

Aggie Teams Now Judging In Midwest

Two Aggie judging teams are on the road this week representing Tech in four contests in midwestern cities.

A dairy cattle judging team won fifth place for Tech in a contest held in Memphis, Tenn., this week. Eleven teams were entered. Tech's team placed fourth in judging Jerseys, third in Holsteins and fifth in Guernseys to give the team fifth place in the contest. Kentucky took first place, North Carolina second, Texas A&M third, Auburn (Alabama) fourth and Oklahoma A&M sixth.

Members of Tech's team are Charles Browning, Carl Menzies, Ray Miller and Spencer Norwood. Team coach is Koy L. Neeley, associate professor of animal husbandry. Outstanding Tech'sans were Miller, who placed tenth in the individual ratings, and Browning, who rated fifth in judging Jerseys. This team will enter the National Intercollegiate Dairy Cattle Judging contest to be held in connection with the National Dairy Show at Waterloo, Iowa, next week. About 30 teams will compete.

Tech's dairy products judging team placed ninth in the Southern States Dairy Products Judging contest held in Nashville Monday. The team was third in judging butter, seventh in cheese, ninth in milk and ninth in ice cream, to place ninth in all products. Highest-scoring Tech'san was Dudley Price. Other members of the team are Raymond Vanderpool, Deaton Rigby and Julian Hunsucker.

This team also represented Tech in the International Dairy Products Judging contest at the Dairy Industry Exposition in Chicago Thursday. Other activities of the trip will be inspection of the Kraft Foods plant at Garland and the H. C. Christian company plant in Chicago.

James Gilbert Is Bulbar Polio Victim

James Douglas Gilbert, 18, freshman from Silver, died early Tuesday morning of bulbar polio in the Lubbock Memorial hospital. He became ill Saturday morning. He lived in Bleisoe hall and was a petroleum geology major.

Funeral services will be held at 9 a.m. Friday in Colorado City. The body will be taken to Louisiana for burial.

In the immediate family are his parents, Mr. and Mrs. James David Gilbert, and one sister, Betty Marie Gilbert, 9, all of Silver.

Air ROTC Cadets Get Blue Uniforms

Reese Air Force base hasn't relocated on the campus, nor has a new air base been established here. Those blue uniforms seen all over the campus Thursday afternoon belong to fellow classmates in the college Air ROTC unit.

When cadets enrolled in the air sciences courses this fall, they found that the "pinks and greens" were gone and brand new air force "blues" were being issued. Air force units in colleges and universities over the country began changing to the blue dress last year. The military property custodian at Tech began getting shipments late last spring and enough were available to change to the official color this year.

ROTC Names Cadet Leaders

GOING UP!—Cheerleaders Ann Lee Turner and Dick Shockley take off from the gym floor during a Thursday night pep rally intended to prepare Tech spirits for the Saturday game with Rice institute in Houston. (Paul Kessinger photo)

Cadet colonels for Tech's Air and Army Reserve Officer Training corps have been appointed along with respective staffs of cadet officers.

Howe L. Vandergrift, business administration major of Carlsbad, N.M., was announced as wing commander and temporary cadet colonel by Col. Ollen Turner, professor of air science and tactics.

C. I. Powell, business administration major from Fort Worth, has been appointed Army cadet colonel, according to the office of the professor of military science and tactics.

AROTC Staff

Joe Stoltz, engineering student from Hobbs, N.M., will serve as vice wing commander in AROTC with the temporary rank of cadet lieutenant colonel. Robert B. McGovern, agriculture student from Lubbock, and Don P. Olsen, arts and sciences student from Houston have been appointed commanders of groups A and B, respectively, and given temporary rank of lieutenant colonel. (See picture, page 6)

Nine cadets were given the temporary ranks of cadet captain and assigned as follows: Edward L. Baker, engineering student from Fort Worth, wing adjutant; Harold L. Simmon, engineering major from San Antonio, wing plans and training officer; Dee L. Stevenson, Lubbock business administration major, wing public information officer; Charles G. Downum, speech major from Salina, Okla., deputy commander of group A; Gene K. Koonce, Lubbock arts and sciences student, deputy commander of group B; Ollen L. Simmons, Lubbock biology major, commander of Squadron E; James I. McMillan, engineering student from Dallas, commander of Squadron F; Reagan H. Beene, engineering major from Dallas, commander of Squadron G; and Thomas E. Bailey, agriculture major from Dallas, commander of Squadron H.

Billy J. Chaney, Lubbock engineering student, and Charles O. Green, business administration major from Quanah, have been given the temporary ranks of cadet first lieutenant and appointed as adjutants of groups A and B, respectively. John L. Womack, Quanah agricultural student, and Bobby J. Sears, Rockwell agricultural student, have been given the temporary rank of cadet second lieutenant and appointed plans and training officers of groups A and B.

Army Staff

Army ROTC releases list other cadet appointments as follows: Regimental headquarters—J. D. Brophy, cadet lieutenant colonel; D. W. Massengale, cadet major; R. A. Gammill, cadet captain; E. H. Wise, cadet first lieutenant; Battalion headquarters — Joe Wilson, cadet lieutenant colonel;

La Ventana Editor Calls for Workers

Students interested in any phase of yearbook work are urged to attend a *La Ventana* staff meeting at 5 p.m. Wednesday, in J205, says Bert Goodyear, annual editor.

La Ventana office hours are 1 to 5 p.m. Monday through Friday. Students unable to attend the staff meeting should see the editor in J205 during office hours.

Pictures of all students for the 1953 *La Ventana* are being made now at Koenig, 2222 Broadway.

KV's Must Clear With Coordinator

Veterans attending Tech under the Korean GI bill must clear with the veteran's coordinator in room 156 of the Ad building as soon as possible, says Warren G. Harding, assistant registrar.

The college must certify each veteran enrollment to the Veterans administration before the student can receive his training allowance. He cannot be certified unless he notifies the college that he is attending under the Korean bill.

Convocation, Class Elections Set For Wednesday Morning, Oct. 8

A student convocation, originally scheduled for Wednesday, has been postponed until Wednesday, Oct. 8, from 10 to 12 a.m. Harold Brannan, Student association president, announces. The convocation will begin with a general student meeting in the Gymnasium and will conclude with individual class meetings to elect officers.

All classes during the hours of convocation will be dismissed, according to the president's office. Faculty members are invited to attend the meeting.

Engineering Students, Professor To Go To AIME Meet in Houston

Charles Ruth, president of Tech branch of American Institute of Mechanical Engineers; Joe Hastings, representative; and Norman Lamont, assistant professor of petroleum engineering, leave Tech Tuesday for the petroleum branch meeting of the AIME in Houston. Individuals and students from all over the United States, Canada, Mexico and Venezuela will attend.

Mr. Lamont will be in charge of a discussion on drilling techniques to be held on Thursday.

Officials, Exhibits To Be at State Fair

Tech will send administrators, livestock, "live" exhibits and band to the State Fair of Texas in Dallas, Oct. 4 through 19.

Dr. E. N. Jones, Tech president and W. L. Stangel, dean of agriculture, will appear on a radio broadcast Oct. 5. Dean Stangel will be guest speaker at the State Fair's Rural Youth Special Awards banquet Friday night, Oct. 3. He is also general livestock superintendent of the fair.

Tech livestock will be on exhibit as part of the Fair's "Story Book of Agriculture", which shows the different activities and products in the 12 extension service districts of the state.

Tech's exhibit will be in the form of an arc with six sections for the six academic divisions. Each section will have a "live" exhibit which depicts activities in the division.

The Matador Band will play at the SMU-Georgia Tech football game Oct. 4, and will present a 60-minute concert Oct. 5, Texas Tech day, at the annual exhibition.

Warren G. Harding, assistant registrar, and Aubrey Shouse, director of public information, will be in charge of the exhibit. Dick Brooks, 1952 Tech graduate, will operate the exhibit at night.

Editors Meet Nixon

The *Toreador* editors were invited to attend the Amarillo press conference for Richard Nixon, Republican vice-presidential candidate, at 6 p.m. today. Tuesday's *Toreador* will carry comments on the conference.

Legal Scholarship Winner Is Named

Miss Martha Lou Hubbard, daughter of Mr. and Mrs. Alpha Hubbard of 3101 Twenty-sixth street, is the first recipient of the Lubbock Bar Auxiliary scholarship. She will receive \$40 for the fall semester and the same amount in the spring.

The scholarship is open only to women students of junior level or above with at least a 2-point grade average.

Miss Hubbard, who is a junior government major, has maintained a 2.32 grade-point average at Tech.

This scholarship, offered for the first time this year, is sponsored by the Lubbock Bar auxiliary, an organization of wives of Lubbock lawyers.

Tech Band To March In South Plains Fair Parade

The 115-piece Tech band will march in the Panhandle-South Plains Fair parade Monday afternoon. Band members will be excused from classes from 2 to 4 p.m., says Prof. D. O. Wiley, director.

Bands from high schools near Lubbock and Reese Air Force base will also take part in the parade.

Techean Open-House in Houston

All Tech students and exes are invited to attend an open-house in Houston Saturday from 2 to 6 p.m., according to Mrs. L. A. Lohse, president of the Houston chapter of Ex-Techeans. It will be held at the American Legion Hall at the Village, 5505 Kelvin, between Rice and University boulevards.

Catalogue of Varied Scholarships Shows Qualified Techsans Can Get Assistance

Many students attending Tech are studying under scholarships. A few minutes reading in the catalogue will readily show one just how many chances he has of winning a scholarship.

A few of the students now going to school under such arrangements are given below.

Scholarships are of various types. There is the plan which gives the student a stipulated amount, with absolute conditions, such as that which clearly states that the receiver is ineligible to accept any other scholarships for that year.

Next, are those which have no such conditions attached. Also present are those which provide only tuition and books, or perhaps only tuition.

Twelve students are here under speech scholarships. Nine Lubbock individuals and the Texas Society for Crippled Children put up the awards. For these scholarships, the basis for selection was academic standing, speech participation and contributions to forensic activities.

Five entering freshmen and seven upperclassmen were named for the scholarships. The freshmen are Betty Doris Hamilton, Lubbock; Mary Alice Braselton,

Plainview; Virginia Carr, Lubbock; Bayard E. Foster, Mertzon; Alice Dickson, Dallas.

Upperclassmen receiving the awards are Gail Littleton, Perryton; Eleanor Lincoln, Levelland; Mary V. Newman, Shallowater; E. J. Tarbox, Jr., Darroutzett; Harriet Henderson, Lubbock; Beverly Brandt Ross, Pampa; Pat Edwards, Fort Worth.

Another scholarship awarded recently was the \$500 4-H award presented to Lois Ritchie, Post. The award was made on the basis of Miss Ritchie's 4-H work for the last eight years. The scholarship is for study in home economics or related fields.

The Lubbock-Crosby County Medical society presented two Techsans with pre-med scholarships. The awards are in the amount of \$200, \$100 payable per semester. Winners were Hossein Karimi, Iran, and Wesley Alexander, Denver City.

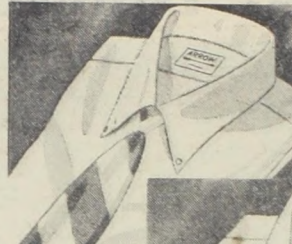

Selection was on the basis of scholarship, promise of success and character.

FRANCIS A. RECORDS, another mechanical engineering graduate, is working in Borger for the Phillips Petroleum Company.

SOCIETY

Greek Sororities to Rush Tech Clubs; Men Working On Nationalization Plans

Tech women's social clubs have selected 10 national sororities that they are interested in petitioning, and the men's clubs are also working on plans for nationalization.

Tech's Board of Directors approved national Greek-letter fraternities and sororities for the campus on June 21.

Sororities that the five women's clubs are interested in learning more about are Alpha Delta Pi, Alpha Phi, Chi Omega, Delta Delta Delta, Delta Gamma, Gamma Phi Beta, Kappa Alpha Theta, Kappa Kappa Gamma, Pi Beta Phi and Zeta Tau Alpha.

Members of the local clubs and representatives of the national sororities will have discussion meetings between Oct. 1 and Nov. 8 to exchange information. Other sororities may be contacted later.

Men's Inter-Club council has sent information about Tech and Lubbock to about 20 national fraternities that have shown an interest in Tech. Men will decide the nationals they are interested in interviewing by about Nov. 15.

Selection of both sororities and fraternities will probably be made on the preferential basis, with Tech clubs and nationals each expressing preferences.

Adelphi Fraternity Initiates Twelve

Adelphi fraternity held initiation ceremonies for 12 new members Wednesday night and elected officers for the fall semester at a business session which followed.

New members are Richard Blackmore, Paul Cato, Don Furgeson, Darrell Jackson, Charlie Rae, Chloice Shofner, Ralph Shelton, Harold Hogan, Charles Walters, Jerry Webb, George Hargrove and James Gray.

Officers include Troy Powell, president; Hogan, vice-president; Joel Mitchell, secretary; Bob Dickenson, treasurer; Hargrove, marshal; Furgeson, alumni secretary; Cato, historian; Shofner and Shelton, pledge trainers; Jackson and Rae, athletic directors.

First Fall Recreation Hall Dance Is Scheduled for Saturday Night

A Recreation hall dance will be held from 8:30 to 11 p.m. Saturday, Jess Parrish, Rec Hall director, announces. Burl Hubbard's orchestra will furnish the music.

Two Art Exhibits Planned in October

Two groups of art exhibits, "Paintings From Great Britain" and "From Market Place to Museum," have been obtained by the Museum for public display.

The first group features the paintings of famous English artists of the past and present. Twenty-five works will be shown through Oct. 15 in the Museum Rotunda Hall.

Mexican arts and crafts will be featured in "From Market Place to Museum" exhibit Oct. 1-30.

Both displays are a permanent collection of the Fine Arts department of International Business Machines corporation, and are loaned to schools and institutions for educational purposes.

Violin Recital Program On Next Twilight Music Hour

First Twilight Music Hour of the fall semester will be held at 4 p.m. in the Museum auditorium. Mitchell Zoblotny, concert master of the Lubbock Symphony orchestra, will give a violin recital, accompanied by Mrs. Robert Dean.

The program, sponsored by the Museum, is open to the public and no admission will be charged.

Men's Inter-Club Council To Meet Sunday Afternoon

The first regular meeting of the Men's Inter-Club council will be held at 2 p.m. Sunday in the conference room on the first floor, west wing of the Administration building. Several questions concerning national fraternities will be decided, says Dean James G. Allen, sponsor.

Powers That Be . . .

Patience, backed up with power—that might be used as a statement of theme for Tech's Traffic Court.

For the benefit of new student and older ones who never had a clear idea of the workings of the court, here is the way it proceeds:

The court, whose justices are appointed from the student body, summons to appear those students who receive a ticket for a traffic or parking offense on the campus. Violators are warned and told what the court can do about repeated offenses.

Students who receive tickets a second time are again warned of the course which the court can follow concerning repeaters.

On the third ticket, the court is empowered to refer the case to the Disciplinary committee, which may banish the three-time loser's car from the campus or insist that it be sent home.

Last year many of those summoned to tell their stories to the court chose to ignore the summons. Since traffic problems seem to be increasing for Tech, the court will surely not be as lenient as it was on such students.

Cooperation from the student body will make it unnecessary for the court to demonstrate the powers it has been granted.

Abstract in Yellow . . .

Lately, the talk of the art world has been the ceramic pieces imported from Sweden, decorated with abstract, unintelligible designs.

Anyone whose art education has taken him beyond such dabblers as Rembrandt and Michael Angelo (according to the Administration building spelling) will affirm that unfathomable abstracts are the true culture of today.

The city of Lubbock deserves to be congratulated on bringing such art to the citizens. Instead of displaying small pieces of pottery, however, Lubbock puts weird, artistic designs on its streets where even the most poverty-stricken peasant can enjoy them.

For example, note the Picasso-like yellow patterns painted on College avenue. Have you ever seen anything more abstract?

Seen Through The Sand

BY ANN BRYAN

Toreador Associate Editor

This column would like to add its voice to the chorus of welcomes extended to all new students on the campus and say welcome back to the many returning ones.

Evidence that there really are 4,492 new and old Techsians can be seen in the Rec Hall at coffee hour every morning. After standing in line thirty minutes to get that needed cup this a.m. we decided that each of that 4,492 had the same idea at the same time we did. The slime caps in the Green room and the coffee line showed that most of the fish have already discovered the Rec hall.

In case there are some who haven't though, it's a small green house near the music building, surrounded by sand and, occasionally, mud. (When searching for a lost roommate or boyfriend look there first.) It stands in the shadow of an imposing structure which will soon we hope, cease to be a closed chapter in Tech history.

By reading a story on the front page of Tuesday's Toreador and putting into use our small, and we mean small, knowledge of math, we discovered that approximately 26% of the Tech population is female—a ratio in the vicinity of three to one. An interesting fact if you happen to be of the latter sex.

Note to The Daily Texan, University of Texas: Upon learning that she had been listed by that paper as the sixth UT coed to receive the honor, Miss Texas frankly went up in blue smoke. She said that she vaguely remembered a brief stay on a campus

in Austin but that it was obvious which was her favorite since she was back at Tech for her sixth long semester, not mentioning several summers, and planned to graduate here in May.

Announcement made in the dining hall of Horn Hall Tuesday at noon: "You may attend the circus tonight if you don't think they'll keep you and you promise to come straight home when it's over."

You've probably heard of crusading newspapers—here's an example. Student Life, school paper of Washington University, St. Louis, instigated a plan designed to boycott the St. Louis public bus and streetcar service. Students now have a system of car pools, composed of about 1300 cars. The action stemmed from student dissatisfaction with increasing rates and poor service of the transportation company.

North Texas Game Nov. 8 Is Official 'Out-of-Town'

The Texas Tech-North Texas game Nov. 8 has been affirmed as the official out-of-town football game, according to Harold Brannan, Student association president.

Brannan indicated that a bus will be chartered to take students to Denton for the game if there is sufficient demand. The deans' council has approved dismissal of classes on that date.

"Replace that divot, Slim, the cill'll spoil the grass."

Under the Breezeway

by shirley johnson, toreador editor

Toothpaste forever, or something.

Out of nothing but curiosity, we suppose, the University of Wyoming ran a poll of 20 girls to determine what toothpaste tube squeeze they used; i.e., the death grip, the middle squeeze or the top-end squeeze.

Reporters on the campus newspaper found that the girls who picked up the tube any old way and squeezed tended to be rather careless. Those who carefully squeezed from the bottom of the tube and rolled it up as they went along were usually neat in other things too.

Tech Grad Heads New Cotton Post

K. Lanse Turner, 1941 textile engineering graduate, is the new director of the Cotton Research committee of Texas, which has branches at Texas A&M, University of Texas, and Texas Tech. He brings the director's office from A&M to Tech, where he will coordinate its activities.

At Texas Tech, the Cotton Research committee has a branch to test cotton fibers from various sections of Texas. All branches provide the textile industry, cotton merchants, and mills with information on how to use Texas cotton to the best advantage.

Mr. Turner is a 1934 graduate of Lubbock high school. After graduation from Tech, he entered the air force and spent six months in India. He was separated from the service in 1946, as a lieutenant colonel. For 18 months he was a management trainee with West Point Manufacturing company, West Point, Ga., then he joined the National Research council as a technical aide to the council's committee on quartermaster problems. The Tech graduate then joined the Textile Research institute staff at Princeton, N. J. He resigned a few months ago to farm, "never intending to get into the textile industry again," he said. In six months he was back in textiles.

Now all you boys can figure out some way to watch your girl squeeze a toothpaste tube and decide whether she'll be as neat a housekeeper as you want.

Stories We Would Like to Have a Follow-up About or We Wonder Just What Happened Finally:

Last spring we noticed that the American Legion was calling for a congressional investigation of Sarah Lawrence college, New York, because of alleged communists in the faculty.

Next we suppose they'll be investigating nice old ladies who run nurseries; perhaps even checking on the children in the Tech nursery. We are curious, however, as to whether the investigation came off; and, if it did, just what they found.

Noticed in the Daily Texan, from University of Texas, that they are reduced to running that comic strip . . . what was its name . . . oh, yes; Pogo. All lovers of the lil' Southern-type Possum are invited to drop by the Toreador office to read same.

Speaking of the office, we would like to hear from all students on the campus, either through personal visits, or through the Letters to the Editor column.

Letters should be as short as possible; we reserve the right to edit them for space requirements. We will work to secure the answer for you if it is possible. We would like to hear from you.

Quite pleased with the invitation from SMU to the band to represent Georgia Tech at that football game. The band has been sounding very good at the times we have heard it this year. Prof. D. O. Wiley is well-known for his ability to make the band look good at a performance such as that it will be called upon to give in Dallas.

Although we are not too sure of this, we think that this will be the first time any representatives of the Matador band have appeared on television. WFAA-TV has planned to televise some small en-

Note to Our Sports Editor: A pigskin is not a pigskin. This may come as a surprise to sports-writers, not to mention pigs. A National Geographic news bulletin reveals at last that the gentlemen of the press are using their poetic license to the extreme when they refer to a football as a pigskin. Actually, only the finest steer hide—not cow or bull hide—is used by the collegians and professionals.

Baylorites in Paris! A group of Baylor students studying art and drama in France, produced the play "Green Grow the Lilies" by Lynn Riggs July 21. The six men and 26 women students won permission to give the Paris premiere of the Broadway play because the author is a friend and former visiting professor of Baylor university.

semble groups from the band and broadcast the hour concert the band will present the afternoon of Oct. 5.

Wish television had made it up over the caprock so we could see the band. In color, of course. Tech will never settle for plain black-and-white. TV? where?

Band to Stand-In For Georgia Tech

Texas Tech's band has accepted an invitation to represent Georgia Tech at the GT-SMU football game Oct. 4 in the Cotton bowl, Dallas, says Dr. D. O. Wiley, director of Tech bands.

Dr. Wiley said the invitation came from Okley Pittman, director of the SMU Mustang band.

As representative of Georgia Tech, the Matador band will sit in the section reserved for Georgia Tech and will take the field first for halftime activities. This game officially opens the 1952 State Fair of Texas. Oct. 5 is Texas Tech day.

About 114 band members are expected to make the trip, leaving Tech early Oct. 4 and returning the night of Oct. 5.

Also while in Dallas, the band will play an hour concert at 1:30 p.m. Oct. 5 in front of the fair's Hall of State. Small ensemble concerts will be presented over WFAA-TV.

ASCE Pie-Eating Contest Is 'Get-Acquainted' Feature

A pie-eating contest was featured in the American Society of Chemical Engineers meeting Tuesday night, said Bobby Cooke, president.

The contest, a get-acquainted activity for the ASCE Tech student chapter, was won by Ben Street, Dallas senior. His rival for the title was Gary Alston, Sweetwater. Street won in 7 minutes, 12 seconds.

Club officers for the year were also introduced. Those other than Cooke introduced were Russell Cate, vice president; James G. White, secretary; Fred Baker, treasurer; Harry N. Roberts, Lubbock consulting engineer, contact

Four Texas Tech exes have been employed with Stanolind recently. They are CHARLIE P. PRIDDY, in Big Lake, JOHN D. TACKETT, in Odessa, NORMA J. CARY in Lubbock and JIMMIE L. MASON in Hobbs, N. M.

member from the national organization; Dr. George A. Whetstone, faculty advisor.

The J. H. Hurdough student chapter meets twice a month.

Jones Entertains Staff Members

President and Mrs. E. N. Jones entertained new Tech faculty members at a reception held Monday from 8 to 10 p.m. in the lounge of Drane Hall.

The approximately 500 guests, Tech faculty members, were greeted by Roy Wells, assistant to the president. In the receiving line were the new faculty members and their wives, Vice President and Mrs. Marshall Pennington, George Benson, W. P. Clement, Deans James G. Allen, W. L. Stangel, George G. Heather, R. C. Goodwin, D. E. Holcomb, and W. B. Gates.

The houseparty was composed of Mesdames Marjorie Neely, dean of women; W. P. Clement, Roy Wells, George Benson, D. M. Wiggins, James G. Allen, W. L. Stangel, George Heather, R. C. Goodwin, D. E. Holcomb, W. B. Gates, and Miss Margaret Weeks, dean of home economics.

Easy, Prof; Those Cops Aren't From Kefauver

The class in Municipal Government isn't being raided. Local gendarmes are not trying to establish a police state.

It's just four representatives of the Lubbock Police department who have signed up for the 15-week government course.

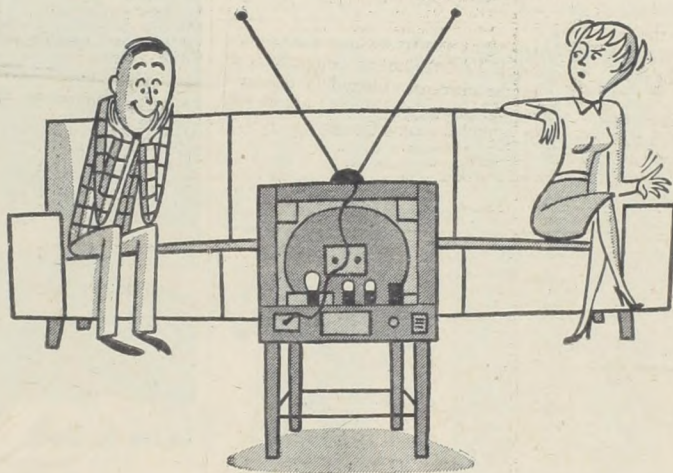

They are Police Inspector L. W. (Skeet) Forrester, Det. Capt. Lewis Kittrell, Patrol Capt. Gilbert Newton and Patrol Lt. Sidney Smallwood.

Lt. Col. Green to Report

Lt. Col. Hampton Green, who will take command of the Army ROTC unit at Tech, was delayed in arriving due to his father's death, as reported to President E. N. Jones.

Lt. Col. Green was scheduled to arrive on the campus Sept. 15 but will now be delayed until Sept. 30.

A petroleum geology graduate, JOHN WOOD, is working for Stanolind.

MODERN TRIANGLE A BOY... A GIRL... TV

Let's face it. Living rooms are still in style. But a third party is inching its way in to form a crowd.

And no wonder. Few can resist this miracle that has brought the world and set it down in front of you. Living history, flowing past your eyes. Politics. U. N. sessions. Sports. Spot news. Personalities.

We in the Bell System help to put you in this front-row seat on history. Bell Laboratories research contributed to TV de-

velopment. Now our radio-relay systems and coaxial cables carry the images between cities and across the country.

Our part in TV transmission is only one among dozens of activities that keep us in the front line of modern communications. They are all reasons, we believe, why college people should find out what the Bell System has to offer in the way of opportunities.

Why don't you ask your college placement office about it?

UPPER ECHELON—Cadet officers who will lead Tech's air ROTC are, front row left, Howe Vandergriff, cadet colonel and wing commander; Joe Stolz, front row right, cadet Lt. colonel and vice wing commander. Back row, left to right are three cadet majors: Dee Stevenson, wing public information officer; Harold Simon, plans and training officer; Ed Baker, adjutant.

Curriculum Study Here Next Week

Continued improvement of the teaching-learning process will be the central theme of the Lubbock County Curriculum Development workshop, which meets on the campus Monday through Wednesday.

It is sponsored by the Lubbock county schools in cooperation with Texas Education agency and Tech.

Roy Boyd, Lubbock county superintendent, will preside at the general session Monday morning. Welcome of workshop registrants will be given by Dr. John S. Carroll, education department head. Dr. Carroll will also be responsible for group assignments.

Several Tech faculty members will take part in the workshop. T. B. Livingston, associate professor of education, and Donald McDonald, assistant professor of education, will be consultants in the communicative arts section. In section II, basic social studies, Miss Katherine Evans, associate professor of education, and Per G.

Examinations For State Job To Be Offered In October

Competitive examinations for positions in the State Department of Public Welfare have been placed on a continuous basis. Examinations for typist, stenographer, field worker, child welfare worker and senior child welfare worker will be offered once each month, beginning in October.

In Lubbock, examinations for these positions will be offered on each second Saturday. Interested persons should visit the local office in the old courthouse for information concerning minimum qualifications and salary ranges.

Stensland, head of adult education, will act as consultants.

Consultants from Tech in the bases for healthful living section will be George P. Mechem, associate professor of education, and Miss Sue Rainey, associate professor of physical education. Horace Hartsell and T. E. Edwards, assistant professors of education, and Henry McCarty, audio-visual director, will be consultants in the curriculum resources and services section.

Forensic Group To Discuss FEPC

National debate and discussion questions were announced at the first meeting of the Tech Forensics union Tuesday. Thelmadene Hutchins, president, announces.

The discussion topic, of international as well as national interest, is "How can we most effectively combat the threat of communism?" The resolution for debate is "Resolved, that the Congress of the United States should enact a fair employment practices law."

The group has made tentative plans to attend tournaments and conferences in Denver, Colo., Fayetteville, Ark., Wab and Greenville, N. C., during the coming year.

Plans were also discussed on the tournament to be held here Oct. 17-18. Activities which will be participated in at the various tournaments include debate, discussion, oratory, after-dinner speaking, interpretation, extemporaneous speaking, impromptu and radio.

Students interested in any of these activities are invited to attend the second meeting of the organization at 7:30 p.m., Tuesday in the Speech building, Miss Hutchins says.

Sponsors To Meet Thursday

Sponsors of all recognized student organizations will meet at 4 p.m. Thursday in the Ag Engineering auditorium, Dean James G. Allen announces. The Ag Engineering building is west of the main Agricultural building and faces the Stock Judging Pavilion.

MOST IMPORTANT YOUNG MAN

IN AMERICA TODAY...

Who is he?

This chap represents thousands of young, red-blooded sons of great American families. He is ready to stand on his own, to carry his share of responsibility. He is preparing for a bright future and desires to train further toward his success. He wants peace, security, and a full life for his family and home. If need be, he is ready to defend his rights and his country. When called on to serve in defense of American liberties, he will be fully trained and equipped to fly and fight with the U. S. Air Force.

This is what he will do—

Today's college man will plan to stay in school and graduate if at all possible. If he is faced with early entrance into military service and possesses at least two years of college, he will enlist as an Aviation Cadet in the U. S. Air Force and choose between becoming a Pilot or Aircraft Observer. After a year of the world's best instruction and training, he will graduate into a real man-sized job and wear the wings of America's finest flying fraternity. Commissioned a Second Lieutenant in the U. S. Air Force, he will begin earning nearly \$5300 a year. His future will be unlimited!

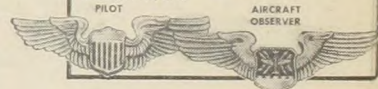

How he qualifies—

He is between the ages of 19 and 26½ years, unmarried and in good physical condition, especially his eyes, ears, heart and teeth. After he has graduated from a recognized university or college, or has earned at least two years of college credits, he is eligible to enter the Aviation Cadet Training Program and will receive immediate processing for assignment to training. By sending for an Aviation Cadet application now, this Most Important Young Man in America Today will help bring about a peaceful tomorrow.

WHERE To Get More Details

Raiders Clash

Tech's Red Raiders against a highly-rated tomorrow night in Houston, who have been better than third on the pool in the South. The clash between Tech and Cris will be the edge in the schools. The edge in the schools is a victory to the Techs.

Series Begins
The series began with Rice taking the 19 to 7. The Raiders only game of the set was 7 victory in 1941. The last meet last year for time since the series. Last year Rice, with composed mostly of surprised the dogsters the third in the South Texas race. This year 21 of 29 returning. Among those returning back Dan Drake, now who last year's comp. touchdown passes to Larry Isbell or Fred B. defense team is practice as last years stub.

Raiders Rated
The Raiders definitely rated underdogs in the. They have been working week getting ready for however. Less Neely is veteran of the Rice team. De formis head coach a now assistant coach squad. Tech's squad, fresh 48 to 7 victory over State, will be gunning second victory of the Houston. The Raiders letterman from last year.

Fencing Class Open
A fencing class is here at Tech this fall are expected to be in it which the majority men. The class meets 4 p.m. every Friday to anyone interested.

Raiders to Go Owl-Hunting; Clash With Highly-Rated Rice

Tech's Red Raiders run up against a highly-rated Rice team tomorrow night in Houston. The Owls, who have been picked no lower than third on any pre-season poll in the Southwest conference, will be playing their first game of the season.

The clash between the Raiders and Owls will be the tenth meeting of the schools. Rice holds a decided edge in the series with eight victories to only one for the Techsans.

Series Begins in '42

The series began back in 1942 with Rice taking the first game, 19 to 7. The Raiders won their only game of the set with a 13 to 7 victory in 1944. The schools did not meet last year for the first time since the series began.

Last year Rice, with a squad composed mostly of sophomores, surprised the dopesters by finishing third in the Southwest conference race. This year they have 21 of 29 lettermen returning. Among those returning is quarterback Dan Drake, now a junior, who last year completed more touchdown passes than either Larry Isbell or Fred Benners. The defense team is practically the same as last years stubborn squad.

Raiders Rated Underdogs

The Raiders definitely have been rated underdogs in the contest. They have been working hard all week getting ready for the game however.

Jess Neely is veteran head coach of the Rice team. Dell Morgan, former head coach at Tech, is now assistant coach of the Owl squad.

Tech's squad, fresh from their 48 to 7 victory over West Texas State, will be gunning for their second victory of the season in Houston. The Raiders have 34 lettermen from last year's team.

Fencing Class Open to All

A fencing class is being held here at Tech this fall. About 35 are expected to be in the class, of which the majority will be women. The class meets from 2 to 4 p.m. every Friday and is open to anyone interested.

RALPH R. SCOWDEN, a math grad, recently went into training as an active duty volunteer for meteorology training at the U. S. Air Force's civilian institution in Smithport, Pa.

Action to Begin in Intramural Football; Teams Will Compete for College Crown

Tech's intramural sports program, which has grown very rapidly the past three years, will get off to a bigger start this year than ever before. The program is under the leadership of George Philbrick, associate professor of physical education.

All regularly enrolled Tech students are eligible to participate in the program.

Football will be the first sport to take the spotlight. Between twenty-five and thirty teams are expected to enter this year.

Entries for football teams will open Oct. 1 and close Oct. 8. Play will start Oct. 13th. Entries should be turned in to Philbrick's office in the gym.

Three leagues will begin action in football. They will be MICC, dorm and independent leagues. All managers will meet at 5 p.m. in the gym Oct. 1 to discuss rules. Managers should turn in eligibility lists of team members.

Teams should begin practice right away and all team members should wear the same color jerseys to avoid mix-ups. Teams are welcome to use the practice fields behind the gym.

All games will be played on the fields behind the gym between 5 and 6 p.m. Monday through Friday. There will be a single round-robin in all leagues with no play-offs unless there are ties. The winners of each league will compete for the college championship.

SPORTALK

By Bob Lovelace

Tech will be in Houston Saturday night getting their first real test of the season. Tech fans will be eagerly awaiting the outcome of the first game against a Southwest conference opponent since we got the "raw deal" from them last spring.

The Raiders have been rated underdogs, but they can't judge that rating on much. Rice hasn't even played a game yet. It's true that all the dopesters have picked them as one of the Southwest conference powers, but they haven't had a true test as to their strength.

Meanwhile the Raiders came through as expected with a convincing victory over West Texas. The game should be a close one, especially if the weather is cool in Houston. Many times, the humidity rather than the opponent has beat the Techsans in Houston, as well as the Aggie series in San Antonio.

Rice's squad contains several juniors which may mean that they have more experience than the sophomore-filled Raider team. They may have a good passing game, but their star end, Bill Howton, has graduated. However,

their passer, Dan Drake, is still around as a big thorn in the side of any opponent.

The Raiders strong defensive showing in the opening game looked to us as though they may be able to hold their own even against some of the toughies on the schedule. As also shown in the West Texas game, our passing may be stronger and will be an important weapon against future opponents.

The Raiders have been working hard against Rice plays this week, and punting has come in for its share of work since there was only a 22-yard average for the first game. Paul Erwin, who turned in a good game last week, was injured in practice Tuesday, and is a doubtful Saturday starter.

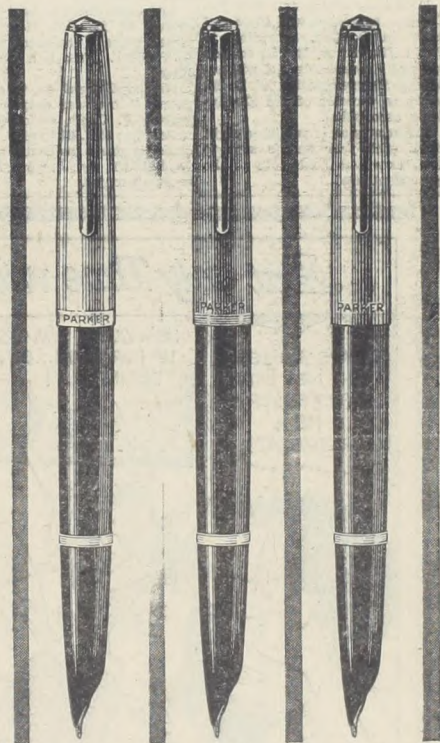

The game should be a toss-up with Rice coming out on top by a narrow margin of six points.

The intramural sports program has really grown on the Tech campus within the past three years. This program gives the Tech student a chance to participate in one or several sports. There's a place for every student, so get your team organized now.

Teachers To Have Workshop at Tech

The third annual West Texas State Teachers association workshop will be held on the campus Thursday.

Coordination of work among West Texas teachers is the central theme of the conference. About 150 persons representing the 26 counties in District 4 of the Texas State Teachers association are expected to attend.

The general session will open at 9:30 a.m. with Walker Bailey, president of District 4 from Big Spring, presiding. Miss Mary Titus, consultant for the local National Education association, will give the keynote address. The TSTA program for 1952-53 will be outlined by Miss Ruth Hillier.

Tech faculty members taking part in the program will be Dr. Doyle D. Jackson, professor of education, and Dr. John S. Carroll, head of the education department. Dr. Jackson is chairman of the legislative chairman section and Dr. Carroll is one of the consultants.

Pre-Law, IRC Hold Joint Meet To Make Plans for Coming Year

Pre-Law and International Relations clubs will have a joint meeting at 7:30 p.m. Tuesday in Ad313, says Dr. J. William Davis, head of the government department.

Plans will be made for the coming year. Anyone interested in pre-law or international relations is urged to attend this meeting, Dr. Davis added.

Fall Ex-Techsan Magazine To Be Issued in October

First issue of the fall 1952 Ex-Techsan magazine will come out early in October, according to Paula Fix, editor. It will contain news of Homecoming and will announce the resignation of D. M. McElroy, director of the Ex-Students association.

The magazine is published eight times each year and is sent to Tech exes who contribute to the ex-student fund.

Speech Correction Clinic Eager To Help Students, Townspeople

Anyone interested in getting aid or advice on speech difficulties should see Miss Helen Lindell, assistant professor of speech and head of the speech correction clinic.

"I would like for the Tech students to realize that we are interested in their speech problems, whether large or small," Miss Lindell says. The clinic, located in the Speech building, is open to all Tech students as well as to any person of any age level in Lubbock vicinity.

The staff of the clinic is available to give help in correcting small problems such as regional dialects, pitch of voice and nasality, as well as such problems as stuttering, lisping and breathing habits which hinder speech effectiveness.

Cadets Invited to Meeting

All army and air force ROTC cadets are invited to attend the Sam Houston Rifles' first official meeting of the fall semester, to be held in building X9A at 5 p.m. Monday.

The meeting will be devoted mainly to the presentation and discussion of the semester's activities and to a brief election. A sponsor, co-sponsor, and cadet officers will be elected.

Powell, Vandegriff—

(Continued from page 1)

Ross Relyea, cadet captain; R. G. Rhodes, cadet first lieutenant.

Second battalion officers — R. T. Grimes and Ted Harrison, cadet captains; Jack McGann, cadet first lieutenant.

The department is awaiting the arrival of Lt. Col. Hampton L. Green, corps of engineers, who will be PMS&T. Green is a veteran of Korea.

New staff members, veterans of extensive overseas duty are Maj. Dayton F. Caple, senior infantry instructor; Maj. Richard E. Brown, senior engineer instructor and acting PMS&T; Sgt. Judge H. Hooper, sergeant major.

Lt. Vernon Wade To Go To Mississippi Flying School

First Lt. Vernon D. Wade of the Tech air ROTC unit has been approved for flight training and will leave the campus next week to report to the Greenville, Miss., basic flying school.

Lt. Wade was recalled into the air force in 1951 and was assigned to the Tech unit to teach navigation and electronics in the armament section. Previous to recall, he was an instructor in electrical engineering at Tech.

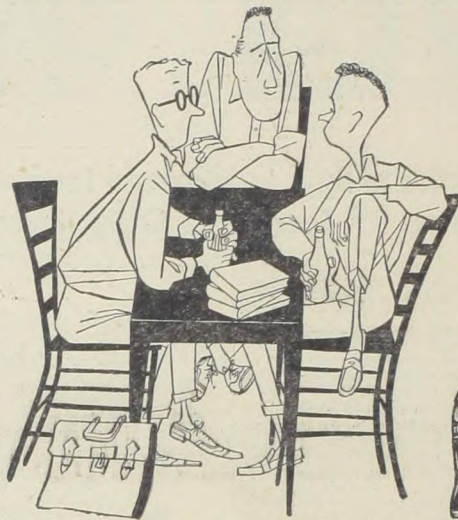

Working out of Oklahoma City as a scout for the Gulf Oil Corporation is HARRISON LEMAY ALBAUGH. He was a petroleum geology graduate.

Dr. Jones To Be Speaker At South Plains Functions

President E. N. Jones will be the guest speaker of functions in the South Plains towns next week.

He will travel to Levelland Monday to speak at Business-Education Day activities sponsored by the Levelland Chamber of Commerce. His subject will be "The Value of Free Enterprise."

"A Farmer's Analysis of America" will be his topic at the Harrison County Farm Bureau banquet Tuesday in Plainview. Rounding out the week's activities, he will deliver the welcoming address at the field day and plowing contest at Pan-Tech farms near Amarillo Wednesday.

Campus capers call for Coke
