## Pentagon cuts Texas bases

(AP) — Texas military bases will be cut back possibly as much as 150 million annually in a Defense Department entrenchment, a survey by Texas newspapers indicated yesterday.

The Pentagon announced Monday that the cutbacks will take place but is not expected to report until today on specific changes. Meanwhile, congressmen were getting the notices for their hometown installations.

**FOLLOWING IS THE LATEST** information on the base, the personnel to be lost and the estimated annual saving:

Ft. Hood, Killeen, 126 civilian, \$998,000.

### Apollo chief gives address here tomorrow

"The Apollo Program" will be the title of an address to the student body by Col. Frank Borman, astronaut, tomorrow 10:40 a.m. in the Municipal Auditorium, announced Jay Thompson, Student Association president.

Borman will show films from the Apollo program during the talk which will last about an hour. No classes will be officially dismissed, said Dr. S. M. Kennedy, vice president for academic affairs.

**BORMAN WILL BE HERE** for the three day International Textile Symposium conducted by the Textile Research Center in the College of Engineering.

Borman became an astronaut in 1962 and was the command pilot for Gemini VII, launched Dec. 4, 1965. Gemini VII lasted 330 hours and 35 minutes. Borman also participated in the first space rendezvous when Gemini VII docked with Gemini VI. He was the command pilot of Apollo VIII, launched Dec. 21, 1968, which was the first manned flight to orbit the moon.

## Murray asks Techsans to honor Smith

Since 1944, when Governor Preston Smith first entered the Texas Legislature as a representative from Lubbock and West Texas, through his terms as senator and lieutenant governor and now as the chief executive of the state, he has introduced and supported legislation to improve Texas schools through better salaries for teachers, funds for capital expansion and establishment of additional institutions of higher education.

**THIS SPRING HE SIGNED** into law legislation, which he sought for many years, creating a medical school at Texas Tech.

The faculty, staff and students of this institution have an opportunity to show Governor Smith we appreciate his efforts in behalf of Tech and higher education.

He and Mrs. Smith will be honored as "Distinguished Alumni" of Texas Tech University at a noon luncheon Friday in the Lubbock Municipal Coliseum. Arrangements have been made to accommodate 1,200 persons.

**AS PRESIDENT OF TEXAS** Tech, I urge as many of you as possible from faculty, staff and student body to attend. An outstanding program will be presented, one well worth your time and money.

Proceeds from ticket sales, after expenses, will go toward establishment of academic scholarships.

You may get your tickets from the Texas Tech Ex-Students Association or the Lubbock Chamber of Commerce.

Corpus Christi Naval Air Station, 136 civilians, \$1,193,712.

Bergstrom AFB, Austin, 21 military and 5 civilian, \$316,000.

Laredo AFB, no change.

Kelly AFB, San Antonio, 1,101 military and 250 civilian, \$15,837,000.

**FT. SAM HOUSTON**, San Antonio, 71 civilian, \$562,000.

Carswell AFB, Fort Worth, very little loss.

Southwest division, Army Engineers, Fort Fort Worth, 63 civilians, \$694,000.

Perrin AFB, Sherman-Denison, 814 military and 106 civilian, \$12,449,000.

Corps of Engineers in addition to Fort Worth, 6 in Dallas and one each from Houston, Texarkana and San Antonio, \$72,000.

**DYESS AFB, ABILENE**, 352 military, \$2,514,000.

Brooks AFB, San Antonio, 36 military and 26 civilian, \$557,000.

Ellington AFB, Houston, 81 military, \$753,000.

Lackland AFB, San Antonio, 79 military, \$749,000.

Ft. Wolters, Mineral Wells, 38 civilian, \$300,000.

**RED RIVER ARMY DEPOT**, Texarkana, 434 military, \$4,250,000.

Brooke General Hospital, San Antonio, 43 civilian, \$340,000.

Army Institute of Surgery, San Antonio, one civilian, \$10,000.

William Beaumont Hospital, El Paso, 23 civilian, \$182,000.

Military Intelligence Group, One job each at San Antonio, Texarkana, and Houston.

## Today students elect homecoming queen

Tech students elect their homecoming queen and her four court members today from ten semifinalists chosen last Wednesday.

The semifinalists are: Rene Brooks, senior from Hart, sponsored by the student chapter of American Institute of Architects; Angella Clement, Carrollton senior, sponsored by Alpha Phi; Lynn Cox, Ozona senior, sponsored by the Tech Rodeo Association.

**SUSAN HANCOCK**, senior from New Home, sponsored by Army ROTC; Janis Lynn Jones, Raton, N.M., junior, sponsored

by the Interfraternity Council; Peggy Kincannon, Pasadena senior, sponsored by Kappa Kappa Gamma.

Also Pamela Kirk, Borger junior, sponsored by Sigma Chi; Susan Morris, Dallas senior, sponsored by Alpha Tau Omega; Peggy Wooldridge, Claude senior, sponsored by Sigma Alpha Epsilon, and Barbara Zimmerman, senior from Oklahoma City, Okla., sponsored by Kappa Kappa Psi.

**VOTING WILL BE** from 8:30 a.m. to 4:30 p.m. in the Union, English, C&ME, BA, and FL&M buildings.

## Show tickets now on sale

Tickets for the Homecoming concert and dance are now on sale in the Union at \$2 each. Sonny and Cher will be featured in the concert from 8:30-10:30 p.m., and Smith will follow with a 10:30-midnight dance. Both events will be in Municipal Coliseum Saturday.

## Standing committees confirmed by senate

The Student Senate confirmed the six standing committees associated with university operations after a special called meeting last night.

Committees and chairmen include: academics, Bonnie Craddock; allocations,

Tom Walsh; government operations and relations, Lynn Hamilton; rules, Jim Gilbreath; judiciary, Mike Anderson and student life, Allen Sofar.

**A COMBINATION OF** the former public

## Students choose ugliest man on campus today

Penny-a-vote polls will be open from 8 a.m. to 4 p.m. today in the Union as Tech students have an opportunity to select the "Ugliest Man on Campus."

The Tech Interfraternity Council is sponsoring the search for the "UMOC" to raise funds for a Halloween party for local underprivileged children. Candidates were nominated by the 12 social fraternities on campus.

Those mutilated men roaming the campus today terrorizing in the best Halloween spirit include Larry Vaughn, Delta Tau Delta; David Barr, Kappa Alpha; Phil Jones, Kappa Sigma.

**DICK JULSONNET**, Alpha Tau Omega; Mike Price, Beta Theta Pi; Tom Webster, Sigma Nu; Bob Livingston, Sigma Alpha Epsilon.

Ronnie Collier, Sigma Chi; Steve Atwood, Phi Kappa Psi; Billy Kizer, Phi Gamma Delta; Trooper Keeton, Pi Kappa Alpha; and Steve Rivers, Phi Delta Theta.

The "Ugliest Man on Campus" and his four runners-up will participate in the Homecoming Parade on Saturday morning, despite the complaints of the "Beautiful the Hub" Club. The "UMOC" will be crowned by Rapid Ricky Romero at the wrestling matches tonight in Fair Park Coliseum.

## Warfare firm linked to Mafia

WASHINGTON (AP)—A Pennsylvania manufacturing firm linked to the Mafia by a Senate subcommittee has won millions of dollars in defense contracts from the Pentagon.

Medico Industries Inc. of Pittston, Pa., currently is working on a \$4 million contract to produce parts for rocket warheads used extensively in Vietnam.

**SINCE 1966**, the firm has received about \$12 million in Army, Navy and Air Force contracts. Pentagon records indicate it has performed well on all its defense work.

Medico Industries' present contracts do not involve classified material. However, a Pentagon spokesman said the firm and its principal officers had a security clearance from Jan. 28, 1968, to June 20, 1968. It was terminated at the company's request—a request which Pentagon sources said came after security officials asked for additional information about its officers.

**THE COMPANY'S NAME** has cropped up

in the organized crime investigations of a Senate subcommittee headed by Sen. John L. McClellan, D-Ark.

In 1964, McClellan's subcommittee listed Medico Electric Motor Co., later to become known as Medico Industries, as a principal hangout of Russell A. Bufalino, whom it described as "one of the most ruthless and powerful leaders of the Mafia in the United States."

William Medico, former president and now general manager of Medico Industries, was listed in the same report as among the "criminal associates" of Bufalino.

**IN A TELEPHONE** interview, Medico said he has no business interests with Bufalino. He said he has known Bufalino all his life.

If any derogatory information is found, it is up to the Defense Industrial Security Command at Columbus, Ohio, to determine if it is serious enough to warrant further investigation.

## Freshman Council sets goals for 1969-70 year

The Freshman Council set its main goals as "better spirit and better communications between representatives and students," in regular session Sunday.

Other goals are money making, service projects and academic recruiting.

"The goals which the Council have set will be the basis for a successful year," Larry Wharton, president pro-tem said.

**JOE PARKER**, president, said, "We need to establish communications. The goals have been set, but it is up to the student body to carry them through."

Better communications will be established by dorm meetings, posting of council minutes, a newsletter, a suggestion box for freshmen, and open council meetings.

The council has planned a spirit march for freshmen Oct. 31. Freshmen will

assemble at 6:15 p.m. at Murdough and march to the Wiggins Complex. If the weather is bad the marchers will meet at the Men's Gym.

"**THE SPIRIT** depends on the students, not just the representatives," Buddy Warren, vice-president said.

The Council, which has been in session for about 5 weeks, has also planned an organizational fair for early January and a dance for Spring semester.

Mickey Jarrett, treasurer, said, "We have the money to support activities, but we need the cooperation of all freshmen to make our plans successful."

Officers of the Council include: Joe Parker, president; Buddy Warren, vice-president; Barbara Horsman, secretary; Larry Wharton, president pro-tem; Denise Westbrook, AWS representative and Mickey Jarrett, treasurer.

**FRESHMAN COUNCIL** — These representatives of the freshman class have proposed plans for better communication between members of their student body. Left to right the officers are Joe Parker, president; Mickey Jarrett, treasurer; Buddy Warren, vice-president; Barbara Horsman, secretary, and Denise Westbrook, AWS representative.

**LITTLE MAN ON CAMPUS**

"I SAID—I'VE SOME BAD NEWS, PHILIPSON—YOU'VE BEEN REASSIGNED TO HAZARDOUS DUTY WITH A STATE-WIDE COLLEGE RECRUITMENT DETAIL."

**Trinity initiates aerospace class**

SAN ANTONIO (IP) — A new interdisciplinary course in space exploration is being inaugurated this fall at Trinity University.

Entitled "Man and Space: Fundamentals of Astronautics," the course is directed by Paul A. Campbell, M.D., former commander of the School of Aerospace Medicine.

Campbell says the sophomore-level course will deal "not only with the forces—historical and otherwise—which have culminated in space flight, and the fundamental laws, techniques and so on, which are required, but also will present implications both medical and technological."

Campbell's "Earthman-Spaceman-Universal Man" is the basic text of the course. The class, which meets for one hour three days a week, will be graded on a pass or fail basis.

Instructors from 14 different disciplines will present facets of the space effort which fall within their realms of interest.

Personalities of the space effort will be invited to present guest lectures. Movies, slides and other materials will be made

available for the course by the National Aeronautics and Space Administration. Field trips will include a planetarium and the School of Aerospace Medicine.

Special instructors for the space exploration course will be astronomer William Sherrill, Dr. Charles Berry of NASA and Dr. Hubertus Strughold, physician and acknowledged "Father of Space Medicine."

**About letters**

Letters to the editor of The University Daily should be sent to Editor, The University Daily, Journalism Building, Texas Tech, Lubbock, Texas 79409.

Letters should be typed double space on a 65-character line. The editor reserves the right to edit for length. Letters will be published as often as space permits.

All letters must have sender's name and address in order to be considered for publication.

However, the sender may request that his name be withheld from print.

*In restless nation*

**Campuses reflect spirit**

ANN ARBOR, Mich. (IP) — "Don't over-react to the demonstrators," says Michael Radock, University of Michigan vice president.

"Violence and disruption don't represent the college campus of this student generation," he said, suggesting that alumni and the public keep campus ferment in perspective.

"This is not to say," Radock said, "that campuses are tranquil, but neither is the society from which college students come and into which they graduate. Our restless campuses reflect a spirit of rebellion in a restless nation."

Radock said student concerns are focused on "relevance," "dialog" and "confrontation."

"We make a mistake if we lump together all forms of protest and all expressions of disagreement. We must not confuse issues with tactics used in confrontation politics—the dress, language and mannerisms designed to offend, upset and antagonize."

He also said more and more colleges and universities have emphasized that they cannot tolerate force and violence and few campus revolutionaries usually can be rendered relatively ineffective.

"If channels of communication

are open: "If legitimate complaints are recognized and sincere efforts are made to deal with them;

"If nonstudent agitators are isolated;

"If the campus community is kept informed; and

"If the establishment avoids over-reacting."

It is clear that if universities wish to govern themselves, they face the fact that there are boundaries beyond which conduct becomes unacceptable, Radock said.

He warned that if universities are unwilling to deal with these types of problems, "the power to do so will be lodged elsewhere. This would spell the end of free universities as we know them."

The United States is not unique in having experienced various forms of dissent and disorder

involving young people, Radock said. Other countries of the world, under varying forms of government, have had similar experiences.

Most students are not taking a negative approach in expressing their differences with the way things are, he said. Most students are too busy studying, or they are pursuing other means of making right what they find wrong.

A great number of students are helping in positive ways to improve community health services or provide legal assistance to indigents through legal-aid clinics. Others are working with senior citizens and campaigning for political candidates, Radock said.

"This is not to say," Radock added, "that a student who is tutoring a ghetto child one day may not be found at a sit-in

demonstration the next day."

Universities must be receptive to change," he said. "They must recognize that the status quo is not sacrosanct. They must create an atmosphere and establish procedures by which worthwhile changes can take place in an orderly way, and the free environment can be maintained."

# Tech prof studies moon geology

Studying the geologic history of the moon from a distance of plus or minus 250,000 miles and perhaps 3 1/2 or 4 billion years is a challenge undertaken last Monday by Tech Geosciences Prof. C. C. Reeves Jr., a paleolimnologist.

Reeves' specialty is the study of ancient lake beds, and the Lunar Science Institute of

Houston invited him to examine moon-cape pictures in an effort to determine whether water could have caused the rills and depressions observed by astronauts.

"I haven't had time to study the pictures thoroughly," Reeves said, following a trip to Houston made last week. "But at first

glance it looks as if there is a conflict of evidence.

"From the geological environment, it's not right to have evidence of water on the moon, yet morphological features are suspiciously like water formed features on earth."

The tendency to take "earth prejudices" into outer space also might enter into the puzzle,

Reeves said.

"There is so much water down here," he explained, "we may be taking our prejudices with us to the moon in assuming certain features were water caused just because similar earth forms were caused by water."

Reeves was invited by the Lunar Science Institute—at the suggestion of Dr. Harold Urey—to visit the Manned Space Center in Houston Oct. 23 and 24, and he made arrangements at that time to have certain pictures sent to him at Tech to make measurements and to study further.

He said he was also interested in the Surveyor expedition pictures which provided "good

vertical shots" of several moon features which could be related to water.

"The moon is so, so old," he said. "It may have looked just the same for 3 1/2 or 4 billion years, and that's a long time to preserve water-formed features."

The presence of water on the moon, he explained, would indicate that the moon at some time could have had the ability to support life.

**NARROWING THE GAP**—Three members of the team of five Texas newspaper executives visiting the Tech journalism department in an effort to bring about a closer relationship between student and the working press confer Tuesday with Journalism Chairman Wallace E. Garets, second from left. Team members shown, from left, are Sam Pierson, photographer for the Houston Chronicle and immediate past president of the National Press Members of the team not shown were Hal Taxel, vice president and advertising director of the San Antonio Express and News, and John Murphy, executive vice president of the Texas Daily Newspaper Association.

## Raider Roundup

**STUDENT EDUCATION ASSOCIATION**  
Tech's Student Education Association will meet at 7:30 p.m. tomorrow in the Mesa Room of the Tech Union. Refreshments will be served and the Texas SEA president will attend the meeting.

**NAEA**  
The National Art Education Association will hear Jack Trippi, cartoonist, at 7 p.m. today in the BA Building, room 131.

**COMPUTER USERS**  
A Computer Services Seminar will be conducted for the rest of the semester in Electrical Engineering, room 211. Topics and dates are: Today and tomorrow, "General Introduction to Computers" at 7 p.m. Today's topic at 7 p.m. will be Introduction to the Statistics Library. Nov. 4th and 5th at 7 p.m. will be "Basic PL-1 Programming."

**DOCTORAL DEGREE CANDIDATES**  
Origen Jewett James, Jr. will take the final examination for the degree of Doctor of Business Administration at 2 p.m. Friday Nov. 21 in BA Building, room 150. Jack M. Plummer, Jr. will take the final examination for the degree of Doctor of Philosophy at 9 a.m. Friday in Psychology Building, room 301.

**ASSBA**  
Ralph Thomas from Supervised Investors Fund will speak on "How to Chart Your

**Financial Future** at a meeting of ASSBA at 8:30 p.m. tomorrow in the BA Auditorium. The University faculty and graduate students are invited. A question and answer program will follow the presentation.

**FRESHMAN MARCH**  
There will be a freshman march to the pep rally Friday at 8:15 p.m. from the Mardough-Stangel pit.

**CIVIL ENGINEERS**  
The American Society of Civil Engineers will meet at 8:30 p.m. today in C&ME Building, room 52.

**BETA ALPHA PSI**  
Don Dorman of Main La Frenz & Co. will be the guest speaker and honorary initiate at the fall initiation of pledges for Beta Alpha Psi. This dinner meeting will be at 8:30 p.m. today at the Red Raider Inn Convention Center.

**FRESHMAN COUNCIL**  
The Freshman Council will meet Sunday at 7 p.m. in the Mesa Room of the Tech Union. All interested freshmen and members are urged to attend.

**SPAGHETTI SUPPER**  
All agricultural engineering students, wives, dates and children are invited to a spaghetti supper Friday at 8:30 p.m. in the Ag. Engr. Building. The \$1 tickets are available by contacting Bill Snyder, Terry Barton, Danny Lang, the department secretary or Mr. Dvoracek. They are

available till 5:30 p.m. tomorrow. Also all members are urged to help work on the float through Friday at 6 p.m.

**SOCIETY OF PETROLEUM ENGINEERS**  
The Society of Petroleum Engineers will meet Nov. 6th at 7:30 p.m. in the Mesa Room of the Tech Union. Refreshments will be served after the meeting.

**AMERICAN ARCHAEOLOGICAL INSTITUTE**  
The American Archaeological Institute will meet at 7:30 p.m. today in the Museum Auditorium. Prof. H. Stanley Loten will be lecturer.

**BLOCK & BRIDLE**  
All pledges and members are urged to attend the Block & Bridle meeting today at 8 p.m. in the Ag. Auditorium.

**SABRES**  
The Sabres will sponsor a car wash Friday from 9 a.m. till 3 p.m. at the Gulf station at 16th and University. The price is \$1 a car.

**DOUBLE T RIFLE TEAM**  
An organizational meeting will be held at 7:30 p.m. today in room 22 of the Social Science Building of the Double T Rifle Team.

**ALPHA EPSILON DELTA**  
Alpha Epsilon Delta will meet at 7 p.m. tomorrow in the Tower Room of the Chemistry Building.

**RECEIVES AWARD**—Alfredo Guzman of Mexico City has been awarded a \$500 scholarship in support of his studies in the Department of Geosciences at Tech.

## Army ROTC donations aiming for 600 pints

Tech Army ROTC is conducting a project to support the Lubbock Legal Secretaries Association in a blood drive to help pay back a debt of almost 600 pints of blood used by four local hemophiliacs.

Waldrop, 12, and Robbie Roberson, who is a Tech junior from Ranger, have undergone frequent operations in the past few years which have caused this combined debt of almost \$6,000 worth of blood.

The Tech Army ROTC has worked in cooperation with the

Secretaries Association for the past several weeks giving a total of 73 pints of blood.

"It has encouraged its members to donate and is assisting in the drive. Each Cadet who donates will be given an award and will be otherwise recognized. The ROTC will continue until their goals are met," Leonard Taylor, public information officer for the Army ROTC.

Donations may be made at the Blood Services of Lubbock at the corner of 5th and Ave. R from 9 a.m. to 5 p.m. weekdays. The mobile blood bank will travel to Reese AFB today to accept donors who cannot leave the base. It will also be in the Student Union Ballroom from 9 a.m. to 5 p.m. Nov. 5.

### Police using new recorder

Sparks, Nev. (AP)—Police here have begun using a new television tape recorder to keep a record of crime scenes and the activities of drunk driving suspects at the booking desk.

The all-purpose "videorecorder" includes a small television set, camera and video tape recorder.

"It has a thousand uses," says Police Chief Robert Galli.

The \$6,000 system is portable and can be set up in minutes at accident or crime scenes.

The boys, Robert Houston, 12, Delbert Dew, 10, Jimmy

**AROTC BLOOD DRIVE**—Tech Army ROTC is helping the Lubbock Legal Secretaries Association in a blood drive to help pay back a debt of almost 600 pints of blood used by four local hemophiliacs. CorpsDette Commander Kathy Griffis comforts the victim, Cadet George Smith.

# Action speaks out in education class

By JULIE McCABE, Staff Writer

Respond with the right answer and you'll be rewarded with M&M's. But a wrong answer may lead a direct path to the principal's office.

Dr. Drage H. "Bud" Watson, associate professor of education, employs such techniques as these in his Educational Psychology class.

Watson uses demonstrations and discussions as principal teaching methods. In conducting class, students sit in a circle and situations are acted out in the middle.

In one such situation, several students were called to the middle of the circle and instructed to carry on a discussion of junior high school students.

As soon as a student made a

positive comment about them, he was rewarded with a M&M. This tested the students' perception and gave him possible clues on how to conduct his own classes someday.

**IN ANOTHER** situation, Watson took on the role of an elementary student. He was late coming in from recess and had to go to the principal's office. A student from the class had to play the teacher and had to contend with the principal as well as with the student.

By acting out situations, the students learn how to handle different roles they may have to play as elementary and secondary school teachers. They also give the students a chance to apply the theories of learning and different approaches to education that they learn in class.

Watson's main objective is teaching "effective ways to work with people." In one situation, one student played a department store supervisor and another played a disgruntled employee. Each had another student behind them as an echo. As the employee and the supervisor discussed their problems, the echos interpreted what they were saying.

**IN AN** attempt to get at the heart of the matter, all switched roles; the supervisor became the employee and the employee, the supervisor. The echos also exchanged roles. In this way, students got practice in empathizing with others. It will also help them to relate their students and themselves to their environments.

Watson has been at Tech since fall, 1968. He received his bachelor's and master's degrees from Michigan State University.

and his doctoral degree from the University of New Mexico.

His past experience includes being a teacher, counselor, principal and assistant superintendent in public schools.

**WATSON'S** other activities at Tech include work on the Student Affairs Committee and being consultant to the Leadership Board.

He is also chairman of the new Student Affairs Committee for the College of Education. In its first meeting the committee decided to include students as members. A major project of the committee will be the better organization of the advising program, especially during registration.

Watson also taught a graduate course in counseling education and a Mexican-American education project.

## Professor honoree at dinner

Tech's curriculum is changing fast enough, however its ideas concerning the needs of students are not, said Dr. Howard Golden, retired marketing professor who is being honored at a dinner today at 7 p.m.

His retirement became effective on Aug. 31. "It was a mandatory retirement," said Dr. Billy Ross, professor of marketing. A teacher is required by law to retire at 65 unless he is asked to stay on.

Golden came to Tech in 1946 from Hardin Simmons where he taught in the business department. He has taught marketing at Tech for the past 23 years.

"I enjoy teaching very much," Golden said. He plans to go on teaching either at a junior college or another college. He also plans to do some writing on marketing services or the newer trends of marketing.

His educational qualifications include two years in high school, two years at West Texas State, one year at Texas A&M, six years at Hardin Simmons and 23 years at Tech.

## In Lebanese conflict

# Guerrilla leader dashes hopes for negotiations

(AP) — Guerrilla leader Yasser Arafat dashed hopes yesterday for a negotiated settlement of the violent conflict between his Arab commandos and the Lebanese army. Scattered fighting was reported throughout Lebanon.

"We fedayeen guerrillas will be inflexible in any peace talks or negotiations with the Lebanese authorities as far as the complete freedom of action of guerrilla operations and movements is concerned," the Al Fatah commander told a news conference in Damascus, the Syrian capital.

"I am doubtful," he said, "if any talks can be held."

Arafat accused the United States of meddling in the Lebanese-guerrilla crisis.

Lebanon, fearful that guerrilla raids from its territory will bring painful Israeli retaliation, has been demanding that the guerrillas coordinate their

activities with the Lebanese army.

An army crackdown on the guerrillas last week triggered the crisis in which at least 30 persons have been killed and scores were wounded.

As Arafat spoke, Lebanon's army commander in chief, Gen. Emile Boustany, flew to Cairo for talks with President Gamal Abdel Nasser of Egypt. Arafat declined to say whether he would go to Cairo or send a representative. The Cairo talks were intended to pave the way for negotiations

between the disputants.

The Lebanese government said Arab guerrillas attacked the town of Rachava, the village of Mashta Hassan and an army post at Aiba Monday night and Tuesday.

One Lebanese soldier was reported killed and four wounded in the latest clashes. The government said three guerrillas died, four were wounded and four more were captured. It also reported that a woman civilian was killed in the rocket attack on Rachava, 30 miles southeast of Beirut.

**American Telephone & Telegraph Long Lines Dept.**

Bachelor's and Master's candidates — Electrical, Mechanical, Civil, Industrial Engineering, Mathematics, and Physics candidates with broad interests in economic and management problems.  
Locations: Mid-West states initially.

**Southwestern Bell**

Technical students, particularly those seeking management and administrative assignments — E.E.; M.E.; I.E.; C.E.; Math-Physics.  
Locations: Texas and the Mid-West.

**Western Electric**

All Engineering disciplines needed to fill Technical Engineering positions in design, product, systems, military, research and management training.  
Locations: Southwest — Mid-West — Eastern and Northern States.

**Bell Laboratories**

Research and Development — B.S., M.S. and Ph.D. Candidates. Emphasizing E.E.; M.E.; Physics; Engineering Mechanics and Mathematical Sciences.  
Locations: New York and New Jersey vicinity.

**Sandia Corporation**

Master's Degree in Mathematics, Electrical and Mechanical Engineering, Bachelor's candidates of outstanding scholarship in Engineering considered for technical development program.  
Location: Albuquerque, New Mexico.

SIGN INTERVIEW SCHEDULE IN PLACEMENT OFFICE  
An Equal Opportunity Employer

# Army has problem with color in fabric

Permanent press fabrics, which have been cheered by the American housewife, should be able to do the same for the military services—but there is a color problem.

A Tech researcher in textiles explained it.

"You just can't have a regiment of soldiers with mixed and unmatched uniforms, even if the colors vary only slightly."

The optional uniform is not issued but purchased by individuals. The color factor has been reduced to a "very small one," he said, "and we are hopeful we can eliminate it."

## Activities during October

J. E. LOUGHLIN, manager of the Chemical Processes Pilot Plant in the Textile Research Center at Tech, is a member of a 10-man Committee on Textile Dyeing and Finishing of the National Research Council of the National Academy of Sciences.

The committee, which gives advice on military personnel supplies, met last week in Natick, Mass., to advise laboratories on durable press optional army uniforms. It also advises on textiles for protective clothing, parachutes or other military purposes.

"The problem," Loughlin said, "is like the problem faced by the woman knitting a garment. All the wool must come from the same dyelot to avoid the slightest deviation in color."

IN STAY PRESS fabrics, chemicals and heat combine to provide the permanent press. Even a slight variation can cause the khaki color or the olive green to turn yellow or brown.

"Even if the pants and shirt matched," Loughlin explained, "the man could rip his shirt, get a new one and then discover it didn't quite match the trousers."

"The original colors are important," he said, "and the light-fastness of the colors has to be greater than that for civilian clothing."

Loughlin is participating in research which would provide optional uniforms of cotton polyester with durable press and soil release properties, and also with polyester and wool fabrics.

Thursday: Bill Lucas, assistant professor of music, will perform in a music faculty recital at 8:15 p.m. in the BA Auditorium.

Friday: "The Deadly Game," a mystery-drama based on Friedrich Dürrenmatt's "Trappes," opens at Lubbock Theater Center for a two-weekend run. Directed by G. W. Bailey.

Saturday: Sonny and Cher give the Homecoming Concert, followed by the Smith, with the Homecoming Dance. Union-sponsored.

Sunday: Concert Americana, sponsored by the department of music, with the Tech Symphony and Choirs, 3 p.m., Municipal Auditorium.

Sunday: "Hush, Hush, Sweet Charlotte," 3 p.m. and 7 p.m., Union Coronado Room.

Nov. 5: Dr. Tom Gillette, "The New Morality," 8 p.m., Union Ballroom, Leadership Board.

Nov. 7: Return engagement of the Houston Ballet in Municipal Auditorium at 8:15 p.m., sponsored by Fine Arts Committee of the Union.

Nov. 7: "Who's Afraid of Virginia Woolf?" opens a week-long run at the Lab Theater. Directed by Pat Rogers.

Nov. 7 & 9: "Far From the Madding Crowd," 8 p.m. Friday, 3 p.m. and 7 p.m. Sunday, Union Coronado Room.

Nov. 10: Civic Lubbock presents "Cabaret," starring Tandy Cronyn, Municipal Auditorium, 8:15 p.m.

Nov. 10: Benjamin Bonney, Consul-general of Israel, begins the Union's International Week at 3:30 p.m. in the Union Ballroom. Sponsored by International Interests Committee.

Nov. 11: Ladislav Segy, "African Sculpture and Modern Art," 7:30 p.m., Union Ballroom, International Week event.

Nov. 12-13: Annual International Fair, featuring items for sale and on display from around the world, 8:30 a.m.-4:30 p.m., Union Coronado Room.

Nov. 14: Iron Butterfly at Municipal Coliseum, sponsored by KLBK.

Nov. 14 & 16: "The Odd Couple," Friday at 8 p.m., Sunday at 3 p.m. and 7 p.m., Union Coronado Room.

Nov. 15: After-game dance, 8 p.m., Union Ballroom, free.

Nov. 16: "The Lady's Not For Burning," by Christopher Fry, at 8:15 p.m. in Municipal Auditorium. A National Theater production sponsored by the Tech Artists Course.

Nov. 17: "King Lear," by Shakespeare, at 8:15 p.m. in Municipal Auditorium. A National Theater production sponsored by the Tech Artists Course.

Nov. 17: Dr. Andrew Cairncross, "The Background of King Lear," 4 p.m., Union Anniversary Room. Sponsored by Fine Arts Committee.

Nov. 18: Dr. Jackqueline Collins, "The Province of Northern Ireland," 7:30 p.m., Union Blue Room. Sponsored by Ideas and Issues Committee.

Nov. 20: Genesis II films will be shown at 10:30 a.m. and 1:00 p.m., 3:30 p.m. and 7 p.m. in the Union Coronado Room. Sponsored by Ideas and Issues Committee.

Nov. 21: "Mr. Roberts" opens a limited run at University Theater. Second production of the season. Directed by Dr. Clifford Ashby.

Nov. 21: The Fifth Dimension at Municipal Coliseum. Sponsored by KSEL.

# Placement Service

**AEINA LIFE & CASUALTY**  
Nov. 3 Bachelors Degree CHE, CE, EE, IE, Engr. Hist. Govt. Psych. BusEd. Eco. Fin. Mgt. Mkt. Advt. Ret.  
Offers full program of professional assistance and service, and sales in life, casualty, and group insurance.

**CHEVRON OIL COMPANY**  
Nov. 3 Bachelors or Masters Degrees: CE, EE, IE, ME, PE, PETE, Masters: CE, EE, IE, ME, PETE.  
Exploration, drilling, production processing and distribution of oil and petroleum products.

Exploration, production, transportation and marketing of petroleum and petroleum products, backed by program of research and development.

**UNIVERSAL OIL PRODUCTS COMPANY**  
Nov. 4 Bachelors or Masters Degrees: CE, EE, ME.

**WELX**  
Nov. 4 Bachelors or Masters Degrees: EE, ME, Geol., Geophys.  
Discovery of oil, production, transportation, processing and marketing including petroleum products and agricultural chemicals.

**THE DUNDEE GRADUATE SCHOOL OF INTERNATIONAL MANAGEMENT**  
Nov. 8 Bachelors Degree: Acct., BusEd., Eco. Fin. Mgt., all fields; Mkt., AgEco., Engr., Govt., Hist., Journ., Psych., Fr., G&S, Span., CE, EE, IE, ME, All other majors.  
Program for courses to prepare men and women for international employment.

**UNITED CALIFORNIA BANK**  
Nov. 3 and 4 Bachelors and Masters Degrees: Acct., BusEd., Eco. Fin. Mgt. (all fields), Engr., Govt., Hist., Psych.  
Provides the usual financial services including programs to assist in industrial development, also such services as leasing and computer services.

**WASHINGTON UNIVERSITY**  
Nov. 3 Bachelors Degree: Acct., BusEd., Eco. Fin. Mgt., all fields; Mkt., Chem., Math., Phys., CE, EE, IE, ME, and any other majors interested in Business Administration.  
Graduate School opportunities.

**BROWN AND ROOT**  
Nov. 4 Bachelors or Masters Degrees: CE, EE, IE, ME.  
International engineering contractors for heavy industry.

**THE CECO CORPORATION**  
Nov. 4 Bachelors Degree: Arch., CE, IE, ME, IndMgt.  
Reinforced concrete and steel structures and components manufactured and marketed.

**DALLAS POWER AND LIGHT COMPANY**  
Nov. 4 Bachelors or Masters Degrees: EE, IE, ME.  
Investor owned electricity. Power produced and distributed to home and industry.

**HALLIBURTON SERVICES**  
Nov. 4 Bachelors Degree: CE, EE, IE, ME, PETE, Phys. Masters: EE, ME, Phys. Doctors: EE, ME, Phys.  
Supplier of technical services to the oil industry.

**NEVADA POWER COMPANY**  
Nov. 4 Bachelors Degree: EE.  
A utility company which produces and distributes for industrial and home use.

**OTIS ENGINEERING CORPORATION**  
Nov. 4 Bachelors Degree: ME, PETE.

Design, manufacture and marketing of equipment to improve efficiency of oil production at the well.

**PAN AMERICAN PETROLEUM COMPANY**  
Nov. 4 Bachelors or Masters Degrees: Math, IE, and others with at least 15 hours of Mathematics.  
An integrated company, finding, producing, and processing, oil gas sulfur and related minerals and marketing them.

**J. C. PENNY COMPANY, INC.**  
Nov. 4 and 5 Bachelors Degree: Eco. Fin. Mgt. (all fields), Mkt. Ret. Advt. General merchandise retailer selling through stores and catalogs.

**SUN OIL COMPANY - DX DIVISION**  
Nov. 4 Bachelors or Masters Degrees: CE, EE, IE, ME, CHE, PETE, Chem.  
Discovery of oil, production, transportation, processing and marketing including petroleum products and agricultural chemicals.

**SUN OIL COMPANY - SUNCO DIVISION**  
Nov. 4 Bachelors, Masters or Doctors Degrees: Bachelors: EE, ME, PETE, Geophys. Masters: Chem. Phys., Math, Geol., Geophys. Doctors: Geol., Organic Chemistry.  
Discovery of oil, production, transportation, processing and marketing including petroleum products and agricultural chemicals.

**UNIVERSAL OIL PRODUCTS COMPANY**  
Nov. 4 Bachelors or Masters Degrees: CE, EE, ME.  
Invents and licenses processes and devices used in the oil industry.

**WELX**  
Nov. 4 Bachelors or Masters Degrees: EE, ME, Geol., Geophys.  
Discovery of oil, production, transportation, processing and marketing including petroleum products and agricultural chemicals.

**AMERICAN CAN COMPANY**  
Nov. 5 CE, EE, IE, ME.  
Manufacture and marketing of packaging used in industry.

**ARMY AND AIR FORCE EXCHANGE SERVICE**  
Nov. 5 Acct., BusEd., Eco. Fin. Mgt. (all fields), Mkt. Ret. Advt. AgEco. Acct. Engr., Govt., Hist., Math, Psych., P&N, Arch., Design and Construction, ME, Other Majors, if interested in merchandising, Retailing, Food, and Services Business.

**THE BELL SYSTEM**  
Nov. 5, 6, and 7 Bachelors, Masters or Doctors Degrees: CE, EE, IE, ME, Arch. (Construction), Eng/Phys., Math, Phys. Chem.  
Representing all divisions - chief business communications.

**THE DOW CHEMICAL COMPANY**  
Nov. 5 & 6 Bachelors or Masters Degrees: CE, EE, IE, ME, Chem.  
Produces chemicals for industrial use. Program for research and development and opportunity for educational advancement while employed.

**THE KROGER COMPANY**  
Nov. 5 Bachelors and Masters Degrees: AgE., AgEco., ANSE, Bairs Industry, Mechanical Agt., IE, ME, Acct. Fin. Mgt. (all fields), Chem., P&N, Other Majors.  
Retail food and drug distributor which processes and manufactures food.

**OKLAHOMA CITY AIR MATERIAL AREA Tinker Air Force Base, Okla.**  
Nov. 5 Bachelors or Masters Degrees: AgE., CE, EE, IE, ME, Phys., Chem., Acct., BusEd., Eco. Fin. Mgt. (all fields), AgEco., AgEd., Engr., Govt., Hist., Journ., Psych. Other Majors.  
Modification of structure, development of processes also services and maintenance for the Air Force.

**PANHANDLE EASTERN PIPE LINE COMPANY**  
Nov. 5 Bachelors, Masters: CE, EE, ME, Acct., Eco.  
Explore, drill, transport, store, and process natural gas, and distribute it.

**AMERADA HESS CORPORATION**  
Nov. 6 Bachelors or Masters Degrees: PETE.  
Exploration, drilling, production and marketing of oil gas, uranium and other chemicals.

**AMERICAN INTERNATIONAL OIL COMPANY**  
Nov. 6 and 7 Bachelors Degrees: Acct. Product research, manufacturing, distributing, and marketing of oil and oil products.

**GULF OIL CORPORATION**  
Nov. 6 and 7 Bachelors or Masters Degrees: CE, ME, EE, CE, PETE, Acct., Eco. Fin. Mgt. (all areas), Geol.  
Exploration, production, transportation, processing and marketing of oil gas and chemicals. Program of research and development.

**HEWLETT-PACKARD COMPANY**  
Nov. 6 Bachelors, Masters or Doctors Degrees: EE, IE, ME, Phys., Engr. Phys.  
Designer and manufacturer of electronic measuring instruments.

**JOHNSON SERVICE COMPANY**

## \$1,000 netted in Dallas hold up

DALLAS (AP)—A drive-in window of the American Bank and Trust Co. of Dallas was robbed Tuesday afternoon of about \$1,000 by a man who threatened the teller.

It was the second attempted holdup of the day in Dallas. An attempt at a drive-in window of the Bank of Dallas was frustrated when the teller began screaming.

Terry Dickens, vice president and cashier of the American Bank and Trust, said Mrs. Billie Cole, the teller, gave the robber about \$1,000 in loose currency.

Dickens said the robbery was a

young male and handed a note to Mrs. Cole saying, "Give me the money."

The cashier said the holdupman wore no mask. He was driving a late model automobile.

Mrs. Cole sounded the alarm at the moment she gave the man the cash. Dickens said the police were there as soon as he could run from the main part of the bank to the drive-in window.

**BOILER-MAKER BLUES**

Rain, rain go away

# Soggy fields blues plague gridders

**DUCK** — er, ah... goose... whatever, Raiders are working out in Mackenzie State Park to prepare for a bird of a different feather. Joe Matulich, Raider quarterback, meets an unidentified goose during a practice end run in the park. Tech's grid squad fled to the park to avoid soggy practice fields caused by recent fowl weather. Generally, the ducks and geese have Mackenzie to themselves when it rains. (Staff photo by Bruce Ott)

Wet weather thwarted Raider football workout attempts again yesterday as the Tech gridgers abandoned their on campus practice fields in favor of the higher ground and better drainage of the Mackenzie State Park baseball diamonds.

**TECH IS** entering their second week now of bussing players to Mackenzie for workouts because of rain. Monday's night workout, generally held under the lights of Jones Stadium, was moved into the men's and intramural gyms on the Tech campus.

**TECH HAS** been plagued throughout the season with rain and soggy fields. Since Sept. 1, Lubbock has recorded rain during 23 days, 12 of those rainy days being recorded during Sept. when the Raiders would normally be working for conditioning and pre-season polishing.

J. T. King, head Raider coach, said the make-shift practice fields are not ideal, but the Mackenzie area is the driest the Raiders could find in town.

King blamed bad conditioning on wet weather earlier in the year. The Raiders have constantly been hampered by soggy fields since.

**OVER 28** inches of rain have fallen in Jones Stadium since

August 5 according to King. Wet weather practice facilities are a must according to King. Arkansas and Texas each have provisions for wet weather workouts: Arkansas with indoor facilities and Texas with artificial grass.

Tech badly needs such facilities, King said, if the Raiders are to have winning ball clubs.

Don Sparks, team trainer, said Mackenzie provides "pretty good footing," but soggy fields cause sore legs. This shortens the time a team can workout. Mackenzie is soggy, but not muddy.

The park is the Raiders only alternative, Sparks said.

Weather forecasts give little hope the Raiders will be able to workout on a dry field before meeting Rice Saturday. Rain is forecast at a 50 per cent chance today and given as a possibility for tomorrow.

Despite wet weather and changed practice fields, Tech continues to prepare for Rice, however.

## Barry attempts to remove ban on Warriors

**SAN FRANCISCO (AP)** — Attorneys for basketball star Rick Barry and the San Francisco Warriors went before the U.S. Ninth Circuit Court of Appeals here Tuesday to appeal a preliminary injunction preventing him from playing with any pro team other than the Washington Capitals.

Barry has been playing with the Caps in accordance with a Sept. 28 injunction. However, he was injured and underwent knee surgery last week and is not expected to resume play until January.

The action stemmed from a \$10 million damage suit filed by the Caps claiming the Caps, not the Warriors, have a legal contract with Barry.

## Students fight for trees

**AUSTIN (AP)** — Work started Tuesday on making the University of Texas football stadium the largest in the South as 25 to 30 demonstrators watched from the muddy banks of Waller Creek. The school has 35,000 students.

**THE DEMONSTRATORS** had

stayed out all night — seeking refuge from the cold, misty weather by huddling under a nearby bridge — to protest the removal of large live oak and cypress trees. Some cried.

The big trees were knocked down last Wednesday and 27 persons, mostly students, were arrested as they tried to prevent the clearing work. Some had to be hauled down from perches in the trees.

**SOME 50 STUDENTS** planted small trees and grass Saturday on the creek banks as Texas, the nation's No. 2 college football team, played Rice across the street at Memorial Stadium. A court order which had held up construction work was dissolved Monday by Dist. Judge James

Meyers, and university grounds keepers took away the new shrubs Tuesday.

**THE STUDENT** newspaper, which had protested when the big trees were destroyed, advised in another editorial that "If students want to improve communications on campus, to encourage the university to obtain a master plan for growth or to protest the power politics of Frank Erwin, more effective ways can be found than getting arrested over tree stumps."

Erwin, chairman of the university Regents, was at the creek when the big trees were removed last Wednesday and reportedly urged workmen to hurry up as the demonstrators were hauled away.

## Houston lineup includes Levias at end position

**HOUSTON (AP)** — Coach Wally Lemm of the Houston Oilers said Tuesday he may start rookie Jerry Levias Sunday game against the best Patriots in Boston.

"Our game plan will not be finalized until Wednesday morning but Levias may start and if so, it probably will be at wide receiver in place of Mac Haik," Lemm told a news conference.

Levias, a speedster from Southern Methodist, caught four passes for 122 yards Sunday in Houston's victory over Denver.
