# Following Week Is Filled With Artist Programs

## Schools Plan Big Toreador Edition

Greater Rivalry Than Ever Before Expected When Schools Edit Paper This Year

Being about the time of the year that the four schools of Tech begin their editions of The Toreador, plans are being made for the papers in which each school tries to out do the others. Rivalry promises to be greater than ever this year. Members of the Home Ec school have already stated that they are about ready to begin the championship again. "Again?" some members of the other schools are asking, as if they were not sure the co-eds have been publishing the best paper.

Regular staff members seem to steer clear of the rivalry, remembering that the four schools have shown quite a bit of originality in their respective editions. One year the Aggies ran a humorous car-showing how the Engineers would milk a cow mechanically. Then the engineers came back with a phrase which ran something like this: "She lived down by the old mule barn and..." (Come so wont repeat 'n Freshman ask the supercilious near you. He'll probably be able to relate the rest.)

As for the Lib-ral Arts School, you can depend on them running a lot of poetry, the other schools acclaim. The plan for choosing the representative editors is as follows: The Home Economics club is to elect the Home Editor; the Engineering Society is to elect the Engineering Editor; the Aggie club is to elect these men are to appoint their assistants.

The editions are expected to appear the first of next term.

## Fish Queen Being Elected This Week

Election of a queen for the annual fresh-ma dance is being held during this week. Ballot boxes are to be placed in the corridors, and each freshman is allowed one vote. The following girls have been suggested as candidates: Beth Wulfman, Rita Husstatter, Leah Bari Medlin, Irene Frinke, Mary Fricell, Zona Stiles, Mary Elva Burns, Frances Ford, Marjorie Almsworth, Virginia Murray and Camille Stobough. The date for the dance has been set at March 8, and it is said that bids are being sold only to freshmen, who may distribute them among their friends. The price of one bid, which may be used by either a couple or a stag, is \$1.25; the price for two is \$2.00.

## Tech People To Be Rotary Club Guests

Several members of the faculty, including President Horn and Dean Gordon, and several members of the student body, including Jack Maddox, Willard Nott, W. E. Street, John Burroughs, and Otis Koen, will be guests at a luncheon of the Slaton Rotary club.

These Tech people have been invited to the luncheon with the idea of promoting a closer relationship between the college and the people of that city.

The Lubbock Rotary club has appointed a committee to formulate a plan whereby more business men of Lubbock and students of Tech may become personally acquainted.

## Sociology Students To Leave Saturday

Twenty-three or more Sociology and Philosophy students expect to leave for Santa Fe, New Mexico, where they are to study in a museum there. Dr. John C. Granbery, head of the Department of History is to be in charge of the trip.

## Club Entertained Recently By Party

Recently the Spur club was entertained with a party given at 2407 Tenth street by Messrs. McClure, McArthur, Powell, and Barrett. Several games of bridge and forty-two were played, after which refreshments were served. The following were present: Misses Addie and Allie Briggs, Brown, Cellum, Toun, Clemens, Laester, Loper, and Richey, Messrs. Barrett, Bayoussett, Cloud, Davis, Gee, Formby, Lankford, McWilliams, McClure, McArthur, Powell, Robinson, Stewart, Perkins and Walker.

## Here Friday

**EDNA SWANSON VER HAAR**  
Miss Ver Haar, famous contralto, will appear in joint recital with Alberto Salvi, premier harpist of the world, at the Gym Friday night.

## Webb Takes Place As Law President

Holmes Webb was elected president of the Pre-Law club last week at its regular meeting, replacing the president who was recently convicted on impeachment. This meeting was the shortest that the club has held this year, there being nothing on the program except the election and a few business matters. Announcement was made that Trett Smith, Clerk of Lynn county and Pre-Law student at Tech last year, will speak at the next meeting of the club on Wednesday, February 27. It was disclosed that the program will also include a violin and piano duet by Ray Agnew and Lizzie Belle Clements, and a musical number by Harry LeMaire. An announcement about the annual Pre-Law club banquet will probably be made then.

## Bill Introduced To Abolish Frats

Abolishment of social fraternities at the State University with a penalty or jail sentence for violation of the act was introduced in the Senate last Tuesday by Senator W. E. Thomason of Nacogdoches. Thomason had drafted the bill after the university campus, and conferring with fraternity leaders and student officials. The bill was referred to a committee on State Affairs.

## Geology Department Moved To New Bldg.

The Geology Department was moved from its old location on the third floor of the Administration building to the new Chemistry building late last week. It is understood that the department will occupy a place on the third floor of the new building.

## Clem And High Win Dallas Club Prizes

Annelle Clem and Ben High won the prizes given to the highest scorer among the girls and boys present, respectively, at the party which was held by the Dallas-Tech club at the home of Ailsie Herndon at 1435 Sixteenth street last week. Four sets of progressive bridge and a number of games of forty-two and other games were played. Refreshments were served, and Helen Coon and Annelle Clem aided Miss Herndon as hostesses.

## Jeerful Seraph

The Seraph tells us we grow strong by compromising not a whit. But life takes on a greater zest. It seems, to weaken just a bit!

## Westinghouse Men Visit Eng. School

W. C. Looney and a Mr. Hurst, Westinghouse men from Dallas, recently visited the school of Engineering and talked with Dean Miller. They also interviewed seniors in the departments of Mechanical and Electrical Engineering with reference to employment, explaining to them the advantages for advancement that their company offers to its employees. Mr. Looney is the manager of the Dallas office of the Westinghouse Electrical Manufacturing company, whose main office is in Pittsburgh.

## Valentine Party Given Las Leales

Miss Anna Jo DeWald was hostess to the Las Leales Club recently organized, fellowship society of the College, at the home of her mother, Mrs. Arthur L. Brown, 2122 Twenty-Third Street, with a valentine party.

The home was attractively decorated with hearts and flowers. The valentine motif was also carried out in the tables, score cards and prizes. Preceding the bridge game, several lively contests of hearts and love were enjoyed. The winners of these were Pearl Harrison, Elizabeth Rogers and Orene McClennan.

## Waghorne Corrects Proof Of New Book

Professor W. R. Waghorne has recently finished correcting the first set of proofs for the color work of his new book, "The Rhythmic Orchestra," which has been the object of considerable interest throughout the country. This work is an elemental presentation of music, and a force of professional demonstrators will be used to introduce it to school teachers and playground supervisors. The Otto Zimmerman Company of Cincinnati, who are the publishers, have already spent well over \$5000 in developing the text. They have prepared thirty-five special soft zinc plates for the illustrations, and the elaborate charts and plates. It was expected that the book would be off the press early last December, but several stumbling blocks in the engraving process were encountered, delaying work on it. In line with the national advertising campaign, several pictures of Lubbock school children have been taken with the charts and instruments; and it is planned to use pictures taken several years ago in Houston, where Waghorne, as director of music for the city, first conceived the idea.

## McFarland Is To Direct Tournament

La Ventana's second annual golf tournament, to be held under the direction of Hersched McFarland, is now being planned. It is to be open to all Tech students and those wishing to take part in the tournament may see Mac at Bowen's or may get more information from the office of La Ventana.

## Band Concert Set For February 28

The Tech free band concert, which has been previously announced, has been scheduled to be given Thursday, February 28, according to Harry LeMaire, director. Students, faculty, and townspeople will be admitted to the concert free of charge, authorities state. A splendid program is being worked out.

## Calendar

**Wednesday 20**  
Girls' Glee club, room 310, 4 o'clock; Hall County club, room 209, 7:30; Press club, room 214, 7:30; Aggie club, room A-106, 7:40; Central Texas club, room 310, 7 o'clock.  
**Thursday 21**  
Boy's Glee club, room 310, 4 o'clock; Sophomore Class Dance, Gym, 9-12.  
**Friday 22**  
Holiday; Artist Course, Gym, 8 o'clock; Lubbock club, room 302, 8 o'clock.  
**Saturday 23**  
Miss Weeks will give a lecture on Southern France, Engineering building, 4 o'clock.  
**Monday 25**  
Coffer-Miller players, Gym, 8 o'clock; Spur club, room 214, 7:30; Chamber of Commerce, room E. 208, 7:30; Forum, room 102, 7 o'clock.

## Scholar Society Chooses Delegate

At a recent meeting of the Southern Scholarship Society it was decided that Mrs. Mary Dale Buckner, graduate student in the Department of English, would represent the local chapter of this society at the Eighth Annual Convention of the Scholarship Societies of the South. This convention is being held this year with the North Texas State Teachers College at Denton, February 22.

## Methodists Select Long For Visitor

Rev. Nat G. Long, graduate of the University of Georgia and of Yale, has been selected by the Methodist Board of Education as assistant college visitor.

Mr. Long will be at the college all of Monday February 25 for the purpose of talking to students; will lead an open forum at the First Methodist Church, Sunday afternoon at four o'clock; and will meet students in a social hour Saturday night at eight o'clock in the home of Mrs. W. W. Roysaly, 1619 19th Street.

## McFarland Is To Direct Tournament

La Ventana's second annual golf tournament, to be held under the direction of Hersched McFarland, is now being planned. It is to be open to all Tech students and those wishing to take part in the tournament may see Mac at Bowen's or may get more information from the office of La Ventana.

## Texas Christian University Debate Team Wins Decision From Tech Pair In Annual Contest Between Schools

Hal Lary and J. W. Jackson Uphold Negative Side of Parliament - Presidential Government Rule. Debate representatives from Texas Christian University defeated representatives of Texas Technological College by a two to one decision on the affirmative side of the question, "Resolved, that the Parliamentary System of Government is Superior to the Presidential Type," at the Tech Gymnasium last night. Tech was represented by Hal Lary of Clovis, New Mexico and by J. W. Jackson of Lubbock, Texas. Christian University was represented by Lloyd Armstrong of Ft. Worth and by Hugh Boyd of Crosbyton. The affirmative advanced argument to show that the Parliamentary system of government is more responsive to the will of the people; that it administers justice more quickly; and that it is a more stable government. Particular emphasis seemed to be laid upon its responsiveness to the will of the people.

## Marionette Man Appears Mar. 19

Tony Sarg, originator of marionettes and unequalled manufacturer of puppets, will be here with his company March 19, according to E. W. Provenge, business manager of the college. Eight people and one and a half tons of property are included in the program which will be given to the committee on the night of "A Spanish Fiesta." At night, "The Adventures of Christopher Columbus" will be given. To Tech students and the people of Lubbock, this event promises to be a rare treat, according to Mr. Provenge.

## 200 Co-Eds Are Guests of Forum

Two hundred girls were guests at bridge and forty-two party given last Saturday afternoon at Chert Casa when the Forum entertained. Bridge lamps arranged throughout the spacious lobby and dining hall of the dormitory, and doorways and windows decorated in colors of red, white, and blue carried out Washington birthday suggestions. Score tallies were miniature hatchets.

## Horn Goes Before Conference Group

President Horn has recently returned from Austin, where he presented the emergency financial needs of Tech before the conference of the legislators, which is composed of members of both houses. The matter of appropriations for Tech is to be determined by this committee, as the two houses will, in all probability, act favorably upon his report. There is a difference of \$100,000 in the appropriation as passed by the senate and the house of representatives, the senate having voted the larger amount. A decision is expected to be rendered some time in the near future.

## Langston Explains Some Chinese Math

The Chinese system of multiplication, in which it is necessary to memorize only the second multiplication table, was explained by Lonnie Langston at a meeting of the Math Club Thursday night.

## Dismissal Of Dean Asked By Students

Reports from Southwest Texas State Teachers' College are to the effect that more than half of the students there have signed a petition asking authorities to dismiss the dean of women of the college.

## Gilder Orchestra To Play Soph Dance

Grady Gilder's Imperial Orchestra will play at the annual sophomore dance which will be held tomorrow night in the Gymnasium from 9 to 12 o'clock. This orchestra, which is rather noted in West Texas, formerly was in Dallas, and now plays at the Crawford Hotel in Big Spring. Bids for the dance are now on sale at the business office at a price of \$1.50 for either a couple or a stag. A good attendance is expected, as a number of bids have already been sold.

## Reads Here

**EDWARD A. THOMPSON**  
Mr. Thompson, a graduate of the Boston City School of Expression, read L. N. Parker's "Disraeli" in the Engineering building auditorium Monday night.

## Svensen Is Named On Big Committee

Carl Lars Svensen, head of the Department of Engineering Drawing, has been appointed to membership in the Committee on the Objective and Scope of Courses in Engineering Drawing of the Society for the Promotion of Engineering Education, according to a notice received by him from R. P. Hoelscher, Secretary of the Division of Engineering Drawing of the Society. Mr. Svensen's co-workers include the following: H. M. McCully, Chairman, Carnegie Tech; John M. Russ, Ohio State University; F. D. Furman, Stevens Institute of Technology; A. R. Cullmore, Newark Technical School. The committee is to report at the next convention of the Society at the University of Ohio next summer.

## Team Leaves Friday For Oklahoma City

Members of the advanced livestock judging class will leave Friday for Oklahoma where they will meet Oklahoma A. & M. College in a stock judging contest at the Southwest American Live Stock Show. The class, composed of Guy Blanton, J. B. Boyd, R. L. Boyd, Burdette, Clarence Grable, John H. Pounds, Frank Mah, W. E. Roane, E. E. Wright, with Prof. Ray C. Mowery as coach, will have a work-out on various farms en route before arriving at Oklahoma City on Sunday.

## Library Expansion Is Expected Soon

Enlarged quarters and better shelving facilities are expected for the college library in the near future. When the chemistry laboratory is moved to the new building the library will be granted the space which is now occupied by the laboratory. While this change will not entirely relieve the congestion in the library, officials seem to think it will help considerably.

## Last Year Student In Radio Concerts

Margaret Halsell, student at Tech last year, and sister of Naomi Halsell, Tech senior, is now attending Texas Woman's College of Fort Worth where she has been playing violin accompaniment for a series of radio concerts given over station KFJZ.

## Graphic Movies Are Shown Last Night

Five reels of motion pictures dealing with the textile industry were shown at the Engineering building auditorium last night. Graphic facts regarding rayon silk and the processes in the manufacture of yarn, hosiery, towels, etc. were presented. The pictures were shown under the sponsorship of the Textile Engineering department.

## World's Premier Harpist Is To Be At Tech Gymnasium Friday Evening; Coffer-Miller Players Return Monday

Perhaps the week which follows today will be the most crowded Tech has ever experienced from a standpoint of the number of artists who will appear before students, faculty, and people of Lubbock. Day after tomorrow, Alberto Salvi, the world's greatest harpist, will perform in the Gymnasium at 8 o'clock and with Salvi will be Miss Edna Swanson Ver Haar, famous contralto.

## Tomorrow Climaxes Finance Campaign

Tomorrow marks the climax of the Y. M. C. A. and Y. W. C. A. student finance campaign to raise a minimum fund of \$1,500 for the budget of the associations more than 200 students, who have organized for the campaign, are now making a final effort to reach the goal which has been set, and it is said that considerable progress has already been made.

## Volley Ball Being Played By Faculty

Several members of the faculty are getting quite a bit of recreation out of volley ball games which are being played at the stock judging pavilion three times a week, according to Dr. McKay of the History department.

## Original Writings To Be Criticized At Press Club Meet

Original writings by members of the Press club will be read in a regular meeting tonight and will be criticized by various members of the organization. The readings will consist of verse and two or three types of essays. It is likely that a short story will be read also.

## 2 From Tech Are On Floydada Program

At a "Father and Sons" meeting of Floydada Thursday evening, President Horn was the principal speaker of the evening and Prof. H. Y. Bower, head of the agronomy department, also appeared on the program.

## Correction

The "O" of a linotype machine was not functioning properly in last week's issue. As a result of rather serious mistakes were made in The Toreador which the proof reader did not catch.

## Graphic Movies Are Shown Last Night

Five reels of motion pictures dealing with the textile industry were shown at the Engineering building auditorium last night. Graphic facts regarding rayon silk and the processes in the manufacture of yarn, hosiery, towels, etc. were presented. The pictures were shown under the sponsorship of the Textile Engineering department.

FRATERNITIES

Some day the student body of Tech will have to face the question of fraternities and sororities. In fact, there is some talk about the subject every so often at the present time.

We are against social fraternities. We hope Tech always retains her Democratic spirit and steers clear of such social organizations. But—

We are for honorary professional fraternities. We understand that certain members of the faculty have asked permission to bring honorary fraternities to the campus and have been refused the privilege.

Perhaps the authorities who made the refusal were afraid that such honorary organizations would pave the way for social ones. And, if it is a fact that it would do so, we say keep any kind of Greek letter organization away from the campus. But we are not sure that any such result would follow.

We do believe, however, that there could be much benefit derived from national honorary fraternities of Engineering, debating, etc. It would be a great recommendation for our students who could qualify for membership in such organizations.

A TEST

During the week which follows from today Tech will have artist course programs three evenings.

The student body of the college is permitted to attend these courses by presentation of student activity tickets.

But after making allowances for several students who will have sufficient reason to miss the performances, we are likely to find that there are several others who will not take advantage of the programs; who will not profit by what the college is offering them in this respect.

What answer do we have for this fact? It may be that we are wrong. Perhaps near 1500 students will attend. We hope they do. But we are making the statement that there must be a change in student attitude if this is the case. We have the attendance at several past courses to substantiate our statement.

Isn't it a fact that the attitude of the student body with reference to such matters determines to a large extent our amount of education, after all? Is it a fact that we are eager to learn and to appreciate the best the world has to offer?

Does it not appear that these artist courses which are to follow are a pretty fair test of our ability to respond to the best along artistic lines?

We believe it is.

THE BAND CONCERT

The college band is giving a concert on the last day of this month, the twenty-eighth. We understand the concert is free to the faculty, students, and people of Lubbock.

Mr. LeMaire and his group have been going through a number of rehearsals with the idea of making the entertainment highly enjoyable.

We hope a large number of people will reserve the evening on their calendars.

The band should be supported, if support it can be called, just as much as other bona fide organizations of the campus. Though good attendance is not essentially support of the band, we are sure they will feel better repaid for their efforts if the attendance is large.

Student Opinion

MILITARY TRAINING

The United States needs intelligent men in command of her armies. This is why R. O. T. C. branches are placed in every school where military training is encouraged. All previous experience has shown that the college student is more adapted to command men than the man with grade and high school educations, yet when war comes it finds most of the college students in the ranks because they have neglected one important phase of their education. Every boy who does not attend college usually goes to C. M. T. C. at least one year because he has the time and wants the experience of being a soldier.

When the bill for founding Texas Tech was passed the men who made the bill, being statesmen and experienced men, knew the value of military training and specified that Military Training should be compulsory for male students. The bill made allowances for the Board of Regents to limit the number of years of military training each student should have. It seems that this provision in the bill has been almost entirely ignored and now the majority of the students take physical training which is only a small heading under military training. Military Training develops the mind and body and prepares the

young man for better citizenship. Military training is not taught with the purpose of encouraging war but with the purpose of preventing war. Military training is only one means of carrying out the American motto of "Preparedness." An ounce of prevention is worth a pound of cure. It is the duty of every true American to keep himself in a position to serve his country if he is ever called on.

There is no doubt that every college student would respond to any call, in fact college students are always the first to go but statistics gathered in many wars show that the untrained man stands ten times the chance of being killed as that of a trained man. The students in Tech today are unaware of this fact and some don't care. They love their country but they think that they can take P. T. and get by with something easy. Military training should be required in Tech or any other industrial school where men are training for all vocations. In case another tragedy occurs like the last Great Tragedy the United States would not have to place untrained men and inexperienced officers in the field to be murdered.

--H. R.

Dean J. M. Gordon will be toastmaster at a fellowship banquet which is to be held in connection with a convention of Presbyterian men next Tuesday night in Waco. Other members of the faculty are expected to accompany the Dean to Waco.

Ladies and Gentlemen:

One person complained of cold feet in the library the other night. We wonder if she had reference to studying.

Acting upon the suggestion of a fellow editor I advise that she try Orgatone.

It seems to us that the world is selling out to cigarettes.

The most recent advertisements suggest smoking instead of eating; eating instead of studying.

This reminds us of the extension book store in the Ad building. It's just a branch of the main book store but more candy is kept there than at the main store.

All of which might be taken to mean that co-eds eat candy. The most popular brand at the present time according to an expert statistician who has been working among the men students of the college, is MILKEY WAY.

This brand seems to be taking the place of BABY RUTH.

We won't fall out over brands of candy, though. So long as it has a little CHOCK-LATE in it, we think we'll all be able to eat.

The sale of peanuts, salted and roasted with shells on, at the candy counter has instigated speculation and perhaps a little scientific investigation on the part of several students. We are more than mildly astonished at the salty flavor of the roasted peanuts ourselves. Questions concerning the method of producing the phenomenon have received various answers.

One theory advanced by a hopeful Ag student is that the peanuts are planted in ground fertilized with salt. Remembering, however, how the salt water from the old family ice cream freezer used to kill the grass where it was emptied, we discarded the suggestion as unworthy of an Argie.

A Geology student, recalling the salinity of the sea as revealed by the tears shed over his text book the glorified peanut has felt the need of aquatic, thereby deriving its salt from the ocean. Being unacquainted with life on the briny deep, we are unable to disprove the foregoing idea, but we do think it sounds a trifle far-fetched.

A psychology student tells us that the peanuts are really salty, that it is all a state of mind and that we only think peanuts are salty because of the suggestion on the package.

Another person, who can be classified according to no subject the studies, ventures to say that the peanuts are grown under the sea and are harvested with submarines.

Announcements

Hall County club members are to be entertained this evening at the home of Mr. and Mrs. Gus L. Ford, 2303 18th St. This party will take the place of the regular club meeting.

The intramural football championship will be determined Thursday at 4 p. m.

Dean Weeks will make the next of a series of lectures on foreign countries which is being sponsored by the Forum. She will talk on Italy.

All are invited to attend any of the lectures. They are being held in the Engineering building auditorium every Sunday afternoon at 4 o'clock.

W. A. A. meeting tonight, Gym, 7 o'clock.

The Home Economics Council met Monday to make definite plans for the Home Economics party which is to be given March 1.

What Tech Offers Told By Department Heads

BUSINESS ADMINISTRATION

It has been only for a few years that the university or college has shown the extreme boldness of including in its curriculum courses in business training which could be counted as credits to a degree. Such training in the close past has been relegated to the "Second Story Business College" or in some cases, to the college commercial department. At the completion of either six or nine months course the successful students were given certificates evidencing their potentialities in stenography, double or single entry bookkeeping and telegraphy. Entrance into these studies did not require a high school education. Happily, however, spelling was taught throughout the entire course. In comparatively recent years, however, the college and university school or department of business administration has made its advent in practically every school of collegiate rank and special or regular degrees are given to students who successfully complete the regular four years college course. The work has even extended to the graduate schools. As in the case of most "New things under the sun" this phase of academic training is to some extent looked upon as an intruder, a "Saul" among the prophets, a pariah whose very presence detracts somewhat from the sanctity of the academic halls.

Primarily, the purpose of the department of business in collegiate training is to train the student for being a business administrator. In order to accomplish this it is necessary to acquaint him with such communicating aids of control as English and foreign languages; with such measuring aids of control as

mathematics, statistics and accounting; with such standards and practices of control as psychology and organization policies.

"Business is, after all, a peculiarly organized scheme of gratifying human wants, and, properly understood, falls little short of being as broad, as inclusive, as life itself in its motives, aspirations, and social obligations. It falls little short of being as broad as all science in its technique. Training for the task of the business administrator must have breadth and depth comparable with those of the task."

The problem of the business administrator has been made more significant by the great change in business organization since the coming in of modern large scale industry. Subdivision of ownership, large uses of fixed capital, fiscal years and income taxes have multiplied the problems of the business executive. These problems must be solved under conditions imposed by his physical environment and a more complex social environment. The business administrator should have an understanding of the earth sciences. He should also have an understanding of his social environment and should give attention to civics, law, economics, social psychology and other social sciences.

The short term course in stenography or bookkeeping falls far short of offering an adequate course of study for the prospective business administrator. The native ability and preparatory education necessary at the present time for the business executive is far above the entrance requirements enforced by the "Second Story Business College."

The question is raised by Dean Hatfield of the University of California "whether business administration, the late claimant for recognition, is not entitled to some respect, or must it consort with crystal gazing, sociology, chiropractic, pedagogy and palm-reading."

--B. F. CONDRAV.

Joe Sharp, student at Tech last year, is now attending Cumberland University of Lebanon, Tennessee.

Dr. Horn attended the annual banquet of the Chamber of Commerce at Plainview recently.

Dean Gordon will attend the meeting of the Hale County Teachers' Institute on February 23.

Resolute Effort

It was not as a feat of navigation that we admire the crossing of the Delaware by Washington and his ragged handful of followers. It was for their grit, their resolution, defying the cream of King George's army. In attaining financial independence, too, one needs to be resolute. A steady stream of savings despite all odds will mean victory in the end.

Such is an extra-curricular lesson college students must learn sooner or later. Our savings officials will be glad to talk with you and serve you in any way we can.

"Such popularity must be deserved!"

To an outsider, the time and trouble taken to produce a Chesterfield might seem as unnecessary as the sabre-scars so proudly worn by students of pre-war Heidelberg. But popularity is much the same the world over—you don't get it for nothing.

But any short-cuts in the time it takes to cure and mellow the Chesterfield tobaccos, or one step the less in blending and balancing them

would end up in something that wasn't Chesterfield. And you wouldn't like that.

So we'll stick to our old system—getting the right tobaccos, blending them the Chesterfield way, never sacrificing character, body, flavor to mere mildness.

We want to keep our popularity, now that we've earned it—and we know no better way than to keep on earning it!

Last Home Cage Game Results In TopHeavy Score For Crimson Tide

Playing their last game of the season at home last week, the Sul Ross quintet in two games, Tuesday and Wednesday nights 52-12 and 38-13 respectively.

Despite the top heavy score run up by the Crimson Tide, their passing was miserable, but even at that it was impressive compared to the work of Coach Graves' pupils from down Davis Mountain way. Both teams displayed a "wild and wooly" passing and running attack. Personal fouls slowed up the contest considerably, but at that only a fraction of them were called. The last night was somewhat better in regard to roughness, the visitors fouling 18 times to 14 by the Matadors. Coach Graves used eight men both nights in an attempt to stem the onrushing tide but it was all in vain against the oncoming Matador attack. The Crimson forwards slipped through the Lobos defense to make 22 field goals the first night and 15 the following. Walker, who shoots goals like a demon, was out of both games due to illness. With the exception of him Payne used every man on the squad. With the return

of Fisher to the game it was increased in speed. Fisher, who gave promise of being high point man for the Matadors has been out of the game since the Abilene series where he revived an old knee injury.

Hodges is High In Both Games Clarence Hodges, apparently has recovered from his scoring slump to form and was high point man in both encounters. The first night he led with 10 and was closely followed by Hunter with 8 points. The next night he was far in the lead with 16 and his closest competitor, with only five. In fact the scoring burden for the Matadors was evenly divided with only 5 men out of the total of 14 used failing to contribute to the total score.

Wilkins Plays Well Wilkins, Matador guard, easily played his best game of the season at guard. In fact the tall slender lad was by far the fastest man on the court.

Gee also improved in an offensive manner and as a result was third in the list of scorers the first night and second the last night. Sul Ross, was able to score only 3 field goals each night. McClain

connected for two and Lease for one in the initial encounter. The next night Allen scored 2 and Wicker 1. The Matadors will lay away their logs next Thursday night when they end the season with their time honored rivals, the Canyon Buffs on the Thundering Herd's own stampeding ground.

Honorary Society Makes An Attack On Honor System

The Cycen Fjord, men's honorary society of Southern Methodist University, has voted that the honor system is a failure at the institution and to that end the organization will draft an amendment to the Constitution of the Student's Association. The amendment will be put to a vote before the student body soon, according to the Semi-Weekly Campus, school paper.

through a desire to render service to the student body.

Members of the Cycen Fjord are selected each spring by members within the organization and must be outstanding members. They work silently and secretly and try to point out things which should be remedied, according to Francis H. Daniel, president of the society.

Clever Program Is Presented Before College Faculty

A clever program was given at the Faculty meeting last Friday evening at the gymnasium under the direction of the speech arts faculty.

The gymnasium was arranged to represent a "The Makeshift Theatre" and guests upon entering were given tickets from a box office, their wraps were checked and they were ushered to tables, each of which seated four, for the evening. Printed programs were distributed.

Panel, which had been painted by the stagecraft class were arranged about a stage and three plays were presented under the direction of Miss Ruth Pirtle, who was assisted by Miss Anna Jo Pendleton and Miss Eunice Cox. Printed programs were replicas of those used in regular theatres.

A skit, "Condemned," a farce, was played by Wilburn Edelman, Gus L. Ford, John Burroughs, Annabelle Pool and Ruth Officer.

Following this act refreshments were served.

"Riders of the Sea," by Synge, a tragedy of Irish folk life was given by the Thespian club. Characters included Evelyn Sowell, Lillian Hopping, Velma Eubank, Mrs. M. L. Shepherd, Margaret Cooper, Marian Poe, Joellane Vannoy, Gertrude Osborne, and Lela Faye McEntire.

The last play "Mary Means What She Says," written by J. W. Rodgers, was presented by the dramatic technique class under the direction of Miss Ruth Pirtle. Characters

were Mrs. Loyd White, Horace Grady Moore, John Currie, Ray Gulp, Byron Claunch, Lola Mae Rozelle, and Mrs. Wynona Gilbreath.

Vivian Johnson left Sunday for Austin to attend a methods class in adult education.

This work is conducted at State university.

LEARN THE PIANO IN TEN LESSONS

Tenor-Banjo Or Mandolin In Five Lessons

Without nerve-racking, heart-breaking scales and exercises, you are taught to play by note in regular professional chord style. In your very first lesson you will be able to play a popular number by note.

SEND FOR IT ON APPROVAL

The "Hallmark Self-Instructor," is the title of this method. Eight years were required to perfect this great work. The entire course with the necessary examination sheets, is bound in one volume. The first lesson is unsealed which the student may examine and he his own "JUDGE and JURY." The later part of the "Hallmark Self-Instructor," is sealed.

Upon the student returning any copy of the "Hallmark Self-Instructor" with the seal unbroken, we will refund in full all money paid.

This amazing Self-Instructor will be sent anywhere. You do not need to send any money. When you receive this new method of teaching music, deposit with the Postman the sum of ten dollars. If you are not entirely satisfied, the money paid will be returned in full, upon written request. The Publishers are anxious to place this "Self-Instructor" in the hands of music lovers all over the country, and it is in a position to make an attractive proposition to agents. Send for your copy today. Address The "Hallmark Self-Instructor" Station, G, Post Office Box 111, New York, N. Y.

Breaks Spell Defeat For Aggies And Eliminate Them From Contest; Engineer And Arts Teams Are Tied

Breaks that intangible something, which spells defeat and disaster for one team and victory for the opposition was again in evidence Saturday afternoon when the Engineers eliminated the Aggies from the intramural football contest by a 9-0 win.

This game leaves the Liberal Arts and Engineer teams in a tie for the championship as each have defeated the Aggies and in their previous encounter both were unable to score. The play off will be some day this week.

In the opening minutes of play Davis, right end for the pupils of Chubby DeWitt, scooped up an Aggie fumble on the 25 yard line and raced across the goal line for the first score of the game. Later on, in the closing minutes of the second quarter another Aggie fumble was recovered by the Engineers and after three attempts at the line, in which the staunch Farmer line refused to bend, Captain Jimmy Kerr stepped back to his own 20 yard line and three more points by kicking a spectacular field goal.

The Engineers made a total of 6 first downs to 5 by the Aggies. Passes were used very effectively by the latter and on several occasions brought spectators to their feet. At times the safety man saved the game for the Engineers after fleet footed Curtis Grimes and Riley Alexander seemed ticketed for a touchdown. The Machinists attempted 5 forward passes. Two were completed for 8 yards each, two were intercepted by the enemy backs and one was incomplete.

On the other hand, the Corley-men, attempted 12; 6 were completed for 81 yards, 6 were incomplete and none were intercepted. Five Fumbles Occur Five fumbles occurred during the game and as usual the unlucky Farmers got the worst of the deal, when a hefty Engineer was found in possession of the ball each time.

The men from the northern part of the campus were penalized one time for 15 yards because of holding. The Farmers were penalized three times, once 15 yards for talking, and twice for 5 yards each for a second incomplete pass. Dick Criswell, right tackle and captain of the Aggie crew was instrumental in upsetting the Engineer line plays, while Main, his team mate, got away on several occasions for neat gains.

Grimes is Outstanding But the defensive and offensive work of Curtis Grimes was the shining light of the entire game. Time after time this fleet footed half got away (almost) on end runs. He was the main cog in the passing with only one single exception. He made the longest two runs of the game when he got away once for 25 yards and the second time for 20. In addition no man on the field was hitting them harder than was Grimes.

Aggies Make Much Yardage Statistics show that the Aggies made more than two times as much yardage as the Engineers but an untimely fumble always brought to an end to their threats. Also on four different occasions the Aggies completed passes that netted over 15 yards but a subsequent or preceding end run would result in a 8 or 10 yard loss.

News Of Tech Exes Gleaned From Texan Little news items about various ex-students of Tech who are now attending Texas University are gleaned from THE DAILY TEXAN. Howard Hoffman, of Slaton, former Tech student now attending the University of Texas was one of a committee who extended thanks for the courtesy and hospitably extended members of the Delta Theta Phi fraternity when their house was destroyed by fire last Friday.

Freshman Council Gives Third Degree

Recently the Freshman Y. M. C. A. Council held its last general initiation, inducting a group of about six new members into the organization. In line with its Y. M. C. A. affiliations, the third degree was administered to the candidates. There were also many other especially interesting features to the initiation, according to members of the Council, but on account of their secret nature, they have not been divulged. Plans for the formal induction ceremony and a banquet which is to follow will be discussed at a meeting in the near future.

Gus Ford of the History department is giving a bridge party to the members of the Hall County club on February 22 at his home.

Final Date Is Set For Buying Tickets

Final date for buying tickets for the third annual Engineers banquet has been set at Saturday, February 23. Those who are unable to buy tickets before this date have been requested to make arrangements with one of the following: W. E. Street, R. J. Candler, June Hewitt, Walter Burns, Edna Houghton, E. A. Brady, John A. Davis or C. I. Lodal.

A program committee which has been working for quite awhile is almost certain of having a prominent speaker from one of the other engineering schools of the state.
