Dohoney Dies After Heart Attack Last Night

Motion Picture To Be Shown Plains Society

First Session Starts Tomorrow Afternoon At 4; Artists On West Texas Plains Are Eligible To Enter Paintings

Cash Prizes Given

Knapp, Holden, Studhalter And Landwer, Speakers; Night Session Starts At 7:30 In Engineering Auditorium

All artists residing on the West Texas plains may enter as many pictures as they wish, when the Plains Museum Society holds its fourth annual meeting beginning with an afternoon session at 4 o'clock tomorrow.

The pictures which the artists enter may be in oils, water colors, pastels, or may be one picture of each. Two cash prizes and three honorable mention prizes will be given to the five winners of the exhibition.

M. F. Landwer, associate professor of biology, W. H. Abblitt, professor of physics, and George D. Doughty will be the main speakers at the Friday afternoon session held in the engineering auditorium.

Engineers Pick Class Speakers

Hill, Luce, Crawford, Williams Are Selected; Carpenter To Be Principal Guest Speaker; March 4 Is Date Set

Professor C. D. Brandt, professor of textile engineering, will be the toastmaster and master of ceremonies for the engineering banquet to be held at the Lubbock hotel March 4.

This is to be the principle social event of the engineering year. Letters to alumni and special guests were mailed last week in order to have everyone interested in Tech engineering on hand. More than 250 plates are expected to be taken for the banquet.

John W. Carpenter, president of the Texas Power and Light company, will be the principle guest speaker. His talk will be broadcast over the local station, KFYO.

Chinese Plants Are Sent Here By USDA

Professor C. E. Russell, head of the horticulture department, received 12 plants from the United States Department of Agriculture last Tuesday. The plants are natives of Southeast China.

The plants received are as follows: One hybrid Simons plum; one hybrid quince; two firethornes; four cotoneasters; two different varieties; and two smoke trees, or smokes.

Young And Old Old And Young All Come To Tech

The engineering and liberal arts schools have the extremes on freshmen ages this year, according to E. L. Dohoney, college registrar, and the difference between the two is more than twenty years.

Of the average ages for all the schools the aggies have the highest and the home economics the lowest, the former being 19.51 and the latter 48.28.

Training Work Is Offered To Tech Students

Miss Alice Mulkey Conducts Girl Scout School; Work Is Given At Seaman Hall During Week

Miss Alice Mulkey, of the National Girl Scout Training staff is conducting a girl scout training school this week at Seaman Hall.

Girl Scouts were organized in England by request of a little girl who could not join the first boy scout troop, also organized in England. The movement was brought into America by a lady from Savannah, Georgia, who spent each summer in England.

Enrollment Given Enrollment of Tech students by classes are: Freshman, Catherine Royalty, Lila Estlack, Tommie Ruth Dulin, Effie Paun, Elizabeth Keen, Doris Montgomery, Gertrude Ford, Helen Williams, Maurine McArthur.

Sophomores: Lorena Kelly, Ruth Colie, Leona Slaughter, Lonora Jackson, Florence Merriman, Mildred Handy, Lorena Hardy, Mary Alice Scott, Authola Williams.

Juniors: Joyce Coley, Charlotte Jones, Lowell Douthett, Ada Foster, May Reed, Francis Parkinson.

Seniors: Geraldine Crewell, Carolyn Poe, Mary Louise Baskin, Lorraine Harrocks, Vivian Keaster, Leslie Van Burgess, Gladys Butler, Edna Nixon Morris, Agnes Klein, Jewell Brown, Mave Foster.

Graduates: Sylvia Wilson, Billie Pearl Eubanks, Sallye Bean, Margaret Baskin.

A large number of students from the city schools, and other girl scout workers are enrolled.

Knapp Talks To Teachers At Ft. Worth

Tech President Discusses A Fundamental Principle Of American Government; Need Of Education Stressed

Dr. Bradford Knapp, in his address delivered before the Fort Worth teachers on February 16, said in part: "Education has been a fundamental principle of our form of government in America since the very beginning."

When I think of our present feeling of poverty and the present criticism of education, and the almost apparent willingness of our people to see the schools sacrificed, I think of the old statement made by Governor Aycock of North Carolina years ago, when he was trying to bring about a better system of education for his state.

Elements Listed Elements of a good education according to Dr. Knapp, are: first, skill and knowledge of the use of the English language; second, a sound knowledge of the history of our civilization; third, a thorough understanding of our government; fourth, training in economics and sociology; fifth, a student out to be prepared for life with some knowledge of health, hygiene, foods, nutrition, diseases and their prevention; sixth, some subjects ought to be taken for their pure cultural value in the development of individual knowledge and appreciation of art, literature, foreign languages and the esthetic side of life, for pure intellectual enjoyment; seventh, beyond these there ought to be a training for a definite life work, in some technical pursuit or professional line which will fit the student to perform service in an organized society.

Dr. Knapp further discussed the need of developing our educational institutions in West Texas.

EXHIBIT BEGINS The art exhibit conducted by the Plains Museum society opened yesterday in the engineering auditorium and will continue until March 1.

The art exhibit conducted by the Plains Museum society opened yesterday in the engineering auditorium and will continue until March 1.

Artists are invited to enter their work in the exhibition.

Artists are invited to enter their work in the exhibition.

Artist Course Is Presented!

Matinee To Be Given This Evening; Students May Exchange Tickets At Music Office For Afternoon Show

Lillian Rehberg, "cellist, and Michael Raggin, tenor, in joint recital, presented the last evening course in this term at the high school auditorium last night.

Athletic Carnival Aids Matador Club To Paint Season's Football Games

The first athletic carnival ever held in Lubbock, and sponsored by the ABC club took place at the Uptown Dance Palace Tuesday night, February 21.

The proceeds of the carnival was for the benefit of the Matador club and the painting and placing of signs of the 1933 Texas Tech football schedule on all the highways leading into Lubbock.

Dr. Malone To Be Speaker At Pre-Med Event

Banquet To Be Held At Hotel Lubbock On Saturday Eve; Poole To Be Toastmaster; Program Is Planned

Dr. F. B. Malone, ear, eye, and nose specialist of the Lubbock Sanitarium and Clinic will be the principal speaker at the first annual banquet of the Pre-Med club.

The affair will be held in the Hotel Lubbock Saturday evening February 25 at 7 o'clock.

Dr. Malone has chosen "The Romance of Modern Medicine" as the subject of his speech for the affair.

Makes Talk At the regular meeting of the club Tuesday night Miss Ruby E. Gilbert, superintendent of nurses of the West Texas Hospital spoke on "Hospital Organization."

Fish Vote For Class Queen In Annual Secret Election

Approximately 400 freshmen voted for Fish queen Thursday and Friday when 16 nominees were listed on the ballot.

The queen, who will be presented by the class president at a social for freshmen next term, won the election by a large majority.

La Ventana To Give Prize For Humor Article

Story Must Include Five Or More Tech People; March 1 Is Deadline; Prize To Be Five Dollars

The following enter the writing contests: G. L. Beene and "Wrongie" Austin, in the 135 pound class; Walter Nichols and James May, both freshmen football players, in the 145 pound class.

As a highlight of the program Judge J. A. Raley and Junior Kennedy put on a boxing exhibition and then turned on the referee, Truman Meincke.

Tech Aggies Are Hosts To Farm Groups

Farmers' Supper To Be Held Tonight; Stage Is Built In Pavilion For Demonstration Work; To Discuss Problems

The Texas Tech livestock pavilion will be a scene of activity today and tomorrow as the fourth annual South Plains farm and home conference is held.

To Hold Supper This evening at 6:30 o'clock a farmers supper is to be held in the Hotel Lubbock.

Public Invited The public is invited to attend this conference, said Dean A. H. Leidigh, and Tech students are also invited to be present at the meetings.

Soil conservation, the preservation of moisture and other soil problems will be discussed this morning.

Co-Eds Discuss Problems!!!

Bookstore Is Gathering Place For Tech Students As They Compare Notes On Current Crises And Finances

"So I told him if he wanted to court her he needn't come around asking me for dates. I'm not going to play second fiddle to anyone, especially him. What does he think I am anyway?"

Hikers Ride Tech Group Travels 30 Miles Daily

Even hitchhiking has its rewards! At least this is the opinion of Wayne Stell and Theron Jay, liberal arts students, who have thumbed rides from their hometown, Idalou, to Lubbock since the beginning of the fall term.

By going back and forth the boys are able to do work at home that is not scholastic. Thus they kill two or three birds with one stone.

The trip from Idalou to Lubbock is 15 miles; however, Stell and Jay have no intentions of changing their arrangements. So far traveling has been good, and why shouldn't it last?

Powers Speaks At Convocation On Wednesday

Ideals Of Washington Are Set Forth In Regard To Modern Crisis; Flowers Presides At Tree-Planting Ceremony

Dan W. Powers, Lubbock business man, gave the principle address at the convocation held in the gym yesterday at 11 o'clock.

The annual Senior class tree-planting ceremony was held directly after the convocation.

Address by Dan W. Powers. Senior tree-planting ceremony, led by Jack Flowers.

Student record books are being checked in the registrar's office this week, and a lot of those who have not returned their books will be places on the bulletin board.

These present at this informal meeting discussed questions which had been brought up previously.

Reverend Lyle S. Barnett, pastor of St. Paul's Episcopal church, will speak tonight before the group at 7 o'clock at 2411 Fifteenth street.

The purpose of this discussion group is to learn more about the beliefs of all the churches and to know the local pastors better.

Heart Attack Fatal; Dohoney Dies Last Night

E. L. Dohoney Succumbs To Attack At 6:30 P. M. Yesterday; Funeral Arrangements Not Decided

E. L. Dohoney, Texas Tech registrar, died unexpectedly in his home last night at 6:30 o'clock as a result of a heart attack.

He is survived by his wife, two daughters, and one son; Ann, the youngest daughter is a freshman in Tech; Mrs. Warren Dale, the oldest child, of Houston; and Alfred, the son, who is working for a utilities company in Houston.

Funeral arrangements under the direction of the Rix Funeral home, have not been definitely decided on.

Gates Receives Ph. D. Degree

Tech Spanish Instructor Gets Degree From University Of Pennsylvania; 350 Students Receive Doctorates

Mrs. Eunice Joiner Gates, wife of Dr. W. B. Gates, received the degree of doctor of philosophy from the University of Pennsylvania at the mid-year convocation of the university council for conferring of degrees February 18.

Mrs. Gates is an instructor of Spanish in Tech, and Dr. Gates is an associate professor of English. They were both given a leave of absence for the year 1930-31.

Dr. Joseph H. Penniman, provost of the University of Pennsylvania presided when the degrees were conferred, and Rev. W. Brooke Steiber, chaplain of the university and the Broadman lectures, on Christian Ethics, gave the address.

Barnett Speaks At Meet Tonight

Reverend M. A. Loesel, pastor of the local Lutheran church, was in charge of the theme of the discussion on Lutheran religion held by the Wesley Foundation of the Methodist church discussion group at Seaman Hall, February 16, at 7 o'clock.

Those present at this informal meeting discussed questions which had been brought up previously.

STUDHALTER TALKS "Practical Bacteriology for Everyday" was the subject of a talk given by Mrs. E. A. Studhalter at a meeting of the Home Economics club Tuesday night at 7 o'clock in the home ec building.

FARMERS MEET

The fourth annual South Plains Farm and Home conference will be held in the Livestock pavilion today and tomorrow. The purpose of these conferences are to give the farmers in this section of the State the opportunity to hear their immediate problems discussed and solved.

These meetings are of great importance to the farmers in this section of the country. With some of the best informed men in agriculture and agricultural methods in charge of the discussions, the farmers are able to get, in two days, what would ordinarily take an entire season to get through reading of bulletins and literature on agriculture. Through the influence of such conferences, West Texas is keeping ahead of other agricultural sections in improvements and production.

Texas Tech is honored to have such conferences held on her campus.

The following editorial appeared in the PINE, Arizona State Teachers College newspaper, for February 14. As it expresses the opinions of the TOREADOR staff throughout, we are running it for the benefit of the many clubs on the campus who think that publishing a college newspaper is nothing more than a pastime for Journalism majors.

THE EDITOR MOANS

We must be running a newspaper! A newspaper slips up on a story or lets a typographical error go through and it gets panned—that's the prerogative of the reader. A lot of trouble is taken to dig up a last-minute scoop on the fall of Betty's arches, printers toil over-time to get the paper out on time, or three staff members quit because the scoop requires overtime at no pay, and the paper gets tolerated—that's the prerogative of the newspaper.

We want the news, any news that relates to college or college interests. If we miss any, we are disappointed because we did not get it and not because of the criticism that we usually do get. There is nothing that makes an editor smile, sleep well, and eat heartily as does a lot of available copy, especially when available early in the week.

Unfortunately we are handicapped. Classes take part of our time and so do basketball games. Being just plain newswriting folks, too often our social activities are limited to the democratic order of the College Inn Coffee club and we just can't get on hand when some Greek letter throws an alphabet soup splurge or the campus queen is forced to stag a dance. Our reporters can not be expected to look too hard for extra news. They have their assignments, and extra news means extra work and where is the percentage in that sort of set-up for the reporter? There just isn't any.

Of course, we like alphabet soup and we would not mind tagging along with the campus queen and all that, but there is our Coffee club. However, as a happy medium it is suggested that we would be more than mediumly happy if each organization, etc., of the campus appointed a reporter from its members to give us the facts about its activities. Slip them under the door of the PINE office, our re-write men will add the horrible details and we will be made happy at our work trying to run a newspaper.—THE PINE, Arizona State Teachers College.

Home Economics Girls To Sponsor A Dancing Class

Lewis Walker, local dancing teacher, will conduct a girls' ball room dancing class to be sponsored soon by the home economics club. It will meet twice a week late in the afternoon in the home economics tea room and will last over an hour. A separate class for boys will be taught and the two groups will meet jointly after three or four lessons. The price is two dollars for eight lessons, and anyone interested is asked to see someone in the home economics club.

ANNOUNCING "Beaux" A product of quality catering to the hands and hair. Hair Oil, 4-oz. . . . 25c Shampoo, 6-oz. . . . 25c Hand Lotion, 4-oz. . . . 25c Distributed by Lubbock Drug Wylie-Jarrett No. 2

STUDENT CRUISES

Magazine subscription scholarship workers and crew managers write immediately for the very best student scholarship offers of leading publishers. Can be worked there now. Permanent positions if experienced, also summer crews for U. S. and foreign territory. For full details write—The Collegiate Scholarship Institute—219 Republic Building, Miami, Fla.

Co-Eds Are Not Losing Desires As Housekeepers

"Modern girls are not losing interest in housekeeping, but only in the old-fashioned methods of housekeeping," asserted Dean Margaret Weeks of the home economics school when interviewed Tuesday. "Homes and ideas of home-making are constantly changing and home economics emphasizes the home life of today and not that of twenty years ago," she said. She believes that the claim that girls of today are less interested in the home is based on old-fashioned ideas of home management.

In her opinion a college course along general lines of home economics, such as principles of nutrition or dress appreciation, would be helpful to every co-ed. She also thinks that most girls with a double purpose, that of earning their living and that of eventual home-making. Any experience had in teaching is an asset in house-keeping after marriage, she believed.

Asked whether enrollment in home economics schools generally is increasing or decreasing, Dean Weeks replied that just as many girls as ever are enrolled in home economics schools. In Tech 27 per cent of all co-eds are home economics students. "Texas Tech's home economics school compares favorably with that of older and larger colleges but we need more space, more instructors, and greater facilities for child development courses," she concluded.

Power Meter Set To Be Displayed

One of the first power meter sets ever made is to be shown in the coming Engineering Show that is to be held some time in April. This set is owned by a Lubbock citizen, who has been withholding it from the Smithsonian Institute. This set is an amperes hour meter that is run entirely by heat, and its method is long out of use.

The entire Engineering building will be displayed by flood lights, which are to be worked out by the Electrical Engineering students. These flood lights are to be made of aluminum and will be welded in the machine shops of the campus.

Alumni News

Ralph Carpenter, a 1929 graduate in business administration, is now owner and manager of a local grocery store. Previously he had been in the drug business in Lubbock.

Bailey Carroll, formerly employed by the History department of Tech until the beginning of the present session, is now in the University of Texas doing work on his doctor's degree.

Doyle Settle is now doing work in Tech on his M. A. degree, majoring in Government. He attended the University of Texas the first semester of this year.

Guy Carter, a graduate of 1928, who later received his J. D. degree from the University of Chicago, is now an employee of a law firm in Dallas, Texas.

Lizale Belle Clements, who graduated in 1931 in the English department, and who later took work in the School of Home Economics is temporarily out of school.

Clarence A. Cole, Geological Engineering graduate of 1931, is now a member of the Talpa High school faculty.

Margaret Cooper, a speech major and a graduate of 1931, is now teaching school near Lubbock.

Mrs. Burnell Cox, formerly Jane Mast, now lives in Childress, Texas. She was a member of the English department during the session 1930-31.

Ervin Coleman who graduated in 1928 and who is employed by the Supreme Court of Texas is working on his Ph. D. degree in the University of Texas.

John A. Davis, Architectural Engineering graduate of 1931 is living at his home at Spur, Texas.

TEXAS TECH COLLEGE

Fling Is To Hold Revival

Date Is Undecided At Present But To Be In April; Witt Teaches BSU Course; Social Planned For Tomorrow Night

Robert Fling, president of the Baptist Student unions of Texas, has recently accepted an invitation to hold the Baptist student revival here in the spring. A definite date has not yet been set, but the revival week will probably be sometime in April.

Mr. Fling is a student in Southwestern Baptist Theological seminary, Ft. Worth, and recently a graduate of Baylor University, Waco. He attended, and was principal speaker for the B. S. U. holiday retreat here December 23, 30.

Mrs. C. W. Mowery, 73, of Alameda, Texas died Monday afternoon at 2 o'clock. She was the mother of R. C. Mowery, associate professor in animal husbandry. Mr. and Mrs. Mowery left for Alameda to attend the funeral services.

Dr. W. C. Holden, Professor of History, will lecture before his extension class at Big Springs tomorrow night. His subject will be "Social and Economic Development of the Great Plains."

University of Texas. He and his wife, the former Mable Gibbs, who were married June 1930, were employed by the Registrar's Office during their stay in Tech.

Iris Crawford, who graduated in 1929, majoring in history, is now Mrs. Charles Worthington, of Birmingham, Alabama. Her sister Melba lives in Bartlettville, Oklahoma.

Lloyd Croelin, who has been teaching school in Post, Texas is now Head of the English Department, in the schools of Colorado, Texas. He intends to take his M. A. in Government next summer.

Mr. and Mrs. Elmer Davenport now live in Youngstown, Ohio where he is employed by the Trucon Steel company. Mrs. Davenport is the former Fannie Ferguson.

John A. Davis, Architectural Engineering graduate of 1931 is living at his home at Spur, Texas.

Subject Rats To Diet Experiment

Four cages of rats are the subjects of an experiment on the advantages of good diet being carried out by Miss Jonnie McCrery's nutrition class in the home economics school.

The rats are paired according to sex and age and each pair is fed a different diet. Reactions of the rats to each diet are measured by comparison to the reactions of a pair which is on a control diet.

One cage of rats is being fed on a typical American dietary consisting of meat, potatoes, fats, and sweets. Another pair is kept on a like fare with an addition of green vegetables and milk. Miss McCrery says the rats fed on the latter diet are proving decidedly superior in health and vitality. The reactions of the third pair, which is being kept on a vitamin B deficiency diet, are being watched carefully.

The experiment will be continued more extensively next term in an attempt to prove the nutritional value in certain types of food, Miss McCrery stated.

Engineer Freshmen Make High Grades

Ten freshmen engineering students have distinguished themselves by making the highest grades in their group during the past fall term. Figures given for these men were obtained by dividing the number of grade points earned and the total registration credit hours.

The high point men are: Raymond Coffman, Cleburne high school; Lee Higgins, Gladewater high school; Lee Smith, Lubbock high school; Mark Townsend, Lovington, New Mexico high school; Robert Harding, Dallas high school; J. W. Caldwell, Athens high school; M. K. Foster, Lubbock high school; Raymond Benson, Lubbock high school; Fleming Austin, University City, Missouri high school; and Horace S. Benson, El Paso high school.

From the high schools having two or more freshmen enrolled in the Tech school of engineering, the five whose graduates had the highest scholastic records are: Gladewater high school, 2 students; Cleburne high school, 4 students; Dallas high school, 3 students; Grand Saline high school, 2 students; and Lubbock high school, 12 students.

Mr. John Burroughs, graduate of Texas Tech in 1928, is now working for the Texico company in Lubbock.

Almost a third of the non-occupational causes of accidents are traceable to automobiles.

STUDENTS' IDEAL SERVICE

Well, that's something about cigarettes I never knew before

I'd never thought much about what's inside a Chesterfield cigarette. But I have just been reading something that made me think about it.

Just think of this, some of the tobacco in Chesterfield—the Turkish—comes from 4000 miles away! And before it is shipped every single leaf is packed by hand. All because Turkish tobacco is so small and delicate.

Of course I don't know much about making cigarettes, but I do know this—that Chesterfields are milder and have a very pleasing aroma and taste. They satisfy—and that's what counts with me!

the cigarette that's Milder
the cigarette that Tastes Better

Kipke Named School Head; Matadors To Meet Buffs

Kipke To Explain Short Punt Plays; Other Men Considered

Michigan Coach Is Choice Of Mentors; Methods Of Caring For Injuries Will Be Part Of Course

Harry Kipke of the University of Michigan will be one of the instructing football coaches of the third annual Texas Tech coaching school to be held at Lubbock, Texas, August 12.

Kipke was All-American at the University of Michigan when the Wolverines were under the helm of Fielding "Hurricane" Yost. After graduation Kipke served as assistant and then as head coach of Michigan State college finally returning to Michigan to take over the reins of head coach.

Big Ten Champions
Kipke is one of the chief exponents of the short punt system, under his tutelage the Wolverines won the Big Ten title last fall and were acclaimed 1932 national football champions, receiving the Rockne-Erskine trophy as a significance of that honor.

Cards were issued to each coach who attended the school last summer to determine the instructors for the 1933 coaching school. Another mentor with an entirely different style of play from Kipke's will be announced in a few days.

Coaches Listed
The list of coaches from which the coaching school will be chosen includes, football: Andy Kerr of Colgate, Kerr-Warner system; Bernie Bierman of Minnesota, Bierman-Warner system; Howard Jones of Southern California, Howard Jones system; Dick Hanley of North western, Hanley-Warner system; and Slip Madigan of St. Mary's Notre Dame system. Basketball: Ruby of Illinois and Dr. Forest Allen of Kansas. Tracks: Clyde Littlefield of Texas. Administration and Organization: Major John L. Griffith. Treatment of injuries: Dr. Forest Allen of Kansas. Wrestling: Ed Gallagher of Oklahoma A. & M.

The 1932 Texas Tech coaching school conducted by Pop Warner, Hunk Anderson, Clyde Littlefield and Forest "Fido" Allen was the largest ever assembled. Over 450 coaches from 24 states attended.

Miss Ida Lee Rolling, Tech student, is a patient in the West Texas hospital.

COACH KIPKE (Michigan)

When the third annual Texas Technological college summer coaching school gets underway next summer, Harry Kipke will be one of the mentors in football. While a student at the University of Michigan under the famous "Hurricane" Yost, Kipke was one of the best punters to play in the Big Ten Conference.

Tennis Squad To Organize

Interested Men Are Asked To Meet In Room 209; Plans For Coming Season Will Be Discussed

All men interested in tennis are to meet in room 209 of the ad building this afternoon at 5 o'clock. Plans for the coming season will be discussed. Tech tennis team this year will be sanctioned by the athletic department. Matches will be arranged with other schools. A tournament will be held soon and freshmen are invited out.

Players out so far are Gordon May, Cecil Bickley, and Polk Robison, all veterans in Tech tennis. Larry Taylor and Rucy Baird are other men who are not in the veteran class but who are expected to be dependable.

James Toothaker, and Lloyd Glover, up from last year's freshman squad are valuable additions to the squad. Wayne Moffett, Byron Terrell, Marvin Messersmith, Harry Bivens, Vincent Cox, and Truman Green are other capable men who will bear watching. There may be others on the campus who could give these men tough competition; so all men are urged to come out.

Tech Golfers Are To Meet

Players To Assemble In Double "T" Room At Gym; Langston Chairman At Meeting; Elimination Games Billed

The Texas Tech golf club will meet in the double "T" room Friday night at 7:30 (with Lonnie Langston as chairman). Discussion will be on the Texas Tech golf tournament and the West Texas College Invitation tournament to be held in Lubbock. The captain of the Tech golf team will be elected.

The golfers to represent Texas Tech this year will be determined by elimination in the men out. This elimination tournament will be held at the Meadow Brook country club, where the team is to practice.

Men that are out for the golf team are: Billy Holmes, Shamrock, winner of the Tech championship for the last two years and winner of the Greenbelt golf tournament at Electra last year; Walter Pendleton, Shamrock; Harold Crites, Lubbock, and Jack Wilson.

Under The Double "T"

BY BOB TRACY
Toreador Sports Editor

Chalk up another achievement for Pete Cawthon. He has secured the services of none other than Harry Kipke, head coach of football at the University of Michigan, as one of the instructors of the grid game for his third annual coaching school, July 13 to August 12. Kipke is the man that made the short punt system famous in football with his pack of Wolverines. Like the school of last summer, this one will surpass any ever given in Tech.

Tech is going to have tennis as one of the sports on its calendar according to Homer Roberts, graduate geology student. Roberts, a staunch supporter of the game, has announced that he with the aid of others will organize a tennis club and endeavor to promote a few matches with other schools. The plan now being worked out calls for an elimination tourney among Tech netters, and the winners will be matched with outsiders.

Which all goes to show that there is plenty of enthusiasm in campus tennis circles. Roberts has stated that it is the wish of the athletic department to continue with tennis and they have formulated this plan as a savior of the game. Tech has the courts, but no money to hire a coach to whip a team into shape. The members of this club deserve credit for they intend to bear Tech's tennis burden without any promise of reimbursement. The matches to be arranged will be played on a home and home basis.

From "Hither and Thither" of the New Mexico LORO comes this bewailment. "We wish Tech would make up its mind whether it is in or out of the conference, and in the future quit messing up the conference races by scheduling just enough games to stop anybody else from having a very definite claim on the title."

Now, that is something to think about all right. Tech hardly plays enough games for us to know we are in a sure enough conference. This writer admits that a conference championship won by playing only four games is pretty easy to take, but it hardly seems fair to the other member-teams in the conference who have to play about 14 games for a chance at the same title.

Maybe the "Conference Fathers" could get together and decide on a minimum number of games to be played for the championship. The member-schools could arrange their schedules so that they would play the proper number of games in the conference. Then there would be no unbalanced schedules of any of the schools winning the championship on the percentage basis alone.

Buffis Invade Matador Gym For Two Games

First Of Series To Be Played Tonight; Buffaloes Are Nationally Known For Court Records; Is Tallest Team

Texas Tech's Matadors will attempt to stop Coach "Sad" Sam Burton's towering Buffs from West Texas State Teachers college tonight and tomorrow night at the Tech gym. This series with the Buffaloes will probably wind up the season's schedule for the Matadors.

The Buffs have long held the spotlight in basketball circles of the Southwest and have gained nationwide recognition within the last few years. Their long reign in the old T. L. A. A. is a legend.

Height Makes Might
Coach Burton selected the personnel of his team on the assumption that height makes might. Joe (College) Fortenberry, captain and center, has a height of 6 feet 7 inches. Comer, a forward, and Elwood, a guard, stretch the tape measure 6 feet 5 inches, while "Turk" Colvin, forward, stands 6 feet 4 1/2 inches. Burk, a guard, is one of the smallest men on the squad, measuring only a mere 6 feet and 1 inch. "Cow" Williams, an alternate forward, is 6 feet and 5 inches in height.

The Buffs' consistent winning streak has extended over a period of several years and their showing this season is no exception to the rule. Early in the season the Buffaloes dropped a close game to the strong Phillips university from Oklahoma. In January the Buffaloes split a two game series with the Wichita Henries, National A. A. U. champions three years in a row. Monday night the Teachers trounced the Kansas State Lines quintet, the team which eliminated them from the National A. A. U. tournament last year. Coach Burton plans to send his Thundering Herd to the A. A. U. at Kansas City again this season.

In seven years of competition there might be a tournament held for the playoff. Such a thing would create interest in all the schools.

Cage Tournament Planned For Girls

The first high school girls basketball tournament of district number 2 will be held at the Texas Tech gymnasium February 29, beginning at 2 o'clock.

Four South Plains towns will be represented here by the strongest teams in this section of the country. The winning team of this district will be eligible to enter the AAU meet which will decide the 1933 state championship of girls' basketball.

Games were scheduled to be held last Tuesday night to decide the four best teams for this district. Championship now lies between Kalls, Shawwater, Ropes, Lamessa, Meadow, Crostan, Sudan, and Southland. Jimmy Gammill, member of the National Board of Approved Basketball Officials, will officiate the tournament.

Finals will be played Saturday night at 7:30 in the gymnasium, according to Gammill.

With the Buffaloes, the Teachers have only won four games. Last month the Elsons walloped the Matadors decisively in two tilts on the Canyon court, but since then the Bull Fighters have shown much improvement and are out to get vengeance for past defeats handed them by the Teachers. Although the Buffs are ruling favorites to take the series, the Matadors are confident of at least making a creditable showing against the "tallest team in America."

Out of 19 starts this season, the Teachers have registered 14 victories.

Oklahoma Teachers Cop Cage Tilt From Matadors On Friday

Dunn Starts Scoring With Long Shot; Game Marked By Fast Work Of Players And Officials

The Southeastern Oklahoma Teachers of Durant defeated the Texas Tech Matadors with a climax finish 33-31, Friday night, in one of the most closely contested games seen on the local courts this season.

With the score standing 31-31, and with but eight seconds to play Captain Bowden of the Savages took the ball on the tip-off, worked his way to the basket for a crisp shot and the margin of victory for Southeastern.

Dunn Scores
Tech started the scoring when Captain Dunn sunk a goal from the side of the court. Polk Robison followed with a crisp shot. The Savages got into action, and Lewis, Bowden, and Tipton, all made their attempts good. Will Gilmore challenged the Teachers with a field goal from center. Bowden made two baskets in rapid succession, and Tipton sunk a long one. Stephenson converted his charity throw on Thomas' foul. Henry Loter hit one from the side and Robison followed with a crisp shot. The half ended 17-12 in favor of the Oklahomans.

The Matadors came back the second half to tie the score on Loter's two field goals and Green's free throw. Both teams were working the ball in for shots but found diffi-

WAA Team In Field Ball Win

Speedball To Be Played Last Two Weeks Of Term; WAA Members To Be Divided Into Squads And Given Points

The WAA field ball team won the game played against a physical education team last Thursday afternoon, with a score of 8-5. This game ended field ball practice, but the same girls have taken up soccer, and will play a game against one another in two weeks. Zella Reigel, assistant professor in physical education, is coaching both teams.

The girls will play speed-ball the last two weeks of the term. Girls interested are urged to come to the gymnasium every Tuesday and Thursday afternoons at five o'clock. The games are played on the football field.

At the end of the term, WAA members will be placed in three teams according to playing ability. The girls will be given letter points: 100 points for first team, 75 for second, and 50 for squad.

o'clock Wednesday night in the room of the home ec building. Lessons will be continued Wednesday and Thursday nights from 7 to 8, Miss Ruth Carter, president of the club, announced.

Dancers Sign Up
Thirteen boys and sixteen girls have signed up for the dancing class sponsored by the home economics club which is being taught by Lewis Walker, local dancing instructor. The first lesson was given at 7

Tech Student Is Victim Of Hit And Run Driver; Pre-Law Posse Arrests Charles Cobb; Trial Date Is Named

F. H. Heidel, a sophomore pre-law student at Tech, was fatally injured Wednesday evening at 8 o'clock by a hit-and-run driver while he was crossing College Avenue returning to work at the Hilton Hotel from a class at Tech. Mr. Heidel was immediately taken to the West Texas Hospital where he was given emergency treatment. An x-ray revealed that a broken rib had punctured his right lung, and that he had suffered concussion of the brain. In addition to internal injuries. He lived only two hours after reaching the hospital. Artificial respiration, furnished by friends for two hours, proved futile.

Mr. Heidel's parents have been notified, but no funeral arrangements have been made. Charles Cobb was recognized as the driver of the car that struck Mr. Heidel by Max Loughmiller, Odie Hood, Eva Ruth Brady, and L. Waldrip, eye-witnesses to the accident. Witnesses agreed that Mr. Cobb was going well above 50 miles per hour and that he did not look back after he had struck the victim.

club will try the case in room 302, March 5, beginning at 7 o'clock.

W. R. Hudson is receiving treatment for an injured limb at the West Texas hospital.

Athlete Swan was treated for sinus trouble at the Lubbock sanitarium this week.

Social Clubs Entertain Guests And Friends With Many Parties

Los Camaradas, Sans Soucis, Las Vivarachas, Las Chaparritas Members Are Guests At Events

The social activity of the various clubs this week includes dances, dinners, and bridge parties. Las Chaparritas club attends two dinners. Las Camaradas club had their annual dance last Friday evening. Las Vivarachas will give their annual dance Saturday, and the San Souci club was entertained at a bridge party Wednesday afternoon.

Los Camaradas Members Attend Annual Dance

Novelty lighting effects were featured when Los Camaradas club members were hosts at their annual formal dance last Friday evening in the ballroom of the Hilton hotel. Five new members were honored. The club crest was suspended above the orchestra pit, and colored spot lights were turned on the dance floor. Ned Bradley's orchestra furnished music for the affair.

The new members are Ralph Snyder, Buster Moxley, Lloyd Marr, Fred Williams, and Albert McGinty.

The other club members are Bill Stubbs, Ordis Forbess, Clarence Bobo, Jack Grundy, Howard Corley, John Vickers, Merle Jones, Billy Holmes, Curtis Williams, Aud Darr, and Walter Pendleton.

Their dates were Misses Sue De La Fosse, Lois Adair, Mary Frances Senter, Geraldine Durham, Pete Hawkins, Faye Brown, Ann Caldwell, Voncie Gilkerson, Ila Steele Patterson, June Lawrence, Frances Burns, Jean Shelley Jennings, Tina Reynolds, Lucille Hunt, and Sylvia Wilson.

Returning club members were James Dominy of Paducah and Marshall Formby from Macadoo. Formby's date was Miss Louise Wardlaw.

Special guests were Dr. and Mrs. Bradford Knapp, Mrs. Mary W. Deak, Miss Anna J. Pendleton, Miss Ruth Pirtle, Miss Johnny Gilkerson, Mr. and Mrs. George Woodbury, and C. E. Russell. Dr. Knapp is sponsor of the club.

Elizabeth Houston To Marry A. J. Hewitt

Announcement has been made of the approaching marriage of Miss Ruth Elizabeth Houston, freshman home economics student, to A. J. Hewitt of Youngstown, Ohio, on March 8.

Miss Houston and Mr. Hewitt are both from Plainview, but the latter has been employed in the Tuscan Steel company of Youngstown, Ohio.

The couple will leave for Ohio following the wedding where they will make their home.

Miss Houston withdrew from Tech Monday.

Miss Harrison Entertains Las Lealas Guest

Miss Eufaula Wise of Amarillo was the guest of Miss Pearl Harrison last week-end. Miss Wise received her M. A. degree from Tech in 1932 and was an assistant in the math department during the same year.

Being an alumni member of Las Lealas, she was in town for the club's annual banquet, which was given Saturday night in the Hilton hotel.

Mysterious Mike Moses Around

Well fellows here we are in the week after MID TERM REPORTS and VALENTINE DAY. If all of you will bear with OLE MIKE he will tell you all about CUPID and HIS BOW and ARROW. VENUS is one arm in the wringer. Her right name was APHRODITE, but the telephone company changed it when they put in the dial system. She was brought up by the NYMPHS of the SEA and that's why she always appears ready for SWIMWAYS.

Chamber Of Commerce Discusses Blue Key Installation

Plans were discussed for the installation of the national Blue Key fraternity at the regular meeting of the Tech Chamber of Commerce, held last Monday evening in room 318 of the Ad building at 7 o'clock. The Blue Key fraternity is a national organization started in Florida university for the purpose of sponsoring worthy college activities, according to Ray C. Moore, president of the Tech C. of C.

FISH YMCA MEET

The freshman YMCA will meet at the First Methodist church next Sunday afternoon at 1:30 o'clock. Dean J. M. Gordon will be the principle speaker. His subject will be "Personality."

Tech Students Give Program

Tech students from the speech department gave a program to the general assembly of the Crosbyton schools in the high school at 10 o'clock Wednesday morning, according to Miss Ruth Pirtle, head of the speech department. Music, roping tricks, dancing, and a one act play were given.

Program Given Is As Follows:

- Piano solo by John Louis Cook;
- novelty musical numbers by Calvin Hazelwood; roping tricks by Billy Lewis; clog dancing by Christine Fandy, Geraldine Durham, and Dorothy Vandagriff; vocal solo, Franz Lehar's "Yours Is My Heart Alone," by Harrison Monroe; and a one act play, Cook's "When Love Is Young," by Lloyd Marr, Kathrin Holgate, Marjorie St. John, and Ernestine Hendricks.

THE HUMAN CRICKET

BEATS OLYMPIC RECORD!

ILLUSION: Josie, the lovely trapeze artist, stands upon a small platform. At the will of the magician she leaps twenty feet into the air to reach her trapeze. She uses no ropes, no ladders! A phenomenal leap for a woman... or a man!

EXPLANATION: Josie didn't jump... she was sprung! The twenty-foot leap is not dependent on Josie's ability, but on a powerful spring mechanism hidden beneath the stage which propels the artist upward through the air. The force is so violent that the lady wears a light steel jacket which protects her from injury as she starts her astonishing leap.

IT'S FUN TO BE FOOLED

...IT'S MORE FUN TO KNOW

Magic has its place... but not in cigarette advertising.

Consider the illusion that there is a mysterious way to give cigarettes a superior "flavor."

EXPLANATION: Cigarette flavor can be controlled by adding artificial flavorings. By blending. And by the quality of tobaccos used.

Cheap, raw tobaccos can be "built up" or "fortified" by the lavish use of artificial flavorings.

Such magic, however, seldom holds the audience. Your taste finally tells you the truth.

The cigarette flavor that never stales, never varies, never loses its fresh appeal, comes from mild, ripe, fragrant, more expensive tobaccos... blended to bring out the full, round flavor of each type of leaf. It's the quality of the tobacco that counts!

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Because Camel actually pays millions more every year for choice tobaccos, you find in Camels an appealing mildness, a better flavor.

And Camels taste cooler because the welded Humidor Pack of three-ply, MOISTURE-PROOF cellophane keeps them fresh.

CAMELS

NO TRICKS... JUST COSTLIER TOBACCOS IN A MATCHLESS BLEND
