lt's an all-out war against litter: on Saturday, April 13, 130,000 Adopt-a-Highway and Keep Texas Beautiful volunteers will lash out against litter, cleaning state and county roads, city streets and parks in the eleventh annual "Great Texas Trash-Off." Part of the Texas Department of Transportation's (TxDOT) "Don't Mess with Texas" antilitter campaign the Trash-Off is one of the nation's largest one-day cleanups.

More than 2,000 Adopt-a-Highway groups will rid state roads of trash, while Keep Texas Beautiful groups in 84 communities will be sprucing up city streets, county roads and parks. The groups expect to pick up 7.25 million gallons of litter statewide. According to Doris Howdeshell, director

of TxDOT's Travel and Information Division the combined effort of the Great Texas Trash-Off, Don't Mess with Texas and Adopt-a-Highway has changed behavior about littering and reduced the amount of litter on Texas roads. These antilitter programs also save the state between \$2 and \$4 million a year in litter pickup

Awareness of TxDOT's antilitter programs is very high in the state, and we've made great strides in reducing roadside litter," Howdeshell said. "The Great Texas Trash-Off is one single day on which we hope to see the whole state cleaner for the traveling public. Our hope is that seeing more than 130,000 people cleaning up after litterers, and seeing miles and miles of clean roads will make drivers think twice about throwing something out of the car Ultimately, our goal is zero tolerance--we will have done our job when no one in

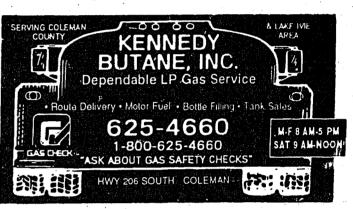

Texas litters." TXDOT's grassroots partner, Keep Texas Beautiful, is a non-profit, environmental umbrella group consisting of a network of private citizens, communities, industries, civic groups, schools and government

Fishing Lake Ivie

By Durwood Strickland

For a while now we have been reporting good fishing at Lake Ivie. Now its even getting better.

The bass have been holding in about 20-30 feet of water. but warming lake temperatures are teasing the bass into the shallows to spawn. Anglers are having great luck with plastic lizzards and 10-inch worms. Lots of good size bass being reported, some nine lbs. or better but lots in the 5-6 lb. range.

The only thing we've had to complain about lately is the wind but there are enough protected areas where you can enjoy a few hours fishing.

Crappie have taken a spell of preferring to bite at night, starting about 10:00 p.m. through the night. Crappie fishermen have had lots of luck up the Concho.

Fishing for catfish has produced lots of nice eating size fish on rods and reels and trotlines.
