

Run-Offs Fill Nine Positions

the **• Toreador**

Vol. XXVIII Texas Technological College, Lubbock, Friday, October 17, 1952 No. 8

Ninety-eight Hopefuls Enter La Ventana Beauty Contest

Ninety-eight Tech coeds had entered the La Ventana beauty contest and a beauty hostess had been named late Thursday afternoon.

Connie Hopping, Miss Texas of 1953, a 1951 La Ventana beauty and a senior home economics student from Littlefield, has accepted the position of La Ventana beauty hostess. She was selected because of her success in talent and beauty contests, says Jimmy Clark, La Ventana layout supervisor. She has extended and honored the name of Tech through winning such contests, he added.

Miss Hopping will return from the State Fair in Dallas Sunday in time to help with the first elimination of the beauty contest. She will act as hostess to the beauties throughout the year.

Judging To Be Sunday

Two local photographers and one businessman will be judges in the Sunday elimination at 2:30 p.m. in the Recreation hall. The number of contestants will be narrowed to about 30 at that time. Friends and guests of the contestants may attend the elimination.

Entrants other than the 17 named in the Tuesday Toreador are: Jennie Lou Ballard, Plain-

view freshman; Rossi Stiles Baker, Lubbock sophomore; Jo Benesch, Amarillo sophomore; Johnnie Bice, Dimmitt senior; Sue Bardley, Amarillo freshman; Jeannine Brown, Waco freshman; Carol Collins, Lubbock freshman; Kay Collins, Lamesa junior;

Barbara Currie, Garden City junior; Jan Dorn, Lubbock senior; Gladys Edwards, Lubbock sophomore; La Faun Edwards, Lubbock freshman; Rita Elliott, Levelland junior; Jackie Farr, Littlefield sophomore; Marijann Forrest, Midland sophomore; Dorothy Gage, Dallas sophomore; Ernest Gammill, Lubbock junior; Revis Ann Gilbert, Abilene freshman; Ann Healy, Lubbock freshman; Sue Helley, Texline freshman; Jane Hicks, Lubbock sophomore;

Other Entries

Barbara Holdridge Lubbock freshman; Mary Lou Jones, Lubbock junior; Elizabeth McCaine, Plainview senior; Jean, McNeal Fort Worth freshman; Pat Mansell, Lubbock junior; Phillis Martin, Lamesa sophomore; Virginia Mitchell, Fort Worth freshman; Sue Moorhouse, Benjamin senior; Marion Nevitt, Lubbock junior; Julia Pink, Wichita Falls freshman; See LA VENTANA, page 8

A RED RAIDER?

Techs been needing it for years; now it's got one. One what? A mascot. No, sorry. Further information cannot be given until the Baylor game Saturday night. The newly appointed mascot will be presented during the halftime activities.

Until then . . .

New Secretary To Assume Duties

L. C. Walker, 31-year-old ex-Techsan, will assume duties as executive secretary of the Ex-Students association on Monday. He succeeds D. M. McElroy, who resigned Sept. 19 to take a position as sales manager of the Texas Concrete Block company, with headquarters in Lubbock.

Prior to accepting the position with the Ex-Students association, Mr. Walker was a partner in the Lubbock firm of Advertising Art Associates along with another Tech student, Jem Block.

Mr. Walker attended Tech from February, 1946, to June, 1949, when he received his B.A. in commercial art. He had previously spent one year at West Texas State where he played football. While at Tech, he was a wing counselor in Sneed hall and a member of the Gargoyle club.

Although he was born in Frederick, Okla., he claims Earth as his hometown. He is a graduate of Spring Lake High school.

He spent three years overseas, serving in North Africa and Europe, holding the rank of sergeant first class.

Before moving to Lubbock, he worked for a year in Amarillo for Southwest Advertisers. He is not married.

Mr. McElroy, resigning secretary, held the position of executive secretary of the Ex-Students association from May, 1947, until October, 1952. During his term of office, the association has increased from 5,500 active members to more than 13,000. There are now 29 chapters of Ex-Techsans over the nation, as compared to five chapters in 1947.

Third Election Scheduled For Two Contested Offices

Nine offices were filled Wednesday in a light run-off ballot for class officers, says Wanda Ramsey, Student association secretary. Another run-off will be necessary for senior vice-president and freshman representative to the Association of Women Students.

The senior class elected Bill Bales, Fort Worth student in arts and sciences, to be president over Don Hancock, Lubbock government major.

L. C. Walker
Ex-Student Secretary

Patti Pipkin, home economics student from Matador, defeated Marvel Gibner, home economics education major from Spearman, Joan Macauley, Odessa arts and sciences student, was edged for AWS representative by Clydene Whitaker, business student from Shallowater. Another run-off will pit Ben Wilson, Lubbock engineer, against Hank Shorner, Lamesa business student for the vice-presidency of the class. The seniors chose Jack Ashworth, agriculture economics instructor, to sponsor them.

Juniors

Junior class girls met with president J. C. Chambers and elected Betty Mills, Post business student, to represent them in AWS over Carol Sandlin, home economics major from Lubbock, and Iva Crowley, home economics student from Slaton.

Sophomores

Carolyn Calloway, a home economics student from Ralls, edged Ruth Smalley, Lubbock home economics education major, for the sophomore AWS post. Mildred Bettencourt, education instructor, was elected sponsor by acclamation.

Freshmen

Bob Beckwith, a Lubbock arts and sciences student, was elected freshman president by a substantial margin over Hartsell Haws, Altus, Oklahoma. The vice-presidential post was filled by Don Erice, Tahoka arts and sciences student, with a lopsided victory over Jack Kirkpatrick, Post agriculture major. Joan Wheatley, Lubbock business major, defeated Sue Helley, a business major from Texline, for class secretary. Dr. Truman Camp, head of English, was elected sponsor.

A run-off will be necessary for AWS representative. Mary Alice Braselton, Plainview arts and sciences student will be opposed by Nancy Chastain, arts and sciences student from Breckenridge. Others who ran are Carolyn Amos, Oklahoma City arts and sciences student, and Virginia Carr, of Lubbock.

Final Tabulations

Final tabulations for the number voting in class run-offs show that 92 seniors voted this time as compared to 159 in the regular election.

Only 23 junior women met to elect AWS representative.

Sophomore women elected AWS representative with a total of 32. Sixty-five voted in the general election.

Freshman elections drew 160 students as compared to 499 in the regular ballot.

Pep Rally Tonight

Plans for the pep rally to be held at 7 p.m. tonight in the Gym are as follows:

1. Time well
 2. Yea Red, Yea Black
 3. Band—Fight, Raiders, Fight
 4. R-R-Rai
 5. Speech by a coach
 6. Ride 'em, Raiders
 7. Band
 8. Red! Blood Red!
 9. Speeches by Raiders Marland Ribble and Bob Cavoza
 10. Tech File
 11. Saddle Tramps
 12. Pepper Yell
- The Matador Song will end the rally.

Production Crews Chosen for Play

Production crews for "Comedy of Errors", to be presented Nov. 10-15 by the Tech speech department, have been named by Ronald Schultz, director.

Crew heads and members are as follows: publicity, Thelma-deane Hutchins, chairman, Aubrey Thompson, Arch March, Nan Wiginton, Joyce Lowe, Joy Carter, Patsy Busby; scenery, Russell Huckaby, chairman, Ethelene Bucy, Gladys Edwards, Joe Bob Garner, Anne Gray, Jimmie Griffin, Kay Jones, Elizabeth McDonald, Philip Nickell; properties, June Ann Morton, chairman, Lavonne Batie, Joan Clifford, Marilyn Russell; lighting, Kenneth Ross, chairman, Ray Cook, Jack Pruitt, Herbert Reed, Janelle Toler.

Costumes, Warren Forsythe, designer, Lavoy Berry and Halcyon Hildreth, co-chairmen, Mary Alice Braselton, Alice Dickson, Nancy McKissack, Daulma Noles, Gene Osborne, Jone Osborne, Lola Peticolas, Barbara Saunders, Janelle Toler, Ellen Wafer, Thelma-deane Hutchins; make-up, Sara Dickinson, chairman, Patsy Busby, Mary Alice Braselton, Jimmie Griffin, Olive Jones, Carolyn Larson, Harvie Pruitt, Albert Purcell, Nan Wiginton; house, Gladys Edwards, chairman.

The stage manage is Don Thompson, prompter, Huda Hasen, and assistant director, Robert McGinnis.

Other students who want to work on crews should see Mr. Schultz at the Speech building as soon as possible.

Absentee Balloting Deadline Is Near

Qualified Texas students who wish to cast their votes in the coming presidential election, Nov. 4, should apply at once for an absentee ballot. Period for absentee voting is Oct. 15-31.

Ballots may be obtained by writing the county clerk in the student's home county, requesting the forms. They should enclose their poll-tax receipts or exemption certificates, which will be returned to the students by the county clerk.

Effinger Elected KTTC Chairman

Kyle Effinger, Ft. Worth sophomore, was elected chairman of the board of directors of KTTC, campus station, in a general meeting Monday.

Serving with Effinger on the board are Roy Tidwell, Lamesa junior, vice-chairman; Dana Mitchell, Roswell freshman, temporary secretary; David Massengale, Lamesa senior, treasurer.

Also officially elected to the temporary position they had been filling this semester were Odis Echols, Lubbock senior, program director; Herbert Spoons, Ft. Worth senior, chief engineer; Bob Frederick, Gordon hall supervisor, sponsor.

Tentative plans were discussed for the expansion and improvement of the KTTC program schedule in order to make it of interest to all Tech students, Effinger said. The staff also plans a campus-wide survey of student preference in types of programs.

Freshmen To Get Reports About Their Fall Progress

Progress reports on 1,594 freshmen are due in the registrar's office not later than 5 p.m. Monday, says Miss Evelyn Clewell, assistant to the registrar. Miss Clewell explained that with estimating six courses for each student, final results would not be arrived at until the latter part of the week.

Upon completion each student, the student's parents, the student's advisor and the academic dean, will receive a copy of his report. Each report will include the student's grades and absences.

Presbyterian Minister from Virginia Will Be Religious Week Headliner

The Rev. Dave Curry, one of next week's Religious Emphasis week speakers, is described as an outstanding younger member of the Southern Presbyterian church by the Rev. W. F. Rogan, local Presbyterian minister for students.

Convocations will be held at 9 a.m. on Monday and Tuesday in the Gym, and at 10 a.m. Wednesday and Thursday. Instead of having shortened classes this year, the classes scheduled for the convocation hours will not meet. The Rev. Mr. Curry's topics for discussion will be: Monday, "Faith;" Tuesday, "Truth;" Wednesday, "Fellowship;" Thursday, "Vocation."

Dr. A. W. Young, sponsor for the Inter-Religious council will introduce the Rev. Mr. Curry on Monday. Dr. Young will be the only faculty member on the program for the entire week, as students will lead each invocation, benediction, and make all announcements. The Tech band and choir will present selections at each convocation.

To Arrive By Plane

The Rev. Mr. Curry will arrive by plane from Richmond, Virginia, at 8:30 Saturday morning. While

here he will stay in the Presbyterian Student center.

For the last two years, he has been director of the Campus Christian Life of the Presbyterian church. Prior to that he was pastor of the Westminster church in Austin. For three years he was chairman of the executive committee in Texas for Presbyterian student work. He is the author of a number of pamphlets and is editor of "Presbyterian Student," Southern Presbyterian general assembly paper.

Faculty Dinner

A faculty dinner will be held at 7:15 p.m. Tuesday at St. John's Methodist church, which will feature an address by the Rev. Mr. Curry. Those wishing to attend should notify the representative in the Student council office, or telephone Dr. A. W. Young or Emmett Adair.

Other features of Religious Emphasis week are six additional speakers, who will conduct seminars at 6:30 p.m. and "hill Sessions" at 10 p.m. each day in the dormitories.

Miss Ruth Emory, youth director of Northwest Texas conference. See PRESBYTERIAN, page 8

Eisenhower Begins Lubbock Speech With Words Addressed to Techsans

Gen. Dwight D. Eisenhower, the Republican party's bid to dethrone the Democrats, addressed the opening words of his Tuesday speech in Lubbock to the students of Tech.

Ike, speaking at the local airfield on his sixty-second birthday, addressed Lubbock Mayor Murrell Tripp, who introduced him and began:

Texas Tech

"I hope you will first allow me to address a word to those here from Texas Tech. I have been fortunate in that I have been allowed to spend a vast portion of my adult years with young people—armies, air forces and navies are made up largely of America's young—and I want to say that

from them I have acquired a very deep appreciation of their basic idealism—their thirst for a standard that has a due regard for moral values.

Pocketbook Not Nerve

Young America works for a cause, and I do not believe that the pocketbook is the most sensitive nerve in the body of the Young American."

The general promised to pass on to the younger citizens those lessons which his generation has learned from its experiences, "so that you in turn need not have to have the pitiful record in your generation of two world wars and an uneasy cold war of seven years, and plagued by a hot war in Korea."

Official Notices from President

Official notices from the president's office for the remainder of October and first of November include the following:

Oct. 20

Monday, 5 p.m., progress reports on all freshmen due in registrar's office.

Oct. 20-23

Monday - Thursday, Religious Emphasis week. 9 a.m. classes dismissed Monday and Tuesday; 10 a.m. classes dismissed Wednesday and Thursday.

Oct. 25

Saturday, Last day for taking examinations petitioned for on Oct. 11.

Oct. 30

Thursday, Last day on which a course may be dropped without grade penalty.

Nov. 1

Saturday, 9:30 a.m., meeting of board of directors in the office of the president. Homecoming day. Classes dismissed at 10 a.m.

Nov. 8

The Texas Tech-North Texas state football game is the official out-of-town game for the season. All classes for the morning of Nov. 8 will be dismissed for the trip to Denton.

HOME EC TALK MONDAY

Mrs. Esther Sorensen, Plainview, district supervisor of homemaking education, will speak on "Homemaking Teachers in High School" to all home economics majors at 8 p.m. Monday in HE106.

On the Record

By TED HARRISON

Lovers of Kenton, gather 'round. This week comes a new side. If you caught the movie, "The Strip," you'll remember some very nice vocals by a newcomer, Kay Brown. Well, since then, the chick has come a long way. This summer, she was married to Maynard Ferguson. Maynard's now back playing lead trumpet and high register with Kenton, consequently, lil' ole Kay is Stan's new chirp. Sounds like a fix to me.

Nevertheless, she sings mighty fine. Her first side for Capitol is a rather low down (if Kenton can get low down) blues number, called "Lonesome Train." Pretty nice, in that some strange effects are achieved by use of an echo chamber. Flip is "Taboo," most reminiscent of last year's "Love for Sale," and featuring a high trombone behind the whole band in rhythm and doing some great riffs. It's climaxed with some mighty fine blowing by Ferguson.

Speaking of Kenton's chirps, do you remember Jerri Winters, who was singing with him last year? She is very fine, probably the best he's had since Christy. Anyway, there's a new colored chick out, recording for Cap, who is supposed to be the most like Jerri, only better. Haven't heard her myself, but from all reports, she's really going to go places. By the way, her name's Georgia Carr. If you want to dig her, a couple of her sides are available now.

Recent and Listenable: An album, "Satchmo at Pasadena," with "Baby, It's Cold," "Indiana," and "Stardust." And for you Dixie advocates, a couple of new discs are available on Good Time Jazz, by the Firehouse Five.

Army Adopts New Aerial 'Bird-Dog'

The U. S. Army field forces have adopted a "bird dog of the air". Like all good dogs, he finds the game, points and retrieves, without flushing.

This military canine is the army aviator—the man who has made military history with his "whirly bird" and light reconnaissance plane. Among other jobs he directs artillery fire, delivers supplies, lays communication lines, and evacuates wounded personnel.

Sounds like a job you would expect the Air Force to do. But it isn't. The Army aviator has no connection whatever with the Tactical Air Force. He is exclusively Army.

Arrangements have been made whereby Army ROTC students may become Army fliers. Here is the procedure: Application for

Army aviator should be made during the student's senior year in college. After graduating he will attend the basic training course at his respective branch—instructor, engineer, or other. After basic training he will be sent to the Santa Marcos Air Force Base, San Marcos, where he will spend four months learning to fly. From there he will go to Fort Sill, Okla., for training in performance of various military missions.

After completing this training the student will be reassigned to a tactical unit within his branch. If he is in the Signal or Engineer Corps, he will spend most of his time on reconnaissance duty or acting as liaison officer, which more or less a messenger. If he is in the Infantry he will perform these tasks as well as helicopter rescue work.

Sorority Representatives To Hold Talks With Tech Social Clubs This Weekend

The first of the discussion meetings between members of the local women's social clubs and representatives of national sororities will be held this weekend.

At 8 p.m. Sunday, DFD will meet with representatives of Delta Delta Delta in the home of Mrs. H. T. Luther, 4905 twenty-second street.

Museum Music Series To Open

The first of this season's series of Music-In-The-Round will be presented at 8 p.m. Tuesday in the Museum auditorium, according to museum officials.

Music-In-The-Round, directed by Julius Hegyi, features Mr. Hegyi, who plays the violin; Robert Atwood, cellist; Charlotte Barrier, pianist; Robert Dean, also a violinist.

The program will consist of modern music alternated with classical selections.

Tickets will be on sale Monday at Adair's Music store, Jenkins music company, and the Varsity Bookstore. The tickets for the series of seven concerts can be purchased for \$7.50 and admission for individual concert tickets is \$1.50.

Fraternities' Rush Week Will End Next Thursday

Only four more individual club days are left in Tech's rush week or eight fraternities. They are: Phi Kappa Phi, Monday, Oct. 20; Lambda Chi Alpha, Tuesday; Silver Key, Wednesday; College Club, Thursday. All meetings are held from 7 to 9 p.m. in the Green room.

The pledging convocation will be held from 4:45 to 6:15 p.m. Oct. 17 in the Aggie auditorium.

Sick List

The infirmary sick list Thursday included Gary Conley, Lubbock, and Jacque Donnell, El Paso.

Square Dance Scheduled Tonight in Recreation Hall

"All students and faculty members are urged to attend a square dance in the Rec hall tonight," states Jess Parrish, Rec hall director. The dance will begin at 8:30 and end at 11 p.m.

J. D. Saddler, instructor in the foreign languages department, will call the dance and Jimmy Baker and his Texas Sons will furnish the music.

Phi Upsilon Wants Old Clothes! They'll Also Sell Them To You

Would you like to throw away some old clothes?

Phi Upsilon Omicron, honorary home economics organization, has a booth set up in the foyer of the HE building for that purpose.

Members will hold a rummage sale at the Dunlap parking lot Oct. 25. Ellen Massengill has charge of the sale.

Madrigals To Give Sunday Concert To Open Series

The Texas Tech Madrigal Singers, under the direction of Ira Schantz, voice instructor in the department of music, are presenting a full-length concert in Plainview Tuesday evening.

The program under sponsorship of the Musical Arts Club, will be given in the Wayland College auditorium. All choral organizations from Wayland College, Plainview High school and Plainview Junior High school are expected to attend the concert.

Madrigal singers are Marjorie Scales and Rosemary Sprague, altos; Billy Cormack and Clarence Whiteside, tenors; and Tim Magness and Warren Forsythe, basses.

The program is composed of five groups of musical members. The first and third are old English madrigals. In the second are two solos of the Elizabethan age sung by Ira Schantz and accompanied by Ned Hardin, junior music major.

The fourth and fifth groups are more modern selections suitable for small choral ensembles. Included are two compositions by William Billings, an early American composer, and three gypsy songs by Johannes Brahms.

The Madrigals are eight students selected from the Tech choir, who present early Italian, French and English madrigals and other works not suited to large vocal ensembles.

Beat Baylor

"Milestones in Music", a series of six concerts, will present the first program at 4 p.m. Sunday in the Museum auditorium.

The series, sponsored by the Museum, will bring to Tech and Lubbock a "panorama" of vocal and keyboard music from about 500 A. D. to the present day. Each concert will be devoted to a period of music history.

The first covers the longest period or history. It ranges from about 500 to 1600 A. D. This era, known as the pre-Bach period, brings together the heritage and wealth of a thousand years of music.

Featured in the program this week are Miss Charlotte Barrier, annotator and pianist, and Mrs. Grace Goodwin, soprano.

The Gregorian Chant will be one of the features offered by the group Sunday. The chant goes far back into the early days of Christianity. A varied selection of lighter pieces will also be heard.

Group Will Plan Program Of Original Compositions

The Contemporary Music Symposium committee will meet Wednesday, Oct. 30, to develop plans for the second annual symposium to be presented next spring by the music department.

The program will consist of original compositions of students and faculty.

ASME MEETS MONDAY

American Society of Mechanical Engineers will meet at 7:30 Monday night.

All mechanical engineers are requested to meet in Room 1 of the East Engineering building.

DFD'S HAVE OUTING

DFD pledges entertained members with a Weiner roast at Mackenzie State park Wednesday night.

Thirty-five pledges and 28 members attended.

HOME EC REFS CHOSEN

Delegates were elected Tuesday night at the Home Economics club meeting to the HE council.

One delegate is elected to represent each class. Those chosen are: Beverly Garner, freshman; Ruth Smalley, sophomore; Carol Middleton, junior; Pat Dossier, senior.

'MANAGERS' WILL MEET

There will be a meeting of the Tech Management association at 7 o'clock Monday evening.

All management majors are asked to meet in Room 333 of the Administration building.

Radio Engineers To Meet Monday

The local student chapter of the American Institute of Electrical Engineer-Institute of Radio Engineers will meet at 7 p.m. Monday in the engineering auditorium.

Freshmen in electrical engineering are urged to attend, says Bruce Fyfe, chapter chairman, since the meeting will elect a student representative to AIEE's executive council.

A program will be presented by representatives of Boeing Aircraft corporation.

All engineering students are invited.

TEXTILE GRAD HAS JOB

Joe Cannon, 1949 graduate in textile engineering, has accepted a position with Rohn and Haas, suppliers of textile chemicals. He will go either to Philadelphia or to Charlotte, N. C.

Cannon, now a resident of Lubbock, recently received his discharge from the armed services.

TEXAS TECH COLLEGE BOOKSTORE

Micro Library Reader 'Tee Vee with Brains'

Almost every student who stays at Tech any length of time eventually finds himself or herself in the reference room of the library. The main purpose of the reference room is to aid students needing help on problems concerning chemistry, government, economics and other subjects.

"TV With Brains"

One of the assets of the reference department is the system of micro cards. A micro card is about the size of a post card. On each card there are from 45 to 50 exact photographic reproductions of pages from a book. The card is inserted into a micro library reader which enlarges it on a screen. The result is "television with brains."

The machine can be easily operated by any student, and the five or six cards that make up the average size book can be read more quickly on the screen than in book form. The micro system, which now contains about 12,000 pages, is being enlarged when opportunity permits.

In addition to the micro cards, the reference room contains indexes, chemistry abstracts, directories and almanacs. Library attendants are in the reference room at all times to aid students in finding and using the books found there.

Reserve Room

Downstairs from the reference room is the reserve room of the library. In this room are books placed on reserve by instructors for student use. The purpose of

Jobs Open with Boeing Aircraft

Interviews will be conducted Tuesday by the Boeing Airplane company of Wichita, Kan., for January, May and August graduates majoring in architecture, civil, electrical, and mechanical engineering, chemistry, mathematics and physics.

A general meeting will begin at 7:30 p.m. Monday in the Engineering auditorium in conjunction with a meeting of American Institute of Electrical Engineers. All interested students from freshmen, sophomore and junior classes are invited to attend this meeting.

The company has opportunities in the following phases of engineering: product engineering, production engineering, experimental tooling, tool design, tool and production planning, industrial engineering, plant engineering, equipment engineering and quality control. All men interested should report to the Placement office to schedule interviews. Company pamphlets and other literature are on file.

Engineer Outlines ASCE Advantages

Advantages afforded members of the American Society of Civil Engineers were outlined for Tech's J. H. Murdough chapter of the society by F. D. Ogle, senior resident engineer of the Texas Highway department.

Speaking Tuesday night to 35 members of the student chapter, Ogle called attention to the society's active sponsorship of research and publication, its code of ethics and its development of licensing laws for civil engineers. ASCE is celebrating its centennial this year.

J. W. Stevens, former member of the civil engineering faculty of the University of Texas, also attended the meeting.

Following the talk, a business session was presided over by Bobby Cooke, senior CE major from Sanderson.

Dr. G. A. Whetstone is faculty advisor of the chapter.

DOLORES KETCHERSID, a journalism graduate, is working on the Snyder Daily News. Dolores started on the city desk. She joins another Tech ex, Sue Holmes, who was Toreador editor in 1950 and 1951.

Companies To Hold Job Interviews

The Placement office has announced the following job interviews for January and May graduates:

Monday and Tuesday

Architecture, civil engineering, electrical engineering, mechanical engineering, chemistry, mathematics and physics students may see representatives from the Boeing Airplane company of Wichita, Kan. Jobs are open in: product engineering, production engineering, tool design, tool and production planning, industrial engineering, plant engineering, equipment engineering and quality control. The general meeting will be held at 7:30 p.m. in the Engineering auditorium.

Chemistry, chemical, civil, electrical, mechanical, and petroleum engineering students will talk with Ed Green, employment director for the Halliburton Oil Well Cementing company, about oil well services as well as cementing jobs. The general meeting is at 7 p.m. Tuesday in the Engineering auditorium. Interviews will be held all day Wednesday.

Wednesday and Thursday

Industrial engineers and business administration majors will meet James J. Hecker, personnel

Ticket Sales End Saturday For Tech Artists Course

General ticket sale for Tech Artists Course will close tomorrow evening at 6 o'clock at Adair Music company.

Tech students already have tickets for the series included in their activity books.

manager for Container Corporation of America from Fort Worth. The general meeting will be at 5 p.m. Wednesday.

Electrical engineering and mechanical engineering students may be interviewed Wednesday for the Philco corporation from Philadelphia by their representative, William Summerlin.

Interested students should report to the Placement office for descriptive material, application blanks, and to schedule appointments, says Mrs. Jean Jenkins, placement director.

BULLETIN!

College students prefer Luckies in nation-wide survey!

A nation-wide survey based on actual student interviews in 80 leading colleges reveals that more smokers in these colleges prefer Luckies than any other cigarette—and by a wide margin. The No. 1 reason given for smoking Luckies? Luckies' better taste. What's more, this same survey shows that Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

Andress Works on Plans to Boost Spirit; Karnes Calls for Cheers Even in Defeat

"Cheerleading with plenty of acrobatics" is the key to the plans of Don Andress, head boy cheerleader.

Don, a junior pre-dental major from Brownfield, believes that the student body needs more than someone to stand in front of them to lead a few yells.

"They need someone to show them that the cheerleader is backing the Raiders with plenty of spirit instead of just standing there in front of the stands."

Builds Tech Spirit

Andress, with the help of his assistants, Don McNeol and Dick Shockley, strives to devise new plans to build Tech spirit. The trio, in conjunction with Peggy Karnes and Ann Lee Turner, have had to work to pick up lagging spirits this year because of Raider losses on the gridiron.

The easy-going manner of the cheerleader is often deceiving to those who don't know him.

Energy Hidden

Plenty of explosive energy is hidden beneath the surface of Andress' usual quietness. This energy becomes quite evident at Raider games, no matter what the score is.

Don's Tech activities and interests are centered around his trumpet playing in the Red Raider Band. He is an active member of Kappa Kappa Psi, honorary band fraternity for men.

Don Andress

Peggy Karnes

"Come on, let's really yell," is one of the trade marks of Peggy Karnes' cheerleading.

Peggy, junior secretarial administration major from Lubbock, wraps most of her Tech life up in backing the Red Raiders with lots of spirit. She says "Even though the team is losing, the student body should stay behind them and keep yelling. If the students don't back the team, they ought to keep the spirit as high as possible for the sake of the school."

The head girl cheerleader is well known on the campus as one of the Red Raiders' liveliest backers. Despite her short stature—five feet tall—brunette "Peg" is a stand-out in any crowd with her quick wit and "Hi there."

Though Peggy is a resident of Lubbock, she stays in Horn hall during the school year because of its convenience to the campus.

A transfer from Texas State College for Women, Peggy began her Tech career last fall. She immediately pledged Las Chaparritas, women's social club, and has become its pledge trainer. She is also a member of the Association of Women Students.

Much of petite Peggy's time is spent in the economics division working for Dr. V. T. Clover, W. D. Moore and H. A. Anderson.

After graduation Peg hopes to get a job as secretary for an oil company, preferably in Texas.

In answer to the question of hobbies or interests, she quickly came back with "Dancing of course." Anyone who has attended a Rec hall dance can certainly agree with her.

Area Hi-Y Groups To Plan Here for Meeting in Austin

Delegates from Hi-Y clubs throughout Northwest Texas will meet Oct. 25, in the Aggie auditorium to begin training for the Youth and Government program to be held in Austin Dec. 19-21.

'Washbowl' Game 2 p.m. Next Friday

The annual Washbowl football game between the Pink Plungers of Knapp hall and the Sophisticated Stoppers of Horn hall will be played at 2 p.m. Friday, Oct. 24, in Jones stadium. A Washbowl trophy will be given the winner by Alschuler's Men's store. It was won last year by the Knapp hall team.

Coaching the Pink Plungers for the second year is Denton Lambert, senior arts and sciences student from Snyder. Clydene Whitaker is captain.

Coach for the Sophisticated Stoppers is Neil Chastain, senior business administration student from Spur. Suzy Ely is chairman of the football committee of Horn hall.

The Washbowl games were started in 1950 to raise money for the two women's dorms. Knapp hall used its money that year to buy a record player for the dining hall. Horn used theirs for general dorm purposes.

TECH AT ODESSA SHOW

C. R. Bowen of Shamrock Oil and Gas corporation and Prof. W. L. Ducker, head of petroleum engineering, left Wednesday for Odessa where they will attend the Odessa Oil show.

While there they will try to promote interest in the field of petroleum engineering and in Texas Tech.

Medical School Session To Start

The Panhandle-South Plains Division of the Texas Post Graduate Medical school will hold its first official all-day session Saturday at Texas Tech's Aggie Memorial auditorium.

The post graduate school in Texas is unique compared with similar schools in other states, where such institutions are housed in a single building. Texas has split its school into branches located in strategic places throughout the state.

Eight specialists from various sections of Texas will speak for 45 minutes each, followed by 15-minute question and discussion periods on their particular fields. The post-graduate school is designed to bring doctors up to date on new ideas and to improve the state of medicine.

Other branches of the post-graduate school in Texas have been set up in Temple, Corpus Christi, San Antonio and Houston. Another is in the process of being established at El Paso.

Gwen Williams, sophomore arts and sciences student from Lubbock, has been employed as secretary to the director of the Rec hall. Gwen is a resident of Horn hall.

Photo Deadline Set For Frosh, Sophs

Approximately 600 freshmen and sophomores still have not had their class pictures made for the 1953 *La Ventana*, says Bert Goodyear, editor.

Deadline for freshmen and sophomores to have pictures made is Oct. 25. If underclassmen want their pictures in the annual, they should have them made by that time, Goodyear stressed.

Juniors and seniors should continue to go to Koen's for pictures. The best time to get in at the studio is during the morning, Goodyear says.

Raiders Ready For Bears

Tech's Red Raiders will be out to break a three game losing streak tomorrow night as they battle the Baylor Bears at 8 p.m. in Jones stadium. The battered Raiders will be meeting their second Southwest conference rival this season.

Coach George Sauer's Bruins will invade the Raider lair with a season's record of two victories and a heart-breaking loss. The Bears opened the season with a thrilling 17 to 14 triumph over Wake Forest followed by an easy 31 to 7 win over Washington State. Then the Bears invaded Arkansas in their first conference test. The Porkers are powerful at home and handed Baylor a 20 to 17 defeat.

Baylor's rivalry with Tech dates back to 1929. The two teams have played a total of 13 times with Baylor taking 8, Tech 4 and one being a tie. Tech hasn't won a game in the series since 1946, going five consecutive games winless.

Baylor began the series in 1929 with a lopsided 34 to 0 victory, following it up with a 32 to 0 win the next year. Raider fortunes sang a different tune the next three years, however, with the Techsans winning 12 to 2, 13 to 0 and 14 to 7. The series was resumed in 1942 with the Bears taking a close 14 to 7 win. The two rivals battled to a 7 to 7 tie in 1945 with Tech taking their last win in 1946, a 13 to 6 triumph. Last year the pass-happy Bears spilled the Raiders 40 to 20 in Waco, with All-American Larry Isbell dealing misery to the Techsans. He completed 13 of 18 passes for 155 yards with one interception.

The Raiders will be up against the T formation, with only Isbell gone from the Bear backfield. Don Carpenter, Jerry Coody and Dick Parma are seasoned backs, and they will see plenty of action tomorrow.

Defensively, the Bears will have some standouts ready for

action. Big Bill Athey, candidate for national honors at guard, and C. O. Bracato, will get a chance to prove their worth. Bracato also has kicked two field goals this season, one bringing the Bears their victory over Wake Forest.

For the Raiders, Quarterback Jerry Johnson is still ailing with a hurt arm, but will probably see action. Rick Spinks is a doubtful starter because of a hip injury in the Texas Western game.

Sandy Welton will return to full back for the contest, and Bobby Cavazos will start at right half. Cavazos looked like last year's all-Border conference back last week, as he ground out 185 yards in 19 tries. Halfback Pat Green of Paducah may be able to make his first appearance for the Raiders. He has been out with a chipped bone since the season opened. Sides will alternate with Welton at the fullback slot.

A capacity crowd of 20,000 is expected to jam the stadium for the contest.

Probable offensive starting line-ups

TECH	POS.	BAYLOR
White	LE	Cowley
Barrington	LT	J. Smith
Gray	LG	J. Davis
Funk	C	Sisco
Barron	RG	Erben
Davis	RT	Knowles
Spooner	RE	Hopkins
Johnson	QB	Davidson
Turner	LH	Carpenter
Cavazos	RH	Coody
Welton	FB	Parma

RAIDER OFFENSIVE—Don Gray, Raider left guard, plugs a big hole on the left side of the offensive line. Gray played for Tech in 1950 before going to the service last year. He played a good game against the Miners last Saturday night and will be in the starting line-up when Tech meets Baylor tomorrow.

Busy Week Slated In 'Mural Football

Nine games are carded in the intramural football schedule for Sunday, Monday and Tuesday afternoons.

In the MICC league Sunday, the feature game will be between the Keys and College Club, both winners last week. Other games will include Centaur vs. Wranglers, Kemas vs. Adelphi and Los Cams vs. Soci.

In the independent league Monday, Wesley Wildcats tangle with the Dairy Herders. Ro Eds play WSF and BSU meets the Steers.

Teams in the dorm league will see action Tuesday afternoon. Bledsoe 1st South will try the Drane Blue Devils while the Sneed Demons meet Bledsoe 3rd North.

Results in the independent league Tuesday had the Dairy Herders scoring a 7 to 0 victory over the Ro Eds. W. Davis scored the touchdown and added the extra point for the Herders. BSU scored a smashing 24 to 0 triumph over WSF. Standouts for BSU were Baggett and Bryant.

Swimming Interest Strong As Tryout Time Arrives

Interest is running high as time for swimming tryouts nears. Several meets have already been scheduled for later in the year. This will be Tech's third year to field a swimming team.

SPORTALK

By Bob Lovelace

The school spirit at the Tech-TW game was the best we've seen in a long time. The students really got behind the Raiders in the second half. The card stunts were very good also. . . . Congratulations are in order to the Saddle tramps and cheerleaders for bringing about the spirit and excellent card stunts. . . . The band made its first appearance at Jones stadium this year and put on a good half time show. . . . Everything seemed to turn out on the bright side except the score. . . . Bobby Cavazos probably set a single-game high in offense for any Raider, gaining 185 yards on 19 carries in the Minner game. Jerry Johnson is Tech's total offense leader with 120 yards rushing and 202 passing for a total of 322. . . . Many people are wondering why the official wouldn't allow the Raiders a timeout when Johnson tried to call one with 10 seconds to play. The information that we received is that no team can have a timeout when there is less than two minutes to play. . . . Must be a new ruling. . . . Turning to this week's game, the Raiders will have a job on their hands breaking their losing streak at the expense of the Bears, The Bruins, in all probability, remember what

happened to TCU in Lubbock last October, but they won't be able to use poor lighting as an excuse. We seriously believe that this is the game the Raiders have been pointing for. . . . It might well be the deciding factor as to whether the Raiders go on to a good or mediocre season. . . . This certainly is no time to quit supporting the Raiders. It takes time, and sometimes plenty of time, to build a good team. The mighty Bears had better come prepared for a battle because we believe the Raiders will give them a fight they'll never forget. . . .

The Southwest has a full slate of conference games this week-end. Upset-happy Arkansas tangles with Texas in a corker at Austin, Rice and SMU get together for a possible track-meet at Houston. TCU will be out for their second conference win against the Aggies at College Station.

Some of Tech's future opponents face a busy weekend. North Carolina State tangles with Duke.

Tulsa takes on Kansas State, Arizona will be up against Marquette in Detroit, and Hardin-Simmons will try North Texas in Denton. The University of Houston takes a deserved week off after beating Tulsa by four touchdowns last week.

Famous Artist Says Mural To Fit Tech's Atmosphere

By ED SWENSON
Toreador Staff Writer

Peter Hurd, the New Mexican artist commissioned to paint Tech museum's Rotunda mural, said in an interview Wednesday that the fresco will be done in the Spanish Renaissance style of the college.

The nationally-known artist was in Lubbock to speak at the West Texas Museum association's annual meeting in the Caprock hotel last night.

Mr. Hurd had much to say regarding the fresco and its relationship to West Texas and the South Plains. He said that in this region the light is like no other in the world, caused by comparatively high altitude and brilliant sunshine combined with clear air.

Italy, Spain and Morocco have climates approximating that of this area, but the atmosphere there lacks the "something" that makes this region so climatically ideal, Mr. Hurd said.

Figures Represent Occupation
The mural will contain 16 portraits, one on each of the 16 panels. Each figure will represent a different occupation, with the background showing the particular en-

of the Methodist church, will conduct a discussion session in Horn hall Monday. She will speak in seminar in Horn hall Tuesday on "Choosing a Vocation" and at another seminar on "Brotherhood" in Knapp hall Wednesday.

Bledsoe Bull Session
Prentice W. Chunn, Jr., associate secretary of Baptist student work, will lead a bull session Monday night in Bledsoe hall. He will speak on the "Place of Religion in College Life" in a seminar in Horn hall Wednesday, and will hold a bull session in West hall that night.

Allen Bryan, associate minister of the Broadway Church of Christ, Lubbock, will speak on "Christianity in Politics" in a seminar Monday in Knapp hall, and will conduct a bull session in Sneed hall at 10 p.m.

Father Gerald McCarthy, chaplain of Reese Air Force base, will speak on "Christianity and a World at War" Monday at a seminar in Horn hall.

The Rev. Richard Clayborne, pastor of the First Christian church of Borger, will conduct a bull session in Gordon hall Monday. He will be in Drane hall Tuesday to speak on "Family Relations" and his speech is especially designed for married couples. He will hold a bull session in Doak hall Wednesday.

Dr. Pritchard To Speak
Dr. E. W. Pritchard, pastor of the First Presbyterian church of Amarillo, will hold a bull session in Knapp hall Monday, and a seminar Tuesday, in which he will speak on "Friendship, Courtship, and Battleship."

Religious Emphases week is under the direction of the Student Religious council. Steering committee in charge of the lectures is composed of James Dent, chairman; Patsie Scales, arrangements; Jerry Bowling, transportation and hospitality; Benny Bruckner, publicity; Betty Lewis, faculty dinner arrangements.

vironment in which the figure worked. In other words, "a banker will be shown in front of his bank, a blacksmith before his shop, and so forth; a combination of portrait and landscape." Mr. Hurd hopes to obtain realism by recording what he remembers of his own life.

To Peter Hurd, mural painting is the most all-inclusive art undertaking, because it covers a wide range of methods.

Painting To Begin in January

Although it will be January before Mr. Hurd actually begins work on the mural, he is one-third of the way through with his preliminary work, which consists of fullsize charcoal drawings of the characters to appear on the fresco. The drawings are called cartoons, and are exactly the size of the finished murals. They are drawn on large sheets of paper, and can be transferred to the plaster surface of the fresco by a tracing method.

While painting murals, Mr. Hurd starts in the upper left hand corner of a panel, working over to the right until he reaches the other end of that panel. Then he drops down and continues in the left hand corner under the completed section. This prevents smearing or otherwise damaging the surfaces already painted.

The New Mexico painter says that most murals, especially those done for commercial institutions and private art galleries, are "bossed" by the owners and management. Mr. Hurd says that the museum mural is one of the first which he will be able to paint in his own fashion, enabling him to do a much better and more artistic job.

Have Worries? Try This Recipe

Need something to take your mind off your worries? Tipton Miller suggests that you try painting.

Miller, a senior journalism major, started painting last summer in his spare time while attending summer school here. "I just started it for a hobby, and now I can't seem to stop," he says. Sometimes he forgets everything else when he starts painting. He has painted through many a mealtime.

"He just finished an oil painting of a Franciscan brother. Miller copied the figure from a pencil sketch and added color and expression. He will give the painting to a padre in Wellington.

Miller has done several paintings of horses, and some portraits of relatives.

"Once you get into it, it has a fascination that nothing else has had," Miller says.

Alschuler Trophy to Go to Best-Decorated Dormitory

An attractive trophy will be given again this year to the dormitory with the best decorations for Homecoming Nov. 1. The award is made annually by Alschuler's.

The contest was won by Men's Dorm 4, now Gordon hall, in 1950 and by Women's Dorm 4, now Knapp hall, in 1951.

Dorm decorations form a major part of Homecoming activities on other campuses in the nation.

Speech Meeting Opens on Campus

Representatives from three colleges in Texas and Oklahoma will participate in the second annual Texas Tech Speech conference here today and tomorrow.

Students from Baylor university, Panhandle A&M at Goodwell, Okla., and Texas Tech will compete in three rounds of discussion and four rounds of debates, says Dr. P. Merville Larson, speech department head. Subject for discussion is "How can we most effectively combat the threat of communism?" Debate topic is "Resolved, that the Congress of the United States should enact a compulsory fair employment practices law."

The conference will begin with a kick-off dinner tonight with J. Evetts Haley, director of the Tech Institute for American Citizenship, speaking on the nature of the Communist threat. The dinner will be followed by a brief forum and two rounds of discussion. The final round of discussion will be held at 8:30 tomorrow morning.

Saturday's activities will be rounded out with a speaker on fair employment practices and four rounds of debate. The winner of each debate will be declared, but no over-all winner will be selected. Outstanding participants in discussion will be named after the final round of contest Saturday morning.

Tech students participating in the conference include Gail Littleton, sophomore from Perryton; Themadeane Hutchins, senior, Ysleta; E. J. Tarbox, sophomore, Follett; Richard Strout, junior, Lubbock; Glenn Rainer, sophomore, Lubbock; Jerry Smith, freshman, Lubbock. The Tech teams are being coached by Dr. Larson and Miss Annah Jo Pendleton, professor of speech.

Take it Easier on Those 'Drapped Flies'; It's Rather Cool Outside for Them, Too!

By REX MCKINNEY
Toreador Staff Editor

"Drapped flies!" Patience and fly swatters grow thin as the pests move inside with the coming of cooler weather. The seeming increase in the number of the tiny beasts on the campus recently sent many folks to drug stores after spray. A Toreador reporter set forth to find out what it's all about.

Campus authorities on insect life say that the apparent increase in the number of flies is due to

Englishwoman Is Dean's Secretary

"I liked Texas so much that I moved here," says Mrs. Constance Walker, new secretary to Dean Margaret Weeks, when asked why she left her home in London, England, to come here.

Mrs. Walker visited friends in Texas several years ago, but this is the first time that she has been in Lubbock. She thinks "it is all very nice" and likes the climate, although she confides that she rather dreads the sandstorms; she's heard a great deal about them.

Before becoming secretary to Dean Weeks, Mrs. Walker had worked as a secretary to a steel firm in London, and had done secretarial work in Montreal, Canada.

She replaces Mrs. Bea Davis, who resigned recently to join her husband in Columbia, Mo. Mrs. Davis had worked in the dean's office since July, 1951.

Jane Jipp, Fort Worth freshman; Mary Johnson, Albuquerque, N. M., sophomore; Shirley Johnson, Lubbock senior; Margaret Lee, Houston sophomore; Suzanne Matteson, Dallas sophomore; Wanda Norman, Post freshman; Betty Pitzer, Midland freshman; Lena Schmidt, Slaton junior; Shirley Smith, Lubbock freshman; Gloria Snell, Lubbock sophomore; Mary Beth Toles, Lubbock sophomore; Connie Townsen, Fort Worth freshman; Ann Lee Turner, McKinney sophomore; Gwen Williams, Lubbock sophomore; Margaret Wood, Spur sophomore; Dorothy Yates, Lubbock junior.

colder weather. It seems the small pests do not like to be out in the cold, either, so they find a warm spot . . . preferably a classroom or other sleeping place. The sleepers are disturbed . . . the intruders contribute nothing to the fuel bill.

An adult fly may live three or four months. Perhaps even longer in winter when activity is at a minimum. Ideal breeding places for the winged demons are not hard to find. Especially favorable are livestock pens, garbage deposits and other collections of decaying matter. Moisture is necessary in these fly "hatcheries" for the growth of the insect larvae.

Keeping breeding places dry is one of the best ways to control the prolific creatures, but this requires man hours and consequently is expensive. Sprays may kill adult flies but larvae and other stages of development are unaffected, and a new crop of the pests appears in a few days. Good screens on windows and doors are probably the most effective and practical method to keep the unwanted visitors in their places.

But all is not heaven for the flies . . . They are bothered by pests, too! Many flies on the campus carry mites similar to those which are common among poultry. It seems the mites do not harm the flies but use them for transportation . . . just go along for the ride.
