### VOTE AND WORK FOR THE SCHOOL AMENDMENT **ON NOVEMBER 2ND.**

### (By Annie Webb Blanton, State Superintendent of Public Instruction.) NEED OF MANY WORKERS.

It is when we try to inform the people of Texas as to the merits of any measure that we realize that Texas is not really a state-It is an. empire. Compare the Lone Star State, with its 252 counties, with its neighbor, Oklahoma, which has 77 counties, or with tiny Delaware, which has three. It soon becomes obvious that to give adequate publicity to even the most meritorious measure, an army of workers is needed.

When we remember, further, that the general attitude in Texas has been to vote against constitutional amendments, we realize that, the patriotic citizens of Texas must go out into the highways and byways to arouse the necessary enthusiasm for the educational amendment to make it the notable exception to the rule its friends all predict it will prove to be.

#### NATURE OF THE AMENDMENT.

Texas now has a district tax limit of fifty cents on the hundred dollars of property valuation. Only two states, Texas and Virginia, have so low a limit. Half of the states of the Union have no limit on the tax that districts may vote for school purposes. The unjust side of this tax limit is that while large cities are exempt from this provision, the village school and the country school are shackled by its terms. The proposed amendment to article 3 of section VII of the constitution will grant the same privilege to all schools-It will permit the country school district as well as the city to vote for its schools such support as it deems necessary

#### THE AMENDMENT DOES NOT RAISE TAXES.

The proposed amendment does not raise taxes, nor does, it permit any school board to increase taxes. It simply leaves each district free to continue its present support to its schools, or to increase this support, if it chooses. Before any tax can be increased, the rate must be decided by a vote of the taxpayers of the district. This amendment is, therefore, a measure of local self-government.

### ATTITUDE OF THE FOLITICAL PARTIES.

The state democratic convention of 1920, at its recent meeting in Fort Worth, endorsed the passage of this amendment as a part of the platform of the democratic party. The republican candidate for gov-ernor, in a recent address, stated that he would prefer that the people of Texas should fail to vote for him than to fail to vote for this amendment. At this writing, other parties have not expressed their attitude.

#### A MISTAKEN IMPRESSION.

A few persons have expressed the opinion that, since their districts receive from the state more than they pay to the state, it would be best to vote against the amendment, and let the state support their schools. The mistable in this is (1) that the state can not and will not continue to support those who do not help themselves and (2) that such an attitude is condemned by most of the right-minded patriotic citizens of the state. The four million dollar appropriation was made by the legislature to tide over the emergency until the amendment can pass. The legislature will have no convenient surplus-next year, to appropriate; for the tax rate has been lowered. Moreover, many members of the legislature have declared that, if the people vote down this amendment in November, they will make no more appropriations to the schools from the general revenue. Some of them have asserted that they will even vote to discontinue the two-milliondollar appropriation for rural schools. If the amendment fails to pass, the schools will have no recourse. Two thousand of them closed their doors last year. Our teachers will flock to other states, where a living wage is offered. Many have already gone.

STATE SUPPORT THE SAME FOR CITY AND COUNTRY SCHOOLS. The politician frequently harps on the difference in support of country and city schools. This difference lies in local support. The state gives the same per capita for the country and the city child. I favors the country child, in that it makes a special appropriation of two million dollars for rural schools. While Texas stands tenth in state support of schools, it ranks as forty-fourth in local support. Shall

Remember that the difference in support of schools rests with the local patrons, not with the state.

The state gives the same per capita to every child in Texas; but it favors the country child in that it makes a apecial appropriation of \$2,000,000 for rural schools.

Why Can't We Have Good Schools in the Country?"

One of the school supervisors of the state department of education recently talked to a young girl on the train, who lives on a farm in the black land belt. She was a girl of about fourteen, whose square little body and straightforward sincerity of eye indicated unmenal physical and mental strength. She said she loved her farm home although the work of cooking, canning, washing and ironing, sewing and some-times working in the field was heavy. Teacher.

# ANNOUNCEMENT

I wish to announce to the public that I have purchased the East End Grocery formerly owned by Mr. Arel Bertrand and will close out stock of goods at once. This will be your chance to make a substantial saving on your grocery purchases. As long as I am in business I will pay the highest prices for country produce. Bring me what you have in this line.

I also have some of the very best mattresses made by the most skilled workmen which I will sell at exactly cost. See these before you buy.

A. C. Woodward

# SIMMONS & GREER COMPANY ANNOUNCE

# **OPENING OF STORE SATURDAY, OCTOBER 23RD.**

## NEW STORE, NEW PRICES

## Staple and Fancy Dry Goods, Shoes, Novelties, Ready-to-Wear and Kindred Lines

Owing to the high prices that have prevailed on all lines we placed no orders for goods but are now buying and receiving daily merchandise that reflects in price the heavy decline in many lines.

## This Advantage We Will Pass to You

All goods priced in plain figures and in all cases will represent the big reductions being made by manufacturers and wholesalers.

We respectfully ask a share of your trading and earnestly urge that you compare goods and prices that we will place before you from day to day.

We invite you to visit our store feeling that at all times we can assist you in solving the buying problem.

## Awaiting the Chance

To please you and serve you

15

Yours very truly
