

Officers Are Replaced In Three Classes

Fall Semester Honor Roll Is Announced This Week

Thirteen Have Three Point Grade Average

Eighty-Four Are Named On Honor Roll By Registrar

Eighty-four Techsians made the fall semester honor roll, released today by Registrar W. P. Clement. Students on the honor roll were registered for 12 semester hours or more and rank in the upper five per cent of the student body.

Less than one per cent of those enrolled made a three-point average. Thirteen in number, they included: Johnnie Lou Bagwell, Claude; Jerry Blundell, Kilgore; Marion Chandler, Lubbock; Nancy Nell Everline, Amarillo; Lucille Hall, Lubbock; Tom Hassel, Lubbock; Averlyne Hatcher, Lubbock; Charlotte B. Lewis, Hamlin; Carolyn Reynolds, Lubbock; Donald Robbins, Santa Fe, N. Mex.; Lois Smith, Lamesa; Mary Menon Stang, Lubbock; Oliver Walkup, Tulsa, Okla.

Students with averages ranging from 2.6 to 2.99 included: Vivienne Adamson, Turkey; Travis Allen, Littlefield; Mrs. Irene Bagwell, Lubbock; Josie Lee Barnett, Earth; Mrs. Melba Bowden, Lubbock; Charlie B. Bucy, Raymondville; Eodessa Burkham, Snyder; Rosemary Burns, Palestine; Eugenia Butler, McAdoo; Panze Butler, Lubbock; Betty Rhea Caldwell, Lubbock; Mavis R. Carter, Lubbock; Edward W. Cartwright, Santa Fe, N. Mex.; Lois Chambliss, Brownfield; Mrs. Mary E. Coble, Lubbock; Betty L. Coffey, Childress; Ray E. Cooley, Amarillo; Maxine Craddock, Robert Lee; Ted Jack Crager, Lockney; Betty Jo Crisler, Modesto, Calif.; Fred Darwin, Lubbock; Bernice Douglas, Abernathy; Kenneth P. Dowell, Amarillo; John Edward Ewing, Lubbock; Fred C. Ferguson, Breckenridge; Lou Nell Finley, Meadow; Beth E. Floyd, Lubbock; Virginia Ruth Forbes, Lubbock; Dorothy Foster, Amarillo; Tommie Fowlkes, Dimmitt.

Charles Wade Gilbert, Spur; Jane Gilmore, Lubbock; Stephen Crane Griggs, Lubbock; Johnnie Sue Hamilton, Hensleyville, Okla.; Monda Hamilton, Lubbock; Lafara Harbison, Lubbock; Maxine Hart, Abernathy; Yvonne Hartsell, Mart; Larverne Henderson, Morse; Marie Hunsucker, Matador.

Betty Hurt, Lamesa; Mrs. Alen Jackson, Lubbock; Eleanor E. Jackson, Lubbock; Eudora E. Keesler, Sierra Blanca; Benjamin Kessel, Roswell, N. Mex.; Lester L. Kilpatrick, Lubbock; William Russell Leach, Lubbock; Jesse Ralph Lee, Sweetwater; June Alice Leichter, Fritch; Ben Logan, Jr., Lubbock.

Bowena McKinley, Hamilton; Viola K. Martin, Slaton; Christine Maxwell, O'Donnell; Mary Lou Metcalf, Lubbock; Herman Milla, Jr., Floydada; Margaret Rita Cooney, Ranger; Florene Noack, Lubbock; Thelma Norman, Lamesa; Carmella Parisi, Lubbock; Theda Beth Porter, Lubbock; Betty Grace Pugh, Odessa; Reuby Tom Rhodes, Lubbock; Elizabeth Schmidt, Lubbock; Jim George Simpson, Floydada; Harold Soucy, Lubbock; Eva Ruth Turnbough, Meadow; Mary Jean Webb, Hart; Beuna G. Wells, Lubbock; Helen Ruth West, Levelland; Jean Wilkins, Krum; Barton C. Williamson, Rotan.

Requests For Deferments

Of 62 Students Go To Washington

Requests for deferment of 62 Tech students under the new plan were sent to Washington to the War Manpower commission Wednesday, according to Dr. H. L. Kent, administrative assistant.

Recently all deferments for college students in engineering, chemistry, physics, or geology were canceled. Under the new plan requests are sent by the college to the commission which approves or disapproves them and sends them back to the college, which in turn sends the new classification to the selective service board.

The War Manpower commission has reduced the number of college students who may be deferred to continue in training next year to 10,000. According to the quota allowed Texas Technological college, 90 engineering students may be deferred, 13 chemistry majors, 2 physics majors, and 7 geology students are eligible.

If not enough men are available to fill the quota the college will request reservations in it to take care of deferment of men who can finish their training within 24 months and who will reach the age of 18 between now and July 1, said Dr. Kent.

Requests were sent in asking for deferments for two physics majors, four chemistry majors, six pre-medical students, one theology student, and a total of 48 engineering students, five of whom will graduate in May of this year. Men who are classified as 4-F are not included in these requests. No requests were made for deferment of geology majors.

No quota limitation has been placed on pre-medical, pre-dental or pre-theology students. In order that students with deferred deferment, students in these fields must have a certificate of admission to a medical, dental, or theological school to accompany their request for deferment.

Students with deferments who can graduate before July 1 are not counted on the quota.

Capt. Weston Leaves Tech For Ft. Sam Houston

Capt. H. D. Weston of the Army Specialized Training unit at Tech left last week to be on the staff of the officer reassignment center at Ft. Sam Houston. He came to Tech in September, 1940, as assistant professor of military science and tactics.

Captain Weston received his commission from Oklahoma A and M college in 1938 and graduated there with a degree in engineering in 1939. He spent one year with troops before coming to Tech. He had been at Tech longer than any other military officer at the time he left last week.

Weston's duties will be assumed by Capt. H. M. Sebastian, who has been in army service 16 years. Captain Sebastian's home is in Washington state.

Election Is Held Tuesday Morning In Ad Building

Women Candidates Appear On Ballot To Head Publications

For the first time in the history of Tech, only women students will appear on the publications election ballot Tuesday. Voting will be held in the Administration building from 8 until 12 a.m.

Betty Davis and Peggy Seale are campaigning for the office of Toreador editor. Miss Davis is a journalism major from Ennis; Miss Seale, a junior journalism major from Amarillo. Toreador editorship is the only office being contested in this election.

Johnnie Wade, junior journalism major from Santa Anna, is a candidate for Toreador business manager. Betty Davis and Peggy Seale are campaigning for the office of Toreador editor. Miss Davis is a journalism major from Ennis; Miss Seale, a junior journalism major from Amarillo. Toreador editorship is the only office being contested in this election.

Merrilyn Snider, sophomore journalism major from Lubbock, is on the ballot for La Ventana editor. Joie Lee Barnett, junior home economics major from Earth, is candidate for La Ventana business manager. She has served as Toreador business manager this year.

Loyle Techsians will go to the polls and vote Tuesday. Maxine Craddock, student president said, "It is important that we maintain our traditions."

Only one restriction is placed on candidates. There shall be no electioneering of any kind on election day within the room or corridor where the ballot box is located, according to the student constitution.

Reduction Of ASTP Trainees To Be Gradual

The Army intends to reduce the number of soldiers now training in college under the specialized program from 145,000 to 35,000, according to information received in President Clifford B. Jones' office this week from the War department.

"Apparently the reduction will take place by degrees," said Dr. H. L. Kent, administrative assistant. As a class finishes one of the terms of training, it may be ordered at once to combat training rather than to continue in college work, he explained.

All college training groups will be given an opportunity to finish phases of training which they are now taking.

The War department further announces that approximately 8,000 men now taking ASTP training will be assigned to Army ground forces where their skill and capacity for leadership are now most needed.

The information received was in the form of an announcement of general policy and no definite statement concerning changes in Texas Technological college's program was included.

J. Marvin Sipe Will Speak To Tech Guild On Masonic

J. Marvin Sipe, associate professor of commerce, will review "An Examination of Masonic Ritual," by Major Sanderson. He will speak at the Monday dinner meeting of Tech Guild in the Hilton hotel at 6 o'clock.

Dr. Bernice Moore

Dr. Bernice M. Moore, lecturer, youth panel leader, and educational consultant, will speak to students and faculty members March 6 and 7, according to Dr. J. M. Gordon, dean of arts and sciences.

Dr. Moore is sponsored by the Hogg Foundation of the University of Texas, the State Board for Vocational Education and the home economics department of Texas university.

While in Lubbock she will lecture Monday, March 6, at 1 p. m. to members of a class in family relations which is taught by Miss Bernice Borgman, acting head of the child development department.

From 4:30 to 5:15 o'clock that afternoon she will address faculty members on "Youth Guidance and Adjustment" at a tea in room 108 of the Home Economics building.

She will lecture at St. John's Methodist church at 6 p. m. that night. Tuesday morning she will address students of Lubbock High school. At 3:45 p. m. she will speak to members of the Parent Teacher association at the high school and at 7:30 to members of the Association of Childhood Education.

Since Dr. Moore received her Ph. D. degree in sociology at the University of North Carolina, she has had experience as journalist, social worker and adult educator, and is now sociological adviser in the field of community and family life education.

"Although she has gained fame during the past year for her ability in stimulating young people to discuss their own problems intelligently in panel discussions, she is also an excellent lecturer on more formal occasions. She has the rare combination of scholarly insight about family and community problems, and a human, informal and practical manner of presenting her ideas," says R. L. Sutherland, director of the Hogg Foundation.

Jack A. Johnson Killed At Arawe

Sgt. Jack A. Johnson, a former aggie, was killed in action at Arawe, New Britain, Feb. 1. He had been four years and one day of service, being attached to the 112th Cavalry.

While Johnson attended Tech, he majored in agricultural education and was a junior in the summer of 1939. Sergeant Johnson, son of Mrs. B. B. Johnson of Exton, enlisted at Fort Bliss, then was stationed at Fort Clark, Brackettville for one and a half years before he was transferred to San Francisco. He was then sent to New Caledonia for one year before going to Australia. From there he went to New Guinea, then to Wood Lark island for two months before the invasion of Arawe peninsula on New Britain island.

Bumpkin Sheds Tears For Lost Opportunity

And so it did come to pass that last Wednesday evening the country bumpkin did merrily whistle his favorite tune and smear rose-water on his red hair in preparation for the Mia Slavenska dance ensemble. Into his closet he did dive and produce a pair of only slightly worn trousers for the occasion, and then to his penny bank he jauntily strode.

Little did he realize as he wheezed out "San Antonio Rose" that his fond dream was never to materialize for fate had moved in its mysterious way to once more blight his life, but he journeyed on to his goal as a hunter towards his prey.

Spring Concerts Begin Sunday

Tech Band Offers Variety Of Numbers

Texas Tech's Matador band, consisting of about 80 members, will present the first in a series of spring concerts Sunday afternoon at 3 o'clock in the gymnasium as announced by D. O. Wiley, director of the band. It will be the first public concert appearance of the band this year and is given primarily for students, but the public is invited to attend. There is no admission charge.

The program will consist of a variety of numbers, including marches, light operas and special music. It will begin with a march by J. DeForest Cline, "Valor and Victory," which is expressive of a band on parade. Following the march will be "Mirella," an overture by Gounod.

"Willow Echoes," a cornet solo by Frank Simons, will be played by Ted Crager, accompanied by the full band. It is a concert waltz.

"Voice of Freedom," written by Rubenstein and arranged by Caillet, is a currently popular classic for a male chorus. However, the band will play it as a concert number.

The "Slavonic Rhapsody No. 2" is a typical number of the Slavonic strain in music by Friedemann. It will be followed by "March Heroic," a concert march by G. E. Holmes.

"The Band that Jack Built" is a novelty number by R. B. Hayward, featuring Jerry Smyth as the narrator. It is in the form of a musical rhapsody which starts with a concert fanfare and evolves into the full band. Following will be the Minuet from "Bernice," a light composition by Handel.

The concert will end with "Ludovic," an overture by F. Herold, followed by the "Star-Spangled Banner."

Finance Students Make Analysis Of Individual Loans

An analysis of individual loans of the First Federal Savings and Loan association of Lubbock was made during the fall semester by students in the research class in accounting and finance. Each two students studied and developed a certain portion of the data, making the completed report equal to a thesis for a master's degree.

Information was taken directly from records of the First Federal Savings and Loan association with the permission of Knox Thomas, an official of the company.

When the students completed their work a copy of the analysis was presented to Thomas, who was told that 12 students spent 576 hours arriving at the conclusions and writing up the report which included making of 112 statistical figures.

In the study of 157 loans, the students found that 111 persons had regular incomes, 46 had indefinite and irregular incomes and that 23 of the men had wives who worked.

"So pleased was Thomas with the work that he donated a book from his own library, *Savings and Loan Principles*, by Bodfish and Theobald, to the commerce library," says Mrs. Luta Eaves, assistant professor of commerce and supervisor of the research.

Churches Plan Day Of Prayer

Several of the city churches are planning special observance of a day of prayer for schools and colleges throughout the United States. Faculty members and students will sit together during the 11 o'clock service and will join in a united prayer for students and teachers on war-stressed campuses.

Kenneth Dowell Heads Seniors

New Members Named To Student Council

THREE class meetings were held Tuesday to elect class officers, replacing students who have withdrawn from school or have become ineligible to hold office.

Kenneth Dowell, electrical engineer from Amarillo, was elected senior class president. He replaces Frank Vernon who is no longer eligible to hold office.

Pike Godfrey, industrial engineer from Spur, will be vice president this semester. Godfrey replaces Leimer Graham, who is now in the Navy.

Seniors were scheduled to elect commerce and aggie representatives to the Student Council, but there were not enough members from the divisions present to vote.

Other senior officers are Frances Ford, secretary; Evelyn Jones, arts and sciences representative; Tommie Fowlkes, engineering; Virginia Lee McSpadden, home economics.

Junior class elected Dorothy McKinimins, general business major from Wichita Falls, commerce representative, and Paul Payne, aggie education major from Byers, aggie representative from the agricultural division. Bernice Cocanougher, former commerce representative, and Charles Bucy, who served in the same capacity for the aggies, are no longer in Tech.

Junior officers elected in the fall include Ted White, president; Raymond Swofford, vice president; Moreene Roberts, secretary; Retta Norman, arts and sciences representative; Betty Jo Morgan, home economics; Elbert Rankin, engineering.

Norma Lee Thornton was elected freshman commerce representative. She is a secretarial studies major from Hamilton, and replaces Jack Thompson, who was ineligible.

Freshman President Ted Crager received special permission to add an hour and is no longer ineligible to hold office.

Other freshman officers are Tom Pirtle, vice president; Martha Larche, secretary; Betty Boulter, home economics representative; B. O. B. Dennis, engineering.

AWS representatives were elected from the junior and freshman classes. Juniors elected Ruth Yows, Spanish major from Amarillo; and freshmen elected Ruth Anthony, vocational home economics major from Lubbock, and Norma Croston, secretarial studies major from Plainview.

All sophomores elected last fall were eligible to continue in office. They are Buster Melton, president; Jo Hal Wofford, vice president; Margaret Ann Bell, secretary; Audrey Melton, home economics representative; Sue Grimes, commerce; Randolph Rutledge, arts and sciences; Tom Hiasell, engineer; Troy Caldwell, aggie.

Charles Steed, chemical engineer from Lubbock, was elected vice president of the Student Council last week. He also replaces Graham.

Renner Discusses Dairies Cooperative Meeting

The present status and future possibilities of the dairy industry for West Texas was the substance of a talk given by Prof. K. M. Renner, head of the department of dairy manufactures, this week at a meeting of the Plains cooperative, Inc. at Plainview. Several hundred farmers, members of the cooperative, attended this annual meeting.

Faculty Elects New Members To Committee

Faculty advisory committee elected new officers for the coming year Monday night. Those elected are: Dr. J. William Davis, chairman; F. L. McRee, vice chairman; Mabel Erwin, secretary; T. F. Wierson, representative to Administrative Council.

These officers replace Dr. A. W. Young, chairman; Dr. J. William Davis, vice chairman; Mart G. Pederson, secretary; and Dr. F. W. Sparks, Administrative Council representative.

New members of the committee attending were: Ray C. Mowery, who was elected to fill vacancy resulting from Pederson's resignation, and Dr. J. N. Sipe, who replaced Haskell Taylor of the commerce division. Miss Vivian Johnson of the home economics division, Drs. W. B. Gates, Davis and Essie League of the arts and sciences division were re-elected last week to serve another term of three years.

F. A. Kleinschmidt, head of the department of architecture and allied arts, will leave Monday for Austin, where he is to attend a meeting of the Texas Society of Architects' board of directors. The meeting will be held Tuesday.

- Saturday, Feb. 26
Home Economics club party for Engineers, 8 p.m., HE building Annex G.
- Sunday, Feb. 27
Band concert, 3 p.m., gym.
- Monday, Feb. 28
WICC, 5 p.m., Ad 225.
Kappa Kappa Psi, 7:45 p.m., T 105.
Newman club, 7:30 p.m., Newman hall.
- Tuesday, Feb. 29
Pre-Law club, 7:30 p.m., Ad 302.
Tau Beta Sigma, 8 p.m., Ad 210.
- Wednesday, March 1
Sophomore class meeting, 5 p.m., C 101.
Sigma Tau Delta, 7:30 p.m., 2209 Main street.
- Thursday, March 2
WRM dancing, 7:15 p.m., gym.
Wesley Foundation forum, 7:30 p.m., 2301 Tenth street.
WICC silver tea, 7:30-9:30 p.m., Home Management house.
- Friday, March 3
Student council, 7:30 p.m., Ad 210.
F.T.A., 7:30 p.m., Ad 221.
Junior council, 5 p.m., Ad 206.
Theta Sigma Phi, 6 p.m., 3110 Twenty-first street.
Canteen course, 7-9 p.m., HE 102.
DFD Founders' Day dinner, 6:30 p.m., Hilton hotel.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Friday on the campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Editorial offices, Press Building, Rooms 102, 105. Telephone: college switchboard; Night editor, 8543.

Student Campus Organization...

SEVERAL Tech delegates will be present at the regional International Relations conference to be held at Canyon Feb. 25 and 26. The region comprises most of New Mexico and West Texas. Tech was the first school to hold such a conference and has been host three times since they were started.

The International Relations conference is only one evidence of value that can be gained by students participating in campus organizations, both honorary, professional and departmental.

Tech has 24 national honorary and professional organizations and one local honorary organization. Members are chosen for maintaining a required scholastic average or for outstanding work in a certain field. These organizations on the campus include: Alpha Chi, scholarship; Alpha Epsilon Delta, pre-medical; Alpha Psi Omega, dramatics; American Chemical society; American Dairy Science association, student branch; American Institute of Chemical Engineers, student branch; American Society of Electrical Engineers, student branch; American Society of Civil Engineers, student branch; American Society of Mechanical Engineers, student branch; Block and Bridle, agriculture; Future Farmers of America; Future Teachers of America; International Relations club, social science; Kappa Mu Epsilon, mathematics; Kappa Kappa Psi, band; Phi Psi, textile engineering; Phi Upsilon Omicron, home economics scholarship; Sigma Gamma Epsilon, geology; Sigma Tau Delta, English; Society of American Military Engineers; Tau Beta Pi, engineering scholarship; Tau Beta Sigma, women's band; Theta Sigma Phi, women's journalism; Women's Recreational association; Freshman Honor society is a local honorary organization for freshman girls maintaining a B plus average.

Besides honorary societies, Tech has about 25 divisional and departmental organizations. These clubs are open to anyone majoring in certain subjects, and many are open to those merely interested in the subject. Most of these organizations do not require a specified scholastic average. The include: Aggie club, Pre-law and International Relations club, Pre-Med club, Senate club, Sock and Buskin, Society of Petroleum Engineers, Sociology club, Tech Accounting society, Texas Tech Business club, Textile engineering club, Women's Physical Education Major and Minor club, Foreign Language club, and various city, county and state organizations.

Tech also has several service clubs, including AWS, Forum, Junior council, WSGA, Las Leales, Alpha Phi Omega and religious organizations such as YMCA, YWCA, Student Religious council, Newman society and Canterbury club.

In addition to bringing together those students whose interests are in common, these organizations open a whole field of knowledge to the student who may be taking only one or two courses in his major subject. Programs of inestimable value are planned several meetings ahead of time, and the student is able to enter discussions of problems and questions which concern his special field of interest.

With the many campus organizations from which to choose, it should be impossible for a single student not to find at least one which would make his school work, as well as social activities, more enjoyable.—V.C.

Opinion Poll Says...

A RECENT student opinion poll conducted on our campus showed that an overwhelming majority of Techsans approve the launching of a drive to raise funds for the erection of a Student Union building. Although actual construction of the building could not begin until after the war, now is an excellent time to start raising capital for this purpose. Activities of campus organizations have been curtailed to such an extent that almost every club has excess funds in its treasury that could be contributed. Some proceeds from student activity tickets that have gone to various causes on the campus are yet unspent and could be given to this fund. Almost every senior class has donated more money for its gift than was spent, and these funds are now lying idle.

If all this money were to be gathered up and invested in war bonds made out to a Union fund, the money would be invested in a patriotic as well as school-spirited manner. The hardest part of any movement is the initial drive. This money that is not being used for anything at present would, in such a fund, definitely be an encouraging beginning.

Tech's Student council has seen the possibilities of raising money, and plans are now being made to ask students for contributions. Maxine Craddock, Student council president, has estimated that between \$1,500 and \$2,000 could be obtained this year. We could expect that future senior classes make their gift to this fund, and sooner than most people expect work could begin on the building.

Advantages of having a Student Union on the campus are many. The management would be subject to student control and they could easily see that food be prepared under sanitary conditions. No longer would Tech coeds need to fear the arrival of their insurance adjusters to inspect their eating places. And the optometrists' business would probably decline as Techsans quit straining their eyes trying to see through glasses of drinking water. Further, students who think Tech offers too few opportunities for recreation would find there a new place to dance and drink cokes. Campus clubs could hold meetings and have entertainments there. We, the present student body, could attend ex-student banquets, dances and informal gatherings. If we start the movement to build the Union, we will have a definite feeling of pride in it when it is completed. It will always belong to us as well as to future students.

Now is the time to start the campaign. So when the Student council representatives ask you, Techsan, for a contribution, you can show your loyalty to Tech by digging down deep in your pocket when you give.—E.H.M.

Campus Camera-

DR. ALEXANDER MEANS.

FORMER PRESIDENT OF EMORY UNIVERSITY, ATLANTA, PRODUCED THE FIRST ELECTRIC LIGHT IN AMERICA—21 YEARS BEFORE EDISON/ DR. MEANS' LIGHT CONSISTED OF A PIECE OF CHARCOAL WIRE TO AN ELECTRICAL MACHINE AND PLACED IN A LARGE GLASS TUBE, WHEN THE CURRENT WAS ON, THE CHARCOAL REACHED A WHITE HEAT OF DAZZLING BRILLIANCE.

LIFE WITH THE EXES

Miss Rilla Catherine Payne, business administration graduate, recently took her oath as an officer candidate in the Women's division of the Naval Reserve in Dallas. She is to report to U. S. Naval Reserve Midshipmen's school, Northampton, Mass., March 9.

Ensign Kay Neely, 41, animal husbandry major, visited on the campus last week. Ensign Neely has been in service in the Caribbean sea area.

Ralph S. Thomas, who has been an Aviation cadet since February 1943, has been commissioned a lieutenant in the Army Air forces. Lieutenant Thomas received his silver pilot's wings at the Army Air Forces Training Command's twin-engine advanced flying school, Pampa.

Maj. Clifton W. Cole, 38, animal husbandry major, is now commanding officer at Scribner Flying field, Scribner, Neb.

Capt. C. R. Cook is stationed at Wright field, Dayton, Ohio.

John Hobbogood, a former aggie, is a gunner, now stationed at the airbase in Salt Lake City.

Aviation Cadet Peter C. Harmonson, who entered service in November 1942, is now at Aviation Cadet Pre-Technical school at Seymour Johnson field, N. C.

Pfc. Richard Gary, former aggie, is a food inspector in Greenville, Pa.

Aviation Cadet R. A. Dean was recently commissioned a Second Lieutenant in the Army Air forces at Turner field, Albany, Ga.

David A. Duen has advanced to the grade of captain at the Army Air Forces Training Command station in Roswell, N. Mex. Captain Duen joined the Army in June 1941, he graduated from the Army school of photography at Fort Huachuca, Ariz. Now he is in charge of a photo laboratory at the Roswell field.

Gem Bob Calley is now working as assistant editor of the woman's page of the Abilene Reporter News.

Capt. Erskine Edward Roach has been assigned to the Army Air Forces Central Flying Training command as an engineer officer, following his arrival at the Commanche Randolph field headquarters. During his Army career, Captain Roach has attended Aircraft Maintenance Engineering school at Chanute field, Ill. Weight and Balance school at New Haven, Conn. Personnel Equipment Officer's school and School of Aviation Medicine at Randolph field. Prior to the Randolph field assignment, he served as engineering officer at San Angelo Army Air field.

Cpl. Lee Cargile, 32, is now stationed at SPAAF. His son, Cpl. Victor Lee Cargile, an electrical engineer during summer of 1940 and long term of 1941-42, is serving in New Guinea. Mrs. Lee Cargile, also an ex-Techsan, now lives at 2216 Eighth street.

Lt. Bill Buford is now in southern Italy, after having been in Brazil, French West Africa, French Morocco and Algeria. Lieutenant Buford had been on seven missions in the ship, "Maw Strickline," when he wrote in the latter part of January a letter recently received on the campus. The ship had picked up 16 flak holes, but had been doing damage to the Nazis too, according to his letter.

Cpl. and Mrs. Blanton Cogburn recently visit on the campus. Corporal Cogburn, 40, is now stationed at the Army Air base at Salt Lake City, Utah. His wife, the former Lucille Savelle, graduated in 1942.

Pvt. L. D. Stevens of the Marines was visiting on the campus this week.

Pfc. Clyde Hall, ex-Red Raider, is stationed with the Marines at Mojave, Calif.

Maxey McKnight, a former Red Raider, is also a Marine, stationed at Mojave, Calif.

William G. Brown of Truscott graduated as a fighter pilot from Foster field, Victoria.

Russell H. Snow of Pampa is now a bomber pilot, having received his wings at Brooks field.

Harold Eastland of Hillsboro has received his bomber pilot wings at Brooks field.

Jim R. McCutcheon of Victoria was graduated as a fighter pilot from Eagle Pass field.

Kenneth A. Gordon, signalman second class, USNR, recently told details of a shipwreck at the New Orleans Naval Armed Guard center. A survivor Gordon related his experiences of the coast of Panama some time ago in the "worst storm in 20 years." The crew was able to save the cargo within the three days before the ship cracked to two, according to Gordon, a veteran of 20 months afloat.

Robert E. Peter of San Antonio graduated from Moore Flying field, Mission, as a fighter pilot.

Flight Officer Howard T. Hampton, jr. of Pampa graduated as a bomber pilot from the flying field at Frederick, Okla.

James S. Knisley of Lubbock received his bomber pilot wings at Frederick, Okla.

Herbert B. Funk of Jacksonville graduated as a fighter pilot from Moore Flying field, Mission.

Robert E. Willis of Abernathy graduated as a bomber pilot from the flying field at Frederick, Okla.

Huie H. Lamb, jr. of Abilene has graduated as a fighter pilot from Eagle Pass field, Eagle Pass.

Archie D. Alley, jr. of Austin has received his bomber pilot wings from Blackland field, Waco.

David F. Reddell of Tahoka graduated as a bomber pilot from Blackland field, Waco.

Roger E. Tolman of Teron has received his bomber pilot wings at Altus field, Okla.

Flight Officer Garland O. Farris of Sallisaw, Okla. graduated as a bomber pilot at Altus field, Okla.

George W. Underwood of Jay, Okla. received his bomber pilot wings at LAAF recently.

Aubrey E. Horn of Bowie graduated as a bomber pilot at LAAF.

Douglas G. Carradine of Post graduated as a fighter pilot from Foster field, Victoria.

Wilburn R. Holmes of Alice graduated as a pilot from Foster field, Victoria.

Lee E. McDuff of Crosbyton recently graduated as a fighter pilot from Foster field, Victoria.

Charles E. Leak of Dallas has recently received his bomber pilot wings at Ellington field.

Wesley (NMI) Powell of Clarendon, who received his BS in 1942,

2.... Another

By COUNT MEOUT

JEAN RENNER has just returned to the campus wearing a smile. Why? Because she has just been to see Naval A-C DON SMITH.

NATHAN MORRIS has returned from Dallas, where he helped marry off his cousin. Such an event must have called for a celebration.

ELEANOR COTTON has received a letter from her ex-darkroom partner, WALTER VERNER.

I really believe JACK WALDRUP and TANELLA KING are tops in enduring hardships. They are still going steady even without the encouragement of the out of the city environments.

We are all hoping that HOPE HOLBROOK, for HELEN PEMBERTON's old flame L. D. STEVENS (USMC) came to town.

HOKE was out of a date, while "PEM" and "STEVE" were out reminiscing over last spring.

It must be the second childhood stage, for our coeds were having a fast game of "May 12" in the dormitory lounge after lunch the other day. ESTELLE DEBUSK was the leader, and the players were LINDA STOKES, MARY FRANCES BARNARD and DORIS CORNELIUS. The winner was LINDA.

Last Sunday the long and short coed was BILL MORRISON and BARBARA MAE MORRIS.

MARIE DOLLAR may have a little difficulty in explaining a proposed trip to Hondo, where she expects to pin wings on an ex-pre-flight.

We hear that FAYE BETH HILL has recently been awarded his bomber pilot wings at Ellington field.

William E. Brown, jr. of Floydada gained his bomber pilot wings at Ellington field.

Glenn S. Burk of Anton has received his bomber pilot wings at Ellington field.

Richard A. Bosworth of Tahoka, who received his BA in 1943, has recently become a bomber pilot at Ellington field.

Russell H. Snow of Pampa is now a bomber pilot, having received his wings at Brooks field.

Harold Eastland of Hillsboro has received his bomber pilot wings at Brooks field.

Jim R. McCutcheon of Victoria was graduated as a fighter pilot from Eagle Pass field.

Kenneth A. Gordon, signalman second class, USNR, recently told details of a shipwreck at the New Orleans Naval Armed Guard center. A survivor Gordon related his experiences of the coast of Panama some time ago in the "worst storm in 20 years." The crew was able to save the cargo within the three days before the ship cracked to two, according to Gordon, a veteran of 20 months afloat.

In the Editor's Mail-

Toreador Staff Texas Technological college Lubbock, Texas

Dear Techsans,

Since I know nothing about running a newspaper, I am not trying to tell you what should appear in these columns, but I do want to offer a word of advice which I hope you will consider for whatoned ever it may be worth.

I don't know who has applied for editorship of the Toreador for the remainder of this semester, but since there is a shortage in the male situation I'll bet even money our next editor will be a girl. Please don't misunderstand me for I have nothing against a female editor, but here's hoping the paper remains in the neuter gender and doesn't turn into a "sissy" publication.

For the sake of the few males left on the campus please throw in a few sports stories ever now and then. I can just picture the Toreador covered with recipes for jam and left over foods, to say nothing of the latest fashion column, advice to the love-lorn, and society stories telling what members of our fairer sex wore to church Sunday.

Although the boys left on the campus seem to prefer slide-rules to typewriters, to do like to read the Toreador. That is, they will enjoy reading the paper if it continues with the same policy that it has had in the past.

I'm very grateful for the Toreador and I'm writing this only because I am interested in it. Nothing has happened yet to make me think that the policy of the paper will change, but as the old saying goes "an ounce of prevention is worth a pound of cure."

Here's hoping that you girls will give us just a little thought and consideration when you start to make-up the pages.

Respectfully yours, Joe College Acting Editor's Note—Joe College probably expressed an opinion

A Techsan Speaks

By Margaret Long

THE FACT that there is about to be an election on the campus next Tuesday may not have registered on the voting personnel yet, and if it has not, then the situation is sad, but if the date goes by without its ever registering it becomes tragic.

The notable absences of friends taking the stump for candidates, the "hi yalls" without that extra note of enthusiasm and no placards telling why Tech would go to wreck and ruin if Capable Calvin and Simple Sally were not elected to office are probable reasons why the coming election has not been brought to the front.

Even though the days when friends ceased speaking, because they could not agree on candidates may be in partial seclusion, and we do not hear the Alamo club whistled as it used to be, elections are still based on the same foundation, a democratic campus with the best possible leaders at its head.

The final vote Tuesday will determine who the editors and business managers of campus publications are to be next year. Campus publications touch every student and are an important part of college life.

No election is inconsequential. It is the obligation of every student to vote no matter how slight or grand the issue at hand may be.

Don't be guilty of saying, "Who on earth could have voted for this person?" and adding, "I happen to know she could fill a fountain pen or manage a flea show."

Leave your personal petty prejudices at the Bookstore when you go over to the Administration building to vote, and be sure you do go vote. It only takes one minute of your time to hold the fate of campus publications for the next year.

LOUISE INCE changed her tune Saturday night from the Air Corps song to that of the engineers.

Last one corporal! was the thought of DOROTHY WEISS, when he lost his way and stumbled into a meeting of THETA SIGMA PHI. He was no more startled than the members. After a definition of "Jog" he continued on his way, following careful directions.

Here's the final bow to FUZZY COX.

Fuzzy Cox by now you're raving. But you know it's you I'm craving. Since you aren't going to fall, I think I'll go and end it all.

We wanted to compliment the director of the engineer orchestra for his grand performance Saturday night, but we can't pronounce his name—much less spell it.

BOBBY CARR, ex-Techsan stationed with the Navy at SMU in Dallas is to arrive home this weekend to spend several days.

When introduced to a Tech prof at the Engineers' ball, a Tech coed asked if he were a seventeen-year-old. It was hard to tell which was the more confused.

FROSTY COX and BETTY BOB DILTZ were seen together at the Wrangler dance.

Coeds might think they were in the wrong building if they did not see JO HAL WOFFORD and her engineer standing in the dormitory doorway between 5 and 6 o'clock.

From 6:30 a.m. till 11:30 p.m. the little whistle that sounds off outside of the dorm's east wing is not a preflight calling his dogs, but Engineer JOHNNIE?? whistling to PHYLLIS GOETH.

Arts And Crafts Group Is Sponsored By AAUW

The arts and crafts groups of the American Association of University Women started a series of ten lessons in leather and wood carving Monday night.

These lessons will be conducted once each week. A fee of \$5 will be charged each participant.

Both men and women of the student body, staff and faculty are invited. Those interested are asked to see Miss Elizabeth Hawley at the Home Economics building or call 2-1255. Membership in AAUW is not necessary for those who wish to take this course.

Col. Beverly H. Coiner Will Inspect ROTC Unit In April

Tech's ROTC unit will be inspected by Col. Beverly H. Coiner, Cav., of the Eighth Service command, Dallas, on April 6. This annual federal inspection will determine the grade of the unit, which in the past has been excellent, according to Lt. L. E. Booth.

When the unit is graded excellent, as it has been since initiation in 1936, a blue star adorns the right sleeve of each uniform.

Bernice Borgman Heads Department

Miss Bernice Borgman has been appointed acting head of the department of child development and family relations in the division of home economics at Texas Tech. She succeeds Miss Sannie Callan, who is on a leave of absence to do nursery school work in defense areas throughout the state. Miss Borgman joined the faculty as an assistant professor in child development in 1941. She received her master's degree at Iowa State college at Ames.

Miss Borgman has received recognition recently as a reader-editor of the Journal of Home Economics, national home economics magazine.

Mrs. Loree Taggart, graduate of New Mexico A&M who has done graduate work at Iowa State, is the new assistant nursery school teacher. She has had high school teaching experience.

The Poet's Corner

A CHURCH It is an old woman, asking bread, A lonely conqueror, cursed with hunger still. In humility or dread its homage paid. A church knows all the secrets of the night Yet faces day, and with a child-like faith Stands in the dawn awake and unafraid. Questioning, it lifts its spire; Assured, its roots rest deep. Clinging to earth, it knows How small the facets of eternity.

Engineers Win Over Techsans In Last League Game

Raiders Victim Of Local Team

Second Meeting Awards Servicemen Perfect Record

COMING into the home stretch of their current basketball season Saturday night Texas Tech Red Raiders fell victim to their nearest rivals from across the campus, Tech Army Engineers, and dropped a 51 to 40 decision to them.

The first half was a closely fought duel between the two teams, and showed them to be about evenly matched. Nolan Weeks' deadly eye for the basket, and Hubert Bechtol's consistent board work kept the ball in Raider hands most of the time, although they could do no more than keep even with the more experienced Engineers, and consequently were trailing the older group at half-time, 19 to 21.

Immediately after the second half Tech opened with a fast start, and so did the Engineers. They rushed the ball down the court and began a scoring spree that netted them a 10 point lead, and one that proved too much for the scrappy bunch of youngsters from Tech to overcome. Fighting a hard but losing battle the entire second round, the collegians came within six points of tying the score once, but never seriously threatened the "win-hungry" service men.

It was Nolan Weeks of Ft. Worth who stole the show for scoring honors during the night's play, racking up seven field goals, and a like number of free throws, to total 21 points in the game. Weeks' superior play kept Raiders in the game until the last minute, but with the fouling off of Bechtol, combined with the rally of their foes Techsans were never too near a victory.

The Army quint was paced by Booth who sank six field goals and a single throw from the free line to total 13 points and lead the individual scoring marks for the winners. Bailey, also of the service team, was a close third with ten points, while Kaiser was right behind with nine. Don Grove and Lenahan, of the Raiders and Engineers respectively, were tied for fifth place in the contest with eight points each.

It was the second meeting in as many weeks for the two teams, the other game going to the Engineers last Saturday night in Tech gym, giving the campus servicemen a perfect record over the Raiders.

TEXAS TECH	fg	ft	tp

Halftime score: Engineers 21, Techs 19.

Rice Institute Begins Training

An AP release from Houston says that the Rice Owls will launch spring football training in mid-March minus three key players from the 1943 squad.

Rice expects many new Navy V 12 students for the next term beginning March 6 and some of these may be football players, Coach Jess Neely said.

Jack Simms, end, and Charley Haden, a back, will receive Navy commissions next month and Joe Kucera, a back, will be transferred under the Navy training program.

Last year Rice did not seek high school stars but relied solely on Naval recruits. This year the coach is planning to have 10 to 15 youths from 1943 and 1944 high school graduating classes on his squad.

Home Economics Division Employs New Secretary

Mrs. Jewell Dean Neel is replacing Mrs. Bertha Mundt as secretary to Miss Margaret Weeks, dean of the division of home economics. Mrs. Mundt resigned to accompany her husband to Monroe, La., where he is now stationed.

SPAAF Holds Up Complications In Round Robin

The Round Robin originally scheduled to be held in Tech beginning last night through Monday has evidently run into complications, according to Polk Robison, Tech basketball coach.

Lubbock Army Air field has found an old rule in a sports directory which prohibits playing more than one commissioned officer on a team. South Plains Army Air field has been playing more than one officer on its team this season and refuses to change its line-up.

The two local air bases drew each other for the first game in the Round Robin to have started last night in the gym.

Robison says that no definite plans for the Round Robin have as yet been worked out. Possibilities presented have been to have Tech play South Plains Army Air field team first and let the Engineers on the campus play LAAF next Monday or Tuesday night. There were only tentative ideas, he states, and no plans have been made definite by any of the teams.

Capt. Nathan B. Eubank is athletic director of the SPAAF men and Lt. Anthony Ferri is director of athletics for LAAF.

Schools May Resume Sports Again Soon

Return of gymnasiums and field houses to civilian collegians now that the Army is dropping its specialized training, may make it possible for some institutions to return to sports competition.

According to a recent AP release from New York, shortage of athletic talent was not the only reason that Stanford, Fordham, Syracuse and Manhattan, among others, gave up all sports. In some instances it was the complete occupation of the schools athletic plant by trainees that brought about the decision.

Football with its huge manpower demands may be slow in returning to its place in the sports world even though these facts do develop.

While the Army has announced the abandonment of its college program, Rear Admiral Randall Jacobs, chief of Naval personnel in Washington, declared "The Navy Department has no plans of discontinuing" its training venture.

Navy trainees are eligible for all college activities and football teams fortified with Naval talent dominated the gridirons last fall.

Top Bowling Is By Hank Marino

Top Bowling news comes from Milwaukee about Hank Marino, former world's match game bowling champion.

According to an AP release he achieved a double feature of a bowler's dream last week by fitting two perfect games into a league series for an 832 total to top the nation's current honor column.

Former Techsan Coaches Winning Basketball Team

Dixie White, who graduated from Tech in 1941 and was one of the best linemen in the history of the Red Raiders, has been appointed basketball coach of the Lubbock High school team.

White is assistant coach of the high school football team and was more than started when he was appointed basketball coach for this year. He insists that his only relation with basketball has been as waterboy during his own high school days. He now finds himself having risen from water-boy to coach of the champions of 1-AA district.

When he was told he would be basketball coach, he at once began to go through the school's athletic library to learn something about the game. He knew his football formations and began studying them for use on the basketball court.

White had a hopeless feeling over his ability to coach the team and was more than a little dazed to find he was head coach of the victorious five for the West Texas plains.

Lt. Don Budge Talks Tennis

Lt. Don Budge stationed on Tech campus with the 309th Air Crew detachment took the spotlight at Lubbock High school this week.

He was invited to speak before the Tennis club at the local high school and give the netters some hints on the finer points of the sport for which he is famed.

Budge who is international mens' tennis champion has recently returned from an exhibition war bond tennis match in New York.

Phi U Sponsors Canteen Course

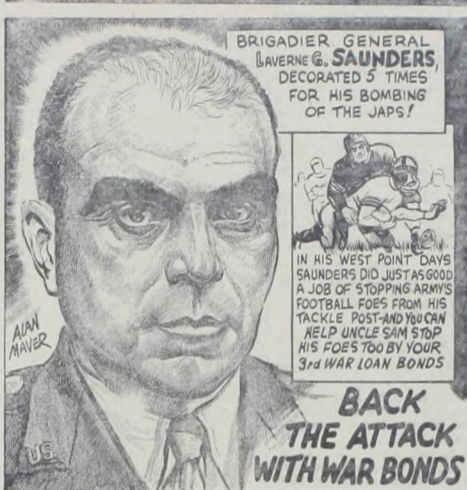

A Red Cross canteen aide course will be open to college students beginning March 2, announces Jean McLaughlin, president of Phi Upsilon Omicron, national home economics sorority and sponsor of the course.

Dr. Mina W. Lamb, assistant professor of foods and nutrition, will teach this course. She asks especially that girls with practical experience cooking or foods courses in high school or college enroll. The course, consisting of three two-canteen aide courses is a ten-hour lecture and two laboratory periods at the USO or Red Cross center of two hours each.

The first class will be limited to 40 students. It will meet at 7 p. m., Thursday, March 2, in room 102 of the Home Economics building.

Appeals are being made through all the campus women's organizations for enrollees.

Ex-Raider Captain Earns Silver Star

Capt. Ross Ayers, former Texas Tech football captain, has been awarded the Silver Star for gallantry at Salerno.

On the morning of the landing, Ayers, serving with an artillery unit of the Thirty-sixth division, was in command of 17 two-and-one-half amphibious trucks, carrying 12 howitzers to the beach.

As the "ducks" approached the landing point, heavy German artillery and machine gun fire caused many to turn back.

Ayers disregarded the attack and landed his trucks. Two others, one carrying a howitzer and the other ammunition, also landed. Ayers unloaded the howitzer and placed it in position on the beach. He did the same with another gun, subsequently landed, and was able to deliver effective artillery support to the infantry.

As a result of his action, two enemy machine guns were knocked out, two artillery pieces neutralized, and four tanks dispersed.

"His initiative, courage and leadership, while exposed to enemy artillery, and gun fire materially contributed to the success of the mission," the citation said.

Captain Ayers graduated from Tech in 1934. He was coordinator of health and physical education for the Lubbock public schools.

Water Main Is Being Laid To Increase Water Pressure

Water pipes to complete a main around the circle are being laid, according to W. T. Gaston, college business manager. The main runs from the power house on the north end of the campus around the east side of the circle to the fire hydrant between the Library and Chemistry buildings.

Completion of this loop will result in increased water pressure on the south side of the campus, the business manager said.

Charm, Dietetics Are News Features

Special articles featured in the forthcoming issue of "Texas News Letter," official publication of the Texas Home Economics association, include a description of the work done by Miss Doris Nesbitt in adult education among Mexican women of Lubbock, and discussions of the charm school offered Army wives by the Tech Council of Women Graduates and of the apprentice dietitian course offered by the Army.

Miss Bernice Borgman, acting head of the department of child development and family relations at Texas Tech, is editor of this magazine which is published three times a year - in November, February, and May - at Tech Press. The editorial staff includes Mrs. Ella Mae McCorkle, former professor in the department of home economics education. Mrs. Lila Alford Kinchen, instructor in clothing and textiles; and Mrs. Jessie Bateman, home economics teacher in Lubbock Junior High. Miss Elizabeth Hawley, assistant professor of applied arts, who is art editor does the cover designs.

Copy is submitted by colleges, high schools, area supervisors of home economics, Farm Security officials, State Nutrition committee members, and county home economics associations, dealing with subjects of current interest in the field of home economics.

Members of the class in home economics journalism who assisted in editing copy are: Ida Botkin, Betty Huckabee, Edna Long, Jo McDuff and Anita Barrett.

Padding Machine Is Added To Textile Lab Equipment

A new padding machine has been added to laboratory equipment in the textile engineering department. Although small, it is an unusually good machine, says L. E. Parsons, head of textile engineering.

It will be used in laboratory experimental work in dyeing and finishing cloth.

ground ground sunnec sorghum fodder.

Seed Growers Have Meeting On Tech Campus

Agriculture students and local seed growers will attend the annual meeting of the Texas Certified Seed Growers association on the campus March 4.

The program will include discussions concerning sweet sudan developments and combine types of grain sorghums. There is a current local interest in both seeds, according to Dr. A. W. Young, head of the plant industry department. This season sweet sudan seeds to be planted for general use, will be distributed among farmers in the past only experimental plantings have been made.

Discussions will be led by R. E. Karper, who is in charge of sorghum investigation for the Texas Agricultural Experiment station; Don L. Jones, superintendent of Lubbock Agricultural Experiment station, who has done research work on the sorghum seeds, and Roy Quimby, superintendent of the Chillicothe station, who has experimented in the development of sweet sudan seeds.

In connection with the association meeting, the State Seed and Plant board, consisting of Dr. E. P. Humbert of College Station, R. V. Miller of Austin, connected with the Texas Department of Agriculture, and Dr. Young, will examine growers that have applied to produce certified seed.

Chorus Will Soon Present 'Seven Last Words' On Air

Professor Julien Paul Blitz, head of the music department, announced this week that the "Seven Last Words" will be presented over the radio from Lubbock High School auditorium on March 25.

"With the addition of the ASTU singers and preflight chorus, the chorus has grown beyond my expectations," professor Blitz says.

WICC Sponsors Silver Tea For Loan Library

Proceeds Add More Books

Entertainment Is In Home Management House

A SILVER tea will be given by the Women's Inter-Club council Wednesday evening from 7:30 until 9:30 o'clock in the Home Management house for students and faculty. Proceeds are to be donated to the women's social club loan library.

Guests will be greeted at the door by Dorothy Miskimmins, vice-president of WICC. The receiving line will include Ophelia Mae Beall, president of the council; Mrs. Mary W. Doak, dean of women; Misses Bonnie K. Dysart, sponsor of the council; Frances Urban; Betty McCoy, president of Las Virachas; Frances Ford, president of Ko Shari; Jackie Wilkinson, president of DFD; Mary Jo Turner, president of Sans Souci; Anna Baker, president of Las Chaparrillas.

Mesdames Clifford B. Jones, James G. Allen, Eleanor Chitwood and Miss Margaret W. Weeks will pour. Moreene Roberts will preside over the register. Lucille Melton, Betty Herring and Marguerite Nobles will serve in the dining room, assisted by the following girls who live in the Home Management house: Glendine Esmond, Christine Moore, Mary Hope Norfleet, Lucille McClellan, Ann Segula, Mary Ellen Brown and Peggy Hess.

The Women's Inter-Club council, which is composed of the presidents and one elected representative of each woman's social club, sponsors the tea each spring as a project to increase the loan library funds. The library, which is located on the second floor of the Administration building, may be used by working girls that are unable to get books except by paying a small rental fee for a book's use during the semester. Although there is no demand on the library at this time, the fund is continuously being enlarged in order to keep it ready for emergencies. Books are being added to the library to keep it current. Besides the spring tea, the council sponsors a dance each fall as a project for adding more proceeds to the fund.

Lois Chambliss Elected To Head Sock And Buskin

Lois Chambliss, senior speech major from Brownfield, was elected president of Sock and Buskin club for the spring semester at the meeting Tuesday night.

Other officers elected are: Jerry Smyth, vice-president; Lou Deane Blair, secretary and treasurer; and Verlyn Patrick, reporter. Tryouts were held Friday afternoon for membership candidacy in the club. New members who were initiated include: Imogene Bagwell, Dell Comb, John Ewing, Johnanna Williams, Mary Frances Alexander, Helen Bell, Paty Hiler, Joan Walker, Thora Brigrance, Polly Utt, Christine Eller, Betty Bohl, Margaret Brown, Myrtle Brown, Dean Lane and Joy Hughes. A one-act play, "If the Shoe Pinches" by Eabette Hughes will be presented under the direction of Billie Louise Berry and Stella Benefield at the meeting Tuesday. Members of the cast include: Nita Hale, Marjorie Holmes, Helen

Quiz Program Highlights Home Ec Party

A quiz program, with an equal number of engineers and members of the Home Economics club competing, will highlight the party tomorrow night for 100 engineers by the Home Economics club. The party will begin at 8 o'clock in Annex G of the Home Economics building. Dancing, ping pong, bingo, a sing-song and table games are planned to carry out the college life theme.

Lucille Melton is general chairman. Special chairmen are: Sara Anderson, hospitality; LaNeil Doshier, refreshment; Mary Ann Schmidt, program; Imogene Cate, games; Denise Cummings, arrangements; Joan Walker, publicity; and Betty Jo Morgan, decorations. Miss Josephine Looney is faculty sponsor of the club. The party is to promote friendly relations among college students and members of the armed forces stationed on the campus.

Speaking Choir Presents First Program Sunday

Thirty-five students composing the Presbyterian speaking choir are to present their first production of the year Sunday night at 8 o'clock at the First Presbyterian church. "To This End Have I Been Born" is the title of the production, the lines of which are composed principally of verses of Holy Scripture linked together into a story of personal evangelism. It was written in 1941 by Rev. W. Jack Lewis, who was then director of student work at the church. The choir selected this production to honor the author who is now a Navy chaplain in the South Pacific.

Choral speaking had its beginning in the ancient Greek plays when groups spoke lines simultaneously to represent the voice of a mob or crowd. Not until recent years has choral speaking taken its place in drama and radio. The Presbyterian speaking choir has been one of the pioneering groups in this field. At its beginning five years ago, there was only one other organization of its kind in the United States. In the production Sunday night, lighting and sound effects are added to enhance the beauty and color of the production. A combination of rhythm, music and sound are produced as a united message.

The choir has been practicing seven weeks. Betty Walling, a senior from Amarillo, and a choir member for four years is the president; Jean Northcutt of Silverton, secretary; and librarian; Dell McComb of Big Spring, leader; Charlotte Lewis of ramin and Edna Long of Esperanza, group leaders. Last year's original production was "Land of Liberty," written by Bill Foster, present student director.

DFD Initiates Nine Members Sunday

Nine DFD pledges became members Sunday evening at 6:30 o'clock in a candlelight ceremony held at the home of Annie Lee Cone, 2324 Seventeenth street. New members are Dorothy Cantrell, Fay Beth Hill, Betty Cope, Estelle DeBusk, Bernice Nix, Lou Greene, Ruth Yowis, LaVerne Legate and Gwen Edwards.

Harmon Attends School For Cheese Graders

L. G. Harmon, assistant professor of dairy manufactures, is attending a three-day school for butter and cheese graders, supervised by the United States Department of Agriculture, in Springfield, Mo. Graders from Missouri, Kansas, Oklahoma and Texas will attend the courses which began Wednesday.

Men's Rush Week Begins March 13, Two Clubs Active

Event Ends March 15 When Rushees Sign Preferential Bids

Rush week for men's social clubs begins Monday, March 13, and continues through Wednesday, March 15, according to a schedule released by Men's Inter-Club Council. Wranglers will give the first party at 7 o'clock Monday evening, and Centaurs, the only other active club on the campus, will entertain rushees Tuesday evening.

Rushing will end Wednesday afternoon from 1 until 6 o'clock in form of men's office for the purpose of submitting preferential bids by rushees to Dean James G. Allen. It is compulsory that each man who pledges a social club during spring semester make his preferential bid at this time, according to MIC regulations. A period of silence on the part of the men's social clubs will be observed from 9:30 o'clock Tuesday night until Wednesday at 2 p.m. There will be no communication written or oral between the rushees and the social club men or pledges during the silence period. Any infraction of this rule by any social club or rushee will render that club or rushee ineligible for pledging this semester, according to MIC rules.

During rush week a rushee must keep all dates he accepts through use of the official date card. Any pledge failing to fill all written dates is automatically barred from pledging this semester. A minimum load of nine hours is compulsory for pledging.

Faculty Party To Be March 3

Ray C. Mowery, president of the Faculty club, has announced final plans for the faculty party to be held Friday, March 3, at 8 o'clock in the gymnasium. Games of skill, chance and science have been planned to make this a progressive party or mixer. Prizes will be awarded to those with high scores. All members of the faculty are invited to come and bring guests.

Members of the entertainment committee are Mrs. Margaret E. Masticapell, F. L. McRee, professor of civil engineering; Miss Edith Coleman, assistant professor of applied arts; and Robert I. Lockard, assistant professor of architecture and allied arts.

Engineers Hold Annual Banquet

Annual Engineers' banquet will be held March 4 in the Hilton hotel, as ex-Tech engineers hold similar banquets all over the United States. It is estimated that at least 15 banquets will be in progress as the Tech Engineering society meets for the traditional affair. Tickets will be on sale for \$1 in the engineering library beginning Monday.

Seniors Must Order Class Invitations Before March 1

Orders for senior invitations must be in by March 1, according to officials at the Varsity bookstore. Orders will probably be filled by April 1. Invitations will carry a design of the Administration building tower. They are being made by the Star Engraving company of Houston.

Campus Beauty Becomes Bride Of Army Captain

Miss Bernice Cocanougher daughter of Mr. and Mrs. A. T. Cocanougher of Lubbock, became the bride of Capt. Ralph F. Tuttle, son of Mr. and Mrs. Ralph L. Tuttle of Coffeyville, Kas., Sunday afternoon at 5 o'clock.

Dr. C. E. Herford officiated at the double ring ceremony which took place in the First Baptist church. The altar was decorated with baskets of white lilies and fern backed by a double row of candles. Wrought iron holders with white tapers marked the aisles.

Throughout the ceremony the organist played "Indian Love Call," club song of Ko Shari of which the bride is a member. It is a tradition of the group for the song to be played at the marriage of a member.

Given in marriage by her father, the bride wore a bridal gown of white satin trimmed in lace that was outlined with seed pearls. Serving as matron of honor was Mrs. Clifton Cocanougher; flower girl, Nnette Crosby; bridesmaids, Ruth Genelle Spikes, Mary Jane Kinard, Francine Young, Margaret Cammack, Mary Lou Metcalf, Joyce Hackett; and candle lighters, Mary Langford and Annette Gibson.

Clifton Cocanougher served as best man. Head usher was Bob Gillette with usherettes being Lou Deane Blair, Sarah Cooke, Barbara Hale, Annette Gibson, Dolores Bizell and Mary Langford. Following the marriage the couple left for Coffeyville and then to Santa Monica, Calif., where the bridegroom reports for reassignment.

A graduate of Lubbock High school, the bride was a junior at Texas Tech, a member of Ko Shari and Sock and Buskin clubs and a representative to the Student Council. Lt. Donald Budge chose her as one of this year's beauties.

Capt. Tuttle received his commission from Lubbock Army Air field in 1942.

Theta Sias Hold Pledae Service

Theta Sigma Phi pledge service will be held for Johnnie Wade, LaVerne Henderson and Viola K. Martin, Thursday at 6 p.m. in the home of Mrs. J. G. Allen, 3110 21st street. After the service members and pledges will hike to Carlisle park, which is situated between 26th and 27th streets, Avenue W and X for a picnic supper.

Manpower Committeeman Interviews O. A. St. Clair

Earl Bowden of Dallas, representative of the National Committee for the Conservation of Manpower in War Industries, was on the campus recently to interview O. A. St. Clair, head of the department of industrial engineering, concerning additional ESMWT courses on the campus.

Bowden was completing a trip through West Texas where he interviewed officials at the Varsity bookstore. Orders will probably be filled by April 1.

Co-ed's Corner . . .

Annual Tea Is Wednesday Night

By Ellen Helm Miller

ALL TECHSANS are invited to attend the annual Women's Inter-Club council silver tea being held next Wednesday night from 7:30 until 9:30 o'clock in the Home Management house. Proceeds from the entertainment will go to WICC benefit loan library.

WICC established the loan library in 1935 to assist Tech coeds, who work in order to pay part or all of their school expenses, to get books. Here these students may, for a nominal sum, rent texts for a semester. WICC has the responsibility of keeping current books in stock. They receive a few as donations from faculty members and students, but have to buy most of them, obtaining funds for the purpose from a fall benefit dance and the silver tea in the spring.

That the cause is a worthy one hardly needs to be said. Techsans have always cooperated well with WICC in raising funds for the library, and we feel sure that Wednesday night's tea will prove no exception.

Of course we've all heard the oldie about the little boy who liked soldiers and the little girl who liked painted dolls. You know, when they grew up the little boy liked painted dolls . . . But here is a more recent psychological observation: A boy who wants to make the news . . . Aspires to fill his father's shoes. His sister aims for something better . . . She hopes to fill her mother's sweater.

HITHER AND THITHER: Anita Hale never seems to get to Sock and Buskin meetings on time these days. A certain preflight is responsible. "Task task . . . Journalistic tradition has it that if a dog bites someone it is not news unless the bitten one retaliates in kind. But Mary Maloney was a little too upset to bite back after a campus canine chewed her hand recently . . . Rowena McKinley is wearing a new Phi Psi pin belonging to ex-Techsan Paul Schick, now in Tulane Med school . . . Madeline Weeth is wearing one of the prettiest engagement rings we've seen recently . . . Freshman Honor society members had wondered why Margaret Ann Huffaker had been so anxious to be chosen one of their number until they discovered that she thought the FIS pin would make a lovely guard for her Yivi pin . . . Monda Hamilton is often seen on the Avenue with a preflight . . . The campus will probably be in mourning next week, as Fuzzy Cox's girl friend informed the Toreador staff she was seen going to commit suicide over unreturned love and would, therefore, have to quit sending love lyrics in Fuzzy's direction . . . Frances Ford is not giving up minor vices with out a struggle. Her aunt had to promise her a diamond watch as a reward before she consented to quit smoking.

DFD Club Honors Founders' Day

DFD Founder's Day dinner Thursday evening at 6:30 o'clock will mark the fourteenth anniversary of the club. Alumnae will be special guests for the dinner, which will be held at the Hilton hotel. The dining table, which is to be decorated in blue and gold, will be centered with a birthday cake banked with flowers extending the length of the table.

Alumnae who will attend include Mesdames Robert McKennon, Lewis Ellis, James Halsey, Charles Martin, Doyle McLeod, Albert Fortenberry, Bill Ed Watson, John H. Scroggin, Ray Farmer, Tom Hutchinsin; Misses Ina Bacon, Pauline Stafford, Sarah Beth Dimmel, Barbara Hale, Lottie Jo Townes, Marian Coffman, Lou Jefferies.

Engineering Dean Is In Lubbock Hospital

O. V. Adams, dean of engineering and professor of civil engineering, was taken to the Lubbock General hospital Sunday where he underwent a major operation. He is reported to be getting along as well as can be expected.

Press Club Members Plan Aggie Grove Picnic March 7

A payment of 50 cents should be made by Press club members on or before March 2, to Margaret Long for the picnic March 7. The picnic will be at 5 o'clock in Aggie Grove, and each member is to bring a guest.

Placement Bureau Handles Civil Service Information

The Teacher Placement bureau has been put in charge of all U. S. civil service material. Faculty members and students wanting information on this commission are invited to call at the placement office, room 211, Press building, Dr. Doyle D. Jackson.

KORET of California Girdslax

Your Girdslax is cut for fit, like a man's slacks—combines utility with charm. A non-curl, bias-cut taffeta waistband with canvas re-inforcing, tapers the midriff to a shadow of its self! Wrinkle-resistant fabrics.
