Corrective Physical Training In State University

AUSTIN, Tex., Nov. 26.—Conducted as part of the corrective physical training work of the University of Texas, sleeping classes are held for students who are physically unable to participate in other forms of exercise.

In both the men's and women's departments, these classes meet three times each week, under the supervision of Major Sigurd Neal and Miss Leah Gregg, respectively.

There are 29 girls and 6 boys who have been placed in the sleeping P. T., as the rest course is known, while 115 men and 119 women have been declared unable to participate in the regular schedule of physical activity. In addition to these, 143 girls take one hour of corrective physical training each week and 59 take two hours.

A total of 49 men are in special classes because of the loss of a limb or some other physical deformity. There are 49 men in corrective classes because of faulty posture, slight heart trouble or other minor defect. The special rest course is prescribed for those unable to take violent exercise, and a final class, a lecture course in hygiene and sanitation is offered to those who have had a recent operation or are otherwise unfit for any form of exercise.

Brother of Mrs. J. A. Boler Is Seriously Injured

Walter Christie, 25, son of Mr. and Mrs. J. M. Christie, of Santa Anna, and brother of Mrs. J. A. Boler, was seriously injured Sunday night when the car in which he and another were riding collided with another car near Big Spring, Texas. Mr. Christie's car was accompanied by Mrs. Christie, who left early for Big Spring to arrive there. Mrs. Christie telegraphed to her husband, Mr. Boler, advising that her brother is not expected to live. Other members of the family escaped with only minor injuries.—Brownwood Bulletin.

Escaped Convict Held In Indiana

SOUTH BEND, Ind., Nov. 26.—James Gillespie, 29, Stepplejack, said to have escaped from the Texas penitentiary at Huntsville three months ago, was captured by police detectives here today and held for Texas authorities. Gillespie is reported under 35-year sentence for robbery. Henry Parker is in Dallas this week attending to business.

Fire Damage At Coleman

COLEMAN, Texas, Nov. 23.—Fire seriously damaged the stock and fixtures of the Hely-Selfy store here at about 2 o'clock this morning. The blaze is thought to have been caused by a short circuit in the wiring of the building.

The damage was not estimated at noon today, but is believed to be heavy. The fixtures in the store were considerably damaged by fire, smoke and water, and the stocks were likewise damaged.

The business was owned and operated by Barnes & McGowan.

W. Ford Barnes, owner of the Santa Anna Hely-Selfy is a one-half owner of the Hely-Selfy at Coleman. Mr. Barnes stated to the editor Friday that he thought his interest at Coleman was pretty well protected in so far as the present damage was concerned, but the store would incur a loss by having to be closed for a few days in order to make proper adjustments and restock, but the business would soon be going again. The Hely-Selfy in Coleman was among the leading grocery stores in that city.

First National At Ballinger In New Home

BALLINGER, Nov. 24.—Several thousand people attended the opening of the new \$50,000 home of the First National Bank of this city Thursday. Floral offerings and telegrams of congratulations were received from a number of out-of-town banks and friends.

The local bank was organized in 1888. D. M. Baker who was named cashier at that time, is now active vice president of the institution.

OZONA—Improvements costing approximately \$10,000 have been made in the interior of the Ozona National Bank. Officers occupied the renovated quarters Saturday.

The new interior finish of marble Textone walls and tile floors, with handsome lights fixtures, new equipment behind the cages and new door and window features make the bank one of the most beautiful of any in this section.

Clyde Maner Leaves Hospital, Condition Is Much Improved

Clyde Maner, who was shot in the legs by Mayor Palmer C. McInnis Armistice Day on the Blanket road, and who has been here since in the Central Texas Hospital, was able to leave the hospital Sunday. His condition, doctors say, is rapidly improving. The one shot entered both legs but no bones were broken.—Brownwood Bulletin.

Maracaibo Company Enter Brown Oil Field Through Purchase Of Henshaw Holdings

SAN ANGELO, Nov. 22.—Announcement of the sale of properties of the Henshaw Oil Corporation in West Texas, to the American Maracaibo Company of New York for \$2,000,000 was made yesterday by Walter Henshaw, vice-president of the former concern.

NEW YORK, Nov. 22.—J. J. Cotter, president of the American company announced today that the concern had enlarged its holdings in the United States through purchase of the leases of approximately 21,000 acres of land owned by the Henshaw Oil Corporation in Blaine county, Okla., and in Brown, Coleman, Howard, Crockett and Winkler counties in Texas.

American Maracaibo restricted its operations to Venezuela and Columbia until recently, when it acquired properties in Oklahoma and Texas.

Advices from other sources than the foregoing state that the sale of the Henshaw properties to the Maracaibo was for \$3,000,000. After Henshaw and associates had sold the Lowe lease in the Fry field in the early part of 1927 to the Texas Company for \$2,000,000, Henshaw developed some of the best production in the Clark-Buffalo field in Brown County, and also carried on other operations in Brown and Coleman counties.

Band Blares Hail To Peanut Roller As Bet Is Paid

HARLIGEN, Nov. 22.—To the strains of "The Conquering Hero Comes," from a brass band, Bill Williams Thursday ended his 11-mile peanut pushing trek when he rolled a goober with his nose across a white line marking the Harligen city limits.

Williams, when he crossed that white mark had paid an election bet on Governor Al Smith, and in the process had tossed countless pairs of frayed cotton gloves and innumerable worn out peanuts into the discard.

His nose resembled a strawberry, but he nevertheless had fulfilled his bet by rolling the goober the 11 miles from Rio Hondo to Harligen in less than 11 days, his expired time having been nine and a half days.

Sutton Dies Suddenly In Austin Home

Founder of Department of Education At Texas U. Stricken Monday

AUSTIN, Nov. 26.—Dr. W. S. Sutton, 68, founder of the department of education at the University of Texas and former acting president, died suddenly at his home here this afternoon. The aged educator was talking with members of his family shortly after noon when stricken. His health had been failing for some time.

Dr. Sutton began his career as an educator shortly after having been graduated from the University of Arkansas in 1878. He became professor of education at the University of Texas in 1897 and in 1909 became dean. He was also dean of the summer session from 1898 until 1918.

He became acting president of the university upon the resignation of Dr. Robert E. Vinson in 1923 and continued to serve until 1924, when Dr. Walter Splawn was appointed.

JENNINGS POOL IS GIVEN EXTENSION

COLEMAN, Nov. 27.—The Jennings pool, southeast of Santa Anna, was extended to the east Monday with the completion of Texas company's Hays No. 3, Bonds and Sanders survey No. 93, a 250-barrel producer, at a depth of 1,152 feet. Pay was topped at 1.136 feet. During 12 hours Monday the well flowed 125 barrels of oil. Although the sand had not been shot, the well is regarded as one of the best that has been completed in the Jennings area. The new producer is an east offset to Texas company's No. 1. Hays recently completed a producer and is a half mile south of the main Jennings pool.

M. M. Ray was a Brownwood visitor Friday.

The First Thanksgiving

The bitter winter of the Pilgrims first year in America reduced the number of colonists by one-half. One hundred and one came over on the Mayflower, but only 55 remained to enjoy the summer, when attire smiled on them.

The crops were bountiful and their hearts were filled with the spirit of hope and thankfulness. To give thanks to a kindly Providence that had rewarded their labor, the first real harvest festival was held in America in 1621. It was instituted by Governor Bradford, the first governor of the Massachusetts colony.

Thus, originated Thanksgiving day as we know it in America. It slowly spread to the other colonies, and since 1863, when President Lincoln issued a proclamation, calling on the people to observe the day, his example has been followed by each succeeding President, the last Thursday in November being chosen as Thanksgiving day and observed as a holiday throughout the union.

It is typically American, celebrated throughout the width and breadth of the land. It breathes the spirit of America and keeps alive a tradition that has been handed down to us by those truly thankful colonists who braved the perils of an unexplored land that they might be free to worship as they pleased and work out their own destiny, unhindered by the whims of those who believed themselves divinely ordained to rule.

Its significance may be lost to some extent in the present generation, but the church and the schools have kept alive the fine sentiment that it typifies and good Americans will continue to teach their children the true meaning of the holiday.

It is a time for counting blessings one by one. It is a season to give thanks to a good Ruler who has blessed us in larger measure than we have deserved. It is a day for looking hopeful into the future and preparing to merit blessings that will be the reward of honest work and right living.

Every Week We Come To Realize The Need Of Paving More And More

Santa Anna is one of the best and most prosperous towns in central west Texas, and has made progress in many ways the past five years, but when it comes to public welfare and town pride, we are found "sucking the back seat." There has been some real pleading done, and several efforts have been made to get some street paving, and one time the News was authorized to state that paving would start immediately on a certain block, but we have been embarrassed several times by interested people to know "where the paving was done?" When it rains the streets are so muddy one can hardly cross them, and as soon as the rain ceases, often before the mud is all gone, the dust is so bad it is disagreeable to be out, or even in. We don't know what to do, we prize it, boosted it, talked it, and if we had the money we would start it, but damn! (with apologies to the ladies) we have started too much now. What we want to see started is some street paving, for when it starts it never will stop. If you think it will, just try it. Business increases every year in Santa Anna more buildings going up, better stocks of merchandise going in, new industries coming this way constantly, more homes being built every week, school enrollment increasing every year, demands for homes increasing every week, (we know of five families wanting to move here now and can't find living quarters,) deposits in the bank larger than has been in years, the country generally is in a prosperous condition, but the main streets are an abomination, to travel, even to us poor devils who live here and have to travel them every day. If we consulted our personal feelings in the matter, we would be tempted to say things that would make good reading, but not suitable for the mails! Out-side interest will come in and lease your buildings patronize your places. Of business, but the property owners will have to furnish the wherewith to make the needed and necessary improvements. Why the h— don't they do it?

Now, that's off our system, we will try something else.

Is Seriously Injured In Accident

What came very near being fatal tragedy happened here Monday night, when Clifford Switzer, who repairing a tire west of town was run down by a truck and severely as well as painfully injured. He was rushed to the hospital where first aid was rendered, and is said to be recovering. The party driving the truck was said to have indicated intentions of hitting Mr. Switzer or was an awful careless driver. It is said he drove on and made no effort to offer assistance. Another case of some driver abusing his privileges on the highway, without showing respect for others.

TWO DEAD AS RESULT OF HIGHWAY ACCIDENT

CISCO, Nov. 27.—Frank "Bo" Speights, former Cisco High School football star, is dead, and Otis Evans is in the Graham sanitarium here with but slight chance for life, as the result of injuries sustained when a truck on which they were riding to Rising Star collided with a heavy wagon parked on the highway last night.

Sleet And Rain Falls Sunday Night

Decided drop in temperature, accompanied by sleet Sunday night and slow cold rain throughout Monday, has given Santa Anna, Coleman county, and the entire Heart of Texas section a taste of winter weather. A cold wave enveloped the country Sunday, and shortly after midnight sleet began falling in Santa Anna and according to reports received today, the same weather conditions prevailed throughout this section of the state.

I. W. Faulkner of Dallas visited his parents, Mr. and Mrs. G. W. Faulkner Saturday and Sunday.

Tax Assessors Favor State Bond Issue

AUSTIN, November 24.—The \$350,000,000 statewide road bond issue plan of R. S. Steffling, chairman of the State Highway Commission, was endorsed Saturday by the Texas Tax Assessors Association. Resolutions commending the Steffling idea were passed by an unanimous vote during the closing session of the three-day meeting.

Beaumont was chosen for the next year's convention and F. W. Witt of Houston was elected president to succeed Steve Herfington of Austin.

It was recommended that the Legislature enact "remedial legislation" to correct alleged inequalities in the rural aid law. Beaumont was selected for the next convention over Laredo, Mineral Wells, Dallas and Corsicana.

Other officers elected were: First vice-president, A. Lon Hill, Burleson county; second vice president, Oscar Wood, Gregg county; third vice president, J. H. Williams, Hardeman county; fourth vice president, A. Vineyard, Dallas county; secretary and treasurer, A. L. Leonard Jefferson County.

Coleman Co. Annual Terracing School Will Be Held Dec. 12th

Coleman county's annual terracing school will be held Dec. 12, probably on a farm between Santa Anna and Coleman, Elmo V. Cook, vocational agricultural manager of the Coleman Chamber of Commerce, said Friday.

M. R. Bentley, agricultural engineer of Texas A. & M. College will be in charge of the demonstration. He will be assisted by A. K. Short of the Federal Land Bank, Houston. Following the school other demonstrations will be held in the county during the winter season, according to Cook.

Loucks Reports An Unique And Blazing Light Saturday Morning

C. T. Loucks, San Saba dairyman, who never sleeps, reports one of those strangely brilliant and dazzling lights we read of in fiction as appearing last Saturday morning about the hour of 3:30 a. m.

Mr. Loucks says all at once there was a flash and everything was brighter than day. This lasted only a few moments and appeared about mid-way between the horizon and the zenith in the southeastern sky. Following the flash was a long trail of glowing light which lasted for some 15 minutes.

It was strange as fiction and no one seems to know what it was, whence it came or whether it went.—San Saba News.

Those "Extras" ...
you want for the home
—Let your egg money buy them!

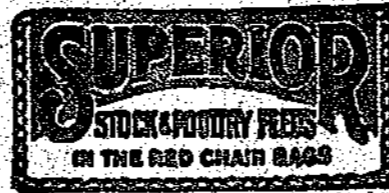

NO MATTER how well furnished a home may be, there's always something extra—something new—desired by the ambitious housewife, although "mere man" might be thoroughly satisfied and sees no reason for spending more money for such things. There are new styles—new inventions—new labor-saving devices—a seemingly endless procession! Many women are paying for these "extras" with their egg and poultry money. With a hundred or two hens, there's an average net profit of \$200 to \$400 yearly to take care of the things you need.

When you have a profit goal like this, you need the help of Superior Orange Egg Mash for heavy egg production. Don't worry about the feed cost—it's the final profit you want, and this perfectly balanced feed will pay for itself, with a good extra profit. We know that farm women don't raise chickens "for their health." We know they must be compensated with a good profit—and we have built this feed to produce those profits. Buy the extras you want—with poultry profits produced the Superior Way. Write for free Superior Poultry Book, and ask your dealer for Superior Feeds.

Texas and Texans
 By Will H. Mays

Texas Scholastic Enrollment
 Texas has a scholastic population of approximately 1,400,000 in its public school enrollment. At \$15.00 per child the enormous sum of \$21,000,000 is paid annually for primary education from the state tax, besides the amount that comes from local school taxes. In addition to this an almost equal amount is paid for higher education. If children are not reasonably well educated in this State it seems that the fault does not rest with the tax paying public, but with the parents of the children.

Hoover Campaign Expense
 Supporters of Gov. Al Smith for president are saying in the press that Hoover's large vote in the State was because of the large amount of money spent in advertising and other publicity. The Republican campaign committee comes back in a statement that the cost of securing votes for Hoover in Texas was only 16 cents each and gives a list of contributions and expenses to prove it. However, this does not take into account the huge sums spent outside the State for sending literature and radio messages throughout Texas.

In the matter of campaign expenses, though, it is becoming either party to cite what the other spent. Both spent entirely too much money, and voters are complaining that election expenses in both National and State campaign are becoming disgracefully high. One often hears the statement made that it costs so much to make the race for governor of Texas that a poor man cannot make the race without being placed under embarrassing obligations. A campaign for reducing campaign expenses is something much needed in every state in this country.

Country Real Estate Sales
 A close reader of Texas papers is impressed with the increasing sales of country real estate. The prices paid are not speculative, but are based on reasonable returns from the property. What-

ever lull there may have been in country property in some sections appears to have been succeeded by advanced prices. There is no better investment than in such property. While there are temporary periods of depression, as in everything else, a reaction is always sure to come. Just now country sales are more active than in the cities except in a few of the larger places.

Our Varied Climates
 While the snows are melting in the Amarillo section, South Texas has been having balmy "early fall" weather. In the most Southern part of the state frost and snow are seldom ever seen even in the severest winters. But heavy snows are blessings to those parts of the state in which they fall, for they assure winter seasons that make the wheat grow. North Texas papers say the rains and snows that have already fallen have started the grain crops into rapid growth. There is weather enough in Texas of different kinds to please everybody, even the "hay-fever publicists" of the type of Editor Cooke, of the Rockdale Reporter.

Regulating Air Traffic
 Chairman, Clarence E. Gilmore back from a meeting of railroad and utilities commissioners at New Orleans, says there was much discussion of intrastate regulation of air traffic to supplement such regulations as the Federal Government already imposes. That such steps must be taken soon seems inevitable. Every privately owned, and perhaps every publicly owned institution that serves the public and that is without the ordinary commercial competition needs close supervision both for the protection of the people and for its own safety. The closer, and more effective that the supervision is, the better for all concerned. The State is in better position to give this than the National Government, and especially does this apply to control of utilities within the State.

Radios in Public Schools
 There is a radio in every public school in Fort Bend county with radio service and a broadcasting station at the county courthouse. State Superintendent Marrs made the dedicatory address at Richmond, speaking to all the school children at one time. When troublesome static is eliminated, as it will be sometime, the radio will likely become an important factor in our educational system, and to the advantage of public education. In many city schools the students now get the best music and educational addresses of the country through modern radio-re-

ceiving sets. Walter Damrosch, one of the country's most famous orchestra directors, is devoting the best part of his time to giving school children of America musical concerts of the best kind heard in New York and other cities, along with popular lectures on musical subjects.

Big Acreage Increase
 The Agricultural Agent of the Southern Pacific Railroad reports an increase of 50 per cent in the acreage in cultivation in the Lower Rio Grande Valley this year over last year. He adds that he is expecting a tremendous development in the way of colonization in the near future. With the right kind of co-operative effort this would be true of every part of Texas.

Ready For Tomato Crop
 Xoakum "went in" for tomato growing this year on an extensive scale and the results were so satisfying that a larger acreage will be planted next season. Already plans have been made for extensive sheds for packing and shipping these to be provided with every convenience for growers, graders and packers.

Commercial Secretaries
 In advocating a full time secretary for the Cameron Chamber of Commerce the Herald is only urging Cameron to profit by the experience of other Texas towns. There is no more useful man in any community than an active, sensible secretary of its chamber of commerce. If he is of the right kind he is a most valuable asset. If not he is a liability. There are plenty to be had who are fitted well for the work by training and experience.

Tourist Hotels
 There is a growing demand in Texas for tourist hotels in connection with tourist parks. Many tourists can hardly afford the high-priced hotels and yet they do not want to camp in the little one-room houses that characterize most of the tourist camps. To meet this demand the many small hotels are being built with room for one car storage on the first floor, clean, well-kept bedrooms and attractive cafes. The tourist hotel approaches somewhat the old-fashioned English inn in the character of its entertainment.

SANTA ANNA COUPLE ARE MARRIED HERE
 Mr. Emmet Lewis and Miss Marie Massey both of Santa Anna, were married at the Baptist parsonage here Tuesday night, the ceremony being performed by the Rev. R. Neal Greer.

Mr. and Mrs. Lewis are to make their home at May it is stated.—Rising Star Record.

Some people never tell the truth only when they talk in their sleep.

Speech is free which shows that the fathers of the republic had an excellent sense of commercial values.

Joe L. Trussell returned last night from Mason county, where he spent three days hunting, and as a trophy of his outgoing brought home an eight-point buck. Like most of the other hunters, he made the report to this office by telephone.

The automobile has brought former distant places closer and closer together including our "No." He is by way of being a house and the poorhouse.

Baptist preacher and song leader, and may have sung the deer to sleep and then hit it in the head with something. He admits that in times past he has sung many a congregation to sleep.—Brownwood Bulletin.

CELEBRATES BIRTHDAY

Little Albert Bradford, Jr. celebrated his fourth birthday Tuesday evening November 27th at 8:00 o'clock with a party at the home of his grandmother, Mrs. Rosa Taylor at the Santa Anna Hotel.

Twenty invited guests were present. The table was decorated in pink with a lovely birthday cake in the center and little baskets of candy at each place. A dainty lunch of ice cream, cake and cocoa was enjoyed. The little fellow received a number of presents.

"We Only Do Things One Way"
Come In And See For Yourself

Extra Special, a Knock-out
Our Entire Stock of Men's and Boys Work Shoes At Absolute Cost

Our stock of work shoes are all new staple merchandise, composed of the well known Brands as, Roberts-Johnson & Rand, Central Shoe Company, Peters Shoe Co. and Endicott Johnson Co. Our reason for the above unusual sale, is due to the fact that we have been buying from all of the above firms and have got our stock mixed with so many different brands, that we find it to our interest to close them all out and rebuy from just one firm.

Another Extra Special Bargain

As you know, we have been giving out Wm. Rogers Silver Coupons with each purchase of 25c and up, and it required a total purchase of Twelve dollars (\$12.00), the smallest amount to get a tea spoon, but beginning with Saturday December 1st, and continuing each Saturday until Christmas, we will give a teaspoon to the first twenty customers coming into our store, and purchasing to the amount of ONE DOLLAR (\$1.00) or over.

LITTLE THINGS

"It's the little things in life that count." We have heard that said more than once. There are several little faults to which the attention of the students need to be called.

One of these is the way the chairs are left around the tables. Most of the students who sit at the tables just jump up and leave the chairs in the aisles, and it is difficult for students to pass unless they stop and push the chairs under the tables. This should not be necessary.

Announcements have been made two or three times in Assembly about the paper thrown down in the corridors. Some students are still doing this, and ruining the appearance of the hall. It would take only a few seconds to put the paper in the waste basket, and some one would be saved the trouble of picking it up for a lazy student.

Eight times during the day about one hundred lockers are slammed, within a space of three minutes. This excepts only about sixty lockers which are not slammed. The noise is very annoying, and some of the doors are sprung so that they will not close because someone has failed to close them properly. To have several lockers standing open ruins the appearance of the corridors. And most of the lockers on the inside are not very commendably arranged. This does not show proper respect to the appearance.

Students, let's think more of the little things.

SUPPORT AN ANNUAL

The Senior class of Santa Anna High School wishes to put out an annual, but they cannot do it without the help and co-operation of the business men of the town. A petition has been sent around to sign up for their advertising in the Annual, and if a certain amount is not promised we agree to let the matter drop. But the Seniors do not want it to drop. An annual would mean a very great deal to us, and would be a good thing for the school. Won't you as a business man, artist and give us your support?

We are the largest Senior class in the history of S. A. H. S., and we want to be the largest graduating class, but we need the support of the town. If you will help us, we shall try to live up to the expectations of the town and school.

EACH TO ITS PURPOSE

The charge has been made that communities are over-organized. The phrase "organized to death" is a common one. And in some what laconic tones it has been said that "everything is organized but the community itself."

We believe there are truths in these statements, but we believe that any organization that stands the test of time is worthy of sympathetic consideration. Undoubtedly, each organization in Santa Anna, whether civic, social, fraternal, charitable or religious, fills a need. The fault has not been so much the fact of too many organizations. The trouble has been a too-much overlapping and duplication of effort, if there has been any trouble at all.

In the councils and workings of our organizations, and in the lists of members, there are wholesome and worthy motives, and sincere, hard-working citizens. When each organization stays closely to its purpose the community goes forward and the causes for which people are grouped are met efficiently.

THIS TIME MAY COME

The time may come: When someone will not be extolling the "good old days." When oldsters will not be vying with alarm the going-on among the young people.

When the comic sheets will not pretend that husbands are not henpecked.

When a reporter, a detective, a parson on the stage or in the movies will resemble a reporter, a detective and a parson in real life.

When popular magazines will think up some way to adorn their covers without glorifying the American girl.

When a man will work as hard as he leads his wife and his friends to think he works.

When cynics will not be knocking the churches and the church will not be knocking the world.

When an employe admits he is being paid all he is worth.

When professional reformers admit that society is O. K. and voluntarily quit their jobs.

When a man gives up his automobile and explains he cannot.

And the sound of a voice that is still.

Break, break, break, At the foot of the crags, O sea! But the tender grace of a day that's dead, will never come back to me.

Unemployed Teachers And College Students Why Don't You Enter Business

There is a wonderful opportunity in business for the unemployed teacher or the college student who by force or circumstances had to drop out of college. Because of your unusual literary qualifications, business concerns prefer you. You make better trained office employees. No matter what your circumstances are you should have a business training; no matter what your circumstances are, you CAN have a business training.

We have a novel yet simple

plan that is helping hundreds of young people through our school plan that enables them to pay the greater portion of their expenses after they are placed on a business man's pay-roll.

No need to wait until after Christmas to begin because any one who desires may visit home at least ten days during the Christmas holidays. So, if you enter now, you will be just two months ahead of the fellow who waits until after Christmas to start.

You will be surprised at what we can do for you for just a few dollars and a few months of your time.

To learn of our plan, clip the coupon and mail it for our catalog "Achieving Success in Business." No obligations on your part if you don't enter school.

WHAT ARE THE BEST YEARS IN A MAN'S LIFE

It was Emerson who said: "Write it in your heart that every day is the best day of the year is that. He doesn't scowl at the present, whatever that may be, because he has deluded himself into thinking that the days of his youth or some other days, were ever so much richer and better. Right now is the time to enjoy life no matter what your age may be."

A fellow by the name of Robert George got to thinking about life one day and wrote this:

"The twenties are the moulding years of the life, in the young man's career. Then he finishes school, forms those habits that shall direct his work, stands before the altar, establishes a home and looks the world in the eye."

The thirties are the years of discouragement. It is a hard and trying time for all. It is a time of battle without the poetry and dream of youth.

The forties are the years of diversions, when a man finds himself, finished air castles in the air and knows the value of his dreams.

"Life comes to its ripening in the fifties. These should be the years of jubilee and he should do his best work then."

At sixty a man has committed enough mistakes to make him wise far above his juniors. He should live better then and do better than in any decade of his life. No man has a right to retire in his sixties; the world has need of his wisdom.

Some of the best work in the world is done in the seventies. No man has a right to retire at any age unless he wishes to die. A word of congratulations to those who have reached seventy and beyond. You have almost finished your course; we trust that you have fought a good fight and that there is laid up for you a crown of righteousness.

In all probability traffic jams will be terrible on highways leading into Washington, D. C., and trains and airplanes far behind in their schedules, due to the influx of thousands of job-seekers. Many of them, no doubt, are among those who have been preaching economy in government during the recent campaign.

The nicest thing about neighbor's children is they never turn out as badly as you expect.

THE RAZOR BACK SOW

The following petition, which was filed in the justice court of Titus County a number of years ago, furnishes the best description of a razor back sow and her plan of action extant, and the document should be preserved in the state's archives for its historical value.

"To the Hon. Sam Porter, Judge of said court. Now comes M. F. Allen and S. C. Ellis, by their next friend John Allen, hereinafter styled plaintiffs, complaining of and against Mrs. Octavia Starkes, hereinafter styled defendant. Plaintiffs represent that both the plaintiffs and the defendants reside in Precinct No. 1, Titus County, Texas, and that the said defendant and Mrs. Octavia Starkes is a feme sole.

For cause of action the plaintiffs represent to the court that on the first day of May, 1911, they were the owners of 29 chickens and one hen, all of the buff orphington breed; that the said chickens were on the above date peacefully scratching the soil on the premises of John Allen, who resides in the southern part of the city of Mount Pleasant, Texas.

Plaintiffs further represent to the court that on the above date the defendant, who resides in the heart of the city of Mount Pleasant, Texas, kept on her premises one long barrel-bellied, long headed sow of the "Arkansas" variety; that said sow was endowed with an intense fondness, common to her breed, for broiler sized chickens, earthworms, and flies.

Plaintiff further respectfully represent and avers that, on above mentioned date, this said sow, goaded by the memories of by-gone feasts (the result of her marauds and the pangs of hunger) again and again circled her one-fourth acre enclosure, and continued to do so until she rea-

lized the futility of further exertion in that manner, whereupon she backed away some fifty feet from the six-foot fence that marked the boundary of her abode and, after casually surveying the said fence, she started for it in leaps and bounds and cleared the same as easily as does a four-pointed buck a two-foot log.

Plaintiffs represent that upon landing, the said sow vertebly split the wind in her travel south that the said sow was headed for the swill reservoirs, some 300 yards from the court house in the said city of Mount Pleasant, Texas, and that, while passing the premises of the said John Allen, she scented a fowl odor whereupon she knocked down two panels of a fence, which therefore had been considered absolutely stockproof.

Plaintiff represents that the city marshal was called for and upon his arrival he found a few downy feathers and the marauder with her bristles up and frothing at the mouth.

Plaintiffs aver that their chickens were worth \$1 each and in the aggregate \$29.

Plaintiffs pray the court to render a judgement for them in the sum of \$29 and all costs of this sum and for any other relief which is within the province of this court to grant.—Honey Grove Signal.

THERE'S a reason why the users of Purina Poultry Chow's have eggs for sale when prices are highest. Purina Poultry Chow's are made by an organization that's had 34 years experience mixing poultry feeds. Purina has the machinery to mix Poultry Chow's thoroughly. Purina has the experimental farm to test Poultry Chow's practically. Purina has the chemists and biological laboratory to prove Poultry Chow's scientifically. That's why Purina Poultry Chow's are rich in the very stuff that eggs are made of. That's why Purina Chicken Chowder and Purina Hen Chow build up a reserve that keeps the birds laying all winter—and paying all winter. Order Purina today.

Announcing -

The Outstanding Chevrolet of Chevrolet History

- a Six in the price range of the four!

The Chevrolet Motor Company announces The Outstanding Chevrolet of Chevrolet History... a Six in the price range of the four!

Spectacular as Chevrolet's achievements have been in the past... notable as its engineering triumphs have proved themselves to be - this remarkable new car dwarfs every previous Chevrolet accomplishment. Not only does it introduce into the low priced field an entirely new measure of performance, comfort, beauty and style - but it is sold at prices so low as to alter every previous conception of motor car value.

The new six-cylinder valve-in-head engine - developed from more than a hundred motors designed especially for this sensational car - stands out as an engineering masterpiece. With a power increase of approximately 32% over the previous Chevrolet motor, with sensationally greater speed and faster acceleration - it offers a type of performance that is literally astounding. And it affords an economy averaging better than 20 miles to the gallon of gasoline!

In appearance, this Outstanding Chevrolet is destined to become an automotive sensation - so smart, so stylish and so distinctively appointed that it shows the costliest custom creation! The marvelous new Fisher bodies are longer, lower and roomier with adjustable driver's seat, built-in closed model - and several other features of Fisher design. With their modish new colors, their smart

dual mouldings and their distinctive concave pillars, they achieve a degree of original beauty that has seldom been equalled in motor car design.

You are cordially invited to visit our showroom and secure complete detailed information about this sensational new car which will be ready for delivery beginning January 16.

The new Ford has a very simple and effective lubrication system

THE lubrication system for the engine of the new Ford is as simple in principle as water running down-hill.

A gear pump in the bottom of the oil pan raises the oil to the valve chamber reservoir. From here it flows on to the main crankshaft bearings and the front camshaft bearing. Overflow oil drops into the oil pan tray and runs into troughs through which the connecting rods pass.

As the ends of these rods strike the oil they scoop up a supply for the connecting rod bearing. At the same time they set up a fine spray that lubricates the pistons and other moving parts.

From the tray the oil runs into the bottom of the pan, and is again drawn up through a fine mesh screen and pumped to the valve chamber.

This system is so effective that the five-quart contents of the oil pan pass through the pump twice in every mile when you are traveling at only 30 miles an hour. Yet there is only one movable part — the oil pump.

As a matter of fact, the lubrication system for the new Ford is so simple in design and so carefully made that it requires practically no service attention.

There is just one thing for you to do, but it is a very important thing... watch the oil! Change the oil every 500 miles and be sure the indicator rod never registers below low (L).

If the oil level is allowed to fall below low, the supply becomes insufficient to oil all parts as they should be oiled.

To insure best performance it is also advisable to have the chassis of your car lubricated every 500 miles. This has been made easy in the new Ford through the use of the high pressure grease gun system.

Proper oiling and greasing mean so much to the life of your car that they should not be neglected or carelessly done.

See your Ford dealer regularly. He is especially well fitted to lubricate the new Ford and he will do a good, thorough job at a fair price.

Girl Scout Troup Organized

Tuesday afternoon about thirty girls met in the High School auditorium for a Girl Scout meeting. Ms. J. R. Lock, Mrs. Stafford Baxter, Miss Cody Wallace, Miss Eunice Wheeler, and Mrs. Petty met to organize them. Those present will be classed in Troup No. 1 of the Santa Anna Girl Scout Patrol. One says they are going to be better than all the others together.

Let Us Be

Thankful!

Our Pilgrim forefathers fought hard for the meager living that their wild, new country gave them—tilling a soil that was none too productive, yet which by the grace of Providence, yielded them their first harvest and starved off despair and starvation.

They had good cause to establish a day of Thanksgiving.— little wonder the joy and satisfaction that was theirs on that first celebration.

What a Difference Today!

That same country today is fully organized and progressed to produce and distribute every good thing of life for which we should be most thankful this coming Thanksgiving.

Among the institutions of today that promote prosperity and guard the welfare of the citizens of the country are such institutions as ours. We invite you to take advantage of whatever service we have that interests you.

YOU ARE ALWAYS WELCOME HERE.

CAUGHT in the ROUND-UP

Nay Cartwright, tool dresser for the Texas Company, Biler No. 5, is laid up this week with a badly mashed foot, the result of dropping a heavy bit on his foot last Thursday. Nay says that, due to an automobile accident about four years ago every time he gets hurt, current gossip gets it started that he has been in another car wreck. To such, he wishes to reply that he has never had but one wreck, and would appreciate the benefit of the doubt in all other claims. Nay also states, he is recovering and will soon be back on his job, unless he is caught up in another car wreck.

Mrs. Lou Connor of Cross Plains is visiting her brother, Rev. Sidney F. Martin and family this week.

Celebrates On 80th Birthday

The home of Mr. and Mrs. M. L. Switzer was a scene of happiness and delight last Monday afternoon, November 26, when grandma Switzer's friends and grandchildren surprised her with a birthday party.

She received a number of useful gifts and a bountiful fruit and floral shower which were all very highly appreciated.

At a late hour sandwiches, mince, cake and hot chocolate were served to some twelve guests.

Grandma will never forget her many friends and grandchildren who were so eager to bring a ray of sunshine into her life despite the gloomy weather on her eightieth birthday.

Moulton Sims of Cross Plains was a Santa Anna visitor Tuesday.
