

1942 LA VENTANA GOES TO BED

Richard Crooks Signed For Appearance

Leading Artist Of Metropolitan Here In February

Schedule For Next Years Artist Course Released This Week

THE Tech Artist Course for next year will be the greatest one presented in Lubbock. This is the announcement made by the Artist Course committee, headed by Prof. R. A. Mills. And from their list of celebrated performers to appear it is certainly the truth. Albert Spalding, the world-famous violinist, will be presented in the year. Spalding has played the violin since he was 7 years of age being taught by Chiti, the famous

RICHARD CROOKS

Florentine master, Bufrago in New York, and Lefort in Paris. He was graduated from the Bologna Conservatory of Music at 14 years of age and received the highest honors ever accorded anyone since Mozart. Spalding is today one of the most popular of the world-famous violinists and plays every season from 60 to 90 concerts in the United States, besides an average of about fifty concerts a season in South America and, before the war, in Australia and Europe.

Paul Draper, brilliant tap dancer, and Larry Adler, harmonica virtuoso, are slated for a joint see ARTISTS COURSE, Page 4

Marriage Of Figaro Makes Hit At Tech

By MARY DUNBAR
Toreador Staff Writer

"THE Marriage of Figaro," Monday night at the Lubbock High School auditorium, closed the door of the last Artists Course program with a bang that caught up the enthusiasm of Tech students and swept it to the fall of the last curtain.

There are eight members who compose the troupe of The Nine O'Clock Opera Company. Backstage, before the first curtain call, they kept warming up in their dressing rooms, or wandering one by one to that cozy little space where there are chairs and a table that serves as a stop gap before going on the stage. I was introduced to each member of the cast as he or she settled in a chair or on the table to wait for David Otto, who was Antonio and Narrator, to give them the sign that the show must begin. They chatted with no apparent nervousness, made cracks, and sang "Deep in the Heart of Texas," like it has probably never been sung before.

The most ingenious thing about the Figaro troupe is that they have substituted a narrator for the usual awkward operatic sets, and backstage packing and unpacking is only a matter of a few short minutes. David Otto, the narrator, with his magnetic voice used an instrument of subtlety and dry humor, catches the audience off-guard and gets a majority of the laughs, which, by the way, are many, for this is a masterpiece of operatic buff.

Defense Program

Delegates to the Central AWS conference in Columbus, Ohio, April 8, 9, 10 were interested in hearing about BLOOD BANKS that so many of the colleges have. This would be one way that many Tech students could help win victory. Why not have one here? If you have a book you have finished reading why not take it to the Library and put it in the box for books to be sent to the Air Base because there is still a need for many more.

Five Thousand Persons Attend Engineers' Show

Approximately 5,000 persons attended the fourteenth annual Engineer's Show held here last weekend. They combed the chemistry, engineering and textile buildings from attic to basement looking at one exhibit after the other. Labs were open, equipment on display and demonstrations were given to the visitors who came from several states, from out of town, from Lubbock and hundreds of students.

Probably of greatest interest to the public was the Tesla coil, which generated two and one-half million volts of electricity, the demonstrations of synthetic rubber, and the reproduction of small grains. Many trick exhibits were arranged such as a magic water fountain, climbing arcs, jumping rings, phantom flowers and jumping balls. Visitors were allowed to shoot on the rifle range in the military building, watch demonstrations on actual blue printings and many other things.

Watson Carlock, senior engineer, was manager of this year's show. Kenneth Robbins, junior engineer, was assistant show manager and will be manager next year. Albert Bartell was publicity manager and J. G. Griggs, traffic director.

Feature of the show to college students was the machine created and placed in the chemistry building to measure the "velocity" or whatever of kisses. It was popular in most cases. Ash trays were given to couples who rang the bell.

TRACK MEET CANCELLED

The track meet that was slated to have been run yesterday with the Hardin-Simmons and A.C. squads was cancelled yesterday due to inclement weather conditions.

A tentative date has been set for the Raiders to meet the Cowboys in a dual meet here Saturday afternoon.

Lieut. Donald C. Miller, 1937 Tech graduate, is stationed with the 94th Bombardment Squadron in Pampanga, Philippine Islands, and word received by Cecil Horne, head of the department of journalism, Miller was a journalism major at Tech.

Talent Scout To Visit Tech, Will Audition Studes

Texas Tech has been invited to participate in the stage extravaganza, Varsity Vanities, to be sponsored this summer by Intercollegiate Circuit, Inc. The project is designed to give practical theatre experience to students with gifts in the field of popular entertainment.

The show is planned as a revenue-type or band act. The sponsors seek musicians, and attractive master of ceremonies, a line of show girls, dancers and dance teams, and good voices, as well as any good novelty or specialty acts.

Students chosen to participate will tour from four to six weeks early in the summer and will be paid a net \$25 a week, plus all transportation and living expenses. Charles Freeman, manager of Interstate's stage division, will have charge and is going to work immediately on the necessary arrangements. Varsity Vanities will tour Interstate houses and may later be offered to USO for entertainment in the camps. The show will probably open in Galveston. The student cast will be chaperoned on tour by authorized faculty counsellors whose expenses will be paid.

Tech students who wish to try out for places are requested to present their act before a local try-out committee composed of Dr. Julien Paul Blitz, Mrs. George Langford and Miss Anah Jo Penleton, next Saturday afternoon, April 25, from 3-6 o'clock in Room 202 Administration building.

Early next week Mr. Charles Freeman will come to Lubbock to audition the numbers selected by the local committee.

Students who expect to present numbers in the try-outs next Saturday are requested to sign up in the Speech Office, room 205 of the Administration building, before Saturday.

Patrick Captures Judging Contest

Scott Close Second, Wilkowske Is Third

Winners of the annual freshman-sophomore judging contest held on the campus Saturday afternoon have been chosen from the 52 agriculture students participating in the two phases of the contest, horticulture and agronomy. Awards will be presented at a regular meeting of the Plant Industry club April 27.

In the horticultural division, out of a possible score of 100 points, Leroy Scott of Wellington, placed first with a score of 748 points, Walter Patrick, Quitaque, placed second with a score of 722 points and Norman Goen, Floydada, was third with 721 points.

William Lee of Meadow placed first in the field crop division with a score of 756 out of 900 points. Second place was taken by John Haggood, Lubbock, who had 754 points and third place was Charlie

May Day, Fish Day or Dollar Day--400 Ducats To Be Sold

NO MATHEMATICAL mind is necessary to figure out that a picnic plus a dance plus a swim plus transportation, all for one lone greenback minus an amusement tax, equals one bang-up bargain—and unless at least 500 Tech freshmen invest \$1 of their allowances in a ticket entitling them to the entertainment bargain, the tradition of the annual Fish Day will cease to be a tradition. And that is no propaganda tale but a fact straight from headquarters.

"All freshmen—especially the Lubbockites—are urged to 'get on the wood' or we may not have a Freshman Day," states Everett Dale, freshman presby, in connection with the qualifications that freshmen must sell the minimum of 500 tickets by May 3 before they will be eligible to go, 500 being a majority number of the class. Less than 100 tickets have been disposed of, the territory sales leaving the town sales lagging far behind.

Resulting in an enticement to the boys in the breathing spell it affords their "dating funds," girls have agreed to "go dutch" on tickets in order to further a "group style" picnic, the typical couple and stag affair being taboo.

Home Economists Return To Normal, Open House Over

"We consider Open House to have been worthwhile and beneficial inspite of a decrease in attendance due to the shortage of tires," said Miss Margaret W. Weeks, dean of the Home Economics division.

Last year over 3,000 attended Home Economics Open House, but this year the attendance was about 1,000 less.

Unusual attention-getter was the emergency canteen service. A Red Cross ambulance sped up to the door of the Home Economics building, a "warden" dashed in and announced that the all-clear signal had sounded, and that there was coffee and sandwiches for all out front.

Style shows displaying fashions for war workers received the hearty appreciation of the visitors," said Laurissa Bratton, assistant manager. Overall, slacks and d brunck frocks were featured. These garments were made by the family clothing class.

Many visitors showed interest in the display of the foods and nutrition classes on vitamins from food vs. vitamin concentrates. Vitamin tablets were contrasted with the amount of food that contained equal amount of vitamin content.

Tenth Annual Home Economics Open House was sponsored by the Home Economics club. Miss Mayme Twyford, Home Economics club, sponsor, was faculty adviser. Marjory Ridley served as manager and Laurissa Bratton as assistant manager.

Bucy of Raymondville with 744 points.

In the horticultural identification phase of the contest Leroy Scott was first, Walter Patrick, second and Norman Goen third. Winners of the horticultural practice contest were Tolbert Coleman of Lubbock, first; James Potts, Lubbock, second, and Wayland Bennett, Loraine, third. Thurman Gardner, Ropesville, placed first in the crops identification phase and Leroy Scott placed second. John Haggood placed third. In the crops judging phase, R. V. Ball of Junction was first, Wilson Duffy, Meadow, second, and Joe Hill, Fort Worth, third.

When points were considered for both divisions of the contest, Walter Patrick ranked highest with 1448 points out of a possible 1800. Leroy Scott was second with 1446 points and Roger Wilkowske of Athens third with 1375 points.

Awards of gold, silver and bronze medals will be given for first, second and third places to winners in each major division. First, second and third place ribbons will be awarded for the various phases. Special awards will be made to the student who earned the highest total number in both divisions of the contest.

At the same presentation, gold medals will be given to members of the senior crops judging team who competed at Kansas City and Chicago in November.

He Resigns, But—

ART WEBER

He Takes Over,

DICK RAGSDALE

Summer Catalogs Released, Four Visiting Profs

Plans designed for a war time summer school are outlined and explained in the summer school catalogue which is now available at the Registrar's office.

The courses to be offered in each department are listed together with the instructor's name and the number of semester hours.

Four visiting instructors will be on the faculty during the summer session. W. B. Irwin, superintendent of the Lubbock schools, will be in the Education Department; George W. Kibler of East Texas State Teachers college will teach vocational agriculture; Wjoleta Nuss, Amarillo college, will teach in the Foreign Language Department; and Clara Elizabeth Pratt, Home Demonstration Agent of Lubbock county, will be in the Home Economics Department.

The schedule of classes is governed by Central War Time. Three semester-hour classes meet one hour and twenty minutes. Two semester-hour classes will meet fifty minutes.

Yearbook Is Named Highlight Edition

CLIMAXING a year of activities that keep journalism students in a whirl and Press building typewriters pounding, this year's La Ventana was "put to bed" last week, according to A. J. Kemp, editor. For the seventeenth time in the school history La Ventana staff members relaxed with the last dummy marked and copy written for the 1942 La Ventana.

The last copy for the yearbook was sent to the printers a week ahead of last year's schedule and officials announced that the books should be ready for distribution about April 15 or 20.

This year's book is called the "Highlight Edition" featuring outstanding events of the school year. Staff members announced that the annual would contain more color and feature pages than ever before in Tech yearbooks.

When asked how the annual would compare with books in the past and with last year's book, Editor A. J. Kemp's only comment was that if it was not better that the efforts of the staff had been a failure.

"Each year annuals should be better than those in the past or staffs are not on their toes. New developments and features are introduced each year so that it is not enough for an annual to be just as good, but it must be better for any progress to be made. Whether students will be as proud of their book this year as on past years remains to be seen but we hope so," said Kemp.

Almost simultaneously with the completion of work on the annual Business Manager Art Weber received a commission in the United States Navy and left for training at Annapolis. Weber came to Tech in 1938 and lettered in football, was student manager for the Red Raiders one year and was elected as La Ventana Business Manager last spring. Dick Ragsdale, who was elected for next year, will replace Weber to finish the year as business manager.

Under Weber's management La Ventana sales reached a new all-time record, topping the 2200 mark.

While He Relaxes

A. J. KEMP

A. H. Dept. Acts Host To Visitors

Tech's animal husbandry department was host to approximately 400 visitors Friday at the fourth annual Cattle Feeders day program.

Featuring a barbecue and tours of various feeding pens in Lubbock, the program got underway at 10 a.m. with registration. Dean A. H. Leidigh of the agriculture division gave the welcome address, and Henry G. Womble, chairman of the college relations committee of the Texas Cottonseed Crushers' association responded.

J. M. Jones, head of the division of range animal husbandry of the state experiment sub-station, discussed "Cattle Feeding at State Experiment Stations." "Fattening Lambs, With and Without Shelter" was the subject taken by Ray C. Mowery, professor of animal husbandry at Tech.

Politicos Mapping Election Campaigns

STARTING the political ball rolling with a democratic push, Techsians will convene at a student convocation in the Double T gymnasium Thursday morning at 11 o'clock to nominate Student Council officers to be elected April 30.

Officers to be nominated to act as the guiding forces in student government next year are the president, vice-president, business manager, secretary, representative to the Athletic Council and cheer leaders. Nomination of students to fill the positions of head yell leaders, one boy and one girl, will come jointly from the floor and from the Double T Association, which met Monday night to make recommendations.

Students vying for the Student Association offices of president, vice-president, secretary and business manager are required to meet certain qualifications before launching their election campaigns, namely, that they have maintained a C average throughout their college work and have passed a minimum of nine semester hours with at least a C average during the fall semester preceding the spring election.

At the time they assume office, the president and vice-president are required to have completed 90 semester hours, although 60 semester hours will meet the requirements set up for the offices of secretary, business manager, Athletic Council representative and cheer leaders.

Election of Student Council officers is scheduled to take place a week from the convocation for nominations, over which Harold Thompson, Student Council president, will preside. Following the custom for other student elections, secret, preferential voting will be employed. Ballot boxes will be located in the Administration, Engineering, Agriculture and Home Economics buildings, the polls remaining open from 8 to 5 o'clock.

College Calendar

- Today, April 22
- Social Clubs
- Plant Industry Club Banquet
- DFD Picnic for Patronesses, 5:30
- MacKenzie
- W.A.A. Dancing Class, 7-8, Gym
- M.I.C.C. Smoker
- Collegium Dinner, 7:30, Mexican Inn
- Sociology Club, 8
- Kappa Mu Epsilon Meeting, 7:30, J208
- Thursday, April 23
- STUDENT CONVOCATION-NOMINATION OF OFFICERS, 11, Gym
- YM-YW, 7:30, Seaman Hall
- A.W.S., 5, 220
- Student Council, 7:15, 214
- Alpha Phi Omega, 8, Playroom W, Dorm 2
- Senate Banquet, 8, Mexican Inn
- Friday, April 24
- Kemas Spring Dance, 9-12, Lubbock
- F.F.A. Picnic, 5, John Hardy Morgan Ranch

Student Council Officers To Be Nominated In Convocation Tomorrow, 11:00 a. m.

Taxation Of Philanthropic Bequests Is Not Justified

RECENTLY the Treasury department recommended to Congress, in connection with pending revenue legislation, that charitable and philanthropic bequests should be made subject to taxation.

Realizing that charitable and philanthropic enterprises of Tech students usually consists of an occasional dime or quarter begrudgingly given to the religious sect subscribed to by the individual students, the proposed statute seemingly has a remote and indirect interest to the student body of the college. However, when the benefits which are derived from the charitable instincts of American people are taken into consideration it becomes clear that the consequences of such a proposed tax would have immediate and far reaching effect on this student body as every other similar body in America today.

The Treasury department, in making this recommendation probably only took into consideration the fact that this country in its all out war effort will need money and more money in the very near future if it is to continue its present output. It likely realized that when a portion of an estate is made exempt from taxation, the revenue of the federal government is diminished. If such was the consideration of the department, then one very vital factor was overlooked and that is the gift supported institutions of America have been, for a long period of years, beneficial in unmeasurable quantities to the American people.

Many institutions of higher education, hospitals, homes for the blind and aged, the sick, the needy and the victims of every kind of human distress are maintained through generous philanthropic endowments. Progress in medical and other scientific fields has been made possible almost entirely on the basis of philanthropy. Religious enterprises, without exception, and cultural developments are also dependent upon benevolence.

A statute of the nature proposed would not only tax such bequests but in due time would tend to destroy them. Outstanding colleges and universities would be crushed by such a regulation; all religious undertakings would be wrecked; and literature, music and all the fine arts would be retarded if such a recommendation should be passed by Congress and become the law of the land.

Only if the government should attempt to meet the obligations and responsibilities thus removed by the taxation of charitable and philanthropic enterprises, could a national catastrophe be prevented. Such an undertaking on the part of the government could not be carried out without further increasing of the already over-burdened tax-payer. It is unlikely that such a statute would close the loopholes of tax evasion, and even if this purpose could be accomplished by such a statute, it would afford little compensation for the good that would be eliminated through taxation of the charitable enterprises.—J.C.

Quotable Quotes

(By Associated Collegiate Press)

"There is a possibility of the United States suffering defeat in the present war as a result of Americans failing to recognize their peril." *John DeBoer, director of student teaching at Chicago Teachers college, blames American voters for the presence of "persons in public life who do not believe in democracy."*

"Americans have always paid great deference to European culture patterns and the more uncritical among us have held a sense of inferiority. The average college graduate has had a greater knowledge of European culture than his own. The future will see a revival of interest in the cultural history of the United States. Close attention will be paid to American history, philosophy, literature and language. There will be a keener interest in American institutions, traditions and ideals. The well-balanced programs of secondary and higher education in the United States are likely to be characterized by a minimized emphasis upon European cultural antecedents and a greater emphasis upon American culture patterns." *Dr. Gordon S. Watkins, dean of the college of letters and science on the Los Angeles campus of the University of California, foresees new stress on American culture.*

Farmers basking in the "sunniness" of better incomes because of the present demand for farm products, would do well to remember there has always been a "rainy day."

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the campus of Texas Technological college at Lubbock by students of the Journalism department.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Techsians Say:

United States Should Not Sell Argentina Arms

By CLEM SIMPSON
Student Opinion Editor

Is the United States justified in refusing to sell arms to Argentina?

CHARLENE KING, junior B. A. major: Yes, Argentina has not tried to cooperate with us in our war effort as the other South American countries have.

GEORGE WILMOTH, freshman engineer: Yes, I believe our government is justified in this decision because of the present unsettled conditions of our southern neighbors.

DAN TURRENTIN, sophomore engineer: Yes, I think the need for arms is greater in our own battle with the Japs and in aiding Russia.

JIMMY PHARR, freshman civil engineer: Yes, we need all our arms and what we can sell should go to Britain and Russia who can use them more effectively.

JOYCE FAUST, sophomore arts and sciences student: Yes, because in our all-out effort for war production it would be foolish to allow a country of temperamental, easily swayed political standing to buy munitions which might be used against the Allies.

JOSEPH Y. BOYD, sophomore mechanical engineer: Yes, I think that the United States, England, and Russia should share arms in order to rid the world of the menace of Hitlerism, for in reality these three main powers are to be the final conquerors and we should not sell our arms to doubtful nations.

JOE T. SMITH, junior aggie: Yes, if we take upon ourselves the task of producing arms to save the world we must also assume the task of deciding where those arms will do the most good.

ELMORE SMITH, junior education major: Yes, I believe that we are, since Argentina refuses to declare war on the Axis. Even though she may not be our foe, it is clear that Argentina is not anxious to be our ally. Part of our present weakness now is due to the sale of arms to Great Britain, etc. So it would seem foolish to endanger ourselves further. And we do not want our soldiers shot with our own guns!

Nineteen Studes Enroll for Red Cross Course

Nineteen Tech students have enrolled in a Red Cross first aid course and will, upon completion of the five weeks' instruction, receive a standard certificate in Red Cross first aid.

These enrollees consist of students who completed the first aid course sponsored earlier in the semester by Alpha Phi Omega, thereby receiving invitations to enroll in the Red Cross course.

Batik Exhibited In Engine Building

A collection of batiks by Fred Dreher is now on exhibition in the laboratory of the architectural department in the Engineering building. The collection of 21 pieces will remain on exhibit until April 27.

Hangings in the exhibit include "Archangel of Judgement," "Angel of Annunciation," "Fiesta," "Silent Night," "Susanna at the Bath," "Funeral Barge," "Spring," "Green Mountains" and several others. They are batiks on a variety of fabrics: cotton, bagging, silk, crepe, unbleached muslin and satin.

Dreher's work is imaginative and decorative. His outlook is universal rather than regional. Dreher was born in St. Louis, graduated from a small Missouri college, and now lives in Virginia.

Yankees Learn Southern Draw From Tech Co-eds

By ELIZABETH YOUNG
Toreador Staff Writer

IF YOU'VE eaten ham without eggs or been on a picnic without food, you know how the conventionaires last week felt after a week of convention without sleep. Besides the journalism conventionaires to Dallas, five Tech delegates from the AWS and WSGA returned last week from Columbus, Ohio, where they attended the Regional AWS

conference at Ohio State University. The group of five girls left Sunday, April 5, and returned Monday, April 13. The delegates were: Onita Belle Hufstetler and Evelyn Cooper representing AWS, Katherine Henderson, representing Dorm No. one, and Jerene Verner and Elizabeth Young, representing dorm no. two.

Registration for the convention was Tuesday morning and business sessions and discussion groups continued throughout the week. Highlight of social activities for the entire convention was a dance at the Fort Hayes hotel Friday night when Ohio State boys were "drafted" to take conventionaires.

Taking two days and night to go and the same amount to return, the trip was made (chair car) via Amarillo, Kansas City, St. Louis and Chicago. Unfortunate so far as accidents are concerned, but very eventful so far as other things (?) go, both trips were made safely.

Touring the campus was a several weeks' job since there are around 10,000 students enrolled in Ohio State and from all appear-

Here's How Nazi Agents Operate

(From ACP Release)

Via short-wave broadcasts and floods of propaganda organs, the Axis powers are attempting to weaken morale and create unrest among millions of persons on the American home front and Allied battle-lines.

Here's what Hitler and Goebbels, Inc., would like for you to believe:

- (1) Democracy is dying. Its brief Golden Age span was only the brain-storm of false economists and dreamers.
- (2) Our armed forces are weak. America slept too long and too late.
- (3) The "New Order" is inevitable. It is natural outgrowth of democracy's decline and failure.
- (4) We are lost in the Pacific. America cannot gather her forces flung over thousands of miles of ocean expanse in time to begin an effective offensive against the Sun Emperor's islands.
- (5) Our West coast is in such danger that there is no point in fighting on.
- (6) The decadent British "sold us a bill of goods," playing us for America's great weakness, her gullibility.
- (7) Cost of the war will bankrupt us. Because American war chests cannot bear the heavy burden, inflation is inevitable.
- (8) Civilian sacrifices will be more than we can bear.
- (9) Stalin is getting too strong, and Bolshevism will sweep Europe.
- (10) Our leaders are incompetent, our Government incapable of waging war. Our one year of preparation is no match for Germany's two decades.
- (11) Aid to our allies must stop. American defenses call for use of American materials by Americans.
- (12) Our real danger is the Japanese, and we must join Germany to stamp out the "yellow peril."
- (13) We must bring all troops and weapons back to the U. S., and defend only our own shores.
- (14) Chinese and British will make a separate peace with Japan and Germany.
- (15) American democracy will be lost during the war, because war calls for strong leadership.—Kara Hunsucker.

Our West coast is in such danger that there is no point in fighting on.

The decadent British "sold us a bill of goods," playing us for America's great weakness, her gullibility.

Cost of the war will bankrupt us. Because American war chests cannot bear the heavy burden, inflation is inevitable.

Civilian sacrifices will be more than we can bear.

Stalin is getting too strong, and Bolshevism will sweep Europe.

Our leaders are incompetent, our Government incapable of waging war. Our one year of preparation is no match for Germany's two decades.

Aid to our allies must stop. American defenses call for use of American materials by Americans.

Our real danger is the Japanese, and we must join Germany to stamp out the "yellow peril."

We must bring all troops and weapons back to the U. S., and defend only our own shores.

Chinese and British will make a separate peace with Japan and Germany.

American democracy will be lost during the war, because war calls for strong leadership.—Kara Hunsucker.

Editorial: The Toreador

Texas Technological College
Lubbock, Texas

Dear Editor,
Since I know that you are generally kind enough to print any helpful hints for defense, I will submit a little foolishness composed by soldiers at this post in their lighter moments.

I hope that no one will think that we are griping about having to do our bit for none of us would quit now if offered the chance. The boys have to have a little fun and they usually do it by casting puns at the Army.

Sincerely yours,
Pvt. Charlie T. McCormick
318 School Squadron
Sheppard Field, Texas

P.S. I am a former student of Tech, and if you choose to print my little contribution, I would like a copy. I attended Tech in '40 and '41.

Editors note: The following poem was sent in Pvt. McCormick's letter. We are glad to hear from exes in the service or out and are particularly glad to hear how the boys "are talking it from Uncle Sam."

Out on the wind swept desert,
Old Sheppard Field is the spot;
Bothered with the terrible dust storms,
In the land that God forgot,
In the brush with our rifles,
Down in the ditch with a pick
Doing the work of Negroes,
And even too tired to kick,
Out with the cowboys and Indians,
Out where men get blue;
Out in the wind swept deserts,
So many miles from you,
All night the wind keeps blowing.

It's more than I can stand;
No! We're not convicts,
We're defenders of our land!
We're soldiers of the Air Corps,
Earning our meager pay;
Guarding people with millions,
For seventy cents a day,
Nobody knows we're living
Nobody gives a damn!
Back home they've forgotten
That we're loaned to Uncle Sam.
We're living for tomorrow,
Only to see our gals
 Hoping that it we do return,
She's not married to a pal,
Only three years we can stand it,
Three years of our life we've missed.

So don't let the Draft Board get you;
And for God's, don't enlist!

MOVIES Spoken In King's English

STATE COLLEGE, PA.—(ACP)—Most of Hollywood's movie stars speak the "King's English"—so named because it is the natural speech of 90,000,000 American living outside side of New York City, New England and the south.

That is the observation of M. Fred Hall, who has just completed a study of actors' speech under direction of Joseph F. O'Brien, associate professor of public speaking at Pennsylvania State college.

More than 52 per cent of 273 film actors who were observed in the study use the "General American" speech, Miss Hall found. This form of speech is characterized by retention of the letter "r" and use of a short "a".

Forty-four per cent, however, use the eastern American speech, which is characterized by dropping of the "r" and broadening of the "a"; the study revealed. This dialect is spoken by 11,000,000 persons living in New York City and New England. "Southern British" is also included under this designation.

In another study it was found that the Eastern American and Southern British dialects predominate on the legitimate stage. Seventy-two per cent of the stage stars were said to drop their "r's" and broaden their "a's" as opposed to 24 per cent who spoke general American.

CAPITAL to CAMPUS

ACP's Jay Richter Reports from Washington

JOBS...

Secretary of War Stimson has announced that 100,000 men and women will be trained for civilian war jobs—inspectors of Government factories, depots and arsenals, production workers, etc.—in Government and State-owned schools. Students will be paid \$900 to \$1,440 a year while in training. (Men trained must be "outside" Selective Service requirements.)

Civil Service here in Washington virtually assures stenographers a job within one week of filing application. Within the next few weeks Civil Service must furnish 1,000 stenographers to Washington war agencies.

Typing and shorthand skills are an excellent entering wedge if you are interested in working for Uncle Sam and can't discover any vacancies in your field. Your chances of transferring to the kind of work for which you are especially trained are termed "very good" if the specialty you are seeking ties in with the war effort.

WAR...
More than 5 per cent of the nation's 21 year olds who registered in the last draft are college students—some 136,700 of them. They were assigned order numbers March 17 and prospects of an early military career are very real

for most of them.

The War Department says that beginning June 1, quotas will probably call for men in both the first (21-35) age group and the second age group (20-year-olds and 36-45 year olds).

Local boards have been instructed to mail questionnaires to registrants in the second age group in "sufficient numbers to insure filing of the June call entirely from this age group if necessary."

According to an OCD survey of 400 college newspapers, more than half are sending the school paper free of charge to former students now in military service.

The University of Hawaii was included in the survey, but a letter from Frederick Tom, president of the Hawaiian A. S. U., explained that the student newspaper couldn't answer the questionnaire because publication stopped Dec. 7. Enrollment has dropped 65 per cent; almost the entire staff of the paper, Ka Leo O Hawaii, has left school.

Cost of Living Rises for Tech Men Students

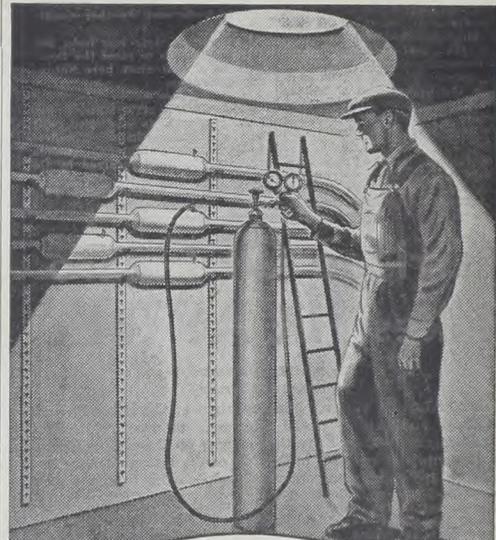

An increase in living costs for 123 men students who board and room at the same place was \$2.85 per month over the spring of 1941 as indicated in the annual spring housing report drawn up by the Dean of Men's office.

Costs of room and board range from \$25 to \$33 with an average of \$27.60. These figures are based on all houses registered with the office of the dean of men, not including the two men's dormitories.

Four hundred forty two men pay an average of \$8.60 per man per month, an increase of \$2.03 over last year. Of the 18 men students renting light housekeeping apartments, only one boy pays over \$10; 17 boys pay between \$7.50 and \$10 inclusive, showing an increase of \$2.024 over the spring of 1941.

A total of 59 men pay \$498 per month for bachelor apartments, making the average cost per man \$8.44 a month. This is an increase of 20 cents from last year.

Of the 1692 men students enrolled in Tech, 363 live at home or are married, 19 drive in, 43 live with relatives, 45 work for all or part of room and board, 1182 pay all or part of room and board, 22 lighthousekeep, and 18 have special approvals, not classified. All of these figures show a considerable decrease from last spring because the enrollment of men students has dropped from 2094 to 1692.

How to stop a drop of water!

A tiny pin-hole in a telephone cable can admit moisture, causing short circuits and service interruptions. But Bell System men have found a way of beating this trouble to the punch.

They charge the cable with dry nitrogen under pressure. Then should a leak develop, the escaping gas keeps moisture out. Instruments on the cable detect the drop in pressure... sound an alarm at a nearby station... indicate the approximate location of the break. A repair crew is quickly on its way.

To maintain and improve America's all-important telephone service, men of the Bell System are constantly searching for the better way. Pioneering minds find real opportunity in telephone work.

Loboes Lose To Raiders In Dual Track Meet

Callahan Stars As Tracksters Triumph

COACH Walker Nichols' trackmen turned on the steam in Albuquerque Saturday afternoon to swamp the University of New Mexico Lobos 80 to 50 in their second cinderpath victory within the week.

Of a possible 15 firsts the Raiders took 10. J. R. Callahan paced the field with four firsts—javelin, discus, shot put, and pole vault—and Maxie McKnight took first in both hurdles. Callahan also placed third in the 100-yard dash and started the mile relay.

Coach Nichols commented that his group was learning rapidly, calling special attention to Barton, Volz, Callahan, McKnight, Webster and McCulloch.

The fact that no outstanding marks were made, the coach said, can be attributed to the cold and wind of New Mexico. The Raiders were unused to it and could not stay warmed up, which hampered their performance considerably.

The 15 thin-clads who performed on the Albuquerque jaunt were Campbell, Mikesha, Burdett, Volz, Callahan, Webster, McCulloch, Williams, McKnight, Hargrove, Storrs, Barton, Rush, Cunningham, and Smith.

Roy Johnson, coach of the Lobos, commented that his team was outclassed.

The outcome:
Mile: 4 min. 48.7 sec.; Valdez, New Mexico; Campbell, Tech; Midesh, Tech.
440-yd. run: 54.4 sec.; Burdett, Tech; Volz, Tech; Boswell, New Mexico.

Pole Vault: 10 ft., 6 in.; Callahan, Tech; Brown, New Mexico; McEwin, New Mexico.
100-yd. dash: 10 sec.; Webster, Tech; Smith, New Mexico; Callahan, Tech.

Discus: 122 ft., 3 in.; Callahan Tech; Webster, Tech; Johnson, New Mexico.
Shot put: 40 ft., 8 in.; Callahan, Tech; Tafuya, New Mexico; Johnson, New Mexico.

High jumps: 5 ft., 10 in.; McCulloch, Tech; Young, New Mexico, and Williams, Tech, tie for second.
High hurdles: 16.4 sec.; McKnight, Tech; Hargrove, Tech; Storrs, Tech.
880-yd. run: 2 min., 10.1 sec.; Boswell, New Mexico; Barton, Tech; Valdez, New Mexico.

220-yd. run: 22.6 sec.; Smith, New Mexico; Burdett, Tech; Rush, Tech.
Broad jump: 20 ft., 5 1-8 in.; McEwin, New Mexico; Brown, New Mexico; McKnight, Tech.
Two mile run: 11 min., 25 sec.; Valdez, New Mexico; Cunningham, Tech.
Javelin: 158 ft., 4 in.; Callahan, Tech; Tafuya, New Mexico; Smith, Tech.
Low hurdles: 26.5 sec.; McKnight Tech; Brown, New Mexico; Williams, Tech.

Physical Fitness Theme of Annual P.E. Convention

Mrs. Langford, Department Head, Attends Conference

Physical fitness for victory was the theme of the 47th annual convention of the American Association for Health, Physical Education, and Recreation. Mrs. Johnnie G. Langford, head of women's physical education, has just returned from the conference that was held in New Orleans this year.

The American Association for Health, Physical Education, and Recreation calls the attention of men and women in adult life to the importance in these days of maintaining physical fitness. A variety of activities is desirable, such as sports, riding, dancing, gardening, hiking, bicycling, and various kinds of conditioning exercises, to be carried on regularly.

Mrs. Langford said the conference stressed the importance of physical education departments throughout the United States to take the responsibility of improving and putting into effect the program of physical fitness. These departments should concern themselves not only with the problem of physical fitness in the schools, but also in the communities.

Westerners Win Track And Field Events Saturday

Lubbock High's Westerners walked away with track and field events of interscholastic league district no. 3 here Friday and Saturday.

The Westerners piled up a total of 37 1-2 points. The Mustangs of Olton managed for 21 points and second place, and Littlefield's Wildcats took third place with 19 points.

Adrian Hammit of Hale Center sparked Saturday's program of finals. He made for his school 12 of the 15 points it got in placing fourth.

Milner Thorne of Lubbock stayed close on Hammit's footsteps in the meet that saw three old records smashed and one tied.

New records set were: 200-yd., low hurdles, 23.8 seconds over 24.3 seconds by Milton Price of Spring Lake; 440-yd. relay, 45.9 seconds over 46.2 seconds by Littlefield; and discus throw, 138 feet and 2 inches over 130 feet and 9 inches by Francis May of O'Donnell. Thorne tied old record of 15.8 in high hurdles.

This is the first time since 1939

During the past few years there has been a definite trend toward the increase of physical education activities. Now, more than ever before, it is essential that the youth of America be physically fit for whatever service can be rendered. As a result of this ever increasing need, colleges are answering with broader and more intensive health and recreational programs.

Raiders Contest A.C.C. and H.S.U. In Track Events

Raider track and field men were in Abilene yesterday contesting with Abilene Christian college and Hardin-Simmons university in a triple match in what was probably their most gruelling day. With only two days rest from the Albuquerque match, Coach Walker Nichols and his boys went down yesterday morning, took part in the meet, and returned last night.

Next engagement for the scarlet tracksters will be in the Border Conference track meet in Tempe, Ariz., May 1 and 2. The team will leave two days early, the coach indicated, to allow for a resting period in Tempe.

Making the trip yesterday were the 15 who performed in Albuquerque last Saturday, Nichols said. The same group will likely be taken to the Border Conference meet.

Scarlet Racquetees Win Dual Meet Here

For their fourth triumph meets this season, Texas Tech's racquetees downed the Buffaloes from West Texas State 4 to 2 in a dual match here Friday.

Prior to the match here last week, Tech netmen, under Coach James G. Allen, had defeated Texas School of Mines, North Texas State Teachers college and Southwestern to the University of Texas immediately after Easter for their only defeat thus far.

In the match Friday a new and powerful doubles combination was found in putting together Max Munn and Lloyd Brunson. With the new team as a spearhead the Raider netmen are looking forward to Border conference events next month with considerable confidence.

Tech copped both doubles matches and split the singles two and two.

Results of singles matches were: Clark Jones of Canyon defeated

Francis Hightower of Tech, 6-1, 4-6, 6-2.

Max Munn of Tech defeated Duncan Kirkpatrick of West Texas State 6-2, 6-2.

David Storey of Tech defeated Gerald Matlock of West Texas State 6-1, 6-1.

Bobby Sheen of West Texas State defeated Jack Shanks of Tech, 6-1, 4-6, 6-3.

Results of the doubles matches were: Munn and Brunson defeated Jones and Sheen, 10-12, 6-2, 6-1.

Hightower and Storey defeated Matlock and Kirkpatrick, 7-5, 6-2.

Artist Course

Continued from Page 1

concert. The two young American artists brought their fresh new gifts to New York for the first time this season. This is their first tour and from their first concert they have been hailed as on the happiest ideas in the entertainment field. Draper, the tap dancer with the extraordinary ballet technique, and Adler, the harmonist, who has appeared with the nation's symphony orchestras, will appear here in a program that ranges from the popular to the classic, to music of George Gershwin and Scarlatti, Irving Berlin and Bach.

Eleanor Steber, young American soprano of the Metropolitan Opera Association, will appear here in October. She made her debut with the Metropolitan in December, 1940, as Sophie in "Der Rosenkavalier." Her subsequent appearances have included this and other roles, including that of Micaela in "Carmen" and the Countess in "La Fille du Regiment." This is her second concert tour, the first of last year taking her as far west as Kansas. The brilliant impression which she made in a single season is indicated by the fact that the Newspaper Convention, meeting at the Waldorf-Astoria in New York, chose her as their soloist, succeeding the great Kirsten Flagstad, last year's soloist.

In February Richard Crooks will be presented. Crooks is probably the best known of all American opera singers today. Crooks was really discovered by Lena Geyer, the great German contralto, who predicted great things for him; however, she did nothing for him in a monetary way. This he had to do for himself. After studying in Europe he made his debut as Caccavradossi in "La Tosca" at the Hamburg Opera, then sang the same roles at the State Opera in Berlin. German critics called him a "new star in the operatic firmament."

Jack Abbott, Julius Young, Bobby Johnson, Jack Brown, Rhea Mitchell, Pledges and dates attending will be: O. G. Hill, Pat Blount, Dick Martin, Emmet Hinson, Carl Minor, Jess Bailey, Bill Montgomery, Jimmy Williams, Raymond Ince, Henry Jones, Frank Chaney, Cecil Brancum, Eli Kingberry, Charles Ritter, Alvin Eppes, Bernice Cosanaugher. Other members and pledges attending will be: Paul Crawford, Norman Igo, Paul Nail, Harold Thompson, Bill Thurman, Fred Thacker, Rex Harris, and Loyd Brunson. Sponsors T. C. Root and H. A. Anderson will also be present.

Special guests will be: President and Mrs. Clifford B. Jones, Mr. and Mrs. Haskell Taylor, Mr. and Mrs. E. H. Plank, and Dean and Mrs. James G. Allen.

Girlie's Playday Will Be Saturday

All work and no play make women students dull things. Sooo comes the day of play held each year for all the little girlies who want to let their hair down and romp around. Tech will hold its annual play day Saturday, April 25th, a day of play purely for play's sake.

Women's Recreational association and members of the women's physical education department of Tech will sponsor the fun fest. The day of play is open to any girl who wishes to attend. Registration fee will be 25 cents which covers cost

★ Designed For Those Campus Review With 8-9 Classes ★

Lonnie Langston, former Tech mathematics professor and now with the Southwestern Life Insurance company, spoke to the freshman business administration Monday afternoon on "Life Insurance and Its Place in the Business World." Mr. Langston has received a diploma from the American Insurance Underwriters, the only West Texan to have this honor conferred upon him.

The business administration marketing class meets this afternoon at 3:15 o'clock at the Santa Fe Passenger Station, where R. E. Bayless, local agent, will discuss the transportation of railroads under present war economy. Mr. Bayless will explain how the war has affected the transportation rates, sale of tickets and other phases of the railroad business.

Applications for the Roscoe Wilson Memorial scholarship in foreign languages to become effective during the long session, 1942-43, are being accepted according to Dr. Chas. B. Qualia, head of the department of foreign languages. The stipend of \$30 a month for nine months is paid to a student majoring in foreign languages. Selection is made in the spring by the departmental staff and announcement of the scholarship winner is given at the Capa y Espada spring banquet, to be held this year on May 4. Applications should be addressed to Dr. Qualia.

Ruth Gillespie and Wilma Ruth Forbis discussed "The Art of Love" by Ovid at a meeting of SPQR held Tuesday night. A

of the lunch to be served on Tech field. Registration will be held all day Friday in the Administration building, Library building, and the Home Economics building. Girls will also be able to register in the gymnasium Saturday morning from 8:00 until 8:30.

Bicycling is being offered for the first time this year. Among a few of the other competitive events to be held Saturday are volleyball, baseball, badminton, archery, ping-pong, tumbling, tennis, and many others. Little does it matter whether a girl is an expert or an amateur in a particular sport, because play day is being held for all girls simply for the good clean fun and sport of the affair.

Men's Inter-Club Council To Give Smoker Tonight

In recognition of Tech club members and pledges who have distinguished themselves this year, the Men's Inter-Club Council will sponsor their annual spring smoker tonight at 7:30 at the Lubbock Hotel.

A scholarship plaque will be presented to the club making the highest scholastic average during the 1941 fall semester, the plaque being awarded to the Silver Key club for the spring semester last year. The best pledge of the spring semester will also be recognized.

Charles A. Guy, Avalanche Journal editor, and Major J. K. Kneuss will be the principle speakers on the occasion. Members of the Council and the clubs they represent are Bob Bandeen, College Club; John L. Phillips, Kemas; Homer York, Silver Key; Jack Longley, Soci; Arnold Maelker, Los Camaradas; Pete Harmonson, Wrangler; Wayne Finell, Centaur.

quartet composed of Rex Lowe, Miriam Peckham, I. D. Walker and Roger Jones gave several numbers, and the group sang Latin songs. Plans were begun for a Latin club picnic in May.

Sociology club and the class in marriage will hear Abdul Mehta in a joint session at 8 o'clock tonight at 2627 Twenty-third st. on "Mohammedan Marriage and Family Customs." Officers of Sociology club for next year will be elected. Nominating committee consists of Edith Newman, Gladys Marie Evans and Neyland Hester.

Philosophical society had its annual picnic for members and dates yesterday evening in MacKenzie Park. Kid games were played. Dorine Tucker, vice-president of the club, was in charge of refreshments. Election of officers for the coming year will be held at the next meeting, May 19.

George Arensman, senior industrial engineer from Dallas, left this week for Camp Barkley, where he will report for active duty. He is a reserve officer.

Dr. A. H. Rogers DENTIST 2318 Broadway Lubbock, Texas

Forum Holds Installation And Initiation Rites

Gary, Brannen, and Forbis are New Officers of Forum

Twelve members were initiated and officers for next year were installed into Forum at the traditional sunrise service held Sunday for the honorary organization of outstanding junior and senior girls. New officers, the only three junior members of the society this year, are Frances Gary, president; Marguerite Brannen, vice-president and Wilma Ruth Forbis, secretary-treasurer.

Retiring members, who were headed this year by Mildred Hankins, attended a slumber party at the home of Onita Belle Hufstelder Saturday night. The group, together with initiates, had Sunday morning breakfast at the home of

Dean Mary W. Doak, 1917 Seventeenth street, ate dinner at Women's Dorm No. 2 and then conducted a monthly Fireside Forum in the dormitory playroom Sunday afternoon.
