"THE HOUSE OF SERVICE"

Favorites and "Finds"

Appear in "Wet Paint"
Established favorites and new screen discoveries are included in the supporting cast of Raymond Griffith's latest picture for Paramount, "Wet Paint," which comes to the Queen Theatre next Friday. Helene Costello, 19 year old daughter of Maurice

Costello, famous star of a dozen years ago, plays opposite the comedy star, while the role of her brother is portrayed by Bryant Washburn, himself a popular favorite. Natalie Kingston, Henry Kolker, well known Broadway comedian, and many others play important parts. Arthur Rosson directed Griffith in "Wet Paint."

CARD OF THANKS

I fail to find words to express how much I appreciate the flowers presented me by the members and friends of the McCorkle church, also other kindness shown me by my neighbors and friends.
Lovingly,
Mary Lou Yancy.

Nerve and ability carry a man in the same direction, but his position is more secure when he depends on his ability.

CITATION

STATE OF TEXAS

To the Sheriff or any Constable of Coleman County; Greeting—
Whereas oath has been made before me by B. T. Vinson (of B. T. Vinson & Co.) that Dick Lane is absent from his usual place of abode and whereabouts unknown, so that the ordinary process of law cannot be served upon him; you are hereby commanded that you, by making publication of this writ in some newspaper printed in Coleman county, for four successive weeks prior to return day hereof summon the said Dick Lane to be and appear before me at a regular term of the Justice Court for Precinct No. 7, in said County of Coleman, to be held at my office in Santa Anna, Coleman county, on the 15th day of November, 1926, to answer the suit of B. T. Vinson & Company, Plaintiff, against Dick Lane, Defendant, said Plaintiff's demand being for a debt of Eighty Dollars and interest, from the 30th day of June, 1926.

Herein fail not, and of this Writ, make due return at the regular term of Justice Court in Precinct No. 7, in Coleman County, to be held in my office on the 15th day of November, 1926, as the law directs.
Given under my hand, this the 20th day of Oct. 1926. Suit filed June 30, 1926.
—J. S. JONES, Justice of the Peace No. 7, Coleman County. 43-4tc

HALLOWE'EN

Once more the ghosts and goblins stalk about us. For Hallowe'en approaches. There are holidays and holidays, but none quite so mysteriously joyful as the night of pumpkin faces, black cats and witches. And there's something about Hallowe'en that gets under the skin of the old folks, too: something that carries them away and out of themselves. And therein lies the mystery of masks and fairies and goblins. They give us a glimpse into the world of make-believe.

But let's make this a safe and sane Hallowe'en. There's enough fun to be had without destroying property. For to be truly happy is to help keep others from being sad or at a loss.

The man who said he wanted to live by the side of the road probably had in mind the putting in of a filling station.

Intermediate B. Y. P. U.

The supper—Oran Traylor.
Remember Christ's life—Grady Lowe.
Remember Christ's death—Sybil Post.
Christ's promise to come again—Afton Pieratt.

TEXAS TELEPHONES

In 1895 the telephones for the entire state of Texas were listed in only one directory, which consisted of 158 pages. Today a book listing all the telephones in Texas, if printed in like form, would contain 6,672 pages and would be fifteen inches thick.

Rose Gin Round Bale SAYINGS

Don't worry about the round bale ruining the farmers while there are only three round presses in this country.

Don't speak disrespectfully of your competitor—remember it hurts you more than him.

Don't worry about the knockers—they are a necessary evil.

Why sell your seed cotton and bolls in seven hundred and thousand pound lots when you can round bale them and get full value?

No difference where you ginned your square bales, try the round bale with your remnants.

We have ginned close to 1500 round bales this season and want to make it 2500 by end of the season.

TEXAS AND TEXANS

(By Will H. Mayes)

Stand Firmly Together

Kentucky's well known motto, "United We Stand, Divided We Fall," applies with especial force to the cotton situation in the South. There is not a man, woman or child in the entire cotton growing section who is not

affected by the price of cotton, and unless prices are restored to a profit making basis before the bulk of the present crop passes out of the hands of the growers, thousands will be hopelessly bankrupt. You may be one who can sell at the ruinous prices now prevailing without suffering, but, if so, you are an exception. Cotton at 12 cents today creates a worse condition than when cotton sold in 1914 at 6 cents, for a dollar now does not buy more than 50 cents bought then, and people are living more expensively than they lived then. They also owe more money that must be paid and for which they have looked to the cotton crop. Whatever plan is agreed upon for marketing this crop and planting another should be supported by every farmer and business man as well. By a united effort on the part of all, and only by such co-operation, prices can be restored. Don't do less than your whole duty to your country and your countrymen in their time of need.

Intercollegiate Athletics

There is a general feeling that, although there may be some good resulting from school athletic teams

playing with other school teams, the games are costing too much in both money and time, and in diverting attention from the real purposes of the schools. The colleges place such emphasis on athletics, they must do so to hold their students—that the schools with good teams get the publicity that draws patronage to them. If this is true, the schools are becoming athletic centers more than educational institutions and the training of the mind is becoming secondary to athletic victories. There is no doubt that all the schools are now giving a more hearty welcome to the athlete than to the student of less physical strength, whatever mental qualities he may show. The student is made to feel that physical strength is rated higher than mental equipment. Unfortunately the same feeling is extending to the high schools and is being fostered by the numerous contests between schools of neighboring towns and cities.

Scouting and Recruiting

There was a time when a student's grades in the preparatory school made college authorities anxious to have him continue his studies in their schools that he might reflect credit on the institutions as a student. Now, the colleges search, not so much for students of high rank, as for those who show prowess as athletes in the preparatory schools. "A" grades do not rank with goal kicks and home runs. The preparatory student sees this and centers his efforts on the things that will make him most popular when he gets to college.

There is complaint, too, that the recently inaugurated system of sending out scouts to see the kind of game played by an opposing team tends towards commercializing school athletics and encourages resort to questionable practices. The employment of high salaried professional coaches, who must make a showing to justify their employment, partly accounts for any over-emphasis that may be placed on school athletics.

Burning Natural Gas

Center, over near the East Texas line, is rejoicing in the recent acquirement of natural gas, and practically every town from Texarkana to Fort Arthur is soon to have this splendid fuel. The report comes, too, that gas lines are to be put through the lower Rio Grande Valley down to Brownsville. In fact, gas pipe lines are being laid almost all over Texas, and there appears to be sufficient natural gas to supply fuel for the entire State. There is nothing that adds

more to the comfort of living than an abundant supply of natural gas at a reasonable cost, and Texas is fast becoming the ideal State in which to enjoy life.

Five Million Dollar Resort

The newspapers announce that Tex Rickard, the renowned "sports" promoter, has organized a company to build a \$5,000,000 "resort" at Nuevo Laredo, Mexico, across the river from Laredo, Texas. Details as to the contemplated resort are not given, but it is generally supposed that emphasis will be placed on boxing, bull fighting, games of chance, drinking, and other dissipation that are not quite in good standing in the United States, but that will attract so-called "sporting life" from all over the world. It is altogether probable that when the new "resort" is in full swing, the Texas Ranger force along the Rio Grande about Laredo will find its duties increasing.

Legislative Investigations

The special session of the legislature recently adjourned will be known for the numerous investigations it started and left unfinished. The session which will be held in January will begin handicapped by these numerous pending investigations, which will have to be disposed of in some way. It remains to be seen whether

any of them will accomplish anything really worth while. Most investigating committees heretofore have done their work, made their reports, and been at once forgotten. They usually start enthusiastically and finish apathetically when they find that the legislature refuses to consider their efforts seriously.

Grain Crop Season

The rains in North Texas are coming at a time to suggest the sowing of grain crops, and doubtless the North Texas acreage in wheat and oats will be increased largely. Indeed, indications now are that there may be as much overplanting of grain as there has been of cotton, but, fortunately, it is easier to hold grain than cotton for systematic marketing.

Do You Like This Column?

This column is perhaps read by more than a hundred thousand Texans in numerous papers that use it every week. The writer is anxious to make it as interesting and helpful as possible, and to improve it whenever it can be done. I would like to know what readers think of it and have suggestions for its improvement. I want to be of genuine service to the people, and you can help by writing criticisms or suggestions to me at Austin. I want you to feel that this is your column and at your service.

THE SUCCESS FAMILY

The father of success is work. The mother of success is ambition. The eldest son is common sense. Some of the other boys are perseverance, enthusiasm, honesty, thoroughness, foresight, and co-operation. Some of the sisters are cheerfulness, loyalty, courtesy, care, economy, sincerity and harmony. The baby is opportunity. Get acquainted with the "old man" and you will be able to get along pretty with the rest of the family.—Exchange.

CITATION

STATE OF TEXAS

To the Sheriff or any Constable of Coleman County, Greeting:

Whereas oath has been made before me, by W. F. Holland, M. D. that J. W. Rountree being absent from the State, or in parts not accessible by the ordinary process of law so that process can be served on him.

You are hereby commanded that you by making publication of this writ in some newspaper published in Coleman county for four successive weeks prior to return day hereof, summon the said J. W. Rountree, to be and appear before me at a regular term of the

Justice Court for Precinct No. 7, in said county of Coleman, to be held at my office in the town of Santa Anna,

in the county aforesaid, on the 15th day of November, 1926, to answer the suit of W. F. Holland, M. D., plaintiff, against the said J. W. Rountree, defendant, being numbered 1907, on docket of said Court, said plaintiff's demand being for the sum of sixty-five dollars (\$65.00) due on account of date June 24, 1925, and payable at

once. Plaintiff asks for judgment for principle, interest and cost of this suit.

Herein fail not, and of this writ make due return at the regular term of Justice Court for Precinct No. 7, in said county, to be held on the 15th day of No. 1926, as the law directs.

Given under my hand this the 8th day of Oct. 1926.
—J. S. JONES, J. P. Precinct No. 7, Coleman County, Texas. 42-4c

Self Serve Grocery
SANTA ANNA, TEXAS

OIL CALLS THE KILOWATT

The estimated monthly production of oil in the field embracing the counties of Shackelford and Callahan, and the northern portion of Coleman and Brown counties, is 800,000 barrels.

Thirty-five per cent of this production, or approximately 280,000 barrels, is pumped by electricity furnished over the lines of this company. There are 750 wells in this field equipped with electricity driven pumps. And in addition electricity is driving numerous pipe line pumping stations, machinery in gasoline plants, carbon black plants, and gas compressor stations, is driving two, drilling rigs at this time and is furnishing light throughout the field.

Here is a striking example of the diverse usage of electricity in industry—and that, too, in an industry where fuel (one of the major items of expense in power production) is extremely cheap. In a field where unlimited quantities of natural gas are available at virtually no expense, electricity, produced at generating stations many miles away, comes in to compete on an equal footing and holds its own.

No source of power known to industry is so convenient, so flexible, so safe, so sure, so economical as electricity. The preeminence of American industry is predicated on this modern miracle. Electric power is essential to its continued growth and prosperity.

That is why this company knows that it must, without fail, always be ready to furnish to the territory it serves electric energy in unlimited quantities and at reasonable rates. It must do this if it is to fulfill its duty in furthering the growth of the industries of West Texas.

And it IS doing that.

Lesson for October 24

JOSHUA, ISRAEL'S NEW LEADER

LESSON TEXT—Num. 27:18-20; Joshua 1:1-9.

GOLDEN TEXT—Be strong and of good courage; be not afraid, neither be thou dismayed: for the Lord thy God is with thee whithersoever thou goest.

PRIMARY TOPIC—Joshua, the New Leader.

JUNIOR TOPIC—The Task of Joshua.

INTERMEDIATE AND SENIOR TOPIC—The Secret of a Strong and Useful Life.

YOUNG PEOPLE AND ADULT TOPIC—Preparation for True Service.

The book of Joshua, from which our lesson is taken, is a history of the conquest of the promised land and its division among the tribes of Israel. It takes its name from its principal character, Joshua.

I. Joshua, the New Leader of Israel (Num. 27:18-20).

The people were not to be left in doubt as to a leader when Moses was gone. The leader was to be appointed and given recognition before all the congregation.

During the wilderness journey Joshua was Moses' minister, and the captain of his army. When Moses was denied the privilege of going over the Jordan, Joshua was appointed to the leadership of Israel. Moses, the representative of the law, brought Israel to the borders of Canaan. Joshua was the man chosen to lead the people into the place of rest. The name "Joshua" has the same derivation as the name "Jesus."

II. Joshua—Commanded to Take Charge (Josh. 1:2).

Moses was dead, but God's work must go on, therefore God issued the command for the new leader to assume his duty.

III. God Renews His Promise to Israel Concerning the Land (Josh. 1:3-6).

This promise had been given to Abraham and renewed to Isaac, Jacob and Moses. It is now renewed to Israel as they were about to enter upon its possession. The borders of the land were "from the wilderness and the Lebanon even unto the great river, the River Euphrates, all the land of the Hittites, and unto the great sea toward the going down of the sun." The nearest territory was ever possessed was during the reign of David and Solomon, though not then fully realized. This land still belongs to the Jews, and in God's own time they shall possess it. Their possession of this land was due entirely to themselves. God promised them that wherever their feet stood upon the land it was theirs.

IV. God's Presence Promised (Josh. 1:5).

Joshua was entering upon a perilous and momentous enterprise, but the Lord said as He was with Moses, so He would be with him. The difficulties before him were:

1. The Jordan River (v. 2).

This river was now at its flood (Josh. 3:15), making it impossible for armies to cross.

2. The people were living in walled cities (Num. 13:28).

Notwithstanding this, God was ready to insure success.

(1) "I will not fail thee, nor forsake thee" (v. 5).

(2) "There shall not any man be able to stand before thee."

(3) "As I was with Moses, so I will be with thee." Joshua had been with Moses throughout their forty years' experience from the Egyptian deliverance to the time of his death. Because he believed that God was with his master, he was willing and ready to cross the Jordan at its floodtide and courageously meet the enemies on the other side.

V. Conditions of Blessing in the Land (Josh. 1:6-9).

1. "Be strong and of good courage" (v. 6).

His mission was to go in and divide the land among the tribes for an inheritance. It required strength and courage to do this.

2. "Unwavering obedience to the Word of God" (v. 7).

In a land of idolatry it required much courage to be true to God. Prosperity and success were conditioned upon unwavering obedience to God's commands. In all his work he must conform his life to the law of God. To pass from the path outlined therein would bring disaster and ruin. In order to accomplish this the law of the Lord must be in his mouth continually. He was to meditate therein day and night.

Joshua rendered prompt obedience, he did not stop to cavil, but at once gave order for the march. God made the plan and gave the directions.

Culture

We hear so much nowadays about "culture." Culture is all right when you have something to cultivate. First make sure that you have the divine nature, then cultivate it!—D. L. Moody.

Day and Evening

Day, like a weary pilgrim, had reached the western gate of heaven, and Evening stooped down to unlace the latches of his sandal shoes—Langhew.

"FARMERS GET TOO MUCH FREE ADVICE"

(Sun-of-A-Gun in San Saba News)

The price of cotton has hit the toboggan and all over the world there is the harsh criticism of the farmer for planting cotton. Of course the farmer of the south will go right on and plant fields to just such crops as his better judgment dictates. That's the way other people attend to their own business and why should the farmer be an exception to the rule. The farmers get entirely too darn much free advice anyway. When cattle hit the bottom a few years ago the world was not yelling at the cattle man to cut production. When sheep were not worth their pasturage the sheep men were not driven frantic with a chorus of yells to cut production. What I long to see is the farmer of the south growing his own meat, vegetables and fruits at home, tending his little flock of sheep and poultry, planting all the cotton his sweet will suggest and standing erect, looking the world of advisers and critics in the face and telling them to go jump in the lake. The farmer is getting too much sympathy and free advice. What he needs is not sympathy, but the cold cash. He needs less free advice and more cold-blooded business. If he plants cotton it is all worry; if he buys an automobile or a Henry Ford he is a damn fool; if he goes to town he ought to be in the field; if he stays in the field he is an old skin-flint, and there you are. The fact is that he is the salt of the earth, the backbone of civilization, the strong support of the church, the school and the state. Other folks ought to be asking him for advice and counsel. He could tell the freznieid financiers about as much about how to run their business as they can tell him about how to run his business. There now. Come to San Saba, the home of the paper shell pecan.

The W. O. W. is here to stay. One of the most solvent societies on earth. Carries insurance in and around Santa Anna totaling \$343,000 with 214 good substantial policy holders. Own their own home, free of debt and money to meet our needs.

THE SCIENCE OF CHIROPRACTIC

To begin with, it was discovered September 1895, by D. D. Palmer, of Davenport, Iowa. Since that time it has been developed into an exact science and has grown to be the greatest drugless health method in existence.

Chiropractic has a specific adjustment for every ailment known to man, the philosophy of Chiropractic, which gives the reasoning to the cause of disease is that of an intelligent force operating through the physical body in time, quality and quantity. If the life forces is expressing itself, there is a state of health, if not, there is a state of disease, you are low in vital force or nerve power, which means weakness, loss of sleep, despondency and just about ready to surrender and give up. DON'T DO IT. Open your eyes to the pleading of thousands of people who have tried this method and are well and happy today. It is the part of the Chiropractor to adjust the misplaced vertebra or subluxation back to its normal position in as short a time as possible, allowing the patient to get well under this method quicker than any other method of treatment.

Don't listen to the knocker with his little hammer; he is a good fellow, but ignorant of the things that we do. We can't cure you in a day when you have been years breaking down; you have to give nature time to act, and give us time to see what can be done and you will be wonderfully surprised.

If you are down and out, come let's talk the matter over. The human body is a wonderful machine and must be repaired the same as any other machinery.

It might save you years of suffering to be informed of this method. God pity the man that says there is nothing to our method; but it is only for the want of knowledge. COME AND GET WELL, and let's get all the good of this beautiful old world for we are passing through for the last time

DON'T WORRY ABOUT YOUR ENEMIES—Forget 'em.

HOW ABOUT PLANTING SOME "BY CROPS"

If a man will just walk up and down the street and ask every farmer he meets how he came out on his cotton crop this year he will get the same answer: "I lost money." Then, just wait until planting time next spring and make the same round and ask these same farmers how much cotton they are planting and 99 per cent of them will tell you that they are planting the same amount of acreage.

Is it that they WANT to lose money from year to year. No, it isn't that. But it has been drilled into them from childhood that Southwest Texas is nothing but a cotton country and most of them are 100 per cent cotton farmers for the same reason that most of them are Democrats—because Pa said it was the only way.

We don't advocate farmers quit planting cotton altogether, but suppose we take a hundred acre farm and plant it something like this: plant one acre to sweet potatoes, two acres to peanuts, ten acres to small grain, five acres to broom corn, one acre to oats for grazing, five acres to some kind of a hay crop, one acre to tomatoes, one acre to watermelons, cantaloupes and cucumbers, one acre to turnips, one acre for a garden, thirty acres to corn and forty acres to cotton.

Don't you believe that planting the various crops, some of which can be planted early and late and make two crops a year that you can live on what you would call the "by crops" and have the cotton crop in the fall for a money crop? A flock of chickens, a few good cows and a few pigs would complete the program.

If some of these crops should prove failures each year there would still be enough left so Mr. Farmer could live at home instead of out of tin cans and paper bags. That is what we would call sensible farming and sure farming.

If everybody took to planting large acreages in any one of these, other crops as they have the cotton, there would soon be an over-production and the result would be as disastrous as if they all planted cotton. Let's give it a trial and see if we don't fare better.—Karnes County News.

Popular Players Again Together

Madge Bellamy and Leslie Fenton appear destined to become one of the most popular combinations in all screendom. After playing together in "Thunder Mountain" and "Lazybones," two of the season's outstanding film successes, these players are teamed again in the Fox Film, "Sandy," which will be shown at the Queen Wednesday and Thursday. "Sandy" is the story of a modern flapper who in an untiring search for thrills east, aside the well-established conventions. In addition to Madge Bellamy and Leslie Fenton, a half-dozen other popular screen artists are featured.

Cold weather will bring further suffering and the need for relief will continue to exist for some time.

SORE GUMS

Nervous hot flashes

"Some time ago when in a very nervous, run-down condition," says Mrs. Martha E. Maxwell, of Broken Bow, Okla. "I tried numerous remedies to try at least to keep going, but I could not. I was weak and tired—just no good at all. My back ached and I had hot flashes until I was so very nervous I smothered. "I couldn't sleep and I was never hungry, and I kept getting weaker. I couldn't stand on my feet. This was an unusual condition for me as I had been pretty strong all along. I knew that I would have to do something, and that pretty soon. "Some friends suggested that I take Cardui, and it certainly was a good suggestion, for after taking one bottle I could tell I was stronger and better. I didn't quit. I kept it up all through the change and did fine. I felt like a different person after I began taking Cardui. "Cardui has helped thousands of suffering women! Sold by all druggists."

CARDUI

Accidents in Texas During September Take Toll of 171

Austin, Texas, Oct. 11.—Accidents took a toll of 171 dead, and 485 injured in the state of Texas during the month of September according to a survey of the Texas Council of Safety, which released the results of its investigation today.

W. E. James, Director of the Council, said that the organization is making every effort to list and tabulate the accidents, and their causes, in order to take precautions for reducing the number of accidents.

The September survey discloses 806 injured in automobile accidents, and 62 killed from that cause; railway train 26 injured, twenty-five killed; street car one injured none killed; motor car six injured three killed; other vehicles six injured none killed; falls 31 injured nine killed; burns seven injured eight killed; asphyxiation none injured, one killed; drowning 4 injured 13 killed; firearms 22 injured 21 killed; other causes 76 injured and 29 killed.

The totals reveal 485 injured in various sorts of accidents, and recovering, and 171 killed, or a total of 656 injured and killed throughout the state.

After a study of the figures over a period of months, the council will make certain recommendations for the reduction of the accident toll.

WHAT'S DOING IN WEST TEXAS

(By West Texas C. of C.)

Post—Garza County carried away first honors for West Texas and the South Plains this week in having its agricultural exhibit adjudged the finest agricultural display of all states entries at the Dallas Fair. The display was arranged by George (Scotty) Samson, Garza County Agricultural Agent, and featured small grains and grain sorghums. Garza's grain sorghums scored 193 points out of the possible 200; forage feeds 47 out of 50, and alfalfa 72 out of 75 points. The same exhibits took first honors at Lubbock and Abilene. Randall and Hartley counties drew second and third honors to Garza. The biggest demonstration in the history

FOR OVER 200 YEARS

correct internal troubles, stimulate vital organs. Three sizes. All druggists insist on the original genuine Gold Medal.

of Post was given on the return of George Samson from Dallas, over 1,200 people with the band meeting him upon his arrival.

Amarillo—Amarillo and Wichita Falls are running neck and neck in their West Texas Chamber of Commerce membership drive contest, with Wichita leading slightly. Both have around 600 memberships but Amarillo expects to forge ahead when all her pledges are taken up.

Quanah—An impediment to Quanah's progress in the opinion of its citizens has been removed with the opening of the Pease River Bridge as a free bridge. No more tolls will be collected for passage over it.

Stamford—Despite the continued rains in this section, the community fair which opened here Thursday is drawing good crowds. A concert by the Stamford Fireman's Band, official band of the West Texas Chamber of Commerce, started the festivities in the municipal auditorium where the exhibits are located. Some 25 merchants, manufacturers, and communities have displays there.

Levelland—A new unit, consisting of engine and dynamo, will be installed here immediately by the Texas Utilities Company, doubling the capacity of the local power plant.

Amarillo—Contract has been let by the Texas Gas Company for the construction of its line from the Panhandle gas fields to the South Plains. Cities already under franchise are Lubbock, Slaton, Plainview, Floyada, Lockney, and Tulia. Distributing systems are to be located at Canyon, Abernathy, Happy, Kress, Hale Center, and other points.

Young Wife Afraid to Eat Anything

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (Signed) Mrs. A. Howard. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Removes old waste matter from intestines and makes you feel happy and hungry. Excellent for obstinate constipation.—CORNER DRUG CO.

Stamford—West Texas advertised as the "Land of Opportunity" has recently gotten publicity over 10 states of the Union. The medium through which the section was brought to mind of New Mexico, Colorado, Wyoming, Montana, North and South Dakota, Nebraska, Oklahoma, Kansas, and all parts of Texas was the Wortham Shows. The Wortham Shows, which are one of the largest carnival attraction organizations in the states, hold large memberships with the West Texas Chamber of Commerce, and as a means of expressing their loyalty to that great regional organization, and to further the interest of their native state and favored section, they carry their office wagon large signs telling the world about West Texas. The Wortham Shows are having a two weeks run in Stamford now in connection with the first annual Community Fair held here, having come direct from Wichita Falls where they had an engagement in connection with the Oklahoma Texas Fair.

Good taste and good health demand sound teeth and sweet breath.

The use of Wrigley's chewing gum after every meal takes care of this important item of personal hygiene in a delightful, refreshing way—by clearing the teeth of food particles and by helping the digestion.

The result is a sweet breath that shows care for one's self and consideration for others—both marks of refinement.

Stamford—West Texas and the West Texas Chamber of Commerce which serves the empire region have been honored by the Southern Steamship Company who has named its newest steamer the "S. S. West Texas." It is the expressed desire of the company's officials that the craft will be a floating monument to the world's greatest regional chamber and the territory in whose interest it works.

Misses Rose Bowden and Rebecca Clifton of Brownwood spent Sunday with relatives here.

Mrs. Clyde Weathers is recovering from a burn caused by the explosion of a gas stove.

Mrs. E. M. Routh and daughters spent a part of last week in Brownwood.

Extra! Mounted Police
Taboo in Northern Film

"Mantrap," which comes to the Queen Theatre Monday and Tuesday, is a distinctly new kind of Canadian woods story. For one thing, it has no Northwest Mounted Police. Secondly it deals with the woods in mid-summer, when they are the paradise of campers and vacationers, and not, with three feet of snow. In fact, the whole story, which is by Sinclair Lewis, the author of "Main Street," "Babbitt" and "Arrowsmith," is unusual throughout. A distinctly novel type of love story predominates, with Clark Bow as the girl, and Ernest Torrence and Percy Marmont the men. Paramount's latest production was directed by Victor Fleming.

Questions for Self Culture Club

1. Discuss Poe as a short story writer.
2. Do Poe's writings suggest anything of his dissipated life?
3. Discuss Poe's originality in his choice of subject matter.
4. Why does the world consider Poe so great?
5. Tell how the story of "The Fall of the House of Ushers" is based on scientific facts.
6. What romantic elements enter into the story from the beginning?
7. Was Marie Roget really normal? Does Poe decide?
8. Discuss the plot of "The Mystery of Marie Roget."
