

Housing Outlook Is Bleak

By GRETCHEN POLLARD
Toreador Staff Writer

The campus housing situation looks crowded now—but don't look for any improvement next spring. According to H. L. Burgess, director of room reservations, the dormitory shortage will continue to

be a problem for many years, and the spring semester will be no exception.

"We will have a full house again this spring in both men and women's dormitories—there is no doubt about it," said Burgess.

At the present time, all women's

residence halls are filled to capacity—2,010 total, with many living three to a room in Knapp Hall and Horn Hall. Since 40 students either didn't show up or have already dropped out, there is now enough space only to split the "tripled" rooms.

"We had enough women by Feb.

1 to fill all the residence halls to capacity," remarked Burgess. "Over 750 students were on the paid waiting list—and I'm sure we placed 450-500 of them in the dormitories."

"We would have had more than that if we had space for them all," he added.

In the men's dormitories, which provide space for 2,474 students, only five rooms are still unoccupied. Exactly 2,464 men live on campus.

Burgess said the spring shrinkage would not alleviate the situation completely. Those living in dorms at present will be automatically contracted for the spring semester unless they notify the office of room reservations for other

plans. Deadline for breaking contract is Jan. 10, 1963.

He added that he has already received numerous deposits from new students and transfers for the spring semester. Those who are on the paid waiting list will be assigned a room according to the numerical order deposits are received.

The new women's dormitory, now under construction, will house 808 coeds and be open for occupancy by September, 1963.

"The new dorm will help the girls' situation—but won't eliminate it. We could have filled it this year," Burgess observed.

Asked if he had the solution to the housing shortage, Burgess replied, "I don't think anyone has now."

No. 15

Advertising Projects Need Publications Committee OK

All campus organizations considering projects which involve the solicitation of advertising are urged by the Student Publications Committee to become acquainted with the rules for such projects.

According to the Student Publications handbook, the first step toward approval of student publications which involve solicitation of advertising and sales for part or all of the cost of publication is to submit the organization's proposal to the director of publications, Phil Orman.

POINTS TO BE considered in the proposal for publication include the schedule of charges. Charges should be so designed that the maximum income from advertising and the sale of such publications will not exceed the cost of publication.

No budget showing a net income will be approved. No agent of the issuing organization shall make any personal financial gain from his selling activities.

No signature advertising can be sold without approval of the Student Publications Committee.

APPLICATIONS FOR approval of advertising solicitation can be picked up in the office of the director of publications. These should be submitted for approval to the Student Publications Committee.

Such applications should describe the nature of

the publication, state the proposed budget and carry the approval of the dean concerned and of the Student Council.

The application should be given to the committee not less than two weeks prior to the date of issuance of the publication.

The representative of the organization submitting the application will agree to submit at the close of the project a financial statement showing an exact accounting of all funds secured through advertising and sales and certify that the maximum income from advertising and sales has not exceeded cost of publication.

THE AGENT OF the organization which requests permission to solicit advertising must also be approved by the Student Publications Committee. Approval will be given in the form of a card of introduction declaring that the student is a bona fide agent of his organization and empowered by the Student Publications Committee to solicit advertising for the project in question.

The Student Publications Committee consists of three faculty members and three student members.

Dr. E. A. Gillis, English department; Dr. Reginald Rushing, accounting department; and Ralph Sellmeyer, journalism department compose the faculty members. Pam White, Royal Ferguson and Larry Gibbs are the student members.

Tech Will Participate In G.E. College Bowl

Texas Tech has been picked as a participant in the nationwide General Electric College Bowl.

The G.E. College Bowl has been described as a "fun-game of knowledge."

The intercollegiate game is designed to test the ability of students to recall facts. Each week two colleges present teams of four "varsity scholars" each. They are asked questions drawn from such fields as American and European history; American, English and European literature; philosophy; science; current events; music; mythology; and the Bible.

MILLIONS OF viewers see the game played over television each Sunday afternoon. They join with the contestants in answering the questions picked from the 11 categories.

The fun-game of knowledge is appropriately named for it replaces on a competitive basis.

Dean James G. Allen, dean of student life, received additional information concerning Tech's participation in the bowl this week. Tech has been slated to participate in the bowl Feb. 17, 1963.

THE TEAMS COMPETE on behalf of their schools with the winner receiving for its school a \$1,500 scholarship grant. A \$500 grant is awarded to the runner-up for its school's scholarship fund.

The students who participate on the program and their coach receive a gift from General Electric. Also the four team members along with their coach travel to New York City at the show's expense.

THE GAME CONSISTS of two schools made up of four members each and also a moderator, who has general charge of the show operations and asks the questions.

The game is played on a time-element basis. A scorer-timer is in charge of keeping the score of each team and properly timing the competition.

Texas Tech will compete with one of the four schools scheduled before Feb. 17—Seton Hall, West Virginia University, Simmons College or Knox College.

U.S. Accuses Naval Secretary Of Treason

NEW YORK (AP) — Cornelius Drummond, a veteran of 16 years in the U.S. Navy, was indicted by a federal grand jury Friday on a charge of selling national defense secrets to the Soviet Union. He was arrested Sept. 28.

The FBI claimed that Drummond, as a clerical worker for the Navy in this country and abroad, had access to classified information, and that he sold it to the Russians over a five-year period.

If convicted under the indictment he could receive the death sentence.

Named as co-conspirators in the indictment were four secretaries of the Soviet mission to the United Nations, including two who were taken into custody with Drummond at a diner in Larchmont, N.Y.

The pair whom the FBI found in Drummond's company were Evgeny Protkorov, 31, second secretary, and Ivay Y. Vyrodov, 38, third secretary of the Soviet mission. They left the United States early this week, after the State Department ordered their recall.

Phi Eta Sigma Hosts Regional Convention

Texas Tech chapter of Phi Eta Sigma will host the regional conference of the eight Texas chapters of the freshman men's honor fraternity for the first time on Oct. 19-20.

Chapters from the University of Texas, Texas A&M, East Texas State, Southern Methodist University, North Texas State University, Baylor University and Texas Chris-

tian University will attend this meeting.

Ronnie Botkin, president of Phi Eta Sigma at Tech, said 40 or 50 visitors from the other chapters are anticipated as well as 40 or 50 Tech members. Those attending will register Oct. 19. That night a banquet will be held and the National Grand President will address the group. Other plans include a

model initiation and a panel discussion.

Oct. 20 there will be a breakfast and Tech will be host to visitors. The breakfast will be followed by two discussion periods. A coffee hosted by Alpha Lambda Delta is planned for the interval between the two discussion groups.

The group will attend a luncheon followed by a speaker. The closing

session with summaries and conclusions will complete the convention.

The convention will give visitors an opportunity to see the Texas Tech campus and the new facilities in Tech Union. It will also acquaint the chapters with each other. Visiting Phi Eta Sigma delegates will stay in the Pioneer Hotel, dormitory style, on Friday night.

Phi Eta Sigma is an honor fra-

ternity, for freshman men who make at least a 3.5 grade point average their first semester or a 3.5 average for their first two semesters.

James G. Allen, dean of student life, sponsors the Tech chapter which meets twice a year.

Raider Roundup

FRESHMAN COUNCIL

All newly elected members of the Freshman Council will meet Monday in the Ad Bldg. at 5 p.m.

ALPHA LAMBDA DELTA

There will be a luncheon meeting of Alpha Lambda Delta Tuesday in Room 205-6 at the Tech Union. All members are asked to sign up by noon Monday at the cashier's stand in the Union for the luncheon.

INTERNATIONAL INTEREST COMMITTEE

Ohmer B. Moody, field representative for International Living, will speak Monday at 4 p.m. in the Blue Room of Tech Union. Moody is sponsored by the International Interest Committee headed by John Moeser.

AMERICAN MARKETING ASSOCIATION

American Marketing Assn. will meet Tuesday at 7 p.m. in the Workroom of Tech Union. A movie, "Markets of the 60's," will be shown. Everyone interested is invited.

AMERICAN INSTITUTE OF PHYSICS

American Institute of Physics will show a film, "About Time," Monday at 7:30 p.m. in Room 44 of the Science Bldg.

ALPHA PHI OMEGA

All college men who have had previous training in scouting, who desire to render services on campus and who have satisfactory scholastic standings are invited to an Alpha Phi Omega smoker Monday at 7:30 p.m. in the upstairs ballroom of Tech Union.

TECH SKI CLUB

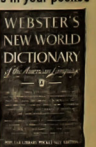

Tech Ski Club will meet Tuesday at 7:30 p.m. in Room 205-6 in the Tech Union.

It's up to stadium attendants to keep the playing field in good condition and free of dangerous objects. It's up to motorists to keep our streets and highways free of accidents which cause death and disabling injuries. The Texas Safety Association asks motorists to drive courteously and cautiously when leaving the stadium... Slow Down and Live!

PUBLISHED BY LIBRARY

Attention, all witty, urbane college students:

Get Lucky!

MAKE \$25 (or would you like to try for \$50?)

ENTER LUCKY STRIKES' ZANY NEW "Crazy Questions" Contest

(Based on the hilarious book "The Question Man.")

50 CASH AWARDS A MONTH. ENTER NOW. HERE'S HOW:

First, think of an answer. Any answer. Then come up with a nutty, surprising question for it, and you've done a "Crazy Question." It's the easy new way for students to make loot. Study the examples below, then do your own. Send them, with your name, address, college and class, to GET LUCKY, Box 64F, Mt. Vernon 10, N. Y. Winning entries will be awarded \$25.00. Winning entries submitted on the inside of a Lucky Strike wrapper will get a \$25.00 bonus. Enter as often as you like. Start right now!

RULES: The Reuben H. Donnelley Corp. will judge entries on the basis of humor (up to 1/4), clarity and freshness (up to 1/4) and appropriateness (up to 1/4), and their decisions will be final. Duplicate prizes will be awarded in the event of ties. Entries must be the original works of the entrants and must be submitted in the entrant's own name. There will be 50 awards every month, October through April. Entries received during each month will be considered for that month's awards. Any entry received after April 30, 1963, will not be eligible, and all become the property of The American Tobacco Company. Any college student may enter the contest, except employees of The American Tobacco Company, its advertising agencies and Reuben H. Donnelley, and relatives of the said employees. Winners will be notified by mail. Contest subject to all federal, state, and local regulations.

<p>THE ANSWER: A MONKEY WRENCH</p> <p>THE QUESTION: What would you use to tighten a loose monkey?</p>	<p>THE ANSWER: G.B.S.</p> <p>THE QUESTION: Can you name three letters besides ACDEFHIJKLMNOPQR TUVWXYZ?</p>	<p>THE ANSWER: <i>One Hamburger, One Frankfurter</i></p> <p>THE QUESTION: Where in Germany are your two friends from?</p>
<p>THE ANSWER: Alma Mater</p> <p>THE QUESTION: What is Pete Mater's sister's name?</p>	<p>THE ANSWER: <i>Night after night in that log cabin he studied by firelight</i></p> <p>THE QUESTION: Why is Abe's eyesight so poor?</p>	<p>THE ANSWER: a four-bagger</p> <p>THE QUESTION: What would you call a really strong cup of tea?</p>

The answer is:

Get Lucky

the taste to start with... the taste to stay with

The question is: WHAT CIGARETTE SLOGAN HAS THE INITIALS GL tttsw . . . tttsw? No question about it, the taste of a Lucky spoils you for other cigarettes. This taste is the best reason to start with Luckies . . . the big reason Lucky smokers stay Lucky smokers. This taste makes Luckies the favorite regular cigarette of college students. Try a pack today. Get Lucky.

Product of The American Tobacco Company—"Tobacco is our middle name"

MIXER ON ICE—Gordon and West Halls will mix tonight at Lubbock Iceland. Beginning at 7:30 p.m. West Hall coeds will meet in the dining room of Gordon. From here the residents of both halls will go to the ice skating rink for a mixer.

ADS Selects Fall Officers

Alpha Delta Sigma, a professional fraternity dedicated to bridging the gap between the business world and students studying advertising, has elected fall officers.

Wayne Schmitt was elected president, with Don Peel vice president, and Weldon Maxey and Don St. John, secretary and treasurer, respectively.

Alpha Delta Sigma, national advertising fraternity, plans activities for the fall semester that include field trips to various businesses that are associated with the advertising industry. ADS will also bring several widely-known speakers to the Tech campus.

An ADS smoker will be announced later for those interested in finding out more about the organization.

BUNNY GETS A HUG—The Playboy Bunny looks forward to tonight when the Delta Tau Delta fraternity crowns its "Miss Playmate." The Playboy Formal, first Delt dance of the year, will be from 8-12 p.m. at the Holiday Inn Parkway. Linda Padgett Ligon gives the bunny a bear hug.

LV Announces Sale of Pages

Organizations wishing to buy pages in the 1963 La Ventana should send a representative to Room 211 of the Journalism Bldg. as soon as possible.

These representatives may sign page contracts from 2-5 p.m. only, Monday through Friday. Each campus group planning to buy a page or pages should appoint a specific member to represent them in La Ventana matters throughout the year.

Page prices in Tech's yearbook are \$35 for a half-page, \$50 for a full page and \$100 for two pages.

Gaston Names New Officers

Juan Ramos, elected president of Gaston Hall last May, has announced the new officers for Gaston Hall.

Gary Smith was elected vice president; Bill Evans, secretary-treasurer; and Dick Ward, representative to Men's Residence Council.

Other hall residents nominated for the positions were Ed Halde-man and Jim Zurlis, vice president; Jeff Zander, secretary-treasurer; and John Pruitt and Ed Sullivan, MRC representative.

And Then

By JEANNIE BOOKOUT
Toreador News Editor

Making its debut amid the flurries and flourishings of last spring, **AND THEN** appeared on the so-called society pages of the **TOREADOR** and attempted to comment on the more serious side of college life.

BOLD BLACK type proclaimed such earth-shaking events as the switch to madris in campus wear and comments ran rampant on such renowned topics as the **BACCHANAL** magazine (which has come to an inglorious end and weekend social events at Tech (which are still going full wind).

However, **AND THEN** has gone the way all social columns in the "last year" category and has suddenly found itself replaced by a new social column written by a new social editor. Be that as it may, we are back again, this time free to comment on anything that might brightly come our way . . . so here we go.

AND THEN

TEXAS TECH STUDENTS were lampooned last spring for their so-called lack of "intellectual interest." Among the several opinions expressed by professors and one graduate student on Tech's intellectual shortcomings was the thought the **TECHSANS** care more about getting that well-known document entitled **DIPLOMA** than learning for the sake of learning.

Granted that few Tech students make a habit of leaping upon soap boxes and speaking of the higher realms of wisdom. Of course, the campus isn't **BESIEGED** by all sorts of clubs and groups seeking knowledge on subjects outside the required curriculum.

However, **IT'S HARD TO BELIEVE** that the only words which penetrate the skull of "the little man on campus" are **FIZZ, FEMALE AND FESTIVITY**.

AND THEN

What about the scores of students who attend group lectures on topics from Communism to religion? What of groups such as the Channing Club, the Cosmopolitan Club, Friday Noon Forum, The Young Democrats, The Young Republicans and the countless others who devote time to learning for learning's sake. What of all those students enrolled in elective courses just for the sake of learning about interests outside the required curriculum?

AND THEN

This is not the whole answer to the **CONSTRUCTIVE CRITICISM** offered by the panel last spring, and not all students, by a long shot, are a part of such groups. But, we insist it's mighty push ahead.

AND THEN

TECH IS NOT HARVARD. Tech is not Radcliff. But Harvard and Radcliff and the intellectual attitude which prevades both campuses did not come in a day. Such things take years to build.

Tech may not be Harvard or Radcliff, but Tech is well-rounded. And most Tech students who ever cared to think a thought know that some of the best jobs to be had are offered to the student who is up and about, belonging to social and service groups, particularly in all sorts of activities plus holding down good grades.

AND THEN

Along with criticism of Tech's intellectual climate, how about some practical ideas concerning it's plight along the road to higher goals in learning?

How about a few doors being opened for the average Techsian who doesn't care to spend all his time in a research room but would tear down the door to get into a class on **"COMMUNISM AND HOW TO FIGHT IT."**

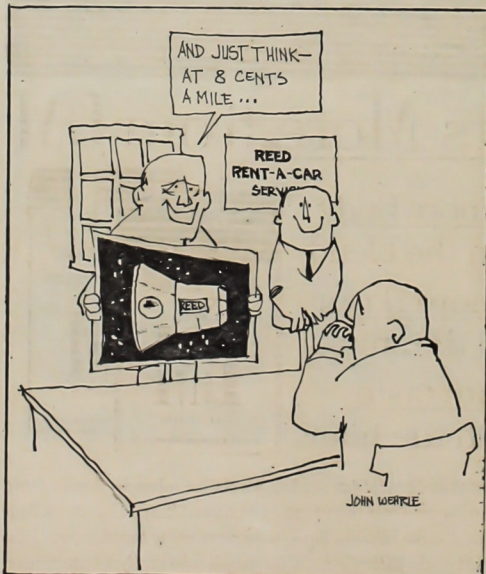

AND THEN

For example, it's safe to surmise that practically every student is avidly interested in Communism." They're told that Communism is "taking us over undercover." They're told that Communism "must be recognized and overcome." Everyone must "be informed on Communism and how it works."

If Tech students had the opportunity to learn about Communism, its evils, its methods, the ways to conquer it, in a class under a learned authority, a giant step could be taken on the road toward preserving democracy.

AND THEN

THERE'S A FEW WHO MIGHT BE SURPRISED at how many Techsians are interested in learning for the sake of learning.

Letters To The Editor . . .

Offers Suggestions

Dear Editor:

I am bringing to the fore again the annual parking problem discussion.

First I wish to refer you to the number of square units of parking space. This was taken directly from the booklet "Campus Traffic and Parking Regulations." By actual computation, the parking space on campus breaks down thusly:

- 37% Staff Parking
- 31% Off-campus Student Parking
- 32% Reserved Parking (counting area north of meat lab)

Now from figures published in the **TOREADOR** (Saturday, Sept. 28, 1962, Page 4, Column 1) there are 11,000-plus students at Texas Tech, conservatively I admit 11,500 students enrolled, and 700-plus faculty, optimistically I figure 800. A well known fact is that there is dormitory space for 4,500 students who (ha!) have no parking problem. I now direct attention to the fact that 7,000 students are unaccounted for. They comprise 90% of the parking public, while the faculty comprises the remaining 10%. Now ladies and gentlemen, the meat of the story.

Okay, the faculty has 37% parking for 10% parking public, which give a 27% surfeit. Now we combine the reserved parking areas with the off-campus areas and come to 63% parking for 90% parking public which is a deficit of 27%.

I rest my case, ladies and gentlemen, and hope that our administration will do something about the parking (including dormitories) in the future, as the problem will grow worse.

(Suggestions heard about the campus) (3-year aggregate)

1. Parking garage behind the Administration building (3 or 4 story).
 2. Elimination of plowed area west of meat labs and conversion to parking area. Surely a place can be found on Tech's 2,000-acre campus to grow flowers without using the 500 acres dedicated to higher learning.
 3. Campus bus system with one large parking area to the far west of the campus for elimination of cars on campus.
 4. Conversion of Textile-Administration grass mall to one row non-parallel parking on either side.
- George E. Robertson

(Editor's Note — Your figures might bear checking, but some of your suggestions are excellent. They have been forwarded to James Cole, Chairman, Student Traffic Committee, who has promised they will be considered. Thanks for writing.)

Charges Snidery

Dear Editor:

Inserted in your front page article "Ole' Miss Integrates," Tuesday, October 2, was the following irrelevant note:

"The Communist Party of America gave its full support Monday to President Kennedy in his intervention in the Mississippi crisis, but criticized him for tardiness in acting . . ."

I trust you may show reason for this, although it appears to me to be a bit of snide editorializing. What did the CPOA's stand have to do with the news you were reporting? Such tactics have about the same sort of effect you would get from reporting that "The inmates of San Quentin went on record as approving Governor Ross Barnett's opposition to integration." Relevant or not, such insertions have their prejudicial effect.

With the potential of the press to mold public opinion and in a crisis as explosive as that in Mississippi, we need unbiased and reliable reporting of the news. If there is

Critics Wrong Wrong Writer

A letter received this week sternly advocates that the **TOREADOR** Sports Editor sign his middle initial to all future stories.

The writer of the letter claimed to be receiving undeserved criticism concerning comments in recent front-page sports news.

Investigation showed that this was nothing new. Both graduates of Monterey High, the Sports Editor and the letter writer have been receiving each other's demerits and paying each other's library fines for years.

A phone call later from the letter writer indicated he had "blown off enough steam" and requested that the letter be withheld from publication.

Jim T. Richardson and Jim C. Richardson are still the best of friends.

—Ed.

editorial prejudice, reserve it for the editorial page where the reader is more prepared for it.

I am not criticizing what I feel to be a typical practice of the **TOREADOR**. In general, I think many of us agree that this year's **TOREADOR** is a well-edited and respectable college newspaper. But in the above instance, I think you deserve criticism.

Thomas Langford

(Editor's Note—The defendant pleads guilty to bad editing but not guilty to snidery or to editorial didacticism. The paragraph had no place in the story. It ran in the **TOREADOR** as it came from the Associated Press wire. Thanks for calling attention to this blunder.)

Promotes Two Parties

Dear Editor:

In Tuesday's **TOREADOR** you ran an article on an interview with John Connally, Democratic gubernatorial candidate. The last paragraph of this article contained Mr. Connally's comment on the question of a two-party state, and I quote from your paper: "I think it shows a basic lack of understanding of our government to say that we need a two-party state."

In my line of thinking, this is a preposterous statement! Mr. Connally is asking us to believe that we should forget the basic concepts on which a democracy is founded. Perhaps he wants the people of Texas to submit to a type of governmental control in which the minority group is completely forgotten and has no voice in the legislature.

Should this state be run by a single dominating party? No—it should be in the hands of a government run by two different and opposing political factions. Only in this way can our state have true representation of the people, in all legislation.

Texas has been a one-party state too long and the time has come for the people to wake up to what is happening to us. We must do all that we can to bring about a fair representation of the different political beliefs in government. We must not let our very lives be controlled by a single biased party, as Mr. Connally suggests.

Bill Holtor

(Editor's Note — Thanks for bringing this statement to the attention of Tech voters, many of whom, it is safe to say, hold at opposite point of view.)

ROTC Unit Pays Military Tribute

Texas Tech's Army ROTC unit will pay tribute today to Charley Munguia, 47, a decorated World War II veteran who died in Tahoe Oct. 3.

The Tyrian Rifles Drill Team of the campus Army ROTC will act as pallbearers during the funeral services today at Our Lady of Guadalupe Catholic Church, Tahoe. Staff Sgt. Howard Alderman, U.S. Army ROTC instructor at Tech, will serve in the color guard at the military funeral.

Recipient of two Purple Hearts and two Bronze Stars in Europe Munguia was a war prisoner several months. He also wore the American Defense Ribbon. He requested a military funeral before he died.

'SP' Maid Of Cotton' Could Be Tech Coed

"From 'dem old cotton fields back home . . ."

Maybe. And then again she could be one of Texas Tech's lovely coeds. But either way, the 1962 South Plains Maid of Cotton contest is rapidly approaching and entry blanks are disappearing in great numbers into the hands of Tech coeds.

Contestants must be residents of the South Plains or residents of Texas attending a college in the South Plains. Necessary qualifications are that the girls be single, between the ages of 19 and 25, at least 5 feet 5 1/2 inches tall and born in a cotton producing state.

George Loveless, contest committee chairman, said "This year's rules have been extended so Tech coeds not living on the South Plains may enter the contest. We feel that this is a needed improvement."

Campus organizations are asked to sponsor girls in the contest, but contestants do not have to be sponsored.

All entry blanks must be in the Chamber of Commerce office, 902 Texas Ave., by midnight Oct. 31.

Koen's Studio will take individual pictures of each girl.

The contest winner will receive an expense-paid trip for two people to the national contest in Memphis, Tenn. The winner also will receive an all-cotton wardrobe. Second and third place winners are awarded gift certificates of \$200 and \$100 respectively.

The South Plains Maid of Cotton will be selected Nov. 13 in Lubbock Municipal Coliseum.

Appearances will be made by the girls in bathing suits and evening dresses before the panel of five out-of-state judges, who will also interview the contestants.

The Maid of Cotton Ball sponsored by the contest committee is planned for 8 p.m. Nov. 12 at the Lubbock Country Club.

Committee members representing Tech are Dean of Women Florence Phillips, Adrian Vaughn, director of public information and Kenny Abraham.

"We are looking for a national winner this year," Bob Poteet, committee member said. "I hope that Tech coeds will help us find her."

Techsans Sing Their Way To 'Barbershop' Scholarships

Two Tech students, Gene Medley and V. J. Lowrance Jr., have been awarded one-year scholarships by the Lubbock Chapter of the Society for the Preservation and Encouragement of Barbershop Quartet Singing in America, Inc.

Medley, son of Mr. and Mrs. Jack Medley of 2406 23rd, graduated from Lubbock High School and is presently a senior music education major. Lowrance is a graduate of Monterey High School and a junior music education major. He is also a member of the Tech Choir and Phi Mu Alpha, national music fraternity. He is the son of Mr. and Mrs. V. J. Lowrance of 2501 35th St.

more taste
 through the filter

It's the rich-flavor leaf that does it! Among L&M's choice tobaccos there's more of this longer-aged, extra-cured leaf than even in some unfiltered cigarettes. And with L&M's modern filter—the Miracle Tip—only pure white touches your lips. Get lots more from L&M—the filter cigarette for people who really like to smoke.

Ten Sophomores Win Honors Council Spots

A council to represent Techsans participating in Tech's two-year-old honors program for superior students was elected Thursday night. Elected to the 10-man council were Steve Magee, Steve George, Nannaska Nall, Rondall Jones, Bill Helms, Penny May, Leta Stewart, Kay Thornton, David Towns and James Ward. All are sophomores. The honors program is composed

of two groups, freshmen and sophomores who participate in a program of special classes and courses. The student honors council is the result of more than a year's work by the honors students to found an organization to serve as a liaison between them and the faculty honors council.

Plans are being formulated to have the council act as: 1. a coordinating body, 2. a cohesive force, 3. a liaison, 4. an organization to provide honors program activities outside of the regular college curriculum.

A tentative program of lectures and colloquialness has been planned by the honors students. Sunday at 2:30 p.m. the group will sponsor a discussion for honor students in the Tech Union.

Magee and Kay Thornton, council members, were elected president and secretary, respectively, by their fellow members. Stephen George was named vice president.

Angel Flight Names New Drill Team

Eighteen Tech coeds were chosen to fill and expand the rank and file of the Angel Flight drill team, it was announced last night.

According to Captain Bill Williams, flight sponsor, the full amount of girls needed were not taken so that the Angels could expand next spring.

Those girls being accepted were: Beverly McMurry, Johnnie Lu Raborn, Carol Tubbs, Sheila Helbing and Joyce West. Also entering will be Jane Sosnowy, Bonnie Striedel, Katie Mosely, Camella Moore and Janet Myers.

Other names include Carolyn McDuff, Jane Loughmiller, Kathy Lalla, Kay Holdy, Linda Earle, Elaine Crawley, Charlene Butler and Betsy Wilson.

The girls were selected on the basis of poise, ability to greet people, personality, posture, marching potential and a general appearance. The prospective entrants went through a series of drills, eliminating all but 34 out of the group of 125.

The next elimination cut the number down to 24. A panel interview was then set up for each finalist so the members could get a chance to meet them personally. From these the 18 new members were chosen.

Human Noted As 'Animal Having Prettiest Female

By ROSS SWEAT
Toreador Staff Writer

As the only branch of the animal kingdom with a female more attractive than the male, we as humans are likely to forget that even the female can be bedraggled in the early morning.

The male, for sure, is a mess. He needs a shave. Not a particularly graceful creature to begin with, he is prone to stumble toward a shower and a shave.

With the eyes partially glued with sleep it is not unlikely that the man's inability to see his face in the mirror will result in a razor nick. While trying to stop the bleeding with one hand, he must brush his teeth with the other.

Besides tooth paste never tastes good. In the morning a dry mouth makes the taste taste gummy and strong. And breakfast before a shower is unthinkable. It is hard enough to find the shower, let alone something as small as a mouth.

With all these problems it is not unusual that men seldom consider the women's troubles. Add to this a bachelor has little chance to observe the female as she arises. Any ideas of her morning appearances are based on pure assumption.

Let us assume only that the

woman has sleep in her eyes. The rest falls into place.

The woman must manage to remove those bulky rollers from her hair. No matter whether they are large and bushy or pink and small the catch on them is sure to elude sleep-numbed fingers.

The shower is surely as elusive to the sleepy female as it is to the male. And does tooth paste taste good to anyone?

Today's woman—be she coed or housewife—depends on a long list of cosmetics to aid her natural beauty. How does the woman feel when she smudges her lipstick or slips with her eye brow pencil and makes a mark from the corner of her eye to the tip of her chin? Her curses might well drown out those of the razor-nicked male.

Fads, of course, lay an extra layer on the over-burdened woman's morning load. They admit in secret that now they wear nylon night caps. Imagine, if you can, one of those caps pulled down over the eyes and ears of that cute blonde you saw yesterday.

To say that one carries the burden while the other has the easy road would be wrong. Man does not have to apply make-up, but what woman ever cut herself on the delicate tip of her chin? It would be better to admit that mornings please no one.

Careless Man Loses Twice

4513 Erath
Waco, Tex.
Aug. 31, 1962

Dean of Student Life
Texas Tech College
Lubbock, Tex.

Dear Sir:

I am writing in regard to a Tech ring which was found while I was on my vacation in Colorado. The ring bears the name HOWE or possible HOWC.

It is a class ring of '55, BS. I would appreciate knowing the address of anyone with this name or these classifications.

Yours very truly,
Kay Yarbrough

Mr. Robert Howe
Fort Worth 7, Tex.
Dear Mr. Howe:

I have received a very pleasant letter from Miss Kay Yarbrough, 4513 Erath, Waco, Tex., stating that while she was on vacation in Colorado she found a senior ring with HOWE inscribed inside the ring bearing a 1955 date. On checking with the Texas Tech Bookstore I find that you purchased such a ring in 1954. If this is your ring, perhaps you would like to write directly to Miss Yarbrough and give her an opportunity to forward the ring to you. You will no doubt be delighted to have it once more in your possession.

Yours very truly,
James G. Allen
Dean of Student Life

Dean James G. Allen
Dean of Student Life
Texas Tech College
Lubbock, Tex.

Dear Dean Allen:

Several weeks ago I received a letter from you informing me that my senior ring had been found by a Miss Yarbrough of Waco, during a recent trip to Colorado.

I inadvertently lost your letter or a copy of your letter to me, I would appreciate it if you would again send her address to me so that I may attempt to contact her . . .

Sincerely,
Robert C. Howe

3916 Micki-Lynn Avenue
Fort Worth 1, Tex.
Dear Mr. Howe:

Your letter of Sept. 27 has reached me, and I learn with interest that you not only lose rings; you lose letters too.

Miss Kay Yarbrough's address according to her letter of Aug. 31 is 4513 Erath, Waco, Tex. I am sending her a copy of this letter lest some other mislaying delay your getting your senior ring back. By implication I am asking Miss Yarbrough, should you fail to contact her in the next 10 days, to mail the ring to you anyway. Perhaps this is the surest way she can divest herself of a ring that probably doesn't fit any one of her fingers and get it back to its rightful owner.

Yours very truly,
James G. Allen

Raiders Set For Aggieland Trial

By JIM RICHARDSON, Toreador Sports Editor

COLLEGE STATION—J T King and his Red Raiders have moved into this south Texas town with sights set on a 60-minute meeting with a group of Texas A&M farmers tonight at 7:30 p.m. at Kyle Field.

It's home coming of a sort for King and a couple of his grid assistants. The Raider head moved to Tech along with Willie Zapalac from assistant coaching positions at A&M not too many years past. And another Tech assistant, Jim Wright, quarterbacked the Aggies during his college life as a student.

There's another familiarity between the Southwest Conference foes. Neither school has won a football game in the 1962 campaign. A&M fell to LSU, 21-0, while the Raiders were coming out in the short end of a scoring duel with West Texas State.

And last week the Farmers suffered a mild upset at the hands of Houston, 6-3, the same night that Tech dropped a tough one to the nationally ranked Texas A&M Longhorns.

The Raiders will take the field tonight with last year's 38-7 loss to the Aggies in mind. And looking at past records, the favored Cadets might be flirting with an upset. In 1959, a lowly Tech squad met the always-tough Farmers in Dallas and flew back to Lubbock with a 20-14 victory.

The first conference game between the state-supported schools in 1960 ended in a 14-14 tie, another shocker to the Cadet Corps.

New A&M football head Hank Foldberg will throw a wallop into the Tech line in the form of a trio of rugged fullbacks. Sam Byer, Lee Roy Caffey and Jerry Rogers form one of the toughest positions in the SWC. Byer is 6-2, 220 pounds, Caffey is 6-2 and another

220 pounds, and Rogers is a compact 5-10, 215 pounder.

But the Raiders can drop a big bomb, too, in Coolidge Hunt, the conference third leading ground gainer thus far this year.

Foldberg looks to the game as a big test for the Aggies.

"Tech has a much improved ball club over last year, a sound, good all-round team. They moved the ball well against Texas. We are anticipating a real hard tough football game."

In the same breath, Foldberg hopes the Farmers don't repeat last week's performance. "We beat ourselves," he said of the Houston defeat.

King has a tentative line-up with David Parks and Jerry Garrison at ends; Nathan Armstrong and Dennis Watkins at tackles; Kelly Mitchell and Robert Foster at

Tech-Aggie Film Gets Union Run

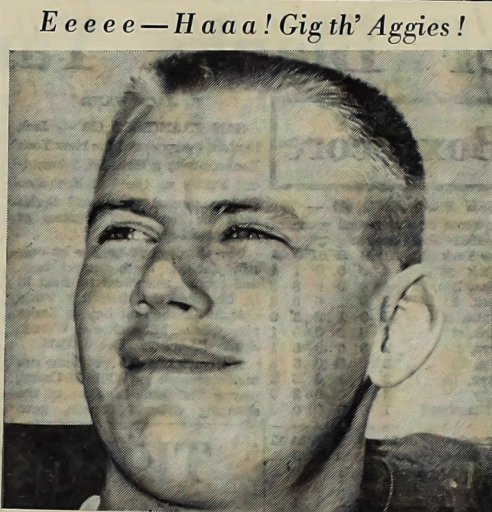

Films of the Tech-Texas A&M football game tonight will be shown Monday at 7 p.m. in the lower Ballroom of the Tech Union.

The film, co-sponsored by the Ex-Students Assn. and the athletic department, will show most of the action of the 21st gridiron meeting between the two state-supported colleges.

According to Wayne James, Ex-Student Assn. president, the film will be narrated by student coaching assistant Larry Mullins.

All Techsians are invited with no admission charge.

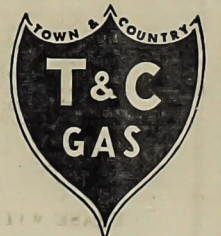

guards; C. C. Willis at center; Roger Gill at halfback; C. W. Williams at wingback; Hunt at full-back; and Johnny Lovelace at quarterback.

JOHN ERICKSON is one of the top obstacles Texas Tech must overcome in order to register its first victory of the season. The Red Raiders contest Erickson and his Texas A&M teammates at 7:30 p.m. today at Kyle Field, College Station.

The sturdy right-hander let only two Yankees reach second base, and one of them had to steal it, in blanking the defending world champs for the first time in Series play since Milwaukee's Warren Spahn did the job. Oct. 5, 1958.

A tremendous 450-foot home run in the seventh by Willie McCovey, playing first base in place of the slumping Orlando Cepeda, gave

Sanford an insurance run to back up the run the Giants got off Ralph Terry in the first.

Sanford, the top winner on the weary Giant staff with a 24-7 record, actually had the only run he needed in the very first inning as his overhand fast ball kept the Yanks under control all the way.

Until McCovey slammed his towering drive over the right field fence, it appeared that the run would decide the game. Chuck Hiller, leading off for the Giants, drove a long fly ball to right field on Terry's second pitch. Roger Maris raced after the ball and got it in his glove but couldn't hold it as he rammed into the right field wall.

Hiller wound up on second base with a double. Felipe Alou moved Hiller to third with a sacrifice and Matty Alou, his kid brother, grounded to Bobby Richardson, Hiller scoring on the play.

This was a tremendous comeback for Sanford who had been taken out of the second playoff game Tuesday with a 5-0 lead and a two-hitter. Manager Alvin Dark removed him after he walked the first man up in the sixth inning. Before his successors could get the side out the Los Angeles Dodgers had scored seven times.

The first hit off Sanford was a pure fluke. Tom Tresh bunted a pop fly back to the mound with one out in the fourth. Sanford

went back in a try for the ball, interfering with Jose Pagan's attempt to catch it. Tresh promptly stole second, the only Yank to reach that station until Mickey Mantle doubled with two out in the ninth.

Terry also had matched Sanford with a fine pitching job until McCovey hit his homer, the 41st home run ball he has thrown this season.

Referees carry red handkerchiefs as flags to signal violations of football rules during a game. The Texas Safety Association advises pedestrians to leave the red flags to the referees and carry white handkerchiefs at night as Signals for Safety.
