

## Scenes 'Stolen' at Opening of 'Miser'

"The Miser," comedy by Moliere, opened Monday night and will be repeated nightly through Saturday at 8:15 p.m. in the Speech Auditorium. The cast and staff:

Elise ..... Harriet Henderson  
Valere ..... John Perry  
Claute ..... Dee Bowman  
La Fieche ..... Ted deKanter  
Harpagon ..... Fritz Stanley  
La Merliche ..... Carlton Holloway  
Bridavoine ..... Edward Kubrau  
Simon ..... Dwayne Carter  
Frosine ..... Joan Terry  
Mistress Claude ..... Joyce Seiman  
Jacques ..... Jack McCabe  
Mariane ..... Sandra Wright  
-A magistrale ..... Tim Eysen  
Anselme ..... Ronald Schulz  
Director ..... Nancy Dodd  
Assistant ..... Lavoy Berry  
Stage Manager ..... Gayle Ewing  
Assistant ..... Gayle Ewing

By RALPH SHELTON  
Foreador Editor

The Tech Speech Department has given Moliere's comedy a Martin and Lewis touch, and the result is one of the most pleasant evenings available to Techsians in recent weeks.

Jack McCabe used some of Jerry Lewis' broadest accents and contorted facial expressions to perform a job of scene-stealing which Tech audiences have come to expect of him. He consistently got the same sort of hysterical laughter from his audience that the Hollywood comedian produces in movie-goers.

Although he provoked the longest and loudest responses from the capacity crowd Monday night, he is to be reprimanded for keeping part of the spotlight off the hardest-working member of the cast, Fritz Stanley, who deserves almost all credit for the success of the play. Playing the long and difficult role, Stanley so well handled the voice and the posture of Harpagon that he will never have the delight of being recognized as "the miser" while walking about the campus. His weird, cackling laughter while making love to his cash box brought first gasps and then giggles from the audience.

Standouts in the excellent cast were:

Harriet Henderson, whose beauty and long experience at playing ingenue parts made it possible for her to perform with more self-assurance and poise than anyone else in the cast.

John Perry, admirably cast in the part of a polished servant and nobleman (you'll have to see the play for the explanation.)

Joan Terry, whose sense of romance made her a helpful friend to the lovers and whose love of money made her a worthy opponent for the miser himself.

Sandra Wright, who displayed a surprisingly mobile face and an

almost too-youthful appearance. The sets were in the department's tradition of imagination and ingenuity. Costumeing was unusually elaborate for a Tech production.

The play itself is the sort of comedy which can be taken as pure farce if the viewer is still fatigued from the Homecoming weekend or as a commentary on human traits if the viewer cares to look beneath the surface.

Students are admitted on their activity books. Reservations may be made by calling the speech department.

### PROFS TO SPEAK

Dr. Per G. Stensland, head of Tech's department of adult education and Dr. George Heather, dean of business administration, will take part in a conference on community education at 9 a.m. Saturday at Amarillo College.

Dr. Stensland will speak on new adult education methods for a new age and Dean Heather will speak on economics of our society.

TWO OF THE WINNERS in Saturday's homecoming parade are pictured above. At left is Delta Delta Delta's Most Beautiful float, a violin ridden by Peggy Floyd. At right is Kemas' entry, which won both the Best Float and Best Descriptive awards. It depicts a bullfighter challenging an Arizona wildcat.

7 p.m. Clapp partyhouse

## Parade Labeled 'The Best Yet'

Saturday's Homecoming parade, judged by many the best in Tech's history, attracted an estimated 20,000 spectators. The Lucian Thomas Cup, awarded annually for the most outstanding float, was given to Kemas for its matador and wildcat.

## Elections Slated For Wednesday

Mr. and Miss Texas Tech, all-school favorites, and class favorites will be elected next Wednesday, announces Nina Spearman, secretary of the Student Association and head of the elections committee.

Polls in major campus buildings will be open from 8 a.m. to noon and from 1 p.m. to 5:30 p.m. for balloting in the all-school favorite race. Names of candidates must be submitted to the Council office by 5 p.m. Monday, so that ballots may be printed. No writing in votes will be accepted.

Delta Delta Delta won the plaque awarded for the most beautiful float. The entry was a huge violin in white, aqua and deep red. Peggy Floyd, Floydada sophomore, rode the float.

The plaque for most comic float went to Phi Delta Theta. Its entry of a blue whale depicted a "whale of a victory for Texas Tech." Kappa Alpha Theta's theme suggested that the Red Raiders "sleigh" the University of Arizona, Tech's football opponents of the day. Pi Beta Phi entered a revolving merry-go-round of Tech activities. Kappa Kappa Gamma showed several campus men "caught in the Kappa web." Zeta Tau Alpha presented a bird in a gilded cage to mimic Arizona.

The sororities colonies were also represented. Delta Gamma displayed the sorority's shield and anchor pin, while Alpha Chi Omega depicted a caged Arizona wildcat.

Sigma Alpha Epsilon's theme was "in memory of those exes who won't return." The float was a chapel, complete with ringing bells and live pigeons. Kappa Sigma displayed the life of a student who has to quit school to serve his country, returning as a veteran to resume his studies. Sigma Nu featured the fraternity's white rose. Pi Kappa Alpha entered a caged black cat, while Phi Kappa Psi used a nautical theme. Alpha Tau Omega's float was a huge article of plumbing with the theme "Flush Arizona."

The rose of Delta Sigma Pi decorated another float, while the Baptist Student Union depicted liberty and freedom by displaying the Statue of Liberty facing an open Bible.

A total of 32 floats were entered in the 30-minute parade.

### ENGINEERS ACCREDITED

Five Tech engineering departments have been re-accredited by the Engineers Council for Professional Development, accrediting agency for engineering curriculum.

Civil, electrical, industrial, mechanical and textile engineering curricula have been approved by this agency, which holds inspection every five years.

WINNER of the award for best dormitory decorations in the 1953 Homecoming competition was Sneed Hall, whose front door is shown above.

# By The Way . . .

**For FTA Members**  
A panel of new teachers will talk about their first experiences in teaching at 7 p.m. tomorrow in L11 at a meeting of Future Teachers of America.

**Chambers Junior Rotarian**  
J. C. Chambers, Student Council president, was introduced as Junior Rotarian of the Month for November at last week's session of the Lubbock Rotary Club.

**Audio-Visual Exhibit Burglary**  
In connection with a \$4,400 burglary of a commercial audio-visual exhibit in the old Rec Hall this summer, a Lubbock man has been arrested and indicted. One camera is the only part of the loot that has been recovered.

**Tech-Mississippi Game Film**  
A film of the Texas Tech-Mississippi State football game was shown members of the Lubbock Exchange Club last week. Buist (Buzz) Warren, assistant coach, commented on the film and commended the Red Raiders for one of the best games they have played this season.

**Rainer Addresses Civitan Club**  
Glenn Rainer, Tech junior and Lubbock's goodwill ambassador, addressed members of the Civitan Club last week. He related some of his experiences while in Holland this summer.

**Capa Y Espada Stages Play**  
"Dulces Para el Ladrón, or How True Love Broke up the Goodies Ring," a Spanish play, was staged by Capa y Espada, Spanish Club, last night. A group picture of the club was made for La Ventana.

**Mellomen Quartet To Sing**  
Tech's Mellomen Quartet will sing tomorrow at a Men's Club banquet in Petersburg. Billy Key, Jerry Bratcher, Ross Cass and John Marse are in the group.

**Madrigal Singers Appear**  
The Madrigal Singers—Marjorie Scales, Alice Ann Yates, Marjorie Hendrick, Joyce Miller, Tim Magness, Ned Hardin, Clarence Whiteside, and Bill Comack, appeared on the program of Allegro Music Club yesterday in the Women's Club auditorium.

**Paper Sculpturing to Be Shown**  
Demonstration of paper sculpturing will be given at the regular meeting of the Applied Arts Workshop tomorrow night at 7 o'clock in the freshman design lab in the Home Economics Building. Arne Randall, head of applied arts, will give the demonstration.

One senior student at Tech has applied for a Fulbright Grant, which provides for graduate study abroad. Winners of the grants will be announced in the spring.

## Richards Slated To Speak Tuesday

Richard Richards, director of the Lubbock High School Choir, will speak on "The Role of the High School Choir Director" at 7:30 p.m. Tuesday in the recital hall of the Music Building.

This lecture will be supplemented by a choral repertoire, demonstrating the techniques of building and developing a choral organization. The Lubbock High School Choir will be used not only as the performing group, but also as a workshop group showing the techniques of rehearsal.

A brief discussion will follow the hour lecture. This is the second in the lecture series sponsored by Mu Phi Epsilon, national professional sorority in music.

"Symposium on Jazz," the first lecture, was held Oct. 27, and was attended by about 150 persons, according to Kathy Phillips, president.

### HELICOPTER FILM

Harry Miller, engineering personnel officer of the Bell Aircraft Helicopter Division of Ft. Worth, will speak Monday to a joint meeting of the Lubbock American Society of Mechanical Engineers and the Tech student chapter of ASME.

## Beware Friday The 13th— Day Before Mid-Semester

Members of seven classes will be taking special precautions between the hours of 8 and 5 Friday, the 13th.

Avoiding ladders, black cats and the like, these students will boldly make their way to classes which meet in Ad313 and Sci13. Six of these classes are sections of Government 231 and the other one is Physics 216.

These are the only classes which meet in a room 13 on Friday of this week.

Thirteenth Street, however, will be the meeting place of five Bible classes on Friday.

In keeping with the general tone of bad luck, mid-semester grades are due the next day, making Friday a most appropriate time for most mid-semester quizzes.

**How unlucky can you get?**

But cheer up, this is the only time Friday comes on the 13th all year long.

Approximately eight freshmen withdrew from Tech as a result of not passing nine semester hours during the first four weeks of the fall semester.

## BILLIE HARDING

# Coed Thinks Chemical Engineering Offers Challenging Career to Women

"Why in the world did you pick such a major?"

"Do you really intend to get your degree in that?"

These are just samples of the questions that Billie Harding, freshman from Big Spring, is asked every day. She is majoring in chemical engineering, one of three women in the department.

Billie, who is 23, first became interested in the possibility of getting a degree in chemical engineering, while working at Consolidated-Vultee Aircraft Company in Ft. Worth. At Convair, she was a cost accountant, which meant that she figured out the amount of time and money that every engineer for the company spent.

"I had never really considered going to school until one dull day at the office when an engineer stopped by my desk and casually mentioned that he thought I should go to school," Billie says.

That was last November and, after careful thought, she quit the job she had held five years and came to Tech this fall.

"I chose Tech because it is close to home and several of the

engineers in Ft. Worth recommended it," she says.

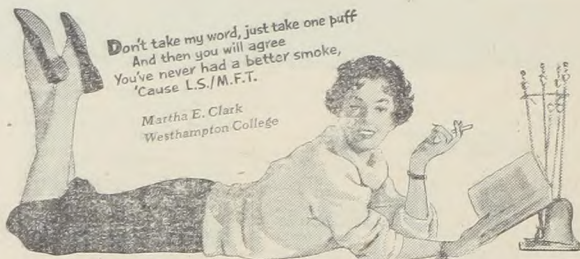

"However," she concedes, "woman's place in the field is a little doubtful right now, but," and she gets a gleam in her eye, "there was a time not too long ago when women doctors were looked upon in the same light."

Although Billie probably would have majored in English had she come to college directly from high school, she says that chemistry was the only subject in high school that completely fascinated her.

With such courses as chemical engineering, plant design, chemical technology, instrumentation and chemical engineering thermodynamics to take, Billie assures everyone that her purpose in college is "strictly business."

After graduation, in the spring of 1957, she plans to go to work for an aircraft company, possibly back to Convair, or else to work in some phase of chemical industry.

Frankie Boyd, senior from Big Spring, and Shirley DeShazo, Lubbock freshman, are the other women in the chemical engineering department.

Don't take my word, just take one puff  
And then you will agree  
You've never had a better smoke,  
'Cause L.S./M.F.T.

Martha E. Clark  
Westhampton College

## LATEST COLLEGE SURVEY SHOWS LUCKIES LEAD AGAIN

Last year a survey of leading colleges throughout the country showed that smokers in those colleges preferred Luckies to any other cigarette.

This year another nation-wide survey—based on thousands of actual student interviews, and representative of all students in regular colleges—shows that Luckies lead again over all brands, regular or king size...and by a wide margin! The No. 1 reason: Luckies taste better.

Smoking enjoyment is all a matter of taste, and the fact of the matter is Luckies taste better—for 2 reasons. L.S./M.F.T.—Lucky Strike means fine tobacco. And Luckies are made better to taste better. So, Be Happy—Go Lucky!

When I relax for just a sec,  
A Lucky Strike I light,  
I find its mildness, better taste  
Make smoking a delight!

Bernard B. Grossman  
University of Southern California

So round, so firm, so fully packed  
They really are a treat.  
For all occasions that arise  
A Lucky can't be beat!

Evelyn Ann Blum  
Michigan State College

### Where's your jingle?

It's easier than you think to make \$25 by writing a Lucky Strike jingle like those you see in this ad. Yes, we need jingles—and we pay \$25 for every one we use! So send as many as you like to: Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y.

**Two Fraternities**  
SAE Plans Dance in Harvest Theme

Sigma Alpha Epsilon Fall Harvest Dance will be at 8:30 p.m. Saturday in the room of the Lubbock Hotel. Hon's orchestra will play the dance.

Members and their dates:  
Don Andress, Sandie Cass; Jack Badgett, Averil Brink; Melvin Bird, Marie Fox; Blackmore, Shirley Weed; Clark, Patty Price; Ronaldson, Greta Reynolds; Donson, Bobbie Cearley; Bobson, Margaret Wood; Donson, Marilyn Stonecipher; Harvare, Donna Stampfer; old Hogan, Mary Whiteside; Hollis, Patty Lyness; House, Dorene Dennis;

Andrey Howard, Annie; Bob Kain, Zelma Barrett; Bob Keys, Dorothy Clement; Gary Key, Jean Collett; La Shier, Harriet Henderson; Calk, Adelia Stokes; Glenn, Johnnell McKinzie; ham, Johnnell McKinzie; Peters, Nan White; Bill; Pat Byron; Jerry; Raun; Hadlock, Lyle Shelton; Lewis; Ralph Miller; Johnson; Jerry Webb, Betty; Ed Weyman, Nina Spearman; and Mrs. Allen Cockrell; Douglas, Bette Davis; Don; ill, Carolyn Pope; Harry; Connie Hunter.

Pledges and their dates:  
Cooper Blount, Huda Hassa; Craft, Joyce Wright; Bill; land, Carole Crowder; Harlan, Mary Jane Miller; Hillier, Joy Green; Ken K; Kay Collins; J. N. Marks; Heck; Mack Price, Pat S; Sampson, Joann Hampton; Boozer, Kit Weldon.

**Board Discusses Five Major Topics in Recent Meeting**

Approval of two classes less than 12 enrollment, of an honorary degree not approval of three new four directors were matters on the Board of Directors took in a meeting Saturday.

Other matters discussed appointment of a Lubbock tectural firm for the property and discussion of the Tex land title.

The board gave approval additional classes with an ment of less than 12 at bringing the number of classes to 111. Of the total 11.6 per cent have 12 or less than 12 students have dropped since tabulation classes, required by an act Legislature, has been made.

Three new directors of Texas Tech Foundation provided. They are: Harold Plainview, president of Queen Mills, Frank Kelley orado City, West Texas lar for the Magnolia Co., and R. Martin of Lubbock, partner in the Dunlap Co. architectural firm, were app for the proposed Len and McClellan Infirmary.

Also approved was a sug policy to follow when se individuals for honorary to be awarded by the colle more than two such degrees awarded an any one com ment.

The board also approved re-contract with the ment on a conditional des by the college on part of the Tex plant northeast of An

**PAINTING CLASSES**

A five-week series of painting classes at the Museum is on Tech students, according to Avery Fox, instructor.

The classes, sponsored by South Plains Art Guild, are 9 to 11:30 a.m. each Tuesday through Thursday.

Students may enroll for one or two lessons weekly or \$10. An exhibition of student work will be given during the week of the session, which Dec. 10.

## Two Fraternities Plan Dances

### SAE Plans Dance In Harvest Theme

Sigma Alpha Epsilon's annual Fall Harvest Dance will be held at 8:30 p.m. Saturday in the ballroom of the Lubbock Hotel. Jack Hon's orchestra will play for the dance.

Members and their dates are: Don Andrews, Sandie Casstevens; Jack Badgett, Averill Brinkmann; Melvin Bird, Marie Fox; Richard Blackmore, Shirley Weed; Gerald Clark, Patty Price; Ronald Croston, Gloretha Reynolds; Don Davison, Bobbie Cearley; Bob Dickenson, Margaret Wood; Don Ferguson, Marilyn Stonecipher; George Hargrove, Donna Stamper; Harold Hogan, Mary Whiteside; Mickey Hollis, Patty Lynes; Jerry House, Dorene Dennis;

Audrey Howard, Linnie Boyers; Bob Kain, Zelma Barrett; Gregory Keys, Dorothy Clements; Bill La Shier, Jeane Collett; Jack McCabe, Harriet Henderson; Mack Mahon, Adelia Stokes; Glen Markham, Johnnie McKinzie; Jerral Peters, Nan White; Bill Nielsen, Pat Byron; Jerry Raun, Frank Padlock; Lyle Shelton, Jeanelle Lewis; Ralph Shelton, Shirley Johnson; Ralph Miller, Sandra Sell; Jerry Webb, Betty Hudson; Ed Weyman, Nina Spearman; Mr. and Mrs. Allen Cockrell; Don Douglas, Ette Davis; Donald Hamill, Carolyn Pope; Harry Neal, Connie Hunter.

Pledges and their dates are: Cooper Blount, Huda Hassen; Tom Craft, Joyce Wright; Bill Eastland, Carole Crowds; Ronald Harlan, Mary Jane Miller; Ronald Hillier, Joy Green; Ken Kummer, Kay Collins; N. Marks, Greta Heck; Mack Price, Pat Scott; Ed Sampson, Joann Hampton; Jim Boozer, Kit Weldon.

## Board Discusses Five Major Topics In Recent Meeting

Approval of two classes with less than 12 enrollment, setting of an honorary policy, and approval of three new Foundation directors were matters on which the Board of Directors took action in a meeting Saturday.

Other matters discussed were appointment of a Lubbock architectural firm for the proposed infirmary and discussion of the Pan-Tex land title.

The board gave approval to two additional classes with an enrollment of less than 12 students, bringing the number of such classes to 111. Of the total classes, 11.6 per cent have 12 or less students. A total of 52 classes with less than 12 students have been dropped since tabulation of such classes, required by an act of the Legislature, has been made.

Three new directors for the Texas Tech Foundation were approved. They are: Harold Hinn of Plainview, president of Harvest Queen Mills; Frank Kelley of Colorado City, West Texas land man for the Magnolia Co.; and Retha R. Martin of Lubbock, managing partner in the Dunlap Company.

Butler and Brasher, Lubbock architectural firm, were appointed for the proposed Len and Harriett McClellan Infirmary.

Also approved was a suggested policy to follow when selecting individuals for honorary degrees to be awarded by the college. No more than two such degrees may be awarded an any one commencement.

The board also approved proposed re-contract with the government on a conditional deed held by the college on part of the Pan-Tex plant northeast of Amarillo.

### PAINTING CLASSES

A five-week series of painting classes at the Museum is open to Tech students, according to Mrs. Avery Fix, instructor.

The classes, sponsored by the South Plains Art Guild, are from 9 to 11:30 a.m. each Tuesday and Thursday.

Students may enroll for either one or two lessons weekly for \$5 or \$10. An exhibit of student work will be given during the final week of the session, which ends Dec. 10.

### Phi Delt's Plan Dinner Dance

Phi Delta Theta social fraternity will have its annual dinner dance at 7 p.m. Friday at Lubbock Country Club. It will be a closed program dance, with Bud Hubbard's orchestra providing the music.

Members and their dates are: John Pittman, Mary Gail Heatley; Donald Holt, Ann Hudspeth; Earl Dietering, Carolyn Tapp; Jimmy Sexton, Sue Ann Hunt; Don Mills, Pat Fralin; Bob Peterson, Verna Harrington; Don Bacon, Jeannine Brown; Jack Pruitt, Celia Chortas; Dick McCollum, Iva Crowley; Jackson P. Hon, Janet Johnson; Glen Cary, Bobby Brown; Sam Camp, Carolyn Lettich; Charlie Whitfield, Virginia Mitchell; Reg Martin, Kittie Hinchey; Roy Middleton, Gladys Bain; Bill Buntun, Kay Lolley; Jerry Brown, Annette Tarkenton; Buddy Moreman, Patty Lynes; Gary Hancock, Connie Harsha; Thomas J. Friday, Lancia Rancey; Joe Kirk Fulton, Beverly Brooks; Jerry Ford, Sally Tull;

Jim Alexander, Jerri Hills; Dave Loughridge, Bev Bennett; Farrell Bryant, Marcia Rogers; Decker McKim, Ann Perkins; Melvin Deardorff, Jimmie Lou Browny; J. C. Chambers, Fatti Peice; Willie Berry, Joraine Fox; James Hall, Jane Hix; Bill Seales, Pat Tierney; Billy Williams, Marlon Evans; George Lemon, Sandra Shook; Joe Dean Smith, Pat Harvick; Carl Lese, Naomi Murdoch; Ted Harrison, Mary Alice Braselton; Bill Kilpatrick, Kay McDonald; Jim Farrell, Revis Gilbert; Marshall Pharr, Tommie Brown; Dick Cobb, Joanne Wheatley; Royal Hagerty, Patsy Mathis; Moody Alexander, Mary Gristy; Jerry Bailes, Shirley Chapman; John Brown, June Cook; Danny Owen, Mary Wiley; Johnny Jones, Sue Healey.

Pledges and their dates are: Don McEntire, Gloretha Reynolds; Wayne Teague, Ann Bonduant; Marland Ribble, Roylene Wheeler; Jerry Van Pelt, Darlyne Wood; Bill Williams, Sylvia Dietering; James Odom, Vivian Brake; Hugh Fewin, Donell Phillips; James Box, Marie Fox; Don Sparks, Diana Darden; Benny Bechtel, Sandy Townsend;

## Delta Sigs Honor Alumni Saturday With Reception

Delta Sigma Pi alumni were honored at a reception Saturday night in the Comanche room of the Caprock Hotel. Members of Delta Sig, professional commerce and business administration fraternity, were hosts at the informal gathering.

Every class since the founding of Beta Upsilon chapter was represented at the reception. Joe Heifner, A. L. Turner, and Newell Reed gave the early history of the chapter.

Alumni and wives attending were: Messrs. and Mesdames Marvin Bone, Amarillo; Robert Price, Lubbock; Newell Reed, Brownfield; Robert Campbell, Lubbock; James Leach, Albuquerque, N.M.; and Jimmy Mason, Lubbock.

Other alumni attending were: Ernest Fisher, Odessa; E. A. DeShazo, Lubbock; James Hall, Lubbock; A. L. Turner, Lubbock; George Dunavant, Dallas; W. B. Harris, Lubbock; Raylan Evans, Hereford; Joe Seay, Lubbock; Paul Cato, Amarillo; Bob Williams, Lubbock; Tom Jamison, Lubbock; Ray Hall, Big Lake; Lowell Matthews, Midland; Russell Crocker, Lubbock; Coke Toliver, Brownfield; Jesse Moore, Lubbock; Choice Shotner, Lamesa; Joe Heifner, Lubbock.

Members and wives attending were: Messrs. and Mesdames David Collier, Milton Herring, and Gene Ridgway.

Other members attending were: Leon Puckett, Theo Loftin, Billy Harpole, Ed Weyman, Pat Ellbracht, Ladon Sheets, George Hargrove, Don Ferguson, Glenn Rainer, Don Davis, Wendell Phillips, Robert Jones, Harold Waltheil, Arlyn Krieger, Derrrell Childs, Carl Sanders, and Shade Goar.

Sherrill Manning, Charlene Tatum; Roy Furr, Charlie Furr; Clifford Sartin, Barbara Lu Currie; Jack Harris, Grace Bales; Gale Orr, Sue Carole Orr; Glenn Rainer, Carolyn Calloway; Buddy McGeehee, Carolyn Fritchmond; Joe Martin, Nina Spearman.

## THE CAT'S MEOW

By PHYLLIS MARTIN  
Toreador Society Editor

And we had a Homecoming! This weekend brought back many old friends and exes to reminisce over the "good ole days." Yes, sir, bygones are never complete bygones until we're bygone ourselves. We study, so to speak, for four years and all we can remember is how much fun we had. After all, what have we got to show for all our knowledge? I'll tell you! When graduation comes up, they give us a sheepskin to cover our

intellectual nakedness. What do you want for a nickel? Now, after the weekend festivities, we've all settled back to our studies, I suppose. Granted that I'm taking a lot for granted. Nevertheless, your old grandma of the gossip grabbers has come up with a couple' new names so if you will, please, take time out to glance over the date bait for this week:

### Three Men Elected as Leaders Of Freshmen Red Shirts in Dorms

Three men were recently elected to serve as dorm leaders of the Red Shirts, an organization composed of freshmen whose purpose is to promote school spirit. These men are: Don Clark, engineer from Irving, leader in Gordon Hall; Joe Taylor, aggie from Lockney, leader in Sneed Hall; Mike Burkholder, aggie from Barstow, leader in Bledsoe Hall.

The group is made up of men who are interested in promoting school spirit but who lack the necessary hours to join the Saddle Tramps.

### VISITS NYLON LAB

L. E. Parsons, head of textile engineering department, has returned from Wilmington, Del., where he attended the National Council of Textile Education.

Parsons visited the research laboratories where nylon was first produced. Here he observed the new process of texturizing. Texturizing, developed by du Pont, is applied to all continuous filament, nylon and orlon, as well as natural fibers and staple lengths, says Parsons.

### DAIRY COURSE

A Dairy Manufactures Short Course will be held on the campus Nov. 18-20 for all interested Tech students and for creamery and dairy operators in this area.

Pat Tinney, Kappa Alpha Theta, and Paul Griffith, Pi Kappa Alpha, are going steady. That happened at 8:14 Saturday night a week ago. Right? Right. Another steady couple is Janet Johnson, Delta Delta Delta, and Jack Hon, Phi Delta Theta.

Among the Zetas escorted about were Mary Jane Miller, Richard Triggs; Peggy Pittman, Bill Stuckers; and Gay Brinkman, Jack Badgett.

Other couples seen about lately are: Tommy Morris, Carol Chaney; Pat Williams, Lee Gill; Nancy Weir, Charles Mask; Sylvia Dietering, Jerry Smith; Revis Gilbert, Melvin Deardorff; Pat Harkle-road, Freeman Gross; Patsy Dorn, Tom Pior; Charlyn Keeling, Bobby Alread; and Alice Dickson, Ronnie McMillan.

Pi Beta Phi is giving a party Sunday night at 7 p.m. at the K. N. Clapp Party House. It is to be for members and pledges and their dates. Also the sorority will hold its monthly supper meeting Wednesday, Nov. 11, from 6-8 p.m. at the Party House.

Techans Shirley Cartwright and Travis Hammer have announced Dec. 19 as their wedding date. The ceremony will be held at Ford Memorial Chapel. Shirley is a member of Pi Beta Phi.

The Red Raiders will travel to Tulsa this weekend for a game with the university. If at all possible let's be on hand to greet them as they come in Saturday night at the airport. O.K.?

**IT'S HERE! the new ROYAL portable**

**Sensational with NEW Speed Selector!**

**EXCLUSIVES...**

- New & Sensational Speed Selector. Now every member of the family can adjust speed of the typewriter to his individual skill.
- Famous "Magic" system. Only Royal has it, the easiest method to set margins.
- New Line Meter—tells at a glance the number of typewritten lines left to go on a page.
- Plus New Fiberglazing Case. Lightest, strongest and smartest case available!

### Cushion That Cushion . . .

Following the final gun at recent football games, a problem has arisen which concerns the entire student body. This problem is centered around certain spectators' throwing seat cushions in the air, with no concern as to where they land. Undoubtedly the object is to hurl cushions, either their own or those conveniently left in the stands by others, onto the playing field. For what reason, no one can guess.

The fact is that the cushions plummet down among the crowd and create a serious threat to the public safety. Luckily the percentage of participants in this deadly game is small, and consequently injury or damage has been slight. This does not mean, however, that a serious injury is not in the realm of possibility right here in Jones Stadium.

One specific example of the extent of injury a thrown cushion can inflict is that of a former president's wife. She was struck several years ago by a flying cushion and still suffers from a nerve which is pinched by vertebrae.

While the disciplinary punishment is obvious for being responsible for such an injury, too many times the offender doesn't take time to realize the seriousness of one foolish moment. It would be bad enough to be hit by a cushion but to be responsible for another's injury, possibly a permanent damage, would be a personal damage hard to live with.

The solution to the problem lies with the spectators themselves. First of all, let's whoop and holler till we're too hoarse to talk, and ring that cowbell until everyone around us is ready to give us the heave-ho; but let's control that impulse to throw things.

Second, if we rent a cushion, return it to the ground under the stands to prevent another person from throwing it.

Last, within reason and without risking a punch in the nose, let's try to stop that other guy from throwing his cushion. If he is any kind of citizen at all, he'll thank us.

—Bill Stucker

### Double Jeopardy . . .

Tech's new traffic system has been in effect some five weeks. Can this new system be classified as a success, a failure, or somewhere in between?

The parking plan was designed for two purposes: First, to cut down on the congestion at certain key parking areas during the morning hours; and second, to lessen the traffic between classes during those hours.

A recent survey by Toreador reporters, conducted between 8 and 11:30 a.m., showed a total of 226 vacancies on 11 of the key parking areas on the campus, with each lot containing vacant places. The Administration Building parking lot—one of the most congested on the campus before the regulations—contained 57 vacancies. And the lot between the Library and Chemistry Building, which had also presented a problem, had 29 vacancies.

If we may judge by this survey, these facts spell out success for the new regulations in accomplishing their first purpose—to cut down on congestion at key parking areas and to spread the parking evenly over the campus. As for their success or failure in accomplishing their second purpose—lessening traffic between classes—this we leave to the students to decide.

It appears to us, however, that reduction in the number of moving cars on campus has wrought shocking changes in the once-nervous pedestrian. He no longer hovers on the curb, but darts out at any and all angles in front of the now slowly-moving cars, oblivious to their presence.

Is this new phase of the campus traffic problem double jeopardy to drivers?

—Dale Basye

#### TURKEY RUN

Sneed Hall's second annual Turkey Handicap will be held at 1:30 Saturday afternoon in front of Sneed and West Halls.

The race will be a mile course around the campus with the winner receiving a large turkey. Second-place winner will receive a large duck and third prize is a U. S. standard egg.

Anyone interested should call Sneed Hall switchboard 5-9338 before 6 p.m. Friday.

Every Techsan is eligible for the chase with the exception of varsity or freshmen trackmen.

#### TENNIS MATCH

Tech's tennis team will play host to the West Texas State Buffaloes at 2 p.m. Friday. The matches will be held on the varsity courts.

Coach George Philbrick has about 15 hopefuls working out, but only the top five yet to be determined, will play Friday. Two lettermen, David Clark and Wendell Jones, are back from last year's team.

Philbrick says tentative plans have been made for a meet in Abilene, Dec. 5.

#### LITTLE MAN ON CAMPUS

by Dick Bibler

#### 4 ROSES, 3 FEATHERS

## Unusual Songsters Have Casual Start

By CAREY MCGUIRE  
Toreador Staff Writer

Ever hear of a group called "The Three Feathers"? Well, if you've been around Tech for long you've either heard them or heard about them.

It started back in the fall of 1951, when five architects started "humming and harmonizing" during their labs to make the time pass faster and to entertain themselves. Their harmonizing improved and their humming grew better, with the result that other architects realized there was more than one kind of talent in the department.

**Needed Name**  
After they were beginning to make public appearances and after their fame had spread across campus, they discovered the time had come when they must cease to be mere "lab-hummers" and become an organization with a name. Choosing the name, "Four Roses and a Fifth" they included: Richard Cook, Bob Billheimer, Dub Kuykendall, Bill Powell, and Mitch Mitchell.

All the remainder of the school year they harmonized at various campus functions and for Lubbock clubs and groups. But soon spring, dust, and graduation time came and only one was left.

**Two Records Made**  
However, they made two records with four sides: "Many More Years to Go," "I'm Going Back," "Princess Populia," and "Philadelphia Lawyer" for future generations of Techsans to hear and enjoy.

During the summer and fall of 1952, Richard Cook from Lubbock, the last remaining member, started searching for other talent to fill the vacancy. He found two interested architects: Orville Summey from Dallas, and Dudley Thompson, Waxahachie.

**Needed New Name**  
They began singing together and that fall decided they could no longer use the name Four Roses; Three Roses didn't sound good. So, to be individual, they began wearing red berets, which symbolizes the artist.

**White Feathers**  
Other architects, however, were these too, so they found white feathers and attached them to one side of the berets; hence the name "Three Feathers."

They performed on the Varsity Show last year and elsewhere on the campus and have made appearances for the Lubbock Lions Club and at Reese Air Force Base. Although they have made no public appearances this fall they are available upon request, they say.

Upon graduation, this spring, they all plan to go into architecture. Summey will go to work for architects All

a company in Dallas. The Four Roses and a Fifth are scattered from Dallas and Waco to Carlsbad, N. M., and one is in Germany now.

Who knows? Someday they may all get together and become professional singers, calling themselves "Six Feathers" or some such name.

**Sam Houston Rifles Will Appear On TV Show, Wednesday, Nov. 18**  
Sam Houston Rifles, voluntary ROTC drill unit, will appear on the "Johnny On The Spot" program over KDUB-TV Channel 13, at 6 p.m. Nov. 18.

Forty-three "Rifles" in full-dress uniform will stage a 15-minute performance during the 30-minute program. The unit will perform various drill commands, then Master of Ceremonies Johnny Williams will interview several members of the team.

This show will be the unit's first television appearance since the Texas Tech programs last spring.

## Gold Diggers' Ball Set Friday Night

Dating will take on a new twist Friday night when the girls escort their dates to the Gold Diggers' Ball in the Student Union Ballroom.

Taking a "girls who pay" theme, the dance will last from 8:30 to 11:30 p.m. with Kay Carter's orchestra furnishing the music.

Young ladies will be expected to ask for a date, call for and escort their male partners to the festivities.

The lucky males will be treated to refreshments and supplied with cigarettes if they smoke.

## Catherine Baird Initiated At Called Meeting of Forum

Catherine Baird, senior education student from Claude, was initiated into Forum Monday evening at a called meeting, according to Marjore Scates, president.

Forum is a senior women's service organization, whose 14 members are selected on the basis of good moral character, outstanding leadership and general ability. All senior women with an overall grade-point average of not less than 1.80 are considered for membership, Miss Scates says.

#### RADIO ENGINEERS MEET

The Amarillo-Lubbock sub-section of the Student Chapter of the Institute of Radio Engineers will meet tonight at 8 o'clock in Studio C of Station KCBD.

R. Frank Lee, chief engineer of the radio station, will discuss operation problems of television broadcasting, after which a tour will be conducted through the AM and TV facilities of the station.

The business meeting will include a discussion of the student paper awards of 1953-54, membership drives and organization plans for the coming year.

#### PRESENT RECITAL

Seventeen Techsans were presented in the third student recital of the fourth annual series yesterday.

Students appearing were: Larry Wheeler, Alvin Yates, Billy Rex Cormack, Dana Wampler, Celia Pember, Annita Powers, Florence Ashcraft, Wayland Stephens, Nancy Davis, Dick Baird, Jimmie Williams, Gaylon Kornfuehrer, Kenneth Cox, Wyatt Burkhalter, Jack Allen, Guy Knowles and Buddy Hackfield.

The 26th annual Aggie Club Pig Roast will be held at 8 p.m. Tuesday at the Aggie Pavilion.

Garland Smith, Amarillo newspaperman, will speak. The Aggie judging teams will be honored by the club.

### Announce Awards Memorial . . .

#### For H. E. Majors

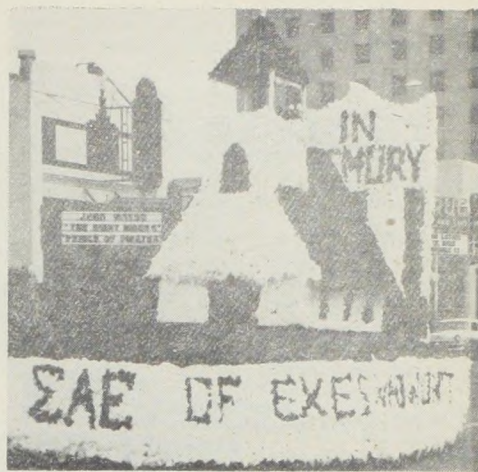

Four hundred dollars worth of scholarships for three outstanding home economics majors were announced at last night's Home Economics Club meeting.

Mollie Jordan, Kaufman senior, was awarded the \$300 Borden Home Economics Scholarship for being the highest ranking senior in the Home Economics Division. Beverly Garner, Rockdale sophomore, received a \$25 defense bond from the Home Economics Club for outstanding abilities in leadership and scholarship during her freshman year; and Belva Jean Sullivent, Lubbock sophomore, was recognized as recipient of the \$75 Lubbock Panhellenic Society Scholarship.

All scholarship holders in the Home Economics Division were recognized. Dr. Willa Vaughn Tinsley, dean of home economics, presented the Borden and HE Club scholarships.

#### BOOK REVIEWERS

Mrs. Ben Brewer will review "Father Dear Father" at the regular meeting of the Book Reviewers Club tomorrow afternoon at 5 in the Home Economics Building.

"IN MEMORY of the exes who won't return" was the theme of Sigma Alpha Epsilon's entry in the Homecoming parade. The float featured a tolling bell and live pigeons on the roof and steeple.

photo courtesy of Avalanche-Journal

### Grandmothers, Children, Everyone Enjoys The Homecoming Parade

Heard during the Homecoming parade:

"There it is! There's the float my grandson worked on! He's a sophomore, you know. And would you believe it? They worked all night!"

"Look at those girls, they're going to freeze! They'll die, everyone of them." (This repeated as each group of bare-shouldered girls came in view.)

"Oo-o! Ain't that pretty?"

"It let out steam right in front of me." (This from a child.)

"Look! They ran the red light!" (This of the rube band—and they did, too; they "ran" every red light the entire length of the parade route.)

#### KME MEETING

Kappa Mu Epsilon, honorary math fraternity, will meet at 7:30 p.m. Thursday in Ad172.

Professor E. R. Heineman will speak on "Probability and Chance."

She'll Love That SPECIAL CORSAGE

# THE DU PONT DIGEST

## Design AND DEVELOPMENT

Call for Knowledge, Ingenuity, Teamwork

Making new products in large amounts, devising new processes, and improving old ones—such problems are the job of Design and Development. An example was the development of a large-scale process for making "Orlon" acrylic fiber starting from small laboratory samples of polyacrylonitrile.

Quantity production of polymer was only a beginning. A whole set of new and unusual problems arose in spinning the fiber, because polyacrylonitrile decomposes before it melts, and it dissolves only in high-boiling solvents.

A team of Du Pont technical men—chemical and mechanical engineers, instrumentation specialists, metallurgists, and materials handling experts undertook to find a solution. Here are a few of the problems they met:

1. Solve problems in heat transfer and fluid flow arising from the fact that the spinning solution must be blanketed with inert gas to prevent fire hazards.
2. Design a system for controlling the temperature of the viscous spinning solution within  $\pm 0.5^\circ\text{F}$ . at hundreds of points in the plant.
3. Design new mechanisms for winding yarn at high speed without any deviation in yarn tension.
4. Design air conditioning and ventilating systems to remove fumes from specific spots, but still allow easy access to all areas.

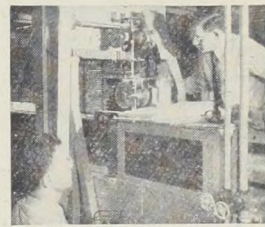

Among Du Pont's many research and engineering activities, Design and Development jobs provide great opportunity for the knowledge, ingenuity, and teamwork capacities of men in a great variety of technical fields.

The characteristics of a super-pressure pump, designed by Du Pont engineers and made in Du Pont shops, are studied by Ralph C. Grubb, B.S.M.E., Tennessee '51, and Paul D. Kohl, B.S.M.E., Purdue '46.

Albert Rand, B.S.M.E., M.I.T. '50 (right) develops controls for chemical equipment.

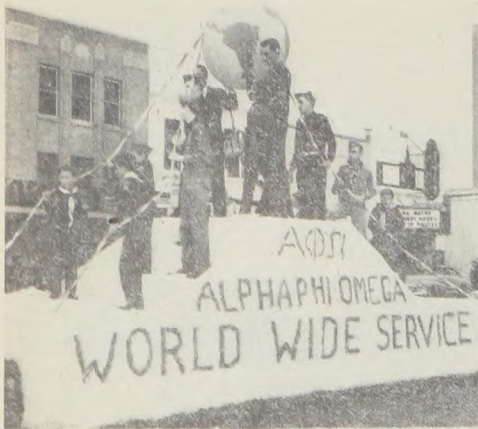

Carl Hellman, B.S.Ch.E., Syracuse '50, and J. M. McKelvey, Ph.D.Ch.E., Washington '50, search for new ways to coat plastic on wire.

ASK FOR "Chemical Engineers at Du Pont." New illustrated booklet describes initial assignments, training and paths of promotion. Just send post card to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington, Delaware. Also available: "Du Pont Company and the College Graduate" & "Mechanical Engineers at Du Pont."

BETTER THINGS FOR BETTER LIVING

### Tech Rifle Teams Set for Matches

Tech's ROTC rifle team will fire against the ROTC team from West Texas State, and the Raider Girls Rifle Team will meet a girls' team from Oklahoma A&M in matches on the college rifle range in M2 this week.

The ROTC team, composed of six cadets, will meet West Texas at 3 p.m. Thursday. Five cadets have been selected for the team and the sixth will be selected Thursday morning. The five are: Aubrey Martin, Fort Worth freshman; Otis Moreland, Fort Worth freshman; Jay Terrell, Dallas freshman; James McKinzie, Plainview sophomore; James Donnelly.

The girls' team will meet Oklahoma A&M in a postal match from 7 to 9 p.m. Wednesday and Thursday evenings on the college range. The team will be composed of 10 girls, only five of whom have been selected. They are: Wanda Williams, Pampa sophomore; Carol Crouch, Higgins junior; Polly Johnson, Brownfield junior; Del McClure, Sierra Blanca sophomore; Mary Christian, Levelland sophomore; Novis Martin, Lubbock freshman. The remainder of the girls' team will be selected tonight.

The ROTC team will meet the University of New Mexico at Albuquerque Dec. 11 and West Texas State in a return match in Canyon Dec. 17.

### Donizetti's Opera To Be Presented

"Little Bride Goes Nuts, Slits Her New Hubby's Throat, and Boyfriend Takes a Powder the Hard Way."

This is the gist of "Lucia di Lammermoor", second in the series of "Opera Once Over Lightly". Narrated by Dr. Gene Hemmle, head of the music department, the informal production will be presented at 4 p.m. Sunday in the Museum auditorium.

Other operas to be presented are: "Aida," Feb. 21; "Faust," March 21; "La Boheme," May, 16.

## Microtomic

A precision instrument for professional hands

Microtomic—the finest example of research in drawing pencils. Designed to stand the most rigid drafting room comparisons. Test them today!

Only Microtomic offers you—

**HI-DENSITY LEADS**  
Lines are absolutely opaque to ordinary pens.

**ABSOLUTELY UNIFORM**  
Every Microtomic of the same degree marks in identical lines.

**NEW DUSK GRAY**  
Professional men acclaim it the best color for a drawing pencil.

**BULL'S EYE DEGREE MARKING**  
Easier to read—easier to find—positive identification.

**ALSO**  
Choice of holders and Microtomic leads.

Here are two points to remember when you buy a car: . . .

**CHEVROLET VALUE** is the **HIGHEST**  
**CHEVROLET PRICES** are the **LOWEST**  
of any line in its field!

Chevrolet's thrilling "Two-Ten" 4-door sedan. With 3 great new series, Chevrolet offers the widest choice of models in its field.

See it, drive it, and you'll know that it alone brings you all these features of highest-priced cars at the lowest prices and with such outstanding gasoline economy!

Yes, you get more car for less money in Chevrolet!

More beauty, inside and out, with the widest choice of body-types and colors in its field.

More driving thrills, with either of Chevrolet's two great high-compression Valve-in-Head engines!

More riding smoothness, more road-stability and more safety protection with this stronger, heavier, longer lasting car!

More value throughout, when you buy, while you drive, when you trade!

Come in; confirm these facts; and you'll choose Chevrolet . . . America's finest buy, America's most popular car!

Combination of Powerslide automatic transmission and 125-hp. "Blue-Flame" engine available on "Two-Ten" and Bel Air models . . . Power Steering and EZ-Eye Plate Glass available on all models . . . at extra cost.

**MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!**

**SEE YOUR CHEVROLET DEALER FOR ALL YOUR AUTOMOTIVE NEEDS!**

Conveniently listed under "Automobiles" in your local classified telephone directory

### DEADLINE

Thursday, Nov. 12, is the day for January graduates to file forms with the Placement Office.

These forms may be obtained from the Placement Office and must be accompanied by two glossy 2 by 3 pictures.

Mrs. Jean Jenkins, director of the office, comments that in the past, persons interested in sales and teaching have been most requested by employers.

Such things as traffic engineers and technical writers are among the most unusual jobs listed with the office.

Mrs. Jenkins explains that the Placement Office acts as a liaison on channeling office for students and employers.

**MORE FLOATS** from Saturday's Homecoming parade are: upper left, the entry of Alpha Phi Omega, service fraternity for former Boy Scouts; above, the Future Teachers of America entry; and left, 'Sleigh 'em Raiders' of Kappa Alpha Theta. photo courtesy of Avalanche-Journal

### NOTICE

All people who have been notified to pick up their parking tags have until Friday 5 p.m. to do so. After this date all those who fail to report to C200 will be placed at the bottom of the priority list.

## Football 'M' Feature Shows During Last

Shutouts continued to ed in intramural football games as the losers in any of the six since Nov. 4.

Three Dormitory League games were played Nov. 4.

John Harrell intercepted and ran 95 yards for a touchdown as Eblesoe No. 2 defeated 7-0. Dudley Coleman of the other Dormitory League game defeated Snead Eblesoe fell before Doan.

In the Fraternity League games were played Nov. 4.

Pete English and Dan sparked ATO to a 14-0 victory over Sigma Nu.

Kappa Sig blanketed Delta Epsilon, Jim Gaele, Pearson played stellar winners. Kappa Sig down was scored on by Fulton Smith to the Red.

Sparked by the play of Ken, Bob Beckham and Kenna edged Phi Delta Wesley Foundation won from Baptist Stud.

when BSU failed to make appearance for an Independence game Monday.

The schedule for next week is: Nov. 13 Eblesoe vs. W. Nov. 13 BSU vs. WSU. Nov. 15 Sigma Nu vs. W. Nov. 15 Phi KA vs. A. Nov. 15 SAE vs. Phi. Nov. 15 Kappa Sig vs. W. Nov. 18 Eblesoe No. 2 vs. Nov. 18 Gordon vs. D.

### BADMINTON, TENNIS

Eaton Blackman and Bobbing have defeated Jackson and Ted Watts for the annual badminton doubles. Ted Watts defeated Jarvis for the singles championship.

In intramural football round playoff, Charles F. met Clifford Ham and Carries will face Harold.

Joe Pison will play Carter in Bracket B winner to face Frances Ho.

Basketball entries open today and will close Nov. 11 is scheduled to start Nov. 12.

## Raiders May In 'Gator Bowl' New Year's

Tech may play in the Bowl New Year's Day.

Members of the committee which select the teams in the classic at Jacksonville have sent Coach DeWitt a letter and a telegram him if the Raiders would be interested.

Coach Weaver replied would. He was then the committee would probably the last team about Nov. 17 whether Tech will be team or not.

A bid to the Refrigerator in Evansville, Ind., has been down. Coach Weaver in refusing the bid, Coach stated that the Raiders more interested in the Sun Bowl than in the Refrigerator.

An outside chance is that Tech may be invited Sugar Bowl in New Orleans. This is especially true as the Raiders managed to snag State.

U. Tech should get a bid for the 'Gator Bowl, which is the largest major bowl, it would be the seventh trip to a bowl for the Raiders.

Bowl games in which Tech played are: Sun Bowl (1947, 1951); Cotton Bowl (1948, 1951); Raisin Bowl (1949).

Probable opponents for should it get the 'Gator Bowl are West Virginia or Tech met West Virginia 1947 Sun Bowl, losing 10-14. Sun Bowl, losing 7-6.

## Football 'Murals' Feature Shutouts During Last Week

Shutouts continued to be featured in intramural touch football games as the losers failed to score in any of the six games played since Nov. 4.

Three Dormitory League games were played Nov. 4.

John Harrell intercepted a pass and ran 95 yards for a touchdown as Bledsoe No. 2 defeated West 7-0. Dudley Coleman and Jack Huyar starred for the losers. In other Dormitory League games Drane defeated Sneed 6-0 and Bledsoe fell before Doak 6-0.

In the Fraternity League three games were played Nov. 8.

Pete English and Davis Hopper sparked ATO to a 1-0 overtime victory over Sigma Nu.

Kappa Sig blanked SAE 9-0 as Dan Roark, Jim Gaede, and Russ Pearson played stellar roles for the winners. Kappa Sig's touchdown was scored on a pass from Fulton Smith to Roark.

Sparked by the play of Ed Aiken, Bob Beckham and Bill Parks, Kemas edged Phi Delta 6-0.

Wesley Foundation won a forfeit from Baptist Student Union when BSU failed to make an appearance for an Independent League game Monday.

The schedule for next week:  
 Nov. 13 Bledsoe vs. West.  
 Nov. 13 BSU vs. WSF.  
 Nov. 15 Sigma Nu vs. Kemas.  
 Nov. 15 Pi KA vs. ATO.  
 Nov. 15 SAE vs. Phi Delta.  
 Nov. 15 Kappa Sig vs. Phi Psi.  
 Nov. 18 Bledsoe No. 2 vs. Drane.  
 Nov. 18 Gordon vs. Doak.

### BADMINTON, TENNIS

Esten Blackmon and Durwood Bolding have defeated Jerry Johnson and Ted Watts for the intramural badminton doubles crown. Ted Watts defeated James Odum for the singles championship.

In intramural tennis second round playoff, Charles Riddle will meet Clifford Haged and Leslie Carnes will face Harold Williams. Joe Pinson will play Richard Carter in Bracket B with the winner to face Frances Holt in the finals.

Basketball entries opened Sunday and will close Nov. 19. Play is scheduled to start Nov. 29.

## Raiders May Play In 'Gator Bowl' New Year's Day

Tech may play in the 'Gator Bowl' New Year's Day.

Members of the committee which select the teams that play in the classic at Jacksonville, Fla., have sent Coach DeWitt Weaver a letter and a telegram asking him if the Raiders would be interested.

Coach Weaver replied that they would. He was then told that the committee would probably pick the host team about Nov. 14 and it will not be known before Nov. 17 whether Tech will be the guest team or not.

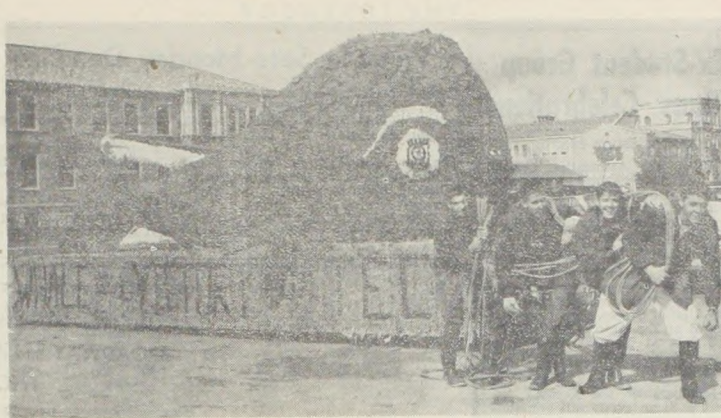

A bid to the Refrigerator Bowl in Evansville, Ind., has been turned down, Coach Weaver revealed. This bowl game is played Dec. 6. In refusing the bid, Coach Weaver stated that the Raiders would be more interested in the Sun Bowl than in the Refrigerator Bowl.

An outside chance is still alive that Tech may be invited to the Sugar Bowl in New Orleans, La. This is especially true after the way the Raiders manhandled Mississippi State.

If Tech should get a bid to the 'Gator Bowl, which is the fifth largest major bowl, it would mark the seventh trip to a bowl game for the Raiders.

Bowl games in which Tech has played are: Sun Bowl (1937, 1941, 1947, 1951); Cotton Bowl (1938); Raisin Bowl (1949).

Probable opponents for Tech, should it get the 'Gator Bowl bid, are West Virginia or Auburn (Alabama Polytechnic Institute). Tech met West Virginia in the 1937 Sun Bowl, losing to the Mountaineers 7-6.

**WHALE OF A VICTORY FOR TECH** was correctly predicted by Phi Delta Theta's blue whale, which won the Homecoming parade's humorous category. The float blinked its eyes, spouted steam and water, and gave birth to a young one in front of the judging stand.

photo courtesy of Avalanche-Journal

### From The President's Office

Information has been received that due to lack of understanding of Selective Service regulations, some students are jeopardizing their opportunity to finish the school year.

For example, a senior student, previously deferred as a member of the Air Corps Reserve but now no longer a member, has been called to active duty. This is due to his failure to request deferment as a student after his Air Corps Reserve membership ceased.

Each student now on deferment must report to his board immediately any change from the conditions on file with the board which have resulted in his present deferment if he wishes to keep his deferment status clear.

### TRAIN ASSURED

The special train to Houston for the official out-of-town game was assured today when Student Council President J. C. Chambers announced that enough tickets have been sold to warrant taking the trip. Chambers added that tickets for the trip will be on sale until 5 p.m. Friday in the Student Council office.

Tickets sell for \$17 and include round-trip fare to Houston and student admission to the game.

The train will leave Lubbock at 8 p.m. Friday, Nov. 20, and will return Saturday night following the game.

### PROFS HOLD CLINIC

Dr. Per G. Stensland, head of the department of adult education, and Dean of Business Administration George Heather conducted a Community Leadership Clinic in Levelland last night.

The possibility of establishing an adult education program in Levelland was discussed.

## Tulsa Next; Tech Stomps Arizona

Tech's Red Raiders, the highest scoring team in the nation, will be after their eighth win against one loss when they invade Tulsa Saturday afternoon for a game with the University of Tulsa Golden Hurricane.

The Raiders sent 16,500 Homecoming fans away from Jones Stadium happy Saturday when they buried the Arizona Wildcats 52-27.

Scoring 20 points in the first period 20 points in the third, with 12 points in fourth the Raiders rolled up a total of 568 yards in coasting to the victory.

Hallback Bobby Cavazos scored as many touchdowns as the entire Arizona team was able to tally. The Kingsville racehorse scored four times and carried for 169 yards on 13 tries. He had one touchdown called back because of a penalty. His four touchdowns in one game tied a Tech record set by Elmer Tarback in 1938.

Tech's victory over Arizona sent its point total up to 292 for a 36.5 point average per game. The Raiders are now averaging 284.6 yards a game rushing, 84.1 passing, and 368.7 in total offense.

Tech has not defeated Tulsa since 1949, and the Oklahomans hold an 8-3 edge in the series that was begun in the 1941 Sun Bowl.

According to Coaches Kellogg and Posey who scouted Tulsa, the Hurricane is improving every game and will be as dangerous as any team the Raiders have met.

While Tech was defeating Arizona, Tulsa upset a favored Houston team 23-21.

## 1954 Graduates To Be Interviewed By Six Companies

Job interviews for 1954 graduates by six companies have been announced by the Placement Service.

The Standard Oil Company, New York, Monday will interview 1954 graduates with majors in chemical, civil, electrical, mechanical and petroleum engineering, and petroleum geology. Both single and married candidates will be considered for employment by the Lago Oil and Transport Co., Ltd., in Aruba, Netherlands West Indies. For assignments in Colombia and Peru, unmarried graduates are preferred.

The Continental Oil Co. of Albuquerque, N. M., will interview 1954 graduates with majors in finance, management and marketing Wednesday, Nov. 18.

The Western Co. at Midland will interview 1954 graduates with majors in accounting, chemical engineering, chemistry, mechanical engineering, petroleum engineering, petroleum geology and physics Wednesday, Nov. 18.

The Reed Roller Bit Co. of Houston Monday and Tuesday will interview 1954 graduates with majors in industrial, mechanical and petroleum engineering, petroleum geology, and marketing (or others in business administration who are interested in sales).

The Radio Corporation of America, New Jersey, will interview 1954 graduates with majors in chemical engineering, chemistry, electrical, industrial and mechanical engineering and physics Thursday, Nov. 19. A general meeting will be held at 5 p.m. Wednesday, Nov. 18, in WE202.

The ARO, Inc., of Tullahoma, Tenn., will interview 1954 graduates with majors in mechanical, electrical, and industrial engineer-

## Ex-Student Group Plans Celebrations

Attention, future exes!

When the Association Council of the Ex-Students Association met here during the Homecoming weekend, it approved an event that may mean something to you in the near future.

The Council voted to set a date and make arrangements for an annual get-together of Tech exes in many cities over the state and the United States. The Executive Board of the Association will set the date at its next meeting on Nov. 28. The special day, yet to be named will be in April or May.

Members of the Council feel that such an event will stimulate more interest in Tech if exes everywhere hold this annual celebration at the same time. They also are of the opinion that April or May is the best time, since it is opposite Homecoming on the calendar year.

Jack Maddox, newly-elected president of the Association, points out that it would give Tech graduates an opportune time to meet exes and make contacts for jobs, and the special day might interest many high school graduates in attending Tech.

### ENGINEER SPEAKS

H. B. Miller of Houston spoke on concrete piles last night to the student chapter of the American Society of Civil Engineers.

Ellis Bauereis, Houston junior, program chairman, arranged for Miller's appearance.

ing, physics and mathematics Friday, Nov. 20.

Additional information is on file in the Placement Office. Interested seniors may make appointments at the office.

## La Ventana Sets Monday Deadline

Campus organizations must apply for pages in the 1953-54 La Ventana before 5 p.m. Monday, according to Editor Ted Harrison.

The Nov. 16 deadline is only for reserving pages in the annual, not for having pictures made.

Along with the page reservations, Harrison asks organizations to submit a typed, alphabetized list of all members and fall

pledges, names of all officers and sponsors, and a statement of the club's activities and purposes in about 200 words.

Approximately 300 students who bought 1954 annuals did not have their pictures taken, Harrison says.

Deadline for the pictures were Nov. 1 for freshmen and sophomores and Nov. 7 for juniors and seniors.

### MAN OF YEAR

Dr. Robert C. Goodwin, dean of the Division of Arts and Sciences, has been named Man of the Year at Howard Payne College. He will be recognized at the college's homecoming Nov. 25-26 and will address the exes.

Dean Goodwin once was a member of the college's Yellow Jacket football team, lettering as a quarterback. He also lettered in basketball and track.
