

Staff Positions Open On Toreador, L-V

Applications are now being accepted from qualified students for 13 paid staff positions on the 1965-66 Toreador.

All interested students should contact Cecil Green, next year's editor, or submit a written application. All forms should include classification, qualifications and job applying for.

Each applicant should indicate at least two jobs in which he is interested, in order of preference. Applications should be dropped in the editor's mail box in the Journalism Bldg., or given to Green personally.

Deadline for applying is noon Tuesday.

The jobs open include managing editor, assistant managing editor, news editor, editorial assistant, feature editor, sports editor, assistant sports editor, fine arts editor and five copy editors. Also available is the assistant fine arts editor post, which has no salary.

★ ★ ★

Nine paid staff positions are open for the 1965-66 La Ventana.

Applications for associate editor, copy editor and six section editors, a new position, may be submitted in the Journalism Bldg., room 211, with Diane Weddige or Winston Odom, co-editors.

Applications should list qualifications, new ideas for La Ventana, why the position is wanted, and La Ventana experience, if any. A 2.0 grade point is required.

Art editor applications should furnish examples of their work to the co-editors from 2-5 p.m. weekdays in the Journalism Bldg., room 211.

Corporation Approves Greek Land Division

Tech's Greek Housing Corporation Tuesday night with no dissenting votes gave the fraternities a green light to start platting lodge sites on Greek-owned land west of the campus.

The sororities however, decided

to wait until a later date to decide what they will do.

The corporation appointed a planning committee to draw up four or five plans for dividing the land. The proposals will be submitted to alumni advisors, and the corporation will discuss each one in a May 17 meeting.

Bylaws of the corporation requiring all members to install utilities at the same time were amended to allow fraternities to move ahead of the sororities. Utilities must be installed within 90 days after the land is formally platted, according to Dean Thomas Stover, fraternity advisor.

After utilities are installed, Stover said, the fraternities can break ground anytime they're ready. He said he anticipated the start of some of the lodges this fall.

Stover said some of the frater-

nities had come to the meeting prepared to split the corporation should they not be granted the right to build without the sororities.

SC Officers

Study Elections

New Student Council officers are now working on revisions to the election code.

Roland Anderson, president, has asked faculty and staff members to send their opinions on possible changes to the Council office.

The election code is being revised because of complaints voiced during the recent elections and campaigns.

REFRESHING PAUSE — The rise in Wednesday's temperature caused sophomores Janis Higgins, left, and Jeanne Malick to pause from their sunbathing to cool off in a water sprinkler. Wednes-

day's temperature climbed into the high 90's, bringing summer-like weather to the Lubbock area. Scores of students migrated from the dormitories to soak up some of the sun's rays.

Language Students Honored At Dinner

Scholarship winners and outstanding linguists in their respective fields shared honors at the annual Foreign Language Awards Dinner Tuesday in the Union Ballroom.

Betty Jane Smith, Dallas junior, and Jacqueline Pardue, Fort Worth junior, were named recipients of the Roscoe Wilson Memorial Scholarships for 1965-66. Each scholarship carries a stipend of \$270. Mrs. Wilson made the presentations.

Miss Smith, a German major, also received the book award of the National Council of Delta Phi Alpha (German honorary) for meritorious achievement in the field of German. She is the newly-elected state vice president of the Texas Association of German Students and president of Tech chapter of Delta Phi Alpha.

Miss Pardue, a Spanish major, also received the French embassy medal for excellence in second-year French. She is a member of Sigma Delta Pi, Spanish honorary, and a graduate of Monterey High School.

Runners-up for scholarship honors were Rebecca Hord of Lubbock and George Camp of Amarillo.

Dr. S. M. Kennedy, dean of the School of Arts and Sciences, was banquet speaker. Guests were introduced by Dr. Harley Oberhelman, head of the department of foreign languages. Charles Watkins, Lubbock sophomore, was master of ceremonies.

Awards were presented for excellence, at various levels, in each of seven languages: French, German, Greek, Latin, Portuguese, Russian and Spanish.

Cited for excellence in French were: first year—Caroline M. Shull, Virginia Louise Viets, Joyce Ann Hilker and Marguerite Diana Muilman; second year—Miss Pardue, Keri Anderson, and Emily Calhoun; third year—Eugenia Frances Odell, Sandra Scroggins, Leo Whitman; fourth year—Miss Hord and Jeri Susi.

Recognized for top performance in German were: second year—Nan Faulkner, Kay S. Irwin, Mike J. Meek, Susan Roe, Woodie D. Scott and Thomas N. Williams. George S. Camp received the Lucian Thomas Leadership Cup and

Sue Richmond the Dr. William F. Anderson cup for excellence in German in the pre-med curriculum.

Cited for excellence in Greek were Emily Loudon and Mike Halsey, first year, and Trisha Young and Maegene Nelson, second year.

Latin honorees included Carol Almack and Karen Silvius, first year; Carol Hilton, Dan Lee Hawkins and James Larey, second year; Julie Parkinson and Charles Watkins, third year, and Nancy Watson, fourth year.

Awards for excellence in Portuguese were presented to Joan Elizabeth Watson, first year, and Joyce Lee Bench, second year student.

The certificate of merit from Novoye Russkoye Shovo, oldest Russian newspaper in New York, went to Leo A. Whitman, a first year student in Russian.

Outstanding students in third year Spanish included Jan Carpenter, Lenin Juarez, Zora Gifford, Concepcion Coll and Ronald J. Salladay. Cited as outstanding undergraduates who plan to teach Spanish were Juan Rodriguez and Joan Watson.

Sigma Delta Pi honor awards went to Libby M. Collins, cited as the best undergraduate member, and to Irma Nelda Galindo, best graduate member. Both are of Lubbock.

Union President Reviews Campus

Has democracy failed at Texas Tech? Has the Board of Directors stifled education here?

Steve George, retiring Tech Union president, says "yes," and advocates a new "university community" philosophy for Texas Tech.

Read his thought-provoking address on today's editorial page. George discusses campus behavior rules, AWS, dormitory policies, student government, the student newspaper and other topics.

Old Controversy Renewed Over Women's Dormitories

By MIKE MILLSAP
Staff Writer

An old controversy at Tech has been renewed—women's residence halls.

Tech women began signing next year's room contracts Tuesday. The designation of certain dorms as freshmen dorms and others as upperclassmen dorms is the problem.

Many of the upperclassmen feel that the freshmen are getting the best facilities while they, the upperclassmen, are being shuttled off into the dingiest quarters on campus.

The dorms in question are West, Wall and Gates Halls. West Hall is to be opened to only upperclassmen women at the beginning of the next fall semester.

Hubert L. Burgess, coordinator of dormitory room reservations, admitted that the rooms in West Hall were run-down and in need of repairs. He suggested that the dormitory's former inhabitants, the athletes, were responsible for the conditions of the rooms. Burgess likened the athletes to "bulls in a china closet."

Repairs to re-condition the rooms are, according to Burgess, impossible at this time because of inadequate funds.

Wall and Gates Halls are, again this year, being assigned to freshmen women. With two exceptions, Wall and Gates are identical to Hulen and Clements Halls.

These two exceptions are very large in the minds of many junior and senior women. The residents of Hulen and Clements are eager to point out that walking distance to the classrooms will exceed the distance from Wall and Gates as much as two miles in one day. The extra distance depends on the number of trips the student makes

in one day from her dorm room to the main campus.

The difference between the two large lobbies is also subject to frequent comment. The lobby of Wall and Gates is considered to be highly pleasing to the eyes and on the verge of being plush.

In Hulen and Clements Halls there is a multitude of jokes concerning the lobby and color-blind decorators. To the un-sophisticated viewer, the lobby is at least surprising.

Traditionally, upperclassmen at other colleges are accorded extra privileges because of their status. At Tech, Wall and Gates Halls are popularly considered to be the best women's residence facilities, and West Hall is supposedly the worst.

Freshmen women are living in Wall and Gates and upperclassmen women are going to be living in West.

Molly Torrans, senior from Tyler, said, "The administration must think that the parents of the little freshmen wouldn't let them go to school if they had to live in one of the dilapidated dorms."

She also suggested that the near proximity of girls living in West to the men living in Sneed might "ruin their morals or something," at least in the opinion of school officials.

The reasons for official designation of certain dorms as upperclassmen halls and others as freshmen halls are not immediately apparent. Burgess said he knew of no particular reasons and furthermore was not consulted.

Mrs. Dorothy Garner, coordinator of women's residents hall supervision, indicated that the original decision was based on the large number of enrolling freshmen, and that Wall and Gates Halls were the only new space available.

Debaters Enter Tourney

Ten Tech debaters will leave today to participate in the Sul Ross Intercollegiate Forensic Tournament at Alpine.

Eight of the students are entered in debate on the national topic, "Resolved: That the Federal Government Should Establish a National Program of Public Work for the Unemployed."

Minnie Hogan, Odessa junior, and Margaret Eastman, Denver, Colo., sophomore, are entered in poetry interpretation and original oratory.

The debate teams include David Bradley, Dennison freshman and Chris Norcross, Dallas sophomore; Hal Upchurch, Kermit junior and Doug Andrews, Lubbock sophomore; Nan Todd, Vernon freshman and Donna Parsons, Midland freshman; and Lyn McClellan, Gruver freshman and Carl Moore, Lubbock freshman.

Bradley, Upchurch and Andrews won top honors at the national tournament last week in Bloomington, Ind.

ORGAN RECITAL — Lillian Pierce and James Ball will present an organ recital at 8:15 p.m. today at the First Methodist Church. The recital is free to the public.

'Folk Mass' Is Scheduled For Sunday

A "20th Century Folk Mass" will be presented in conjunction with celebration of the Holy Eucharist (communion) at 5 p.m. Sunday at St. Stephen's Episcopal Church, 11th and Slide Road.

The theory behind this unique musical presentation accompanying the communion service, which will feature the use of several musical instruments, is that the music used at the Holy Eucharist in apostolic days was the normal music of the time.

Popular Music

It only became "church music" when it arrived with definite church associations in Western Europe where it developed into the Plainsong. In the title, the word "folk" is used to denote the normal, every day type of popular music.

The Rev. Allen Price, vicar of St. Stephen's, will be celebrant for the service, which will probably be the first complete Choral Eucharist celebrated in an Episcopal church in Lubbock.

Walter Marlin Trio

This performance will be accompanied by the Walter Marlin Trio, including Walter Marlin, bass, Mike Ragsdale, piano, and Jim Price, drums. In addition, Richard Grady, trumpet, and John Farrell, flute, will be featured in short solo "breaks" during the 150th Psalm.

Charlie Helmer will be cantor for the service and Bill Biffle will direct the choir and congregation. Dr. Judson Maynard will be the organist.

Choir members are Charlotte Compton, Mary Bentley, Lillian Pearce, Martha Krueger, Jean Hinkley, Imogene Holt, Gladys Maynard, Lovell Phillips, Sally Andrews, Richard Phillips, Charles Vandeventer, Dean Krueger, and Richard Grady.

The public is invited to attend.

Prof's Participate

Dr. Theodore Andreychuk and Dr. Beatrix Cobb of Texas Tech's psychology department are participating in panel discussions at the Wayland College Conference on Mental Health which opened Wednesday and continues through Friday in Plainview.

Dr. Andreychuk's subject will be "Utilizing Personal Resources in Promoting Mental Health." Dr. Cobb will discuss "Utilizing Rehabilitative Resources in Promoting Mental Health."

19 Tech Coeds Enter Maid Of Cotton Contest

Nineteen Tech coeds are entered in Contest which is sponsored by the South Plains Maid of Cotton Chamber of Commerce.

Preliminary judging will be May 3. Finals will take place at 8 p.m. May 4 in Municipal Auditorium.

Winner of the contest will receive a \$1,000 all-cotton wardrobe national contest in Nashville, Tenn., in December. The first alternate will be awarded a \$200 gift certificate, and second alternate will receive a \$100 gift certificate.

Contestants Listed

Tech contestants are Sherrell Andrews, Houston sophomore; Adele Cole, Lubbock junior; Carolyn Compton, Lubbock junior; Tonda Curry, Ropesville freshman; Kay Devlin, Lubbock freshman; Dinah Gray, Abilene freshman and Karen Kitzman, Bandera sophomore.

Lanell Lafon, Muleshoe freshman; Janell McDermand, San Antonio senior; Linda Mixon, Lubbock freshman; Kay Perkins, Petersburg sophomore; Joann Reynolds, Morton sophomore; Ann Rice, Bay City junior and Shirley Stafford, Roaring Springs freshman.

Denese Stevens, Childress freshman; Nell Stokes, Garland freshman; Nan Todd, Vernon freshman; Christie Wood, Amarillo freshman and Carol Woods, Dallas freshman.

FHA MEET

Texas Tech will be represented at the Future Homemakers of America state meeting in Dallas this weekend by Miss Marie Carano, member of the home economics education staff.

Lab Experiment

Volunteers Readied For Smoking Anxiety Test

By MARY ALICE NABORS
Staff Writer

Does the anxiety level of smokers change if the smokers are deprived of tobacco for a short period of time?

Sally Long and Len Schneck, junior psychology majors, hope to prove that the level does change. The pair, as a project for experimental psychology, is experimenting with a smokers' deprivation test.

They plan to give 30-40 volunteers a written test known as the Alpha Test, which was written by Arthur Sweney, associate professor of psychology. Volunteers will take the test in a group situation.

The test features questions on uncommon knowledge and shows the anxiety level of the person taking it. An example of a test question is: "How many years be-

fore there will be another war?"

Volunteers will then be asked not to smoke for five days. After that period they will take the test again. The last test will be compared with the first one to see if any change has occurred.

Miss Long explained the test is an experiment because it is not known if it is sensitive enough to show any anxiety change.

Three Groups

Volunteers range in age from 19-42 years and have been smoking at least two years. Most of the volunteers are city workers, college students and housewives.

Miss Long and Schneck have divided the smokers into three groups—light smokers, those who smoke less than a pack a day, moderate smokers, those who smoke about a pack a day, and heavy smokers, those who smoke more than a pack a day.

The experimenters will compare the test scores of smokers at all three levels. Miss Long says she

expects to see a greater change in anxiety level among the heavy smokers.

Third Day Difficult

Another important factor is the length of time a volunteer has smoked. She said persons who have smoked over a long period of time will probably register the most significant anxiety level change.

Miss Long said that the third day of tobacco deprivation is usually the most difficult. The volunteers may not have as difficult a time during their deprivation period as persons who are trying to quit smoking, she said, because the volunteers know they can start smoking again soon.

"We can only speculate on the meaning of our findings," Miss Long said. She maintains that smoking is an outlet for anxiety, and the smoker is dependent on smoking.

The experimenters hope to have finished their experiment and reached their conclusions in two weeks.

Application Still Open For Grants

Tech students interested in AFROTC's new scholarship program will still be able to apply until May 5, according to officials in Tech's department of aerospace studies.

Approximately 1,000 Air Force ROTC scholarships will be awarded to selected cadets who will enter their junior year this fall. These scholarships, the first of a total of 5,500 annual scholarships authorized by the Air Force, are actually Financial Assistance Grants authorized by the recently enacted "ROTC Vitalization Act of 1964."

The Air Force will pay the cost of tuition, books, fees, supplies and equipment, plus a monthly retainer pay of \$50 for those cadets selected to receive the scholarships.

In addition, the Air Force's new two-year commissioning program now opens the door for students who did not elect to enroll in ROTC during their freshman and sophomore years. This means that juniors, seniors, or graduate students who have two years of academic work remaining may now apply for the two-year program.

Students interested in either the new scholarship program or the two-year program must successfully negotiate the Air Force Officer Qualifying Test. This test will be administered on campus April 22 and May 4. Interested persons should contact the department of aerospace studies, Ext. 2145.

George Advocates 'University Community'

(EDITOR'S NOTE: The following very important address was given by Steve George, retiring Tech Union president, at Tuesday night's awards banquet.)

By STEVE GEORGE

To most people, a university is the place where young people, having completed their secondary education, come for additional skills, knowledge and training.

However, a university should be much more than an institution for the preservation and extension of knowledge. It should be, as Woodrow Wilson said, a "Community of Scholars."

Included in this view of the university as a community (composed of students, faculty and administration) is the assumption that the several groups are working in cooperation in pursuit of the objectives of the university. There are, of course, differences in the nature and purpose of a campus community as opposed to a community in the commonly-accepted sociological sense.

But in a country devoted to democracy it is fundamental that student participation in university administration operate in a democratic framework. One of the basic needs of Texas Tech then, is to give students an understanding of democracy in both theory and practice. The university community should be a training ground for responsible democratic action.

And the principles of democracy in any community simply cannot exist in a vacuum or on a sheet of paper. They must be associated with cooperative action.

That is, students must be given opportunities to assume responsibilities in the university scene if they are to develop leadership. And this responsibility must be related to actual functioning of the university—not just "student activities."

There must be a basic belief on the part of the administration that the student has a real contribution to make toward college policies, goals and programs. And unless the basic philosophy of this cooperative action is endorsed wholeheartedly, this conception of the university as a democratic society will be lost and with it will be lost one of the most important social obligations Texas Tech has.

Although there are many administrative areas in which Tech students participate at a significant and meaningful level, in many other areas there is much room for improvement.

The first of these areas I would like to bring up are the policies and standards concerning campus behavior. First of all, I believe there should be less reliance on rules—which are nearly always narrow in scope and negative in nature—and more reliance on positively refined standards which set goals but allow the student some discretion as to the means available to reach that goal.

In any event, the policies regulating campus behavior should be developed by student and faculty groups. There must be no administrative veto power over these groups, decisions—as, for example, is the case at the present with the Association of Women Students. An administrative sponsor or advisor is fine and even advisable—but no organization should be a rubber-stamp congress—

else why the necessity for student representation at all?

And of utmost necessity, the decisions of AWS, and any other group concerned with creating regulations, should conform to the wishes of the student body—not the values and mores of the local community. I only ask you to put yourself in my shoes when early last fall I was forced to explain to Stephen Spender, the distinguished British poet, that the approximately 75 young ladies who walked out in the midst of his lecture were not being rude but merely had to be back in their dormitories by 8 p.m. How ridiculous!

Discussions and forums dealing with the attitudes, behavior patterns and social norms of the campus could be easily sponsored by the Student Union to give a more constructive approach to this problem. Of course, the students can be expected to be apathetic until they have some evidence that their ideas are respected.

Now as a corollary to the creation of regulations directly concerned with the student's social life, the students should also handle disciplinary problems arising from infractions of these regulations—thus eliminating any necessity for administrative action (except, of course, in extreme cases).

The dormitories, for example, should not be run as any local business concern as they are now, but must be regulated and disciplined by the ones most concerned—the students themselves. I think it can be agreed upon that the student housing facilities have a strong effect on the academic attitudes of this university, therefore every effort should be made to ensure a proper intellectual atmosphere—something that has been sadly overlooked in Tech's headlong rush to "expand" dormitory facilities (meaning to build more and larger living quarters—these again to be run as any other business concern). This has not demonstrated much "enlightenment" in this area.

Something we must not overlook is the effect that the philosophy of the Board of Directors, the President and other major administrators has on student participation in university government. For example, the Board of Directors attitude toward the concept of a "democratic campus community" has had much to do with its essential failure at Texas Tech.

In the past the board has shown a shocking disregard for the repeated and sincere requests of the majority of students, faculty and (I think) administrators. Their very real minority control in this "democratic" community is probably justified on the basis of wider experience and more maturity than the actual citizens of the community.

They obviously do not have any respect for the students and faculty at any level of experience and maturity. They are obviously blind to the simple fact that perhaps these "citizens" do have something to contribute and that decisions developed after mutual consultation are very likely to be much better decisions than those developed alone.

These attitudes have not passed unnoticed by the student body. And where the students are unable to participate in policy formation they may very likely express their views and dissatisfaction in the form of food riots, dorm raids and demonstrations.

Another student concern here at Texas Tech has been and must continue to be the student operation of the campus newspaper. It must continue to be a responsible, progressive publication, free from any outside pressures or coercion—a reflection and an expression of the views of the entire community. Above all, it must never have to be hesitant in its editorial policy for fear of losing needed appropriations (as occurred last spring).

Finally, a tremendous influence on the whole campus community is the Student Union. As the campus grows, it must grow also—both in the number and quality of programs presented, and in diversity of selection to include the whole range of community life. It must be a leader—never succumbing to mediocrity because it is demanded. Its purpose and function must be presented to the community in clear and unequivocal terms. It must do all of these things because it has taken these duties as its responsibility to the campus community—and it cannot ignore them.

Returning to the subject of student involvement in campus administration, it is obvious that the permanent staff is often annoyed by the student's participation. It probably means an increase in the amount of time necessary to solve the problem and a certain amount of trial and error involved. But we cannot advocate creative leadership as an ingredient in democracy and then not offer students practical opportunities to develop that leadership.

Often it may be stated that students are too immature to use good judgment even if they had the authority. But how can responsibility be taught without practical experience? It must be emphasized that trial and error is an integral part of our educational process. And certainly mistakes are better in the college community where they may be more easily corrected than for untested theories to be sprung on a less-tolerant and indifferent community.

Of course, if Texas Tech should become committed to increasing student participation in the university administration, it can naturally be expected of the students to accept their new rights with responsibility.

To me, this concept of a community within the university seems fundamental. The fact that students, faculty and administrators have been living in different worlds on the Tech campus has been evident in the past.

Unless close relationships and mutual understanding of honest differences of opinion can come about, then Texas Tech cannot best live up to its responsibility. The acceptance of the concept of a democratic, community government can do much to help solve the current situation at Texas Tech.

Charges Are Unfounded

CHARGES LEVIED AT the Student Council meeting that the Food Committee's report was misrepresented in the Daily Toreador are unfounded.

The entire text of the report was published verbatim. The only other article published about the report was a news story which was fair, objective and accurate.

Both articles were published in cooperation with the chairman of the Food Investigation Committee.

If the Student Council believes the report should be rejected as not representing student opinion, then that is their legislative prerogative.

The Toreador has not expressed an opinion either favoring or opposing the report. Therefore, we feel justified to be a bit upset by efforts to use the student newspaper as a "scape goat."

Too often, unfounded charges are made against this newspaper by persons attempting to evade responsibility or seeking some easy means for placing blame.

This newspaper will continue efforts to responsibly serve this campus community, and will not long tolerate charges of this nature which easily become the basis for arguments against freedom of the student press.

Phi Delts To Aid Boys' Clubs On Service Day

Members and pledges of Phi Delta Theta social fraternity will work at Lubbock Boys' Clubs Saturday during the organization's 10th annual Community Service Day.

Conrad Schmid, project chairman, said the group will clean up the area around the clubs and landscape the baseball diamonds. There will be 100 men participating in the project.

The fraternity will be divided into three groups. One group will work at the ABC branch, one at the Optimist branch and one at the South Plains Lions branch.

Chapter president Leete Jackson said, "The chapter will furnish all necessary equipment for the project, and all expenses of the enterprise will be borne by Phi Delta Theta."

One hundred twenty-five other Phi Delt chapters across the nation will be doing similar projects on the same day. The project was designed by national fraternity officers 10 years ago to perform a worth-while service to the community and to create a more favorable image of Phi Delta Theta.

Saturday Car Wash Set By CorpsDettes

The CorpsDettes, women's drill team, will have a car wash Saturday at the First Christian Church.

The coeds hope to raise money to pay for their new uniforms. Scabbard & Blade, who help to sponsor CorpsDettes, will assist with car washing.

Cars will be washed for \$1.

RAIDS CONTINUE

SAIGON, VIET NAM (AP)—U.S. and Vietnamese pilots continued Wednesday a series of raids in a campaign to make travel in Communist North Viet Nam as hazardous as that on the Viet Cong-menaced roads.

As an associate of National Personnel Consultants we offer employment service from coast to coast. Many of our positions are with national companies. If interested, come to our office for counseling.

Tulane Chemist Speaks Here Today

Dr. Hans B. Jonassen, head of chemistry at Tulane University, New Orleans, La., will be the principal speaker at the April meeting of the South Plains section, National Chemical Society, on the Texas Tech campus, according to Dr. Ulrich Hollstein, assistant professor of chemistry at Eastern New Mexico State University, Portales, N.M., and section chairman.

Dr. Jonassen will deliver an address on "Mossbauer Studies of Inorganic Complexes" at 7:30 p.m.

Thursday in room 101, Chemistry Bldg. Prior to his address, the visiting lecturer will be feted at a 6 p.m. dinner in the Tech Union.

In his presentation, Dr. Jonassen will enter into a general discussion of the Mossbauer effect and its application to various chemical problems. He is expected to give special emphasis to iron and tin compounds.

Dr. Jonassen entered Tulane in 1940, received his bachelor of science degree in 1942 and master

of science degree in 1944 before transferring to the University of Illinois where he earned his Ph.D. degree in 1946.

Since returning to Tulane in 1946 as an assistant professor of chemistry, Dr. Jonassen became an associate-professor in 1948, professor in 1952 and chairman of the department in 1962.

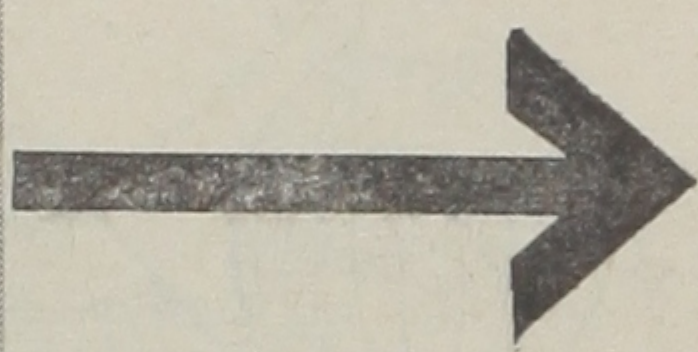

He has served in many consultant positions with private and governmental organizations.

AFROTC VISITS CAPITOL — Six Texas Tech Arnold Air Society cadets attended the society's national conclave last week in Washington, D.C. Shown above are Richard Ward, George Mahon (D-Tex.), Lt. Col. George R. Hull, Tech professor of aerospace studies, and Roland Davis. Also attending were Sewell Keeter, Winston King, Tommy Walker and Don Kennedy.

RAIDER LINKSMEN — The Texas Tech golfers host SMU Friday after a 10-day rest. Filling the four positions for the Raiders will be, from left:

Joe Huber, Jerry Hrniciar, Jimmy Wilcoxson and Steve LaCrone. It will be Huber's first appearance this season. He'll replace Rick Rogers in the lineup.

Assault On Records Slated

An all-out assault on the record at 14.2. Meantime, Verl Brown stepped a 13.9 at Houston as teammates Jimmy Wilkerson and Gary Collins were clocked in 14.2 and 14.7, respectively. On the basis of peak performances, the Owls would run the event in 56.7!

Ronnie Davis will represent Texas Tech in the mile after a sparkling 4:11.8 showing in the Kansas Relays last weekend.

Texas A&M's Randy Matson, a menace to his own world mark every time he puts the shot, will be performing at Des Moines, while Hurdler Bobby May leads a talented Rice troupe into Franklin Field that might well dominate the Penn Relays. Emmett Brunson's quartet of hurdlers are a threat to the 480-yard shuttle hurdle relay mark of 57.5 that was established by Winston-Salem on the same track in 1959.

Based on their performances of last week, the Rice hurdlers are capable of 57 flat, and May was .3 second over his season best in representing the Southwest Conference in the Drake show.

May, the NCAA high hurdles king, will be favored in his specialty, if he chooses to compete. It may be, however, that he will be utilized to help the Owls bid for top honors in the sprint medley and mile relays. The speedsters will be joined by Warren Brattlof, the Texas and Kansas Relays champion who will be seeking a third major pole vault crown this season.

Matson, who may be expected to create a new national collegiate record in the discus as well as the shot, will team with fellow-Aggies and stars from Baylor, SMU, Texas, Arkansas and Texas Tech in representing the Southwest Conference in the Drake show.

Clay-Liston Bout Ruled Illegal

MIAMI, Fla. (AP) — A federal judge has held that the Sonny Liston-Cassius Clay heavyweight championship fight in Miami Beach last year was illegal under Florida law.

In an order handed down two weeks ago and revealed Wednesday, Judge Ernest C. Choate dismissed a \$400,000 damage suit and questioned whether it was permissible to hold any boxing matches in Florida under the present state law, in view of the 14th amendment to the U.S. constitution.

Choate ruled in a suit filed by Intercontinental Promotions, Inc., against Miami millionaire sportsman William B. MacDonald Jr., and the New Amsterdam Casualty Co., who underwrote a performance bond in connection with the title fight won by Clay.

One Florida law bans boxing matches under a penalty ranging from fines of \$2,500 to \$5,000 but exempts matches sponsored by the American Legion, Veterans of Foreign Wars, Disabled American Veterans and similar groups.

Tell her you really care MOTHER'S DAY

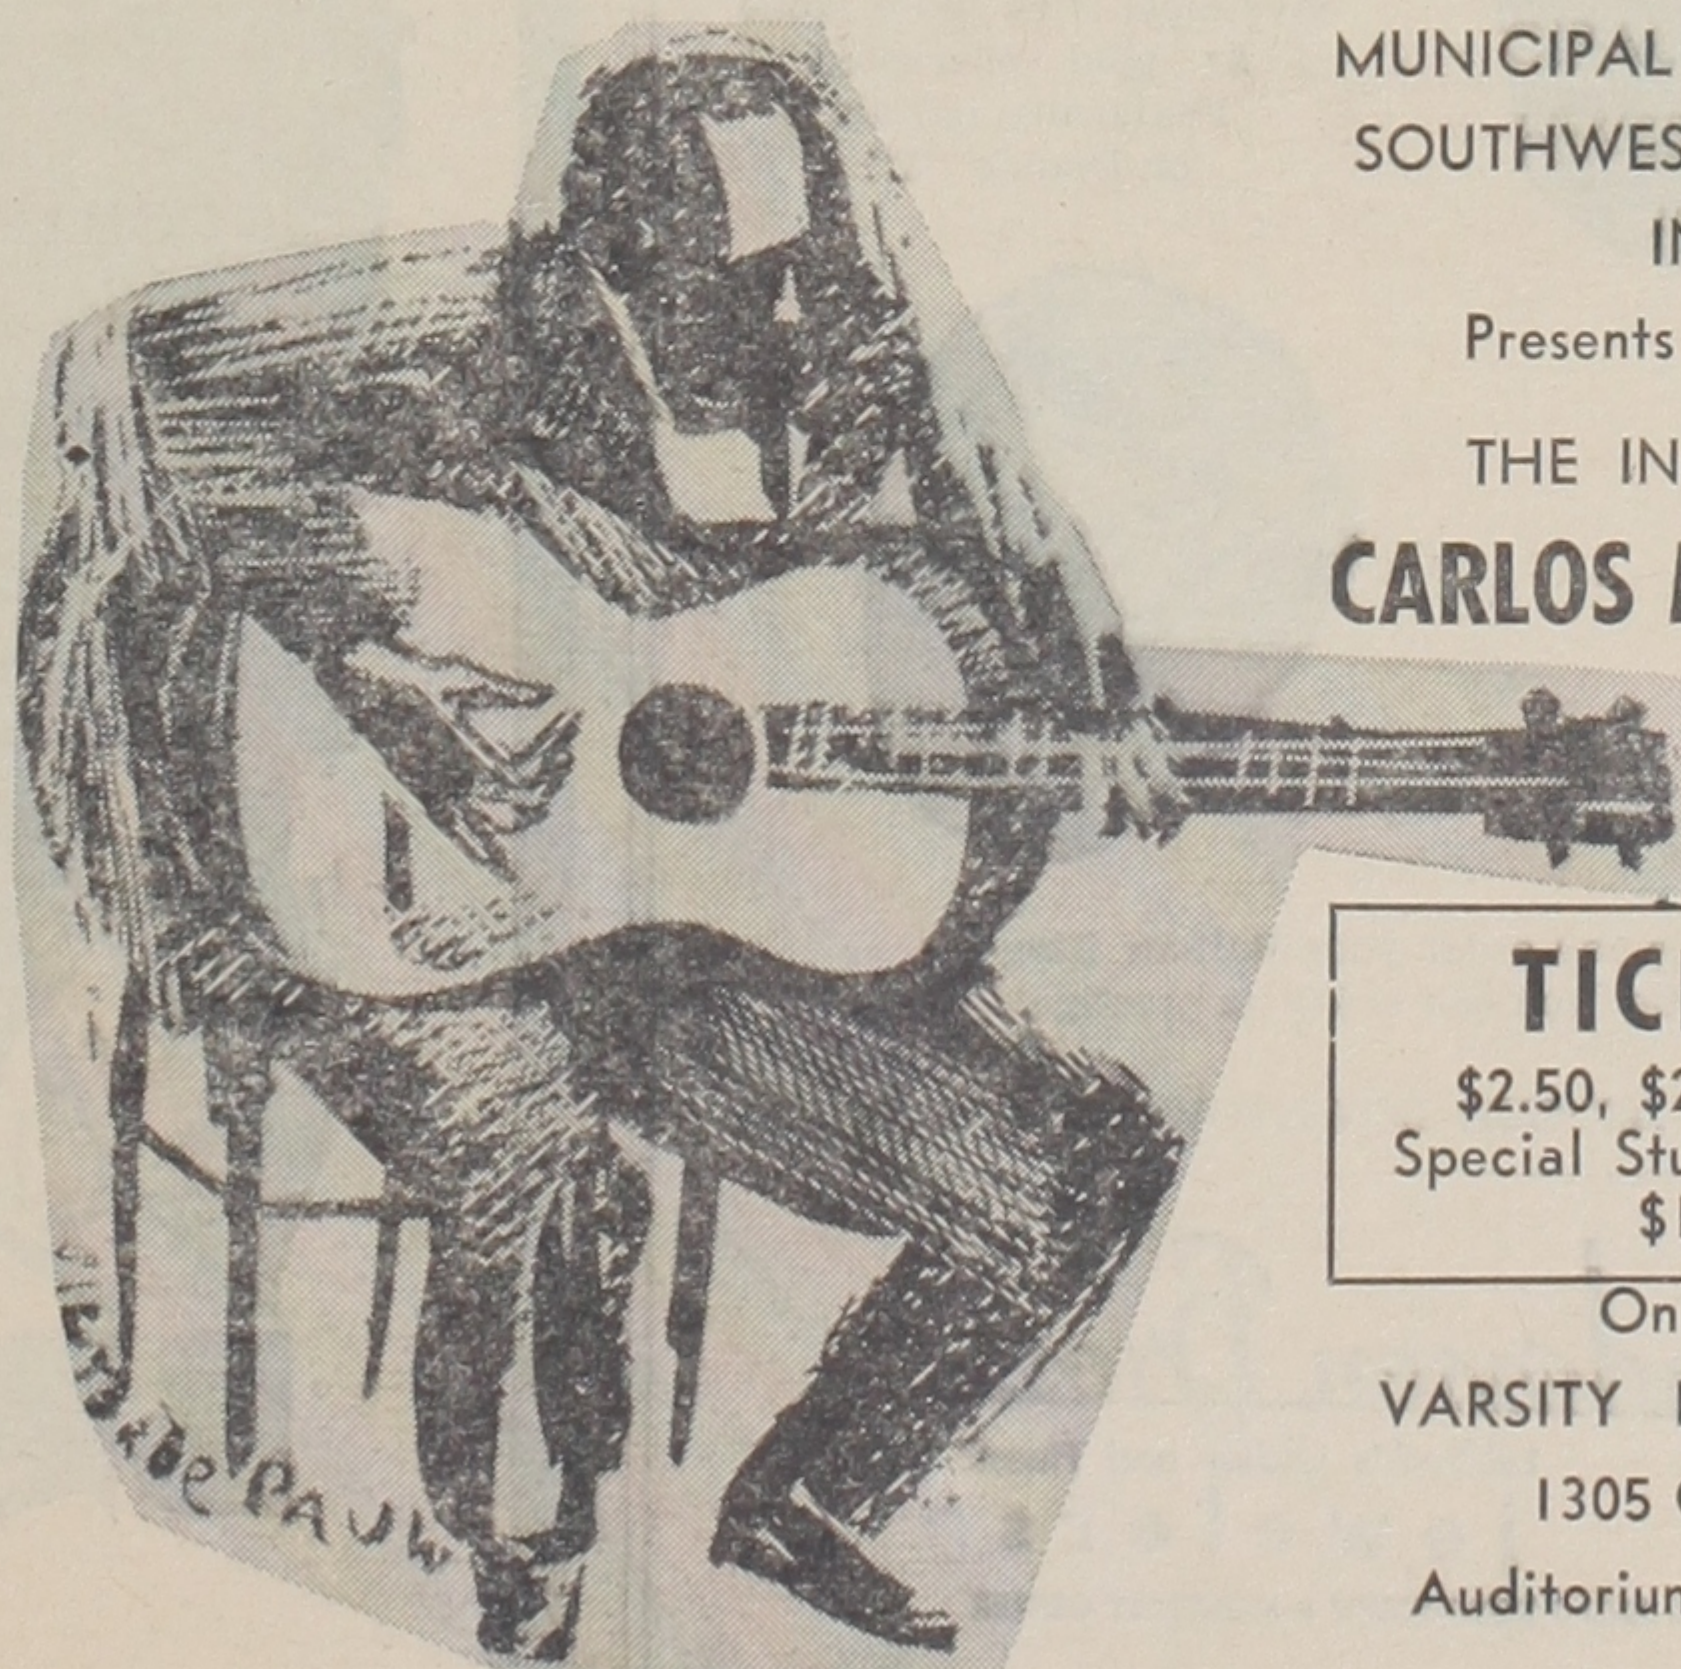

Most mothers cherish nothing quite as much as the memory of now grown children or the sight of growing grandchildren. If you'd wish, consider the real pleasure you can give this Mother's Day with fine professional portraits of yourself. It's the next best thing to being there, always, and it's a gift to say you really care.

ACCOUNTING SOCIETY

The Accounting Society will have a joint meeting with Beta Alpha Psi at 8 p.m. today in the Union Mesa Room. Pictures for La Ventana will be taken.

AMERICAN MARKETING ASSOCIATION

The BMA Advertising Agency will present a program on "Brier-croft's Advertising and Public Relations" to the American Marketing Association at 7 p.m. today in Furr's Tordeador Room in the Town & Country Shopping Center.

HONORS SEMINAR

Ronald E. Schulz, associate professor of speech, will address the Interdepartmental Honors Seminar this week. His topic, "A Perspective on Stanislavski," will present a discussion of the Moscow Art Theater, with emphasis on Stanislavski and his "method acting." The seminar meets at 11 TTS in the Ad Bldg., room 206, and is open to all persons.

SIGMA TAU DELTA

Dr. Monroe K. Spears, professor of English at Rice University, will speak at the annual Sigma Tau Delta awards banquet at 6 p.m. today in the Union Coronado Room. Spears' latest book, "The Disenchanted Island: the Poetry of W. H. Auden," is on sale in the Tech Bookstore. Spears will autograph copies of his book at the banquet.

PRE-LAW CLUB

The Pre-Law Club meets today at 7:30 p.m. in the Union Blue Room to make plans for a banquet and elect officers for next year.

WOMEN'S DAY

Tickets for the Women's Day Banquet are on sale in the Dean

of Women's Office, in the Union during the lunch hour and in the women's dormitories during the lunch and dinner hours.

Tickets are \$1.50. The banquet will be April 27 at 6 p.m. in the Union Ballroom. Speaker will be Dr. Bernice Milburn Moore, who is connected with the Hogg Foundation for Mental Health. All women students and faculty members are invited to attend.

MRC

The Men's Residence Council will meet at 5 p.m. today in the Union, room 207, to discuss the vending machine contracts for next year.

DOAK HALL

Officers and legislators for Doak Hall have been elected for next year. Officers are Jackie Pardue, president, Fort Worth senior; Shirley Allen, vice president, Dallas junior; and Penny May, AWS representative, Houston junior. Legislators include Lena Colvin, Judy Creel, Janis Higgins, Lana Jenkins, Joan Moberley, Georgia Parker, Mary Sanders, Shana Smith, Susan Thomason, Nancy Towner, Joan Watson, Peggy Webster, Anne Werner and Sujane West.

RELIGIOUS

INTEREST COUNCIL

Members of the Religious Interest Council will meet at noon today in the Union.

UNION MOVIE

"Come September," a recent movie, will be shown in the Union Coronado Room Friday and Saturday. The movie stars Rock Hudson, Gina Lollobrigida, Sandra Dee and Bobby Darin. Admission is 25 cents for students and 50 cents for all others.

CHANNING CLUB

Gordon Lee, government instructor, will speak to the Channing Club on "Obscenity and Censorship" at 7:30 p.m. Sunday in the Union Blue Room.

MORTAR BOARD

Mortar Board, senior women's service honorary, will have an orientation meeting for new members today in the Union, room 208. New members are supposed to come at 8:30 p.m., and old members will arrive at 7 p.m.

Summer Term Begins June 2

Registration for the first term of summer school at Tech begins June 2 at 8 a.m.

Students presently enrolled and planning to attend summer school are instructed by the Registrar's office to present their I.D. at the counter of Room 160 of the Ad Bldg. in order to receive a registration permit and residence verification card (form H).

May 3 Deadline

The deadline for the return of the completed cards is May 3. The permit card is to be returned to the Registrar, and the residence card is to be returned to the Dean of Men or the Dean of Women.

May 19 is designated as the first day for the distribution of validated registration permits. The permits will be distributed in Room 165 of the Ad Bldg. and will not be mailed.

Registration ends Thursday, June 3 at 5 p.m., and the Registrar's office stresses there will be no late registration.

Classes start at 7:20 a.m., Friday, June 4.

TAU BETA SIGMA and KAPPA KAPPA PSI

Tau Beta Sigma, band sorority and Kappa Kappa Psi, band fraternity, will have a joint meeting at 7:30 p.m. today in the Music Bldg., room 2.
