

## AWS Honors Two Women

By JODY ALLEN  
Toreador Staff Writer

Spotlighted as Texas Tech's most honored women of the year, Nancy Baldwin and Dorothy Beatrice Hoyle received Woman of the Year and Faculty Woman of the Year awards at the Women's Day Banquet Thursday night.

Miss Baldwin is a senior business major from Houston and Miss Hoyle is an assistant professor of physical education at Tech.

Dr. Florence Phillips, dean of women, presented the award to Miss Baldwin on the basis of scholarship, service, and leadership. She said Miss Baldwin had "looked beyond student years and planned for her future life in society."

Miss Baldwin is president of Mortar Board honorary society and Delta Gamma sorority and is secretary of the College Awards Board.

Dr. Kate Hevner Mueller, professor of higher education, Indiana University, spoke on "The College Woman and Her Future."

Dr. Mueller emphasized four directions in which women should look to the future. She said they must see the future as a whole, see themselves as a whole, grasp the concept of the interacting world of men and women and plan thoroughly for their education throughout the decades.

Ann Fursman, mistress of ceremonies, awarded Dr. Mueller honorary membership in AWS at the conclusion of her address.

Glenda Johnson, newly installed president of Women's Residence Council, recognized Weeks Hall as having the highest scholastic average of the residence halls. Weeks has an over-all average of 1.628. Miss Johnson also recognized the newly chosen dormitory officers and legislators.

The social sorority maintaining the highest scholastic average is Delta Delta Delta. Suzann Davis presented the Tri Delt scholarship award to Nickie Joyce Woelfel.

Donna Peachee presented Mary Jo McClain with the Zeta Tau Alpha scholarship award.

Judy Stewart presented the Alpha Lambda Delta Senior Book award to Linda Dennis Price. Miss Price has a 2.94 grade average for four years of college. Miss Stewart recognized all members having a 2.5 average.

Miss Baldwin awarded Dorcas Turner the Mortar Board Freshman Scholarship. Miss

Turner has a 3.0 grade average. She also recognized new members of the Mortar Board chosen Thursday.

Brenda Brewster Pate received the WSO Rose Award. Carolyn Vines was awarded the title of Home Economist of the Year.

Phi Mu was proclaimed the sorority which has made the most advancements scholastically. Those who were selected best pledges out of each sorority were recognized for their achievement.

Sandra Seemann presented the intramural awards. Groups ranking highest in sports activities are Deak Hall, Delta Gamma, and Pi Phi.

Miss Fursman performed the installation ceremony of new AWS officers.

The tables were decorated in a spring theme with baskets of daisies and brightly colored carousels. Sue Mims gave the invocation and Judy Kay Jones introduced special guests.

TEXAS TECH'S WOMAN OF THE YEAR

... Miss Nancy Baldwin, left, and Miss Dorothy Hoyle, above, received the Outstanding Woman and Outstanding Faculty Woman for this year at the Women's Day Banquet Thursday. Miss Baldwin is shown at her job as a switchboard operator, at a local drilling company, Miss Hoyle, a physical education teacher at Tech, is being interviewed by Ann Balzer, sophomore from Lubbock.

### Will Visit Brazil

## 'Ambassador' Award Goes To Mike Lundy

350 Voices

Six weeks of life in Brazil awaits Mike Lundy, a senior history major at Texas Tech, as a result of his receiving the nod Thursday night to be Lubbock's Community Ambassador for 1961.

Lundy will make a six weeks tour of Brazil this summer as the area's annual ambassador to foreign country, sponsored each year by the Chamber of Commerce.

Selection of Lundy was made after screening by 125 judges. He was chosen from four top finalists.

Other finalists were James Allen Williams, 21, and Miss Anna Gayle Ryan, 19, who tied for runnersup, and Leonel Galindo, Jr., 19, all of Lubbock.

Lundy will leave Lubbock within a few weeks after school is out and travel with translators and other community youth ambassadors of other cities in touring Brazil.

The 21-year-old Tech student has been president of the Baptist Student Union and member of the Student Council, Campus Religious Council, Phi Delta Theta and the Board of Student Organizations. He was recognized at the All-College Awards Service for campus leadership and served last summer as a Baptist youth missionary to Hawaii.

The selection of Brazil was made earlier this year by the Lubbock Chamber of Commerce for the trip.

## Greeks Stage Annual Sing

Twelve sororities and fraternities will vie for honors today at 8 p.m. in the Lubbock Municipal Auditorium when they participate in Tech's annual Inter-fraternity sing.

The event will be sponsored by Phi Mu Alpha, national honorary fraternity for men in music, and will include approximately 350 participants.

Judges will be William Harrod, director of the Lubbock Symphony; John Anderson, music coordinator for Lubbock Public Schools; and Robert Clinton, former Snyder High School music director. First, second and third place awards will be given in both the sorority and fraternity categories.

Guests of honor will be Phi Kappa Psi and Gamma Phi Beta, previous winners of first place trophies. Phi Kappa Psi has won the award for four consecutive years and Gamma Phi Beta for three years.

They will open the program with a joint presentation of "Carousel" directed by Ray Moore. In addition to the combined number they will present an individual selection. Gamma Phi Beta, directed by Linda Hart, will present "Gamma Phi Man" and Phi Kappa Psi will sing "Noble Fraternity" directed by T. Chapman.

Alpha Chi Omega will open the sorority competition with "Selections from the Pajama Game" and "Sing of Alpha Chi" directed by Patsy Sybert. Pi Beta Phi, under the direction of Ellen Fuller, will sing "Songs of the Sea-

sons" and "When You Choose Pi Beta Phi." Judy Stewart will lead the Kappa Kappa Gamma's in "Ta Una Canzona" and "Lovely Spirit of Our Lives."

Kappa Alpha Theta, led by Robbie Ramsey, will sing "Spring Fantasie" and "Theta Lips." Phi Mu will present "Night Serenade" and "Let Us Break Bread Together" under the direction of Lenise Latch.

Zeta Tau Alpha will end the sorority competition with "Tanquam Agnus" and "Steel Gray and Blue."

First on the fraternity list will be Phi Gamma Delta with "Fiji of the Purple Hue" and "Medley of Southern Songs" led by James Coggan. Phi Delta Theta, directed by Roy Mears, will present "Tell Me Why" and "Eternal Father." Kappa Sigma, under the direction of Doyle Gam-mill, will sing a "Medley of Show Tunes" and "Mister, He Kissed Her."

Delta Tau Delta will be directed by Tommy Sanders and will present "Sing by the Fire" and "In the Halls of Ivy," "Stout-Hearted Men" and "The SAE Medley" will be sung by Sigma Alpha Epsilon, directed by Bill Holmes, Jr. The program will be culminated with the Sigma Nu presentation of "Politics and Poker" and "White Star of Sigma Nu."

In addition to sorority and fraternity competition, Mu Phi Epsilon and Phi Mu Alpha national honorary sorority for women music majors, will sing selections from "My Fair Lady" directed by James Sudduth.

## Club Selects Top Member

Members of the Home Economics Club balloted Friday to select seven top home economists from which Tech's Home Economist of the Year will be chosen.

Girls running were Billie Blair, Charlyne Brown, La Rue Elliott, Beth Gillham, Linda Kinard, Carolyn Murphy, Betsy Lyle, Jan Stephens, and Carolyn Vines.

To be eligible for the honor a girl must be a junior, have a 1.5 overall average, and be active in the School of Home Economics.

The girl chosen will represent Tech at the state workshop at North Texas State College next fall. She will vie for Home Economist of the state at that meeting.

## Honorary Initiates Eighteen Pledges

Phi Gamma Nu, honorary business sorority, will have its Initiation Banquet 1 p.m. Sunday at Lester's Hickory Inn.

Those to be initiated are Ann Atkinson, Nancy Baldwin, Sharon Brinkman, Anne Clark, Karen Cromer, Jeanne Earl, Donna Fitzpatrick, Sharon Frost, Norma Jean Gerngross, Susan Harper.

Barbara Hudman, Patsy Jarmon, Carolyn Key, Karen Mason, Lalah Newton, Ann Orrick, Laura Lee Storey and Judy Wells.

## Alpha Chi's Attend Hawaiian Luau

The Palm Room was the scene last night of the Alpha Chi Omega dinner dance, fashioned in the style of an Hawaiian luau.

The decorations consisted of an orchid-covered bamboo hut, a waterfall and pool and fish nets, hung on the walls.

A buffet dinner of roast pig, red snapper, shrimp and tossed salad served from an Hawaiian canoe, followed the island theme.

Music for the dance was provided by the Beachcombers.

SANDRA NOBLES

## SN's Announce Coed Royalty

Sandra Nobles, Tech sophomore from Houston and Jean Shaw, junior from Dallas, were named White Rose Princesses of Sigma Nu for March and April respectively.

JEAN SHAW

## Patrolmen Move Security Office

The Traffic Security office has recently moved to the new Physical Plant Building, which is located on Flint across from Carpenter Hall.

For the past four years the office has been located in the Aggie Pavilion while waiting for the new building to be completed.

## Y Sponsors Course Showing Baby Care

A Red Cross course in Mother and Baby Care is underway at the YWCA Bldg., 1614 Broadway Ave. and will continue until May 8.

Classes meet at 7:30 p.m. each Monday night under the instruction of Mrs. Glenn Woody. There will be no charge for the course and students do not need to belong to the YWCA to enroll.

## Sigma Kappa Wins Console In Annual Cigarette Contest

Sigma Kappa placed first in the Marlboro Contest, winning a console stereophonic record player with two speakers, it was announced today.

The sorority turned in 45,000 crushed cigarette boxes to win the award. The contest is sponsored by the Phillips Morris Cigarette Company.

Patty Wilder, Tech junior from

Brownfield, was chosen Sigma Standout, the outstanding Sigma Kappa member, for the month of April.

Sigma Kappa has scheduled its annual all-college Mr. Pledge Dance for Friday at 8 p.m. in the Rec Hall. The Four Teens will provide the music for the dance.

Mr. Pledge from one of Tech's fraternities will be revealed at the dance and presented with a traveling trophy. Casual dress should be worn.

## Accountants Name Chesser President

At a meeting of the Tech Accounting Society on Thursday, new officers for next year were elected.

Elected were Don Chesser, president; Dean Clark, vice president; Terry Morris, secretary-treasurer; Jim Prentice, reporter and Gifford Cox, sponsor.

A spring banquet for the society has been set for April 27 in the Tech Union.

## MEMOS

### AGGIE CLUB

The spring meeting of the Aggie Club will be 7:30 p.m. Tuesday in the Aggie Auditorium.

Wilmer Smith, member of the Tech Board of Directors and guest speaker for the meeting, will talk on the "National Outlook of Agriculture."

Refreshments will be served and a pair of boots and a shirt will be given as door prizes.

### NEWMAN CLUB

The Newman Club will sponsor a picnic for all Tech Catholic students Sunday afternoon at Palo Duro near Amarillo.

Students are to meet at 11 a.m. Sunday at the Newman Hall. Food, and transportation will be provided.

MORTAR BOARD FILES THROUGH HALLS ... on their way to "tap" new members. "Tapping" was held in conjunction with Women's Day, Thursday.

# Organizations 'Tap' Pre-Meds 39 Coeds Thursday Will Hear Tech Grad

Nineteen junior coeds were "tapped" Thursday to become members of Mortar Board, honor society.

The girls were selected for membership on a basis of academic achievement and participation in campus activities.

Members moved through classrooms, laboratories and cafeterias in their traditional procession to "tap" their future members.

The coeds will be initiated April 21 at the Lubbock Women's Club. A banquet before the initiation will honor the initiates.

They will be guests of Barbara McDougal, a former Mortar member.

The girls will journey to Aberdeen members are Phyllis Reed, Judy Kinney, Mary Jo McClain, Carolyn Grau, Gail Pfluger, Jane Sargent, Sydnev Edwards, Glenda Johnson, Judy Kaye Jones, Nancy Jo Mankins, Kay Porter and Jane Crockett.

Other members are Peggy Ma-

loy, Nancy Hatton, Linda Barnhill, Carolyn Vines, Susan Craig, Betsy Lyle and Joan Dorris.

## Kappa's Fete Dates. Plan Lodge Shower

Members of Kappa Kappa Gamma sorority and their escorts attended a buffet dinner and dance at the Lubbock Country Club April 8.

An atmosphere of "Spring Fantasy" was effected with a revolving bird cage filled with flowers and a colorful peacock, pink butterflies, hurricane candles, English ivy and flower blossoms.

Drink mixers etched with the sorority's Greek letters, glasses and silver trays were given as favors. The Sultans of Swing played for the event.

An April "Shower or Gifts" is the theme for a Kappa pre-singing activity today. Each member will bring a gift for the lodge ranging from soap dishes to playing

Dr. Scott M. Grundy, a Tech graduate, will be featured speaker at Tech's Pre-Med Day today.

Dr. Grundy will speak at the annual pre-med dinner at 6:30 in The Tech graduate is an instructor in biochemistry at Baylor Medical School and serves on the committee for admissions and promotions.

While in medical school at Baylor, he was a member of Alpha Omega Alpha, honorary medical society for academic achievement and president of Phi Chi Medical Fraternity and of the Osler Society, a society for the study of medical history.

At the dinner scholarship awards will be presented to sophomore, junior and senior pre-med students. A senior student, already accepted by a medical school, will receive the senior award.

## Museum Offers Art Exhibit

The West Texas Museum is currently exhibiting "Amarillo Collects", paintings, drawings and sculptures drawn from the collections of Amarillo residents.

The exhibit began April 7, and will run through April 27. It is open to all students of Tech as well as to South Plains residents. There is no admission.

Approximately 55 works are displayed, featuring a variety of ar-

tists and media, including an egg tempera by Dali, an oil by Gunter, a lithograph by Picasso and a color crayon drawing by Bonnard, to mention a few.

Members of the West Texas Museum Fine Arts committee and persons interested through the Volunteer Bureau will be in the Auditorium gallery to discuss the exhibition and the artists with visi-

Tech's All-American Publication

Eichmann, Gagarin

Major Events Draw Comment

The eyes and ears of the people of the world are currently focused on two major events—the Eichmann trial in Israel and the success of the Russians in putting a man into space.

The stories are as different in emphasis as night and day. One, the Eichmann trial, is a grim reminder of the past; the other, the space conquest, a dynamic look into the future. Still these incidents have a parallel, and it is not because they will be both viewed as major events in history.

The events have a distinct connection in that most persons who are able to read and here about them will take them for what they are on the surface and not realize their more subtle meanings.

As those who take an interest in the Eichmann trial read about the history of the case, which involves the Nazi horror camps of World War II and Eichmann's cold-blooded genocide, they will be inclined to say that the former SS officer will be tried and then get his just deserts, namely being hanged by the neck until dead. They look at the case from the point of view of Eichmann vs. humanity with justice being served as he is judged guilty.

However, the more subtle meaning of the trial has been brought out by a Jewish leader who said that it matters not whether Eichmann is executed, imprisoned or turned free. The leader contends rightly that the world has "forgotten too soon" the Nazi insanities and that the huge collection of case material must be brought before humanity. The case, then, is a symbol in the first place and justice being served in the second.

Many people, especially the Russian proletariat, are viewing the space success of Maj. Yuri Alekseyevich Gagarin just as the Communist High Command would have them to—as the "Conquest of Space" and another victory over the capitalistic world.

The success has taken their minds away from the grimness of their lives and their lack of consumer products. They are cheering in the streets over a success that will not do them one bit of good. They make merry over the conquest of "the emptiness of space" while many of their countrymen go hungry.

RON CALHOUN  
Editorial Assistant

Just  
ACK  
Some  
Gab  
IBSON

Last year in a Spanish class, I had the opportunity to read *Pata de Zora*, a short excursion into the life and love of a student in an *escuela* of higher learning. The story itself was somewhat amusing and reading it was a treat—to an extent—but the thought of this past history returned mainly because of some of the suggestions contained therein pertaining to *Universidades* and their attendees.

The **BIG** thing—that is, the major activity of the student body—was aimed at receiving diplomas by means of a vote by members of the student body for all prospective graduates. I am certain that if anyone here at Tech advocated such goings-on, they would be considered a bit "off." However, assuming that there were a slim chance of pushing such a program through necessary channels, I wonder if anyone would be idiot enough to attempt it.

Well, the suggestion has been made that the democratic thing to do would be to have *Toreador* editorial staffers elected by the student body. Of course, this is really a matter for old "Rumblin" Ralph (of fisticuff fame), since it's editorial policy-making. But I sense the same idioy extant in such a suggestion as the one in the above-mentioned story.

The criteria necessary for voting diplomas would have to be established. If by the students, on what would they base their decisions? Similarly, the criteria would have to be delineated for column-writers. Who's to say one is, or is not, a writer? The students? Hmmm!

I can make no claim to any such stature. I enjoy writing, or "printed gabbing," but I doubt if I'd qualify under the suggested plan. That should make some people happy, anyway.

JSG

I was also asked, indirectly, if the Republican Administration was successful in handling foreign policy. To which I would say, "Yes!" At least, relatively; as successful as was the opposition administration at Yalta, Potsdam or in the handling of the China fiasco some years back, part of which allowed the present control of that nation to be in the hands of the People's Republic!

I was asked if the "big stick" policy was conducive to good relations with under-developed countries. Were the "Good Neighbor" or uni-lateral foreign aid plans any more conducive? This, too, is relative, but whither are the good relations?

Finally, it has been inferred I do not care about the common man. Fear not! I care enough about him to want him to stay an individual... untainted by the fallacious ideology that all good things come from Washington ('tain't so, I've lived there!) I care that he maintain his freedom of being a UNIQUE human being, not just another "machine" in a throng of other machines. I care that he should be informed; to know that it isn't an ever-flowing cornucopia which provides for the "general welfare!" Rather it is HIS MONEY and the money of a bunch of others who can ill afford to spend their grandchildren's savings for their own pseudo-necessities. After all—the more you help some folks, the more helpless they become. I care; I'm one of 'em!

JSG

I have digressed. What I really wanted to advocate in this week's column was something associated with finals and graduating students. I shall reserve that for next week. I think the present subject (and antagonist) has received a more-than-fair measure of publicity.

The Toreador Mail Call . . .

Editor,

Yesterday I walked into the *Toreador* office to receive some explanation as to why a letter I sent to them was not published. While I was trying to get some kind of answer, I received a little rough treatment from Ralph Carpenter, our "fine" editor. I am sure everyone saw the pictures in the paper and the story saying I picked a fight with him.

Now I know why my letter was not published. I tried to get in a little constructive criticism in hopes that it would be heeded, but it seems all I got was a rough going over—something I haven't forgot.

From what I have observed, and by the way I was treated, I have concluded that evidently, Mr. Carpenter runs the paper about like he plays golf. And from what I hear, he couldn't give Fidel Castro a very good match.

Sincerely,  
James Wagner

P. S. I dare you to print this one.

(EDITOR'S NOTE: Why don't you get out of town, Wagner. I don't care for you one bit.)

Dear Editor:

In an effort to inform you and the laymen concerning the parable "The Story of a Tree" in the Saturday April 8 issue of *The Toreador*, I would like to point out a few factors which might not be too easily seen by most.

To have saved the trees on 19th street there were, at most, three possibilities: (1) make an avenue, leaving the trees where they were and constructing a road on the other side of the existing trees, (2) digging up the trees to be moved elsewhere, or (3) constructing the expansion of 19th street to where it would infringe on the homes along 19th. But, I will try to show you that none of these possibilities were the correct solution, and what was done was the only solution.

First, to construct the avenue and leave the trees would not be practical. By building a road on the other side of the trees about one-half of their surface feeding root system would be removed. This action, in turn, creates problems. These trees are probably 20 to 30 years old and at this age new vegetative and root growth is less than that on young trees; thereby, making it difficult for the trees to reestablish the amount of root system lost. With the reduction of the root system, water would be a serious problem

for these large trees. Also the confining of the area by constructing an avenue on the other side of the trees would greatly increase the competition among the trees themselves for water and nutrients. No watering device occurs in the present area.

With the reduction of the root system, more competition between the trees, and no artificial watering, the trees would soon become seriously weakened and secondary effects would come about—namely insects. Wood borers, beetles, and various other insects would quickly finish the lives of the trees.

If the trees had been left there, perhaps these trees could have been maintained by having a water system installed, an insect spray program, nutrient feeding and pruning. However, it would not prove feasible for these Siberian Elm Trees (*Elmus pumila*), erroneously called Chinese Elms, which have a short life span of 30 to 40 years.

Short life combined with other undesirable factors such as (1) roots that crack sidewalks, drive ways, pavement etc., (2) weak splitting wood as shown by our last snow storm, (3) heavy seedage which are actually weeds, (4) and no particular ornamental value make this tree undesirable. By ornamental value, I mean characteristics such as fall color, interesting fruit, bark, shape, etc. All of these factors make this tree an inferior landscape plant.

But one may say, well these are the most commonly planted trees in Lubbock. This is true, but no more, for we have learned that this elm has very little landscape value. There are many species of better trees and other elms that are grown in this area.

Second, considering all the above facts plus the labor, expense, and time to dig the trees with a soil ball around the roots, to move them, and to prune them, would not be practical nor feasible.

Thirdly, why sacrifice the beauty of many existing stately, landscaped lawns on 19th for a few trees that were about ready to die?

Actually, I truly appreciate any tree with age and size, but one should be more realistic in reasoning instead of appealing to the sentiments of other uninformed through poetic day dreaming. Therefore, the only possible solution was the removal of the trees.

# ROTC Recognizes Outstanding Cadets

Superior Cadet Ribbons were awarded to four Army ROTC Tech students Thursday.

The students have been designated the outstanding members of their respective military science classes for the 1960-61 academic year.

Col. James B. Carvey, professor of military science, said that they have maintained superior academic and military science grades, participated in extra-curricular activities on campus and have displayed outstanding traits of leadership and moral character.

Cadet Lt. Col. George B. Gibson, fourth-year engineering and military science student, received the senior award. This is the fourth consecutive year for Gibson to be awarded this decoration.

Cadet Sgt. Louis W. Joe, engineering sophomore, is the recipient of the second-year award.

Cadet PFC Alton R. Jasper, en-

gineering freshman, received the first-year superior cadet award.

Cadet Lt. Bobby C. Switzer, business administration junior, was awarded the third-year superior cadet award. Switzer also was awarded the Reserve Officers Assn. medal which is made annually to the most outstanding three-year military science cadet for outstanding contributions to the Army ROTC program. The Reserve award was presented by Lt. Bob Rummel, a Tech graduate.

SWITZER RECEIVES RESERVE OFFICERS MEDAL

... Lt. Bob Rummel, U. S. Army Reserve, Lubbock, presents the annual Reserve Officers Assn. medal for the outstanding three-year military science cadet to Bobby Switzer, junior from Monahans.

# SC Considers '61-62 Budget

Student Council members will meet at 7 p.m. Tuesday to reject or approve next year's budget.

The new constitution will also be presented to the Student Council by the constitutional committee for its approval. Should the Council approve the new constitution, it will then be submitted to the committee appointed by President R. C. Goodwin.

This will be the last Council meeting of the year of the present student government.

The new Council will be installed at the annual installation banquet Thursday, April 20.

LUCKY STRIKE PRESENTS:

# DEAR DR. FROOD:

**DR. FROOD'S THOUGHT FOR THE DAY:** *The best defense is a good offense, unless you're weak or cowardly, in which case a good hiding place is unbeatable.*

**DEAR DR. FROOD:** Every guy I go out with thinks he's Casanova. What should a girl do?

*Chased*

**DEAR CHASED:** Ask each one to roll up his sleeve. If there is a small birthmark just above the left elbow, you've got the real Casanova.

**DEAR DR. FROOD:** A tackle on the football team likes the same girl I do. He says that if I see her any more, he'll mop up the floor with me. I refuse to be intimidated! What should I do?

*Ninety-nine Pounder*

**DEAR NINETY-NINE:** You'd better let your hair grow long.

**FROOD TO WASHINGTON!** Dr. Frood has been called by government officials to unveil his extraordinary "Luckies for Peace Plan." Questioned about this plan, Frood replied: "The details are still classified, but it all started when I discovered that college students smoke more Luckies than any other regular. This led me to believe that if all the world's peoples would but lean back and light up a Lucky, they would be too happy to be belligerent."

**DEAR DR. FROOD:** I am a sophomore majoring in architecture. Our college has just completed a magnificent carillon tower. Yesterday, while examining the blueprints, I was horrified to discover that the tower will collapse at 3:30 P.M., June 3, 1964. I have taken my calculations to the dean, to the architects, to the builders, to the president of the college. No one will pay any attention to me. I am desperate. What can I do to avert disaster?

*Frantic*

**DEAR FRANTIC:** You've done your best, son. Now, for your own peace of mind, won't you join me in a short trip to Las Vegas to see what kind of odds we can get?

**DEAR DR. FROOD:** I've been writing poems to a certain girl for about five months. Yesterday I found out that this girl and her friends get together to read my poems and laugh at them. Do you think I should stop writing to her?

*Upset*

**DEAR UPSET:** Definitely not. There are all too few humorous poets writing today.

## CHANGE TO LUCKIES and get some taste for a change!

## HE Dept. Plans Heart Exhibit

A multiple exhibit on "The Heart" is planned for the Tech home economics annual open house Friday and Saturday.

The three aspects of heart disease, prevention, cause and treatment, will be featured in the displays.

Other exhibits will attempt to clarify the action of the heart and will include models showing the physiological structure of both the normal and the abnormal heart. A stethoscope will be available for visitors to listen to a heart beat.

Students from nutrition classes will be available to explain the exhibits on the relationship of dietary fat to cholesterol and obesity in

relation to food preparation and dietary tips to prevent potential heart conditions. The disease arteriosclerosis at the present time kills about 500,000 Americans each year, which is the greatest single cause.

Fifty-four per cent of the American people are believed to be suffering from some form of circulatory heart disease. The disease arteriosclerosis at the present time kills about 500,000 Americans each year, which is the greatest single cause.

Also in the Home Economics Open House will be the annual style show, "New Directions in Fashions." Other demonstrations on subjects from civil defense to interior decorating will be staged by departments in the School of Home Economics.

### Two approaches to the "man's deodorant" problem

If a man doesn't mind shaving under his arms, he will probably find a woman's roll-on satisfactory. Most men, however, find it simpler and surer to use Mennen Spray Deodorant. Mennen Spray was made to get through to the skin, where perspiration starts. And made to work all day. More men use Mennen Spray than any other deodorant. How about you?

## 'Still In Space' 'Women Of Year' Reveal Reactions To Recognition

By SAUNDRA ADCOCK  
Toreador Staff Writer

By ANN BALZER  
Toreador Staff Writer

AWS Woman of the Year, Nancy Baldwin, is a regular "Girl Friday."

Besides carrying a full semester's load, being president of Mortar Board and planning a summer wedding, Miss Baldwin is working eight hours a week at Western Drilling Co. where she is gaining on-the-job experience in her major, business administration.

The dark-haired senior from Houston said she was hired after "beating the pavement," for a job that would give her off-campus experience. She learned to operate the switchboard on the job, and she does typing, filing and some dictation, in addition.

"I enjoy the office routine which is different from school," Miss Baldwin said.

It evidently does not interfere with college activities. She was named to Who's Who last semester and has been secretary of the College Awards Board.

At the Thursday night banquet, Miss Baldwin was also recognized by Alpha Lambda Delta as being one of the members who has maintained over a 2.5 grade average each semester.

In her junior year, the top woman student was president of her sorority, Delta Gamma. As a sophomore she was vice president of Horn Hall.

Showing surprise at being named Woman of the Year, Miss Baldwin said, after catching her breath, that the only way she could express herself was through the 23rd Psalm: "My cup runneth over."

Dean of Women Florence Phillips accurately described the 1961 Woman of the Year when she said, "She has looked beyond student years and planned for her future in society." Miss Baldwin enthusiastically tells of her plans for the future.

She will work, perhaps in the Central Intelligence Office or in the State Department, after her July marriage to John Stokes, senior who will study law at George Washington University in Washington, D.C., next fall.

Miss Dorothy Hoyle, Faculty Women of the Year, says that she "doesn't think the Russians can brag" because she feels like she is "still in space."

Miss Hoyle, a member of the physical education faculty, was thrilled with her award presented at the Woman's Day banquet Thursday night. Yesterday she was wearing proudly a silver charm engraved with "AWS Faculty Woman of the Year, 1961."

For ten years Miss Hoyle has taught at Tech—taught everything from golf to dancing and health. Before coming to Tech, Miss Hoyle taught in Southeastern Louisiana College using her three majors, health, recreation and physical education, in instructing the students. Her teaching career also includes all levels of public school.

Miss Hoyle who feels "dedicated to teaching" says that it is her "substitution for a family." To answer the question, why teach, Miss Hoyle says "teach to keep learning." The woman of the year said that the interest of the student leads her into new areas of study.

That she likes to learn is proven in her work towards her doctorate on gerontology, the study of aging.

The likeable instructor became interested in the physical education field because she had a heart condition and wanted to improve her health. Since that time she has become proficient in nearly every sport.

As an example of her athletic variety, during the war years, Miss Hoyle coached football. One of her athletes, Don Cunningham, made the varsity team at Tech.

"Once my interest in P.E. almost led me astray," Miss Hoyle wanted to become a circus performer. In high school she did a pony act, rode elephants and swung on a trapeze with a circus for a week while they were in her home town.

Nancy Baldwin, who shared honors with her Thursday night, is Miss Hoyle's "idea of the typical Texas Tech coed who is capable and outstanding."

## Preliminaries Begin Today For Rodeo Queen

Plans are in progress for the Texas Tech-LCC Rodeo scheduled for May 4-6.

Queen contestants will be judged on horsemanship at 2 p.m. today at Jack Aull's Cowboy Playground Arena located two miles from the traffic circle on the Tahoka highway. H. C. Zachry, chairman of the contest, said that the judging on dress and personality will probably be the middle of next week.

Judging the contestants on their ability to ride will be Miss Opal

Jones, Opal's Western Wear Store; Bill Price, Bill Price's Western Shop; and Joe Kirk Fulton, ex-Techsan and quarter horse breeder.

Entries in the queen contest and their sponsors are Ruth Latch, Phi Mu; Betsy Anderson, the new fraternity; Frances Sayles, Zeta Tau Alpha; Nancy Bacon, Delta Tau Delta; Nancy Nelms, Sandra Cope and Barbara Collier, Sigma Kappa.

Others are Ann Thompson and Billye King, Sigma Kappa; Jo Beth

Chandler, Phi Gamma Delta; Jeannie Cleveland, the Tech Rodeo Assn. and Diana Harbert, Kappa Kappa Gamma.

Six finalists, selected from these contestants, will compete in a penny-a-vote contest for the title of Texas Tech Rodeo Queen.

Kelley Waggoner, rodeo manager, announced that several committees have already begun work on the rodeo.

Rodeo secretaries are Perry Thompson and Jeannie Cleveland, and arena directors are Jerry Cotton and H. C. Zachry.

men who bowled the highest games among approximately 150 contestants in a preliminary meet last Saturday.

men who bowled the highest games among approximately 150 contestants in a preliminary meet last Saturday.

## Tech Campus Hosts Regional Track Meet

Spring sports competitors from 32 districts involving three conferences will converge on Tech for the Region One University Interscholastic League Meet next Friday and Saturday.

Represented by tennis, golf, and track teams will be Districts 1-16B, 1-8A, and 1-8AA. Conferences AAA and AAAA meet at Odessa.

Participants will be seeking berths in the state meet at Austin May 5-6.

Dr. S. M. Kennedy, Arts and Science dean, is director general of the meet here. George Philbrick is in charge of the tennis, with Miss Dorothy Hoyle conducting the girls'

division. Jay McClure and Gene Gibson are directing the golf, and Don Sparks the track.

Tennis and golf begin Friday morning. Track starts Friday afternoon. Golf will be a one-day meet, with finals in track and tennis scheduled for Saturday.

Track team winners last year were Denver City, AA; Sundown, A; Lazbuddie, B. Golf championships were won by Crane in AA, Reagan County in A. No Conference B teams competed. In tennis, AA titles were won by Fort Stockton, Crane, Alpine, and Perryton; A championships by Junction (three) and Memphis; B first places by Quitaque, Turkey, Roosevelt, and Knox City.

mural bowling leagues. The three foursomes—Thompson Hall No. 3 Pi Kappa Alpha No. 1 and the Chiggers—won their right to advance to the finals in last week's competition also.

The 21 students vying for the singles championship and their last week's performance include Bill Miller, 574; Larry Poyner, 568; Emmitt Herod, 566; Carrol Sutton, 565; Jim Wilkerson, 564; David Adkisson, 558; Bob Barber, 554; and Bennie Tschoner, 551.

Also, Coy Best, 551; Don Boggus, 550; Bobby Avery, 550; Frank Ray, 550; Guy Nell, 549; Amos Greer, 548; Ken Stevens, 540; and Bill Lea, 536;

Elmer Hershey, 535; Norman Andress, 531; Don Massey, 526; and John Brutsche, 526.

Thompson's first place margin over runner-up Carpenter No. 2 was by 18 pins, indicative of the closely-contested league races.

The Pikes had a total of 2014 to outdistance second place Sigma Alpha Epsilon, 1930, and Alpha Tau Omega No. 1, 1929.

In the Independent League, the Chiggers had 1999, eight more pins than the Wise Men at 1991, and BSU trailed with 1962.

## Raiders Play WTS Baseball Twin Bill

Barring inclement weather, the Tech varsity diamond crew will travel to Canyon to meet West Texas State in a return double-header today.

The Raiders shut out the Buffaloes in a twin bill at the Tech diamond last Saturday, 4-0 and 3-0.

First-year Coach Berl Huffman will probably start Mike Bromley, and Bill Easterwood on the mound, both righthanders. Bromley, a Sweetwater product, has recorded an even won-loss state of two and two. Easterwood, Midland, holds a one and one season record.

Available for relief will be Rodger Mac Evans (2-0), Abilene, Ramsey Brandon (1-0), Bovina, Barry Scott (1-0) Merkel, and Marvin Henderson (0-0), Kerens.

Billy Wilson, Killeen, will start behind the plate; John Sosnowy (206), Texas City, first; Dennis Willett (429), Lubbock, second; Charles Harrison (258), Abilene, third; Doug Gibbons (286), Fort Worth, shortstop; Cagle Davis (316), Amarillo, right field; George Gibson (206), Dallas, centerfield; and Walter Rankin, (111), Midland, or Dean Horton (000), Lancaster, leftfielder.

West Texas will counter with Smith at the pitching post, Stephens, catcher; Burrows, first; Holdman, second; Teaff, third, Kula, short; Bedwell, leftfield, Tinney, center; and either Hanna or Kinney in rightfield.

The Red Raiders are 9-4 for the season, including wins over New

Mexico University, and Panhandle A&M. Losses have been to University of Colorado, and Highlands University.

Also in action over the weekend will be the Picadors, who will host Amarillo College in a Monday doubleheader.

The Tech freshmen will be seeking their fourth and fifth wins of the season without a loss in the baseball duo.

Previously South Plains and Odessa College were victims of the Picador attack. A doubleheader with South Plains ended with 13-3 and 16-1 Tech victories and the Odessa school was defeated in an 8-0 shutout.

## Liston Gives Ultimatum To Unwanted Manager

PHILADELPHIA (AP)—Sonny Liston, the No. 1 challenger for Floyd Patterson's heavyweight title, Friday threatened to quit the ring unless Joseph Pep Barone steps out as his manager.

"I'm asking Pep to give up his contract with me so I can get a title fight," Liston said.

Patterson several times has said he won't defend against Liston until the Philadelphia heavyweight divorces himself from some of the people the champion claims have a financial interest in Liston.

A U.S. Senate subcommittee last winter said Frank Blinky Palermo and Frankie Carbo were under-cover managers of Liston and described Barone as a front man for them.

Liston, winner of 34 of 35 fights, says he won't allow Barone of Allentown, Pa., to sell the contract. "I want Pep to give it to me for nothing," the Negro fighter asserts. "I'll get another manager

who can help me land a fight with Patterson."

Liston insists that if Barone refuses to give up the contract, reportedly worth \$125,000, he'll quit fighting.

Liston intimates he has a number of prospective new managers in mind, but declines to name or express a preference for any of them.

Barone previously has received numerous offers for the Liston contract, and answered them all with, "It's not for sale."

## Cubs Beat Braves

CHICAGO (AP) — Sammy Taylor, with a three-two count and two out in the ninth, slammed a two-run homer to give the Chicago Cubs a thrilling 3-2 home opener victory Friday over the Milwaukee Braves.

## Tigers Win In Near No-Hitter

DETROIT (AP) — Jim Landis' scorch single in the fifth inning ruined Frank Lary's bid for a no-hitter Monday as he pitched the Detroit Tigers to a 7-0 triumph over the Chicago White Sox.

Landis' hit bounced off shortstop Chico Fernandez's glove and the official scorer promptly ruled it a hit. Fernandez was forced to go far to his right to make the play. If he had fielded it cleanly it appeared he might have caught Landis at first.

Lary, dazzling the White Sox with an assortment of curves, sliders and fast ball, retired the next 13 batters before walking pinch hitter Earl Torgeson in the ninth.

The Tigers supported Lary's pitching with a 15-hit attack and scored their seven runs in the first three innings off Frank Baumann and reliever Bob Shaw.

Lary, 30, struck out only five while walking two.

## Production Combines Play Cast

Combined talent from Lubbock Christian College and Texas Tech will present the speech department's next production, "The World Of Shalom Aleichem."

The student-produced and directed production is the last play of the semester and will be presented May 1-6.

Adapted for stage by Arnole Perl, the play is a combination of three short stories that deal with the life of Jewish people in Europe during different periods of their persecution.

The first vignette "A Tale of Chelm" depicts the folk humor of people laughing away in their ghetto. "Bontche Schweig" pictures heaven as the Jewish people imagine it.

The final vignette is "The High School." While Chelm tries to laugh oppression away, Bontche gently condemns it; High School begins to combat it.

Students in the cast have had conferences with Rabbi Kline of the Congregation Shaareth Israel to instruct them in Jewish manners, habits and customs.

Dr. Bernard A. Landes of the speech department is helping with the pronunciation of yiddish words.

Student directors are Mary John Woolford, June Bearden and Diane Benham. The technical director is Rick Malone.

The combined cast includes Durwood Jacobs, Carol O'Connell, Garry Carson, Hinda Kahn, Charles Benton, David Lindeman, Lavern Loving and John Kennon.

John Little, Don Zimmerman, Larry Davis, Diane Groth, Dennis Thiel, Barry Corbin, Lourie Johnson, Jayne Phillips and Tony Kostka finish the cast.

Two members of the cast have appeared in all four of the productions this year. They are Barry Corbin and Charles Benton.

Tickets go on sale April 24 in the speech building. Admission will be one dollar or ID.
