MRS. J. L. LANDRUM ORGANIZING CLUBS

Dear Editor:
I am visiting the schools of this county organizing girls clubs under the auspices of the West Texas Chamber of Commerce, who has asked my department the State Department of Agriculture, to give me to the organization until we have organized all of the counties of its district. My work under the dept. of agriculture is over five years experience. Enroll the girls and send them lessons every week upon every phase of home making. These lessons are perfectly free to the girls. I asked in the Shield district what paper was read and found yours was the leading paper of that community. Will you publish the inclosed list and will you give publicity to the clubs of your territory? I will appreciate it very much. With many thanks and best wishes to you, I am,

YOU ALL KNOW HIM.

Temple, Texas, Feb. 23, 1920
Publisher News,
Santa Anna, Texas.

Dear Sir:
Something like fourteen years ago, when I was active-vice president of the hell-box in the News office, Mr. I. W. Culp came along and I got acquainted with him, there in the shadow of your own beautiful mountain. I have known him since that time and there is no better human being under the blue canopy of heaven. He is running for lieutenant governor now and I am enclosing a dollar and a half, please send the paper to him here at Temple. As he was formerly in the game he thinks that the best way to keep posted on matters political is to read all the good weekly papers. I told him that the News was one of the good ones, so he said, "Have them put me down for it."

I certainly would appreciate having you say something good about Ike in your excellent paper. Not just because he is a friend of mine, but because he is clean, honorable and broad-minded. He will make us a lieutenant governor that we will be proud of and if occasion should come, he is material that would make a most excellent governor. He is a Democrat who believes that nothing that will help the people is too good for his party.
Yours fraternally,
AUSTIN CALLAN.

DEEP TEST WELL FOR GLADYS BELLE HOLDINGS

Gladys Belle oil Company finished unloading their big standard rig last week. Their local manager stated one day this week, that they were going to put down a deep well, located in the middle of their holdings. When this hole is finished and the final shot is made, look out or some one is going to get some oil on them.

Ten cars were placed on the industry tract the first of the week to be loaded with the liquid gold from the big storage tanks of the Gladys Belle people.

REPORT FROM COLEMAN COUNTY OIL WELLS

The Gulf States Petroleum Company is spudding its initial well on the Babington tract two and half miles southwest of Coleman and will drill a series of wells to develop the shallow sands of the Babington field, which is producing pay oil in one well from the 1060 sand.

The Jim Ned Company whose discovery well on the Dibrell tract attracted much attention but was handicapped by a chain of hard luck from the beginning and which culminated in the loss of their derrick by fire and the lodging of tools in the hole, have recovered one string of tools after much delay. The first string of tools is yet in the hole, while the hole stands full of oil.

EXPECT TO DO BIG BUSINESS IN 1920

With the beginning of the new year 1920, the firm of Polk Bros. one of the leading business houses of Santa Anna, announced that they expect to do a record business in 1920.

The enterprising firm states that they have gotten a good start in attaining this goal, and their business thus far this year has greatly exceeded their expectations. During the two months of the new year, they exceeded the amount of business by a considerable degree, what they had planned to do.

They state that they have bought a larger stock of goods than ever before, and they purchased them early enough to get advantage of the earlier prices and also took advantage of having a bigger field of selections. They have many beautiful patterns in all lines from which the people may select.

JUDGE J. A. CREWS DIES SUDDENLY

The entire community and city of Santa Anna were surprised and mourn the loss of one of their prominent citizens, Judge J. A. Crews, who died suddenly Saturday night about 12 o'clock. Mr. Crews retired on the evening of Saturday, March 6th as usual. He had not been feeling very good for several days. Mrs. Crews heard him turn over in bed seemingly a little hard and groaned. She called him, but he did not answer, so on making examination she found he had gone to eternal rest. She went out on the porch and called the neighbors.

Mr. Crews was 77 years old, was born in Illinois. Came to Burnett county, Texas in 1859, where he was judge for over fourteen years, he was county judge of Coleman county for six years. He married Miss Lora Mabry at Burnett 47 years ago. He belonged to the M. E. Church for 25 years, he was a faithful worker and a good man. There were no children, but they had raised seven orphans. Mr. Crews numbers his friends by the population of this county and his former home. The funeral services were held in the M. E. Church, sermon preached by Rev. Lee at 2 p. m. He was laid to rest in the city cemetery at 3 p. m.

Those from out of town that were here for the funeral were: C. R. Crews of Ballinger, Allen Crews of Lometa, Mrs. J. S. Tunnell and two sons, Buford and Oland of Eastland, Byron Norrell and Mrs. Ora Skinner of Ada, Oklahoma, and Mr. and Mrs. M. J. Norrell of Dallas. The M. E. church was crowded with the good people of Santa Anna.

Mrs. Crews will return with her sister, Mrs. J. T. Tunnell to Eastland for a short visit.

The News joins the hundreds of friends and the family in mourning the loss of one of our most esteemed citizens.

GARNER BROTHERS BUY HOLLE & FERGUSON INTERESTS HERE

W. F. Garner, general manager of the Santa Anna Oil & Gas Ass'n. is here lining up a crew to begin work on their lease out on the Kingsbery tract. Garner Brothers have bought out the Holle & Ferguson interests from the above named company.

They intend to deepen their wells and bring in a sure enough producer as soon as they can make the necessary arrangements. Mr. Garner stated that everything looked fine around Santa Anna.

LOAD OF PIPING GOES BY TRUCK TO SANTA ANNA

A large truck loaded with twelve inch casing passed thru Brownwood today from Burk Burnett to Coleman county where the piping will be used in another well to be put down in the vicinity of Santa Anna. The young man in charge of the truck stated that a large quantity of casing is being prepared at Burk Burnett for shipment by truck to Coleman county.—Brownwood Bulletin.

Robt. Henderson who lives out on Route 1, was in town Saturday, and paid up his News and stated that he had been reading the News for thirty years, and he liked it better all the time.

H. E. Beckler of Dallas delivered very able addresses Sunday morning and evening on the subject of "Christian Stewardship." Mr. Beckler is State Stewardship Secretary for the Christian Church of Texas and also Secretary for the Inter-Church World movement.

PROMINENT KANSAS OIL MAN IN SANTA ANNA

E. C. Love, a prominent Kansas City oil man, was here the week-end investigating the oil and gas field in the Santa Anna district. He called at the News office and in conversation with the news man stated that he was very much impressed with the oil industry in our field. He visited several of the producing wells and watched the big pumps, belching the oil from old mother earth. This was enough to convince the most sceptical that this is one of the coming oil fields of Texas. Many wells are going down on every side of the town.

With the big oil refinery soon to begin active work on the construction of their modern plant insures the producers a ready market for their oil here at home. Keep your eye on Santa Anna, the coming oil town of the State.

BASKET BALL.

Last Friday afternoon our high school boys' basket ball team went to Novice and played the Novice fast team another game of basket ball. The game was hard fought from start to finish. Both teams playing with a determined spirit. Both teams played a fairly smooth game. The Santa Anna boys had the score in their favor from the beginning to the end of the game. This is the second game won by Santa Anna from Novice; the first stood Santa Anna 18, Novice 15; the second, Santa Anna 23, Novice 13.

The Novice boys are a good hard playing bunch, but were too slow for the Santa Anna fast team.

A Tribute to Mother Love.

Hon. I. W. Culp, candidate for Lieutenant Governor of Texas, in a recent talk had occasion to pay a tribute to Mother Love and he told the following pretty little story:

"She was an old black mammy, boys; her face would have made a wash kettle look as white as a China jar and her hair had all the characteristic kinks of the race she represented. I saw her sitting under a service flag that was decorated with a star of gold the tears were running down her fat cheeks and she wiped them away with a big clean apron she wore.

"Washington am, dead" she muttered, "they done and send me word fore days ago. He war a coming home but the fluenza hit got him an' now my pore chile, my soldier, I don't get to see him no more. I've got him a pie done cooked with his ole black mammy's hans. But he wont nebbur, nebbur 'joy it. He war jes' a nigger and maybe some folks dey would call 'him good fer nuffin', but Wash he were kind to me an' then he wuz my own baby chile, a long time ago fore his daddy Mose die, an' I jes lobe him wif all my heart." That's a mother, white or black or brown or yellow; that's a mother, at the Indian's straw thatched adobe down in the wilds of Mexico, the same as in the center of American culture and refinement. That's a mother, where the wildwood cottage stands only half defying the elements, or where marble walls shut in a king. Her's is a love, that speaks the language of all humanity, a love that is as fadeless as the stars, a love reaching from the highest pinnacles of fame down to where depravity has found its lowest level."

The City Cafe is doing some big improvements this week. Remodling the interior of their establishment. And it looks pretty nifty now.

Remember the good roads election will be held on March 13th. It is your duty to go to the polls and vote for the bonds if you want this city to amount to anything, if it don't carry our name is Mud forever.

HOW PUBLICITY PAYS.

A few days ago The Bulletin contained an insignificant news item telling of the possibilities for establishing a glass factory here, to utilize Brownwood natural gas as fuel and Santa Anna mountain sand as the raw material.

Since that time City Manager Brashear has received a long communication from a northern concern wanting more detailed

information as to the glass sand and natural resources of Brownwood, with a view to establishing a factory here.

It is possible, of course, that the concern making the inquiry will not actually establish an industry in Brownwood. But through publicity this city has been placed in touch with what may become a valuable local industry. Without publicity even that chance would have been lost. Brownwood Bulletin.

We agree with The Bulletin in the above article. Through our local paper and by a little more "pep" in our correspondents to the big daily papers, we can have a dandy city here some day. Without publicity we can have nothing.

Read every word in this paper this week, ads and all. If you are interested in the development of Santa Anna and Coleman County be sure to vote for the good road bonds. Don't just sit back and say "I know it will carry this time." Get out and do something to make it sure. If she don't carry this time our name is "MUD" forever.

GOOD FARMS—Good roads are productive of good farms, and prosperous farmers are the foundation and framework of every community. Without good roads the farmer is retarded and handicapped, his earning capacity is reduced, his working capital is impaired, his profits are

eliminated and his future is cloudy and obscure. But good roads make good farms, and we want every farm in this community to be even better than good. Build up the roads, and the farms.

GOOD PEOPLE—But the success of all depends wholly upon the mental, moral and physical calibre of the people. If they are "good people" other things will be proportionately good. Our people are good people, but we could be even better than we are, and our success would enhance in proportion to our qualities and our efforts. Good people are desirable, but better ones are prizes in the sea of life. Let's all be prizes.

CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royce City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

SOUNDS GOOD TO EDITOR.

We received the following letter from one of our readers from Trickham: "Please find check to pay for the News another year. Keep the good paper coming. Thanks. Mrs. C. F. Shields." We are always glad to get this kind of a letter and will try and make the News the kind of a paper our readers like to read.

The Santa Anna News is a progressive paper, and is working

for the good roads bond issue for Coleman county. What is says about bad roads is truth unadulterated, and applies equally to Brown county and the rest of the state. Go where you may, from New York to California, and someone, somewhere, will tell you of the wretched condition of the Texas roads. The bad roads of Texas do more to hinder the growth of this great and fertile state than all the other handicaps combined. Bad roads have cheapened farm lands at least from \$10 to \$25 acre. In other words every farmer owning a quarter section of land can get just a thousand or two thousand less for his farm than he could if Texas had good highways.—May Messenger.

Two Spots.

The country boy does not usually wear as high a collar as the city chap, but his head does not have to be propped to keep him awake.

Support the stores of your home town, and they will return it not merely by loyal service, but by working every day of the year to build up the town where your interests lie.

While a good stylish window display is no substitute for news

paper advertising, since 100 people read the advertisement for everyone who sees the window, yet a street full of attractive store-windows makes a town look alive to visitors.

Too True

When Mark Twain edited the Virginia City Enterprise, a superstitious subscriber wrote that he had found a spider in his paper. "Was it good or bad luck?" he asked. Mark Twain replied:

"Dear Subscriber:—The finding of a spider in your copy of the Enterprise was neither good luck nor bad. The spider was merely looking over our pages to find out what merchant was not advertising, so that it could spin its web across his door and lead a free and undisturbed existence forever after."

Brownwood is bidding for new families and holds out an invitation to the millionaires from the oil fields to choose that city as their living place. Ballinger is at its rows end along that line of growth until houses are built here. We are losin g good families every day because they can not get a place to live here. People who own good homes are not as quick to turn loose at seem-

ly fabulous prices when they stop to consider the cost of building, or look for another place to sleep. There are some beautiful building sites in Ballinger which can be had reasonable, and that is all we have to offer the home seeker.

The above article was clipped from the Banner-Ledger of Ballinger. We are sorry to say that Santa Anna is in the same fix. We are short fifty houses at the very least. Families are forced to pass us up every week on account of the house shortage.

a-days to hear some good lady say, "Oh, I do wish my neighbors would keep their chickens at home." Another good lady has decided not to try a garden this year because she feels that she "just must get along" with her neighbor across the street and she realizes that if those chickens pester her garden like they did last year, she will be compelled to say things she ought not to say.

If you are vainly trying to get along and let your chickens run at large, it is time you reconsidered and put them up or sold them to some one who is not trying to garden this year.—Winters Enterprise.

Master James Gipson Host.

Master James Gipson was host to an exceedingly joyful birthday party one afternoon last week in honor of his sixth year. The list of invited guests included the little members of the kindergarten school.

On their arrival they were greeted by James and asked into the parlor where they played many childish games and Mrs. Gipson, mother of the host served them popcorn. They played the Victrola and examined all the little gifts the guests brought and late in the afternoon, Mrs. Gipson served gelatin with whipped cream and delicious cake.

Kodaking Party.

The Kodaking party to the mountain on last Monday afternoon, planned by Mrs. Ed Wallace, honoring her visiting sisters, was brimming over with gayety and enthusiasm. The personal of the party included Mrs. Katie Barkdale of Ft. Worth Mrs. Bessie Carlton of Denver, Colo.; Mrs. Linda Bruce of Gainesville, Texas; Mrs. Ed.

"Same Goods for Less Money"

Are You For a Greater Coleman County?

?

"If you are not for me you are against me"—scripture. If you are for Coleman County, you are ready to back every legitimate business enterprise that will in any way prove beneficial to the various interests of the county.

The Brinkley Brick & Tile Co., means the addition of hundreds of families to this county and town. That means 100 more bank depositors, one hundred more homes, one hundred more dry goods, grocery, market, hardware and furniture, drug, water, light, gas, school and church patrons. It means a pay roll when we get under good headway that will reach across this county both ways, something this part of Texas never had and never will have until we see the light of co-operative investment, and back up with our dollars what our better judgment says "IS GOOD."

"The man that lives for self alone, digs his own grave of public condemnation." We offer a dividend paying investment for every dollar of investment money in Coleman County. Added to the individual dividend feature, is the co-operative, growing, expanding, improving, building, creative features that should appeal to every citizen of constructive mind to such an extent that only the size of his bank account would limit his co-operative encouragement.

Surplus Money

Surplus money should be invested, not spent, and if it is not invested it is soon spent. Idle money is worth no more than idle hands, and idle hands seek for mischief.

We do not ask any man to put his money in this enterprise for the speculative purpose alone, although we have every reason to believe that there are few speculative propositions that offer better inducements to the man who likes to take a chance. We look upon this as a business enterprise. An enterprise that will grow and develop, expand and enlarge, until it will be one of the real big business organizations of the State.

To our way of seeing and believing, it is bound to become one of the best dividend payers in the Southwest. The very fact that we take an article of no commercial value, and by a little work, and a little heat, turn out a commodity that is of great commercial value, and in demand to the same extent that gold is, in demand, assures us that the amount of dividends we pay will be only limited by the amount of our output.

If you have surplus money, invest it. Invest it with business men in a business enterprise, that will build up your state, that will produce wealth for you and the generations that follow after you. That will give men employment, that will furnish the material for the building of homes, of cities, factories, highways, all of which are necessary to a great nation.

Co-operation is the keynote to success. It took the COMBINED power of the world to crush Germany. So long as each nation fought its own battle, Germany was the winner. But just as soon as the armies were combined under one great command, Germany was smashed. My dollar and your dollar playing their individual game get no where. Combine my dollars, with yours and your neighbors and their neighbors in one endless chain, and we have the strength to build to the glory, to the usefulness and to the financial betterment of countless thousands.

"God made man out of the clay of the earth" we follow in his footsteps in so far as it is possible. We are going to make the things that are most useful to man, and make them out of the "Clay of The Earth" and in so doing reap financial success, mental satisfaction, and leave something that will live after us.

If you are interested in this proposition, write, Phone or call at the office and we will gladly enter in to every detail of our plans with you.

BOOST YOUR HOME TOWN.

The attitude you maintain toward your home town—its business men and its institutions—is reflected in the success or the failure of the same. The success and happiness of every citizen in any community lies in the interest he takes in that community and the good work he can do to assist in its upbuilding. Everything you can do to help the advancement of your own community you do just that much toward your own personal success. No man can live and prosper unto himself alone, for you are inter-dependent, and realizing this, as good citizens, you should unite and pull together for the common good, and doing this you will prosper as a community and as individuals. No town can stand still. It must either go forward or decline, and it is up to you which it will be. Some towns hustle and grow—that is, the people hustle and the town grows. That they get the habit of boosting until every citizen becomes a booster, and pretty soon its reputation is made and it becomes known far and wide as a good town, while others lapse into a state of coma that soon classes them among the dead ones. Nothing hurts a town more than knocking. If you can not say anything good, don't say anything and above all, don't knock. If you are not a booster, become one. The success of the retail merchant depends on the patronage of his home people. The home jobber is largely dependent on the patronage of his home retailer, and the banks are dependent likewise on the success of all, while the success or happiness of the people depends on the success of the business men. One of the greatest injuries you can do your home town or community is to order your goods from mail order houses or patronize outside concerns. Every dime you send away from your community to a mail order house is removed from local circulation, it's principal and interest both gone, whereas, money spent at home comes back to you again.—Bulletin.

Cost of Bad Roads

Triekham, Rockwood, Whron and Shield as well as north of the mountain, know now what bad roads cost. Following the complete crop failure of 1918, we raised a bumper crop in 1919, the rain which was responsible for the crop at the same time made our roads impassible, our good people who had worked so hard to produce the crop could see prosperity ahead with nothing in the way but a few miles of impassible roads. Debts that you in your honesty wanted to take care of remained unpaid. The new house or auto that you had promised the good family who had worked so hard to produce the bumper crop, could not be bought and all caused by a mud hole between your house and the railroad.

Coleman County will produce bumper crops again, are you going to be caught in this fix the next time? To be safe Vote for the Good Road Bond March 13th.

GOOD STORES—Great mercantile successes are never achieved from dismal and unattractive surroundings. Bats, owls and a few others seek the darkness, but all others bask in the sunshine of life. Neatness, tidiness, brightness, happiness, all are attractive to the one whose soul is the same—and humans, like the butterfly, seek the bright spots of existence. Be wise.

Cold settled in the muscles of the neck, arms or shoulder makes every movement painful. Use Ballard's Snow Liniment. It relieves the pain and relaxes the muscles. Three sizes, 30c, 60c and \$1.20. Sold by Corner Drug Store.

The Bride

The little bride is left alone
With him, her lord; the guests
have gone;
The festal hall is dim.
No jesting now, nor answering
mirth.
The hush of sleep falls on the
earth
And leaves her here with him.
Why should there be, O little
bride;
When the world has left you by
his side,
A tear to brim your eyes?
Some old love-face that comes
again,
Some old love-moment sweet
with pain
Of passionate memories?
Does your heart year back with
lost regret
For the maiden meads of migno-
nette
And the fairy-haunted woods,
That you had not withheld from
love,
A little while, the freedom of
Your happy maidenhood?
Or is but a nameless fear
A wordless joy, that calls the
tear
In dumb appeal to rise,
When, looking on him where he
stands,
You yield up all into his hands,
Pleading into his eyes?
For days that laugh or nights
that weep
With life's tide at the brim;
And all times beauty, all love's
grace
Beams, little bride, upon your
face.
Here, looking up at him."

Jones-Neil.

The home of Mr. and Mrs. S. A. Neil was very beautifully adorned on last Saturday evening for the wedding of their daughter, Lois, to Mr. S. C. Jones of Big Spring, which was solemnized at eight o'clock.

The home was beautiful in its arrangement for the occasion, and in the parlor where the ceremony was performed lace fern and snow white chrysanthemums were elaborately clustered in bridal motifs and arranged in many attractive ways. Rev. Renolds, of the Baptist Church, performed the ceremony using the beautiful ring ceremony.

This wedding came as a surprise to their numerous friends and only the relatives were present.

The bride wore an exquisite wedding gown of white georgette crepe, hand embroidered in silk by the bride in a beautiful pattern of white chrysanthemums with white georgette picture hat and all accessories in harmony.

The bride is a very charming christian young woman, who has resided in Santa Anna for several years and has made many friends.

The groom is the son of Mr. and Mrs. J. S. Jones of this place but for several years has not resided here. He is a man of ability and holds a responsible position as manager of the Big Spring Electric Co.

Immediately after the ceremony Mr. and Mrs. Jones left for their home in Big Spring, the bride wearing her going away gown of navy cloth with hat and all accessories to harmonize.

Turner-Hunter.

The wedding of Miss Loleita Hunter and Arthur Turner which was quietly solemnized at the Baptist church on last Wednesday evening directly after prayer meeting, came as a very sudden surprise to their wide coterie of friends, no one but the immediate families knowing of it. The church was very pretty in its adornment of lovely and fragrant pink and white carnations arranged very artistically with the green background of lace fern foliage. These s a m e

fragrant pink and white blossoms being clustered at the altar and on the piano.

The bride and groom entered to the strains of Mendelssohn's wedding march, played by Miss Thelma Kelley, and were met at the altar by Rev. Renolds, pastor of the Baptist Church, who performed the ceremony. There were no attendants.

The bride wore a lovely navy blue spring suit with hat, veil and all accessories to harmonize. Mrs. Turner is the charming and accomplished daughter of Mr. and Mrs. C. K. Hunter and has enjoyed much popularity.

The groom is the son of Mr. and Mrs. Horace Turner of this place and is a young and very promising business man. Mr. and Mrs. Turner left Monday in their car for their new home at McAllen, on the Rio Grande.

Stewart-Perry.

The marriage of Miss Anzo Perry and W. J. Stewart of Rockwood, which was solemnized in Coleman at the home of Rev. Dawson on last Saturday evening comes as very interesting news to numerous friends of both parties. It was kept a secret until after the ceremony was over, being an unattended, and quiet wedding.

The bride wore a beautiful blue suit with hat, boots and gloves all to match.

The bride is the lovely and charming daughter of Mr. and Mrs. T. T. Perry and is well known as she has lived here all her life.

The groom is a well-to-do farmer of Rockwood, where he has lived for sometime. Mr. and Mrs. Stewart left Sunday morning for their home at Rockwood.

News for this department must be turned into Miss Standly by Tuesday morning as it is sent to Coleman to be set and the type which comes in later has to be set up by hand. Please phone all social items in before that time to insure publication.

MANY GOOD-ROAD PROJECTS

Oklahoma Leads Country in Size of Single Scheme Handed During the Month of July.

(Prepared by the United States Department of Agriculture.)

Among the special features of the recent federal aid road record as kept by the United States department of agriculture are three road projects to cost over \$1,000,000, one of them over \$2,000,000. Pennsylvania had first place in the number of statements approved during July, the amount of federal aid allowances, and the estimated cost of roads to be constructed, while Nebraska turned in the greatest mileage. Seventeen projects in Pennsylvania approved will cost \$4,607,028.41 for which the federal aid is \$1,968,997.40. Ohio with 12 projects came next to Pennsylvania in the number approved and in the estimated cost of the roads to be improved, and third in the amount of federal aid.

Oklahoma's two projects occupy third place for the month in the estimated cost of the roads and second in the amount of federal aid allowance. This state leads the country in

the size of a single project handled in July. It is estimated to cost \$1,271,555.60 for which \$600,000 federal aid is allowed.

In the record of approvals for the month of August Arkansas occupies first place in the estimated cost and mileage of projects and in respect to the largest project. Minnesota is first in the total number of projects approved, namely 11, and second in the amount of federal aid allowances. Pennsylvania received the largest amount of federal aid and her six approved projects come second in the estimated cost of the roads.

On a Massachusetts project, a short concrete road, the estimated cost is

at the rate of \$127,864 a mile. This is the highest average cost per mile so far shown in any federal aid road. A bituminous brick or concrete road in Ohio will average \$67,716 a mile and 7.14 miles of concrete or brick in Pennsylvania will average \$64,015, while another project in Pennsylvania will average \$56,443 per mile.

BETTER ROADS IN AUSTRALIA

Recommendations Made for Central Commonwealth Organization to Aid Construction.

Recommendations have been made to the Australian government by various scientific and industrial organizations that there should be a central commonwealth organization to collaborate with state and local authorities in promoting the construction of good roads throughout the commonwealth.

Some farmers evidently consider the roadside along their farms as distinctly separate from and wholly outside of their jurisdiction, and any time or labor expended in keeping it up as so much gratuitously donated to the public. Every farmer should consider the roadside along his farm as deserving as much of his attention as the farm itself. He should consider the road the "front way" to his farm, and instead of its receiving secondary attention, it should be one of the first places by which the appearance of the farm is improved.

MOVEMENT TO BETTER ROADS

State of Maine Votes to Increase Bonded Indebtedness From \$2,000,000 to \$10,000,000.

(Prepared by the United States Department of Agriculture.)

Maine, by an overwhelming vote, recently endorsed the proposal to raise the bonded indebtedness of state highways from \$2,000,000 to \$10,000,000, giving an additional \$8,000,000 to be spent on the state road system. This is one of the instances showing a country-wide movement for better highways, as reported to the United States department of agriculture, which administers the federal aid road act.

Roads Not Developed.

That the roads in this country, although greatly improved since the coming of the automobile, are not yet universally developed to the point where they should be was demonstrated during the stress of war.

Save Truck Owners Money.

Truck owners know that good roads not only save them money but the shipper and public as well, because they can make faster time and at a saving in operating expense.

Factor in Education.

The increasing use of the automobile has been the greatest factor in educating the people, particularly of rural communities, in the importance of good roads.

FARMING LIFE WORTH WHILE

Neighbor Probably Willing to Join Community for Better Roads and Other Things.

Whether or not your neighbor believes as you do he is probably willing to join you and the rest of the community for better roads and other things that make farming life worth while. Give him a chance to be progressive.

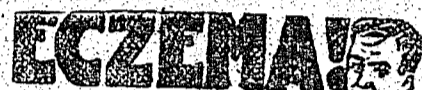

GOOD ROADS CONGRESS DATE

Ninth Annual Gathering to Be Held in Louisville, Ky., During February, 1920.

The ninth American Good Roads congress, under the auspices of the American Road Builders' association, will be held in Louisville, Ky., the second week in February, 1920. A good roads show will be held at the same time.

Influence of Good Roads.

The influence of good roads on social and economic conditions, upon the development of industrial and farming pursuits and the promotion of business is recognized in the majority of the communities of this country.
