BUYS ACREAGE SHALLOW FIELD FOR DEVELOPMENT

We understand that Charles Duce, of Kansas City, Mo., has just purchased the entire shallow field holdings formerly owned by the Brazos River Oil Corporation, 66 Broadway, New York City, and is now making arrangements for a complete development of the holdings. The property is located in the heart of the shallow field, and consists of thirty-one acres of proven territory with eleven wells and considerable tankage and drilling equipment.

Mr. Duce will have the co-operation of Dave Gully, who is now managing the W. G. McAdoo interests in Brown county, in the further development of the acreage. This is Mr. Duce's second visit to this district since last October, when he purchased six hundred and forty acres.

STEP MOTHER SENDS YOUTH TO DISGRACE BY INNOCENTLY DEMANDING NAME OF "MOTHER."

"Bill Apperson's Boy," in which Jack Pickford will be seen at the Best Theatre, starting Wednesday and Thursday March 3rd and 4th benefit High School is a story showing a keen insight in the ways of the Blue Ridge mountaineer. It is based on the story "That Woman," by Hapsburg Liche, a writer who has long lived in that vicinity and dozens of whose stories have appeared in the popular periodicals. Has Typical Mountain Traits.

Jack Pickford plays Buddy Apperson, the leading character, who is pictured as a boy of about eighteen. In a rapid series of humorous and serious events the picture delves deeply into the heart of the mountain lad, depicting his bravery, his devotion to the memory of his mother, his stubbornness, his independence, and his bashful love.

Buddy is represented as a lad who has just fallen in love with Martha Yarnon, the only girl in a family of six sons who are more or less trifling. Buddy earnestly urges his suit despite the jeers of the Yarnon boys until an open break comes about. One of the Yarnons makes a slighting remark about Buddy's father, Bill Apperson, and Buddy attacks him in a long fierce fight follows. The end of it Buddy has the Yarnon lad thoroughly whipped.

Family Feud Begins.
This is the opening wedge in a gulf which opens between Martha and Buddy. When his father brings home a new wife, and asks Buddy to call her "Mother," the lad refuses, and leaves home. He is found inside the home of the Yarnons at night, under suspicious circumstances, tried for burglary, and has many other troubles before he is finally united with Martha in the midst of a reconciled group of Appersons and Yarnons.

The picture was made in a beautiful mountainous region, and the mountaineer types used in it were specially selected from natives of the region. Gloria Hope, a very pretty young screen star has the part of Martha Yarnon, and the part of Bill Apperson is played by Russell Simpson, one of the finest actors of mountaineer and Western types on the screen.

P. E. Snook, who formerly lived at this place, but who is now working in the oil field at Coleman, visited friends in Santa Anna Sunday.

Mrs. Bullock of Fort Worth is visiting her sister, Mrs. Harrod this week, at the hotel.

NEW STANDARD RIG TO BE USED HERE

R. R. Mengo, manager of the Gladys Belle Oil Company, at Santa Anna announced that they have a new standard rig coming from Hamilton, which they expect to arrive here this week and will be placed on their holdings as soon as it arrives.

When this machine arrives it will make five they have in this field. Mr. Mengo says they have all confidence in this field and are showing this by the money and time they are devoting to this part of their holdings.

They now have two wells on the sand that they expect to be good producers and are waiting on a shooter to come from De Leon, which is expected this week to shoot the wells. After that they will be cleaned out and given a thorough test. These wells are Pope No. 5 and Watson 2.

CROSS PLAINS WELL STRIKES BIG PAY AT 3773 FEET—1000 BBLs?

The Vestal well of Consolidated Oil Company, one and a half miles northeast of Cross Plains, in Callahan County, struck the big pay at 3773 feet, according to reports reaching Coleman Wednesday.

May Be 1000 to 2000 Bbls.
Local oil scouts who visited the well late Wednesday, and returned to Coleman Thursday morning, report that the well is flowing by heads every hour, about 10 barrels each flow, which would make the production from 240 to 300 barrels as the well stands. The sand has only been touched.

Well is 10 Miles from Mitchell Field.

The bringing of the Ranger big pay to within ten miles of Coleman county production strengthens the belief of the local oil fraternity that big pay may be expected here at any time. The Vestal well is about six miles west and southwest of the Hilburn well, which is now making 400 barrels pipe line measurement. The Hilburn well brought the Ranger pay from twenty-five to thirty miles closer and the big pay is following the anti-cline which extends from northeast to southwest across Coleman County.

The Vestal well, it is said, had been given as hopeless at 3500 and had been shut down for orders for some weeks. Renewed drilling uncovered the pay at 3773.

Gulf States Building Rig.
The Gulf States Oil & Refining Co., Babington tract, two miles southwest of Coleman is building rig and it is stated that contract for second rig has been let. Location for Gulf States No. 1 is 300 feet north of the producing well on Babington tract, which is now making from 10 to 40 barrels after cleaning and replacing pump.

Magnolia 9 is a Producer.
Magnolia 9, Morris tract, which developed oil at 2612, has not been tested thoroughly as yet and its production is problematical. The initial test of the well showed only about 30 barrels production but it is believed the well may be good for 100 barrels.

Hamilton County Equipment Here.

The Dencie Oil Company, operating in the Santa Anna field, has ordered its Hamilton county equipment shipped here, which means greater development by the Dencie company here. It is stated that the Dencie equipment in Hamilton county includes one or more standard rigs for deep development.

NEW BAPTIST PASTOR ARRIVED; PREACH SUNDAY

Rev. J. M. Reynolds and family, of Alvin, Texas, arrived this week to assume his duties as pastor of the First Baptist church of this place. All of his household furniture has not arrived but he expects this, this week then they will be at home in the Baptist parsonage.

Rev. Reynolds is a former newspaper man and has made himself at home with the local force, and we are always glad to greet such men and he and his family to our city.

You are invited to hear Rev. Reynolds preach at the Baptist church Sunday morning and evening.

BAD ROADS CAUSE LOSS OF \$250,000 TO COUNTY

On account of bad road conditions and not having a good way to reach the Rockwood locality on the Colorado river, D. F. Standley, gin man of this city, estimates that the market at Brownwood lost about two thousand and bales of cotton during the present season. Mr. Standley says the Brady road which is a good road and traverses the Rockwood locality, is a feeder for all the country roads in that community and as the Brady road runs to Santa Anna and Coleman the cotton is taken to those places instead of being hauled over twenty-two miles of bad road to Brownwood.

What is most needed in this respect is a good gravel road from Brownwood into the Rockwood community so farmers can bring their cotton and other produce to this place easily and quickly, says the gin man. In this connection Mr. Standley gives it as his opinion that the farmers of Brown county, during the present season have lost not a cent less than \$250,000 because of bad road conditions and that \$50,000 of this amount represented cotton seed, with another \$50,000 for cotton, and all due to the fact that the cotton seed and cotton could not be brought to the mills and to market at the proper time. Delay caused deterioration, in the matter of seed, to such extent that in some instances they could not be used in a profitable way by the mills.

The above article was taken from the Brownwood Bulletin. It goes on to show you that we must have our roads in first-class condition, if we meet our neighboring towns. Brownwood admits that we have taken the trade from her merchants. And she is going to make it hot for us in the near future. So look the proposition over and let's improve our roads. We can easily have all the Rockwood trade with a little road improvement.

Revival Meeting

Big revival at First Christian Church beginning first Sunday in April and continuing throughout the month. Rev. Paul E. Wright of Santa Ana, Cal., evangelist. Mr. Wright comes as a live wire evangelist and is a brother to our esteemed Christian, business townswoman, Mrs. Ruby W. Chowning.

We trust that all Christians will be ready to co-operate in these evangelistic efforts.

PRESENT METHODS OF ROAD BUILDING FAILURE

(By J. A. Norris, Talpa.)

Coleman County never needed good sound business management more than it does today. We need men as commissioners who have business foresight to anticipate and meet emergencies, men who can formulate some plan to get more work and less time for the money spent.

We need men at the head of the county's affairs who are capable of making a success of their own affairs before trying to run the county's business. It is poor business to elect men to office on the poverty or sympathy plea, just because they need the office. If a man fails at his own business, the county cannot expect anything to its advantage by electing him to manage its affairs.

I suggest the following plan of meeting the situation, if a better plan is not to be had: Let each voting box select one of its most able citizens, whether he wants the office or not, then select one man or a committee to meet with the other boxes of the precinct and discuss the merits or demerits of each man and make selection from the number, then elect him, and all stand to and co-operate with him in his undertakings. If this plan is carried out I believe we would soon get relief from the present unhappy situation.—Democrat-Voice.

FIRE COMPANY MAKES GOOD WITH SHOW

The local fire company wishes to thank the people of Santa Anna and surrounding country for their liberal patronage at Brunk's Comedians big tent show all last week.

The show was fine every night and large crowds gathered early, to be sure to get seats. Harley Sadler, your favorite comedian, made a big hit with old and young alike. The splendid orchestra was not lacking in any respect.

The fire company realized, above all expenses \$205.00. You will find at the Corner Drug Store and C. K. Hunter's Drug Store a deposit box for the fire company. Drop your donation in. Help make Santa Anna safe from fire.

POST OF THE AMERICAN LEGION ORGANIZED

On Monday night a meeting of the returned soldiers, sailors and marines was held at the Stockard Hall for the purpose of organizing a Post.

A temporary organization was made. Dr. T. R. Sealey, post commander; C. D. Eaves, vice-commander, Lee Mobley adjutant; Dewey Pearatt, finance officer.

Dues were collected at \$1.25 for each member, which was sent to the National and State headquarters.

The Post was named Jack Lafflin, in honor of the only Santa Anna boy killed in action.

Any honorary discharged soldier, sailor or marine or any woman, who served during the world war is eligible for membership.

On account of my wife and baby being down with the flu, a number of interesting items were left out and others cut short. Forget our short coming, this week and we will try and do better next week. Trying to edit a paper, being chief cook and bottle washer, laundry maid, errand and head nurse keeps one on the jump. We thank

CORNER DRUG STORE CHANGES HANDS

The Corner Drug Store, formerly owned by G. A. Shockley and W. A. Helm was sold last week to C. W. Woodruff, J. P. Woodruff and C. M. Madden. Mr. Shockley will remain with the firm and hold the position as registered pharmacist. He is well known here and needs no introduction, for his work speaks for itself.

C. W. Woodruff will be manager. Everyone knows Mr. Woodruff, for he was connected with the First National Bank of this city for the past seven years. His congenial personality and thorough business principals insure the company a big success.

J. P. Woodruff is a young man of steady habits and is well liked by all. He has been connected with the Turner gin in the capacity of bookkeeper and office manager. He is well known and a live wire.

C. M. Madden is a college chum of J. P. Woodruff. Formerly from Houston, where he held a responsible position. He comes highly recommended as a first-class business man.

Mr. Helm will leave our city in the near future for some western city. Mrs. Helm has been in poor health for some time, and for that reason he decided to dispose of his business interests here and make a change in the hopes of improving his wife's health. We regret very much to lose Mr. and Mrs. Helm from our city and wish them well in their new location.

CROSS PLAINS WELL CAUSES MUCH INTEREST

The Vestal well on the J. Dyson tract, two miles northwest of Cross Plains, came in with a production of a thousand barrels a day, one day last week, according to reliable reports. According to later reports the well had increased to fifteen hundred barrels. The depth of the well is somewhere around 3500 feet.

The Dyson well, it was said, had been given up as hopeless by almost everybody except the drillers on the job. Several strata of water had been drilled, and there was little indication of oil production. The drillers doggedly continued their work, however, until a depth of more than 3500 feet had been reached and the well came in with a thousand barrel production after having barely touched the sand.

The Hilburn well, east of the Dyson and nearer Rising Star, has not been drilled any deeper into the sand, but is showing a production of four hundred to six hundred barrels, according to reliable information reaching here.

PATTERSON WELL IS TO GO 3500 FEET IN DEPTH

The well on the Patterson farm over in Brown county, which is showing excellent signs of oil is to be carried down to a depth of 3,500 feet, according to a report of people who were in from that locality last week. The well is now producing a barrel or two of oil daily in the 1600 foot sand. Parties who are familiar with the situation believe if the well is put down to the deep strata a gusher will in all probability be brought in.

Mr. Frank Jackish, fiscal agent for the Texas Best Oil Co., left for a visit in Dallas, San Antonio, Mission and different points in Texas. He will return soon.

A number of Coleman people came down last week to attend the show as well as the dance given at the Harrod Hotel last week.

We sincerely regret the absence of our report for several weeks past, but "tempus fugit," and it flees fast, so we have very little time left.

CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Killman, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, back ache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

Worthy of Your Confidence

THE BRINKLEY BRICK & TILE CO., comes to the people of Coleman County, to the people of Texas and to the people of the whole United States with a clean cut business proposition, one that we are glad to say will stand the closest investigation, one that we are proud to have even the most skeptical to pry into and examine with a glass of the highest magnifying power, and if for any reason you find it not what we claim it to be, run from us like running from wild fire.

We claim for this company that it deserves the united support of all the people interested in the up-building of this particular part of Texas. We claim we have an enterprise that in time will attract the attention of more people to this part of the State than any one thing ever attempted. We claim that our officers and trustees are all honorable men of the best known financial ability, men who have made a success of their own affairs and are capable of making an equal success of this company's affairs.

We claim we have back of this enterprise, natural resources of such magnitude that it would be folly to attempt to value them.

We claim we have a demand for our products that is not only state-wide but nation-wide, at a price that even the most timid and short sighted can readily see that the financial success of this company can not be questioned.

We claim every knocker as our friend and invite them to get out their twenty-four pound hammers and pound away at us, they will only make us stronger by assisting us to settle the foundation of this manufacturing structure on the bed rock of everlasting success.

You and I have the predominating characteristics of an optimist or a pessimist. We are making daily and hourly our own degree of happiness and prosperity.

Every man in this company or connected with it in any way is an optimist, a builder, a doer. We want the optimists with us, the builders with us, the doers with us, the pessimists and knockers we will have behind us always.

Last week we mailed you a little folder giving you in a short way the plans of this company, the possibilities of this company and its value to this section of Texas. If you read it, you must be interested in this company. If you failed to read it, we ask that you look it up and read it carefully, it will be time well spent and may mean great things to you and yours.

Our agents are now in the field, they will no doubt see you in a few days and if there is anything about this company that you are not sure about, they will explain it to you. If for any reason they can not explain it to your entire satisfaction take the matter up with the main officers and we assure you we will be able to convince you of the real intrinsic value of every feature of this business-building development undertaking.

In the mean time remember. That stock is selling every day. Experienced business men are buying it, farmers are buying it and all money received from the sale of stock will be used for the good of all the stockholders in the building of a manufacturing establishment that will have a future as lasting as this old mother earth itself.

Be men of faith, have faith in your own county and its natural wealth, have faith in its future, have faith in your better judgment, and back up this faith with your surplus money and you are bound to be a winner in the end.

Just stop and think for a moment of the building activity that is now in progress. Nothing like it ever known, and brick and tiling are the materials used most universally. This being so, how can we go wrong in making these things?

The brick and tile plant is only one link of the great chain of enterprises we hope to build. As soon as we get the Coleman plant going full speed we will drop down to Santa Anna and build our big secondary plant there. In it we will manufacture all kinds of Glass, Cement, and a class of fancy brick which the sands and shales of that part of the county are specially fitted for.

Remember we will own our own gas wells, our own pipe lines, in fact everything in connection with the manufacturing and sale of our products. The two mentioned undertakings are the first we will complete, we have others in view that are just as important and just as assured dividend producers.

Come in with us now while stock is selling at Par, when we get going good, it will advance in price, and the time to get in on any enterprise is when it is first placed on the market. In so doing you get full benefit for all development work done and all advance in prices.

Subscribe liberally for this stock at your first opportunity—join hands with the progressive builders for Coleman County and Texas.

PERSONAL AND SOCIAL

Leave a little unsaid if you would be counted interesting.

Men rarely are drawn to women who are obviously their intellectual superiors; yet a woman must be at least a man's intellectual equal to win him wholly and permanently.

A large crowd of Coleman boys and girls accompanied by the Coleman orchestra, motored from Coleman on last Thursday evening for a dance at the Harrod Hotel. There was a large crowd and very inspiring music that made this one of the most enjoyable affairs of the week.

Mrs. Mide Prickett has returned from market to different points buying for new millinery shop she has opened in Mr. Shield's office. Mrs. Prickett is showing some lovely creations.

W. B. Brown, one of our progressive farmers, makes our local egg dealer a visit every week with not less than forty dozen eggs. That is not a bad sideline, from \$15.00 to \$20.00 per week will help run down the high cost of living.

Mr. Chas. Madden, one of the proprietors of the Corner Drug Store, was in Brownwood this week.

Mrs. Kate Bowden, of the Texas Mercantile was in Brownwood last week on business. Mrs. Bowden leaves Friday and will be connected with the Looney Merc. Co., of Brownwood hereafter. Many friends regret this for they have found Mrs. Bowden to be a woman of highest esteem and will miss her very much.

The Colonial Tea that was given by the women of the Advisory Board for the Hospital on last Saturday afternoon was not only a complete success from a financial, social and artistic standpoint, but was one of the most enjoyable affairs of this sort.

Leman Brown attended the meeting of the bankers of the Sixth District at Ballinger last Friday and Saturday. Mr. Brown was elected chairman for the Sixth District. This is quite an honor and we are proud to announce that one of our bankers received the appointment.

The program dealing with the Colonial period featured the artistically decorated appropriately for the occasion and those who were on program were beautifully gowned in costumes of this period. They gave an hours program that was quite interesting and each one deserves much credit for their services and much praise must be given the members of Miss Smith's expression class.

Tea was served during the entire afternoon and the ladies cleared about \$33.00 from this enjoyable affair.

Miss Winnie Todd was hostess to a spend the day party at her charming country home on last Saturday. The invited guests included members of the Junior and Sophomore classes and the J. D. J. girls. They met about nine o'clock at the home of Miss Clara Childers and went from there to the Todd home in cars. Soon after their arrival there, they were requested to motor back to town for supplies, these supplies went to spread the most delicious dinner that these girls have had the pleasure to enjoy in a long while.

After noon the entire crowd motored back to town for show, forming a matinee party for the Brunk's Comedians, later attending the Colonial Tea.

Mrs. L. W. Hunter entertained the Merry Wives most charmingly at her home on last Thursday afternoon. The entire afternoon was spent in fancy work

and chatting. The rooms were tastefully displayed the spring motif with bunches of spring blossoms here and there.

A large crowd was present not only the members but a number of invited guests were there. At a later hour the hostess served her guests with potato chips, sandwiches and delicious tea.

Try One Brunswick Then Decide

The best way to know for yourself the superiority of the Brunswick Tire is to buy one and compare it.

That is, if the very name of Brunswick isn't sufficient proof to you, as it is to most men, that here is an extraordinary tire.

Thousands of men who have known the name of Brunswick for years, realize that a Brunswick Tire has to be the best—for a mediocre product could never bear this historic name.

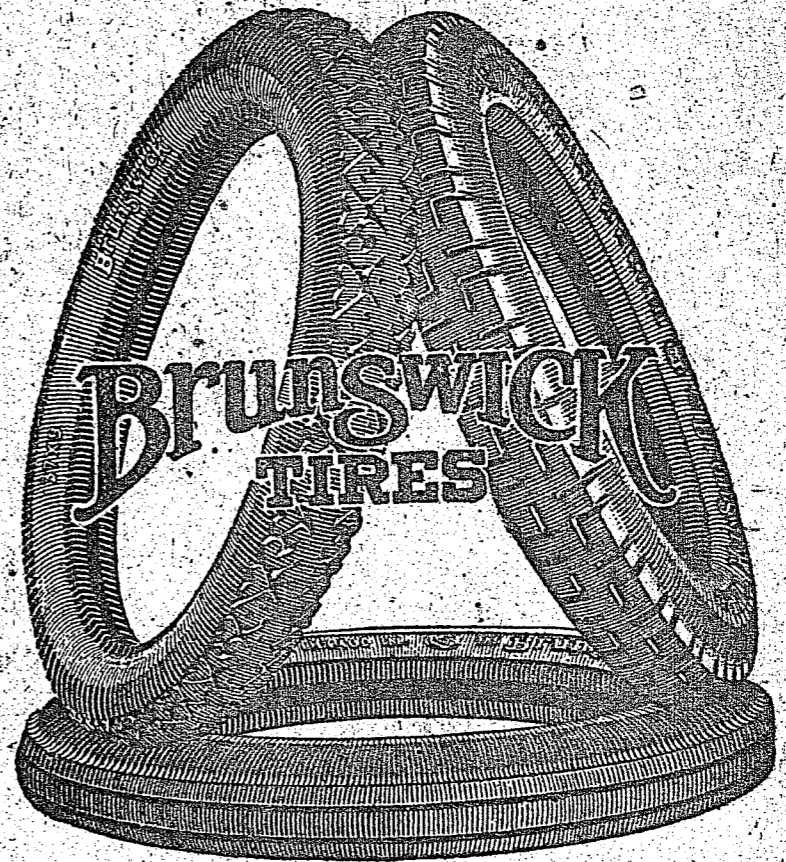

Long before the Overland Trail became famous, the House of Brunswick was established. It was one of the chief users of rubber for fifty years before automobiles came into use.

No concern with such a history could afford to offer anything but the best. For reputations are built slowly, but can be quickly destroyed.

This is a practical guarantee that Brunswick Tires offer more than the usual, yet at no added cost.

Get your first one now. You'll not be satisfied until you have ALL Brunswicks.

Penny executed and delivered their certain promissory note for the sum of \$75.00 due Oct. 15th after date bearing interest at the rate of ten per cent per annum from date and providing for ten per cent attorney's fees if sued upon; that said note is due and unpaid and plaintiffs have failed and refused and still fails and refuses to pay same or any part thereof to plaintiffs damage, in the sum of \$75.00 interest, attorneys fees and costs of suit.

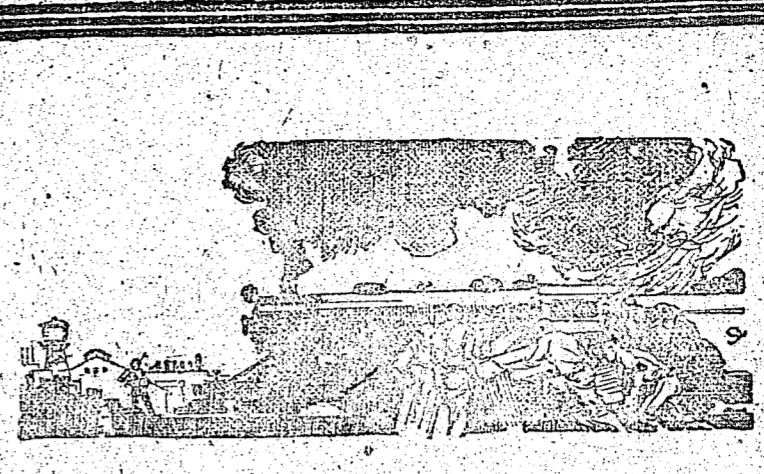

Herein fail not but have before said court on the said first day of next term thereof to be held on the 15th day of March, A. D. 1920; this writ, with your return thereon showing how you have executed the same.

Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation—have added **dollars** to the cost of the necessities of life, while freight charges have added only **cents**.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for \$30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16½ cents.

Now the freight charge is 22 cents and the suit sells for \$50.

The cost of the suit has increased 20 dollars. The freight on it has increased only 5½ cents. Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailors—but these other charges amount to but a few cents more.

The \$10 pair of shoes that used to sell for \$5 goes from the New England factory to the Florida dealer for a freight charge of 5½ cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world.
