3TH QUARTER  
NO 21

Amarillo, Texas, Nov. 20, 1900.

Panhandle cattle raisers who supported McKinley will now have an opportunity to see whether the increased price of beef will go into their pockets, or the pockets of the dressed meat monopoly.

The Amarillo clerk who voted for Bryan, but prayed for McKinley's election, must be watched to see how McKinley's election is going to lift him out of the ashes.

If the Childress Index is not going republican it is not because it does not lean that way.

What influence has brought the Childress Index to land republicanward?

One inevitable result of the Republican triumph in the house of representatives will be the cutting down of Southern representation on account of the disfranchisement of the illiterate negro vote.—Vernon Globe.

If the Republican triumph ends in no worse results than that, then the liberty lovers of the country will have little reason to complain of the Republican triumph. The Amarillo News is quite ready to go on record as not being afraid of too much freedom in a free country. A thoroughbred Democrat is a registered Jeffersonian whose fundamental principle is not to be afraid to trust the people. It can see no consistency in disfranchising our own citizens any more than in disfranchising citizens of foreign countries. Yet many so-called Democrats would disfranchise at home, while the so-called Republicans disfranchise abroad. Why disfranchise a tax-paying citizen at all? Is it possible to have an ideal republic while doing so? It should be more the concern to get people to the polls instead of keeping them away from the polls.

Cal Merchant, of Turkey Creek ranch, was in our midst yesterday and he may be hiding amongst us yet, aught known. Welcome all the same.

Whittington's Big Four Orchestra has closed an engagement with the people of Tascosa to furnish music for the grand ball to be given there Thanksgiving eve. This orchestra is a hot combination and the people of that place have done well by engaging them. They are open for all engagements in this line.

### The J. U. G. Club.

The members of the J. U. G. club met with Misses Akard and Huff, at the home of Mrs. W. L. Kimbrough Thursday afternoon, Nov. 8th. A short time was spent in business transactions of the club and pleasant conversation with the members. Then all were served to delicious refreshments, and at this meeting each member was presented with a "little jug"—and its contents—by Misses Akard and Huff. After all expressing their thanks for so pleasant a time as can be shown by those young ladies, the members adjourned to meet the following week with Miss Ollie Hughes.

Representative Sharp, of Mississippi, calls attention to the fact that if the gains made by Mr. Bryan in the east could have been transferred to some of the closer states the result would have been different. The more the popular vote is studied the plainer it becomes that there is no reason for democrats to become discouraged over the future.—Carlsbad Current.

A serious problem just now with our stockmen is the fact that loco exists in nearly every pasture in the country, and its effects have already begun to tell on both horses and cattle. This is a bad indication of things at the beginning of winter, for no amount of feeding will carry an animal through the winter that has become poor at this time of year and still must run where the loco can be had. A number of our stockmen are cutting the weed from their horse pastures and using every effort they can to save their saddle horses.—Clarendon Agitator.

Christendom has been shocked by the barbarities of the Chinese, but if half the uncontradicted tales transmitted from that unhappy country are to be believed, the Chinese may well be shocked at Christendom. Not content with burning villages and looting wherever loot was to be found, the soldiers of the powers have murdered large numbers of inoffensive natives with an atrocity the Chinese have never surpassed. Large numbers, of all ages, were tied together by their pig tails, beaten savagely and made to dig their own graves at the rifle's muzzle, and were then mercilessly shot to death; other natives made to fill up the holes and they in turn shot and left on the ground. These exploits are charged up to the Christian soldier of the Christian Kaiser. A recent cablegram from Pao-Ting-Fu states that preparations are almost complete for the destruction of one of the most venerated temples in the city. In all these barbarities, the German and Russian sol have been the leading actors. It is needless to say that all who do or permit the doing of such deeds, whether soldiers, officers, kings, emperors, presidents, or what not, have stolen the livery of heaven to serve the devil in, and are worse than the offending pagans because they are sinning against greater light. And we are informed by missionaries themselves that they have not only countenanced these unspeakable barbarities, but endorse them. Such be hypocrites, every one, else the teachings of Christ are false.—Farm and Ranch.

"Beg pardon," said the long-haired visitor, "but is there a literary club around here anywhere?"

"Yes, there is," said the editor significantly, reaching under his desk. "Are you a literary man?"—Catholic Standard and News.

## Improved Order of Red Men.

Written for the Evening News.

A labor of love? Yes. Only that  
and nothing more.

The man who is taking the initiative in this matter, and set up this article in cold, cold type, wants it to be distinctly understood that he is not interested in the matter, financially, to the extent of one penny. In fact, his labors ended last night, when he dispatched a list of 97 names to T. O. Hunter, Deputy Great Sachem, I. O. R. M., northern jurisdiction of Texas, headquarters, Fort Worth, Texas, who is duly and legally authorized by the Great Council of the State of Texas, to institute Tribes of Red men.

What is the Improved Order of Red Men?

It is the only genuine AMERICAN Fraternity in this country without the slightest mixture of anything foreign.

It is founded upon the customs, traditions and history of the aborigines of this continent, who, previous to their contact with civilization were a pure and noble race.

Its primary objects are to promote among men the exercise and practice of the true principles of benevolence, charity, the care and protection of widows and orphans, and the cultivation of friendly and brotherly relations among its members, assisting them in sickness and distress, paying funeral benefits.

The dramatic beauty, originality, and simplicity of the forms, ceremonies and lectures used in the adoption of members, and conferring of degrees are unsurpassed, and when properly exemplified, they are beautiful, interesting and instructive, free from anything of a frivolous or objection character, and will make an impression upon the mind of the candidate, which time can never efface.

Standing upon the broad plane of brotherhood, cemented by friendship, charity, humanity and love, the members of the Order assemble together

to listen to the teachings of the principles of FREEDOM, FRIENDSHIP and CHARITY.

The applicant for membership shall be a FREE, white male, 18 great suns, of age (18 years), of good moral character, of sound bodily health, and must believe in a Great Spirit.

As a creature of circumstances, man is largely dependent on his fellow man. Today he is strong, rugged, needing no help; tomorrow weak, helpless and sick.

The Calendar of the Improved Order of Red Men dates from the discovery of America by Columbus, 1492—Great Sun of Discovery, 409.

Total membership of the Order in North America is estimated at something like 500,000.

HAIL, CHIEFS! of the noble tribes of Red men! Hail, lovers of the square and compass the Chief of Mohawk Tribe salutes you!

Headquarters for the Improved Order of Red Men, in Amarillo, will, until further orders, be at the Evening News.

Now is the Accepted Time.  
Yours, in Freedom, Friendship, and Charity,

RICHARD HUNTER,  
Mohawk Tribe, No. 6, Parsons, Kas.

President McKinley received ovations all along the route from Canton to Washington. What for? What has he done? Why should they give McKinley the praise due Mark Han-

na? McKinley has not given us an administration; he has not been able to do anything he wanted to. Mark furnished the executive ability and he received his cues from the trust magnates and stock gamblers. It doesn't require either brains or statesmanship to be president with the trusts behind you. Be their puppet; jump when they pull the string and you are the idol of the blinded masses.—Plainview Press-Leader.

## Small Pox Preventive and Cure

To the Dallas News: I herewith append a recipe which has been used to my knowledge in hundreds of cases of smallpox. It will prevent or cure, though the pittings are filling. It is as unfailing as fate, and conquers in every instance. Sulphate of zinc, one grain; digitalis, one grain; sugar, one-half teaspoonful. Dissolve in a wine-glass of soft water or water that has been cooled. Take a teaspoonful every hour. Either small pox or scarlet fever will disappear in twelve hours. For children the dose must be diminished according to age. I could mention many

**The Pecos System**

Has opened up a section for cattlemen that has hitherto been given up to the prairie dog and the coyote, and it has now become the home of herds and flocks, rapidly increasing as the years go by. Water has been found twelve feet from the surface of ranges where men perished from thirst in old days. It has made towns out of sidetracks and planted school houses among the sage brush. Let the cattleman patronize an industry that adds energy and success to his enterprise. The great plains should foster an undertaking that makes their products valuable and their cattle available to the market. Never in the history of railroads has such a change been made—a desert transformed into an oasis, a bare plain into a home for the thrifty and productive citizen. The railroad has done it all and is doing it today. Their freight contracts for cattle are far below the average charges usually made by new roads.
