

# Tech Sun Princess Selected By Council

## Funeral Services For Zola Elliot Scheduled Today

Funeral services are to be conducted at 2 p. m. today at the Calvary Baptist church for Zola Mae Elliott, 21, June graduate who was killed Sunday morning in a traffic accident in New Orleans.

Miss Elliott was studying at the Baptist Theological seminary in that city. She was going in a station wagon to Sorrento, La., with four other seminary students to conduct religious services. A fire on an approaching car blew out, and the vehicles collided, reported police.

Born and reared in Lubbock, Miss Elliott was a member of the Calvary Baptist church and was training to be a missionary. At Tech, she was a member of the Baptist Student Union council and the Major-Minor club.

She received the degree of bachelor of arts in English in June, and was for a time secretary in the department of physical education for women.

Services today are to be conducted by Dr. V. E. Wolber, instructor in Biblical literature. He will be assisted by the Rev. Bobbie Bratcher. Burial is to be in Tech Memorial Park cemetery, under direction of Bryan McDonald and Son funeral home.

Survivors include her mother, Mrs. Callie Elliott, 1714 Avenue N; one sister, Mrs. Alton Clemmer, Hobbs, N. M.; one brother, Sgt. C. H. Elliott, jr., stationed at Walker Air Force base, Roswell, N. M.

The other occupants of the station wagon, all of whom were injured, were: Albert H. Hodge, Kenly, N. Car.; Mrs. Jewel Hodge, his wife; Mrs. Billie McCloskey, Tampa, Fla.; Fred Chestnut, Mobile, Ala. The driver of the car, Henry George Maurin, was reported to have received only minor injuries.

## TCC To Revise Constitution

Special meeting of the Tech Chamber of Commerce will be held Thursday at 7:30 p. m. in C-101, President Oscar Allen announced.

Revision of the TCC constitution, and appointment of a welcoming committee will be the chief business to be discussed, said Allen.

Among the proposed amendments to the constitution is an article which would provide for an advisory board within the chamber of commerce. This board would have the power to vote on minor business matters, thus saving time at the regular TCC meetings. Elimination of a salary for the secretary and a revision of requirements for TCC office holders will also be considered.

## SATURDAY SET AS DEADLINE FOR LA VENTANA PICTURES

Saturday is the deadline for having pictures made for the annual. Proofs of pictures made on the last day must be approved and returned to the studio by November 16, Bob Williams, La Ventana editor, stated Monday.

More than 250 students have not approved their proofs or have failed to return them, reports Floyd Koen, owner of Koen's studio.

Students who have proofs should return them immediately in order that their pictures may be put in the annual, Williams said.

## PAPER MILL VISIT PLANNED

Prof. O. A. St. Clair, head of the department of industrial engineering, has announced that he and approximately 15 seniors enrolled in industrial plant design 432 are to visit a Dallas paper mill Saturday. They are making the visit to the Fleming & Sons Inc. plant in order to see a paper mill in operation to help them in completing a design problem.

## 'Janitors Work Is Never Done' They Keep Campus Liveable

By JULIA SHORT  
Toreador Staff Writer

Have you ever wondered about what makes the physical life of the campus tick? Or, is that so obvious that you completely take it for granted? Well, obvious or not, janitors are the ones who make the wheels of the campus spin. What's more, they are people with definite personalities too.

W. W. Parker, the janitor on the basement floor of the Chemistry building is a good example. His office is a small nook under the stairs. It has a couple of straight-back chairs, an odd number of packing crates, a leather backed rocker, and a desk, not to mention an assorted number of mops, brooms and buckets.

One of the first things which catches your eyes, other than the neatness of his khaki pants, and brown shirt, is his fine sense of humor. He jokingly remarked that last summer he asked to have his office air conditioned, but that summer was gone, there was no air conditioner and now he is hoping for a heater.

He made the statement that, "man's work is from sun to sun, but janitor's, like wife's, is never done." This is a pretty good description of what his work is at 7:30 a. m. and ends some time after 6 p. m. The weather, it seems, is a

## Choice Of La Ventana Beauties Requires Additional Elimination

### Group Narrowed To 28 Girls In Sunday Judging

Second elimination contest for the 28 girls chosen from the 103 nominees for Tech beauty will be held at 8:00 p. m. tomorrow in J-208, Bob Williams, La Ventana editor, announced.

Only one elimination contest was originally scheduled, but due to the outcome of the judging Sunday it will be impossible to select 16 beauties without another elimination, stated Williams.

Beauty nominees who will compete in tomorrow's contest are:

Beverly Zeleny, Charis Mann, Betty Stewart, Johnnie Bice, Ida Walker, Glenna Winston, Pat Todd, Joan Booth, Gloria Lewis, Mary Hartgraves, Joyce Boren, Jan Riley, Lavora Manning, Patti Jo Musson, Barbara Williamson, Peggy Hicks, Pat Page, Shelley Furr, Velma Cummings, Cecile Butler, Josephine Catterton, Carolyn Koonce, Jo Ann Martin, Betty Jo Powell.

Judges for the contest tomorrow will be five Lubbock business people. Plans are underway to invite four men and one woman, Williams stated.

In Sunday's election the girls walked before the judges one at a time with only a number as identification. The judges then rated the girl on a point system. Facial beauty was the primary factor in rating the nominees with figure beauty coming second.

Judges for Sunday's contest were:

Lamar Jackson, Alpha Chi; Orlin Brewer, Toreador editor; Earl Lockhart, John Gillespie, College Club; Bill Gillespie, Centaur; Ralph Bucy, Sigma Tau Delta; Dean M. Allan, College club; Trent C. Root Jr., Wrangler; Don E. Sloan, Socii; Frank C. Judia, Flying Ts; Wayne V. Hamsey, Jr., Pre-Med club; Clinton Ritter, Block and Bridge; Eugene Streger, Gamma Delta; Franklin Grant, Toreador; Robbie Gill, Plant Industry club; Harvin R. Smith, Agriculture Economics club; Reginald Webb, F.F.A.; Bill Reid, Student Council; George Wilmoth, Kappa Beta Phi; A. Peters, A.S.M.E.; Richard E. Scaling, Silver Key; Stephen G. Johnston, Sigma Gamma Epsilon; Bill Stalls, Los Camarados; and Glen Lewis, Double T.

From the 16 girls chosen tomorrow, eight top beauties will be chosen by some nationally-known personality whose identity will be announced later, Williams stated.

The eight top beauties will be featured in the yearbook in order of their rank in the contest. Full page pictures will be used for most of them, Williams said.

## LA CERCLE FRANCAIS

La Cercle Francais held a meeting Tuesday evening to choose a play which the group will present this semester. The selecting of actors is now underway and all interested persons are requested to contact the club president.

RAVING JUDGES, as well as raving beauties were the order of the day at the La Ventana beauty contest Sunday. Here, Beverly Zeleny passes by, left to right, are judges Harvin Smith, Reginald Webb (Hidden), Bill Reid, George Wilmoth, Belton Peters and Richard Scaling. (Photo by Fred Gibson).

## Ag Judging Team To Be Selected

International livestock judging team members will be selected this afternoon after a workout and contest in the aggie pavilion, Ray C. Mowery, professor of animal husbandry announced.

N. J. Williams of Shallowater, a member of Tech's 1937 judging team which won the American Royal, will be a visiting judge this afternoon to select six men for this year's team. Livestock in the contest will include all types except horses.

The men who make the team today will leave Lubbock by car Friday week for the International contest in Chicago to be held Nov. 27. They will practice judging enroute.

Men competing for places on the team are: Woodrow Allen, William Atwood, Jack Burkhalter, Robert Cox, Jack Erwin, George Fisher, O. B. Freeman, W. D. Hancock, Jim Hutchins, Edd C. McLoery, Robert Mims, Charles Mitchell, G. E. Quattlebaum, Clinton Ritter and Rufe Taylor.

## Skeleton Is Found By Anthropologists

A baby skeleton, and some flint artifacts consisting of arrowheads, knives and scrapers, were found in Moore's Rock Shelter located about ten miles southwest of O'Donnell, Dr. W. C. Holden, curator of the West Texas museum, has announced. The excavating was done Sunday by 21 Tech anthropology students under the leadership of Dr. Holden.

The rock shelter was named in honor of Ben Moore of O'Donnell who discovered the shelter and reported his find to Tech officials. The shelter is approximately 110 feet long by 40 feet wide.

No pottery was found in the shelter and Dr. Holden believes that this is indicative that the material is probably pre-historic. Pottery is known to have existed in the Southwest for 1500 years.

The new shelter is within three and five miles, respectively, from the two "Fingerprint" caves which were excavated last spring. Different items were found in the new cave, but they probably represent the same culture, said Holden.

The material has been placed in the museum and will be utilized to make a report which will be published in the Texas Archeological bulletin.

## MOWERY COMMISSIONED AS INSPECTOR OF FLOCK

Ray C. Mowery, professor of animal husbandry at Tech, was commissioned by the Columbia Sheep Breeders association in Fargo, N. D. to serve as inspector of a flock of sheep owned by Otto Whitefield of Friona, Monday.

Whitefield, one of the few Columbia sheep breeders in Texas, intends to register 50 head of lambs and ewes this fall. The Columbia sheep, Mowery said, is a comparatively new breed still in the formative period and a thorough inspection is required in order to register the animals.

H. R. Burkhardt, assistant professor of animal husbandry specializing in wool, accompanied Mowery on the trip.

## From Cake To Lipstick, Or What Does The Buying Public Prefer?

By FRANCES CRUSH

cause of baking results. Only a few thought that advertising or reputation affected their purchase yet the experimental cookery class at Tech found no appreciable difference in baking results using five leading brands of flour. Two girls baked bread, biscuits, and muffins from samples of each of the five brands. The finished products showed much more deviation from the standard because of individual difference in handling than because of difference in brand name.

This study seems to indicate that afternoon radio dramas and a hillbilly band do swing a lot of weight with Mrs. Housewife, whether she realizes it or not.

The Tech coed was another under observation in the interest of economic science. Some questions regarding her facial second front were asked 100 students by Helen Calcote, another senior management major in the class.

Were you ever betrayed by your powder on a rainy day? Or do you want to know what brand of eye shadow the most prominent boxers wear? Miss Calcote can give you a ready answer to these or your own problems regarding make-up.

This investigator found that most girls use the brand of cosmetics they do because of habit. Thus statistics indicate that lipstick is habit-forming—just another vice along with coffee, cigarettes and 'whookey'.

The mill completely processes cotton sheeting and other textile products in its modern factory. Students inspected each phase of manufacture in their extensive tour.

The group was composed of classes in mill organization and yarn manufacture. They were accompanied by Prof. Bunton Shaffer.

## Tech Directories On Sale Saturday

Student Directories will go on sale in the Tech bookstore Saturday, announced W. C. Cole, bookstore manager.

The directories will be compiled in the same manner as they last year Cole said. They will contain a list of all students, their home addresses, Lubbock addresses, divisions, telephone numbers, and their classifications. They will also list faculty members, and all Tech employees.

The college mimeograph office is printing the directories this year, Cole stated. He said that they would be sold only in the Tech bookstore. The price will be 35 cents.

## YOUNG WILL SPEAK AT MEET

Dr. A. W. Young, head of the department of plant industry, will speak at the International Crop Improvement association meeting in Kansas City, Mo. to be held Nov. 30-Dec. 3.

## Mental Health Workers Needed

Tech students interested in psychiatry, psychology, social work and nursing may, after graduation, receive up to \$3,600 for training in one of these fields as some approved establishments.

O. L. Caskey, president of the Lubbock County Society for Mental Health, has announced.

Graduates may receive \$500 for fellowship and \$2000 for assistantship study. These appropriations were provided for by the National Mental Health act of 1946 under the auspices of the United States Department of Health.

Daniel O'Keefe, head consultant of the division of psychiatric health, visited the campus recently and told of the need for trained workers in these fields. He said that the Health act of 1946 was passed to improve the mental health of the people of the United States. The only requirement of persons taking this training is that they go into some phase of public work when finishing.

Anyone wishing information as to requirements, attends approved training establishments, and procedure for application should contact O. L. Caskey, department of education and psychology, with office in the guidance center.

## Jayne Thompson Wins Royal Role From Field Of Nine Contestants

By FRANKLIN GRANT  
Toreador News Editor

From a field of nine candidates, Jayne Thompson, senior from Vernon, was selected as Tech's 1948 Sun Princess by the Student Council Monday night.

Nominees for the Sun Princess included: Helen Beys, sophomore from El Paso; Mary Jo Phillips, junior from Amarillo; Pat Allen, freshman from Dallas; Cecile Butler, freshman from Lubbock; De Lois Utterback, freshman from Amarillo; Virginia Leonard, senior from Fort Worth; Betty Colquitt, sophomore from Wichita Falls and Joyce Boren, sophomore from Richland Springs. The Student Council chose the Sun Princess by secret ballot.

## Ex-Ray Reports Prove West Texas Healthy Climate

Of 3,656 persons who recently received chest X-ray examinations given at Texas Technological college by a mobile unit of the state health department, only 39 or slightly more than one per cent required re-checks, Dr. Embree R. Rose, director of the student health service at the college, reported Saturday.

Dr. Rose attributed the low percentage of positive reactions to the examinations here to the fact that West Texans spend much more time in the open air and do not live under crowded conditions.

Some of the 39 persons have reported for further examinations and so far none has been diagnosed to have active tuberculosis.

The state tuberculosis association in 1946 purchased the first mobile X-ray unit for use in the examinations with funds from Christmas seal sales. The health department's X-ray work is now supported by taxation.

Lubbock County Tuberculosis association, which for weeks has been preparing for the Christmas seal sales, announced Saturday that all letters containing seals which will be mailed to Lubbock county residents are ready for mailing on Nov. 22. Preparation of bonds to be sent to business firms, listing amounts the association hopes the firms will contribute, has not been completed.

## Mental Health Workers Needed

Tech students interested in psychiatry, psychology, social work and nursing may, after graduation, receive up to \$3,600 for training in one of these fields as some approved establishments.

O. L. Caskey, president of the Lubbock County Society for Mental Health, has announced.

Graduates may receive \$500 for fellowship and \$2000 for assistantship study. These appropriations were provided for by the National Mental Health act of 1946 under the auspices of the United States Department of Health.

## Students To Receive Mid-Semester Reports Nov. 24

Mid-semester reports are due in the registrar's office Friday, Nov. 20, stated W. P. Clement, registrar. Grades will replace the uncertain terms used in previous years but these will not become part of the permanent record, he stated. Students will receive their reports about November 24, estimated Clement.

## Techsans Prefer Mysteries, Men Do Most Of The Reading

By CHARLES H. SCHAFER  
Toreador Staff Writer

A prominent psychologist has stated that people who are inveterate readers of mysteries are suffering from maladjustment or some other psychoneurotic disorder. If this be true, then a large majority of Techsans must evidently be psychoneurotic.

bausa statistics released from the recreational reading section in the library show that mysteries are the favorite reading matter of Tech students.

Fiction, and especially historical novels, are the next most called-for books in the library. Men students check out more books than do their female counterparts. The ratio is greater than the campus and more studious, but it may be that women, being scarce, naturally spend more time in Aggie grove and other campus courting grounds.

"The Robe" by L. C. Douglas is a perennial favorite in the library more calls are received for it than for any other book. "Peace Of Mind" by Liebman leads the non-

The Sun Carnival, which will be held in El Paso Dec. 28, will house the princess in one of the leading hotels there at the expense of the carnival. She will attend the official functions of the Sun Carnival without expense to her. The float, on which Miss Thompson will ride in the parade, will be furnished by an El Paso sponsor.

The Sun Carnival queen will be crowned on Tuesday, Dec. 28, and following that, a unique and spectacular pageant will be presented before the queen and her court. The third event of the evening's entertainment will be the coronation ball with dancing to a big name band. Wednesday evening is reserved for the El Paso Symphony Concert, Saturday, Jan. 1, the last day of the festival, holds two major attractions for the Sun Carnival crowd: "Pageant of States" parade to be held in the morning and the Sun Bowl football classic to be played in the afternoon.

The time in-between the tradition Sun Carnival events will be filled with varied entertainment and unusual events produced by and for the people of the Southwestern.

Following the selection of the Sun Princess the Student Committee heard reports from the following committees:

**Budget Committee**  
Bill Reid, chairman, reported that the budget committee had checked on all vending machines on the campus and were preparing form letters, which would be sent to all organizations who operate these machines, requesting monthly reports on the amount of money taken in and what this money is used for. Furthermore, the committee is requesting detailed information as to the manner in which the individual clubs are operating the machines.

**Publications Committee**  
George Wilmoth, chairman, reported that in a meeting of the Publications Committee Monday afternoon it heard reports from the Toreador and La Ventana editors.

The La Ventana, he said, was up to par and expenses were running about normal.

**Beautification Committee**  
George Wilmoth, chairman, reported that the Trash receptacles which the Student Council ordered several months ago have finally arrived.

These receptacles will be placed in various spots on the campus in

See SUN PRINCESS Page 4

## 'The Ghost Train' Presented Tonight

"The Ghost Train", an all-student production, written by Arnold Ridley and sponsored by the speech department, will be performed for the second time tonight at 8 p. m. in the Lubbock High school auditorium. John L. Upshaw, lecturer in the speech department, is director of the play. Students are admitted on their activity tickets and public admission is fifty cents.

The mystery-thriller, presented last night in the opening performance, hinged around a legend of a ghost train and created an eerie feeling of suspense over the wide-eyed audience.

Students making up the cast are: Janet Moore, Alice oy Barron, Joe Garrison, Billie Hutchings, Don Sloan, D' Ruth Hopping, Jacob Sitters, Gene Roy Powers, Jeanette Lewis, Aubrey Thompson, Max Hardesty, and Roberts Bujac.

## Merely Texans? . . .

Much has been said and written about the rise in spirit shown here at Tech this year, not too much however, for there can never be too much talk of school spirit here or on any college campus. We are wondering though, if this spirit is only scratching the surface, or if it is the kind of spirit for which Tech was known before the war.

The test to determine just what kind of spirit we have will soon present itself. We are speaking of the coming class meetings which are due to start before long. Here is a real challenge to each and every person enrolled at Tech to come into the open. Too often during these past few years many of our class meetings have ended as "flops", all because of the lack of attendance (or should we call it a lack of interest). These meetings actually give a very great opportunity for a person to work for Tech and work hard. There are many unsung glories and thankless hours to be spent while working for your class, but it can give you a mighty fine feeling to look back and think of the many hours you put into make the Jr.-Sr. prom or the Sophomore hodge-podge a real success.

The president of the sophomore class has started the ball rolling this week by calling the first meeting of his class. Let's see how much true Tech spirit we actually have. It's a challenge to every sophomore to set a good example for the rest of the students on the campus and to prove that we do have the right spirit and are not merely Texans but Techsians.

## An Open Letter To Harry Truman . . .

Dear Harry,  
To a lot of us, you used to be a little man in a big chair, made even smaller by the shadow of your predecessor. We viewed you with suspicion and tongues in our cheeks. We had something in common with you. We were all "from Missouri."

We were playing "lemonade"—demanding that you show us what you could do when all the while you were like a fighter with one hand tied behind him.

Thank God for a good old American tradition, the tradition in our country which gives any man a chance to start out with nothing and go as far as he is capable. For without this you would never have had a chance to prove just what you can do.

We are all proud of you for proving once again that a real champion of the people can win the battle against all the odds. For such an act renews the faith of the small man in humanity.

Of course you have made some mistakes, but they seemed to be honest ones, not just political maneuvers. This was proved only too clearly by the desertion of southern party members because of your civil rights bill. This gives us the hope that given the chance, you will really be able to show us just what you can do with both hands—with support of the people and a Democratic Congress.

At one of the most crucial hours of the world you have the power to put into practice all the promises made in your platform—civil rights, repeal of the Taft-Hartley law, continuation of the European Recovery Plan, conservation of our natural resources, aid to farmers and the little business man. You have the power to do the world a lot of needed good.

So go ahead and show us. Show us just what you can do—because we're all still Missourians at heart.  
—J. S.

## Potpourri

By FRANKLIN GRANT

Dear Pot,  
During the homecoming weekend of great school spirit and good support of the football team we have fallen upon an idea to further promote school spirit on this here campus. We have great respect for the Saddle Tramps organization but we would also like to see the Tech women organize a sister group to go along with the Saddle Tramps. Although we realize that these women would like to choose their own name for the organization we would like to offer the suggested name of "Saddle Bags".

We would like to have your comments on this suggestion and also the opinion of some more of the students. We would like to have the opinion of a few of the prospective bags . . . Saddle Bags, that is.

J. C. —R. P.  
Hole No. 226  
Cell Block 30E  
Starvation Prison

Dear Pot,  
My friends and I took a stroll on the avenue in quest of something to eat Sunday night, and it seems we observed the throngs on that avenue rather closely . . .

One rather cute blond was walking down the avenue with her hand on her eyes, and her college boyfriend had a look of madness on his mug . . . watching them closely we observed that she walked him to the Men's dorm and then started for the corner where she caught a bus. Times are changing.

We stopped in front of one of the drugstores and listened to the conversation of three college tomatos. It went something like this:

"Let's don't go in there I might run into Johnny, and you know I wouldn't want him to see me over here without a date."

"Well we can't go down there because I ate there late Saturday night and . . . well they might know me."

"I'd rather just buy some hamburgers to go and take them back to the room . . . I haven't rolled my hair and it looks awful."

Seems to us that when gals get so they care about their looks again, then Tech may not have such a shortage of them after all.  
—B. G.—T. D.—J. B.

Boy old Pot went up and looked over the beauties at the elimination contests Sunday and . . . they seemed to be all there. It should have been an open show so the men on the campus could have admired all the striking figures and the women could have admired all the striking styles . . . Seems like all kinds of styles were there, but the missing element was the new bra which is being displayed by one of the local Quail shops on Broadway. You know, the kind with no straps, it just snaps on (we guess) and then you pray it stays . . . if you haven't seen this nifty item drop over to that shop and look it over, maybe all the gals on the campus should wear them.

Here it is Wednesday, and Saturday will be just around the corner so lets have some more contributions . . .  
—Pot

## El Toro Grande

By ORLIN BREWER

Judging beauties, like virtue, is its own reward. Ask any one of the 23 men who had the pleasant job of picking Tech's most beautiful girls from the 91 contestants who showed up Sunday to brave their close scrutiny.

Besides being a satisfactory show for those who appreciate beauty, the girls might well have put many a style show in the shade . . . Just wish that all the campus males, the only ones who really know anything about feminine beauty, could have been there to see both the gals and the clothes.

La Ventana Editor Bob Williams, who has washed his hands of any responsibility of the final outcome of the contest, did his best to make this an out and out beauty contest. Since judging of the top eight beauties is to be photograph, he emphasized that facial beauty should be considered above anything else. He overlooked the tendency, however, of every male to set his sights on anything but high marks.

Scoring for the first time in La Ventana beauty contest history, was on a point basis, a judge being able to rate any girl he did not consider a beauty as zero; fair, one; good, two and excellent, three. Highest possible score, adding the rating of each of the judges to get a total, was 69 points.

Names of the contestants were not given to the judges. Each girl walked a chalk line into the judging room, holding a card displaying a number. No doubt it was quite an ordeal, for some of the lovelies carried their numbers upside down. Others, not appreciating such concentrated admiration, broke into a wild gallop as they approached the exit. One became ill at the thought of all the staring eyes and was forced to withdraw from the contest.

The La Ventana contest was okay, but we'd be willing to bet that more beauty contests are won in the moonlight than any other place.

Jayne Thompson, senior Journalism major and associate editor of the La Ventana honors us Saturday by being the first coed to act as guest columnist. Jayne, who is quite a beauty in her own right, will tell you goodness only knows what . . . At any rate, you'll get a slant on things as they look from the coed's corner.

Congratulations to the administration for putting future physical development of Tech under a master plan. Foresight is a

need as much in campus planning as in anything we can think of. It prevents overlapping projects; eliminates such wasteful practices as ripping up of relatively new sidewalks to make way for new road beds. People around the Press building know just what we mean.

**CLASSY**—Milton Rathbone, (18), shown making his second outstanding punt return in the game against Texas Mines Saturday, races 32 yards before fall-

ing prey to Miner tacklers. Other Raiders in the picture include Ike Stuver (27), Bobby Williams (50), Bobby Garner (63), Dan Pursel (60) and Don Williams

(79). It was the first time, due to ineligibility rulings, that Raider fans were able to see the promising young quarterback in extensive action. (Photo, Wendt).

## Picadors Journey To Roswell To Battle The NMMI Eleven

The Texas Tech "fish" leave for Roswell this afternoon in search of their second victory of the 1948 season. The Picadors will take on the NMMI eleven tomorrow afternoon at 2:30.

The Tech first year men evened the score against the WTSTC freshmen Nov. 29 when they pushed the young Buffs around and came home with a 13-6 victory. The Buffs took a season opener from the Picadors 6-0. Tech's other setback was a 35-6 shellacking by the Hardin Simmons-freshmen.

Coaches McKnight and Robison will rely on Harold Haynes, Roscoe scabbard; Bobby Close, Shamrock; Jack Young, Andrews; Dick Pirtle, Lubbock; and Eural Ramsey, Shamrock; to spearhead the Tech offensive. Judson Erawner, Atmore, Ala., and Ralph May, Sudan, a couple of better-than-average fullbacks, are still on the doubtful list. Both have been out since the H-SU game with leg injuries.

The Picador defense will be built around big Jerrell Price, Brownfield all-stater, with Rex Pinson, Fairfuries; Jackie Cockburn, Denison, and Red Phillips, Ft. Worth, giving full support.

Last season the Tech freshmen with the aid of a few varsity reserves took the boys at the Roswell school to a 13-7 cleaning with such varsity players of this season as Bill White, Don Williams, and Ike Stuver figuring prominently in the encounter.

The Tech "fish" will travel by bus to Roswell returning Thursday evening after the game.

Date—Nov. 16, 17, 18 & 19  
Time—8 to 5  
Place—Rm. 110 Ad. Bldg.

## SPORTS GRAPEVINE

### Raider Of The Week

We pick as our selection of Raider of the Week, Bud Conley, fullback from Quanah. It was very difficult to pick an outstanding Raider in Saturday's game due to the type of contest it was. Several Raiders were outstanding, but we make no excuse for our selection. Bud was more than equal to the occasion on defense, and proved to be one of the better backs on offense.

We didn't do so bad on our predictions this week, hitting 26 out of 33 selections, and that's counting two ties as misses. A few upsets around the country, plus a bad guess on the Baylor-Texas game, and another one on the Oklahoma A&M-Tulsa game accounted for our wrong predictions. We did not fare so well on some of the scores but we expected that. The one score that we really missed was on our own Tech-Mines game. We do not feel too badly however, because we were not the only ones who expected a closer game than what it was. We are still undecided as to whether Tech is a better ball club than we thought, or whether the Miners are just not the team we thought them to be.

—Willard Ogle

Another national record set by a Tech player that still stands is the 11 interceptions chalked up by Elmer Tarbox in the 1938 season.

## Leagues Enter Touch Football Final Month Play

The Band retained their lead among the Independent Intramural footballers by defeating the Pelicans 19-13 in a hard fought game that went into an over-time period. The Band scored first when Jim Joe Reiger grabbed the kickoff and raced it back for a touchdown. A few minutes later a pass from Reiger to Gerald Hise connected and the score was 12-0. The Pelicans counted on a 20 yard gallop by R. Metcalfe around his own left end. Jack Alderson hit Phil Bennett in the end zone with a pass to add the extra point. The other Pelican score came on a pass from Metcalfe to Vernon Bradley.

The game ended in a tie and they were forced to go into an overtime period. On the first series of four downs Reiger threw to Bill McClatchey for the winning TD. In another independent game played, the A.P.O. downed the Wesleyan Wildcats 7-6 in another close game. The A.P.O. scored on a 50 yard run around end by Joe Lewis. Good blocking in the unbalanced line opened a hole at left tackle and Lewis went over for the point after touchdown.

The Wildcats tally was made after a sustained downfield drive to the APO five. J. D. Cooper carried over from that point but the try for point failed and the A.P.O. won the game.

In the social club circuit the Silver Keys and the Socil battled to a 6-6 tie in another hard fought game. The Keys drew first blood when Pete Cook hit Milton Butler with a scoring pass midway in the third period. The try for point was no good and it looked like it was to be a Key victory.

Late in the game the Socil came back with a pass from Pete Moore to Winston Churchill that ended in a score. The game was over a few minutes later and the score remained tied.

In the other social club game, The Centaurs defeated College Club by the score of 20-0.

Texas Tech holds one all-time record. In 1941 the Raiders became the team to lose more yards to penalties than any one else to date.

# Raiders Dash to 46-6 Win Over Hapless Miner Eleven

By JERRY HENDERSON  
Toreador Sports Writer

Jones stadium was turned into a race track Saturday afternoon as Red Raider backs raced goalward at will to crush a Mines eleven 46-6 before a crowd of 14,000.

Tech capitalized on a break early in the game when Bowdin dropped back to pass and was trapped by Bill Kelley who made him fumble the ball. Luke Thompson fell on the ball and Cal Steveson drove over for Tech's first touchdown. Reynolds' try for extra point failed. Don Williams kicked off for the Raiders, Frasier taking the ball on a fair catch. DeGroat was caught for an eight-yard loss by Luke Thompson, then Pug Gabrel gave the Miner following their only thrill of the day cutting through the Raider line at the 12 and racing for 86 yards before Marshall Gettys pulled him in. Two plays later Danny Frasier went through center for the lone Ore-digger marker. Fred Wendt missed the kick.

With the score tied at 6-6, the Raiders took over and never relinquished to the scrapping Ore-diggers. The team turned in long runs, interceptions, brilliant blocking and defensive work to thrill the 14,000 fans. Bud Conley took the Miner kickoff, racing 56 yards being pulled down on the Miner 19. He carried for two more, then Ernest Hawkins tossed a pitchout to Reynolds who went over standing up. He made the after-point try good. After the kickoff by Williams, Wendt and Gabrel interchanged to drive up the field 25 yards but finally had to punt out of trouble. Reynolds took the punt and moved up the field 17 yards, but a penalty set the Raiders back to the 12. Glenn Lewis took the ball on the first play, and with

some key blocks, he went through left guard over to the sideline and outdistanced everyone to the double stripe. Reynolds again converted.

The Miners took the ensuing kickoff and carried to the 29 at which point Wendt fumbled and Dorrell McCurry recovered. Hawkins and Zac Henderson combined to take the ball down to the Miner 17. Two plays failed but Hawkins passed to Elbert Johnson on the two who pulled the ball in over a defender's head. Conley went over on the next play. The Miners took the ball and kept it for most of the remaining quarter reaching the Tech 39 and 12 but Hawkins kept the Raiders out of trouble by intercepting two passes, returning the last one 45 yards.

It was the same story in the second half. Henderson returned the kickoff to the Tech 30 and Conley made 43 more yards over right guard. Hawkins passed to Kelley down to the Miner 14. Reynolds scored two plays later. Lewis made

and around New York. He was managed there by Joe Villa and trained in the same camp with former light-heavy champ, Gus Lesnevich. Eastern critics reported that his style and punching ability should enable him to go a long way in his ring career. Bill decided that an education should

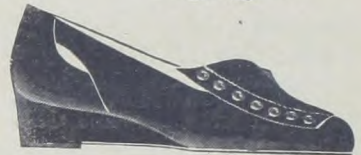

come first however, and has limited his fights in the future to this area.

His opponent in the border city has not been named to date. Henderson will weigh in at about 180 pounds now. He has not fought since he appeared on the Jaycee card here in Lubbock last August.

# SOCIETY

## Short Hair, Tube Skirts, Are Now Campus Loves

Why it is that women insist upon a certain amount of uniformity in their apparel has always been puzzling, but the fact remains that they do.

The uniformity of clothes for college students has a certain amount of intelligence about it, however. This being the fact that skirts and sweaters require a minimum amount of care. For the typical co-ed, this is a God-send because time is the least of what they've got.

This year the typical campus belle has her hair cropped short, wears tubular skirts preferably grey, brown or green, and has a boxy coat. Corduroy seems to be the predominant material.

Facts concerning the dress of the Tech co-ed were compiled in a fashion count by a group of home economics students enrolled in textile merchandising.

Results of the fashion count indicate that the majority of married co-eds are wearing hose to class. About 34 per cent of all women are bare legged and 4 percent wear anklets.

Ranking second in popularity is the bell fashioned skirt. The bustle type just hasn't found its way to the campus yet.

As for length, the average skirt ranges from midcalf to very long. An item of the past is the short skirt.

The information wasn't released until three counts had been made. In spite of the fact that their clothes may sound like uniforms, no two girls look alike.

## Recreation Hall's Sadie Hawkins Day Dance Is Friday

Dogpatch residents are expected to come to life at the Recreation hall's Sadie Hawkins costume dance from 7:30 to 10 p.m. Friday, Troy A. Enis, Recreation hall director, has announced.

A string band made up of local talent is one of the numbers planned for the program, Enis said. A grand march will be featured during the evening and prizes will be awarded to the most typical Lil' Abner, and Daisy Mae, Mammy and Pappy Yokum, and to those wearing the most original costumes.

Juke box music will be provided for the dance which will follow the program, Enis added.

## Freshman Honor Society Approved For Women

Organization of honorary and professional societies was discussed by Mrs. Margaret W. Walker, dean of women, Tuesday at the meeting of the Freshman Honor Society for Women, stated Sue Holmes, president.

The local society has been approved for membership by the national council of Alpha Lambda Delta, according to a letter received in July from Miss Alice C. Lloyd, national vice president of Alpha Lambda Delta, and dean of women at the University of Michigan. The local group is now awaiting approval of the college chapters.

Mrs. James G. Allen, assistant professor of journalism, and Miss Fay Hattox, instructor in foods and nutrition, are co-sponsors of the local society.

## Sun Princess--

(Continued From Page 1) a few days. Stands on which to place them are being made. Wilmoth further reported that the campus beautification fund now totals \$1,500.5.

Varsity Show Committee Joe Meador, in the absence of Margaret Clark, Chairman, reported that the committee met Monday afternoon to consider directors for the 1949 show. Several applications were submitted and the committee will act on them shortly.

Bids from bands to furnish the music for the show were considered and the most desirable bid came from Ted Crager's orchestra. The total price asked by Crager for arrangements, piano, conductor, and salaries, was \$995.00. Fifty additional dollars would be needed to hire music writers.

Clint Formby, president of the Student Council, stated that applications for sponsorship of the spring Howdy dance will now be accepted in the Student Council office, Ad-323. Any campus organization is eligible to sponsor this dance, he said. Organizations must inform the council how the profits will be used.

Before the meeting adjourned the council approved an application by W.R.A. to operate the coke machine in the gym. Also approved was the joint operation of the coke machine in the South wing of the Engineering building by the American Society of Civil Engineers and the American Society of Mechanical Engineers. Phi Gamma Nu sorority was given permission to sell bounties for the New Mexico-Tech game.

## Delta Sig Observes Its Founder's Day

Beta Upsilon, Tech chapter of Delta Sigma Pi, international professional business administration and commerce fraternity, celebrated Founder's Day with a breakfast Sunday morning in the dining room of Phil's Grill, Newell Reed president, has announced.

Dr. Howard E. Golden, sponsor and associate professor of marketing, spoke on "The Organization of the Fraternity and Its Founders." Honorary members attending were W. D. Moore and L. D. Blackwell.

An observance of Founder's Day is an annual event of each of the 66 chapters of the fraternity, and this was the second such celebration to be held by the Tech chapter. Members and pledges who were present were: K. C. Durbin, Wayne Howard, Keith Schier, Bobby R. Orr, E. C. Grimm, Hubert Henry, Coke Toliver, Wilbert Hart, Francis H. Brockman, Welton Dunavant, Claud Helwig, Thomas George, James E. Sever, Sterling Emens, Newton Jones, Guy Fagan, Gene Bates, Lyndell Sharp, Donald Cade, Bill Davis, Claude Donaldson, Durwood Finley, Joe Harvey, Jr., Louis Kiker, Jack Edwards, Royce Hopkins, Don Sayre, James Bowen, Jeff Gentry, Bob Green, Gordon Spencer and Gale Rogers.

## San Angelo Exes Elect President

George Blumentritt, 1932 graduate, has been elected president of the San Angelo chapter of the Texas Tech Ex-Students association. Other officers include: Jerry Stoltz, 1948 graduate, vice president; Raymond Williams, 1942 graduate, secretary-treasurer.

A group of the San Angelo exes is to attend the HSU-Tech football game in Abilene Nov. 27. The chapter is planning a Christmas party for Tech exes and students who will be at home during the holidays.

## Rec Hall's Fund Enriched By Lost-Found Auction

Recreation hall fund became \$60 richer as a result of Friday's auction of lost articles from the registrar's office, Troy A. Enis, Recreation hall director, said today. A mackinaw jacket brought the highest sale of \$12.50 and a sun glasses case sold for 5 cents, Enis said.

Date of the next auction will be determined by the number of lost articles turned into the registrar's office and not called for within 30 days, he explained.

HOUSTON EXES ELECT HIGH BEN B. High has been elected president of the Houston chapter of the Texas Tech Ex-Students association. Other officers chosen include: Lloyd M. Pyeatt, vice president; Evelyn Knox, secretary; Kenneth Robbins, treasurer.

The chapter has planned a get-acquainted meeting and a dinner-dance for exes and guests beginning at 7 p.m. Nov. 19 in the new ballroom of the Texas State hotel in Houston.

## Thirst for Refreshment Relishes Ice-Cold Coke

Ask for it either way... both trade-marks mean the same thing.

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY Coca Cola Bottling Company, Lubbock, Texas

## Raiders--

The extra point. The Miners ground play failed after the kickoff and they punted to the Miner 43. After several ground plays, Rathbone hit Ike Stuver on the two and Stuver scored a play later. Tim Hatch kicked the extra point. This ended the scoring for awhile. Wendt tried hard to get the Miners back in the game, carrying the ball most of the time but the Tech line allowed only short gains. Wayne Guinn, set up the last touchdown by recovering Tom Steele's fumble and only six plays were used before J. W. Thompson plunged over for the final Tech score.

The Orediggers gained 18 first downs to Tech's 13, but were edged in every other department. Wendt, the nation's leading ground-gainer, managed only 44 yards on 21 tries. As for Tech, it was day when no one could do wrong. Everyone that had on a suit got in playing time.

The game was the first Border conference game in which Tech has been scored upon and left Tech the only undefeated team in conference play.

## Instructor Speaks At Meet

Prof. R. I. Lockard, architecture instructor, has announced that he plans to attend a meeting of the Association of Art Instructors of Texas, a branch of the Texas State Teachers association, which is being held Nov. 26 and 27 in the Dallas museum of fine arts.

Lockard, the secretary-treasurer of the branch organization, says that he is to be the leader of a discussion group assigned to report on "Trends in Art Education". Katharyne Kuh, curator of painting at the Chicago Art Institute, will be the principal speaker. Eight to 10 of the 14 art teacher members of Lubbock will probably attend the meeting.

## DEFD TO HAVE DINNER DANCE

DFD patronesses will entertain members and their dates, sponsors and special guests at a dinner from 7:30 to 9 p.m. Saturday at Lubbock hotel ballroom. The decorative theme of the evening will be a horn of plenty filled with fruit and accented by arrangements of fall flowers.

A stag dance from 9 to 12 p.m. will follow the dinner.

LOST--Pair of black rimmed eye glasses, not in the case, somewhere on the campus. Call Barbara Jackson at 7248. Reward is offered. 2113-16th St.

## Ping Pong Tournament Is Set For 2 P. M. Saturday

Tech's ping pong champion will be determined at the Recreation hall's singles' tournament which will be conducted from 2 to 5 p.m. Saturday, stated Troy A. Enis, Recreation hall director.

Men may register with Enis until 2 p.m. Saturday at which time contestants will draw for places, Enis said. Ping pong paddles will be awarded the champion and second place winner.

A new ping pong table was received Saturday and Enis emphasized that it would be used only by women.

## STUDENT CENTER ACTIVITIES

Glyndale Hart, freshman petroleum engineering major, will lead forum in a discussion of "The Berlin Feud" at 7:15 tonight in the Methodist student center, Cecil Matthews, director of the center, announced.

"Do You Know the Score?" was presented by the Wesley Players, a group of Tech students under the direction of Tommy Jean Wall, junior home economics major, to the Women's Society of St. John's Methodist church at 3 p.m. Monday, said Matthews.

## PHILATELISTS TO FORM CLUB

Prof. F. A. Kleinschmidt has invited all students interested in forming a stamp collectors' club to come to an informal gathering at his home at 2324 Broadway at 8 p.m. tomorrow.

## Students Compete For Rifle Team

Eighty ROTC students are attending preliminary rifle drills which will continue until the end of November, when at least two rifle teams will be selected, stated Lt. Col. Alfred Schiaffli, team director.

Cadet Emmett C. Adair has been elected secretary of the group now meeting. He will receive and accept challenges from rifle teams of other schools, and send challenges from the Tech team.

"The minor athletic letter for rifle team members has not yet been approved by the academic deans," said Schiaffli, "but we should have a decision when the team is ready for action."

This is the largest number of ROTC students ever to compete for a place on Tech's rifle team, Schiaffli stated. Selection of team members will not be announced officially until all those attending practice drills have ample time to get in shape, Schiaffli said.

From November of 1947 through January 1 of 1948, there were some 36 football games played in bowls throughout the world. The location ranged from Shanghai, China, to Bermuda in the Atlantic.

LOST--Zelton jacket with fur collar, important keys in pocket, at Lubbock Hotel Saturday night. If found call Joe France, Doak Hall.

## LIL' ABNER AWARDS

Ramona Keller, Lee Grebe, and Jerry McKee won prizes for the best costumes at the Centaur Lil' Abner dance Saturday night.

The prize for the most original attire was won by Miss Keller, sophomore education major, who was dressed as Mammy Yokum.

McKee, junior mechanical engineering student and his date, freshman education major, Lee Grebe, were given the prize for the costumes most typical of Lil' Abner characters.

Texas Tech, having played every member of the southwest conference once, or more, has gained at least one win over each of the teams, with the exception of Texas university.

## STUDENTS HEAR SPEAKER

M. M. Boring, manager of technical personnel division executive department of General Electric, spoke to engineering students last night on "The Approach to Your Future Job", stated T. B. Stennis, assistant professor of electrical engineering.

R. T. Shields, district authority from Dallas offices and D. H. Buck of the Amarillo branch, were with Boring on the campus.

## SADDLE TRAMPS WILL MEET

Saddle Tramp pledges are asked to be present at the last pledge meeting of the semester at 5 p.m. today in C-101, Raymond Brigham, vice president of Saddle Tramps, has announced. Information regarding initiation and a business meeting are to be conducted.
