Exes And Alumni Swarm Campus

Religious Emphasis Week To Start Nov. 1

Rev. Copeland
To Hold Services

Campus-wide religious emphasis week will begin on the campus Nov. 1, sponsored by the Student Religious Council which is composed of representatives of church organizations on the campus, Ralph Bucey, president of the council has announced.

Speaker for the week will be Rev. Joseph J. Copeland of Denton, who has worked several years with college youth. He has conducted services at Texas university, Trinity university, and Oklahoma State College for Women during Religious Emphasis Week. He initiated the Westminster foundation in Denton.

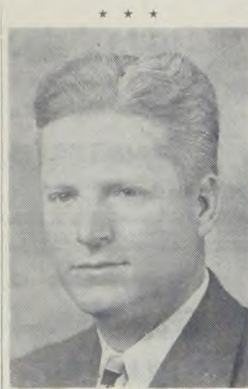

Reverend Copeland will be the guest of all of the college centers during his stay, Bucey said. On Tuesday the Baptist center will be his host; on Wednesday, the Methodist; and on Thursday, the Presbyterian center. He will be available for conferences with students at these centers, Bucey said.

The theme of Reverend Copeland's famous sermons for the week will be "Jesus' Way; Our Way." The sermon will be divided into four parts. On Tuesday night the topic will be "In the World"; Wednesday, "In My Vocation"; Thursday, "In Relationship to our Fellowman"; and Friday, "In My Personal Living."

Services will be held at 7:30 p. m. Tuesday through Friday in the Recreation hall, Bucey said. All churches will meet in joint morning watch at 7:30 a. m., Tuesday through Friday in the Rec. hall.

"The council feels that this should be more than just another campus activity," Bucey said, "for we are dealing with the spiritual life of the students and the faculty. The significance of such a meeting is extremely important and the results measured in the spiritual life of the student body cannot be estimated," he added.

"We want you, the average student on the Texas Tech campus, to feel that you have a definite part in the success of this religious meeting. We want you to come and bring your friends," Bucey concluded.

REV. COPELAND

Former Raiders Plan System To Attract Players

Formulation of a system whereby high school grid stars may be brought to the campus with a prospective view of playing football at Tech, is scheduled for consideration in a meeting of the Double T Association, to be held in the Skull practice room of Jones stadium immediately after today's game, G. C. "Mud" Dowell, president of the organization, said yesterday.

"The plan," Dowell said, "is to encourage Double T coaches over the state to recommend Tech to their players and give them a chance to come up and look the school over." Dowell estimated that more than forty Double T men are coaching high school squads over the state now. He indicated that the player situation for Raider squad would become much brighter if the coaches would give the program their support.

Other than the player procurement program, election of officers and plans for annual strengthening of the organization as a whole are slated for attention at the meeting, Dowell said.

Prexy Will Talk To Ex-Students At Hilton Hotel

Today will find Tech's new president, Dr. D. M. Wiggins, enmeshed in a rigorous schedule as he begins his first Homecoming day here on the campus.

President Wiggins begins his first Homecoming activities at Tech when he speaks at a breakfast for the Alumni and Ex-students council, this morning in the Hilton hotel at 8 o'clock. After the breakfast, Dr. Wiggins will attend a meeting of the Board of Directors in his office at 9 o'clock and at noon he will be present at a buffet luncheon in the gym. The President will be at the football game this afternoon to do his part in cheering the Red Raiders on to victory, and he and Mrs. Wiggins will be guests of the Kappa Kappa Psi-Tau Beta Sigma dinner at the Hilton hotel at 6:30. Tech's new president will end his first day of Homecoming tonight at the dance for students and exes, in the gym at 9 o'clock, and tomorrow he and Mrs. Wiggins will attend the annual football reception.

Dr. Wiggins took up his duties as Tech's fifth president Sept. 1, succeeding Dr. W. M. Whyburn who is now head of the department of mathematics at the University of North Carolina. President Wiggins came to Tech from E. Paso where he served as president of Texas School of Mines and Metallurgy since 1935. He was graduated from Hardin-Simmons university where he received his degree in 1919. In 1925-26 he did graduate work at the University of Chicago. He received an MA degree from Yale university in 1928 and a Ph.D. in 1930. Hardin-Simmons university conferred an L.L.D. degree upon him in 1943.

Dr. E. N. Jones, Tech's first vice-president, will speak at the plant industry breakfast this morning at 8 o'clock at Phil's Grill, and he will attend the buffet luncheon in the gym at noon. Tomorrow, he and Mrs. Jones will assist with the receiving line at the football reception in the Rec hall.

Dr. Jones was appointed vice-president in academic relations by the Board of Directors. He came to Tech from Kingsville where he served as president of Texas A&I for the past six years. From 1925 to 1932 Dr. Jones was professor of botany and head of the department at Baylor university in Waco, from 1933 to 1942. He served as dean of arts and sciences at Baylor from 1935 to 1939, and dean of the university from 1939 to 1942.

Beale, Nelson To Speak At Joint Engineers Meet

R. H. Beale, Texas Electric Service's division engineer in Big Springs, and R. T. Nelson, superintendent of the Leon Electric power plant at Eastland, are to speak at a joint meeting of the American Institute of Electrical Engineers and the American Society of Mechanical Engineers at 7:30 p. m. Monday in the engineering auditorium.

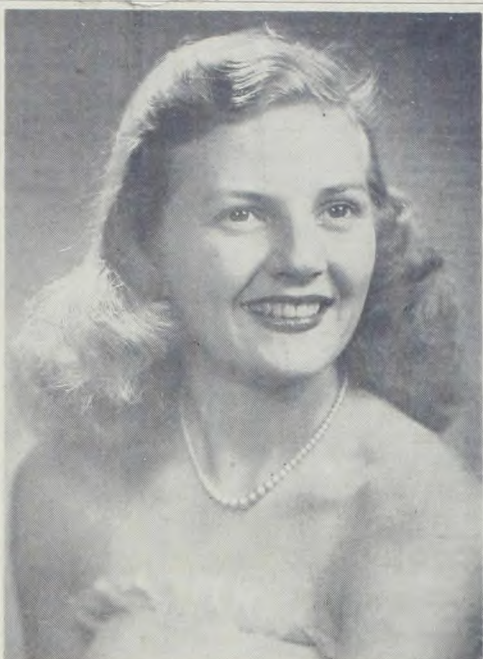

"JUST DOESN'T SEEM LIKE THE SAME OLD TECH";

Too Many Lights, Walks And Men By Heck

By DELANE ADAMS
Toreador Staff Writer
A new type of homo geneus known scientifically as Exus Technicus is teeming over Tech campus this week end. Students told to greet this variety of persons with a big hug and "Howdy" have been keeping 'phone wires hot wanting to know what "it" looks like. After hours of intensive research by prominent researchers, a tentative identification chart has been devised.

The Ex, as it is familiarly called, comes in either of two varieties—the big-business-man-of-the-world type with a distinctive tie and a too aromatic cigar in his mouth, or the haven't-changed-a-bit type decked out in ultra-collegiate bright shirt and dilapidated moccasins that make a student cringe. Both types go around with a slightly dazed expression on their faces mumbled, "It just doesn't seem like the same old Tech." Their eyes focus anxiously upon blime caps and they begin each sentence with, "Remember back in '36, no, it must have been..."

An Ex's reaction to the campus is awe inspiring. It honestly gets lost in Aggie Grove and when it has

THE ROSE—Joan Martin, sophomore BA student from Wichita Falls, shown above, will be presented as "Rose of Delta Sigma Pi" at the Business Administration's semiformal dance held tonight in a downtown hotel.

Delta Sigs Will Present Joan Martin At Fraternity Dance

Miss Joan Martin of Wichita Falls, sophomore Tech student in the Business Administration division, will be presented tonight as "Rose of Delta Sigma Pi" at a semiformal dance to be held from 8 until 12 o'clock in the Hilton hotel ballroom.

Tech Social Clubs Extend Welcome To Ex-Techs

Participation and cooperation in Homecoming events is to be the objective of Tech social clubs. The clubs will enter floats constructed to fit descriptive, humorous or beautiful themes, and activities throughout the day are designed to extend "welcome" to ex-Techs.

DFD's breakfast, 8:30 a. m. at Hector's 2008 Broadway, will begin the day's events. Kemas program for the day includes registration 9 a. m. in the Pine room, alumni business meeting 11:20-12:30 a. m. in the north ballroom, and a dinner 6-8:15 p. m. in the east ballroom of Lubbock hotel.

Sans Souci and Ko Shari will entertain with coffees 10-12 a. m. in main ballroom of Hilton hotel and 5 p. m. Navajo room of Hilton hotel. Luncheon for alumnae, active and patronesses is scheduled 5-7 p. m. Lubbock hotel.

Centaur smoker will be held 6-8 p. m. in the Chemoya and Aztec rooms of the Hilton hotel.

Las Vivarachas open house will be 8 p. m., 3305 Broadway, and the Wrangler open house and dinner is to be 5-9 p. m. in the Yaqui room of Hilton hotel.

Silver Key dinner, honoring ex-members 7-9 p. m. at the college cafeteria and Los Camaradas reception, 7 p. m. at the MacKenzie party house will conclude Homecoming functions for social clubs.

Tech's members of the men's international professional commerce and business administration fraternity, selected Miss Martin on the basis of beauty, personality and scholastic achievement from a group of 12 young women including Misses JoAnn Brown, Helen Calcote, Wanda Chitwood, Cathy Davis, Martha Harris, Chloe Herrin, Alura McManus, Bernadean Priebe, Mary Roe and Lura Webster.

An arm bouquet of red roses, the fraternity flower, will be presented to Miss Martin by Headmaster, Newell A. Reed before a decorative background at 10 p. m. Attending her will be the runners-up in the contest, Miss Webster, McManus, Davis and Chitwood.

Lloyd Jenkin's orchestra will play and attending the dance will be alumni, active members and pledges of the fraternity and their dates and special guests.

Board Of Directors Meet This Morning

Tech Board of Directors will convene in a regular monthly meeting at 9 a. m. today in the president's office on the campus.

A special meeting of the Board was called by Chairman Charles Thompson of Colorado City in Amarillo yesterday. The purpose of the meeting was an inspection tour of the Pantex ordnance plant near there.

The possibility of Tech being deeded the Pantex property was practically assured October 20 when Dr. D. M. Wiggins, college president, met with the War Assets administration officials at Grand Prairie. Barring any complications, the property will be deeded to the college before January 1, Dr. Wiggins said.

with Ex fingering George Jr's curls and cooing, "Look just like your old man, but you'll be just as smart in Qual 220, too."

Exa Femina is also interesting to observe. She can be classified by her conversation. A war-time version, class of '43, exclaims, "How things have changed, three men to one girl! I'd never have believed it, but there were never that many in a civilian men swarming around Doak when I lived there!"

Femina Housewife keeps uming and ahing over dorm food, "And just think, Eloise, no dishes to wash," she sighs. Type Exa Mother glances into a room and seeing two room-mates having a slight fuss smiles to herself, "How sweet, just like sisters."

Homecoming Celebration Continues; Parade, Game, Dance Slated Today

Thousands of ex-students from all sections of the nation are swarming today for celebration of the 19th annual Homecoming.

The influx of former Techsians began yesterday afternoon and is continuing this morning as more exes pour in the city for the day-long program of events.

The Homecoming weekend got underway when the exes began registration at booths in downtown hotels and on the campus. For the first time since the war, the returning visitors saw the entire college gleaming with the brilliance of floodlights and the inside lights in all campus buildings.

Textile Openings Offered In Texas

Graduates in textiles and clothing are now being offered opportunities for internships in the textile industry in Texas, reports Miss Ellen Wright, clothing and textiles instructor.

Miss Wright says that during her first survey visits to Waco, Austin, New Braunfels, San Antonio, Houston, and Dallas, she discovered 34 immediate openings in the industrial and commercial fields.

Miss Wright states that training within the growing textile industry will allow the trainee, a college graduate, advancement more quickly to junior executive positions, managers are looking for alert and trained workers, Miss Wright said. In some mills, only men are accepted for internship in pattern grading and drafting. Sex, type of work and designs accepted will determine the salary scale in each internship. Miss Wright visited one firm who pays interns \$25 for each design accepted; and it is possible, after finishing internship, to earn \$10,000 as a junior executive in only two years.

Intern positions open for graduates in the general field of textiles included pattern grading and drafting, salesmanship, buying, alterations, display, interior display, combination of window and interior display, general supervision of each, selling and non-selling in department stores, advertising layouts, sewing machine operation and cutter, fashion coordinator, assistant designer, mail order department, testing bureau, designer, supervisor and superintendent.

Miss Wright plans to make a second survey to assist the college in offering the best textiles program to suit the needs of the textile industry.

APPOINTED EDITOR

Bill Ruess has been appointed editor of the Coda band newspaper. The appointment was announced this week by Wayne McDonald, president of Kappa Kappa Psi, honorary band fraternity.

Presidential election Tuesday. Vote as you please, but please vote.

Texas Tech Beauty Petitions Filed By Campus Hopefuls

One hundred and six girls had filed petitions for Texas Tech beauty pageants when the 5 p. m. deadline rolled around Thursday, Clint Formby, president of the Student Council, announced.

Under the new beauty selection system, which was inaugurated this year, there will be a meeting Nov. 7 at 2 p. m., J-206, which will include representatives from men's clubs on the campus and individuals well known to the student body. This group will eliminate the 106 girls to 16. From these 16 girls, eight top beauties will be selected by some nationally known personality, whose identity will be announced later. The elimination will take place in the form of a beauty contest, which will allow each nominee to be considered by impartial judges. Bob Williams, La Ventana editor announced. To this date 25 judges have been selected and more will be picked later, he stated.

Petitions filed for the contest include: Frances Carpenter, Dotsie Stephenson, Mary Roe, Norma Hudson, Mary Hargraves, Pat Allen, DeLois Utterback, Guide Miller, Janet Hightower, Barbara Williamson, Peggy Garrison, Nancy Walker, Beverly Parnell, Helen Moore, Louise Lettich, Ina Harlan, Pat Cox, Harriet Gols, Sue Lawson, Jane Loflin, Mary Vestal, Mary Stanford, Pat Sprague, Margaret Fariss, and Jo Simmons.

Patsy Shelton, Elizabeth Castleman, Shelly Furr, Jo Ann Lee, Thelma Cantrell, Jane Weir, Peggy Hicks, Jo Ann Abrahamson, Jan Riley, Annabelle Dyer, Jo Ann Muffee, Mary Lou Moore, Lura Webster, Beth Neely, Patti Jo Musson, Patricia Lindsey, Mary Jane Hinchey, Glens Winston, Mary Jo Phillips, Jean Garnett, Jo Ann Williams, Mary Ann Kelley, Martha La Roe, Kathryn Berryhill, and Sara McLarty.

Students and exes alike participated in a pre-game pep rally at the gym last night, and afterward the crowd moved to an open area south of the gym where it witnessed the burning of the traditional bonfire, topped this time by a huge blue and white owl.

Festivities will continue this morning when the longest of all Homecoming parades begins at 10:30 a. m. Students will be dismissed from classes at 10 a. m. and together with exes and townspeople, they will watch the 35 floats and 18 automobiles of the procession wind their way from Avenue M and Main east to Texas Avenue, south to Broadway, and then west, past the judges stand at the Lubbock hotel, to the Tech Library. Six of the cars will represent alumni chapters of Lambda, Lubbock, San Antonio, Midland, Sweetwater and Dallas.

Headed by the cheer leaders, the Tech band, a color guard from the ROTC and a car in which the student officers will be riding, the parade is expected to reach the campus at approximately 11 a. m.

Pictures of the prize-winning descriptive, humorous and beautiful floats are to be taken immediately after the procession comes to the campus, and names of winning organizations will be posted on the Student Council bulletin board in the Ad building rotunda.

Organizations entering winning floats are to be presented bronze plaques by the Alumni and Ex-Students' association on behalf of Thomas Jewelry, 1301 College. The plaques, on display in the window of the firm, will be awarded by the president of the alumni association to representatives of those organizations between halves of the football game.

The Homecoming celebration will be climaxed when the Red Raiders meet the Owls from Rice Institute at 2:30 p. m. in Jones stadium. An overflow crowd of approximately 19,000 is expected. All reserved seats have been sold for three weeks, and temporary bleachers accommodating about 2,200 are being erected in the end zones for those unable to secure grandstand seats.

At 9 p. m. in the gym, Burl Hubbard's orchestra will play for the Homecoming dance. Students are invited, and admission will be \$1.50 stag or drag.

Other events of the day include a meeting of Tech's Board of Directors at 9:30 a. m. in Ad-217, and the second session of the Alumni council at 8 a. m. in the Navajo room. See HOMECOMING Page 4

Rapid Building Evidences to Alumni Progress Made by Tech in Past Year

By JULIA SHORT
Toreador Staff Writer

From a small college with only six buildings, Tech has grown like a wild prairie fire. Thirty-three buildings dot the campus which was well planned for expansion. Students have no doubt wondered about the great distances from the Ad building to the gym, or from Textile Engineering to the Library, but those who planned Tech had foresight enough to see the phenomenal growth of a school which was founded only 23 years ago.

Tech alumni and ex-students who have not been here since last year will notice that four new dorms have been completed, two boys' and two girls'. Other buildings which have been finished since then include a new farm work shop for the aggies, the Naval Reserve Training center, and the stadium.

The gym has a new face. Remodeling there includes new floors, lighting and painting worth \$20,000.

Grass plots, and new roads mark other much needed improvements. Grass has been soddod around the new girls' dorms, and boys' dorms in addition to that which is quietly growing in front of the Rec hall. Roads around the stadium, from Textile Engineering building west to X-9, and south in front of the Journalism building to the circle. Going west from the Library is a road which turns south by the new farm work shop.

Parking lots have been graded behind the Administration building and one behind the Engineering building is being completed with a caliche base and gravel finish.

Not only do we have more roads and parking lots, but traffic lights have been placed around the circle to reduce congestion. The circle has been completed with walks extending around it and in odd directions across it. Walks were

placed where students had made paths with the hope that they would stick to them.

Construction of a new petroleum engineering building located northwest of the infirmary is in progress. Half of the old stadium has been torn down, the other half is to remain for track spectators.

A new heating plant has been completed which needs only a damper motor to go into operation. This is expected some time soon.

Nothing But Praise . . .

There can be nothing but praise for Texas Tech officials if the proposed addition of Pantex ordnance plant to the college becomes a reality.

Tentative plans call for Tech to assume operation of the vast plant from the War Assets administration by January 1. Pantex, located 17 miles northeast of Amarillo, which the government began construction of in 1942, will mean the valuable addition of some 17,000 acres of land and 414 buildings to Tech. Networks of railway and utility lines already are located on the property.

Tech must fulfill only two obligations: to maintain the sewage disposal plant which serves a housing project occupying a small portion of the land; to return the property to the government in event of war.

The government is satisfied that Tech is qualified to conduct research. The college's application for the property, approved by the United States Office of Education, detailed several types of experimentation, research, and training which Texas Tech expects to carry on at Pantex. A research project on wheat poisoning is already in operation there, on the 8,500 acres leased by Tech in 1947.

Ownership of Pantex will give Tech an even greater recognition than it now has for providing top practical, as well as theoretical training in the fields of agriculture and engineering. —T. A.

Keep It Clean . . .

West Texas State does possibly have a legal gripe coming over its embarrassing "re-painting project" of several weeks ago engineered at the hands of some 30 or more of our more spirited Techsians. After learning the itemized list of the results of the project including approximately 64 double-Ts ranging from six inches to nine feet in size, and various signs, one of which covered an entire sidewalk 45 feet long, we believe their complaint has some justification.

The question at hand now, however, is how to control or restrain further practices. By all means we can't sacrifice our school spirit which has just now begun to come alive again since before the war. Those of you who heard Curtis Sterling, president of the Saddle Tramps, speak at a recent pep rally, can understand the delicate position we are in.

The idea of collegiate rivalry off the gridiron as well as on must never dwindle here at Tech. Still, anything which might be destructive to a rival college must be restrained. There are many ways to keep the old Tech spirit going without being destructive. A good example of this is the clever (and much to be commended) idea of the sewing of wheat on the Hardin-Simmons football field. (Latest reports from Abilene indicate that the double-T there is getting greener by the day.)

Let's get behind those Raiders and fight all out for Tech, but make sure it is actually for Tech—As hard a time as we have getting money, let's not have it going on to another campus for their "re-beautification" funds.

Potpourri

By FRANKLIN GRANT

Starting with this issue the column, Potpourri, will modestly lower its skirts . . . with raised eyebrows we shall read contributions in the future and they must rise about the thought of suggestiveness . . .

Dear Pot,
Most girls whom husbands like to toast
Most wives would surely like to roast.
—Sagebrush Sally.

P. S. You can call this culinary advice to prospective husbands or girls, that yellow stripe on a guy's third finger, left hand, means "Danger! Don't Cross!"
P. P. S. You reckon any of them'll ever drink a toast to me.

Everyone should be interested in the fact that The Texas Drys, affiliated with the National Temperance Movement, held their convention in Dallas, Oct. 28-29, . . . and Dallas is still wet.

Dear Pot,
There was a little daschund once,
So long he had no notion,
The time it took from head to foot.
To register emotion.
And so it was that when his face
Was filed with tears and sadness,
His little tail kept wagging on
Because of previous gladness.
—MLC.

Did you know that there are more than six miles of hallways in the Tech dormitories.

Dear Pot,
Mary had a little swing
It was not hard to find
For everyone that Mary went,
The swing went right behind.
—RHC.

Someone was telling us the other day that Levelland, which was only 28 miles away, may go wet very soon.

"I've never kissed a girl before, he said to her, as he shifted the gears with his knee.

There are things every girl should know and things every girl should do.

The Toreador also gets complaints and . . .
They find fault with the editors.
The stuff we print is rot;
The paper is peppy
As a cemetery lot.

The ads show poor arrangement;
The jokes, they are stale;
The upperclassmen holler;
The underclassmen rail.

But when the paper's printed
And the issue is on file,
If someone doesn't get his,
You can hear him yell a mile.

Some advice to the Freshmen on the campus:

Gather good grades while ye may,
The second year is tougher;
For this same prof that smiles today
Tomorrow will be rougher.
That year is best which is the first,
When student and prof are stranger;
It's not until he knows the worst
That you're in any danger.
—GBB.

See you next Wednesday and here's hoping you have a good time Homecoming, and we will all be out there to see Rice get beat by the Raiders.
—POT.

NEEDS BACK ISSUES

Calvin Carpenter, business manager of The Toreador, has been extremely generous in handing out issues of this year's Toreador. Now he finds that his files are lacking two recent issues: September 22 and Oct. 6. The business manager would appreciate anyone having either of these issues contributing them to the official files of The Toreador.

El Toro Grande

By ORLIN BREWER

Perhaps the greatest honor to come to the Toreador this year was received when ELMER TARBOX, well known as one of the all-time-greats in Red Raider grid history, agreed to write a few well-chosen words for today's column. His comments on the value of homecoming follow.

"Homecoming is an inspirational day for all colleges and universities throughout the United States. Texas Tech has definitely established Homecoming as a traditional and calendar day of greatest importance to the ex-students and the student body. The composition of a successful homecoming has germinated and fully blossomed this year. The student body is participating in the program equally with the ex-student.

"Our homecoming this year will exceed all past performances from the standpoint of student body activities. The students are supervising and conducting the home show. For instance, the pep rally, registration at the various divisions, club smokers and receptions, parade, activities at the half of the football game, and last and most important the big finale dance.

"The student body of Texas Tech should really be proud of its activities and certainly the ex-students are proud of the student body because of the well organized and always successful activities put on by the students.

"The ex-students are coming to Tech today to visit old classmates, instructors and students. Along with the congeniality and social visiting they are relaxing and leaving their worries and troubles at home. They are coming to home-coming for the purpose of reminiscing and re-living their school days.

"The greatest fruit of homecoming is the traditions established for future generations. Texas Tech Red Raiders always win the homecoming game. The parades, smokers, receptions, and dances will carry on from this student body to the future students.

"Our present student body wins honor again for the great leadership given since World War II. Tech has not been disparaged by riots, strikes or disasters confronted by other institutions of high learning. Again, the ex-students are proud of Texas Tech, the faculty and you."

Well, Techsians, there we have it, a perfect picture of what the ex-students expect of us today. There must be more than flexing of muscles if we are to make the grade. It is a challenge, and no one is more qualified to present that challenge than Elmer Tarbox, for he is a man who didn't cease being a Techsian

SURPLUS Portable Microscopes

We offer a limited quantity of surplus portable microscopes for sale. These are all new, in original carton and are offered at a fraction of original cost.

Specifications: Overall height 8 inches, turret with three different powers. Will accept auxiliary eye-piece for higher powers desired. Fully adjustable on tiltbox base. Optical system: pitch-polished lenses.

These portable microscopes are offered subject to prior sale on the following terms: Price \$9.00, includes shipping and packing charges. Check or money order should be sent with your order or \$2.50 deposit, the microscope to be sent C.O.D. for balance. Any check received after quantity has been sold will be returned promptly.

when his studies were through on the campus. He has been a leader of ex-students in this area and a constant backer of Tech . . . Today, he'll be looking at the past history of the school, but it will only be a rest from his commendable practice of looking to its future.

Homecoming adds a lot of zest and excitement to campus living. But let's not permit it to interfere with our duties at the poles Tuesday. Millions of words have been written telling persons the value of the vote. If you're not convinced yet, we'll give up . . . but only after one last feeble effort, however. We simply lift a weary finger and point at the recent senatorial race. Chances are there will be a close presidential contest in this state also, if advanced billing on States Righters is correct.

Campus Naval Training Center recreation fund, which has been supplied by one-armed bandits, is now looking for another means of support.

Congratulations to both the administration and the Student Council for action placing vending machines on the campus into the hands of student organizations and clubs. Clubs pledged to campus betterment may be able to set their sights a little higher due to this added source of income.

Raiders, Owls Clash In Homecoming Tilt

Rice Institute Eleven Is Favored As Tech Tries For 2nd SWC Win

By KEITH ANDERSON
Toreador Sports Editor

This afternoon at 2:30, the Red Raiders return home, after four games away, to take on the Owls of Rice Institute.

It will be Homecoming for Tech, and with the added increase of "exes", close to 20,000 people are expected to jam Jones stadium for the contest.

The Owls will probably go into the game a one or two touchdown favorite, especially since their showing against the Texas Longhorns Saturday in Houston. Rice's attack will feature a strong ground game spearheaded by Bobby Lantrip, one of the leading ground gainers in the Southwest conference, Sonny Wyatt, scabback deluxe, Alfred Neumann, and Huey Keeney punting specialist. Tobin Rote will handle most of the quarterbacking chores, as well as the passing. Rote is an able man in the "under position" and is well backed by Vernon Glass and Harmon Carswell.

Rice will feature a starting line that averages about 204 pounds, which gives it decided edge over the Raiders' forward wall. The starting backfield average is 181 for an overall team average of 195. Tech line average is about 191, while its backfield average is 179, giving it an overall average of 189.

Rice will depend upon the line-

backing of big Joe Watson, 225 pound center. Watson was all-southwest conference center as a sophomore, and from all indications, is even better this year. He was picked by the Texas Sports-writers as the southwest outstanding lineman last week for his work against the Longhorns. He will be ably assisted by such standouts as Froggy Williams, two-year letterman end, Tom Parsons, 210 pound guard, and Ralph Murphy, 225 pound tackle.

Tech stalwarts expected to see lots of action include John Andrews, 188 pound tackle from Amarillo, Dan Pursel, guard from Gladewater, Luke Thompson, end from Eldorado, and centers Bobby Williams and J. B. Mahler from Phillips and Heidenheimer respectively.

In the backfield Bud Conley, Quannah, will probably get the nod as starting fullback. He will be helped on the line busting chores by J. W. "Duck" Thompson, Odesa, and Earl Jackson, Phillips. Cal Stevenson, Brownfield, will perform at the right half position, aided by Bill White, Vernon Charley Reynolds, Odesa, and Glenn Lewis. Quaitake will carry most of the quarterbacking duties.

Tech's season average is better than that of Rice's, boasting four wins to two defeats, while Rice season record is one win against four defeats. Tech's two losses have been to Southwest conference foes, while Rice has also lost two games to Southwest conference teams. The only basis of comparison between the two teams is that they have both played SMU. Tech lost to the Ponies by a 41-6 score, and Rice lost to the same team 34-7.

Probable Starting Lineup

Tech	LT	Rice
Thompson	LE	Williams
Andrews	LT	Wynans
Pursel	LG	Parsons
Williams	C	Watson
McCurry	RG	Roberts
Gettys	RT	Murphy
Kelley	RE	McBride
Hawkins	QB	Rote
Reynolds	LH	Keeney
Stevenson	RH	Kelly
Conley	FB	Lantrip

Intramural Teams To Play Tomorrow

Six intramural touch football games will be played tomorrow representing teams from all three leagues.

In the MCCC league Kemas takes on the Centaurs at 2 o'clock, and the Wranglers meet Soe at 3:30, both games to be played at Chapman field. College Club will battle Los Cams at 2:00 o'clock on the old Tech stadium grounds.

In the Independent league APO meets Band and the Wesleyan Wildcats takes on the Pelicans, both games at 2 o'clock on fields behind the Tech gym.

There will be one game in the Dorm league with the Sand Eaters meeting the Rebels at 3:30 on one of the available fields behind the gym.

SPORTS GRAPEVINE

It has been pretty hard to live around here after "Hundred Proof" Anderson entered football's Hall of Fame last week with the successful prognostication of 15 winners out of 15 tries. Seems pretty futile for me to try to better that mark but the whip has been cracked over my head so here goes.

Right in our own backyard there are any number of arguments in favor of the Raiders and also against. It is the first appearance of the Rice Owls in Lubbock and we feel that they will be treated swell, that is everywhere except on the football field. The Red Raiders will roll over the Feathered Owls by seven points. And to heck with the gamblers and odds makers. The game of the week in the Southwest Conference will be unfurled at Austin when Texas tangles with the lads from Doak Walker University. From here it looks like SMU by two touchdowns. At College Station the Aggies are still hunting their first win of the year but Arkansas and Clyde Scott won't give it to them. The Razorbacks by a couple of tallies. Texas Christian meets Baylor at Ft. Worth and here is where we pick our upset of the week.

Baylor had to hustle to take the Aggies last week, and we think they are about hustled out. The score should be about 14-6 favor of TCU. In Border conference play unbeaten Texas Mines takes on Hardin-Simmons and it looks like the Miners will maintain their record. The game is in El Paso and it should be Mines by two TD's. Tulsa should break in to the win column this Saturday with a victory over Wichita. The score—Oh, about 21-12. Elsewhere around the nation we like Alabama over Georgia, Ohio State should cinch a Rose Bowl bid by taking Northwestern, California over Southern Cal to take the host spot in the above mentioned Bowl, Columbia over Cornell by a dozen, Michigan to down Illinois and Notre Dame will sink Navy as deep as Leahy wants to. Down in the deep south it's Tulane's Homecoming but Mississippi State ought to spoil it for them. With the choice of LSU over Mississippi we will bring this to a close and await the results.

—Jerry Hall

(From the Houston Chronicle): Saturday evening the Owls take on the Texas Tech Red Raiders in a game that will be the game of the year for the Raiders and only a sight-seeing tour for the feathered flock. The game will be a homecoming affair for Texas Tech and from this corner it looks like there will be quite a number of disappointed exes around Lubbock after the game. Our campus scout has reported that the game is not being discussed around the school and that school spirit is apt to be at very low ebb. Although the Raiders have four victories against

See GRAPEVINE, Page 4

Tech partisans are hoping to see the same kind of play this afternoon as exhibited by the Raiders against the Arizona Wildcats Saturday. Ernest Hawkins, with ball as shown above, will be the man "under", when the Tech eleven meets the Rice Owls at 2:30 P.M.

Tennis Workouts Start Soon

Considerable interest is being shown in the intramural tennis tournament that is underway on the campus. Over 25 participants have begun the process of elimination to determine the champ of tournament.

Those who are taking part in the tournament are: Harold Pickens, Cecil Roberts, Chris Dougherty, Jim Southwell, Dan Barton, Charley Oren, Calvin Carpenter, Billy Wilson, E. C. Wilson, Harold Sharpe, Allen W. Mount, Jr., Ben Goolsby, Howard Rownd, Clifford Sartin, Charles Joplin, Kenneth Pharris, Ben Willis, Pete Wilson, Jim Sanders, Joe Schultz, Jack Prentiss, David Hester, Emil Beck, and Jack Rosen.

Fairings for the first round have been posted on the bulletin board in George Philbrick's office in the gym. Officials of the tourney have requested that the results of each match be reported immediately to Philbrick.

Fall tennis workouts will begin next week with an ample supply of capable material on hand. From the round robin tourney within the squad the men will be ranked according to their ability. Two squads will be organized to compete against each other for the remainder of the fall workouts.

Jake Broyles and Glenn Ivy, a couple of two-year lettermen will head the list of those reporting. Broyles was No. 1 man of the Raider team last season and teamed with Ivy to form one of the best duals in the Southwest.

Squadmen reporting for the fall training period are Ben Willis, Dallas; Jack Prentiss, San Benito; and David Hester, Lubbock.

Newcomers to the ranks this fall will be Emil Beck, San Angelo; Jack Rosen, Lubbock; Joe Schultz, Tahoka; Pete Wilson, Kermit; Harold Sharpe, Fort Worth; E. C. Satterwhite, Abilene; and Charley Oren, Ft. Worth.

Shamrock Rollers Gain Tie For First In Bowling League

The Shamrock Rollers gained a tie for first place in the college bowling league Monday night by taking three games from the Termites. Covey led the Rollers with 173-466 while Herman Nelson's 212-548 was high for the Termites.

The Press Bulls retained their hold on first place as they won two games from the Pimms. Cal Campbell led the Bulls with 190-503. Bob Bilheimer was high for his team with 191-542.

The Raiders, led by Ed Moore's 214-577, remained in second place defeating the Kingpins three games. Bob Norris was high for the losers with 169-479.

Led by Paul Knight's 232-614 series, the Lucky Strikes remained in the second place position along

with the Raiders by taking two games from the Snipes. Jimmy Oates was high for the Snipes with 196-541. Knight's 614 is the highest series of the league so far.

Bob Wilson of the Raiders was appointed vice-president of the league Monday night.

The standings:

	W	L
Press Bulls	9	3
Shamrock Oilers	9	3
Raiders	7	5
Lucky Strikes	7	5
Snipes	6	6
Termites	4	8
Pimms	4	8
Kingpins	3	9

The world will forgive a man for being blue—never for being yellow.

Campus Clubs Honor Tech Exes

Campus organizations are honoring Tech exes returning to the Alma Mater for this year's Homecoming with coffees, breakfasts, luncheons, dinners, dances and receptions.

Kappa Kappa Psi and Tau Beta Sigma, honorary band fraternities and sorority, entertained their alumni with a reception in the Hilton hotel Yaqui room last night.

Coffees were given by Casa Linda, the Home Economics club, and Phi Upsilon Omicron, national honorary home economics fraternity, this morning.

Delta Sigma Phi, national honorary business fraternity, and Theta Sigma Phi, national honorary journalism sorority, are having day-long registrations in the Hilton hotel Aztec room and the Press building, respectively. Delta Sigma Phi will honor ex-students at a semi-formal dance tonight at the Hilton hotel.

Block and Bridle club, Dairy club and Plant Industry club entertained with breakfasts this morning.

Officers of Alumni Association council will be presented to guests at a luncheon today at 12:30 p.m. in the gym. The Association's council attended a breakfast followed by a business meeting this morning in the Navajo room at the Hilton hotel.

Presbyterian student center, 2414 Thirteenth, is having all-day long open house.

Students and exes are invited to attend a dance at 9 p. m. in the gym.

Three Boy's Dorms Plan Year's Socials

Three of the men's dorms had meetings this week to plan social and Homecoming activities.

West hall freshmen Monday night planned a Homecoming welcoming banner. Ed Campbell, wing counselor said Thursday.

The members of Men's Dorm IV decided in a meeting Tuesday night to charge each person \$1 to pay for a dance this semester. Floyd E. Camp, counselor at large, has announced. Any money that is left over will be used to buy jerseys for intramural sports. Camp also said that the men discussed putting a record player in the dining hall so it would be possible for members and dates to dance. It was voted to adopt the constitution.

In a meeting Monday night, residents of Sneed hall discussed the social program for the year and decided on a welcoming sign for exes during Homecoming. Spencer Street, president of the dorm, said. They decided that freshmen will give upper classmen a sport dance during the fall semester and upper classmen will honor freshmen with a semi-formal dance sometime this spring. Another house meeting was held Tuesday night to plan the fall dance which will be held Nov. 13, Street said. A Thanksgiving theme will be used.

Phil Overton was elected freshman dance chairman.

TECH EXES ELECT PREXY AT LAMESA

Brad Gilbert, 1943 business administration graduate, has been elected president of the newly-organized Lamesa chapter of the Alumni and Ex-Students' association, officials of the association said.

Other officers selected include: Earl Sears, 1948 agriculture graduate, vice president; Billie Grace Webb, 1946 business administration graduate, secretary; Derwood Peterson, class of 1941, treasurer; Mrs. Bill Carpenter, 1947 home economics graduate, reporter.

Pictures of the Tech-West Texas State football game were shown when the chapter had its first meeting.

The chapter is to enter a decorated car in the Homecoming parade, said the Alumni officials, and 40 Lamesa exes have reserved seats for the Tech-Rice grid battle.

Las Chaps Honor Exes With Dance

Las Chaparritas entertained with a sport dance honoring alumnae and ex-students last night at the Lubbock hotel. Decorations featured a welcome exes theme with two large footballs at the central motif.

Members and their dates included Pat Allgood, Bob Cooper; Guida Miller, Jimmy Hall; Brentie Sue Thompson, John Stuart; Betty Bratton, Ike Stuver; Mary Alice Mitchell, James Cagle; Marjorie Luck, Joe Buck; Mary Roe, Walter Hobgood; Betty Wright, Madison Newton; Lynn Wilson, Wesley Wilson; Mary Hartgraves, O. R. Stark; Norma Hudman, James Bagwell; Betty Cobb, Lamar Jones.

Jewell Alice Pharr, Robert Dawson; Gloria Lewis, Deverelle Lewis; Thelma Dee Keck, Joe Atkins; Helen Mitchell, Tommy Morris; Jayne Thompson, Richard Gibson; Clarice Martin, Jack Coffman; Bobby Anne Tubbs, Jack Gray; Mary Faye Bonds, Joe Humphreys; Janet Hightower, Johnny McMullen; Lou Lawson, Roy Butler.

Dotsie Stephenson, Francis McNealey; Anita Oliver, Finley Hampton; Jimmie Lee Cotton, Bill McLarry; Sue Lawson, Bob Williams; Jane Skinner, Dub Kuykendall; Jackie Spurlock, Bill Bucy; Frances Carpenter, Malcolm Stokes; Dorothea Forsyth, Joe Thomas; Oleta Stewart, Coke Toliver; Annabelle Flanagan, Winstead Layman; Mary Lois Blount and Carl Schmidt.

Pledges and dates attending were Delois Utterback, Brian Webster; Cecile Butler, Tommy Cooper; Ramona Keller, Lee Ray Swim; Betty Wolcott, J. L. Guley; Carolyn Carruthers, Bruce McKenzie; Frances Magee, James Warren; Pat Hayden, Bobby Garner; Johnneen Rice, Farrell Reeder; Billie Moreland, Pat Ryan; Bette Bishop, Jack Turner; Charlene Smith, Lee Fountain; Pat Allen, Hal Boyd; Jane Reno, Sam Johnston; Mary Catherine Prim; Gene Connally; Lu-Donna Berry and Douglas Fairchild.

Aggies Experiment With Grade Lambs

Experimental lamb feeding projects are due to begin on the Aggie farms soon with 107 grade Rambouillet lambs recently received by the animal husbandry department, Ray C. Mowery, animal husbandry professor, stated Monday.

Carroll Wilson, graduate student from Lubbock, will conduct the experiment this year under Mowery's supervision, which will extend over a period of approximately 112 days. Although this is the third year for the experiment at Tech, Mowery said, it will be the first time a student has been in charge.

Two lots of 20 lambs each will be used to compare feeding values of Martin and Plainsman milos. The remaining 67 lambs are to be used in harvesting milo in the field.

The results of this project and the two preceding experiments will be summarized at the end of the trial sometime in January or February, Mowery said.

Exes and Alumni---

(Continued from Page 1)

The alumni council met yesterday afternoon in the Aggie auditorium to outline programs and policies for the coming year. At this morning's meeting, officers are to be elected. They will be presented at the annual buffet luncheon to be given at 12 noon by the Lubbock Bus company and Texas New Mexico & Oklahoma Coaches.

In honor of their alumni, campus organizations have scheduled a series of social functions which will continue throughout the day and end when the Association of Women Students gives its annual football reception at 2 p.m. tomorrow in the Rec hall.

V. S. Peterson To Speak Tuesday On Today's Chemical Advancement

V. S. Peterson, widely known speaker on chemical advancement, will discuss "Preview of Progress" at 5 p. m. Tuesday in C-101, A. G. Oberg, associate professor of chemistry, has announced.

Peterson is sponsored by the American Institute of Chemical Engineers, and is presented through the cooperation of the agricultural department of Burlington lines and the Du Pont company.

He will demonstrate some of the newest developments in modern industrial chemistry, some of which are still in the experimental or evaluation stage. During the past year he has spoken at various meetings in the Mid-West.

Peterson is a member of the extension division staff of the Du Pont company's Public Relations department and maintains headquarters in Ames, Iowa. A graduate of Kansas State college where he majored in agricultural engineering, Peterson has served as agricultural extension engineer in Iowa and Pennsylvania and engineering technologist and acting director of the Iowa U. S. Forest Service CCC camps. He was also state administrator of soil conservation in Indiana.

At present, Peterson is chairman of the American Society of Agricultural Engineers' committee on farm safety. Peterson also is a member of the farm committee of the National Safety council.

RECORDINGS ARE ON SALE

Records of "The Matador Song", "Fight, Raiders" and "Fred Waring's Tech Fight Song" are now available to students announced Wayne McDonald, president of Kappa Kappa Psi, national band fraternity.

These recordings were made last spring by the Tech band, under the direction of Prof. D. O. Wiley, and the Tech male chorus.

Records are on sale downtown at the B. E. Adair Music company, and at the Tech or Varsity bookstores. They may also be purchased at the band hall from any member of Kappa Kappa Psi, stated McDonald.

Sports Grapevine

(Continued From Page 3)

Two defeats whereas the Owls have yet to win a game, we feel that the opponents of the Raiders have been unmentionables, and when they run up against the Owls they will find a foe quite comparable to the SMU Mustangs. Although we are far from being optimistic about the score, we can see nothing but a cinch and the corner drugstores have already placed the score on their respective scoreboards. The majority have it as: Rice 21-Tech 0.

Southland Rice Sports Reporter

What those Owls don't know is sure going to hurt them! What do you say, Gang, do we show them? —Willard Ogle

There was some good bowling at the college league last night. Paul Knight's 614 series will probably stand up as high for quite a while. Our Press Bulls didn't do so good, losing one game but still managing to remain in the first place position. Speaking of bowling, Tech has some of the best bowlers in the state enrolled. Ben Brown, Bill Nelms and Jay O'Keefe can stand up to anyone when it comes to keeping. Don't know about Bill and Jay but we do know that Ben has rolled a 299 and a 300. That's pretty good bowling.

The Red Raiders tackle the Rice Owls today. We hope to see feathers flying out on that field. Before the homecoming crowd, the Big Red should have that extra will to win. Not that the team hasn't had it all season, but it should have a bit more today. Hope Milburn Haydon's knee permits him to get in some action today. No player likes to stay out of a homecoming game.

Editor Anderson is being referred to as "100-proof" since he hit all his predictions last week. Oh well, the rest of us will get easy weeks some time. —Jerry Henderson
