## Amateur Night Headlines Third Week Recreations

### Kinchen Lecture, Sextet Other Features Add To Play Card

Amateur entertainers on the campus will perform for fellow-students on the Administration building green Wednesday night, as a part of the "every night entertainment" schedule being sponsored by the summer school recreation committee.

Opening the week's entertainment will be the regular weekly band concert Monday night on the green, with D. O. Wiley, music professor, and other directors leading the huge summer school band of juniors, intermediates, and college enrollees.

Arrangements and entrants for the Wednesday night amateur session are being handled by a five-member committee appointed this week by James G. Allen, dean of men and chairman of the summer recreation committee. Chairmanship will be assumed by Miss Ruth Pirtle, head professor of speech, the committee is composed of: Miss Mayme Twyford, associate professor of foods and nutrition; Lewis Spears, instructor in physical education; and Robert L. Lockard, associate professor of architecture and allied arts.

Entrants in the contest have been asked to leave their names in the office of Dean Allen, Room 209, Administration building, said Paul White, assistant to the dean. James M. Gordon, dean of the division of arts and sciences and chairman of the summer school committee, will direct the program on the platform.

Dr. O. A. Kinchen, associate professor of history, Tuesday night will speak on "Old English Universities".

## First All-College Dance Is Tonight

First all-college dance of the summer, sponsored by the summer school recreation committee, will begin in the Women's Residence hall this evening at 8:30, announced Paul White, in charge of arrangements for summer recreation.

The dance will be preceded by a reception in the lounge from 7:30 until 8:30, when Miss Mozelle Craddock, dietitian of the residence halls, will preside.

Chaperones for the affair will be: Lieut. and Mrs. Herrol J. Skidmore, Mr. and Mrs. A. B. Strehli, and Dr. and Mrs. C. B. Qualia.

Admission to the affair will be by presentation of the summer school recreation ticket only, White said. Tickets will not be sold. Similar dances will be held each Friday evening throughout the summer session, according to committee plans.

## College Calendar

**TONIGHT**  
Dance in Women's Residence hall, 8:30 to 11 o'clock  
**Monday, June 27**  
Free Band Concert  
**Tuesday, June 28**  
Dr. O. A. Kinchen, Lecture on "Old English Universities"  
**Wednesday, June 29**  
Amateur Night directed by Dean James M. Gordon  
**Thursday, June 30**  
The Master Singers

## Brock Speaks To Sanitation Class Monday

### State Health Authorities Appear As Lecturers Next Week

Appearance of prominent state and local health authorities is highlighting the current program in Tech's first summer course for health workers and sanitation officers.

Next week will begin with a lecture Monday morning by F. D. Brock, director of the food and drug division of the State Health department. He will discuss "State Food and Drug Laws". Tuesday, E. E. McAdams, executive secretary of the League of Texas Municipalities, is to speak on "Municipal Health Ordinances".

The course, first of its kind to be offered by any in a Texas college or university, continues to draw praise of health organizations and the press over the state. Twenty-four persons have enrolled for the course.

**Smith To Speak**  
"Common Diseases: Tuberculosis" was the subject of a lecture Monday by Howard E. Smith, director of the division of Tuberculosis of the State Health department. J. Q. Sealey, associate professor of biology, assisted Smith in the presentation of his material. Appearing the same day was Doctor J. W. E. H. Beck, director of Local Health service of the state department. His discussion concerned "Federal Public Health Service".

Doctor M. H. Benson, Lubbock pediatrician, spoke to the group Tuesday on "Nutrition". On the next day Fred W. Dodson, Amarillo dentist, spoke on "Mental Hygiene", and J. C. Wyatt, city chemist of Amarillo, discussed "Dental Fluorosis". Yesterday, Dr. R. B. Wolford, director of District Two of the State Health department, appeared on the program.

**Bullen Appears**  
Also on the coming week's calendar is C. V. Bullen, head of the department of electrical engineering, who will speak on "Illumination".

Cooperating with college officials in presenting the course is the Vocational division of Education of Texas and the State Health department. On the campus the study is being offered under the combined efforts of the engineering, arts and sciences, and agriculture divisions. In charge of direct administrative affairs is the engineering division.

## Amarillo Club Sponsors Dance For Tech Alumni

A dance to which Tech students from all over the country are invited will be given at the Nat in Amarillo by the Amarillo Tech club June 30.

James H. Smith is president of the Amarillo chapter. Ward Garrison will act as program chairman.

E. V. Middleton, instructor in civil engineering, has started to work as engineer in this division of the Texas Highway department. Middleton will work during the summer months and return to Tech next fall.

## They Open Artist Course

Opening the summer session artist course under sponsorship of the summer school recreation committee, the seven men pictured above will appear locally Thursday evening. They are the Master Singers, sextet of vocalists, and their piano accompanist. At least four other programs will be offered during the summer by off-the-campus entertainers, the recreation committee has announced.

## Master Singers Begin Summer Artist Course

### Committee Books Sextet For Appearance Here Thursday Night

Opening artist course program will present the Master Singers, male sextet Thursday night, on the Administration building green.

The singers have been recognized by critics all over the United States. Herman Devries of Chicago said: "The Master Singers are, I assure you, really singers. It is a joy to hear these men. They sing with remarkable assurance and refinement and with perfect intonation. If we could only hear such pure and beautiful music oftener".

**Dillard Praises**  
Glen Dillard says: "It is unquestionably the finest ensemble of its kind in Chicago history... Beautiful music, beautifully sung".

Eugene Stinson declares that, "There is nothing but praise for these singing gentlemen. They sing in quasi-Russian style and their performance is full of vitality".

Among the best in their 200 song repertoire are: "An Evening's Pastoral", Shaw; "Bells at Eventide", Rachmaninoff; "In a Monastery Garden", Ketelby; "De Glory Road", Wolfe; "Song of the Jolly Roger", Candish; "Pilgrim's Chorus", from *Tannhauser*; "Toreador Song", from *Carmen*; "One Alone", from *Desert Song*; "Ranger's Song", from *Rio Rita*; "Song of the Vagabonds", from *Vagabond King*; "Great Day", Youmans; "We Saw the Sea", Berlin; "Ave Maria", Bach-Gounod; "All in the April Evening", Robertson; "Thanks Be To God", Dickson.

Sponsored by the summer school recreation committee, the appearance of the singers marks the first program to be offered this summer by off-the-campus entertainers. Other artist course appearances likely will be made by: Mr. and Mrs. Ernest Thompson Seton, authors and lecturers; J. Frank Dobie, University of Texas writer; Bob James, jr., Shakespearean monologue artist; and the Coffer-Miller players, stock company.

Holders of summer school recreation tickets will be admitted to the program, and others may purchase individual tickets for twenty-five cents, announced Paul White, who is in charge of summer recreation.

## Multiple Personality Elevates Doctor Cunningham To Top Ranks Among Popular Campus Professors

By J. B. Cearley  
Genius of fiction-writing and friend of the aspiring literary student is none other than capable, experienced, efficient and friendly educator, Dr. A. B. Cunningham, professor of English.

Doctor Cunningham has the perfect personality. He greets everyone with a friendly, "Howdy", and wears a congenial smile. He is the style-fancier for all boys in his classes. His ability in choosing colorful and modern shirts and ties is remarkable. He says, "I rather like my dress a bit loud". Every time you enter his office, he has his pipe going full speed and is ready to spring a new joke on you. The most peculiar thing about his physical build is his mustache—and there isn't much to it. Here, he always has the student, because no one has ever been able to grow one that will equal his.

In *Who's Who* Doctor Cunningham has been

rated in *Who's Who in America* for nearly 20 years. He has written several novels and over 100 short stories. His novels have been published by Doubleday, Doran, and by the Appleton publishing companies of New York, and his stories have appeared in well-known magazines.

His career as an author began when he sold his first story at the age of 27. Since then, one of his novels, *Singing Mountain*, has been awarded fourth place among American fiction for the year in which it was published.

**Teaches Courses**  
Besides instructing courses in the short story, the structure of the novel, and other English courses, Doctor Cunningham renders great service to students interested in creative writing. He is constantly taking students into his office or to his home to give them further advice, help, and criticism on their stories and to promote their writing abilities.

Without his sincerity and willingness to take the manuscripts of hopeful students and read them to give personal criticism, many students would wander on with their writings and never make a success, they believe.

**Keeps Interest**  
Students have remarked that his encouragement and help outside the classroom have done more to keep them interested in trying to become authors than all the courses and instruction they have had during their college careers. He has given names to several students' stories and aids them in seeking markets for their manuscripts.

Before coming to Tech in 1929, Doctor Cunningham had taught in the University of West Virginia, and was dean of liberal arts at Puget Sound college in Tacoma, Wash. He received a B. A. degree from Muskingum; B. D. from Drew university; and M. A. and Ph. D. degrees from New York university.

## Local Traffic Students May Receive Award

### National Bureau To Give New York University Scholarships

LOCAL traffic education enthusiasts who wish to continue their study in that field now have the opportunity under a traffic education scholarship being offered this year by New York university.

A bulletin from the university has announced that at least 18 such scholarships will be offered for the academic year 1938-39.

The scholarships are being given by the Division of General Education in cooperation with the National Conservation bureau. Each scholarship provides an annual stipend of from \$400 to \$1,200 to those who qualify, the amount in each case depending upon the qualifications, experiences, and needs of the candidate, and his plans for future work in the traffic education field.

### McRee Has Charge

Offered for the second consecutive summer, the local course in Traffic Safety and Automobile Operation has drawn an enrollment of approximately 30 from various parts of the state. F. L. McRee, associate professor of civil engineering, is in general charge of the course. He made the announcement of the scholarships being offered by the university. Last summer the college was one of two institutions in Texas offering a course in traffic safety education. McRee and party of 15 representing various clubs and civic organizations in the city recently returned from a state safety convention in Fort Worth, called by Gov. James V. Allred. Aims adopted at the Fort Worth meeting and those of the local course coincide to a great degree.

### Purposes Agree

Purposes of the scholarships award also coincide with local and state aims toward greater traffic safety education for the general motoring public. A bulletin describing the scholarships comments:

"The hazards of modern living have thoroughly demonstrated the need for widespread safety education.

"There is now demanded in-

## Loan, Grant Amount To \$350,909 For Structure

APPROVAL yesterday of a Public Works administration loan and grant for construction of a new men's dormitory on the campus added \$350,909 to the building program of the college.

Architect's plans have been completed by Wyatt C. Hedrick of Fort Worth, and work on the new structure, to be located east of the present men's dormitory, will begin as soon as building contracts can be let.

A telegram late yesterday morning from Lloyd Croslin, secretary to Congressman George H. Mahon informed W. T. Gaston, business manager of the college, of the approval. The appropriation includes a grant of \$157,909 and a loan of \$193,000, Gaston said.

### Seek Women's Hall

The board of directors had authorized Gaston, who is a member of the executive committee now administering affairs of the college and treasurer of the board of directors, to direct applications for the building provided for this week and for a similar structure for a women's residence. Gaston and other officials still are advancing application for the second dormitory, it was stated yesterday afternoon.

Application for the two

structures had been pending since 1935, and college officials, including the late President Bradford Knapp, had made numerous trips to Washington to confer with government leaders on the project. Plans had been completed, in event the applications were approved, and the site has already been selected, officials state.

### Hedrick Is Architect

In their meeting on the campus June 6, the board of directors had authorized Hedrick to complete drawing of plans for the dormitory. In general, the structure will closely resemble the present dormitories, the plans show. Principal difference will be in the middle projection of the "E" form of the building. An additional lounge will be provided in front of the dining room in the proposed structure, making the inner projection longer and providing a place for men to rest while they await meals, it was pointed out.

Housing the same number of students, only other differences will be in the front of the new dormitory, which will have a higher front elevation (See Dorm, page 4)

## Chapman Keeps Courts In Shape

The four clay tennis courts south of the Women's dormitory are being kept in "excellent" condition, said Wilson Chapman, varsity tennis star and caretaker of the courts for the summer.

Campus tennis players who are enrolled in college for the summer session may rent the courts for ten cents per hour per person, Chapman said. Persons not enrolled must pay twenty-five cents per hour per person, he added.

Reservations may be made at the courts or at the college bookstore.

Former restrictions on the courts have been removed. None is reserved especially for varsity players, and all courts are open for reservation by the general public, Chapman pointed out.

Money obtained from rentals will be used for upkeep of the courts.

Marie Zimmermann, June graduate, is secretary to her father, Attorney Dennis Zimmermann, in Tulsa. She was vice-president of the June graduating class and president of the Women's Press Club.

## Makes Race

Alvin R. Allison, above, 1930 graduate of the college, is campaigning for representative from the 119th legislative district. He is present Hockley county judge.

## Allison States Points In Race

### Hockley County Judge, 1930 Graduate, Runs For Legislature

Alvin R. Allison, present Hockley county judge who is campaigning for state representative from the 119th district, has six major objectives in his recently released platform.

Allison, 1930 Tech graduate, advocates the following: Immediate liberalization of the Old Age Pension law according to the four-to-one mandate of the people voted in 1935; an amendment to the present law, in order that the farmer may retain the state gasoline tax of four cents upon purchase instead of waiting for action in Austin; adequate provisions for destitute children and teachers retirement as provided for by a three-to-one mandate of the people; an increase of the present \$22 per capita allotment for school children, and adequate appropriations for Texas Tech; the defeat of a sales tax in any form, and no additional taxes of any kind.

### To Levelland

Following graduation from Tech, Allison moved to Levelland, where his family resides (See Allison, page 4)

### Cleaners, Dyers Conclude Two-Day Short Course; Coughlin Appears In Scheduled Program; Heard Directs

Enrollment Exceeds 250 As National Leaders Speak At Session

CLEANERS and dyers of West Texas, along with many nationally known authorities in that field, close a two-day session on the campus today with the attendance well over the 250 mark.

Fourth and climaxing event of a Texas series of such courses, the affair drew a larger crowd than previous sessions. The course was sponsored jointly by Texas Tech, state and national associations of dyers and cleaners, and the University of Texas.

From Four States

Representatives registered, not only from West Texas, but also from portions of Oklahoma, New Mexico, and Colorado. The main ballroom of the Hotel Lubock was the scene of lecture sessions, while demonstrations were held in the Stinson cleaning plant, 1708 Broadway. Feature of the entertainment program of the convention was a banquet for visitors and their guests.

Among those prominent in cleaning and dyeing circles of the United States who were scheduled to appear on the two-day program were:

Coughlin Here

Dr. W. E. Coughlin, New York City, technical advisor of the Celanese Corporation of America, lectured on "The Proper Treatment of Celanese in the Cleaning and Dyeing Plant".

"New Developments in Ladies' Finishing" was the topic discussed by Mrs. Jennie Wisneski Maher of Washington, D. C. She is an expert of the National Institute of Dyeing and Cleaning. D. K. Kirkpatrick of Los Angeles was the leading lecturer on the handling of leather goods. He accompanied his lecture with demonstrations.

Austin Men Speak

Two cleaning and dyeing authorities from Austin also appeared on the program: Kelly Smith who talked on "Cleaning Plant Accounting", and J. R. D. Eddy, director of state industrial education, who addressed the shout course group on work concerning his department.

"Developing Profitable Sales in the Cleaning Plant" was the lecture by Miss Laura Murray, who came from the University of Texas, where she is director of the bureau of industrial teacher training.

Another authority from the national institute in Washington, C. B. Randle, lectured on "Receiving, Marking and Cleaning Room Practice and Inspection".

Dallasite Listed

Also scheduled on the short course program were Noel Cooperider, consulting engineer of Dallas, whose subject was "Modern Clarification"; and Jack Hodges, machinery company representative, who discussed "Better Men's Finishing". M. E. Heard, head professor of textile engineering, lectured on "Modern Fabrics, Their Treatment in the Cleaning Plant", and John A. Stinson, local cleaner and dyer, spoke on "Practical Dyeing and Fur Cleaning". These two men made the same lectures to other Texas short courses.

They attended meetings in Dallas, first of the series, Houston, and San Antonio, location of the third short course held Monday and Tuesday. Heard, director of the series, and Stinson accompanied him, acting in his capacity of vice-president of the state association and local chairman of cleaners and dyers.

#### Miss McAllister Takes Campus Secretaryship

Miss Louise McAllister of Boulder, Colo., arrived Wednesday to accept a position as assistant secretary in office of Mrs. Mary W. Doak, dean of women, during the summer months.

Miss McAllister, a graduate of the University of Colorado, is a sister of Mrs. W. H. Abbit, wife of a physics professor.

Patronize Summer Session Toreador advertisers.

Among speakers at the two-day short course for cleaners and dyers here Thursday and yesterday were M. E. Heard, above left, head professor of textile engineering at the college; and Dr. W. E. Coughlin, right, technical advisor of the Celanese Corporation of America. Heard, director of the course, spoke on "Modern Fabrics, and their Treatment in the Cleaning Plant", and Coughlin's topic was "The Proper Treatment of Celanese in the Cleaning and Dyeing Plant". (See story to left)

### High School Employ Six New Agriculture Grads

Six June graduates of department of vocational agriculture have received positions in public schools, states an announcement from the division of agriculture.

Dean Harman will teach vocational agriculture in the public schools at Paint Creek, Haskell County. Harman lives in Tulsa.

Lawrence Hicks was notified of his appointment to the teaching staff of the public schools in Spring Lake in the vocational agriculture department. He will replace Fred Nix, a 1935 graduate, who will go to work soon with the Rural Resettlement administration in Littlefield.

Key To Memphis

Memphis public schools have added to their staff as vocational agricultural teacher, Johnny Key of Wilson.

Raymond King will go to Quitaque to become a teacher of vocational agriculture next fall. King's home is near Floydada.

Bovina will be the new home of Jim Wiman, who lives near Roscoe, as he takes up duties next scholastic year as vocational agriculture instructor in the public schools there.

Stilwell Russell will teach in the public schools at Wilson, beginning in September. His home is near Levelland.

#### Directories List Summer Students

Announcement was made this week that the mimeographed summer session directory is on sale in the information office. The sale on the summer bulletin began Monday.

Among the features of the official directory of the first term are: fifteen pages of general information, including the name, title, office number, address and telephone number of each of the summer session instructors and faculty members. College employees, excluding student assistants, are also listed in the same manner.

Telephone information concerning the college switchboard, along with a list of the dormitory employees, and dormitory telephone numbers is also listed. The body of the directory is devoted to the name, home address, Lubbock address, phone number, and college division of each student enrolled in the summer session.

The directory may be bought for ten cents in the information office, room 101, Administration building.

#### Assistant Librarian Is Vacationing In Thalia

Miss Emma L. Main, assistant librarian, left June 14 for a vacation at her home in Thalia, said Miss Elizabeth H. West, librarian.

Miss Main will return about July 8.

Attend the band concerts each Monday evening at 7:15 on the Administration Building green.

### Six-Man Grid

(Continued from page 2) from the place where the ball was put in play.

(b) Players on the offensive team may change positions on any play. The center may be transferred to the backfield and return to a line position at any time.

RULE 5. A player may re-enter the game at any time regardless of the quarter in which he left the game. Substitutes may talk to their teammates on entering the game. (Officials should not tolerate substitutions that are obviously made to delay the game.)

RULE 6. (a) The offensive ball carrier (No. 1), receiving the ball from center, must pass the ball to a teammate before he (No. 1) crosses the line of scrimmage. The ball must travel through the air after leaving the passer's hand, and before entering the receiver's hands.

(b) There shall be two timekeepers and two scorers on the sideline to assist the officials on the playing field. The timekeepers shall time the game according to the rules and under the direction of the Referee or other official on the playing field so designated by the Referee.

(c) If the clear pass is legally made but the receiver of the clear pass fumbles, or misses it, the ball shall be played as an incomplete backward pass or a fumble is played, even though the required clear pass is forward. (d) All forward passes made to players who are behind the line of scrimmage shall be considered backward passes. A ball handed forward to a teammate on a running play is illegal unless the "clear pass" is made on the same play.

(e) Defensive players shall have the right to advance less. (Note: A muffed punt may not be advanced by the kicking team; however, a punt fumbled after it has been clearly in the possession of the receiving team may be advanced by the kicking team. Fumbled, muffed, or missed backward passes may be advanced by the defensive team.)

RULE 7. A forward pass, thrown beyond the line of scrimmage, may be thrown from any point behind the line of scrimmage. All players shall be eligible for the forward passes.

RULE 8. (a) All players must wear canvas shoes with soft rubber soles. (This is not only an economy measure but it is also a safety provision. Canvas soft-ball shoes with soft rubber cleats are acceptable. This rule may be nullified to permit all players to use shoes with hard cleats if both coaches give their consent in the presence of officials.)

(b) The referee shall allow no player to play without a headgear.

RULE 9. (a) The playing time shall consist of four 10-minute quarters, (8 minutes for junior high school boys.) There shall be intervals of 3 minutes between the first and second quarters and between

the third and fourth quarters.) (b) There shall be two Timekeepers and two Scorers on the sideline to assist the officials on the playing field. The timekeepers shall time the game according to the rules and under the direction of the Referee or other official on the playing field so designated by the Referee.

The Scorer shall keep a running summary of the points scored by each team and a record of the name and number of each player. A substitute shall report his name and number of each player he is replacing to the Scorer, before he enters the field of play. The Scorer shall sound a horn and send the substitute in when the ball is dead. The substitute shall report to the Umpire, telling the Umpire his name and the name of the player he is replacing.

Ride one of our... SIX NEW BICYCLES Varsity Shine Parlor 1309 College Ave.

### Gordon Is Head Of Executive Group

Functioning as a unitary head of the college, the executive committee appointed this spring by the late President Bradford Knapp is continuing in its former capacity, announced Dean James M. Gordon, chairman of the committee.

President Knapp appointed the committee when he left the campus because of illness in March. Other members are Dr. Harry L. Kent, director of administrative research, and W. T. Gaston, business manager of the college and secretary of the board of directors.

Dean Gordon said the committee will hold a regular meeting in his office at nine o'clock each Wednesday morning, but special called meetings are held at intervals.

(b) There shall be two timekeepers and two scorers on the sideline to assist the officials on the playing field. The timekeepers shall time the game according to the rules and under the direction of the Referee or other official on the playing field so designated by the Referee.

The Scorer shall keep a running summary of the points scored by each team and a record of the name and number of each player. A substitute shall report his name and number of each player he is replacing to the Scorer, before he enters the field of play. The Scorer shall sound a horn and send the substitute in when the ball is dead. The substitute shall report to the Umpire, telling the Umpire his name and the name of the player he is replacing.

RULE 10. At the end of the 15 minute period between halves, both teams shall report to the field and engage in a 3-minute warm-up period before starting the second half. Penalty for Violation: Loss of ten yards on the opening kick-off. If receiving team is penalized, the place of the kick-off shall be advanced 10 yards. If the kicking team is the offender, the kick-off shall be made 10 yards back. (This rule is a safety measure for the benefit of both teams.)

RULE 11. (a) The value of a field goal shall be four points. (This is a safety measure. It encourages kicking between the 20 yard line and goal line where the injury hazard of a running play is much greater than on other parts of the field.)

(b) The goal posts shall be on the end line and at least 20 feet in height and be placed 25 feet apart. The horizontal cross bar between the two posts shall be nine feet above the ground. (c) The value of a try-for-point shall be two points made by successfully kicking a goal from the field. If the successful try-for-point is made in any manner other than by a kick, it shall count for one point.

### Versatile Lubbock High Student To Enter Tech

#### Bill Clark Plans College Career On Newspaper; Wins New Award

"Versatile, athletic and interesting" makes a graphic word picture of Bill Clark, prize Lubbock High school graduate and future journalism major in Tech, and who recently scored again among the blue-ribbon bearers by winning first place in the statewide essay contest sponsored by the Auxiliary of the Veterans of Foreign Wars. This latest triumph is only one of many first and second place positions won by the literary-inclined youth.

Despite being a fresh-air fanatic and an ardent tennis player, Bill found time last school year to edit the Western World, high school newspaper, to be selected best boy citizen by the Mothers' Club, and to interview Mrs. Franklin D. Roosevelt in an elevator. He spends his summers on the tennis courts with occasional loafing and lawn-mowing to "keep the pockets jingling". Though journalistically inclined, he is definitely not a book-worm.

A firm believer in the ancient adage, "travel broadens", the hopeful young journalist advocates living as much of life as possible and starting to write after the age of thirty, but, adds whimsically, "one must have something to live on and for while waiting to become thirty". "Practice makes perfect", is another of the mottoes in his favorite file, and he applies it on the courts and in his literary efforts, many of which have been accepted and printed by publishers. He spent twelve days the first of the summer at Fort Worth and "enjoyed the swimming".

Hoping someday to own a ranch, thus satisfying his outdoor and fresh-air craving soul, the genial high school graduate plans to work on the winter Toreador in connection with his journalistic studies.

Brief word descriptions by an acquaintance are: Interested in other people... thoughtful at times... genial and well-going... active and has definite impressions on life and other matters of major importance.

Mrs. Louise C. Allen, instructor in journalism, is working toward her master's degree in journalism at the University of Missouri this summer.

A visitor on the campus this week was John T. Howell, 1936 graduate. He has been teaching at Robertson school, near Lorenzo, for the past two years. He was graduated with a major in government.

Bill Clark, above, June graduate of Lubbock High school, this fall will bring his literary, journalistic, and oratorical personality to the campus to major in journalism, he told a Summer Session Toreador reporter yesterday. (See story to left)

Miss Mina Marie Wolf, who received her degree from Tech in 1937, is an instructor in foods and nutrition in the home economics division for the summer session.

Miss Wolf has been studying at Columbia university for the past year. She will continue her work there next fall.

L. H. Moore, associate professor in the department of philosophy and education at the Texas State College for Women, Denton, is one of the ten visiting instructors in here this summer. Dr. Moore is lecturing in education during both summer terms at the college.
