

Tech Crop Team Wins 2nd Place In Chicago Meet

Tech's crop judging team placed second Monday in the crop judging contest run in conjunction with the 49th International Livestock exposition in Chicago, according to word received here yesterday.

An Oklahoma A&M team capped first place honors with 5,055 points out of a possible 5,400. Tech got 5,018 points and Texas A&M which took third place got 4,951. Third high individual in the contest was Tech's Robbie Gill.

In the National Intercollegiate Crop Judging contest, held early last week in Kansas City, the Tech team placed third.

Howard Taylor, in this contest, was the highest man in judging and identification and was second high individual in the contest. Robbie Gill and Camille Stevens placed tenth and eleventh respectively in the competition. The fourth team member, L. W. Rosenbaum, who acted as alternate, did not compete in this contest.

Oklahoma A&M won first place and Nebraska university took second place honors in the Kansas City competition.

On their way to Kansas City, members of the Tech team had practice workouts at Stillwater, Okla., and in Ames, Iowa at Iowa State college. Judd Morrow, assistant professor of agronomy, accompanied the group.

Teams scheduled to compete in the Chicago contest were Texas A&M, Oklahoma A&M, Iowa State, Pennsylvania State, Minnesota State, Nebraska university and South Dakota State.

AH Dept. Begins Breeding Program

A six-year-old Jersey bull, Volunteer Lena Standard, owned by C. A. Williams of Memphis, has been leased for one year by the college animal husbandry department for use in artificial breeding. Roy L. Neeley, lecturer in animal husbandry, announced.

The purpose of the breeding program at Tech is to improve dairy stock in the Lubbock area. Neeley said, and added that the cattle of breeders, farmers, dairymen and ranchers may be serviced within a radius of Lubbock for a minimum fee.

Immediate sire and grandsire of Volunteer Lena Standard are Nile Standard Volunteer and Signal Estella Volunteer. Both sires are rated as Superior Sires, the dam is Sybil's Ashburn Baronet.

Henry D. Schwarz of Lubbock, a 1947 graduate of Tech, has recently joined the staff as assistant technician in the artificial insemination program.

Completion Of Remodeling Expected After Jan. 1

The extensive remodeling of the president's home is expected to be completed sometime after Jan. 1, Frank Junell, assistant to the president, said Monday.

Money for the construction and repair work had been previously authorized by Tech's Board of Directors. A Lubbock contracting firm is handling the remodeling.

Dr. D. M. Wiggins, Tech president, and his wife are residing in one of the women's dormitories.

DO YOU BELIEVE IN LUCK?

Secret Superstitions Abound Even In This Scientific Age

By JULIA SHORT
Treador Staff Writer

So you're not superstitious? Well neither is anyone else, we shout with tongues in our cheeks. Here it is—the atomic age. Supposedly we are living in a scientific world. Also, supposedly, college students are among those with the best brains in the country.

Assuming that everybody told the truth and nothing but, we have uncovered what we consider the discovery of the century. With the exception of 86-100's of 1 per cent, all students and some few teachers, are superstitious about something. Out of twenty interviewed, one was a complete non-believer. We tried everything from black cats to good luck charms. If anybody catches, on Crawford of Amarillo, an industrial engineer, in some superstitious action, saying or practice, let us know.

In answer to the question, "Are you superstitious?" practically everybody who answered it, first said no. But when further probed, some superstition was found. Students do knock on wood, walk around blocks with a black cat crosses their path, are suspicious of Friday the thirteenth, do not walk under ladders, pick up pennies and keep four leaf clovers. They are afraid of lightning three on a match, telling dreams before breakfast, giving knives to friends of the opposite sex; they cross their fingers, carry a rabbit's foot,

PERSISTENT — Tech's crop judging team, after a third place win in the National Intercollegiate Crop Judging contest in Kansas City last week,

went on to Chicago to take second place honors in the crop judging contest held there Monday in connection with the International Livestock expo-

sition. Left to right, they are L. W. Rosenbaum, Robbie Gill, Miss Camille Stevens, Howard Taylor and Judd Morrow, assistant professor of agronomy and coach. (Photo, Bishop)

Leifeste To Head Scholastic League

Sam A. Leifeste, assistant professor of marketing and secretarial administration, is the new chairman of Region One Inter-scholastic league. Pres. D. M. Wiggins has announced. He succeeds Dr. Ernest Wallace as region chairman.

President Wiggins said before Leifeste came to Texas Tech in 1947, he had taken an active part in direction of intramural sports at Lubbock High school, where he was a faculty member. For ten years, from 1934 until 1944 until 1944 he was tennis coach at the high school.

The new chairman is well acquainted with Region One territory since he was in charge of the same area for several months while he was a regional social security supervisor. The area included in Region One extends from Wichita Falls on the east to El Paso, and north from Dalhart to Monahans. All class A and AA schools' sports and literary events except basketball are included in Inter-scholastic league competition.

Dr. Wallace directed three meets after he was made chairman in 1945.

DR GOODWIN TO SPEAK AT CHEMICAL MEETING

Dr. R. C. Goodwin, dean of arts and sciences, will discuss "The Possibilities of Industrial Developments in West Texas" when Tech chapter of Student Affiliates of the American Chemical Society meets at 7 p. m. tonight in C-G.

All students majoring in chemistry and chemical engineering, instructors and other persons interested in such developments are invited to attend, said Horton H. Morris, president of the chapter. Students will learn the possibilities for future employment in industry, Morris said.

A representative in Amarillo will speak on "Instrumentation" at a night meeting of the chapter Monday. Time and place of the speech will appear in ACS bulletins which are expected to be posted Thursday, said Morris. This lecture is being sponsored by the ACS and the American Institute of Chemical Engineers, he added.

Sale Proceedings Underway For Pantex Ordinance Plant

Application with all indorsements for sale of the Pantex Ordinance plant at Amarillo to Texas Tech, has been sent to the War Assets Administration board in Washington, Frank Junell, assistant to the president, said Monday.

Information released earlier indicates that transfer of the title to Tech is expected by the first of the year, barring unforeseen complications.

Formal transactions for acquisition of the plant were begun Mar. 3, 1948, when Tech's board of directors filed application with the WAA for the 17,000-acre plant.

This property as specified in the application, would be used for the general purpose of broadening education at Texas Tech. The main purpose of the plant would be related to agriculture and engineering. Presence of large numbers of Tech students at the plant would not be necessary for its operation.

Inspectors Praise R.O.T.C. Cadets

"The morale of Tech's ROTC cadets and the interest manifested in the corps is evidence of a well-organized department, a credit to this college," said Maj. W. R. Shurley Monday. Maj. Shurley, representing the Texas military district from Austin, is now engaged in inspecting ROTC units throughout the state. This is Shurley's fourth visit to the Tech campus.

"Since my first visit, over two years ago, the cadet corps here has increased more than three times," stated Shurley. "The accompanying increase in interest which I found among ROTC students on the campus, is definitely commendable."

Captain J. E. Williams of the Army reserve office in Amarillo is accompanying Maj. Shurley on this tour.

Four Tech Students Attend FTA Meet

Four delegates from Tech's chapter of Future Teachers of America attended the FTA state council meeting Nov. 26 in Dallas. Garland Bridges, president of the Tech chapter, announced Monday. The meeting was held in conjunction with the annual convention of the Texas State Teachers association.

Tech delegates attending were Bridges, Bill Treenfield, president of the Texas Association of FTA; Peggy Kocurek, secretary of the Tech chapter, and Dr. Lewis B. Cooper, sponsor of the Tech chapter.

A resolution was passed by the state council initiating the organization of high school FTA clubs, the purpose being to recruit the best students for the teaching profession, Bridges said. Each of the eleven college FTA chapters will be responsible for organizing high school chapters in its vicinity, he stated.

Nominations were made for state officers to be elected at the annual FTA convention in March. Tech students nominated were Bill Treenfield for president, and Joy Williams for financial secretary.

Santa Claus Day To Feature Tech Band

The Texas Tech band will go to Plainville Friday afternoon to participate in the annual Santa Claus day celebration, announced Dr. D. O. Wiley, band director. Santa Claus day is an annual affair, sponsored by merchants of Plainville.

The band will lead a parade, composed of bands from 10 or more high schools and floats entered by local organizations.

A concert at 7 p. m. in the city ball park will conclude the celebration. The Tech band will return to Lubbock immediately following this concert, Wiley said.

Wendt Is Second In Scoring Race

Fred Wendt of Texas Mines scored 42 points—six touchdowns and six extra points—Thursday night, but wound up second to Ted Scown of Sul Ross State in the season's national football scoring race.

Scown, who ended his season a week ago, was high man in the country with 144 points in 10 games. Wendt finished with 134 points in nine games.

The Campus Whirl

- Wednesday, Dec. 1
- WRA dancing, 7-8 p. m., gym.
- Thursday, Dec. 2
- Ag Eco club, 7:30 p. m., Aggie auditorium.
- Flying Ts, 5 p. m., Ad-210.
- Future Teachers of America, 8 p. m., Extension building.
- Saddle Tramps, 5 p. m., Aggie auditorium.
- Tau Beta Sigma, 7 p. m., Band hall.
- Texas Tech Rodeo association, 7:30 p. m., Aggie pavilion.
- Forum, 5 p. m., Ad-206A.
- Friday, Dec. 3
- College Club dance, 9-12 p. m., Lubbock hotel.
- Dorm semi-formal date dance, 8-11:30 p. m., Drane hall.
- WRA volley ball, 4-5 p. m., gym.
- WRA modern dance, 5-6 p. m., gym.
- Saturday, Dec. 4
- Los Camaradas dance, 9-12 p. m., Lubbock hotel.
- Dance, 8:30-11:30 p. m., Recreation hall.

- Purple T club dance, 8-12 p. m., Larrymore studios.
- Society of American Military Engineers dinner dance, 8:30 p. m., Aztec Inn.

GRADUATE DOES RESEARCH

William T. Savage, 1939 civil engineering graduate, is doing research on new processes of building with air foam concrete and other new building materials at the Illinois Institute of Technology. He has, with the exception of a few months in 1942, when he was employed by the Goodyear Aircraft company, worked on the Illinois campus. He is employed by the Armour Research foundation.

ROSE TO ATTEND MEETING

Dr. Embree R. Rose, college physician, will represent Tech at the Southwest sectional meeting of the American Student Health association in Dallas on Friday and Saturday. Tech was recently elected to membership in the association, announced Dr. Rose.

GRADS HEAR DISCUSSION

A discussion of opportunities for graduates with the department of agriculture under the civil service commission was held Monday. The meeting was presided over by Allan G. Kirkpatrick, head regional training section, United States department of agriculture. Kirkpatrick said that ratings started P1 grade which receives a yearly salary of \$2974.80 with opportunities for advancement.

New Traffic Campaign Started; 125 Tickets Given Monday

Appeal Is Made To Reopen Suits On Building Plan

The Third Court of Civil Appeals in Austin has refused to certify for Supreme Court consideration two questions which contest the college building constitutional amendment. These questions have been the basis for the principal arguments in the long court battle.

This refusal gives amendment opponents 15 days in which to ask the Supreme Court for permission to file a writ of mandamus seeking Appeals to certify the questions back to the Supreme Court, attorneys in the case say.

The questions which contestants want reviewed by the Supreme Court are:

1. Did the failure of the secretary of state to obtain publication of the proposed amendment in Bexar, El Paso, Galveston, Hill, Moore, and Taylor counties, result in the invalidity of the amendment, since by the exclusion of the votes cast in such counties the amendment would have been defeated?
2. Did the wording of the proposal on the ballot give a clear idea of the 30-year scope and character of the amendment as required by law?

Validity of the amendment was upheld by the appeal court Oct. 20, in a judgment that affirmed trial court findings. Motion for rehearing was overruled Nov. 10.

In their formal request to court, contestants noted that since their cause was an election contest, the jurisdiction of the court of civil appeal was final, thus eliminating the regular route to the supreme court.

However, this new action opens the alternate mandamus route.

Another route was also considered possible. Contestants could appeal that portion of their suit which was not an election contest but sought to prevent Attorney General Price Daniel from approving college building bonds on grounds that the constitutional amendment submitted was invalid because it was actually several amendments. Originally, there had been two suits—the one against Daniel and another which was an election contest directed against Secretary of State Paul Brown. The two suits were consolidated at the trial court's suggestion. Today's action dealt only with the election contest directed against Brown.

The suit was brought by three Lubbock residents. Clarence W. Whiteside, Spencer A. Wells and Homer Maxey, and a Dallas resident, H. E. Speer.

January Graduates To Be Interviewed

January graduates majoring in accounting, electrical engineering, industrial engineering and mechanical engineering, will be interviewed Dec. 8 by O. S. Hockaday and R. L. Beale, representatives of Texas electric service, Mrs. Jean Jenkins, secretary to the placement committee said today. A general meeting for January, June and August graduates will be held at 5 p. m., Dec. 7.

Seniors majoring in chemical, civil, electrical, industrial, mechanical and petroleum engineering and chemistry will be interviewed Dec. 6-7 by representatives of Carbide and Carbon Chemicals Corporation of Texas City. These representatives are R. H. Mariani, industrial relations manager, M. K. Anderson, head of instrument department and William Suiter, head of vinylite resins laboratory. A general meeting is to be held at 5 p. m., Dec. 5 in the engineering auditorium, Mrs. Jenkins announced. Students in departments concerned are invited to attend these meetings.

Students interested should go to the placement office to schedule interviews with these representatives.

Mineral Collection Donated To Tech Through Lecturer

Part of a recent mineral collection in rock form, considered among the most beautiful, complete and rare collections, is on exhibit in the chemistry building before it becomes laboratory property in the geology department.

The collection which contains 45 different minerals in 200 specimens was donated the college through Eldon P. Dennis, lecturer in geology, by Alfred M. Barunek of Utah. Barunek is geologist for the Utah Publicity and Industrial Development commission. He was a student under Dennis while majoring in mineralogy at Brigham Young university.

The Texas Tech collection is a duplicate of Barunek's personal collection.

Deadline For Submitting Varsity Show Scripts Set

Deadline for submitting scripts for the 1949 Varsity show is Dec. 14, Margaret Clark, chairman of the Varsity show committee, said yesterday.

Students desiring to submit scripts should have them completed and in the office of the Student Council by that date, Miss Clark said.

"Anyone wanting information about type of scripts, how to submit them, or the Varsity show itself should drop by the Student Council office, Ad-323, and see Miss Clark."

Wiggins To Speak At AIMME Meet

Dr. D. M. Wiggins, Tech president, has accepted an invitation to speak at a banquet of the petroleum division of the American Institute of Mining and Metallurgical Engineers on Dec. 17 at the University of Texas. Doctor Wiggins's subject will be "The Why of Public Relations".

The banquet will climax a two-day technical meeting of the Texas sections of the AIMME. Purpose of the meeting is to bring practicing petroleum engineers into closer contact with petroleum engineering students.

Doctor Wiggins is also to speak at the annual meeting of the Texas Society of Professional Engineers on Jan. 21 at Waco.

Sleepy Saturday Students Reflect Results Of Gaiety

By RICKEY ARCHER
Treador Staff Writer

People and their behavior is one of the most interesting and complex subjects ever approached. An observant student of human nature and activity can come to numerous conclusions about a person after watching him for a short time.

Saturday morning is an especially good time to observe if the observer wishes to be amused by hilarious incidents and fun-looking people. Friday night, the first 12 o'clock night of the weekend for dorm girls, inspires a great percentage of the student body to run and play. The chant, "party, party," creates a spell that does not allow the party-goer to think of tomorrow morning and his eight o'clock. Midnight gab sessions add to the atmosphere that sets the stage for Saturday grogginess.

Conversation follows a fairly regular trend. Topics of discussion are: "Was I dedicated on the party?" creates a spell that does not allow the party-goer to think of tomorrow morning and his eight o'clock. Midnight gab sessions add to the atmosphere that sets the stage for Saturday grogginess.

I will hereby record a few of my Saturday morning observations and allow the reader to interpret the mas he wishes.

Classes are generally filled with quiet, unhappy looking people. Those who didn't have dates the night before have nothing to brag about and those who did have dates are awfully tired and sleepy. The percentage of latecomers to class soars as people drift in until twenty after and cuts are hoarded for just an occasion when it seems positively impossible to get up and face the cheery dawn.

Cigarettes Given At Book Store

Camels in a plastic cigarette case will be given to students today and tomorrow in the Tech Bookstore, said W. C. Cole, manager.

Representatives of R. J. Reynolds Tobacco company recently completed plans at Tech to give the cigarettes and cases to all students who call for them.

The cases will be made of clear plastic and will have "Texas Tech" monogrammed in blue lettering. Last year the cases were given away in the Rec hall and had a large red "T" on the front.

Library Acquires Microfilm Camera

A Recordak microfilm camera has been added to the research department to assist in making available to research students copies of rare books and valuable documents, Dr. W. C. Holden, dean of the graduate division, has stated.

The microfilm camera will be of special value in adding important material to the history collection in the library, Dr. Holden said. All filming will be done in the library by staff members trained in handling the camera and in copy work.

The first project planned for the new recorder is microfilming the files of the "Texas Spur," a weekly newspaper started in Spur, Texas, in 1909.

From Oct. 24, 1937 until Oct. 8, 1944, the Washington Redskins won 11 straight games from the Philadelphia Eagles.

Necessity Or Habit . . .

A symposium on religion in the November issue of The Atlantic Monthly should prove beneficial to Tech students who have the common problem of religious indecision.

Four writers have undertaken to refute the claims presented in an earlier article—that nothing has significance; that to the intelligent and informed there is no meaning or purpose in the universe or in anything or anybody within that universe. And the combined result of the authors has a lot of solid food for thought, particularly for the students who, absent from the religious training they were receiving at home, have begun to wonder just what there is to the argument of science versus religion. Is religion a necessity or a habit?

Religion has been termed "the reaction of human nature to its search for God." And in the Atlantic article, E. H. Edwards points out that "Man's major problems arise from his desperate attempts to individualize God. If only men would learn that it is not what they think of God that matters, but very definitely what He thinks of them."

"Being good is such a simple matter," Edwards points out, "but man, in his devilish perversity, has made the simple art of being good damnably complicated."

That should be the answer for many. Undeniably, we need both science and religion. Science has doubled the average span of life. It has given the masses more freedom and possessions than had ever been dreamed of. On the other hand, man, with an instinct as strong as the mating impulse, will seek spiritual guidance and assistance when he is certain no human agency can help him; when there seems nothing left.

A clash of doctrines is an opportunity rather than a disaster. It is a chance to broaden and improve mankind. It is the evolution, the progress, of real knowledge. The situation presents no true problem upon investigation. To college students, probably more so than to other classes, religion means a necessary supplement to their academic learning.

A Promise Of Success . . .

Now that the Student Council has selected a director for the 1949 Varsity show, plans for the annual all-college affair should proceed well in advance of the schedules of previous years. With the deadline for submitting Varsity show scripts set for December 15, the council will have time to decide upon a script before the beginning of the spring semester.

Completion of all preliminary plans so early in the year will insure a better show without the necessity of a last-minute rush for talent, stage settings, and rehearsals. A greater number of students should have more time to help with the show if it is started in advance, giving an ample opportunity for each to contribute time and talent according to his individual schedule.

We believe the Student Council is indeed wise in getting started on the show so far in advance of the scheduled date of the first performance. By next April, the entire show will be organized, well-rehearsed, and ready to go, barring unforeseen complications, of course. Much of the confusion and haste of previous years will be eliminated. With the cooperation of the student body, the 1949 Tech Varsity show has promise of being one of the most successful in several years.

Dear Pot,

Lost

Somewhere between sunrise and sunset. Two golden hours, each set with sixty diamond minutes. No reward is offered, for they are gone forever.

S.E.R.

P.S. The mid-semester report worriers might remember this, and it will help them. It has me.

Co-ed to professor:

"What do you think of me now that I've kissed you?"
Professor, "You'll pass."

Dear Pot,

I see a miss
With glances shy
Accept a kiss
Then say goodbye.
No, I'm not a latchman
My life's no bore
I'm just the watchman
From Girl's Dorm IV.
B.

A Flapper Of Texas Tech

They called her the flapper of Texas Tech,
For she danced where the light was bright.

To the vivid glare of the saxophone
Through the splendid West Texas night.

Her hair was bobbed and her penciled brows
Made an arch above each eye.

Her skirts were long and her stockings sheer,
And her heels three inches high.

Her lips were just like baby's,
They were gay and soft and brave.

Her eyes were mad as an April storm;
As a bird on an angry wave.

And she turned away from her lessons hard
To move in one grand dance.

For her soul was swept with the silver sheen
Of adventure and romance.

Her name was really a charming one,
As sweet as a white, white dove.

One looking at her could only think,
Of a plaything made for love.

For love had caught me against her breast,
I was wrapped in passion's lore.

If those baby lips don't laugh me down,
I shall love her more and more.
A.W.H.

Dear Pot,
If first you don't succeed, try try again, and then give up. Don't be a damn fool about it!
P.H.

Pot hopes all of you had a swell Thanksgiving and now you can settle down and send in your contributions.

... Pot

El Toro Grande

By ORLIN BREWER

Heaven help us. Here come classes again. Thanksgiving is over, Christmas is around the corner. Final exams stare us in the face. Four weeks to do four month's work. And who said, "Never let your books interfere with your education?"

Anyone who finds himself unhappy about overwhelming studies here at school might take heart in the fact that things can go wrong even on vacation. Now say for instance in the Houston area, the bass won't bite, the mesquitos are monstrous, the ducks won't light, the geese fly too high and it rains all the doggone time. One Tech student spent three days in intensive hunting and fishing; fell in a lake once, got soaked by rain twice. He caught no bass, shot no ducks; watched friends land five enormous fish. Of course, in his anxiety to return to dormitory chow, he left before said fish could be dressed and cooked. Relatives are due to get every bite.

Another sign of progress in American education was noticed by a Tech student on a recent trip to the University of Alabama. Wisdom on the part of Alabama educators can be cited on this one point at least . . . Everybody may "sleep in" every morning. Classes don't start until 9 a.m.

The same student reports that the intramural sports setup there is quite extensive. Stadiums provided for these activities alone compare favorably with the old Tech stadium which has recently come to such a sad end.

An all time record for small attendance in college football was probably set at the West Texas-New Mexico game in Canyon Saturday. Harry Gilstrap, sports editor of the Amarillo News-Globe maintains there should be either a special award of merit or a special institution with nice padded cells for the spectators who watched.

"The day's witnesses," he said, "numbered exactly six in the west stands (all of them huddled at the south end of the press box), a few standees on the sidelines (dancing vigorously to maintain life in their limbs), and an undetermined number who remained inside approximately 110 automobiles parked around the field."

Seems there was a blizzard in Canyon at game time. New Mexico felt it most; thought it was zero weather, while West Texas got 19 points warmer.

Which brings up this point. Are grid contests so important that they must be concluded without regard for weather conditions or welfare of the players. With "a combination of extreme cold, driving snow and a 35-mile wind sweeping directly from the north", it seems to us that the place for even a grid star is at home by the fire, where he can roast innumerable peanuts and tell the coaches to go to hell.

We understand that three members of the Lone Star conference have worked out an amicable agreement on the problem of paint smearing during the football season. These rules for warfare provide that no paint will be used which cannot be removed by scrubbing with water. Several other terms have

SOTHERED — Hook Davis, Hardin-Simmons flashy half-back proved a thorn in the side of the Raiders all afternoon with his slashing, twist-

ing style of running, but in the photo above found just too much brawn to go against. Raiders in on the play are guard Dorrell McCurry, push-

ing from behind, Glenn Lewis, J. L. Gulley, Bud Conley, and Bud Henderson. Cowboy players are end Sid McHane and quarterback John Ford.

Tech Ends Season By Edging H-SU 128-20

By **JERRY HENDERSON**
Toreador Sports Writer

Tech's Red Raider team proved that it had earned the title of Border Conference champion Saturday afternoon in Abilene, spotting the Hardin-Simmons Cowboys a two touchdown lead, then roaring back to thrill the 11,000 spectators and to clinch the game.

Tech opened the game by moving the kickoff from the Raider 18 to the Hardin Simmons 17. The HSU line held and after Zac Henderson dropped Hawkins' pass in the clear on the five-yard line, the Cowboys began to display the brand of ball that almost won the game. After trying the line and bogging down, Hardin-Simmons' Bob McChesney booted to Walter Maloney on the Tech 33. Maloney dropped the ball and Pat Bailey recovered on the Tech 33. After seven plays, Davis went wide around end to cross the double stripe. Bailey converted and the Cowboys led after 13 minutes of play.

Tech got back in the game however. Hawkins grabbed the kickoff carrying 26 yards to the Cowboys' 46. Cal Steveson fought through right tackle for five, Earl Jackson went through left guard for 18 more. Hawkins faked a pass and lugged the ball 17 yards down to the eight where Jackson scored on the next play. As the quarter ended, Charley Reynolds booted the first of his four conversions.

Center Ed Petty helped demoralize the Raiders by rushing Henderson on the Tech 46, knocking the ball out of his hand back to the Raider 20. Davis grabbed the ball

and raced to the Raider 48. Davis, Bailey and Ford combined to score the second marker for the Cowboys. Bailey plunged over from the one for the second and then converted to put the Cowboys in the lead 14-7.

From this point until the half the ball saw-sawed back and forth. The Raiders stopped the Cowboys on the four and turned in the first penetration into SMU territory of the second half.

Again, after the half, it was a defensive game. Hawkins intercepted a pass to break up a threat and Tech carried to the HSU 46 before Stuver was forced to kick.

Bailey and Davis picked up six yards and it looked like the Cowboys had bogged down, but Ford faded, hit McChesney on the 50. McChesney evaded Steveson on the Raider 23 and went on over for the score. Bailey missed the extra-point try and Hardin-Simmons led 20-7.

At this point Tech started the comeback that won the game. Hardin-Simmons twice tried to kick off and on the second was offside, drawing a five-yard penalty. The third kick went out of bounds and Tech took over on the Cowboy 45. Bill White charged for two yards, Stuver got eight more and White carried again for a first down on the Cowboy 28. Hawkins found Ottmers with a pass and the tall end went down on the Cowboy 18 for another first down. Jackson carried down to the four for another and Hawkins flipped a pass

Tech, Marshall Five Play Here Dec. 22

Probably one of the outstanding basketball games Tech fans will get to see during the season will be the clash between the Raider quintet and the Marshall college five here December 22.

The Marshall college squad from Huntington, West Virginia, will be enroute to the west coast to defend its title in the annual Los Angeles invitational tournament, that it won last year from leading colleges in the nation.

The visitors, one of the most colorful teams in the nation, are noted for plain and fancy ball handling and fancy shooting. Coach Robison said that he would like to use his tall team, averaging 6 feet, 4 inches, for part of the game, and a smaller and faster five for the remainder. A great deal will depend, of course upon how the boys perform between now and then.

The Lubbock game will be open to the public, Robison said, since it will come during the Christmas vacation at Texas Tech and few students will be on the campus.

Tech Quintet Invades Dallas Friday Night To Battle SMU

The Red Raider basketball squad gets into topflight competition, hardly before the varnish is dry on the gym floor, as it takes on the tough SMU Ponies in Dallas Friday and Saturday night.

For the Raiders it will be their second team to face since the season opened against McMurray last night.

Coach Polk Robison will have on hand nine lettermen from last year's squad which took second place in the conference, and some capable reserves up from the freshman ranks backed by one or two newcomers.

Robison will still be searching for the right combination, and its a safe bet that most of the boys will get to see action. Those who will probably get the call as starters, however, will be Don Grove, center, Wayne Bowles or William Banks at one forward, and Gene Gibson at the other. Guards will probably be picked from Ardis Barton, James Hill, and Jiggs Jackson.

Don Grove, a six-foot five inch center from Monument, New Mexico, was named to the first all-Border conference team last year. He is a capable pivot man, and as a rule has been the leading point getter for Tech. Flanking him at forward will be Gene Gibson, a six foot four inch letterman from Lakeview. Also at forward are two other lettermen, Wayne Bowles,

from Lubbock, and William Banks from Vernon. Wayne stands 6 feet 4 inches, while Banks is 6 feet 1 inch tall. At guard Ardis Barton, letterman from Earth is tough for anyone to beat. Also fighting for a starting position will be Jiggs Jackson, from Monument, New Mexico, and James Hill from Amarillo. Both boys are lettermen and fine ball handlers.

Capably backing them will be such returning lettermen as C. W. Dukes, converted forward from Tyler. C. W. played center last year, and seems a greatly improved forward. He might be giving somebody a fight for a starting berth before the season ends. Winston Churchill, a letterman from Sterling City will also be on hand.

Up from the freshman ranks will be Charles Pinnell, forward from Andrews, George Belcher, guard from Clovis, New Mexico, Verdell Turner from Lubbock, and newcomer Durward Patterson, center from Sudan. Also with the squad is Bill Edins, 1943-44 letterman from Sudan.

Nothing much is known of the SMU squad in this corner, but if it is up to par with the average Pony squads, the Raiders are in for some rough nights.

After the Raiders get through with the Ponies in Dallas, they will journey to Houston to take on the Rice Owls in a single game Dec. 7.

SPORTS GRAPEVINE

RAIDER OF THE WEEK

Football's curtain dropped for Tech this week and with this week's choice of the Raider of the Week we bring to a close that part of the Grapevine. This week there seems to be no uncertainty as to the player to pick. To tell the truth, we have been inclined to choose him in previous weeks but due to the conditions and the attitude of the sports staff in contrast to that of a portion of the student body we felt it wiser not to do so. For this week the willowy wizard, as he is referred to elsewhere, played possibly the greatest ball game of his collegiate career. By now you know the man is Ernest Hawkins, who for three years has directed the Red Raiders to a "T".

Ever since he has been playing for Tech he has been criticized. Just the same he kept playing the kind of ball that can come only from a fighting heart. He was criticized because his passing was not as it should be to some people. If they had seen him get out in the summer and throw a football at a tire for two hours a day trying to improve his passing there might have been a change in their attitude. We often made the statement on the paper that Hawkins is one of the smoothest ball-handlers we've seen operate under the tricky T formation. Last week New Mexico ball players backed us up by saying he was the best they had gone against outside of Texas' Paul Campbell.

—Sport Staff

Ye olde sports editor lowered his averages with games picked on Thursday and Saturday. Tech came through with the predicted win over HSU for an average-getter, Texas Mines walloped New Mexico A&M 92 to 7, Alabama edged Florida, William and Mary took Arkansas, and Tulane won over LSU. Again to help us, Villanova won over North Carolina State and Notre Dame ran over Washington. Oklahoma edged Oklahoma A&M, Oregon took Nebraska and Penn State won over Washington.

On the losing side we picked too many ties and had to count them as losses. TCU and SMU fought to a 7-7 tie, Army and Navy fought to a tie also and we lost Holy Cross and Boston. Georgia Tech and Georgia, Michigan State and Santa Clara. Almost forgot, we had another tie. Rice and Baylor didn't turn in the predicted upset. My gosh, came out with 58 per cent! Good thing this is the end of football predictions, except for the bowl games that is.

Jerry Henderson.

Well the final gun has sounded for the Tech eleven, from all appearances, for the 1948 season, and we turn our eyes toward other sports. Before we leave football, however, lets look backward and see what happened of note. First of all, we got off to a fair, if not too overwhelming start by defeating West Texas here, and second guessers were busy as to what the team would do for the season. We then took on the Farmers from Aggie and beat them 20-14. At this point you could hear an occasional student wondering if we might be able to take all four of our southwest conference foes. The following week, we suffered our worst defeat at the hands of the SMU Ponies. The score, well we won't go into that. Next we took on Tulsa University in Tulsa and "ole speed merchant Charley" had a field day, as we beat them 41-20. We then took on those high-flying Bears from Baylor, and they kept right on flying high to the tune of

SOCIETY

Language Society Initiates Members At Recent Dinner

Tech Alpha Phi chapter of Sigma Delta Pi, only national honorary society of foreign languages on the campus, initiated one honorary and 12 new members at a dinner held at Mexican Inn Nov. 23.

Those initiated were: Billy Bufkin, Hobbs, N. M.; Phil Kemp, San Angelo; Dorothy Golden and Jean Holt, Slaton; Jack Witte, San Antonio; J. F. Feyn, Rocksprings and Elizabeth Howard, Orin Brewer; Leslie Stone, Carter Wheelock, Terry Waldron, Jr., and Imogene Fortenberry, Lubbock. The new associate member is Sally Witte of San Antonio.

Mrs. R. P. Swafford, teacher at Carroll Thompson junior high school, who has just returned from a trip throughout Central America, spoke on the customs of the country.

Jack Wilson, president of the club, said the chapter, with other foreign language clubs, will sponsor a dance Feb. 4 and will present a Christmas program at 5 p. m., Dec. 15.

Sponsor of the chapter is Dr. Earl Hamilton; Mrs. Eunice Gates is the new co-sponsor.

Jack Wilson, president of the club, said the chapter, with other foreign language clubs, will sponsor a dance Feb. 4 and will present a Christmas program at 5 p. m., Dec. 15.

Hazardous Holiday Happenings Harass Harried Homegoer

**By RICKY ARCHER
Toreador Staff Writer**

Wednesday, Nov. 24—
7:45 a.m.—Boarded bus for Fort Worth.

7:59 a.m.—Was joined by a loving mother and son, age five years.

10:20 a.m.—Bus broke down, changed buses.

1:30 p.m.—Bus broke down, waited.

Small boy grew very affectionate in the process of hugging XXX's neck he banged her head against window, also hit her in mouth causing gums to bleed. Next, her legs were used as substitute for a slide. Ruined, one pair of \$2.50 nylons.

6:30 p.m.—Was shoved on an already full bus, shared seat with two kind hearted girls, choked on cigarette smoke, crushed one previously good hat.

8:30 p.m.—Arrived in Fort Worth to find bag had not yet arrived.

8:55 p.m.—Took place in the aisle (standing, of course) on last lap home.

9:50 p.m.—Arrived home, relaxed and had a case of hysterics.

Thursday, Nov. 25—
Borrowed blue jeans to wear while home, checked with bus station on the hour to see about bag.

Friday, Nov. 26—
Uneventful.

Saturday, Nov. 27—
8:00 a.m.—Received bag.

8:50 a.m.—Boarded bus for Abilene.

12:15 p.m.—Missed connections in Coleman, chased bus in taxi, exciting but costly. In extreme state of confusion left coat in Coleman.

1:35 p.m.—Arrived in Abilene terribly bitter, missed the kick-off, resolved never, never, never to ride bus again.

Miss Pendleton Presides At Speech Association Meet

Miss Annah Joe Pendleton, head of the speech department, attended the Texas Speech association convention held in Dallas Thursday and Friday. "The Place of Speech in a Changing World" was the theme of the convention.

Miss Pendleton, who is president of the association, presided over the general session, which was held Friday afternoon. The main speaker was Dr. Kenneth G. Hance of Northwestern university.

Elementary, high school, and college speech problems were discussed in sectional meetings. A joint meeting with the Texas State Teachers association was held Thursday night.

College Club Holds Annual Fall Formal Dance Friday

College Club social club will traditionally open the season of fall formal dances with its annual dance from 9 to 12 p. m. Friday at the Lubbock hotel, celebrating its 20th anniversary as the oldest men's social club on the campus.

Bob Williams, club reporter, said Monday.

Decorations will display theme of 20th anniversary and will feature club colors, black and gold, in overhead streamers and club emblems.

Methodist Students Plan Forum At Center Tonight

Subject of a forum scheduled for 7:15 tonight in the Methodist student center, will be "Call to Conscientious Living". Rev. Cecil Matthews, center director, said. Activities of the meeting of Methodist students at A&M college, Nov. 26-28, will be discussed as part of the forum.

The Wesley players, Methodist drama group, will present the first two plays of the Christmas play festival Sunday in the chapel of the First Methodist church. The plays, casts, and directors have not yet been chosen, Matthews said.

Residents Of Drane Hall To Be Hostesses At Dance

A semi-formal dance will be held from 8 to 11:30 p. m., Friday in Drane hall, Bess Miller, chairman of the dance committee, has announced.

Mrs. Elizabeth Young, social director of the dormitory, and Miss Shirley Frewmuth, dietician, will be chaperones.

Special guests will include Mrs. Margarette W. Walker and Messrs. and Mesdames James G. Allen, Wayland Noles and James Thompson, Miss Miller said.

Refreshments of punch and cookies will be served.

Home Service Director To Address Home Ec Students

Miss Leonora O'Neal, home service director of the Gulf States utilities company from Beaumont, will speak to a senior seminar group and home management class tomorrow and Friday.

The subject of her speech to the seminar group will be "Home Service as a Career," and her speeches to the home management classes will concern "Lighting the Home," "Electric Home Equipment," and "Kitchen Planning".

Sports Grapevine

(Continued From Page 3)

13-0. At this point, we decided to leave the bigger boys alone; flew out to Arizona and met the Wildkittens of the University of Arizona. After the fur had settled, we found ourselves with a 31-0 victory. We then came off the road, and had a little game of our own right here in Jones stadium before a homecoming crowd of 20,000 people. The Owls from down Houston way gave us a slight lesson in football, and came out on the long end 14-7. Then came the Orediggers of Texas Mines. They came in with an unbeaten team, but left on the short end of a 46-6 score. We had an open date, then took on the New Mexico Lobos here in a "breather". Well we thought it would be a breather, but the Lobos had other ideas, so we were lucky to get by with a 14-7 win. For our final game we traveled down to Abilene to tussle with the Baptists of HSU. We won 28-20, but not before every roofer for Tech had chewed off all his fingernails. So that brings us to the end of the season with seven wins, three losses and no ties. The Border Conference crown still on our heads, and nothing to do but wait until next year.

Lutheran Group Holds Banquet

Gamma Delta, Lutheran organization on the campus, held its initiation banquet last Sunday in the Navajo room of the Hilton hotel, Eugene Streger, club president, said Monday.

Earl Wukasch, assistant professor of electrical engineering, gave the address to the pledges preceding the ceremony; Streger was in charge of the candlelight initiation ceremony.

Special guests were four West Texas State students, Pastor Ernest Beck of Tulsa, and Pastor Paul Heckman of Wilson who was speaker at the banquet. Walter Schneider, senior B. A. student, was toastmaster.

The program included two violin solos by Prof. Wukasch accompanied by Mrs. Karl Keller; a vocal solo by Schneider accompanied by Mrs. Keller; a piano solo by Calvin Kunkel, senior from Lubbock, a male quartet composed of Rayburn Hahn, junior from Wilson, Prof. Wukasch, Schneider, and Pastor Heckman; and a piano solo by Imogene Schrank, junior from Hamilton.

New initiates signing the constitution were Courtney Siwert, freshman from Slaton; Don Roby, sophomore from Oklahoma; Gene Southwick, sophomore from Lubbock; Mrs. Gene Southwick; Bob Macina, senior from Shamrock; Otto Bielefeld, junior from Dallas; and Miss Schrank.

Thirty-four persons attended the banquet.

Inter-Club Council Plans For Luncheon At Hilton

Woman's Inter-Club Council will have a luncheon at 1 p. m. Saturday in the main ballroom of Hilton hotel, Jayne Thompson, president, announced.

Dean Margarette W. Walker will present a baseball trophy to the Sans Souci social club who won the tournament last spring. Other special guests will be Miss June Hanson, assistant to the dean of women; Mrs. Mary W. Doak, professor of English, and Mrs. Marie D. Harrison, club sponsor and instructor in English.

Club Gives Christmas Tea

The Tech Faculty Woman's club will hold a Christmas tea at 3 p. m. this afternoon in Drane hall. Mrs. Lewis B. Cooper is hostess chairman.

Other hostesses are Mesdames L. C. Adams, James G. Allen, Stanley E. Anderson, L. B. Blackwell, John Brand, L. O. Buntin, W. C. Cole, J. C. Cross, J. Hollie Cross, Joe Dennis, P. E. Dennis, Paul Elliott, W. B. Gates, H. F. Godeke, J. C. Hardgrave, L. M. Hargrave, W. L. Ducker, P. D. Dysart, William D. Dingus, Misses Fern Alfrey, Evelyn Clewell and Bonnie K. Dysart.

Las Chap Alumnae Honor Activities With Barbecue

Active members and pledges of Las Chaparritas were guests at a barbecue picnic supper given by the alumnae of the club last night at the Mackenzie Park party house.

Entertainment during the evening consisted of recorded music and group singing. Pledges of the organization gave a short program.

Plans for the occasion were made by a committee composed of Mesdames Henry Austin, Edgar Self, Wilson B. Holden, and Asher Thompson.

Home Ec Party To Be Held

Martha Lewis, senior home economics major from Dumas, will be hostess for a dessert bridge and rummily party Friday night at the home management house. Home management residents and their friends will be guests. The Christmas theme will be carried out in decorations and refreshments.

INSTRUCTOR AND STUDENT ARE SPEAKERS AT BANQUET

Miss Martha Graves, instructor in home economics education, and Miss Gene Marrs, freshman home economics major from Coleman, will be guest speakers at a mother-daughter banquet at 7 p. m. tonight at the Roosevelt high school.

Miss Graves speech, which will be the principal address of the evening, will be entitled "Toward New Horizons". Miss Marrs, who is the only girl in Texas who has the highest degree awarded Future Homemakers of America, will talk on F. H. A. activities.

The banquet will be the first of its kind held at the Roosevelt school and will be under the supervision of a Tech graduate, Mrs. Katherine Bullock.

Tech Ends---

(Continued From Page 3)

Cowboy 5 as Davis watched it roll. Three plays gained a first down for the Cowboys and on the next Ford passed directly into the open arms of Glenn Lewis and the Raider half went 12 yards for the touchdown. One minute and forty seconds later the game ended with Tech on the Cowboy seven-yard line.

Hawkins Praised At QB Club Meet

The Lubbock Quarterback club held its regular meeting in the Tech gym Monday night. Plans to show the Hardin-Simmons football game pictures fell through when the film failed to arrive. Coach Dell Morgan told of the Raider victory in Abilene last week. The game ended one of the most successful seasons in Tech's history. Morgan was high in his praise of Wilton "Hook" Davis of Hardin-Simmons. The brilliant running of the versatile little halfback almost gained the Ranchers a victory. The Tech mentor also heaped praise on Raider Quarterback Ernest Hawkins of Lamesa for the stellar performance he turned in and for his work in turning back a strong Cowboy passing attack. Hawkins two pass interceptions at a crucial point in the game gained Tech a victory.

Also plans were discussed for the football schedule that the Red and Black would play next season. Morgan announced that feelers from Santa Clara and other well known schools had been received. Texas University, Texas A & M, Rice, Baylor, Tulsa and Arizona will probably be on the list also. As yet plans are not definite on what the final schedule will look like, however, Tech officials have definitely stated that the team will play five games here next year as well as the five on the road.

Plans for a final Quarterback club meeting next Monday night were announced. Movies of the HSU Tech game will probably make up the program.

Dean Walker To Entertain

"Power of Music" will be discussed by Mrs. Margarette W. Walker, dean of women, following dinner Sunday in Women's Dorm IV. Mrs. Walker will also sing a group of numbers accompanied by Carolyn Cole, Tech student.

This is the second in a series of after dinner programs scheduled by the dormitory. Last Sunday Marthelen Millington, local hair stylist and former Tech student, spoke on good grooming based on her training in California modeling schools.

Other guests for the dinner will be Miss June Hanson, assistant to the dean of women and director of campus activities for women students, and Mrs. Frances Wible, Mrs. Walker's mother.

STUDENTS HEAR CONSULS

Tech's foreign students were guests of the Lubbock Rotary club to hear Eugenio Tesquira, the Mexican consul from Amarillo, speak. Of the 29 foreign students enrolled in Tech, 22 were present at the meeting held Monday night. These students hail from Mexico, Africa, China, England, Burma, Japan, South America, Costa Rica, Puerto Rico and Turkey.

LOS CAMS PLAN DANCE

Los Camaradas will entertain active members, pledges, and their dates at its annual formal dinner-dance Saturday night. Bill Stalls, president of the organization stated.

Dinner will begin at 7:30 p. m., in the main ballroom of the Lubbock hotel, and dancing will be from 9 until 12 p. m.

TARLETON EXES GIVE DANCE

Purple T Club, an organization for ex-students of John Tarleton college, will have a dance for members and their dates from 8 to 12 p. m. Saturday at Larymore Hotel, 1905 Avenue R, announces Donnel C. Clark, club president.

PARTY HONORS GIRLS

Misses Mabel D. Erwin and Margaret W. Weeks were hostesses for a dessert party last night honoring girls who have stayed in the home management house this semester. The entertainment was held in their home at 2602 Twentieth St.

Dean Walker To Entertain

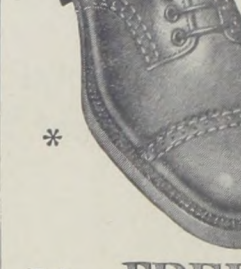

"Power of Music" will be discussed by Mrs. Margarette W. Walker, dean of women, following dinner Sunday in Women's Dorm IV. Mrs. Walker will also sing a group of numbers accompanied by Carolyn Cole, Tech student.

This is the second in a series of after dinner programs scheduled by the dormitory. Last Sunday Marthelen Millington, local hair stylist and former Tech student, spoke on good grooming based on her training in California modeling schools.

Other guests for the dinner will be Miss June Hanson, assistant to the dean of women and director of campus activities for women students, and Mrs. Frances Wible, Mrs. Walker's mother.
