigma Pi "A"	3	0
Dolphins	2	2
Thompson Hall "B"	2	2
Retards	1	3
Alpha Phi Omega	0	3
Phi Psi "A"	0	4

In the Open No. 3 Slow Pitch, Kappa Alpha is currently in the lead with four wins and no losses. The standings of the other teams are:

Phi Delta Theta	3	1
Chi Rho "B"	3	1
Phi Kappa Psi "B"	3	1
Phi Gamma Delta	1	2
Pi Kappa Alpha	1	2
Delta Tau Delta	0	4
Sigma Nu	0	4
