NINE CANDIDATES SEEK THREE JOBS

Red Raiders Teams Enter Tempe Meet

BY VERNON BUNDRANT
Treador Sports Editor

TECH'S track and field and tennis teams will participate in the eleventh annual Border conference meet in Tempe, Ariz., Friday and Saturday, the respective coaches announced definitely early this week.

Former plans of riding a chartered bus and taking three teams—golf, track, and tennis—were thrown out by wartime restrictions on chartered buses. The golf team elected to make a swing through South Texas instead of attending, and the other two teams are going in private cars.

Accompanying the teams will be Coaches Walker Nichols, James G. Allen, Berl Huffman, and Athletic Director Morley Jennings. Both teams plan to return here Sunday. The track team will leave here Thursday noon and arrive in Tempe about 4 p. m. Friday, Coach Nichols said. Preliminaries begin at 10 a. m. Saturday, he stated, with finals scheduled for 6 o'clock that evening.

Tennis Team Leaves Today
The tennis team, composed of Captain Francis Hightower, Max Munn, David Storey, Lloyd Brunson and Jack Shanks will leave this afternoon, James G. Allen, coach, said.

Matches with New Mexico Military Institute at Roswell will be played this afternoon, the coach said. A return match on Tech courts has been arranged with NMI for May 16, he stated.

Allen said that his group planned to reach Tempe in time for registration at 8 o'clock Thursday night. Preliminary matches begin at 8 o'clock Friday morning, with "finals as soon as they get to them," which will likely be Saturday afternoon.

Maximum Team Entered
The maximum team of four—Hightower, Storey, Munn and Brunson—plus an alternate, Jack Shanks, has been entered in the tournament.

Teams have been divided into A and B brackets in both singles and doubles to facilitate competition and elimination. Hightower and Munn will play in A-bracket singles, and Storey and Brunson will play in B-bracket singles.

Hightower and Storey will play together in A-bracket doubles and Munn and Brunson will play together in B-bracket doubles.

Track Picking Up Interest
Track and field, hitherto considered minor sports here, have taken on major importance. Coach Walker Nichols reported that some 40 boys had come out for track practice this spring.

In the few meets the Raiders have entered this year several men have turned in singular performances. Nichols has normally taken 15 men for meets but the rules of the Border conference permit only 10.

Accordingly he has entered the following men for the several events: J. V. Burdett, 440-yard run, 220-yard dash, 1-mile relay; Weldon Barton, 880-yard run, 1-mile relay; J. R. Callahan, 220-yard low hurdles, 1-mile relay, pole vault, discus, shot put.

John Campbell, 1-mile run, 2-mile run; Luther Cunningham, 1-

Coed's Calories Snipped, Sugar Becomes Priority

Coeds will be forced to cut down on their calories following the sugar rationing registration that is to be held on this campus May 4-7, for everyone who is away from home over 18 years of age.

Registration for the cards that are necessary for anyone to be allotted sugar will take place in only a few days. There after every one will have to drug the sweat tooth with his maximum amount of sugar which will be one-half pound each week.

Very soon, sweets—like tires, lawn mowers, and girdles—will be only pleasant memories of pre-war days.

Such rationing will no doubt be a bother, but since there is very definitely a sugar shortage, the individual allocation is the fairest and safest way to handle such a situation.

The "meal ticket" system of sugar rationing, allowing citizens this small amount, will go into effect after April 28.

Fish Day Queen Will Be Elected

Candidates for a freshman queen who will reign on "Fish Day" will be nominated at a meeting of the freshman class Thursday night in room 101 of the Chemistry building at 7:15 o'clock.

The queen will be crowned at a dance in the Tech gym which will culminate the activities of "Fish Day" on Friday, May 8. Only those students who have purchased tickets for the occasion will be eligible to cast a vote for the queen in the election to be held some time next week.

Five hundred tickets must be sold or all activities for the annual freshman frolic will be canceled. Tickets are on sale for one dollar each.

Frank Green, 1941 graduate from the division of agriculture, visited the campus this week. He will be inducted into the army May 5.

Representatives Of Armed Forces To Visit Tech

Representatives of the U. S. Navy and Air Corps are scheduled to be on Texas Tech campus the first week of May, for purposes designated in an official notice to Dr. H. L. Kent.

Navy representatives will be at Texas Tech May 1, 2 and 3, to explain to men students the opportunities available in the Navy. All men students who have not already applied for or been accepted as volunteers in one of the armed services are urged to meet this group in the Double T gymnasium at 5 p. m., May 1, in order to hear the explanation of the possibilities for enlistment.

The Navy party will be here all day May 1, to discuss possibilities with students, and the general meeting to address all men students will be held in the gymnasium at 5 o'clock on May 1. On May 2 and 3 the party will be here to receive applications and give examinations to candidates. Examinations will be given in the office of the department of physical education for men.

On May 4, a representative of the Air Corps will visit the college to explain to all men students the possibilities of a new plan for enlisting in the Air Corps and going in on an inactive status, remaining in college for at least a year after enlistment. This representative will address all interested men students in the gymnasium at 8:30 p. m., on May 4.

C. V. Bullen, professor and head of the department of electrical engineering, was in Abilene last Monday night to visit a course in Radio Engineering fundamentals which Tech is sponsoring in that city.

Wool Received In TE Department

Textile engineers received 450 pounds of wool last week from which they are now making light weight suiting in attractive patterns. The material will be on sale by the department when it is finished.

According to textile engineering professors, it is impossible to buy virgin wool anywhere now, and the materials made from synthetics do not have the wearing qualities of wool.

The wool will make 1000 yards of cloth and their dates went on a picnic Friday evening at Mackenzie park. Including professors and dates there were 38 present, who played softball and ring games.

Members of the Dairy Manufacturers club and their dates went on a picnic Friday evening at Mackenzie park. Including professors and dates there were 38 present, who played softball and ring games.

Prof Wiley To Judge Contests For High Schools

Prof. Wiley, director of Tech's Matador band, will leave for Jackson, Miss., tomorrow to act as judge of a state high school band concert.

Professor Wiley will be gone three days, after which he plans to return to resume work on the final band concert to be given early in May. The concert will be comprised of numbers directed solely by student conductors, in order to give the band majors public direction experience and show the public what advancement is being made toward developing band masters.

Names of the student conductors and what numbers they will direct will be released later, said Professor Wiley.

Tech To Set Up War Conscious Summer Program

The newly designed summer school that is being introduced on the campus of every war conscious college over the country is correlated by the plan set up by Texas Technological college for its 1942 summer session.

This program enables freshmen just entering school to get a degree in any field within three years. Upperclassmen will be able to get off a full semester's work during the summer.

A full offering is being set up in the four divisions—agriculture, engineering, home economics, and arts and sciences.

During the entire fifteen weeks of the summer session all twenty-five campus buildings will be open for students with library, laboratories, shops, and other equipment available for use.

Recreation activities on the campus will be stressed more than usual this summer. Provision has been made for an outdoor recreational center, the "Green," immediately south of the Administration building. A varied program of entertainment features will be presented three evenings each week. Admission to these recreational programs will be limited to holders of recreation tickets. The program for the summer will include concerts and popular lectures, both from the college staff and from outside talent.

Four Officials Win Without Opposition

Nine Techsians are getting on the march, putting their best foot forward, and mapping out a strategy that will assure political victory for three of them in their week-old campaign to be culminated tomorrow, April 30, and all opponents with an eye to conquering a Student Council office of president, secretary or business manager.

Four Student Council offices are without opposition, the student nomination convocation last Thursday having put up lone contenders for the offices of vice-president, Athletic Council representative, head boy cheer leader and head girl cheer leader.

Capping these offices are Robert Hargrove, Jerry Beavers, James Gunter and Bill Williams, respectively.

The campus-wide election is scheduled for tomorrow, the customary secret, preferential voting system to be employed. Following this system, each student should place number 1 in the space opposite first choice, number 2 in space opposite second choice, etc., until all spaces are filled. Ballot boxes located in the Administration, Home Economics, Engineering and Agriculture buildings, will remain open from 8 till 5 o'clock.

The official Student Officer election ballot will be as follows:

Representatives Of Armed Forces To Visit Tech

Representatives of the U. S. Navy and Air Corps are scheduled to be on Texas Tech campus the first week of May, for purposes designated in an official notice to Dr. H. L. Kent.

Navy representatives will be at Texas Tech May 1, 2 and 3, to explain to men students the opportunities available in the Navy. All men students who have not already applied for or been accepted as volunteers in one of the armed services are urged to meet this group in the Double T gymnasium at 5 p. m., May 1, in order to hear the explanation of the possibilities for enlistment.

The Navy party will be here all day May 1, to discuss possibilities with students, and the general meeting to address all men students will be held in the gymnasium at 5 o'clock on May 1. On May 2 and 3 the party will be here to receive applications and give examinations to candidates. Examinations will be given in the office of the department of physical education for men.

On May 4, a representative of the Air Corps will visit the college to explain to all men students the possibilities of a new plan for enlisting in the Air Corps and going in on an inactive status, remaining in college for at least a year after enlistment. This representative will address all interested men students in the gymnasium at 8:30 p. m., on May 4.

Supporting their candidacy for Student Council offices are the following statements of the candidates:

President
P. B. Shannon, junior arts and sciences student from Levelland, "I am a junior government major and expect to be graduated in June, 1943. During the three years that I have attended Tech, it has been necessary for me to earn my own expenses. I have represented Tech for 3 years in Intercollegiate Debate and elected to membership in Alpha Chi.

Is Tech Too Big A School To Sponsor A Fish Day?

IS TECH becoming too big to have our traditional fish day? Are we losing the class consciousness that has prevailed for so long? If Tech is to remain the school that we have so long cherished, this consciousness must return. We must be congenial with all classes, but must back any project our class attempts to undertake.

Yet with only three days left in which to meet their deadline on ticket sales, less than half the quota required have been sold. In three days, more than three hundred tickets must be sold. If the fish day picnic is to be held, five hundred tickets must be sold before Sunday, May 3. To date, their have been less than two hundred tickets sold.

Freshmen officers are working hard to make this fish day a successful one. What few tricks they haven't pulled heretofore, will be worked this week end. Freshmen representatives will be placed at every one of the polls Thursday, freshmen representatives will again be placed in booths in the Aggie, Home Ec, Engineer and Administration buildings Saturday. To try to make this day a successful frolic, a few freshmen, are working day and night, while others assume an attitude of negligence toward buying their tickets.

If Tech is to continue its feeling of democracy, if freshmen are to continue wearing "slime" caps, if upperclassmen are to continue to be called "Mister" the present year freshmen must see to it that such a venture can be made a success without any more effort than possible. The feeling of indifference must be erased. A freshman must be proud of his first year, and must be able to tell the underclassmen in the years to come, how much worse their class is than in the year in which he served as a fish.

Yet how can the class of '45" tell freshmen in years to come of their year as an underclassman without blushing, if the present stock of slimes can not arouse enough interest to sell less than half their class a dollar ticket to an annual frolic, one that has become a tradition.

Come on fish buy a ticket. Spend a buck. Let's not let the spirit of Tech die without giving it a battle.

Let's Take Advantage Of Democracies Privileges

WE AS TECH students and Americans have long been proud and boastful of the fact that this country possesses a government which represents the will of the majority with consideration for the whims of the minorities; that Texas Tech is a democratic school, where everyone is equal; where the major officers are elected by popular vote of the entire student body and not appointed by college officials.

As idealistic as these statements may seem, when they are analyzed and when statistical facts related to the number of votes cast in previous elections, it is evident that they are not altogether true; our school government as well as our national government in reality represents the desires of only a majority of the small per cent who cast votes.

In the recent campus election for publications officers only 1250 votes were cast, less than one half of the student body found time, felt it their duty, or considered it worth while to voice their opinion in selecting persons to fill major offices during the next school year.

Excuses offered by students for non-voting the forgetfulness, inertia, indifference, disapproval of all candidates, and the belief that one vote will not change the outcome of the election any way.

While it is true that one vote does not always alter the final outcome of an election, each vote is significant and voices the opinion of one constituent of a very vital body composed of some 2,900 students. Many who have endured for the past four years felt that their duty to the school is over and that it will be of no importance to them who occupies the coveted offices in the student council; others realize that they are crossing the portals of this college for the last time for various reasons hold the same viewpoint in regard to matters of voting. To those who adhere to these beliefs, recall the early days of your college career when collegiate politics were as puzzling and foreign as Hottentot in a refrigeration car.

Although it may seem a trivial thing to do, take a few minutes of your precious time Thursday and vote the persons of your choice, but be sure and vote.—J.C.

Techsans Say: Campus Chapel Is Worthy Project But It Can Wait

By CLEM SIMPSON
Student Opinion Editor

Do you consider a chapel built by contributions a worthy campus project?

HERMAN GARRETT, freshman B. A. student: A \$25,000 chapel built on the Tech campus would certainly have a decided influence in counteracting the general dispersion of information by preachers that "Satanic schools will ruin your child; will teach him atheism and send him to hell." The cost of erecting the chapel will be \$25,000, divided by an estimated 1,200 students who are regular or semi-regular with their religious activity. This would be an average of \$21.00 per student. The building if properly erected should stand 25 years. The cost would then be, consider the fact that Tech will continue to grow as in the past, about \$1 or less per student per year. A campus chapel should be worth one dollar a year to a student who would like to encourage the growth of Christian influence.

GENE LANFORD, sophomore pre-med: This might influence more students to attend religious services, but I am afraid that the various denominations would not agree as to how they would want to run the chapel.

TOMMY PERRY, freshman aggie: Yes, if you could get it by contributions. It would be all right. I think we should finish the museum, or try to get a new gym more than anything else.

CURTIS STERLING, freshman aggie: No, I don't think it would be a worth while project to begin now considering the world crisis and conditions of our country. It would be a good idea later on.

NEAL ROBERTS, freshman electrical engineer: My opinion is that this is a worthy project. The money could be put to no better use.

JUANITA CALDWELL, freshman home economics major: Yes, a chapel on Tech campus would not only add to the beauty of our campus, but it would also serve as a needed guidance for the morals of Tech students during days of war and peace.

JACK WOLTMON, senior agricultural student: No, not at the present time. I think all contributions should be made to the army and navy, or used to buy defense bonds.

RUTH ALLEDGE, freshman journalism major: Yes, I think the campus needs a chapel and that it would be a worthy project.

CHARLIE BUCY, freshman aggie: Such a project would be well worth the effort of the student body, but under the present conditions of labor and material shortages, I think this is an item to consider at some future date. A chapel, however, would create some friction as to the denominational gatherings.

In The Editor's Mail

Editor of The Toreador
Texas Tech
Lubbock, Texas

Dear Editor:
I should like to say that I agree with James Waterman Wise in that it would be a good idea to form a mixed Division in the army. I think that this would be a great step forward in uniting our nation.

I was born and spent all of my life in a town about two hundred miles from here; therefore, I think that I could be called a southerner. Nevertheless, I believe that Negroes are American citizens and should have the rights of an American citizen.

If you do not agree with Mr. Wise, I do not think that you have the right to say that the entire student body disagrees with him, without asking us. I think that an apology is due Mr. Wise.

Sincerely,
F. P.

Dear F. P.
I agree with you that a Negro is an American citizen and should enjoy the rights of citizenship.

Techsans Plant Asparagus, Will Use Four Types

One-fourth acre of asparagus has been planted on the college farm for the purpose of variety tests. Two varieties have been planted already and plans have been made for the planting of two more. Results in the past have been successful.

At the present time this part of the country does not have a good quality of asparagus coming in. If the plains people become interested in its production, the crop may become a leading West Texas vegetable, according to George O. Elle, instructor in horticulture.

Varieties which have been planted are the Mary Washington and the Martha Washington. Palmetto and Paradise, a new strain introduced in California in 1939, will be planted. The Paradise is grown extensively in California which produces about three-fourths of the total asparagus crop.

Theta Sigma Phi To Hold Annual Dinner May 8

Newspapermen And Alumnae Are Special Guests of Society

Theta Sigma Phi, women's journalism society, will have its annual Matrix dinner in the private dining room of Hotel Lubbock, Friday, May 8, at 7 o'clock. Principal speaker for the affair will be David Warren, president of the Texas Press Association and editor of a Panhandle paper.

Graduating seniors will be introduced. Georgia Lee Powers, president of the organization for the next year, will be toastmistress and will give a running history of members. Special guests are to be Prof. Cecil Horne, head department of journalism, Joseph E. Cowan, assistant professor of journalism, Charles A. Guy, editor of the Lubbock Avalanche and Journal, Charles of the Avalanche-Journal, C. M. Ratliff, managing editor of Avalanche-Journal publications, and alumni, Mrs. Howard Hoffman, Miss Evelyn Clewell, Miss Bernice Borgman, Mrs. Mack Smith, and Mrs. Louise Allen, sponsor of the Tech chapter.

Recognition was given to the various classes. Nancy Langford of Stamford represented the freshman class, Marydel Hawkins of Morton, the sophomores; Viola Archer of Lubbock, the juniors; and Shirley Reinhold of Lubbock, the seniors.

A toast to the Home Economics club of the 1942-43 session was given by Helen Walker of Olton. Singing of "Auld Lang Syne" concluded the program.

Helen Walker made arrangements for the banquet. Mary Leslie Culwell of Slaton was chairman of the hostess committee. Other committee chairmen were Erlene Dowell of Quail, decoration

Tippet Elected To Prexy Home Ec Club

OFFICERS of the Home Economics club for the ensuing year were announced at the tenth annual banquet of the club held Saturday night in the girls' new dormitory.

Doris Nell Tippet, junior vocational home economics education student from Lubbock, was elected president. Opal Thacker, sophomore vocational home economics major from McLean, is the new vice-president.

Secretary for the incoming year is Miriam Mesding, a junior foods and nutrition major from Slaton. Sarah Ima Niell, a junior from Santa Anna, was elected treasurer. Miss Niell is also a vocational home economics education major.

Miss Mildred Horton, vice director and state home demonstration agent of A&M college, who was to have been the principal speaker, was unable to be present. In her absence Mrs. Pauline Frey, secretary of the club, discussed Miss Horton's work and told of some of her accomplishments in the field of home economics.

Miss Jean Spencer of Ralls, president of the Home Economics club this year, presided at the banquet, which was attended by approximately 250 students and faculty members of the home economics division and their guests. Miss Margaret W. Weeks, dean of home economics, welcomed guests.

Dean J. M. Gordon delivered the invocation.

Recognition was given to the various classes. Nancy Langford of Stamford represented the freshman class, Marydel Hawkins of Morton, the sophomores; Viola Archer of Lubbock, the juniors; and Shirley Reinhold of Lubbock, the seniors.

A toast to the Home Economics club of the 1942-43 session was given by Helen Walker of Olton. Singing of "Auld Lang Syne" concluded the program.

Helen Walker made arrangements for the banquet. Mary Leslie Culwell of Slaton was chairman of the hostess committee. Other committee chairmen were Erlene Dowell of Quail, decoration

Officers Elected In Pre-Law Meet

Pre-law club elected officers for 1942-43 at their last meeting. P. E. Shannon was elected president; Travis Sheldon, vice-president; Elizabeth Young, secretary and treasurer; Rodrick Shaw, chief justice; Paul Bell, attorney general; Mack Kennedy, public defender; Douglas Shaver, first associate justice; Billy Simms, second associate justice; Jackson Fisk, parliamentarian; Noel Johnson, clerk; Wilber Jensen, sheriff; and D. R. Larson, sponsor.

Members of the club voted to have a picnic sometime in May, and Hazel Dickinson, F. B. Shannon and Wilber Jensen were appointed as a committee to make plans for it.

Dr. Charley E. Friley, president of Iowa State college, is new president of the North Central Association of Colleges and Secondary Schools.

The Greatest Air Army in the World
Needs Flight and Ground Crew Officers

NOW FOR COLLEGE MEN A NEW OFFICERS' TRAINING PLAN

★ New Deferred Service Plan Allows You to Continue Your Education ★

FROM coast to coast—in the skies over America—there is a thundering drone of fighting ships. The mightiest air fleet in the history of the world is mobilizing for victory!

So fast is it growing that there is a place here—an urgent need here—for every college man in America who can qualify for Officer's Training.

The U. S. Army Air Forces need Officers... Flying Officers and Ground Crew Officers. And many of them must come from the ranks of today's college students—men who make their plans now for the necessary Aviation Cadet training.

Thanks to a newly created Air Force Reserve plan, men of all classes—within the ages of 18 to 26, inclusive—can enlist for immediate service or continue the scholastic work required for graduation before being called for active duty.

You must meet the requirements for physical fitness, of course. In addition, you take a new simplified test to determine your ability to grasp the training. A college man should pass it easily.

\$75 A MONTH DURING TRAINING

Those accepted who wish immediate duty will go into training as rapidly as facilities permit. As an Aviation Cadet, you are paid \$75 per month, with \$1.00 a day for subsistence, with quarters, medical care, necessary uniforms, clothing, equipment, traveling expenses.

In 8 months you can win an officer's commission on the basis of your training record in competition with other Aviation Cadets. You can become one of the musketeers of the air—a bombardier, navigator, or a pilot—and be well started on your way to serve America and advance yourself in aviation.

MANY BRANCHES OF SERVICE

There are also commissions awarded in ground crew service. College men particularly will be interested in the requirements for Armaments, Communications, Engineering, Meteorology, Photography. If you have extensive engineering experience your chances of getting a commission are excellent.

This past year about 80% of all Aviation Cadets were commissioned as Second Lieutenants—about

THREE ENLISTMENT PLANS FOR COLLEGE MEN

Juniors • Sophomores • Freshmen
May Continue Their Education

1. A new plan allows Juniors, Sophomores and Freshmen in college, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standings.

All College Men May Enlist for Immediate Service

2. All college students may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until they are ordered to report for Aviation Cadet training.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Force Enlisted Reserve Plan is part of an over-all Army Enlisted Reserve Corps program shortly to be announced. This program will provide opportunities for college men to enlist in other branches of the Army on a deferred basis and to continue their education through graduation if a satisfactory standard of work is maintained. In case of necessity the Secretary of War shall determine when they be called to active duty.

It is understood that men so enlisted will have the opportunity of competing for vacancies in officer's candidate schools.

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not alter regulations regarding established R.O.T.C. plans.)

67% as flying officers. Those who do not qualify remain in the Air Forces on an enlisted status and have further opportunities.

As a Second Lieutenant on active duty with the Army Air Forces, your pay ranges from \$183 to \$245 a month.

AVIATION — THE COMING INDUSTRY

The opportunities for aviation in civilian life have barely been touched. You will bring to those opportunities not only the best training in the world—but the executive ability of an Army officer's training and experience, which have always commanded a premium in business life.

ACT AT ONCE

If you want to fight for America, this is where you can strike deadly blows against our enemies.

If you want advancement—years of solid achievement and education that can never be duplicated—this is where you belong.

If you want to be up there in the middle of things—when the enemy cries quits—your place is here—in the Army Air Forces.

FLY WITH YOUR FRIENDS

A special squadron for training is now forming at this college. You and your friends can share together the work and fun of training. If you plan to enlist immediately, start getting your necessary papers ready for the Aviation Cadet Examining Board when it meets in your locality. For complete information, see your Faculty Air Force Advisor. You can take your mental and physical examinations the same day you apply. Get further information now.

★ ★ ★

NOTE: If you wish to enlist, and you are under 21, you will need your parents' or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants. Obtain the forms and send them home today—you can then complete your enlistment before any Aviation Cadet Examining Board.

SEE YOUR FACULTY AIR FORCE ADVISOR FOR FULL INFORMATION

(Or Apply to Your Local Recruiting and Induction Station)

the Tech student body." Marguerite Brannen, junior home economics student from Littlefield: "Having had two years' experience on the Student Council, I am running for reelection as secretary because I think that my experience has made me more capable to fulfill the duties of this office and would enable me to improve the work I have attempted to do this year as secretary." Since I think a student officer should maintain a commendable scholastic standing, I am glad to say that I have a "B" average in all my college work.

I want to work in close contact with the student president, the student body, and the administration, and if reelected, I will put out my best efforts. I would certainly like to be your student body secretary for next year."

Willouise Humphries, junior arts and sciences student from Lubbock: "I feel that I am qualified to hold the position of secretary as I have had similar experience previously; but, most important, I would like a chance to serve Tech and its student body."

Business Manager

Clovis Gordon, junior engineering student from Arlington: "You have my assurance that I shall do my part to help keep Tech a live, growing school by giving you conscientious efficiency, and by helping bring students and council closer together."

Norman Igo, junior engineering student from Ralls: "In support of my candidacy for the office of business manager of the student body, I wish to state that I believe I am qualified for such a position, inasmuch as I have held the office of treasurer of the Engineering Society and served as Assistant Director of the Military Department during the 1942 Engineers' Show."

Should I be elected to the position, I wish to assure you that I shall do my best to honestly and efficiently carry out all the duties of the office, always with the best interests of the students in mind. I would sincerely appreciate your votes."

Elroy Schoppa, junior arts and sciences student from Vernon: "Fellow students, in offering myself as a candidate for the office of business manager of the Student Council, I am mindful of the fact that this office requires a thorough knowledge of accounting. I am an accounting major; this gives me specific qualifications for this office. I realize that with the decrease of enrollment in our next school term, it will be more necessary than ever to handle the funds of the Student Council in the most economical way. I am prepared to do this if I am elected to this office."

Freshman Honor society is sponsoring "Valley of the Sun" showing Thursday, Friday and Saturday at the Tech theater. Lead roles in the Clarence Budington Kelland story are played by Lucille Ball and James Craig. Proceeds will be used to help defray banquet expenses of the annual initiation banquet next month, and an advance ticket sale is being made according to Ophelia May Beall, president.

Ko Sharis Elect New Officials For Next Year

According to tradition the Ko Shari Club held its election for new officers for the year 1942-43, the second week after the trip to Santa Fe, N. M. The following girls will hold office next year:

President, Frances Gary (reelection); Vice President, Georgia Sue Wharton; Corresponding Secretary, Mary Menon Stangel; Recording Secretary, Betty O'Mara; Treasurer, Jerry McElheny; Pledge Advisor, Alice Joyce Bagley; Reporter, Mary Dunbar; Historian, Julia Parker; Rush Captain, Ruth Loflin; Parliamentarian, Patti Crawford; Patroness Chairman, Jean Renner; A. W. S. Representative, Beth Alyce Fillingim.

Dallas is managing director. McRee is scheduled to instruct the summer course in traffic safety which is to be offered in the summer session. The course, sponsored by the CE department, has been held for five years.

★ Designed For Those Campus Review With 8-9 Classes ★

Louette Leary, junior arts and sciences student from Lubbock, was elected president of the Sociology club at the regular meeting last Wednesday. Other officers for the coming year are Edith Newman, junior from Ralls, vice-president; Beulah Rae Markham, junior from Ropesville, secretary and treasurer; and June Lettwich, junior from Shallowater, reporter.

The board of directors of YM-YWCA will have a dinner tonight in the tea room of the Home Economics building at 6 o'clock. Miss Ellen Kleppe's foods class will prepare the meal.

Dr. Archie Bahm, associate professor of sociology, will lead the YM-YWCA in a discussion on "Distinguishing Values in War Time" tonight at 7:30 o'clock in Seaman hall.

All Sears-Roebuck scholarship men, past and present, will meet in room 106 of the Agriculture building at 7 p.m. Thursday, April 30.

William Ellsworth, sophomore civil engineering student last semester from Lubbock, was here Monday on his way to Fort Lewis, Wash.

A. R. Dalby, president of the Dalby Motor Freight company, will speak to the advanced marketing class this afternoon when they visit the plant for an inspection tour. Dalby will discuss the present status of motor truck transportation. The class will also visit the Furr Food Store warehouse where Roy Furr, owner, will explain the problems of merchandising groceries, changing demands, and the development of a line of grocery stores.
