Texas Technological College, Lubbock, Wednesday, March 15, 1950

Number 43

JIMMY CLOSSIN

Square Dancing School Will Begin Monday Morning

Texas Tech Country dance school, sponsored by the department of physical education for women, the Women's Recreation association and the Major-Minor club will begin Monday and continue through Saturday. Tickets are on sale at the gym for \$2 each.

Classes will be held in Tech gymnasium. Beginners' classes will be held from 7:30-9:30 p. m., Monday, Wednesday and Friday. Advanced classes will be the same hours on Tuesday, Thursday and Saturday. Classes open to everyone with tickets will be from 9 to 10 a. m. Monday through Friday.

Jimmy Clossin of El Paso, nationally-known caller and instructor, will conduct the school. Coming to Tech from the Square Dance festival in Phoenix, Ariz., Clossin and his wife, who helps him teach and attends to the music and secretarial duties, have traveled from Mexico City through the southern states to Cape Cod, Mass. and back along the same route. They have covered over 15,000 miles on this trip conducting square dance classes since September 8.

North Side News, Atlanta, Ga., said in an article on Clossin's life, "Jimmy was a hard-riding cowboy at 16 and he stuck around the ranches with the horses and the cows for about ten years. Then he became a U. S. patrolman and worked (and loafed together) at that for another ten years. Jimmy was 36 at this time and dead tired of twirling a night stick, so he threw in his badge, 'bracelets' and 'hardware' and took up square dancing; and in no time, he was teaching boys to swing and jigs to twine all up and down the Rio Grande. That was 25 years ago and here's Jimmy, now 56 years old and still teaching people to 'swing to the left, swing to the right and keep their hardware out of sight.'"

Ag Student Enters Scholarship Race

Edgar Lee Hawkins, sophomore agricultural student from Lamesa, has been nominated as Texas representative to the national Sears-Roebuck Foundation Advanced scholarship contest.

This contest, held annually, will give a \$500 scholarship to the first-place winner and two \$250 scholarships to the runners-up.

Scholarships are awarded to 12 freshman men in each state every year. From these men, one is picked to receive the sophomore scholarship. Sophomore scholarship winners are eligible to enter the national junior-senior scholarship contest. Ten top men, who are to be picked from the contestants, will go to Chicago for the final judging May 21 and 22.

All students who have Business Law notebooks from former semesters are requested to pick them up in the Office of Business Administration's dean immediately.

Church Vocations Will Be Discussed At Third Lecture

By JACK SHELTON
Toreador Staff Writer

This morning at 11 o'clock in the gymnasium, the third lecture of the fourth series of Willson lectures will be presented. Dr. E. G. Homrighausen, professor of Christian education at Princeton Theological seminary, Princeton, N. J., will speak on "The Vocations of the Church Today." Tomorrow morning, at the same time and place, his topic will be "The Vocations of the Individual Today." This lecture will conclude the current series of four.

With "The Resurgence of Religious Concern" as his subject, Reverend Homrighausen initiated the fourth series of Willson lectures, sponsored by Mr. and Mrs. J. M. Willson of Floydada, at Texas Tech Monday morning. James G. Allen, dean of men, presented Dr. E. N. Jones, vice president, who in turn introduced the principal speaker to an audience of approximately 2,000 students, faculty members and townspeople.

Reverend Homrighausen said that we are living in a creative age in which there is a continuous change being made. Our age is a new one and a revolutionary period in which "some people are just mad at everything and everybody." In elaborating on the question of "Is religion making any gains today?" Reverend Homrighausen added that new religions, or forms of religions, are still being formed today. The whole world is in a state of real resurgence of religious concern, and we are in the middle of a worldwide religious revival. "The people who deal with personality problems say we cannot help those who will not help themselves in a religious concept," he said.

Great Age In Which We Live
Civilization is meant to produce religion, and everything is aimed to create religious people. Everyone is concerned with the salvation of man, he continued, and churches are getting serious about this matter, because they are the custodians of religion.

Reverend Homrighausen added that "the war was perhaps an act of God in that it shook the world to its foundation. Bodies may be killed but the soul may never be destroyed. Our age is great in which to be alive and no one should despair. God is Lord of the situation," he concluded.

Charles Lutrick, assistant pastor of St. John's Methodist church, presented the invocation; and the benediction was by Reverend Brown C. Welch, Cumberland Presbyterian church.

Dean George Heather of business administration introduced Reverend Homrighausen Tuesday. Invocation was made by Lattimore Ewing, director of Christian education at First Baptist church; and Rev. D. L. Zacharias of Westminster Presbyterian church gave the benediction.

Total Gospel
"The Message of Christianity Today" was Reverend Homrighausen. See CHURCH Page 4

Heather To Attend Midland Meeting Of Teacher Group

Dr. George Heather, dean of business administration, will be panel chairman at the College Classroom Teachers association meeting Friday in Midland.

The meeting, composed of District IV in the association, is to be held in conjunction with the

See HEATHER Page 8

Student Council Changes Date Of Spring Elections To Apr. 13

Tickets Available For Prom In May

Members of the junior class can pay 50 cents for the Junior-Senior prom today and tomorrow at a booth in the Rec hall. The affair is to be held May 13, announced Ralph Lacy, junior class president.

Five such booths were set up last Thursday. At that time, the collections were: Home Economics, \$1; Engineering, \$2.50; Aggie, \$9; Administration, \$6; Rec hall, \$25. Lacy estimates that 5 per cent of those juniors who live in dorms have contributed.

Several campus organizations, such as the Social Activities committee and the Student Council, have offered to help the juniors in all ways possible. The Council of Deans agreed to schedule the dance May 13 in order to assure good attendance. This is a closed date except for one other closed function.

The Council of Deans also stated that the dance this year would serve as a trial case. If the dance is not successful, no more Junior-Senior proms will be held.

Engineers Adding Fifteenth Plaque

A Saint Patrick's day tradition which began in 1936 will be repeated Friday when mechanical engineering students lay a bronze plaque in the south arcade of the Engineering building.

At 11 a. m., the plaque, made by the students in the ME shops, is to be set in place alongside the 14 others embedded among the red tiles of the walk.

Members of Tech's chapter of the American Society of Mechanical Engineers thus will be paying homage to Saint Patrick, Don Brown, president said. The venerable apostle, more renowned for driving snakes from Ireland, is the patron saint of mechanical engineers.

Each of the plaques bears an impression of a four-leaf clover and the year in which it was laid, and each is added to the arcade on Mar. 17.

Auto Registration Begins Tomorrow In Four Buildings

Registration of automobiles driven daily onto the campus by students, faculty or employees will be held tomorrow, Friday and Saturday.

Lewis Jones, assistant dean of men, said Monday the registration is scheduled from 8 a. m. to 5 p. m. at booths in the Administration, Engineering, Agriculture and Library buildings.

Anyone who drives a car onto the campus in going to and from this school will be required to register his car, Jones said. Visitors to the college are not to be asked to give information about their vehicles, he said.

Each driver is to be given a numbered sticker which must be displayed on his auto. The registration will not entail payment of any fee, Jones said.

He gave reason for collection of the data as the fact that work on new campus buildings in the near future will bring to Tech approximately 400 extra cars owned by construction workers. An area not used by either students, faculty or staff must be designated as a parking lot for these automobiles, Jones said.

Persons who fail to register their cars by Saturday can come to Ad-110 and fill out an information sheet there, he said.

"Sculpture Lesson" Shown On Campus

"Sculpture Lesson," a series of pictures edited by Life magazine, is on exhibit in the architecture department in the Engineering building.

William Zorach, sculptor, demonstrates modeling in clay and plaster casting in a group of pictures taken by Eric Schaaf, Life photographer. The exhibit will be on display for two weeks.

Permission Given For Shirt Sales

Change in the date of the general spring election from Apr. 11 to Apr. 13 has been voted by the Student Council.

In a short regular business meeting Monday night, the council approved moving the date ahead so that the election will not be held on the day when students return from the Easter holiday. The runoff is then moved forward to Apr. 19.

Permission was granted Jim Morgan and J. W. Harris, Drane hall residents, for use of their dormitory room as an "office" for conducting sales of Packard Tailor-Made Shirts.

Margaret Clark, council secretary, read a letter from Morgan and Harris which stated that the sales were to be with townspeople and some personal friends and that individual solicitations in the dorms were not to be made.

The letter said also that advertising space in both The Toreador and The Lubbock Avalanche-Journal would be sought.

The council approved the request with the understanding that the manner of sales as set forth in the letter will be followed.

The applied arts workshop was given permission to sponsor a puppet show May 11 in the aggie auditorium. Mrs. Alan Strout, internationally-known puppeteer, will present the show.

Authority was granted Joe Haddon, assistant professor of music, to advertise the concert which will be given Saturday night by the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America.

Building Contract May Be Awarded

Bids will be opened in the Ad building Friday by the Board of Directors' building committee. New structures included in the bidding will be the Music, Science, Home Economics and Engineering buildings. The committee will study the bids and make recommendations to the entire board at 9 a. m. Saturday in the president's office, D. M. Wiggins announced.

A fifth building, an Agricultural Engineering hall, is included in the multi-million dollar expansion plan, but architects' drawings have not been completed, Doctor Wiggins said.

If contracts are awarded, construction is expected to get underway within the next 30 days, the president said. Completion dates will be governed by terms of the contracts.

Other than for the awarding of construction contracts, Saturday's meeting probably will cover only routine matters such as the approval of short leaves of absence for faculty members, Doctor Wiggins stated. So far, none of the board members have indicated they will not be present, he added.

Bids for construction of any of the new buildings will be accepted in the president's office until the 10 a. m. meeting Friday of the building committee, Doctor Wiggins stated.

Architects for the Engineering buildings were Atcheson and Atkinson of Lubbock; for the Home Economics, Haynes and Kirby of Lubbock; for the Music hall, Walsh and Hazlewood, Amarillo; and for the Science building, Wyatt C. Hedrick of Fort Worth.

FAITH AND BEGORRA!—Pretty Betty Wolcott, 1950 Tech beauty, shows her true Irish ancestry as she leans over to kiss the blarney stone in front of the Engineering building. Betty, like others from the Emerald Isle, will be celebrating Saint Patrick's Day come Friday.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under an Act of March 3, 1879.

Junior-Senior Prom...

In recent years efforts have been made to successfully carry out a theme on the Tech campus which is followed in colleges all over the country—the idea of a Junior-Senior prom. This year the event will again be staged, only this year the very existence of the dance is at stake.

With all fairness and a generous attitude toward the students involved, the Council of Deans has advised the social activities committee that if the prom should prove a failure this year as it has in the immediate past it will be discontinued entirely.

In a letter to Ralph Lacy, president of the junior class, the committee stated that, "every effort should be extended to make this one of the most important campus events." It is not their desire to end the event but if some sort of interest is not shown by the junior and senior classes as a whole they have no alternative.

This spring the prom will be held May 13. That date has been closed, with one exception, to all campus events and every possible effort is being made to insure success of one of the last and most important dances of the year.

The Junior-Senior prom is something which students will be glad to remember when they recall college days. That same prom is in danger of dying completely if it does not meet with the success it needs. The social activities committee will do its share and more. That leaves it up to you and me, junior and senior. What do we intend to do about it?

What Price Education...

Though the demand for more money to be appropriated to free public education has been heard loud and long in many quarters, it is still obvious that our schools have been sadly neglected by a war government and run over by big business.

The total national cost of elementary and high school education is 1.5 per cent of our national income, and was five per cent during the last depression. In other words your schools cost an annual sum of some 3 billion dollars. Yet the U. S. spent nearly 4 billion annually for tobacco, and, according to the U. S. Dept. of Commerce release of June 11, 1948, over 9 billion was spent during one year for liquor.

This in itself shows how the great American public values its educational facilities, for the "best dressed and most highly educated children in the world."

When we compare the salaries of the school teacher with that which the army pays, we find that in 1947-48 less than 10 per cent of our teachers got salaries of more than \$4,000 a year, yet the new pay ratings for Army sergeants will begin at \$4,147. Even the pay for army recruits begins at seventy-five dollars a year more than that which half our teachers are paid, and the army men did not have to have years of specialized training prior to this salary.

Little wonder that so few students prepare themselves to be teachers. Those who do undertake to train themselves to be teachers in public schools must accept the lowest wages while their work demands constant specialization and additional training.

Something must be done about this appalling situation before it becomes an educational crisis.

—HS-U Brand.

Smithy's Forge

By JAMES F. SMITH

After presumably extensive study, The DePaulian traced down the originators of some of our modern witticisms:

- Adam: "It's a great life if you don't weaken."
- Samson: "I'm strong for you, kid."
- Helen of Troy: "So this is Paris."
- Jonah: "You can't keep a good man down."
- Cleopatra: "You're an easy Mark, Anthony."
- David: "The bigger they are, the harder they fall."
- Nero: "Keep the home fires burning."
- Methuselah: "The first 100 years are the hardest."
- Queen Elizabeth to Sir Walter Raleigh: "Keep your shirt on."

The Daily Bruin once asked a pertinent question—"What would you suggest as an invention for the betterment of civilization?"—and received the following answers:

- 1. An alarm clock with half a bell on it, so that it wakes only one person at a time.
- 2. Lubricated peanut butter that doesn't stick to the roof of the mouth.
- 3. A revolving bowl for tired fish.
- 4. Textbooks without print for those who can't read.

Officials at Alfred university in Alfred, N.Y., once ruled that freshmen women could not have dates on Sunday evenings, and defined a date as "any casual or pre-arranged meeting lasting more than 15 minutes with a man after 6 p.m."

Editors of the Penn State college annual once decreed that senior men were not to smile when posing for yearbook pictures.

"The general tone of this section must conform to the tenor of the subject matter," they said.

Rather than marry hastily and regret it later, listen to the note of advice once issued by a dean of the DePaul school of music.

He advised college men to be sure that the women they marry can sing.

It may sound unnecessary, but demanding that your future wife be able to sing, is very practical, said the dean.

"Girls who can't carry a tune can't be expected to properly time the broiling of a steak. An unmusical girl overcooks, undercooks, and half-bakes a meal. Nothing is so unharmonious to a home as chronic indigestion," he claimed.

How to send an adequate reply to the following letter from a prospective student puzzled the registrar of a Texas school some years ago:

"As I want to patronize a good university, please let me know if one is allowed to smoke or chew on your campus grounds."

"Thanking you for the prompt reply, as I stand in wait for same."

(Well, what would you have answered?)

The boner pulled by a University of Minnesota freshman who wanted to know "what building the campus is in" was bad, but the one made by an adult visitor to the University of Cincinnati was worse.

A professor took the trouble to conduct the visitor over all the campus and finally to the football stadium.

"This," exclaimed the faculty member, "is our stadium!"

Impressed, the visitor studied the grounds for an instant and turned to the professor, saying, "This is all very nice, but I hear you have a fine curriculum here. Would you take me through that next?"

Committee Invites Applications For Publications Offices

Notice is hereby given to the Student Body of Texas Technological college that the Publications committee of the college, through its student chairman, Bill Trenfield, will accept applications for editor and business manager of The Toreador and editor and business manager of La Ventana for the 1950-51 school year.

The above announcement marks the first time which the amendment voted into the student constitution last spring will be put into action. Heretofore the publications offices have been filled by a general vote of the students in the regular spring elections.

However, the new amendment sets the following regulations concerning the offices: "The editor of The Toreador will be chosen jointly by the following student and faculty members of the Publications committee. (1) A student representative from each division (2) Student chairman of the Publications committee (3) Faculty sponsor of The Toreador (4) Faculty chairman of the Publications committee who is granted a vote if necessary to obtain a proper majority. Not less than two weeks before April 1, formal notice must be made in The Toreador inviting applications for the position of editor.

"The current editor of The Toreador shall submit three names of candidates whom he considers best qualified. The faculty sponsor of The Toreador shall submit three names of candidates whom he considers best qualified. Names of the suggested candidates and letters of application from all candidates, including the suggested candidates, who desire to be considered, shall be received not later than April 1.

"The editor shall be selected before the expiration of thirty days following April 1. Five votes shall be required to elect with a quorum of seven members present."

The above was taken from Article VII, section 704 of the student constitution.

The editor of La Ventana and the business manager of both publications shall be selected in a like manner.

To be eligible for any of these offices a student must have a one point grade average and in the case of business managers must have passed at least 60 semester hours prior to the semester in which he is elected.

For editor of The Toreador a student must have nine hours credit in the journalism department including one semester's work on The Toreador staff and must have passed 90 semester hours prior to the semester in which he is elected.

"Barbershoppers" Plan Extra Program; Proceeds To Start Music Scholarship

Tickets are now on sale in the Administration building for a special show of barber shop quartets to be held at 2:30 p.m. Sunday in Lubbock High school auditorium. Featuring outstanding quartets of the nation, the show is to be sponsored by the SPEBSQSA, Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America, said Joe L. Haddon, assistant professor of music.

This is to be a special show by the quartets who appear on the Parade of Quartets scheduled to be in Lubbock Saturday night. The groups are being held over for the Sunday afternoon appearance, money from which will go to the music department for foundation of a scholarship, Haddon said.

The program will include the Varsity Four from Pardue, Beau Jesters from Dallas, Flying 'L' from Tulsa, Okla., Pipe Liners from Wichita Falls, Note-Abies from Lubbock, Plainsmen from Lubbock and the Tech Male Glee club.

The featured quartets have appeared on parades all over the Southwest, and are all prize winners, Haddon said. They will sing modern and ultramodern arrangements for quartets, as well as old-style barber shop songs and negro spirituals. Presentations will be of both serious and comic nature, and many of the groups will appear in costume.

Tickets will be \$1 and seats will be sold to those who come first, said Haddon. The scholarship set up by this show is to be a permanent one. The person will have to have a B average and come to the department highly recommended, he added, but other requirements have not been decided.

Thursday, Friday and Saturday one of the quartets will appear in all dormitory dining rooms at meal times with a preview of the program. Some of the visiting groups will sing in front of the Administration building between classes at 10 and 11 a.m. Saturday.

In addition to the Administration building booth, tickets may be obtained from members of the Mixed Chorus, Male Chorus and Band. Students on the campus wearing placards advertising the event, will have tickets for sale.

College Club Initiates 10; Terry Voted Best Pledge

Ten new members have been initiated into College Club, Dean Alalam, club president, said.

Initiates are: Sidney Burleson, Curtis Coxon, Charles Johnson, C. B. Nichols, Kenneth Pharris, Davis Porterfield, Richard Rector, Jack Shelby, Glen Terry and Wendell Wagley.

Terry was voted best pledge by the members.

Dean W. L. Stangel will be interviewed by Phil Nickell on the School of Agriculture Saturday morning over station KSEL. Dean Stangel will answer questions on the advantages of agricultural education. Announcer for Saturday's program is John Christopher.

Delta Sigs Launch Program Designed To Help Pledges

Delta Sigma Pi, honorary business administration fraternity, has launched its big brother-little brother program, Bobby Green, historian, said.

The program is designed for the benefit of the fraternity's pledges during their period of pledgeship by helping them with problems which may arise. A second purpose of the plan is the promotion of a closer affiliation between pledges and members, he said.

The groupings have been announced as follows, with the name of the big brother listed first: Norman Morrison, William T. Aaron; Adrian Stevens, Eldridge Barnhart; James Niver, Marvin Bones, Tommy Jamison, James Butler; Louis Kiker, Homer Clements; Wayne Lee, Bjll Collier;

Raymond Hall, Nick Columbetti; LeRoy Ogden, Jack Durham; Eugene Reno, Bill Evans; Gordon Heard, Bobby Garner; Bob Berry, James Gideon; Gale Rodgers, Herbert Graf; Buddy Crutchfield, Foster Henderson; Wendell Wagley; Howard Howell; Kenneth Durbin, William Kerr; Pat Kidd, Lowell Matthews;

Jimmy Hall, Burton Myes; Austin Chiesman, Kenneth Nesbitt; John Gillespie, Kenneth Pharris; Kenneth Hobbs, Jerry Payne; Ronald Rushing, Harold Rumpy; Land Wall, Lowell Slaton; C. D. Wickson, Charles Taylor; John Heagy, Harold Walthall; Keith Schier, Wilson Youngblood; and R. L. Van Norman, Joe Cowan.

James G. Allen Attending Deans' Meeting In Virginia

James G. Allen, dean of men, is attending the annual meeting of the National Association of Deans and Advisors of Men in Williamsburg, Va. The meeting will be held Tuesday through Friday.

Largely to be a workshop conference, the theme of the meeting is to be administration. Dean Allen will serve as an expert on the workshop on student government.

He also plans to serve with several others on a committee to make a record on health service. This record will be played to all representatives at the meeting, at a time convenient to them, the dean said.

Esther Sorensen Will Speak To Midland Teachers Meet

Miss Esther Sorensen, district supervisor of the board of education, will be main speaker at a joint meeting for vocational education teachers Friday at Midland.

"Home Life in Europe" will be the topic of her talk which she will illustrate with colored slides made last summer. Miss Sorensen is to emphasize living, agricultural and educational conditions as she observed them.

Coeds Eligible For Honorary Club Must Sign In Dean Walker's Office

Any woman student who has not received an invitation to pledge Alpha Lambda Delta, national honorary society for freshman women, and who thinks that she is eligible for membership, sign in the dean of women's office today or Monday, Elizabeth Schovajsa, president, has announced.

To be eligible for membership, each woman must have made a 2.5 average for the fall semester or for the fall and summer terms combined.

STUDENTS CONDUCT SERVICE Three students took part in bringing the regular worship service Sunday night as the Tech Baptist Student union launched its weekend youth revival program.

The program is under the direction of George Morris and Jim Berry, and other Baptist students are taking part. The group hopes to take services to other area churches.

Taking part in the program Sunday were Kenneth Shipp, who preached; Morris, who conducted the singing; and Miss Berry, who served as pianist.

Architect Classes Show Modern Designs At Library

A cross section of architectural design courses is on display in the main halls of the Library. Compiled from sophomore through senior design classes, the material was considered the best design plates by the department faculty.

Some of the drawings are of two bedroom houses, street fronts, a court house lobby, an archeological field headquarters and museum, and a motel.

Mrs. Margarette W. Walker, dean of women, sang three numbers at a meeting of Lubbock Women's club last night. Her program consisted of "Widmung" by Schumann; "Traun Durck Die D'ammerung"; Strauss; and "Recit et air De Lia" from "L'enfant Prodigue." Debussy.

New Mexico Artist Will Lecture Friday

Peter Hurd, New Mexico artist, will visit the campus Friday. The Art Institute has invited Hurd to Tech in connection with an exhibition of his paintings in the Museum.

A native of the Southwest, the artist's preference seems to be for landscape and portraits typical of this locality. During the war he ministered in Europe with the Eighth Air force.

The Art Institute will hold a reception for Hurd from 8 to 10 p.m. Friday in the Museum. Members of the institute and their guests are invited to attend.

Dean W. L. Stangel Judges Cattle In Florida Stock Show

W. L. Stangel, dean of agriculture, will leave for Bartow, Fla., Tuesday to judge Brahman cattle at the Imperial Livestock show.

This will be Dean Stangel's first trip to Florida to judge. He has judged cattle in Missouri, Kansas, Oklahoma, Louisiana, New Mexico, Colorado, Illinois, California, Mississippi and Texas.

He was the first judge of Brahman cattle at the Fort Worth Exposition and Fat Stock show in 1948.

Darkroom equipment has arrived and been installed by the dorm organization of Men's Dorm IV and as soon as procedures can be worked out the room will be opened to all members of the organization, Earl Mizell, dormitory supervisor, announced today.

CROSS-LEE GETS TWO—Bob Smith, rangy center for the Cross-Lee intramural five, goes into the air to chalk up two points for his team during the independent intramural championship game Monday night. Jim Morgan of the Quintessence Quintet tries in vain to block the shot as Al Shepherd of Cross-Lee, Bob Luginbyhl of the Quintet and referee "Smoky" Hale look on. The Quintet won the game and the title. (Photo by Bob White.)

Intramural Cage Title Game Set

Squirrel Shooters Clash With Quintet

The Quintessence Quintet, intramural independent champs, will meet the Athletic Dorm Squirrel Shooters, intramural dormitory champs, at 8:15 p.m. tonight in the Tech gym for the intramural cage title.

The Quintessence five won the right to play the footballers by defeating Cross-Lee in the playoffs Monday night 34-22. Cross-Lee played a disappointing game as it was outthrust by a tall Quintessence band. The Quintet led 22-10 at half-time and held that same 12-point lead right down to the wire. The Cage Lions looked poor on their shots and passes and failed to live up to pre-season expectations.

Leroy Morrison of the Quintet turned in the top performance of the night as the Cross-Lee men failed in stopping his quick pivot shot. Morrison dumped 15 points for individual scoring honors. Jim Morgan scored 6 points for second place. Weldon Viertel with 5, Gene Verner with 4, Bill Solomon with 3 and Bob Luginbyhl with 1 point completed the Quintet scoring column.

The scoring duel between Morrison and Cross-Lee's J. C. Boucher failed to materialize as Boucher suffered an off-night and hit only 3 points. Bob Smith led the Cage Lions with 6 points and was followed by "Raz" Hilton with 4, Bob McNeill with 4, Boucher with 3, Don Knoll with 3 and Jim Hilleman with 2. Al Stevens, Cross-Lee guard, played several minutes despite two torn ligaments in his leg—an injury received in an inter-league scrimmage with Kemas only four nights earlier.

The American Institute of Industrial Engineers will go to Houston Apr. 4, for a four-day visit to manufacturing plants. C. C. Perryman, professor of industrial engineering, said. Plans were made for the annual trip in the AIEE meeting Monday.

Church—

sen's topic Tuesday morning. "Christianity has a good news to prove to all men. This good news is based upon the initiative of God," he said.

"There is a total gospel," Reverend Homrighausen continued, "that not only is for the soul, but for the mind, body, heart, and in a social sense. This gospel also offers a life to man, not only in life, but in eternity. A gospel such as this satisfies every human longing—for security, for power to life, fellowship and truth," he added.

The Willson lectures were begun by an endowment set up by Mr. and Mrs. Willson to sponsor lectures by national renown speak-

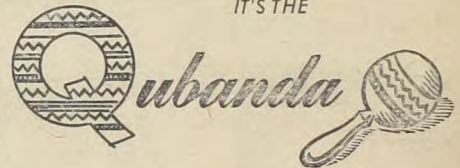

ers in the fields of science and religion. Dr. Louis Hadley Evans, minister of the First Presbyterian church, Hollywood, Calif., was the Willson lecturer last year.

Doctor Homrighausen is minister, lecturer, conference delegate, church officer and author. He received his bachelor of arts degree from Mission House college, Plymouth, Wis. in 1921 and that of bachelor of theology from Princeton Theological seminary in 1924. His other degrees include master of arts from Butler university, master of theology and doctor of theology from the University of Dubuque.

At each presentation, the Texas Tech band and will perform, and the mixed choir will appear under the direction of Dr. Gene Hemmle, professor and head of the department of music.

IT'S THE

A sensational sport shirt that doubles as a short sleeve pullover jacket. The new shirred lastex waist band is wonderfully comfortable and practical. Tailored in rich-looking, tropical gabardine with flap pockets. Colors: aqua, luggage tan, grey, and maize. Easily washable.

"New Masonic Building"

Across The Dam

Fourteen years ago just after the Texas Tech grid team had upset the TCU Horned Frogs a sports scribe mused—

"Slinging Sammy Baugh was stopped cold in his tracks, possibly because he didn't have a line in front of him this year. Other possibilities crop up on the 'probably' business. Does Sammy have a swelled head? If he has, the Tech boys took advantage of it. If he doesn't have, the Tech boys certainly tried to give him one. If neither of the above remarks fit the case the Tech players made monkeys out of themselves. But who can tell?"

"Maybe Pete Cawthon, that crafty mentor of the Raiders, can, but he probably won't. At first the fans didn't notice a play that was being enacted in front of him. That play wasn't about the football game. After each play some Tech player, not always the same one, would rush up to Baugh and pat him on the back and say something. Were they telling him how good he was? Were they trying to get him on his vanity and make him over-confident? Were they really worshipping the passing star? Were they trying to play up to Baugh? Who knows?"

Intramural Softball Begins Here Today

Intramural softball begins this afternoon. George Philbrick, intramural sport director, announced. Games will be played on the diamonds north of Tech gym, Philbrick said.

Play will be governed by regular softball rules. A decision made by team managers attending a meeting Saturday stipulated that play is to be stopped at 6 each afternoon. The score will revert back to the last completed inning. If the team managers wish, they may agree before each game to let the score stand at the total attained by 6 o'clock instead of having to revert back to the last completed inning.

The greatest depth of the Pacific is 35,400 feet. This depth is found off Mindanao. The average depth of the Pacific is 14,048 feet. It covers 63,801,700 square miles.

Robert I. Lockard, associate professor of architecture, will leave for El Paso Friday where he will speak to the Texas State Teachers' association. "Modern Trends in Art" is to be the topic of his talk.

Sports Panorama By SPORTS STAFF

Jiggs Jackson, senior guard from Monument, N. M., proved to have one OF THE MOST unerring free throws in the nation this year...

Prognostications may not be in order so early in the season, but nevertheless we shall hazard the following guess. The MCCC cage season shall end with the Silver Key quint being crowned champions...

Bob McNeil, Cross-Lee intramural basketballer, has won a distinction that is shared by few players in cage history. McNeil fouled out of a League II ASCE-Cross-Lee clash with only three fouls...

McNeil, early in the third quarter, had picked up three fouls, two of which were double fouls. The scorer reasoning in a syllogistic manner concluded thusly: the player had two double fouls, double means two, two and two are four, and four plus the single violation equals "out goes you old dirty basketball player"...

Charley Parker, Texas university trackman, got off to a flying start this winter year with brilliant dash performances in the Border Olympics. Parker, one of Texas' greatest schoolboy undermen, has considered his past three seasons at the university disappointing, and really started this year with a vengeance...

Silver Keys Maintain Lead In MCCC Intramural Play With Win Over Kemas

Silver Keys have taken a slight edge in MCCC play by turning in two victories including a win over a strong Kemas five during the past week. Other undefeated social club basketball teams are Wranglers and College Club.

In the battle of the week, Silver Keys took the role of favorites by edging the pre-season favorite Kemas team 37-35. Joe Wheatley, Tech netman, led the victors with 17 points as they came from behind to topple Kemas. George Belchiff scored 16 points for the losers.

Silver Keys took an easy 44 to 28 win from Socii earlier in the week with Wheatley dunking 14 points, Weldon Wells scoring 10 and Sam Davis making 8. Dan Ritter was high for the losers with 10 points and Dick Buckles followed with 7.

Kemas Beat Los Cams Kemas defeated Los Cams 37 to 18 Thursday as three men battled for team honors. David Leaverton, Rudy Whetstone and Joe Stoltz led Kemas with 6 points each. Weston Kennedy was high for the Cams with 4 points.

College Club coasted to an easy win over the Centaurs 39-18, with Bill Bales and Dennis Bingham leading the way making 16 and 10 points respectively. Walter Buice and Dean Allam aided the College Club cause with 5 and 4 points. Jim Roop and John Huckabay each scored 4 points for the losers.

Socii after trailing 11-12 at half-time outscored the Centaurs 27-18 in another MCCC game. Donald time due to a wind advantage exceeding the allowed velocity.

Both the showing of Arizona and their star forward, Leon Blevins, in their NCAA clash with La Salle were surprising. Arizona, while losing, showed a class that caused a few raised eyebrows, but Blevins' performance was somewhat of a disappointment. He did not show the point making ability that made him runner-up in the Border conference individual scoring race. Leo Johnson and Bob Honea sparked the Arizona Wildcats with 17 and 16 points respectively.

Pope was high for Socii with 7 points and Jim Small and Travis Tadlock each scored 5 points. Huckabay scored 7 points for the losers.

Three Games Thursday Wranglers won their second straight by clipping the Cams 27-18. Dan Page led the Wranglers with 14 points and Tom Palmer made 7. David Rathjen scored 6 for the Cams.

Three games are scheduled for Thursday night and three for Friday night. Silver Keys meet the Wranglers at 7 p.m. Thursday in the battle of the undefeated; at 8 o'clock the Centaurs meet Los Cams; and College Club takes on Socii in the Thursday nitecap. Friday, Silver Keys meet College Club at 7 p.m.; Socii meets Los Cams at 8 p.m.; the Wranglers meet Kemas at 9 p.m.

Tech Trackmen Enter Field Meet Friday, Saturday

Red Raider trackmen open their 1950 track season Friday and Saturday when they enter competition in the Southwestern Track and Field exposition in Fort Worth.

The names of the men making the trip have not been released, but it is expected that Tech will send representatives to enter the 100-yard dash, 220-yard dash, 440-yard dash, 800-yard run and mile relay. Tipp Mooney, coach of the team, said that two freshmen tracksters will also make the trip.

Time trials, to determine what men should make the trip, were run last Thursday. Moon Mullins, Border conference 100-yard dash champ from Ackerly, stepped the century in 9.9. Mullins also showed the way in the 220-yard dash with a time of 22.2. Ben Wilson, half-miler from Lubbock, had the best time in this event with a 2:07 clocking. Joe Wilson, quarter-miler from Claude, ran the 440 in 53.5.

Tech has entered the university division of the meet along with such schools as Arkansas, SMU, Hardin-Simmons, Oklahoma A&M, TCU and Texas A&M.

Training Features Hard Scrimmage As Footballers Begin Work In Earnest

By BILLY YOES Toreador Sports Writer

Although there is not much at stake, scrimmages have been plenty rough and rugged in Tech's spring football drills which are now under way.

Drills started last Tuesday and the first few days were a conditioning period. The first scrimmage was held Saturday afternoon with over 60 players getting in on the workout. The squad looked rusty and ball handling was not too smooth, but this was overshadowed by the amount of spirit and hustle the men displayed.

Big Earl Jackson, fullback from Phillips, showed up well as he shook loose for long gains several times. Another fullback, J. W. "Duck" Thompson of Odessa also made an impression with his hard running and good blocking.

Tackles Look Good Other backs giving the impression that they are going to be hard to keep out of that starting lineup next fall were Tim Hatch, Bobby Close and Ike Stuver. Others showing up well were Denton Lambert and Bill O'Grady.

All four tackles looked good as they opened up some large sized gaps in the opposing forward wall. Jerrell Price, Hollice Davis, Marlan Ribble and Doug McSwane held the four tackle positions.

Bobby Garner was outstanding guard with his fine blocking. Other guards showing up well were Jack Cockburn, Buddy Barron, Bill Glidwell and Don Gray.

Practice Game Set Center position looked well under control with such men as "Red Phillips," Jimmy Williams, and Bob Hix handling pivot chores.

Plenty of good ends were on hand to handle flanking positions. Bill Sharpley, Dick Cavazos, Elbert Johnson, Jack Davis, Dick Pirtle, Frank Farrow, Jim Clark, Alton Linnie, Lou Crossley and

James Thams looked good at end spots.

The quarterback slot is another question. The down-under position is probably the weakest on the squad. Several contenders are making their bids for the job with Junior Arterburn, Albert Salem, Shaff DeGaiha, Don Seale, John Moughon and Carl Madison as leading contenders.

Drills will be climaxed by a regulation intersquad practice game April 12.

"Meet Miss Phi U" Is Program Theme Of Home Ec Group

"Meet Miss Phi U" was the theme of a program given by members of Phi Upsilon Omicron, honorary home economics fraternity, for the Home Economics club meeting Tuesday evening. Angela Rattan, president of Phi U and program chairman of the evening's entertainment, gave the history of the organization and installation of Tech's Omega chapter.

Mamie Lou Welch, Friona senior, modeled an original Guatemalan skirt made by a textile factory founded by Louise Ohlenbusch, Tech graduate, and discussed graduates engaged in unusual occupations.

Mrs. Agnes Hicks, former Phi U, introduced Dorothy Harbaugh, gave a talk about the newly formed HE exes group in Lubbock, of which she is chairman. A sketch of last year's graduates was also given.

Requirements for Phi U membership were presented by Virginia McAnally. The program was closed with group singing.

Faculty advisors for the program were Dean Margaret W. Weeks and Miss Martye Poindexter, head of applied arts.

Agriculture Division First Housed In Present Judging Pavilion; Stangel Recalls First Class

By MARY VESTAL
Toreador Staff Writer

W. L. Stangel, dean of agriculture, started his first class in animal husbandry at Tech by teaching his students to make a rope halter for a mythical cow. The theory was that before you can handle a cow you must have something with which to lead her. This was in 1925 and the agriculture buildings consisted of one stock pavilion—period. Officers for the faculty were in the Home Ec building. There were no animals to use for class instruction in cattle judging.

At the second meeting of the class, Dean Stangel had located an animal. A man on Main street had a sick Hereford cow tied in his backyard. The class in animal husbandry compared her with the ideal cow and learned about judging the hard way.

At present, Tech has approximately 800 animals which are used in class instruction.

Born In Wisconsin

Dean Stangel was born in Stangeville, Wis., named for his family. The Stangel family moved to Texas in 1897. He graduated from Northside High school in Fort Worth in 1910.

In his senior year at Northside, Dean Stangel was president of his class. He organized the first football team at the school and was elected its captain.

He received his BS from A & M in 1915. He worked his way through college and spent his summer working on a horse farm in Illinois. The job he took in his sophomore year and kept all the way through college was taking care of the horses in the animal husbandry department.

Because of his jobs, he did not have time for varsity football but he was active in intramural football. He was manager of the champion intramural football team in his senior year and was captain of the intramural baseball team. He was selected as the quarterback of the year for the intramural football team and the members of that team elected him captain.

Attended A&M

That year he was also president of the Scientific Agricultural Association and the Fort Worth club.

In his junior year, he was sports editor of the "Battalion," the A & M college paper.

Dean Stangel was on the Junior Livestock Judging team and was high man in contest that year. He also made the International Livestock Judging team.

Upon his graduation from A & M he was awarded a graduate scholarship at the University of Missouri and received his MS there in 1918.

The next fall he returned to A & M as an instructor in the animal husbandry department and remained there until 1925 when he came to Tech as head of the animal husbandry department.

As an instructor at A & M he coached the livestock judging teams. His team was the international champion team in 1919. He remained head of the animal husbandry department here until

1948 when Ray C. Mowrey succeeded him. He was made dean of the agriculture division in 1945.

Director Of Hereford Association
He is the past president of Panhandle Plains Dairy association, Texas Holstein-Friesian association, Kiwanis club, and National Block and Bridle club.

He is director of Texas Hereford association, Texas Aberdeen-Angus association, National Farm Life Insurance company, and Agriculture Workers Mutual Auto Insurance company.

In July 1935 he was given a leave of absence from the college to serve as manager of livestock exhibits at the Texas Centennial. He returned to Tech January 1, 1937.

He has served in an official capacity at the Fort Worth Exposition and Fat Stock shows since 1921 and he has been general livestock superintendent at the state fair since 1946.

Dean Stangel says that he has judged every livestock show of importance in Texas and has judged shows in Missouri, Kansas, Oklahoma, Louisiana, New Mexico, Colorado, Illinois, California and Mississippi. Florida may soon be added to this list.

Conducted Experiments

During his career at Tech he has been a leader in thirteen beef cattle experiments and six sheep experiments. The sheep experiments were done in cooperation with the Texas agricultural experiment station at A & M. Results of these experiments were published in the bulletin put out by that department.

Dean Stangel is the agriculture chairman of Division 6 of the Texas-Oklahoma district of Kiwanis International. He is also director of farms for the college. This includes 17,000 acres of land near Amarillo called Pan-Tech farms and about 2,000 acres near Lubbock.

Dean Stangel holds membership in Gamma Sigma Delta, honorary agricultural fraternity, American Society of Animal producers, American Association for Advancement of Science, several livestock associations and is an honorary member of Phi Eta Sigma, honor society for freshmen men.

He is a member and a deacon in the Baptist church and was formerly president of the downtown Bible class.

For relaxation he plays golf and shoots in the low 90's. He also collects livestock pictures, books and periodicals.

Married In 1920
He married Ruth Canon from Jacksonville in 1920. They have

Honor Society Will Hold Services For New Pledges

Alpha Lambda Delta, national freshman honor society for women, will hold services for 20 new pledges at 5 p.m. tomorrow in the HE building.

Those to be initiated as pledges are Paula Grimes, E. Jean Mobley, E. Jean Verett, Jane Austin, Nancy Davis, Janice Fahie, Joan Ross, Coleen Baldwin, Frances Cox, Juanita Davis, E. Ann Hollingsworth, Sally M. Larson, Eloise Mann, Ima Jean Martin, Ellen Massengill, Anita Pope, Kathleen Kilpatrick, Wanda Rose, Joyce E. Sprague and Wanda Vowell.

Membership requirements are a 2.5 grade average for either the first semester of the freshman year or for the first and second semester of the freshman year combined. The student must be taking at least 12 hours.

The purpose of Alpha Lambda Delta is to promote intelligent living and a high standard of learning and to encourage superior scholastic attainment among freshman women in institutions of higher learning.

Marketing Class To Prepare Display

Preparing window displays for Cobb's department store will be the project for students of display, Dr. Howard E. Golden, associate professor of marketing, said.

Fourteen window displays will be

DFD Pledges Feted With Tea Saturday

DFD social club honored new pledges and patronesses with a tea given from 3:30 to 5:30 p.m. Saturday in the home of Mrs. Oscar Nislar, club patroness. The receiving line was composed of Mrs. Nislar and Mrs. Ted Waldrop who welcomed the guests. DFD colors were carried out in the decorations. The centerpiece for the table was an arrangement of yellow jonquils and blue iris.

Spring pledges who were honored were Patty Blanton, Susan Cooke, Sherrill Floyd, Rose Lane, Elizabeth McCain, Georgia Porter, Marlow Williams, Diane Wimberly, Peggy Wright and Merle Wright.

New club patronesses, guests of honor, are Mesdames R. O. Bennett, Riley Coats, J. P. Gibbins, Claude Keeton, Hugh McKelvey, Oscar Nislar, Winston Reeves, and Gerald Smith. President of the patronesses is Mrs. F. W. Groce.

A movie, "Green Grass of Wyoming," will be presented at 8 p.m. Friday in aggie auditorium. The movie is a continuation of the Recreation hall program.

set up by the students, who will later arrange an entire display without supervision, Robert Friedberg, instructor in marketing, stated. J. C. Monroe, Cobb's display manager, is to supervise the work. "Since Cobb's is a new store in Lubbock, this project will be especially valuable to the students, as they will assist in the initial selection of materials and equipment for making the displays," Doctor Golden said.

Sophomore Dance Will Be March 31; Favorites Named

Presentation of sophomore favorites will highlight the annual sophomore hodge podge dance to be held Friday, Mar. 31, in the Green room.

The success of this dance is dependent upon the interest and generosity of sophomore students, Bob Schmidt, president, said. A financial drive is underway, and each member of the class is expected to contribute 50 cents to pay for his expenses, he said.

Those appointed to the committee which will take charge of collecting money are: Ronny Fee, chairman; Janet Crandall, Women's Dorm IV; Shirley Harris, Women's Dorm III; Anne Eskin and Wanda E. Smith to collect in town; Don Hart, Men's Dorm IV; Donald Christian, Men's Dorm III; Morgan Eoff, Book hall; Ben Carter, Drane hall; Glenn Berry, Snead hall; and Charles Joplin, West hall. These students have receipt books and will give each sophomore a receipt for his 50 cents.

The dance, carrying out a spring theme, will be open to the public. Phil Kligman's orchestra has been contracted to play. Admission is not yet known, Schmidt said.

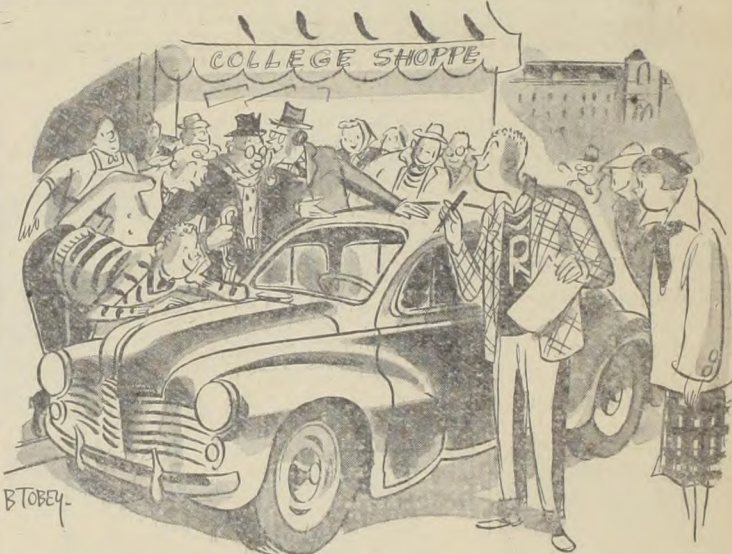

AWNS TO ELECT OFFICERS

Election of officers for the Association of Women Students will be held tomorrow.

Booths are to be open from 8:15 a.m. to 3:15 p.m. in the Administration and Home Economics buildings. Doris Ball, reporter, said yesterday.

Nominations for candidates were made at a convocation Monday afternoon in the aggie auditorium.

Candidates are: for president, Charlotte Ritch, Fannie Beth Allen and Guida Miller; for vice president, Rachel Dunaway and Mary Stanford; for secretary, Janet Crandall, Ann Tidball, Billie Stacy and Freeda Harwell; for treasurer, Pat Findley and Sue Carleton; for reporter, Jerry Freeman and Phyllis Herrington.

College Club Will Open Spring Season With Sport Dance Friday

College Club, oldest men's social club on the campus, will open the season with its twenty-first annual spring sport dance from 8:30 to 11:30 p.m. Friday in the Lubbock hotel. Decorations will carry out a St. Patrick's day theme. Music for dancing will be provided by Phil Kligman's orchestra.

Members and dates to attend are: Dean Allam, Betty Allam; Sid Eury, Betty Norman; Curt Coxon, Dorothy Brown; Jack Douglas, Dale Langford; Allan Dunbar, Peggy Dunn; Vernon Evans, Helen Ohlenbusch; John Gillespie, Jan Howard; James Hargrove, Dixie McGeehee; Tommy Jamison, Billie Little; Charles Johnson, Mary Lou Moore; C. B. Nickels, Carleen Irby; Bob Norris, Gara Gary; Robert Pfinger, Shelley Furr; Kenneth Pharris, Margaret Israel; Gene Probasco, Peggy Garisan; Dick Rector, Sue Carlton; Jack Shelby, Loraine McCloud; Spencer Street, Marilou Williams; D. C. Stubbfield, Donna Cunningham; Glen Terry, Sherrel Floyd; Wendell Wagley, Wanda Vowell; Dick Whiteley, Duane Wilson; Loy Wylie, Frances Gibbins.

Pledges and dates who will attend are: Joe Barceley, Sue Baker; Fred Byrley, Lucy Womack; Walter Buice, Claudine Young; Bill Bumpass, Joan Connelly; Claude Caperton, Frances Cox; Bob Coen, Chloe Ann Herrin; Bo Deaton, Lucille Seybold; Jack Eubank, Norma Everett; Billy Perkins, Joyce Pickrell; Scott Poage, Joan Bethel; Royce Smith, Mary Roberts; John Strubbling, Hattie Ohlenbusch; Ray Tomlinson, Forreline Crowley.

Other pledges attending will be: Dennis Bingham, Bryan Close, Sammy Dibrell, Bill Fite, Joe Jay, Charles Smith and Neil Wood.

NEW OFFICERS—In formal services conducted Friday evening at the Hilton hotel, these officers of Phi Gamma Nu, national honorary business sorority, were installed. Front row, left to right: Irma Rae Beaver, scribe; Annie Jo Wood, Association of Women Students representative; Alice Adams, president; Lee Doris Spector, secretary; and Virginia Prince, pledge captain. Back row, left to right: Mrs. Ethel K. Terrell, sponsor; Margaret Ford, treasurer; Dotsie Stephenson, vice president; Doris Hollis, parliamentarian; and Miss Cureton Harris, sponsor. (Photo by Vee Davis.)

Business Sorority Initiates Members At Formal Services Friday Evening

Phi Gamma Nu, national honorary business sorority, initiated thirteen women as members in formal services held Friday evening at the

Hilton hotel. New officers in charge of the ceremony were Alice Adams, junior from Odessa, president; Dotsie Stephenson, Ft. Stockton junior, vice president; Lee Doris Spector, senior from Borger, secretary; Margaret Ford, Morton junior, treasurer; Doris Hollis, Poolville junior, parliamentarian; Virginia Prince, senior of Lubbock, pledge captain; Irma Beaver, senior from Levelland, scribe.

New members initiated were Lucille Cook, sophomore from Josephine; Tommie Campbell, Wellington junior; Shirley Fields, Abilene junior; Vee Davis, junior from Houston; Margaret Israel, Levelland sophomore; Jo Johnson, San Angelo sophomore; Barbara Moss, sophomore from Denver City; Carolyn Parker, Amarillo sophomore; Jamie Reagan, Amarillo junior; Juana Smart, sophomore from Canadian; Bonta Vance, Shallowater sophomore; Gwendolyn Wilkinson, sophomore from Whiteface.

Phi Gamma Nu requirements for membership are a 1.5 overall grade point average and the woman must be in the business administration division.

SOCIETY

Society Scramble

By GUIDA MILLER

With the coming of spring sport dances, coeds will have a sigh of relief, for much of the 24-hour preparation routine will be dispensed with. Yes, fellows, despite what your date would have you believe, that bandbox look is not casually accomplished.

Preparation begins the morning before the dance with such routine tasks as hair-washing and dress-pressing. The afternoon is spent in polishing fingernails and toenails and sharing the hair drier with those unfortunates who do not own one. One necessary part of getting ready for a dance is assuming the right mental attitude about the evening to follow. This cannot be accomplished individually; there must be at least two persons present when "adjustment process" takes place. The ensuing conversation is typical.

"I'd just as soon stay at home tonight; I haven't a thing to wear!"
"You should complain! My date will probably send me pink petunias to go with my red dress!"
"At least you'll get a corsage of some kind. Last time I didn't even get one. I was never so humiliated!"

"My new sport haircut looks awful with that strapless dress. It makes me look like an ostrich."

After one is fully convinced that she will have a wonderful time and that she is about to embark on a glorious adventure where she will be the "belle of the ball," there comes the serious business of dressing for the dance, a process

Eurl Hubbard's orchestra will play for a Rec hall dance at 8:30-11:30 p.m. Saturday.

Doak hall organization has formed a couple club. Dances are to be held at 8:30 p.m. each Friday in the lounge, Dave Miller, president, announced today.

Las Vivarachas To Initiate Members At Country Club Ceremony Today

Las Vivarachas, women's social club, will initiate eighteen members in a formal ceremony at 6 p.m. today at the Country Club. Following the service, the club is to celebrate its twenty-second anniversary with a Founder's Day dinner. Alumni and Club patronesses will be guests of honor.

Those to become members are: Clodette Baker, arts and sciences freshman from Colorado City; Jo Bullock, sophomore arts and sciences student from Cushing; Betty Jo Corcoran, arts and sciences sophomore from Lubbock; Virginia Corcoran, home economics freshman of Lubbock; Elizabeth Dalton, junior journalism major from Colorado; Pat Edwards, freshman arts and sciences student from Fort Worth; Betty Formby, arts and sci-

ences sophomore of Lubbock; Beth Gregory, freshman arts and sciences student from Fort Worth; Billie Hutchings, arts and sciences senior of Lubbock; Mary Janet Johnson, freshman arts and sciences student of Lubbock; Helen Ohlenbusch, Roscoe home economics freshman; Joan Pickle, arts and sciences sophomore from Odessa; Charlotte Powell, freshman arts and sciences student from Denver City; Marcia Rogers, Lubbock arts and sciences freshman; Mary Jane Royston, arts and sciences freshman from Bastrop; Dora Beth Stephens, sophomore arts and sciences student from Alice; Shirley Schmidt, Post arts and sciences freshman; De Aileen Ward, junior business major from Dumas.

Speech Students To Judge Debates

Tech students from the speech department will judge the District II Interscholastic league debate and declamation contests to be held at Lubbock Senior High school Saturday, Miss Annah Joe Pendleton, head of the speech department, announced today.

Judges for the debate contests will be: Jeannette Battey, junior, Mrs. Shirley Cummings, senior, Janet Moore, senior, Gerald Sanders, graduate, Margaret Clark, senior; Mrs. Wynelle Rippstein, senior; Anna Bell Wilson, sophomore; Billie Hutchings, senior; Earline Rodgers, graduate; Mrs. Jackie Jarrett, graduate; Mrs. Lillian Gilbert, junior; Robert Steely, senior; Herbert Graf, senior; David Blackbird, sophomore; and David Pinson, junior. Janet Moore, Gerald Sanders and Margaret Clark will assist in judging the declamation contests.

Drane hall will hold its annual spring informal dance from 8:30 to 11:30 Friday night. It is sponsored by the Drane Hall Dorm Association and music will be furnished by Ted Crager's orchestra. All students are invited to attend, and tickets are \$1 stag, \$1.50 couple, and 75c for Drane hall residents who are not members of the dorm association.

Registrar Announces Regulation Concerning Admission Of Transfers

By CHARLOTTE BLACKBURN
Toreador Staff Writer

New admission requirements for transfer students which will go into effect in September 1950, have been announced by W. P. Clement, registrar. The new requirements are the result of the report of a faculty committee studying the subject.

Undergraduate students who have attended another college and have an honorable dismissal will be admitted to Tech upon presentation of an official transcript meeting the new entrance requirements, which are somewhat less strict than former ones, he said.

Formerly, all transfer students had to have a C average, but these requirements have been lowered somewhat, in line with requirements of other colleges in the state, Clement said.

Regulation Given

The regulation applying to new students states: "A student taking 12 or more semester hours must, if a first year student, pass in at least 9 hours and make 3 or more grade points; if a second year student, at least 9 semester hours with 6 or more grade points. A third year student, or above taking 12 hours or more, must pass in a minimum of 12 semester hours and make 9 grade points or pass in 9 semester hours with at least 12 grade points."

Any student taking less than 12 hours must pass three-fourths of the courses taken, and make at least 3 grade points if a first year student, or as many grade points as hours undertaken if classified above a freshman, the regulations continue.

Summer Work Not Included

A former student, who has attended another college after leaving Tech, must meet the same requirements indicated for new students, provided his attendance was long

Students Honored For ROTC Work

Sixteen senior ROTC students have been presented distinguished military student badges. Lt. Col. Willard White and Lt. Col. Robert P. Riordan made the presentations.

Students designated distinguished military students were Cadet Capt. Gary L. Burton, Engineering corps; Cadet Lt. Col. William L. Adair and Thomas C. Penn, Signal corps; Cadet Col. Elbert E. Gilder, Capt. Charles R. Hutchins, Maj. Darwin D. Tafeluse, 1st Lt. John P. Matthews, Bynum P. Ward and Jack Williamson, Infantry.

From the air unit were Cadet Lt. Col. Max N. Osborn, Maj. Bobby D. Green, Capt. James M. Bowen, Robert H. Browder, James A. Cunningham and James L. Lockley; and 1st Lt. Billy J. Whitfield.

In order for any ROTC student to be designated as a distinguished military student, he must have done outstanding work both in his military or air science courses and in his major subject.

Those students designated are eligible to become military graduates upon completion of their training, Colonel Riordan said.

as one semester or one quarter. These restrictions must be met in each of the last two semesters of attendance but will not be applied to work done in a summer session or at another college, said Clement.

two daughters, both graduates of Tech. The younger daughter, Ava Ruth, was born on the day of the first faculty meeting at Tech. Mary Menon is the older daughter.

Dean Stangel was chairman of the athletic council for 23 years. Upon his resignation in 1948, the council presented him with a copper tray in token of its appreciation for his work. He is perhaps proudest of his scroll from the Red Raiders of 1942. They dedicated that season's football games to him.

The scroll states in part: "We, the Texas Tech Red Raiders, dedicated our 1942 football games to Mr. Stangel in appreciation of his tireless efforts in aiding football and the general athletic program of the college. Through his efforts the Red Raiders have stepped into major league football against the nations greatest teams in 1942, and this is a token of appreciation from the 1942 football players to Mr. Stangel and his athletic council."

Scramble—

(Continued From Page 7)

which usually begins right after supper and doesn't end until she floats down the dormitory stairs some 30 minutes after her date has buzzed. The tedious techniques which are employed in the meantime are trade secrets known only to that small portion of the population called the fair sex. However, so that men will know that the time they spend in waiting is not wasted, we will divulge a few of the minor ones.

For reasons known only to themselves, there are always those who "just don't want to go." It is these goddesses who invariably assume the burden of getting the others ready. It is they who cover the backs and shoulders of the begowned lasses with inches of the luscious make-up which their escorts will find on their tux sleeves the next morning. They it is, also, who, with deft fingers, attach strapless formals to nylon underthings with safety pins, needles and thread and, believe it or not, scotch tape. And finally, when the last corsage pin is in place, it is they who stand off and, in awe-filled tones, marvel at the finished product, a gesture which, depending upon how convincing it is, is the determining factor in whether the coed in question greets her date with a smile or a scowl.

You think this is the end of the process? You think you won't have to wait another half-hour while she puts her coat in the powder room at the hotel? Brother, have you got a surprise coming!

Phi Eta Sigma Has 25 Pledges; Others May Try Eligibility

Phi Eta Sigma, national scholastic fraternity for freshman men, has pledged 25 new members, announced James G. Allen, dean of men.

Men pledging the society are: George Baker, Bonham; Frank C. Brame, Greenville; Claude Caperton, Dozier; Bill Deardorf, Plainview; James Dent, Plainview; Robert Dozier, Borger; Ralph D. Handen, Kansas City, Mo.; Raymond Harrell, Levelland; William Holmes, Garland; Charles Jaco, Greenville; Richard Johnson, Old Glory; Marvin N. Jones, Clovis, N. M.; George T. Knowles, Dallas; Alfred R. Lawrence, Loving, N. M.; Herbert Maxwell, Lubbock; Robert Meinecke, Plainview; Robert C. Morriss, Electra; Dudley J. Price, El Paso; James C. Richards, Lubbock; Jack L. Ross, Levelland; John G. Sample, Lubbock; Van E. Scott, Lubbock; Glenn C. Smith, Electra; Gerald R. West, Merkel; and W. Foy Page, Goldthwaite.

Any men who think they are eligible for the fraternity, and have not received a letter of invitation, are asked to check in the dean of men's office, Dean Allen said. "Our methods of checking are necessarily imperfect, and someone could easily have been left out. If so, we would appreciate his reporting the fact to our office," he added.

In order to be eligible, a student must have had a grade point average of 2.5 and must have carried 13 hours, not counting one-hour classes which have no finals.

Traditional English Hot Cross Buns Prepared By Home Economics Class

By DONNA PYKA
Toreador Staff Writer

"One a penny, two a penny, hot cross buns."

This version of the cry used in England by street vendors is often recited by American children today. Hot cross buns, bread with a history, are traditional of this season of the year. In keeping with this tradition, a class in the home economics division makes them annually.

Members of Foods 232 class have made these buns for serving Saturday at a coffee given for the Women's Auxiliary of Sheep and Goat Raisers association meeting in Lubbock.

The hot cross bun, a small spiced confection, marked on top with a cross in white icing is a famous bread of England and is thought to date back long before the dawn of Christianity. They were said capable of being kept for years and are supposed to be on the order of an anniversary cake. They

take the place of a pagan sweetmeat eaten in honor of the goddess, Easter.

In order to make it acceptable at the time of Christianity, it was marked with the sign of the cross and became a famous Christian cake. At one time the housewife marked her bread with a cross to prevent the devil from interfering with her baking. As these buns were made on Good Friday, which is thought to be an unlucky day, there is all the more reason for marking them with the holy cross.

Heather—

regular spring meeting of Texas State Teachers' association, Dr. H. E. Golden, associate professor of marketing, said. Doctor Golden is chairman of the College Classroom Teachers' association which is a branch of the state teachers association.

Dean Heather's panel discussion will be on "The College and College Classroom Teachers' association." He will be assisted by executives of various colleges. Another Tech faculty member, Mrs. Lida B. May of the mathematics department, will be in charge of panel discussion. "The Teachers and College Classroom Teachers' association." She will be assisted by representatives of other colleges in this area, Doctor Golden stated.

On the dean's itinerary Friday will also be a trip to Odessa junior college. Dean Heather and Dr. R. R. Rushing, head of the department of accounting and finance, will speak to prospective business administration students there.

Prof. F. L. Mize is chairman of Tech's College Classroom Teachers' association.

FIVE GO TO FORT WORTH

A group of five students will leave early Friday morning for Fort Worth where they will attend the first Missionary conference fellowship at the Southwestern Baptist Theological seminary there.

The program of the conference is to acquaint interested students with foreign missions. Attending will be Barbara Barber, Kenneth Shipp, Wayne Randolph, Bob Bratcher, Gene Verner and Miss Ardelle Hallock, Baptist student secretary. Miss Doris Stoneham, youth director of the First Baptist church, will accompany them.

WRA DANCE POSTPONED

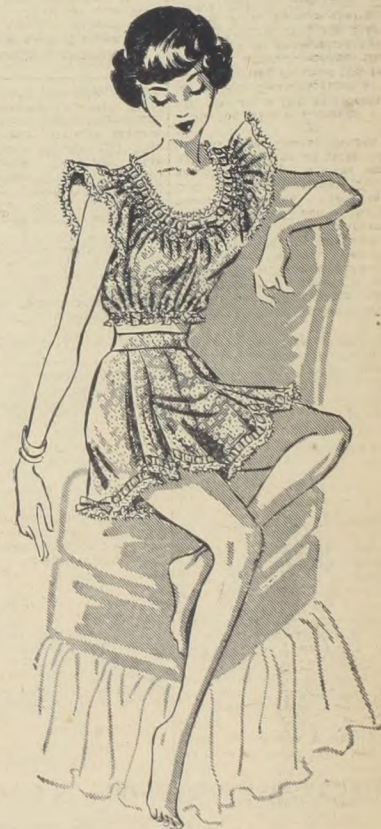

The Women's Recreation association dance scheduled to have been held in the gym tonight has been postponed. Mrs. Margaret Richards, assistant professor of women's physical education, said.
