## Directors Operate Aggie Club

By BILLY YOES  
Toreador Staff Writer

Since Nov. 17, 1925, when the Aggie club of Texas Technological college was organized with 57 charter members, the club has grown to a membership of approximately 500. The success of the

Aggie club has been made possible by the combined efforts of foregoing clubs and individuals.

Perhaps no foregoing Aggie club has contributed as much to the success and welfare of the club as the present club. The Aggie club has the distinction of being not only the oldest club on the campus but also being the only one which operates under a board of directors. The idea of a board of directors was brought forth by the present membership of the club.

At the beginning of the year, the first board began work. The board, composed of 13 members, has one board member selected by each of the departmental clubs of Agriculture. The clubs selecting one member are the Agriculture Economics, Plant Industry, Block and Bridle, Dairy Manufactures, Future Farmers of America, and the honorary Aggie club. Two more board members are selected by the freshmen and sophomores. The remaining board members are officers of the Aggie club. The board is selected at the beginning of each semester.

The retiring board members of the past semester are Thomas Hamilton, F.F.A.; Jerry Trimble, Dairy Manufactures; R. D. Brown, Agriculture Economics; Bill Eiland, Block and Bridle; Wilson McClellon, Plant Industry; C. C. McDonough, Honorary Aggie club; James Martin, Freshman representative; Donald Christian, Sophomore representative; John Dwyer, retiring president; A. J. Bishop, vice president; Marshall Hargett, secretary; Cloy Weems, treasurer; and Delbert Timmons, reporter.

### New Directors Chosen

A portion of the new board of directors for the Aggie club was selected Tuesday night, when new officers for the club were selected. The new members are Marion Baumgardner, president; Billy Whitfield, vice-president; Forest Keith, secretary; Donald Christian, treasurer; and James Waddell, reporter. Clifton McDonough was elected at marshal, although he will not be included on the board. The rest of the board is to

See AGGIE CLUB Page 4

## Reorganization Set For Tech Chorus

Tech chorus is to be reorganized next semester, Dr. Gene Hemmle, head and professor of the music department, announces.

Students who have a strong desire to participate in the mixed chorus next semester are requested to meet between 6:30 and 9 p.m. any time during the week of Jan. 16-20 in Ad-307, Doctor Hemmle states.

Reorganized chorus has balanced membership of 60 voices; however, places are available in all sections. "Requirements for membership in this musical group are an average singing voice and a strong desire to participate in a mixed choral club which shall appear on a number of programs during the second semester," Doctor Hemmle says. Rehearsal schedules are from 7-9 p.m. each Monday.

## Schier, Rippstein, Richter Are Elected Officers Of New Institute Of Finance

Tech Institute of Finance was the name chosen for the newly-organized association for sophomore, junior and senior finance majors at its initial meeting Monday evening.

Officers elected were Keith Schier, president; Albin Rippstein, vice president; Roseann Richter, secretary; Jack Parke, treasurer; and Raymond Hall, historian-reporter. Jefferson Hooper, assistant professor of accounting and finance, and Frederick Mueller, instructor in that department, were elected sponsor and associate sponsor, respectively.

A committee consisting of officers and Tom Burnham, sophomore

## Final Exams Begin Saturday; Spring Semester Registration Is Jan. 31

By SUE HOLMES  
Toreador Staff Writer

Pre-registration for the spring semester is to begin Jan. 16 and last through Jan. 20, Warren P. Clement, registrar, announces.

Students now in school can get applications for pre-registration during this five-day period from the Engineering, Home Economics, Agriculture or Administration buildings, the registrar said.

"Students will fill out the applications, Form A, and drop them in boxes in these buildings. The cards will be collected frequently throughout the day and processed immediately," Miss Evelyn Clewell, assistant registrar, said. Processing will include a check of student's housing, she added.

Registration forms will be mailed within a week to the students who completed applications, Miss Clewell said. She urged that students fill out applications completely, since blank spaces on the forms will cause delays.

### Don't Ask For Change

Hours to register are to be assigned according to official classification. Students are requested not to ask for changes in registration hour, the assistant registrar stated.

"Schedules have been worked out so that no student should have difficulties in registration if he adheres to his assigned hour," Warren G. Harding, assistant to the registrar, said.

Pre-registration will begin Jan. 27 for students failing to fill out applications during the first period.

### Entering Fish To Report

Making of schedules and sectioning is to take place Jan. 31 and Feb. 1, Clement announced.

"Entering freshmen are requested to report at 8 a.m. Jan. 30 to

See FINAL EXAMS Page 2

## Beards Galore; No Girls Adore This Male Look

With the beginning of "dead week" this morning, the male population of Tech went primitive. They are on their way to becoming the Robinson Crusoes of the modern day, complete with beards.

Dead week with its books and beards will last through Friday. With no time for tidiness or primping, uncouth appearances during this week have become traditional at Tech.

And there's a special reason for the beards. Those with the blackest, ugliest, reddest, smoothest, and most artistic beards are rewarded by kisses from the beauties, who are judges in the annual beard contest. Judging will be held at 12:30 noon Wednesday, Jan. 25 in the Recreation hall, according to Earnest Sears, Saddle Tramp president.

Beards may be removed after the first final, but men who wish to enter the contest, sponsored by the Saddle Tramps, must remain behind the foliage until after the judging.

When the tradition began, the student body was much smaller than it now is and everyone participated. Women wore no make up and men refrained from shaving. The object being to discourage romance and make books more appealing during this week of weeks as far as grades are concerned (if men could see the books through the brush and fuzz.)

Originally, beards could only be trimmed after the first exam. They could not come off completely until after the final exam of the week of final exams.

## Two Judging Teams Compete At Show In Denver Today

Tech Livestock judging team and wool judging team are competing in the National Western Livestock show today and tomorrow in Denver.

The livestock judging team, coached and accompanied to the show by Stanley Anderson, instructor of animal husbandry, is competing with the teams from agricultural colleges from throughout the United States. The team will judge a carlot of steers, of range bulls, of lambs and of swine. Tech placed third in this contest last year and won the event the previous year.

In addition to judging the carlots, the livestock judging teams will judge four classes of beef cattle, three of sheep, two of fat hogs, two of quarterhorses, and one class of mares.

Tech wool judging team will begin its competing tomorrow morning, when it will contest six teams in judging classes of common range fleece and purebred breed fleeces, with a special contest in wool grades and scoring classes. The team will visit the wool department of the United States Department of Agriculture laboratory while in Denver.

The wool judging team includes S. E. Stanfield, Leslie Pepper, R. B. Miller, and Jimmy Cusenbury. Members of the livestock judging team are William Piper, Willard Hill, Bobby Gray, Ray Drennan, Claude Ash, and Frank Demers.

Winners in the various contests will be announced at a banquet Sunday night and Tech's representatives will return to Lubbock Monday.

### Eligibility Rules

To be eligible for membership, students must be of sophomore, junior or senior standing in finance and must have maintained a 1-point overall grade average. Vote of acceptance for new members is

## Is Your Day Too Crowded? Here Is A Logical Solution

If you need about half dozen more hours in each day so you can complete all your activities, it's our purpose to show you how to budget your time and stay on the twenty-four-hour-per-day system.

We've all heard the advice to "plan your work and work your plan." Obviously, this is a good idea to follow.

First, let's see just how much time we actually need in which we can do the things we feel are compulsory.

Physicians say we should have at least eight hours of rest each night. Until doing extensive research for this editorial we thought they had said eight hours a week! (We know you guys will be glad to get this straight too.) We all have to eat but it seems most of us can eat all we can stand in an hour and a half a day.

A survey shows that the average time spent in classes, counting labs is four hours each day. Of course, that means we automatically spend two hours in preparation for each hour of class. (Well, we do, don't we?)

Now we've kept this next item to a minimum. The very most that could be spent on recreation and just plain loafing is three hours a day. We don't see how anyone could use more time in this manner.

There are some people who must go to club meetings and work in churches, so we can add at least two hours daily for this sort of thing.

Don't forget that many people also work while going to school. These part-time jobs usually take up as much as three hours a day.

Well, let's see what this all comes to—That's what we were afraid of. Do you think we could possibly get five and a half more hours added to a day and night???????? . . . W.L.

## Will Rogers And "Soapsuds" Should Find Tech Friendly

Recent erection of the Will Rogers statue which was presented to the college by Amon G. Carter has given Tech campus a landmark of which it can justly be proud.

But the statue is covered and will remain so until a suitable personage to dedicate the bronze work arrives on the campus. When the original Will Rogers statue, of which this is a replica, Gen. Dwight D. Eisenhower did the unveiling. At that time there was considerable rumor that the general would also do the honors when the duplicate statue was erected here.

But regardless of who makes speeches at the official unveiling of the likeness of the famous cowboy humorist, we can't help but think that Will and "Soapsuds" will find themselves right at home on Tech campus.

The Oklahoma cowpoke, who became one of the most beloved men ever to live in the United States who was long on good common sense and friendliness and extremely short on enemies, would have liked the atmosphere at Tech.

Rogers, who "never met a man he didn't like" would have been happy to hear the "howdys" which Techsians exchange and we feel he would have smiled at the varied styles of dress here on our campus.

Perhaps even now the spirit of Will Rogers is saying to Soapsuds, his pony, "Well, pard, it looks like we've found a home." Let's not let him down, let's keep that Texas Tech spirit alive.

Reprinted from February 1950 issue of ESQUIRE Copyright 1950 by Esquire, Inc.

"I'd marry you in a minute Herby—but what could I tell my friends?"

## THINKING ALLOWED

By Jerry Hall

Some of the most shocking and important news to hit this campus this year came to light as a result of the student council meeting last Monday night. We were fortunate enough to have been at the meeting and before going any farther this column would like to extend its fullest congratulations to the student governing group. This year's council showed Monday night, by carefully discussing every aspect of the problem at hand, that it was capable of acting in the best interests of the students at all times.

The group did not rush into the criticism of the woman's disciplinary committee half cocked and looking for a fight. Their discussion of the situation, and of the person or persons to blame for the situation, was well maneuvered and at all times conducted with the utmost fairness.

It is regrettable that the matter has come to light but if it had not existed in the first place there would be no need for investigation at this time. We feel that the committee appointed by the council to look into the situation is composed of students who are capable of looking at the problem with a mature point of view. We know that they are looking out for the best interests of the students.

This is one issue which calls for a firm stand to be taken by all parties involved and an issue which must be met squarely and without selfish thought or personal feelings. For that reason we feel the committee is entirely in the right and we hope that as a result of their investigation the problem will be rectified.

It is a problem which concerns the whole college, administration and students alike. For if the conditions described are true, and we feel that they are beyond a doubt, not only students in Tech now, but in the future will be affected.

The meeting with administrative officials Monday should go a long way toward clearing it up. We have confidence in our present administration and know that both sides will be heard. If the men's disciplinary committee is functioning properly and a student representative is allowed to sit with the committee there is not reason why the same setup can not be true with the women.

Recently a letter came to our desk covered with enough stamps and postage marks to make the heart of any stamp collector jump for joy. It came from a Tech ex-Gus Dallas, class of 1932, who is at this time residing in Kalavryta, (that's what it said!) Greece. Mr. Dallas sent a letter addressed to the 1952 exes and requested we publish it and we do so before sending it on to the ex-student office. He says, "May I take this means of wishing each and everyone of you from the bottom of my heart a happy and prosperous New Year." Mr. Dallas's full address is Kato Kiltoria and the name of the town above. (Don't believe this typewriter would spell it again.) Kind of makes you feel nice to know that Techsians all over the world are thinking about the old place, doesn't it?

## Finance

Continued from Page 1

to be a simple majority. It was decided to incorporate an inner-society in the organization itself for those members who have maintained an overall grade average of 2-points or better. This measure was taken so that if in the future Tech Institute of Finance should decide to merge with the national finance society, this group would form the nucleus for the honorary society. This would also be a stimulus to higher scholarship among the finance majors', Schier said.

### Club Objectives

Objectives of the Tech Institute of Finance are to bring a closer association of the students of finance by professional and social meetings, to promulgate the interest of the finance department in any way possible, to foster a broader and more practical knowledge of finance for members, to facilitate placement of graduates in the field of finance, to encourage a higher scholastic standing among students of finance, and to further the cause and prestige of Texas Tech and its graduates.

Charter members of the organization include the officers and Wendell Wesley, Howard W. Brown, Bill Senter, Dan Carver, Wendell Tooker, George W. Norman, Wendell Hartsfield, Calvin Kunkel, M. G. Davis, Charles D. Hudson, Har-

## Lecture On Sound Set For Monday

Use of elaborate and expensive equipment designed to permit watchers to see sound waves travel will feature a "You Can't Believe Your Ears" demonstration lecture at 3 p.m. Monday in the Aggie auditorium. Dr. C. C. Schmidt, chairman of the physics department, has announced.

"All students are urged to see and hear this fascinating science show on sound, hearing and electronics presented by Warren Creel of the Maico company," Doctor Schmidt said.

Creel, educational director of the Maico company of Minneapolis, will use a working model of the ear to demonstrate "tricks your own hearing can play on you." will show sound waves traveling from microphone to loudspeaker, and use other equipment in an hour's humorous and educational presentation, it was said.

"This will be one of the most outstanding presentations of the Tech school year, one which all students should attend," Doctor Schmidt commented.

## Baumgardner Is Elected President Of Aggie Club

Marion Baumgardner was elected president of the Aggie club at its regular meeting Tuesday. Other officers elected were Billy Whitfield, vice president; Don Christian, secretary; Forest Keith, treasurer; James Waddell, reporter; and Clifton McDorough, marshal.

Howard Matthews, representative of the agricultural research department of Swift's Packing company, spoke on the meat packing industry, and a film was shown on the actual packing processes.

## Final Exams

Continued from Page 1

the Aggie auditorium for freshman orientation." Clement continued. New students will be helped with their schedules at that time, he said.

Enrollment for the spring semester is expected to be about the same as last spring's total of 5,760, the registrar stated. Dead week for the fall semester will begin today. Final examinations for this term will be held from Saturday, Jan. 21 through Friday, Jan. 27. It has been announced that finals for all classes which have laboratories will be based on the lecture hours, except in the case of a conflict. Then the lab hour may be used.

Dorms To Close Highlighting dead week, the period of restricted social activities, will be the beard growing contest among the men students. Winners in this contest will be judged Wednesday, Jan. 25 with the victors getting a buss by Tech beauties.

Dorms will be closed between semesters for a period of two days.

A complete schedule of final exams follows:

# Davis Wins Champion Showman Award At Stock Show

## S. E. Stanfield Is Presented Banner For His Reserve Champion Animal

William C. Davis, senior animal husbandry student from Sterling City, won the grand championship showman's award in the second annual Little International Livestock show. The show, sponsored by the Block and Bridle club of Tech, was held Wednesday evening in the livestock pavilion. It was called a "great success" by Doyle E. Lane, general superintendent of the show. Approximately 65 livestock were shown by the senior animal husbandry students participating in the event. Judging of the college-owned livestock was on the basis of grooming and showing.

A banner was presented to Davis for his high ranking, while S. E. Stanfield of Seagraves received a banner for showing the reserve champion. Davis won his award by presenting a quarterhorse foal, while Stanfield won the showing of a Hampshire barrow.

### Division Winners Given

Division winners named were Ira Layman of Hermleigh, champion in the dairy cattle division; Luke Thompson of Eldorado, sheep division; Tommy Tips of Runge, beef cattle division; and Stanfield, swine division. For winning their respective divisions, the winners were awarded rosettes. First, second, and third place winners received ribbons.

Results of the contests are: Beef cattle, Hereford steers: Tips, first; Curtis Kemp of Sweetwater, second; and Jack Buchanan of Big Spring, third. Beef cattle, Aberdeen Angus steers: Bud Richards of Blackwell, first; Henry Fischer of Plainview, second; and Walter Maloney of Roscoe, third.

Dairy cattle, Jersey heifers: Layman, first; Dale Carter of Roby, second; and Sam Kimmel of Cisco, third. Dairy cattle, Holstein heifers: Charles Butler of Graham, first; Frank Young of Thompson, Ohio, second; and George Piller of Abilene, third.

Quarterhorse foals: Davis, first; W. D. Hill of Smithsons Valley, second; and Ewing McEntire of Sterling City, third.

### Other Winners Named

Sheep, Hampshire ewes: Thompson, first; Billy Miller of Mexia, second; and T. D. Davis of Sterling City, third. Sheep, Hampshire rams: Oscar Carr of Big Lake, first; Eugene Cornelius of Lubbock, second; and Roger Dilworth of San Antonio, third. Sheep, Rambouillet ewes: Don Morrison of Pampa, first; James Waddell of Sweetwater, second; and Norman Beyer of Holland, third.

Swine, Hampshire hampers: Stanfield, first; John Dwyer of McLean, second; and James Bishop of Stephenville, third. Swine, Hampshire gilts: Jack Jordan of Combes, first; Roy E. Ball of Electra, second; and Jack Kaler of Sabinal, third. Swine, Poland China gilts: J. R. McAnally of Weatherford, first; Homer Lawson of Lubbock, second; and R. J. Houtchens of Brownfield, third.

Assisting Lane in superintending the show were Buddy Winters, Bill Rodgers, William Krueger, Buddy Fee and J. H. Heath. Judging the show were Homer Brumley of Hereford and W. W. Gregory of Spur, both Tech graduates.

## Ex Gains Fame As New York Designer

One young Tech ex is making a name for herself as a designer of wedding gowns in New York. She is Eulalia Hildebrand who with the determination of a Texan is attacking the fashion field in the wholesale territory and the custom design field.

Her wholesale collection of bridal gowns with accompanying designs for the bridesmaids were available in Dallas only recently and her "After 5" collection of made-to-order gowns are being sold from her new salon just off Park Avenue on Seventieth street.

The designer has studied with Robert Piquet in Paris and worked a year for Marcel Rochas. All in all Eulalia is becoming the name to remember as far as bridal fashions are concerned.

Wives of the faculty of business administration division and all women teachers are invited to attend the luncheon club at 9 a.m. Wednesday Jan. 18 at Luby's cafeteria. Refreshments will be served as a courtesy of the cafeteria.

## Rifle Team Starts Firing For Army Match Here Soon

Tech rifle team will begin firing the Fourth army match next week, Sgt. Woodrow W. Brooks, rifle team sponsor said. Fourteen schools will compete in the match, and all scores will be sent to Fourth army headquarters at San Antonio.

Firing will be divided into four stages, each of which will contain two firing positions. The first stage is to contain sitting and prone positions; second stage, kneeling and standing; third, kneeling and prone; and fourth, kneeling and standing. The best 10 scores will be sent to represent the team.

Immediately after completing the Fourth army match, the team will begin competing for the William Randolph Hearst trophy. The Hearst trophy match will include all military schools in the nation, and the three highest scores will be selected as winners.

## New Language Lab System Is Planned; Engineers Prepare Hour Test Schedule

Introduction of a new foreign languages laboratory system and scheduling of hour examinations for the division of engineering have been announced.

A new system of laboratories for first year foreign language students will be inaugurated next semester, A. B. Strehli, assistant professor of foreign languages, said Thursday.

All students taking the first or second semesters of any foreign language will be required to register for one half-hour lab per week when sectionized during registration. Each lab will be limited to 10 or 15 students, and active participation in conversation will be stressed through pictures and other training media, Strehli said.

Correct pronunciation will be taught by continued use of phonograph records.

There will be four labs for first semester students and eighteen labs for second semester students. These labs were not scheduled in time to be entered in the class schedule for the spring semester but each student enrolling for a first year Foreign Language course will be registered for a lab meeting be-

fore the second lecture meeting each week, Strehli stated.

A schedule of hours designated for hour examinations next semester was presented to the heads of the departments of the engineering division Thursday afternoon by O. A. St. Clair, dean of engineering.

The schedule is worked out so that the students will not have several hour exams on the same day. Following is the tentative schedule:

Classes Meeting	Exam Time And Day
8 MWF	8 M
8 TTS	8 TU
9 MWF	9 W
9 TTS	9 TH
10 MWF	10 F

UP IT GOES! Tech's Gene Gibson battles for the ball with an unidentifiable player from West Texas State during the Border conference cage game in the Tech gym Tuesday night. Also shown in the picture are Hubert Kitchens (24), Austell Burrus (28), Sammy Malone (25), and Tech's Jack Alderson (54). (Staff photo by John Lee.)

## West Texas Jumps Tech 60-43

West Texas State's smooth working cagers got the opening jump on Tech's Red Raiders and never slacked off until the final buzzer to rack up a 60-43 Border conference victory Tuesday night in Tech gym.

The Raiders, fighting an uphill battle all the way, never made a serious threat. The closest Tech came to overtaking the Buffs was after three minutes of play when they pulled within 3 points on a 7-4 score.

Hubert "Cuby" Kitchens, WT's all conference guard, kept the Raiders guessing all evening with his fancy ball handling and floor play. He also found time to toss 14 points through the hoop to tie Tech's Gene Gibson for scoring honors.

**Buffs Score First Thirty Seconds**  
The Buffs drew first blood after

**Aggie Club--**  
Continued from Page 1

be selected as soon as possible. A new award to be instituted into the Aggie club the spring semester is the Aggie-of-the-Month award. The aggie of the month, who will be selected by a committee of five members, will be chosen on the basis of initiative, leadership, and his personal contribution to the club. The committee, to select the person for the award is to be made up of two board members and three men from the general membership of the club.

**Aggie Of Year**  
At the conclusion of the spring semester, an Aggie of the year will be selected. He will be elected by the entire membership of the Aggie club. W. H. Tinney, associate professor of dairy manufactures and sponsor of the club, stated that the purpose of these awards is to furnish a goal for which the members of the club will work.

One of the outstanding activities of the Aggie club is the annual "Pig Roast" honoring members of Tech livestock judging teams. "Way back when the club was a youngster, the club started the practice of this annual feed for members. At the first "Roast", 75 persons were present and at this year's event well over 600 were present. This is only a small indication of the progress made by the Aggie club.

30 seconds of play on Kitchens two-hand jump shot and continued to roll. Late in the first period the Raiders were trailing 14-27 but managed to cut the margin to 33-24 by half time.

Jiggs Jackson turned a great defensive game for the Raiders the first half, allowing Kitchens to score only four points. Jack Alderson, who has spark-plugged Tech all season, was way off his usual game.

The Buffaloes stall, which started midway through the last half,

paved the way for widening the winning margin. The stall pulled the Raider defense out allowing the Buffs to break past for lay-up shots.

Sammy Malone was runner-up in the scoring with 13 points. Charles Barnard and Austell Burrus each had 11. Both Charley Pinnell and Jackson had 7 each for Tech.

### F. W. Huntington To Interview Ags

F. W. Huntington of the Ralston Purina company, St. Louis, will speak in Aggie Memorial auditorium in the Aggie building at 10 a.m. Thursday, Mrs. Jean Jenkins, executive secretary of the Placement service, said yesterday.

All seniors who are interested in securing sales positions should attend, Mrs. Jenkins said.

Interviews may be scheduled with Huntington immediately following the meeting.

Descriptive material is on file in the placement office and information about the company will be given in Huntington's talk, Mrs. Jenkins said.

### Wilkes To Lecture To Science Club

H. L. Wilkes, assistant director of research at Ralston Purina company in St. Louis, Mo., will speak to the Science club, organization for faculty members interested in science, at 7:30 p.m. Tuesday in Aggie auditorium.

Wilkes, who was formerly head of the poultry department at Iowa State college, will speak on "Animal Protein Factors," according to Joe Cordwell, secretary of the club.

Mr. and Mrs. Milton O. Skinner are parents of a son, Robert Wayne, born Dec. 21. Skinner is a senior engineering student from Wichita Falls.

SO WHAT IF SHE DIDN'T NOTICE MY NEW SUIT FROM CORCORRAN'S, DO YOU THINK I'M WORRIED?

## Intramural Basketeers Are Showing New Skill Keeping Scores Bouncing

Intramural basketball, like old man river, just keeps rolling along, with some teams being halted momentarily by the sands of defeat while others float along unhampered on the crest of victory.

The Sneed hall Ball Hawks won two games this week with Donald Bagwell and Joel Wilson furnishing fuel for the victors in both encounters.

Sneed hall won the first game 36-17 over Drane hall. Bagwell bagged 15 points, Wilson tallied 8, while Drane Hall's Bert Hester garnered 6.

**Red Devils Routed**  
The Doak hall Red Devils were the second team to succumb to Sneed Hall's Ball Hawks in as many nights. They lost 33-36. Gene Gaston, Red Devil guard, was the individual scoring leader for the game with 13 points. Don Bagwell and Joel Wilson netted 12 and 7 respectively. The games were Dorm League I encounters.

**League II Games**  
Two games were also played by Independent League Two teams.

The Toreador staff to study for final examinations, this will be the last issue of the paper this semester. Publication will begin again Saturday, Feb. 4.

throws, for the games scoring honors. James Nichols and Bob Millard dropped six points through the hoop to lead their team in the point department.

American Society of Civil Engineers took a 25-20 decision from the Texas Tech Redeo Association in a game that rounded out basketball activities in the intramural through Wednesday morning.

**ASCE Aces**  
Charles Cox and Charles Wood made 11 and 10 points, in that order, for the ASCE to eclipse their mates in scoring proficiency. Jimmy Cole and Bill Eddins each garnered six tallies for the TTTA. No games had been played by teams in Independent league I or Dorm League II through Wednesday noon.

## National President Of AIME To Talk

American Institute of Mining and Metallurgical Engineers will hold its meeting Monday at the Hilton hotel. Dr. Louis Young of New York, national president of AIME will be the principal speaker.

Joe Alford, Tech graduate of 1939, will also speak. At the present time, Alford is editor of the Journal of Petroleum Technology in Dallas.

Dr. D. M. Wiggins will head the welcoming committee which will meet Doctor Young at the airport. Tech student chapter of AIME and the South Plains sub-section of AIME are joint sponsors of the meeting.

Sports Chatter

by KEITH ANDERSON

EDITOR'S NOTE: This weeks Sports Chatter is being written by Sportswriter Pug Davidson due to the fact that sports editor Anderson is incapacitated. It's all yours Pug!

Not numbering ourselves among those complacent few who accept the new year as a relief from the past and the beginning of a grand and glorious round of new activities, we decided to take a peek at the past history of athletics at this grand old institution and make a comparison with the present.

While fumbling through some outdated issues of The Toreador we ran across a copy dated Jan. 12, 1941, in which we noted that Texas Tech was without a football coach. One Peter Willis Cawthon and his staff had resigned their positions as coaches at Texas Tech, leaving the school in distress. The Red Raiders of the year 1940 had only won 10 of their 11 games during the disastrous season and a change was needed. A closer peek at the records showed that over a ten-year period against some of the nations football powers, the Raiders had only won 79 games, lost 29 and tied 6 under the leadership of Cawthon and his staff.

A great cry was sent out by the student body for someone to replace Cawthon who would continue with his winning ways, but who would also get Texas Tech admitted to the Southwest conference.

Cawthon had lifted Texas Tech from the ranks of competing with such schools as Hardin-Simmons, West Texas State, Texas School of Mines, and Abilene Christian college, replacing them with Wake Forest, Duquesne, Marquette, San Francisco and Montana. But he hadn't gotten Texas Tech admitted to the coveted position as a member of the Southwest conference.

Speaking of progress—Cawthon was replaced some nine years ago under what was promised as a new era in athletics for Texas Tech. Today we have on our schedule year after year such football powerhouses as those that had been replaced some ten years previously. Today we are competing annually with Hardin Simmons for the championship of the BORDER conference whereas ten years ago HSU was too small for us to play. We are winning the BORDER conference championship with some degree of regularity but are losing to football teams with whom we should compete on equal terms with a monotonous regularity. Progress? Ho-Hum!

Lets get away from the distant past and come up to the near past—namely the football season of 1949. We only lost to Texas, Baylor, Rice, and Texas A&M in regular season play and to powerful San Jose State in the Raisin bowl. Not a bad season when you consider that we eked out a win over twice victorious Tulsa, narrowly won over the great West Texas State team, edged Texas Western by two touchdowns and soundly trounced mighty Abilene Christian college 20-0.

The hat is off to Coach Polk Robinson and his Red Raider cagers, not because they are having such outstanding success but for the manner in which they are going about playing the games. Polk

250 Persons See Movies In Museum

More than 250 people were present at the lecture presented by Dr. Robert T. Hatt, director of Cranbrook Institute of Science, Wednesday night at the Museum. Dr. Hatt spoke on expeditions in Mexico and Yucatan which he made in 1944 and 1947. He studied the effect of the volcano in San Juan Parangaricutiro, Mexico, on the plant life of that section. In Yucatan he studied the caves of Mayan, which was the only source of a constant water supply for people and animals, during the dry seasons. Colored pictures of both expeditions were shown. The lecture was highlighted by the film that showed the erupting volcano that destroyed the city of San Juan Parangaricutiro.

told us before the season that he wasn't going to set the world a-fire with his cagers, which he hasn't, and he told us that there would be several Border conference cage quints better than his, which we doubt. The Raider cagers are showing more spirit and hustle than has been seen in Tech Gym in some time and with a few breaks the Tech hoopers could be in the thick of the fight for the Border conference championship.

The year 1949 also saw one of Tech's finest athletes in the professional world advance to a position of national prestige. Bill Henderson, popular Aggie major from Levelland, climbed from the ranks of the relatively unknown fighters to fight against Eddie Bertolino for the lightweight championship of Texas. Henderson lost the fight, but he certainly didn't lose prestige. The small crowd at the fight saw the game youngster battle furiously even after he was hopelessly beaten. Henderson probably gained more support in losing than he had ever gained in all his previous wins. Congratulations, Bill.

Intramural athletes during the past year have advanced rapidly and with the able assistance of the newly-acquired landscape department, there are sure to be more and better facilities for the coming year. With just a little whomsoever assistance onR better organization and more cooperation on the part of all parties concerned, we can have an intramural program of which we can be proud.

In view of the fact that this is the final edition of The Toreador for this semester, we wish to take this means of thanking each and every member of the staff for their cooperation in making this column possible, and also to thank each of you readers for your interest and your criticism. We know that when anything is written there are going to be some for and some against, but whether you agree with anything or everything that we say in this column, we hope you will continue reading it.

Ad Building Tower Door Closed After Lad's Doom Told

Tradition on Tech campus is often intermingled with legend even though ye olde Double T college be only close to 25-years-old. The forthcoming tale concerns the victory bells, the 1936 class gift to the college.

As everyone knows the door to the bells is kept locked and no one can enter except of course the Saddle Tramps with the known key to permit freshmen ringing the bells one full hour at the end of a victorious football battle. According to long legend, a few years ago, the tower containing the bell was always open and star gazers could climb upward for the partaking of their occupation or preoccupation as the case may be. During this time the following is reported to have happened.

It seems there was a certain romantic couple on the campus and a poor little pledge was assigned to watch them, follow them, eavesdrop on them and so on but without their knowledge. One night soon afterward the poor pledge was carrying out his bothersome duties and troding wearily along behind the unsuspecting couple as they took a moonlight walk along the campus green. . . pardon me . . . said. They walked and walked and according to tradition ended up in the ad building, the poor pledge trailing. From there they trod upward to the tower of the star gazers. The pledge balanced himself within hearing distance and settled for a doze alertly.

Well, as all good romances must go, the fellow says to his eavesdropping, "Darling, will you marry me?" She of course coyly said "yes" as fast as she could, and he kissed her. And so the story would have ended happily but the poor pledge became so excited he lost his balance banging the victory bell from side to side, crying, "All is lost!" much to the disturbance and amazement of the whole campus. An so in order to avoid such details of victory in the future, the tower was closed against star gazers by decree of the almighty administration. Or so the story goes.

Poultry Conference To Be Held At Tech

South Plains Poultry conference will be held on the campus Jan. 17-18, announces H. L. Mathews, associate professor of animal husbandry.

Theme of the conference will be "More Chickens on More Farms." Poultry experts throughout Texas and from other states will deliver addresses at the conference. "The conference hopes to make it evident that there should be two hundred laying hens on every farm," Mathews said.

This conference is sponsored by the West Texas Hatcheryman's and Poultryman's association and Tech. Speakers to be included in the program are W. L. Stangel, dean of agriculture, Prof. D. H. Reid of Texas A&M, Dr. H. L. Wilke, assistant research director of Parina Mills at St. Louis, Mo., J. A. Bybee of the United States Department of Agriculture at Dallas, and Dr. Don Demke, of the Texas Livestock Sanitary commission at Fort Worth.

Tech Graduate Takes New Position On Dietician Staff Of Dormitory

Miss Lorine Little, 1945 graduate of Parina Mills, has started work as assistant dietitian in Women's Dorm III. Miss Zoe Harris, administrative dietitian, said.

Before taking this job, Miss Little was dietitian at the YMCA in Wichita Falls. Prior to that, she was area supervisor of lunch rooms in the Dallas school system.

Engineering Grads To Be Interviewed

Claude F. Pipes of the Texas Employers' Insurance association, Dallas, will be on the campus Tuesday for interviews with January graduates in chemical, civil, electrical, industrial, mechanical and petroleum engineering. Mrs. Jean Jenkins, executive secretary of the Placement service, said yesterday.

Pipes wishes to see men between the ages of 26 and 35 who are completing their work at the close of the current semester. Mrs. Jenkins said.

Seniors who are interested should schedule appointments at the Placement office in Ad-205 immediately, she said.

Tech Accounting Society Has Election Of Officers

Officers for the coming semester were elected and constitutional by-laws were adopted at a meeting of Tech Accounting society Monday night. It was the last meeting of the fall semester.

Those elected are: C. D. Wickson, president; Wayne Lee, vice president; Jimmy Hall, treasurer; Mary McKee, secretary; and Jean Reno, reporter.

Acting Dean and Mrs. Haskell C. Taylor are giving a tea to introduce Dr. George G. Heather, newly assigned dean of business administration, from 3 to 5 p.m. Sunday at their home at 3317 Twenty-fourth street.

In the picture at the bottom of the page a kitchen located in one of the museum wings is shown. It is connected with one of the main dining rooms. (Photo by John Lee.)

## Completion Of Museum Ends Twenty-Year Campus Dream

By BETTS DALTON  
Toreador Staff Writer

A 20-year dream has been fulfilled with the completion of the Museum on Texas Tech campus. The dream was born Feb. 28, 1929, when Mrs. Mary Doak, then dean of women, described her visit to the British museum in England.

In 1935, the Texas Centennial year, the Legislature appropriated the first sum to build the Museum. But \$25,000 didn't go very far, even then, and the basement was the only part completed. Money drives in 1940-43 and 48 resulted in \$50,000 and the state appropriated enough to finish the \$322,000 building in 1947.

W. G. McMillan was the contractor for the Museum and O. E. Walker was the architect of the Spanish type building. George Padilla and other graduates of the architectural department at Tech did most of the work in designing the Museum.

**Texas Story Depicted**  
The rotunda at the entrance is to have as the center of interest a focault pendulum, a free swinging arch pendulum which shows the rotation of the earth by its movements. It will be suspended from the lighting fixture in the center of the rotunda.

On the first floor in the east wing will be the "Story of West Texas." Depicted in three-dimensional scenes will be the development of the region, from earliest geological times to the historical and economic developments of present days. The director's office is also located there.

The first floor north gallery will show exhibits of paleontology, archeology and geology of the Southwestern region. There will also be an ethnological exhibit of Yaqui, Apache and Pueblo Indians of the Southwest. Completing the north wing, is a library and seminar room.

**Textiles To Be Shown**  
The east gallery on the second

floor will be used as an art gallery. It features alcoves which will be used for textile exhibits. Examples of textiles woven by textile engineering students will be among the first shown. Suiting material woven by students and given to vice pres. John Nance Garner and former Tech president Dr. Bradford Knapp is to be displayed. Miss Mabel Erwin is in charge of arranging and showing the work of home economics students. Ceramics, glass ware and sculpture will be shown. Paintings and prints will be hung on the walls.

An auditorium and gallery for traveling art shows is in the north wing. A kitchen adjacent to the gallery is to be used for dinners, teas and other social functions connected with meetings held in the Museum.

Even the space in the attic is to be utilized. Storage space, offices for the preparators and a carpenter's shop have been placed there.

A collection of guns, branding irons and saddles will be placed in the north wing of the basement along with other historical collections. The east wing is to be used for storage and labs.

**Patio Is Planned**  
E. J. Urbanovsky is to landscape a patio, planned for the northeast side of the Museum. It will include native wildflowers, shrubbery and an observation bee hive.

Twilight music hours will be under the direction of Dr. Gene Hemmle. Gallery lectures on traveling exhibitions have been arranged for by the Art Institute.

Tentative plans have been drawn for the completion of the quadrangle which would add one and one-half times to the present area of the Museum. This would include a children's museum, a planetarium and observatory and additional room for laboratories and storage. It would also provide for an auditorium with the seating capacity of 300.

Those on the Museum staff include Dr. W. C. Holden, director; Miss Beryl Nowlin, receptionist; Miss Ina Bacon, secretary to the director; Mrs. Jean Quinn, museum archeologist; Dr. Grayson Meade, museum paleontologist; Jim Block, Miss Margy Bullen and Mrs. Rosemary Stubbs, preparators department; F. R. McKinnon, carpenter; and James Malone, janitor.

The Museum will be open week days from 8 a.m. to 5 p.m., and Sundays from 2 to 5 p.m. It will be closed on Saturday afternoons.

## Faculty Members Are Making Plans To Attend Meetings

Several Tech faculty members are making and planning trips during January and the spring semester.

W. L. Stangel, dean of agriculture, will return Monday from the annual meeting of the Texas Agricultural Workers association, of which he is past president. During his trip, he will confer with Dean Charles N. Shephardson of Texas A&M about problems of transfer students in Texas schools. W. H. Tinney, associate professor of dairy manufactures, accompanied Dean Stangel.

E. L. McBride, professor and head of agricultural economics, and W. W. Yocum, professor of plant industry, will also make the trip.

J. J. Willingham, professor and head of dairy manufactures, will represent the department at a meeting of the board of directors and act as secretary of the meeting of the Texas Dairy Products association.

H. F. Godeke, professor and head of mechanical engineering, plans to attend the International Heating, Ventilating and Air Conditioning Exposition in Dallas, Jan. 23-27. R. L. Mason, assistant professor of mechanical engineering, will also attend.

Herman Glaser, associate professor of physics, will attend the American Physical Society meeting Jan. 29-Feb. 11 in Brooklyn.

Those planning to attend the Ft. Worth Fat Stock Show and Southwestern exposition include: R. T. Crane, instructor in animal husbandry, and junior meats team coach; Stanley Anderson, instructor in animal husbandry, who will accompany the livestock judging team; R. I. Collinsworth, student helper with beef cattle; R. C. Mowery, professor and assistant to the head of animal husbandry; and William T. Piper, herdsman. Dean Stangel will also attend the exposition.

### REQUISITION BOOKS AVAILABLE

Requisition books for next semester may be picked up by veterans enrolled at Tech, under the G.I. Bill of Rights, H. A. Anderson, veterans coordinator, said yesterday.

Veterans are requested to come by his office in Ad-110 to fill out the necessary forms.

Miss Esther Sorensen, district supervisor of the board of education, discussed vocational home-making programs with home economics education 331 class Wednesday.

### Centaur's Celebrate 20th Anniversary With Formal Dance At Lubbock Hotel

Centaur, men's social club, celebrated its 20th anniversary with a formal dance last night at the Lubbock hotel. Music was furnished by Ted Cragger's orchestra.

The decorations featured a large ring of flowers encircling the figure "20", which was suspended from the center of the ceiling.

Members and dates who attended were Dick Wolfe, Lorraine McCloud, Sandy Hodge, Mary Lou Moore, Randy Nunneley, Edith Elkjins, James Cook, Paula Harrel, Jerry McKee, Ann Henry, Doug Record, Vera Schmalz, E. L. Derr, jr., Sue Ann Roberts, Horton Russell, Pat Carpenter; E. J. Hill, Pat Noland; Don Morris, Rita Lane; Pug Hammon, Jean Woodrum; Joe E. Stacy, Patsy Ruth Everett; Carl Beckum, Doris Cooper; John Latham, Jeaneart Koerting, Joe DeGuire, Marly DeGuire; Ed Stalcup, Mary Lee Royalty; Jimmy Hall, Mary Stanford.

**Other Members Attending**  
Wayne Harmon, Marjorie Har-

mon; Joe T. Lee, Romonda McMillan; Jerry Dorsey, Bennie Jean Holland; Ed Jones, Charlotte McDaniels; Bill Easter, Ludonna Berry; Buddy Crutchfield, Markie Allen; Winifred Hooper, Margret Hooper; Phil Crumpler, Beth Norman.

Pledges and dates attending were Buddy Almy, Billie Lou Betts; Bill Bates, Sheila Jondahl; Tommy Bond, Jane Skinner; Ralph Button, Tillie Hill; Bennet Hefte, Jacques Spurlock; Jim Kennedy, Savannah Tunnell; Willy Mitchell, Norma Everett; Robert Montgomery, Dorothy Roundtree; Bob Eotet, Pat Jennings; Bob Tinney, Wanda Hubert.

Other members and pledges who attended were Dub Kuykendall, Bill Powell, Bob Oakes and Chuck Zenger. Mr. and Mrs. Doug Moore and Mr. and Mrs. Jeff Hooper, club sponsors, were present.

### Mrs. Eikel Hosts Party In Dorm III

Mrs. Max Eikel, house mother of Women's Dorm III, was hostess at a party given in honor of dormitory officers, house senate members, social committee, switchboard operators and wing counselors, Tuesday night in the dormitory.

Mrs. Lorraine Hudson, assistant dean of women, and Miss Gertrude Miller, junior counselor of the dormitory were guests. Refreshments of sandwiches and hot chocolate were served during the program, which was given by Jane Skinner and Alice Hix.

### Willeford Appears On Screen, Radio

Lewis E. Willeford, former Technician, is in Hollywood where he has had bit parts in several movies and is now in the traffic department of the communications division of National Broadcasting company.

Willeford, former Lubbockite, has appeared in the movies, "Date With Judy," "Good News," "Easter Parade," and "All The King's Men." He came to Hollywood in 1947 and began work as a page with NBC and after eight months was promoted to head of ticket distribution for the western division, then to his present position.

The 23-year-old former major in speech and dramatics at Tech, has also appeared in several television shows. He began work for the Lindsey theaters while in Tech, left college in '45 to become manager of the Rita theater in Victoria and announced for Radio Station KVIC there. He was a radio announcer in Palestine before going to Hollywood.

## SOCIETY

### Officers Chosen For Spring Semester By Three Tech Men's Social Fraternities

Three men's social clubs have elected officers for the spring semester.

Dean Allam, business manager of The Toreador and senior business administration student from Little River, Kas, has been elected president of College Club fraternity. Allam was elected at a regular meeting held Wednesday in the Hilton hotel. He replaces Winston Roberts, senior engineering major from Fort Worth.

Other newly elected officers are Allan Dunbar, junior agricultural major from Rock Springs, vice president, Robert Pfleger, junior agricultural major from Eden, secretary; Jack Douglas, senior agricultural major from Shamrock; treasurer; Jim Nash, arts and sciences junior from Dallas, corresponding secretary;

Billy Bales, engineering sophomore from Fort Worth, chaplain; Jimmie Hargrove, junior agricultural major from Rotan, sentinel; and Charlie Orren, engineering sophomore from Fort Worth, reporter.

**Centaur**  
John Huckabay, senior business administration student from Lubbock, has been re-elected president of Centaur, men's social club. Other officers who were re-elected are Wayne Harmon, senior engineering student from Dallas, treasurer; and Horton Russell, junior engineering student from Amarillo, secretary.

Newly-elected officers are Randy Nunneley, senior business administration student from Borger, vice president; Doug Record, junior engineering student from Fort Worth, corresponding secretary;

Bill Easter, senior engineering student from Graham, historian; Dick Wolff, senior engineering student from San Antonio, athletic director; Pug Hamman, senior arts and sciences student from Lubbock, rush captain; and Don Morris arts and sciences junior from Lubbock, reporter.

**Socli**  
Austin Rose, senior aggie major from Lubbock, was elected president of Socli, men's social club, for the spring semester, at a regular business meeting.

Other officers elected were Albert Troost, junior aggie major of Houston, vice president; Wade Vandell, senior business administration student from Plainview, secretary; Sam Hale, junior business administration student from Levelland, pledge captain; Dickie Buckles, senior agriculture major from Lubbock, sergeant-at-arms and reporter.

Plans for the Socli annual orchid dance were discussed at the meeting. The dance will be held Feb. 24 in the Lubbock hotel.

All officers were chosen at regular Wednesday evening meetings of the clubs.

### Women's Dorm Has Birthday Party; Sponsored By Social Committee

Social committee of Women's Dorm III sponsored the third party in a series of monthly birthday parties, Wednesday night in the dormitory.

These parties are for women whose birthdays occur within the school term. For those women whose birthdays fall during the summer, the committee combined the summer months with the winter months so that all the women in the dormitory might benefit from the function.

### Adams, Cannon Take Vivi Prizes

Jane Adams, as a harem girl, and Bill Cannon who represented a sheik, won first prizes in the "grand march" of the Las Vivaranchas annual Mardi Gras ball held Friday night at the Hilton hotel.

Two large gold theatrical masks were used for illumination and streamers and confetti completed the Mardi Gras theme. Couples attending were in carnival costumes and participated in a "grand march" preceding intermission.

Second prize winners were Pat Edwards, dressed as Bo Peep, and Bill Behrends as the sheep, Joan Chapman and Bob Statton took third prize with their costumes of the flapper and the farm hand.

### Heather Reception To Be February 2

Dr. George Heather, new dean of business administration, will be honored with a reception from 7 to 9 p.m. Feb. 2 in the Yaqui room of the Hilton hotel. Hosts will be Delta Sigma Pi, national honorary and professional fraternity for men business majors, and Phi Gamma Nu, national honorary and professional society for women business majors.

Dr. Heather comes to Tech from Florida State university, where he was professor and chairman of commerce. The new dean received his BS degree from Southwest Missouri State college. He earned both his MA and Ph.D. degrees from the State University of Iowa.

His wife, the former Mary Caroline Stewart, received her BA degree from Tech in 1945.

All faculty members and students of the business administration division are invited to attend the reception.

### Receiving Line

The receiving line will consist of Dr. and Mrs. D. M. Wiggins, Dr. and Mrs. E. N. Jones, Dean and Mrs. Heather, Retiring Dean and Mrs. Haskell Taylor; Eula Starkey, president of Phi Gamma Nu; Robert Berry, president of Delta Sigma Pi; Jan Clark, vice president of Phi Gamma Nu; Raymond Hall, vice president of Delta Sigma Pi; Dr. Reginald Rushing, professor and chairman of accounting and finance; Mrs. Ethel Terrell, head of the department of marketing and secretarial administration; T. F. Wiesen, professor and chairman of economics and management.

Other members of the house party will be representatives of Phi Gamma Nu, Virginia Brigham, Lee Doris Spector, Leah Maggard and Irma Rae Bayler; representatives from Delta Sigma Pi, Keith Schier, Gene Reno, Louis Kiker and Gale Rogers.

### Delight Hardin Becomes President Of Sans Souci Wednesday Evening

Delight Hardin, junior business major from Lubbock, was installed as president of Sans Souci at a business meeting held Wednesday evening. She replaces Gay Reeves who graduates in January.

Joan Conley was elected as one of the representatives to WICC from Sans Souci.

## Tech Parents' Club Being Organized By Students' Mothers In Fort Worth

Plans for organization of a Texas Tech parent's club are being made in Fort Worth by a group of mothers of Tech students from that city, D. M. McElroy, executive secretary of the Ex-Students association, said yesterday.

McElroy requested that all students from Fort Worth come by the Ex-Student office in the Ad building and give their name, and the names, addresses and phone numbers of their parents.

This information was requested by Mrs. Edward E. Aldridge, an active member in the organization of Tech students from Fort Worth might be contacted.

McElroy said he hopes that the

students will furnish this information because he hopes to see parents clubs organized all over the state. He said he believes that the activities of alumni and parents' clubs could be coordinated with excellent results.

Mrs. Guy Rodstrom has been elected temporary chairman of the proposed club.

Students living in town, who plan to move into the dorm next semester, should make their reservations immediately at the dormitory business office if they wish to have a choice of rooms, Hubert L. Burgess, cashier in the dormitory office, stated.

## Board Of Directors Call Extra Meeting; To Convene Jan. 28

Tech Board of Directors will have a called meeting Jan. 28 in San Angelo to act on any business that has come up since the last regular meeting, according to Frank Junell, assistant to the president.

Main business at the called meeting will be the granting of short leaves of absence to faculty members.

Board members will call for bids for the construction of five buildings at the regular Feb. 25 meeting. Buildings to be considered are Agricultural, Engineering, Music, Home Economics and Science.

A daughter, Adrienne Gay, was born to Mr. and Mrs. Wilson B. Ward Jan. 6. Ward is an instructor in speech.

## Microgroove Recordings To Be Made For First Album Of College's Music

Recordings will be made early in February for an album of Tech songs entitled "Texas Tech on Parade," Prof. D. O. Wiley, Tech band director, said yesterday.

The new album will feature the combined music of the band, chorus and Glee club, he said.

The album will contain two records and five songs. Names of the songs to be included are the "Maiden Song," "Fight Raiders Fight," "Red Raiders," "College Mother Beautiful," and the song from which the album received its name, "Texas Tech on Parade," he said.

The records are of the long-playing microgroove type, which

are unbreakable, the band director stated.

Preparation of the covers, with their pictorial designs, has been underway since last spring, the director said. Campus buildings are to be pictorially depicted on the covers, he said, adding that a picture of the Ad building may be featured on the front cover.

Five hundred albums have been ordered, and it is expected that they may be released before the first of April, he said.

Fred Yeats, superintendent of the Chicopea Manufacturing corporation of Chicopea, Mass., will be on the campus next week to inspect textile engineering research work.
