## CHANGES DUE AT SCHOOL

The Special Session of the Texas Legislature passed House Bill 72 that will have immediate implications on Santa Anna Independent School District. Some of the changes that will affect the Santa Anna Schools are as follows:

a.) Beginning with the 1985-86 school year pre-kindergarten classes shall be offered for one-half day. This will be for four-year-old children and only if 15 or more eligible students are identified. Eligible students are those who are unable to comprehend the English language or those whose family income is at or below subsistence level.

b.) Each teacher and administrator must pass a competency test provided by the State Board of Education by June 30, 1986.

c.) The Texas Assessment of Basic Skills (TABS) will be expand-

ed to include grades 1, 3, 5, 7, 9, 11 and 12 in 1985-86. The twelfth grade test will be administered next year to both 11th and 12th graders. Those not passing all sections will be given opportunities to be retested in the 11th and 12th grades. A STUDENT MAY NOT GRADUATE UNTIL HE OR SHE HAS PASSED ALL SECTIONS OF THE EXIT TEST.

d.) To participate in any extracurricular activity during the fall (1984) semester, a student must have passed at least three academic classes the previous semester and be currently passing four academic classes seven days before the activity. No student may miss more than 10 days during the year for school related or non-school related activities. To participate in extracurricular activities during the spring semester, a student must pass

ALL subjects with a grade of at least 70. If a student makes below 70 in one subject he or she may not participate for the next grade reporting period (six weeks).

e.) A student who has not maintained a grade average of at least 70 during the school year may not be advanced from one grade level to the next.

f.) A student may not be given credit for a class if the student has more than five unexcused absences during a semester.

g.) Grade notices will be sent to parents each six weeks. Grade reports MUST be signed by the parent and returned to the school. If a student is failing a class, a parent teacher conference must be scheduled during the conference period of the teacher.

h.) Beginning September 4, 1984, all teachers and aides, except coaches, will remain in their rooms on Tuesdays and Wednesdays until 4:30 to provide tutorial service for students. Coaches will meet with athletes at 7:15 a.m. on Tuesdays and Wednesdays for tutorial service. Beginning the second six weeks, any student failing will be required to attend these tutorial services until a passing grade is obtained. The Santa Anna Independent School District is NOT required to furnish transportation for these students.

These are but a few of the changes that have become STATE LAW. All provisions of House Bill 72 and all other Education Laws and SBOE rules apply to all school districts in Texas.

## Annual Meeting of Telephone Cooperative

Three directors will be elected for the Coleman County Telephone Cooperative, Inc. when the annual membership meeting is held in Santa Anna Saturday, August 25. The meeting will be held at the football stadium starting at 7:30 p.m.

The three incumbents are seeking re-election, being Tom Kingsbery, Grady McIver and Glen Copeland. Kingsbery, president of the Cooperative, is on the ballot with Dale Bradley for the Santa Anna rural position. Opposing McIver for the Rural south director's post is Jerry Ellis. Glen Copeland's opponent for the Santa Anna representative

is Robert Robinett. McIver is currently serving as vice president of the group and Copeland is secretary-treasurer. Other directors whose terms continue are Topy Beaver, Leroy Williams, Glen Scarborough and Jerry Allen.

Although the meeting is open to everyone in the community, only members of the Cooperative will receive the free door prizes or be eligible to vote for the new directors.

Registration and entertainment will begin at 7:30 p.m. Featured will be music by the Kountry Kickers, and free cold drinks will be served to all attending.

The business meeting at 8:30 p.m. will include a report by Manager Danny Kellar and a financial report for the current year. A special item on the agenda will be proposed change in the by-laws of the Cooperative, allowing expanded services to be made available by the organization. All members have received notice of the proposal and are encouraged to be present to discuss and vote on the change.

The meeting will be concluded with a drawing for door prizes. A color television will be given away as the grand prize.

All members of the organization are encouraged to attend the meeting to take part in the business meeting as well as visit with friends and neighbors who are also present.

In case of rain the meeting will be held in the high school auditorium.

## TEXAS MISS US TEEN PAGEANT

Applications are now being accepted from girls 13 thru 19 for the Miss Texas US Teen Pageant.

The Texas winner will receive \$250 in cash, 1 year college scholarship, all expense trip to the national pageant including airfare, jewelry, color portrait, crown, banner, trophy, and a host of gifts and products.

In addition to the state title, awards will be given in leadership,

friendship, and photogenic categories.

The Texas pageant will be held at the North Park Inn in Dallas. Judging is based on poise, personality, school and community involvement.

Over \$100,000 in cash and tuition scholarships will be offered at the national pageant. Miss US Teen will receive a 4 year college scholarship, Caribbean vacation, \$1,000 in cash,

complete modeling portfolio, TV and personal appearances, crown, banner, trophy and a year of travel and excitement. The national pageant will be video taped for television.

For further information contact Carole Clements, National Director, Miss US Teen, PO Box 1229, Auburn, AL 36830 or call (205) 745-6875 immediately.

## POLICE REPORT

A large plate glass window on the front of Phillip's Drug Store was broken sometime during the night, Thursday, August 16th. The damage was discovered when the store was opened Friday morning. A brick was found lying inside on the floor. It is believed entry was gained through the broken window, but it is

not known if anything was taken. Chief of Police Russ Ellis said that the investigation has narrowed to two different suspects. He said it is possible the damage was caused by Criminal Mischief rather than a burglary attempt. Damage was estimated at nearly \$500. The investigation is continuing, according to Mr. Ellis.

## Homecoming Planned

Santa Anna Ex-Students from classes ending in the numeral '4' will be honored at the 1984 Santa Anna Homecoming in October. The date for the annual reunion is Friday and Saturday, October 19 and 20.

The executive board of the Ex-Student Association met on Friday of last week to continue plans for the event that has been held each year since 1952. Terry McIver, president, led the meeting that was attended by officers and directors of the group.

Nominees for Ex-Student of the Year and Coming Home Queen were discussed, with the selections to be announced just prior to the annual reunion. Also named were chairmen of the committees for the weekend events.

Leanna Pollock Hartman, secretary-treasurer of the Ex-Student Association, will be in charge of registration at the homecoming, to be assisted by Lois Ann Shields Harper and several volunteers. Roberta Morgan Tomlinson, a director of the

organization, is chairman of the committee for the Saturday morning coffee.

Events will begin with a parade on Friday afternoon, October 19, with Dickie Horner, second vice-president, in charge. The time for the parade has been set at 3:00 p.m. The Homecoming pep rally will be held following the parade. The football game with Irion County will be at 7:30 that evening and have special halftime events.

Saturday activities will start with registration and coffee, followed by a business meeting and program. Included on the agenda at the business session will be the election of two directors to replace Bettie Blue Henderson and Pete Simmons, whose terms expire this year. Another officer with an additional year on his term is Eddie Paul Voss Jr., first vice-president.

Several classes are making plans for reunions during the 1984 Homecoming, and all local ex-students and teachers are encouraged to take part.

The schools are back in session, and Mr. Ellis reminds motorists to pay attention to the 20 mph zones around the schools. He said that he is pleased with the driving in the school area so far this year. He said that he has only had to talk to four to six drivers about their driving habits in the school zone. Mr. Ellis said that he will be issuing more citations than warnings for speed and stop sign violations this year than he did last year.

Chief Ellis said that he was called to six different family disturbances during the nighttime hours this past week. No arrests were made and no charges filed in the incidents. Mr. Ellis said that he is concerned with the increased tendency for violence in family disagreements, not only in Santa Anna, but nationally as well. He said the abuse of drugs and alcohol by one or more of the persons involved in the disturbances has been noted in the majority of the calls.

## Kindergarten The Frightening Year

Twenty nine new little faces appeared at our elementary school this year to begin school for the first time.

They are: Tim Abernathy, Patrick Asher, Ami Beal, Brandi Bible, Devin Brand, Kenton Britney, Lupe Castillo, Chris Cheaney, Devin Cook, Danyelle Davis, Cassie Dia-

mond, Patricia Diaz, Scott Dowdy, Ruby Estrada, Rachael Guerrero, Briana Horner, Ryan Keeney, Melissa Marshall, Darbi Neff, Anna Pearce, Matt Pierce, Demond Roberson, Valerie Rodriguez, Maricela Siller, Tiffany Snow, Shane Taylor, Tara Tuttle, Scott Watson and Eddie Weadon.

Family and friends of Tracy Rene Bengt gathered Sunday for her funeral in Santa Anna.

The 22 year old who was raised in Santa Anna was remembered by many.

While attending Santa Anna High, she participated in drill team-pep squad and FHA activities and was on the annual staff.

The school's business manager, Judy Hartman, said that Tracy was a 'very steady, happy person who took things as they came. She always looked on the bright side.' 'She trusted everybody and thought everyone was good. She always thought the best of everyone,' said Tracy's aunt, Corine Eubank of San Angelo. 'She was a very happy, cheerful, people-loving person...All the good things you could say about a person you could say about Tracy.'

Jordan, Tracy's employer at the Texaco Star Stop No. 4 in Abilene, said she had worked the midnight to 8 a.m. shift for about three months. He described her as 'a good worker.'

The autopsy report performed by the Southwest Institute of Forensic Science in Dallas revealed Monday that Tracy was beaten to death.

Many calls have come in regarding the tragic murder. One of such calls was from a customer who was in the store early that morning and heard a noise in the back room. While the noise may have been the attacker, the man notice nothing else unusual. He assumed that store employees were in the back room handling merchandise.

A different customer Friday night told police that he had seen a man behind the counter at the store about 2:15 a.m. No man should

have been working there at the time, said police, who believe the man behind the counter may have been involved.

A description was given for the man behind the counter. He was a white male in his mid 20's, standing 6 foot to 6 foot 2, weighing 175-180 pounds with blond, medium length hair and wearing blue jeans and a greenish-gray sweatshirt with short sleeves.

The Abilene Criminal Investigation Department is continuing to receive calls and it has been noted that Crime Stoppers will be re-enacting this crime next week.

## Lone Star Files Rate Increase

Lone Star Gas Co. Manager, J. C. Wilkerson, today filed an application for a rate increase which would raise the average residential customer's monthly bill in Santa Anna about \$2.91 in the winter and .91 cents in the summer.

Based on Lone Star's rate application, a residential customer who uses an average of six thousand cubic feet of gas a month paid \$38.65 for gas service in the winter. Under the requested rate, that same customer would pay \$41.96.

Commercial gas customers rates would also increase under the requested rate schedule.

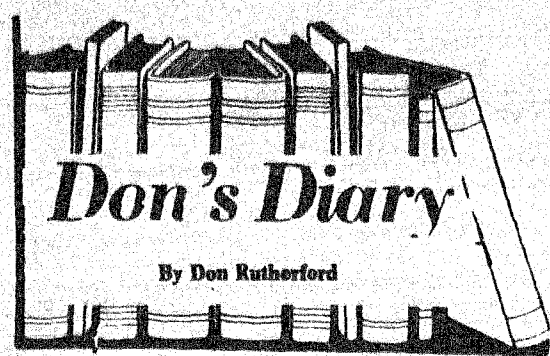

'Our customers are accustomed to dependable natural gas service,' says Wilkerson. 'This rate increase is necessary to continue a high performance level and for other necessary expenses, such as main-

taining and improving the local pipeline distribution system, which are vital to dependable service.'

Lone Star's last rate increase in Santa Anna became effective in January, 1984.

'Since that time, every business, including Lone Star, has experienced increased operating expenses,' says Wilkerson. 'And, of course, unlike other businesses that can raise their prices as expenses go up, we must apply to the city council for a rate increase. No one likes rising prices, but any business must earn enough money to meet operating expenses and still achieve a reasonable profit. Even though our expenses have gone up, Lone Star still has one of the lowest average operating costs per customer when compared to any of the other major gas utilities in Texas.'

We are all in the manufacturing business. Some make trouble, some make excuses and some make good. Sometimes the difference in making good and making excuses is the way we deal with shadows in our lives.

We all have these shadows. These shadows have been called failure, the future and futility. They have also been known as yesterday, tomorrow and today.

I have a plaque in my study that has these words: 'Happiness is not only the thrill of winning but the courage to join the race.'

All races are not won by you and I. There are some failures in our lives. We sometimes stumble. I have heard it said, don't worry when you stumble, remember a worm is about the only thing that can't fall down.

There are limitations to our cans. But most people stop trying long before their limitation say they need to stop.

Our failure doesn't mean a person cannot be a success at another time. The crime often committed is not failure but low aim in our goals.

Yesterday's failures can make the shadows so long, if we let them.

But as Will Rogers once said, 'Don't let yesterday use of to much of today.'

The shadow of the future looms over each of our heads. Personally I am glad of this shadow, for when the shadow of the future is not here then we have died.

The best way to take care of the future is one day at a time, one step

## 30 years ago in The News

Included in this week's column is a view of the column that would have appeared last week but was omitted due to lack of space. The following excerpts were taken from the 33rd Edition of the Santa Anna News published on Friday, August 13, 1954.

Patsy Moore and Neva Rehm, both clarinet players and 1954 graduates of Santa Anna High School, are members of the All-Star Summer Band at Tarleton State College.

Mr. Oscar L. Cheaney of Santa Anna is the newly appointed member of the Coleman County Farmers Home Administration Committee.

Miss Ruth Dean, daughter of Mr. and Mrs. Albert Dean of the Trickham Community is the new correspondent for Trickham. Mrs. Oscar Boenicke also offered her services, but Miss Dean's offer was received first.

The semi-annual meeting of the Mill Country Firemen's Association was held in Santa Anna on Tuesday. Sixteen out of eighteen towns were represented.

Members and friends of the Seventh-day Adventist Church will meet to hold the first service in the history of Santa Anna on Saturday morning. Pastor Lyndon DeWitt will present the opening sermon to the church group.

## LINDA'S LINES

In preparation for this grand wedding I have decided to make my column short and sweet simply by hoping that everyone will wish me well.

Everyone is invited to the wedding and the reception. The reception has been moved to the Coleman Country Club.

at a time, one moment at a time. The story goes of two bricklayers who were given a job of building a wall. One looked at the pile of bricks and decided he could not handle the load. The other saw the pile of bricks as one brick at a time. He soon finished the job and had a large reward in his pocket.

We need to take tomorrow one brick at a time. The job or decision to be made, break it down into small pieces and then go for it.

The shadow of today or the shadow of futurity is often the longest shadow of all. We work hard at our jobs, we do the best we can, and it seems like no one cares. Sometimes we feel, does it really make a difference?

The world will probably not be changed by all the things we try to do, but one, maybe just one person's life can be changed by the way we act or live or talk.

Sometimes we feel, does it really help if I am concerned for people or care for people. It does make a difference!

In the job you have, be it a pastor, an editor, a homemaker or a factory worker, the difference in a persons life can be you.

So when you feel like, why try no one cares! Remember you are throwing a shadow of good influence that can make the shadow of failure and futility blend into a beautiful life giving light.

The wise man doesn't expect to find life worth living, he makes it that way.

Continuing this column are this week's headlines from 30 years ago, the 34th Edition published on Friday, August 20, 1954.

Friday the 13th was no bad day for Roy West, prominent farmer who lives five miles northeast of Santa Anna. For the first time in his life he produced the first bale of cotton that was ginned in Santa Anna. Santa Anna merchants contributed a total of \$114.75 for the 485 lbs. bale that was ginned at the Campbell Gin.

Santa Anna's local turkey breeder, W. B. (Bill) Griffin was elected president of the Texas Turkey Federation last week when the association met in annual convention in Dallas.

Santa Anna merchants contributed \$239 to the Santa Anna Volunteer Fire Department to help make the convention of the Hill Country Firemen's Association the big success it was.

## POSTMASTER'S POINTERS

Postmaster's Pointers by Gary Absher has not been canceled. Mr. Absher, who suffered a knee injury while on duty at the Post Office, is in the Shannon Hospital in San Angelo.

He has had two different types of surgery on his injured knee. The latest word is that a blood clot formed and has traveled to his lungs.

We all miss you Gary and wish you a speedy recovery. I am sure when he is better, his column will return

## BRADY HIGH COED WINS IN PAGEANT

Nicole Storm, a Brady High School sophomore, was named 'Little Miss State Universal Beauty' at the Little Miss State Pageant in Ft. Worth in June after being named Universal Beauty at a pageant in San Angelo in April.

She competed in the World Little Miss Pageant Aug. 6-11 in Dallas.

A Brady High School cheerleader, she is the daughter of Mrs. Elaine Storm of Brady. She is the great-granddaughter of Mrs. Fannie Bryan of San Angelo.

'We could not have come this far without all the great people who helped us. It is very much appreciated,' Nicole said.

## From Dept. of Health

A case of primary amebic meningoencephalitis has occurred in a twelve-year-old Uvalde boy who, reportedly, swam in the Frio River at Garner State Park, Uvalde County. This form of meningitis is caused by free-living Naegleria or Acanthameba amebas, normally found in many fresh-water ponds, lakes, and rivers. They multiply rapidly in stagnant waters at temperatures between 85 and 100 degrees F.

Human illness may result within seven to ten days after exposure to the amebas. Infections may be acquired when infested water gets into the nasal passages. Primary amebic meningoencephalitis is characterized by sudden onset of headache, fever, nausea, vomiting, and stiff neck; almost always, death occurs within ten days.

Any body of water which is or becomes stagnant can support rapid growth of these amebas. This includes lakes, ponds, rivers, and even swimming pools which are improperly or inadequately treated.

There is no way to predict who might become infected. It is not practical to attempt to place all potential sites of exposure off-limits for swimming. The actual risk is lower than many risks the public accepts every day. Therefore, the Texas Department of Health can only warn of the possibility and request that local health departments and the news media join it to inform the public regarding the conditions of local bodies of water used for swimming. Each individual and, in the case of children, parents must make the decision as to whether swimming in stagnant water under present conditions is worth the risk involved.

## Band Boosters

The Santa Anna Band Boosters met Tuesday, August 14, 1984, to organize for the coming year. Officers for 1984-85 were elected. They are James Spillman, President; Frances Malone, Vice President; Judy Hartman, Secretary; Sandra Guthrie, Treasurer; Ann and Wayne Langford, Bus Chairmen; Virginia Deal, Membership Chairman; Ruby Fleeman and Imogene Powers, Uniform Chairmen; Betty Lewis, Publicity Chairman.

Virginia Deal was appointed Chairman of the Ways and Means Committee with the rest of the committee to be appointed later.

It was decided to participate in the annual back-to-school carnival on September 8. Pat Wright was appointed chairman of a committee to organize and run a bingo game.

The group agreed to again make gloves available for band members at cost.

The next meeting is scheduled for Tuesday, September 4.

## Vital Records

Vital records are just that... vital.

In this age of bureaucratic documentation, everyone has need of copies of records of birth, death, marriage, or divorce. An application for benefits from the Veterans Administration or the Social Security or for a passport must have the information contained in these records and sometimes copies of the records themselves.

These records are stored permanently by municipalities, counties, states and the Federal government.

The Consumer Education Research Center found that there was little uniformity on where the records were available. In some states birth records are kept by the city and some by the county. To further complicate matters, often older records are in a different place than current ones.

The non-profit consumer group found many people had great difficulty in locating the records they needed. In many cases it was necessary to make expensive long distance telephone calls. For that reason CERC is publishing a book

entitled GUIDE TO LOCATING VITAL STATISTICS. This book contains a state-by-state listing of the addresses and telephone numbers of where each record can be found, the cost of a copy of the document and sample form letters containing all the information needed to get the document.

To obtain a copy of this valuable book send \$4 including postage to CERC-Documents, 439 Clark Street, South Orange, NJ 07079.

## Campfire

The Adventure Camp Fire Group will meet at the Armory at 3:45 Monday, August 27. Those members and those fourth, fifth and sixth graders interested in joining our group are ask to be there. Plans for the back to School Carnival, September 8, will be finalized. Working positions will be assigned.

Registration will be done Monday, September 10, at the regular meeting.

## Bluebirds

Registration for Campfire Bluebirds for the 1984-85 school year will be held Monday, August 27th from 6 to 7 p.m. in the Armory. All interested girls, first through third grades are asked to come with a parent or guardian to register. The leaders for this year are Yvonne Halmon and Barbara Simmons. If there are any questions, please call 348-3229 or 348-3579.

Thanks to Bro. Jim Gooch, Bro. John Taylor, Bro. John Stanislaw and Steve Ramsdell. We also appreciate Amanda Perry for filling the Northside Baptist Church Time.

## THE STATES PATCHWORK QUILT PARADE

### QUILT FOR CONNECTICUT Charter Oak

Back into Colonial history we go again for this picturesque pattern. There are many interpretations of oak and acorn, this being one of the most naturalistic versions that we have found. However, it is so gracefully conventionalized in its placing that the most critical will approve of the design.

Background blocks may be white, cream or pale green, cut 18 inches square. Dotted lines in the sketch indicate center creases only for help; in arranging the leaves and acorns.

All appliques cut a seam larger than these patterns; baste back this edge except where it is to be covered as the top curve of the acorn nut.

Place the four groupings identically, basting carefully into place, and finally blindstitch down with threads

matching your materials.

Twenty blocks would finish a quilt center 72 x 90 inches to which an 8-inch or wider scalloped border would be added at foot and sides. The larger leaf with the acorns might be placed right and left on this for applique repeat.

Eight yards of background material with 12-3 yards of dark and one of lighter green would be needed for the quilt with 1/4 yard each of dark brown and ecru.

## News Notes

Jake McCreary had several visitors this week. Among these were Mr. and Mrs. Mickey Davidson and Trent from Big Lake, Sharon Lee, J. J. and Jenna from Clyde, Richard Lee (formerly of Coleman) from Dallas, Gussie Wise from Ranger Park Inn and Mr. and Mrs. Jessie Eckler from San Angelo.

Over the weekend the home of C. B. Bruce was visited by Mr. and Mrs. Bob Kingsbery and children (Amber and Clay) all of San Antonio. Bruce Kingsbery is a graduate of Texas A & M. The Kingsberys are grandsons of the Bruces. Joining them for dinner Saturday night were Mary Tela Clifford and Tom and Barbara Kingsbery.

Ted Ford, formerly of Santa Anna, son of Mr. and Mrs. James Ford, received his Doctor of Philosophy on Saturday, August 18th at A & M University. Mr. Ford has been teaching at Tarleton University of Stephenville for about 11 years now. He and his family live near Stephenville at Lingleville, Texas. Ted is a graduate of Santa Anna in 1968.

Last week visitors in the home of Earl and Barbara Simmons were Mr. and Mrs. John Krishon from Ocala, Florida. Barbara, Becky and Chris took Mr. and Mrs. Krishon to Palo Duro Canyon for sightseeing and to attend the musical 'Texas.' Both families attended the Commencement Exercises at Texas A & M on August 18th.

## Reddy's Safety Reminders:

Most of us take electric power for granted. We just flick a switch and there it is — doing all those things we've come to expect. That SAME power can be dangerous if we don't learn to treat it with respect. Here are a few reminders on how to live more safely — electrically — from Reddy Kilowatt:

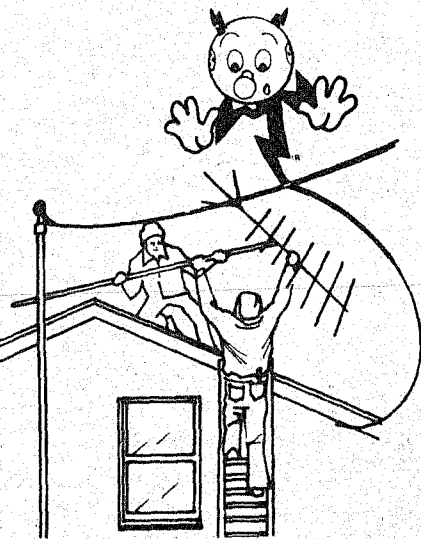

### Never Pull on the Cord!

When disconnecting electric appliances and equipment, be sure to pull on the plug — not the cord! If you pull on the cord, you'll eventually wear it out and expose hazardous wires. Also, don't overload extension cords and outlets.

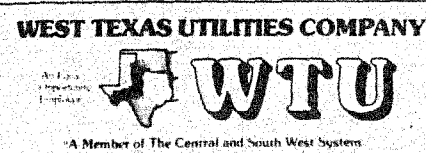

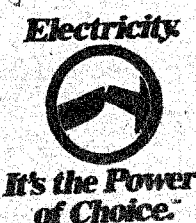

### Install Antennas Away from Power Lines!

If you have a TV or CB antenna to install or repair, make sure there's plenty of clearance between it and the nearest power lines. Working too close to a power line can be hazardous.

### Don't Shoot at Power Lines!

Also remember not to shoot at power lines or the insulators that hold them. The severed line could cause a serious electricity outage and the downed line itself could be very dangerous.

Like tickets to the World Series, there's also a limit to the number of dollars available for loans. This makes the price go up. Just as tickets are worth more when many people want them, money is worth more when many people want to borrow it, and those with money to lend—not just banks but also ordinary investors—expect a higher rate of interest.
